

Fair Committees Named, Study Change Of Date

Thirteen officers and directors of the Floyd County Fair Association met at the Lockney High School cafeteria last Thursday evening, named committees to work on the fair this year, appointed superintendents of the various divisions and considered changing the date of the fair. President Charlie Goedecker presided over the meeting.

Superintendents of the various divisions at the fair were named as follows: Livestock division, Doyle Mount; Agricultural division, Chester Mitchell; Women's Division, Mrs. R. H. Tinsley and Mrs. Harry Morck.

The board decided to invite adjoining counties to have county exhibits at the fair providing space can be made for them. Instructions were issued to prepare the copy for the fair catalogue and get it to the printers by July 15 with delivery requested by August 15. Catalogue advertisements are to be sold today.

Announcement was made that arrangements had been completed for the all-cotton style show as last year.

The board appointed Howard Cooper as director replacing Bill McClaskey, who has moved away. The number of items in the county exhibits was raised from 25 to about 45. Secretary Dick Whiteley said.

On Friday, June 1, Wanda and Frances along with their mothers, Mrs. John Cox and Mrs. Carl Lemons, went to Lubbock to meet their teacher sponsor for this tour. There were ten girls and their mothers and sponsors present. It was enjoyed very much and seems to be the beginning of their fun.

Tornado Sighted, Hail Hits Area

Last Thursday and Friday marked unsettled weather in this area, with tornado warnings flashing around and hail wiping out crops in some sections.

On Thursday afternoon a tornado passing toward the northeast some 15 or 20 miles northwest of Lockney, was plainly seen by numerous people of this area and caused considerable alarm. Many people sought shelter in storm cellars. The tornado did little damage, however, and soon disappeared.

On Friday a hail storm struck the Barwise Sandhill area south and southwest of Lockney, doing considerable crop damage. The damaged area was believed to be about six miles long and from one to two miles wide extending from the Barwise area to a point north of Sandhill.

Heaviest hit in the storm apparently were D. D. Tate, LeRoy Durham and Johnny Miller. Cotton was damaged from Cotton to total, Durham said he figured his was damaged 50 percent. Some wheat was lost in the area also. Some other farmers who were damaged were Pat Frizzell, Glen Kinard, Joe Rogers, Forrest Mickey, and Lynn Miller.

The hail fell straight down without any wind, residents of the area said. Some rain fell with the storm.

This week the weather has turned very warm and farmers are busy spraying cotton for

thrip.

The order accident occurred when Dwayne and Layne Poteet, driving a 1955 Chrysler, a dirt road northwest of town, stopped to talk with hands in a field. Mrs. Kenneth Wofford, following behind them in a 1956 Pontiac, swerved to miss the Poteet car but struck the left rear fender. The right side of the Wofford car was caved in and Mrs. Wofford and her daughter, Jean, were shook up. Jean received a bad bump on her head.

Thrip Infests Cotton In Area, Rodgers Warns

The thrip infestation in Floyd County is serious, County Agent Bill Rodgers said the past weekend, and he warned farmers that crops should be sprayed if they hope to keep the bottom crop of cotton.

He said that the insects are attacking young cotton, even in the two-leaf stage, and that they would stunt the growth, setting the cotton back three weeks to a month as well as destroy the bottom crop. The mark of the thrip is crimped, curled leaves and a silvery substance underneath the leaves. The thrip are all over the county and the South Plains as well, Rodgers said, and he feels that it is good insurance to spray even though there are no signs of thrip in a particular field.

Mr. Rodgers recommends spraying for both thrip and flea hoppers at least two times and preferably three times at 7-day intervals. That will clean the field of these two insects and assure a bottom, early crop of cotton enabling the farmer to get to the gin early with white cotton.

Mr. Rodgers recommended the use of spray instead of dust and listed the following as being effective in the control of thrip and flea hoppers. The amount given is the per acre application.

- Aldrin (2 lb. per gal.) — 1/2 pint.
- Heptachlor (2 lb. per gal.) — 1/2 pint.
- Endrin (1.6 lb. per gal.) — 1/2 pint.
- DDT (2 lb. per gal.) — 1 qt.
- Toxaphene (6 lb. per gal.) — 1 pt.

No Serious Injuries On Two Auto Wrecks

No serious injuries came out of two auto accidents, both of which occurred Tuesday morning near here.

Donnie Bybee, farmer of the Barwise community, lost control of a 1950 model Chevrolet pickup on farm-to-market road No. 1310 near the Chester Mitchell home with the result the pickup overturned twice and then struck a power line pole, knocking an 8-foot section out of the pole, and dropping a transformer on the pickup.

Donnie crawled out of the wreckage and suffered only bruises and cuts on his back.

Donnie had just passed a car and started to pass a combine when the accident happened. The pick-up belonged to Joe Rogers. It was believed to be a total loss.

The other accident occurred when Dwayne and Layne Poteet, driving a 1955 Chrysler, a dirt road northwest of town, stopped to talk with hands in a field. Mrs. Kenneth Wofford, following behind them in a 1956 Pontiac, swerved to miss the Poteet car but struck the left rear fender. The right side of the Wofford car was caved in and Mrs. Wofford and her daughter, Jean, were shook up. Jean received a bad bump on her head.

Damage to the Poteet car was estimated at \$175 by officers and to the Wofford car at between \$600 and \$700. Neither car overturned.

State Highway Patrolman Thurman Keffer and Deputy Sheriff Ray Hardin investigated the accidents.

NEW RIGHT-OF-WAY DEMAND THREATENS ROAD BOND ISSUE

2500 Acres Of Vegetables In Western Floyd

Some 2500 acres of vegetables have been planted in Western Floyd County, according to a survey made by The Beacon this week. Acreage figures gathered from Lockney Chamber of Commerce Manager Dick Whiteley and from M. W. Wiley, who is representing several large packers in this area, were the basis of the estimate.

Vegetables planted now or to be planted include onions, tomatoes, carrots, cabbage, bell peppers, cucumbers, cantaloupes and a few acres of various other vegetables planted as an experiment.

The first product to be harvested will probably be cucumbers. They will start coming off about July 10, Whiteley said. A shed will be set up here to grade and pack them. They are being grown under contract.

Onions will start coming off within another 30 days, Wiley said, and right now the market situation looks very good. Other vegetables will be ready for harvest later in the year and extending to frost on some crops.

Mr. Wiley said that some 700 acres of onions had been planted in western Floyd County ranging from the McCoy community in southwest Floyd to Lone Star in northwest Floyd. A large part of the onion acreage is in the Barwise, Sandhill area and some of the onions have been damaged by recent hail.

Tomato acreage is near 500, according to a combination report from both sources. Mr. Whiteley said that he still had some tomato seed and could still write contracts on tomatoes. However they should be planted very soon for this year.

Wiley reported 500 acres of carrots and said that he hoped to have 500 more acres. There is still plenty of time to plant carrots he said.

Cabbage should be planted from now until July 10, Wiley said, and he is expecting 500 acres of this vegetable. Some 200 acres of bell peppers have been planted.

Cucumbers being grown under contract now total 125 acres and also 75 acres of Honey Dew melons (cantaloupes) are being grown under contract. An additional 75 acres have been planted by some local farmers without a contract. Whiteley also has some cantaloupe seed and can write contracts on additional acreage of this plant, he said.

Small plots of various other vegetables are being grown on an experimental basis, Mr. Wiley said. These include squash, slicer cucumbers, eggplant, Savoy Chieftan and a red cabbage.

Pony League Play Starts Saturday

The Pony Baseball League began play Saturday night with two games. Through Tuesday night, the Tigers were leading with two games won and no losses. The Braves had won one and lost one.

On Saturday night the Braves defeated the Reds 7 to 4 and the Tigers whipped the Cubs 7 to 6. On Tuesday night the Tigers won again, this time 10 to 8, over the Reds. The second game was cancelled due to the late hour. It will be made up the latter part of the season.

Pitchers for the various clubs were Tigers, Davis; Reds, Carthel and Bruton; Braves, Minter; and Cubs, Rolling.

Schedule for the week is: June 16: Tigers vs. Braves, Cubs vs. Reds. June 19: Cubs vs. Tigers, Braves vs. Reds.

Mrs. C. Messimer Some Improved

After being critically ill for several days, Mrs. Cammie Messimer, 89 years of age, was reported to be considerably improved at the Lockney General Hospital Wednesday. She is the mother of Frank Messimer and Mrs. Lee Rivers, both of Lockney. Mrs. Messimer has been in ill health for about two years.

New regulations concerning right-of-way from the State Highway Commission is threatening support for a proposed county road bond issue in this part of Floyd County. According to a letter received in the resident engineer's office at Floydada the new regulations, which are state-wide, would require another 30 feet of right-of-way on the proposed four-lane highway from Floydada to the Hale County line added to the 100 to 130 feet previously requested by the Highway Department. This is in addition to the present 100 feet of right-of-way now in existence.

Petitions asking for an election on a \$325,000 road bond issue were presented to the Commissioners Court in their regular meeting Monday. Those presenting the petitions knew nothing of the new regulation until informed by the Court. The two petitions carried more than 100 names with one coming from the Lockney area and the other from Floydada. However the Court took no action Monday and is holding the petitions pending further investigation and developments. Members of the Court were obviously concerned about the additional right-of-way request.

Sentiment for the road bond issue in the Lockney area has apparently grown considerably since the Highway Commission agreed to keep the highway on the old right-of-way through the city and to pave a stretch from the Baker Hotel to intersect Highway 70 west of town.

The new regulations apparently will not seriously affect the other two proposed roads in the county, that south from Floydada to the Crosby County line and that east from Floydada to the Motley county line. These roads have not been proposed as four-lane roads and the right-of-way requirements will be much less than on the road through Lockney.

Adding to recent enthusiasm for the road improvement program was the recent appropriation of \$400,000 for the construction of the highway from Floydada to the Crosby County line during the 1957-1958 program. Some \$330,000 has been appropriated two years for the Floydada to Hale county road.

Those interested in the highway program in the county were planning a meeting the latter part of the week to see what could be worked out under the new regulations.

Baker Hotel Is Being Renovated

The Baker Hotel is being renovated throughout with repair work going on both floors of the building. When the repair work is completed the building will be redecorated, according to Frank Perkins, one of the owners.

The name of the hotel will be changed to Plains Hotel. The coffee shop section of the building is receiving most of the repair work. The ceiling in that area has been lowered, windows repaired, a new floor installed in some sections, and the opening into the hotel lobby has been widened.

On the upstairs section new screens are being installed, the doors and windows repaired, new carpet is being installed in some rooms and other repairs made.

The building will be rewired throughout and some new light fixtures put in. Mr. Perkins said. The owners expect to spend several thousand dollars on the repair job.

The owners have not leased the building as yet but have had several applications, Mr. Perkins said. Probably no decision on the lease will be made for several days, he said. The building has 15 rooms and four baths in addition to the coffee shop, the lobby and the two offices facing on Main Street.

Other owners of the building in addition to Mr. Perkins are Mrs. S. G. Miller and Mrs. Gilbert Huls.

But why dost thou judge thy brother? Or why dost thou set at naught thy brother? For we shall all stand before the judgment seat of Christ. — Romans 14:10

LOCKNEY BUSINESS HOUSES are neglecting the practice of displaying the American Flag. We suppose that most all business houses have a large American Flag on a pole and a place in their sidewalks fixed to hold the flag. On Memorial Day we saw only two flags on display and one of those was at the post office. It isn't necessary to have a war on to be patriotic. It behooves us all to love, honor and respect the flag and be proud to display it on every appropriate occasion. Today (Thursday) is Flag Day. We hope that all business houses who have flags will display them today. If you do not have an appropriate flag and have no connections whereby you can get one, The Beacon will help you secure one. Let's practice patriotism.

THE PLAINS COTTON GROWERS, headquarters at Lubbock, are on the right track, in our way of thinking, by the employing of Mr. George W.

Pfeiffenberger (don't ask us to pronounce it) as executive vice-president. Mr. Pfeiffenberger seems to be an able, well-qualified man, one who can do a lot toward the promotion of cotton. We liked his speech at the American Cotton Congress very much. In this he stressed the goal of a LONG future for SHORT staple cotton. Mr. Pfeiffenberger stressed three points in his talk concerning his work with the South Plains organization. These were: research, promotion and service. That kind of a program can and should do a lot for cotton growers of the South Plains.

GOD HELPS THOSE who help themselves is not scripture but it is an old saying that appears to be very true. Seems to us the Plains cotton grower and his family sometimes forget to help themselves as far as the consumption of cotton goes. Why not insist on cotton when you buy wearing apparel at your clothing and dry goods store. The writer prefers cotton for comfort in most wearing apparel items, especially shirts, underwear and socks. Perhaps the ladies could insist on more cotton in their wardrobes. If we raise it we ought to use it.

WHAT is a super genius? The Rotary Bulletin says it is: Any man who can figure out what our government is thinking about when it appropriates hundreds of millions of dollars for building huge dams, so millions of acres of desert land can be put into cultivation and made productive while at the same time billions of dollars are being appropriated to pay farmers for not working land which is already in cultivation.

WHAT HAS CONTRIBUTED more to the American economy and standard of living than any other one factor? We would say advertising. Advertising is perhaps the most wonderful development of the modern commercial age. It is the maker or breaker of business, big or little. The good thing about advertising is that it need not necessarily be a tool of big business alone. The small business man can use it just as effectively for his scale of business as the big businessman. It is true that many small business men do not use it and that is probably the reason they remain small. We dare you to name one big business that doesn't advertise extensively. Advertising is the tool that will make little concerns grow into large concerns if used wisely and well. It is a science that requires study and thought to be really effective. Also it cannot succeed if it is untrue. It must build upon faith, honesty and confidence. The person who advertises falsely may get some results at first but soon people will not believe his advertisements and he will get no results, just as they soon lose faith in a man who does not tell the truth. But regular, responsible, reliable advertising

will build any man's business if he offers the public something they want or need at a price they can afford to pay.

PRICE DANIEL WILL MAKE TEXAS ONE OF ITS GREATEST GOVERNORS

TEXAS DEMOCRATS have an opportunity to elect as governor of this state a friend and true public servant who will make an outstanding chief executive. As Speaker of the Texas House, state attorney general, and as junior U. S. senator, Price Daniel has given intelligent, able and honorable service that justly warrants his election to the governorship.

Senator Daniel has been fair to business, big and little; to labor, union and nonunion; to farmers and small-town citizens and to the thousands of Texans who are in no special category. The Senator is neither the tool nor the captive of any political or economic bloc or faction. His campaign organization includes Texans of many former affiliations. He is a moderate conservative who can and will serve all the people fairly and honestly.

Senator Daniel, now only 45, was first elected to the Legislature in 1939. He was one of the "immortal 56" legislators who fought and defeated a state sales tax proposal. He was elected Speaker of the Texas House in 1943 and he served in that position with distinction

until he joined the Army. He enlisted as a private and emerged as a captain three years later after fighting in the Pacific theater. As attorney general for six years, beginning in 1946, Price Daniel made a fine record. He successfully attacked organized vice, and began at the state level the campaign to save the oil-rich tidelands for Texas. In the U. S. Senate he continued to write a fine record of good government. His speech on the tidelands was considered by veteran members of Congress one of the best ever delivered in the Senate. It clinched the passage of an act that has already saved \$60,000,000 for Texas school children.

Price Daniel joined other Southerners in signing the famous manifesto against forced integration and further encroachment on states' rights

But he signed it only after amending it to forestall rebellion against law and order. Senator Daniel is a Democrat from a family of Democrats that settled in Texas in 1825. In 1952 he voted for Eisenhower, but only because Stevenson had come out flatly against restoration of the tidelands to the states. That same year he was nominated for the Senate by a 585,000 majority, and he was welcomed in Washington as a Democrat, given a high place in party councils, and acclaimed by both conservative and liberal Democrats in the Senate. He was one of the first members of Congress to advocate Senator Lyndon Johnson for president, and he has worked in complete harmony with Johnson.

The junior senator, an eminent Baptist layman, is sincerely and devoutly religious. He practices the Golden Rule in his personal life and in politics. He understands the problems of Texas and the nation and has the capacity to cope with them. His foresight, integrity, tolerance and tact fit him to make Texas a great governor. — Dallas Times Herald.

BRING OUT THE BEST

Someone has said that: "Like tea, some of us do not reveal our real worth until we get in hot water." Maybe, they should have said, not until things in the way of hardships come up before us. Anyway, it is a fact that we glide along when things are rosy, never taking time to be our best. Then when things get a bit tough we summon up our courage and do our level best and many is the time that we do a better job of living under stress and strain than when everything is rosy. — Plowing Out The Corners in Claude News.

COURAGE

Courage can be amplified and sustained by repeated exercise which may account for the non-chalance evidenced by some men wearing the more violent colors, patterns and materials in sport shirts. As a member of the timid majority I don't know whether to tip my hat or break and run.—Trail Dust in Matador Tribune.

TEXAS HAS WORLD'S BEST TORNADO WARNING SYSTEM

Austin. — Texas is meeting the 1956 tornado season with one of the world's most complete storm warning systems, and with a well-oiled disaster relief organization.

Radar storm warning sets are in operation in 16 of the state's 20 first-order weather bureaus. All state highway patrolmen have been carefully schooled in the wily ways of the weather and are keeping a sharp eye on the sky as they patrol the state.

A patrolman is credited with sounding the first warning of the awesome San Angelo storm of 1953.

Texas "local severe weather warning system," the first established anywhere in the world, is made up of sets operating around the clock in Amarillo, Wichita Falls, Fort Worth, Midland, Lubbock, Abilene, San Angelo, Waco, Austin, Fort Arthur, Galveston, Houston, Corpus Christi, Victoria,

San Antonio, and Brownsville. Only four of the state's first-order weather bureaus — El Paso, Laredo, Del Rio, and Dallas, are without warning networks.

All stations are connected by teletype and radio. Any station is able to instantly appraise all other stations of a tornado traveling in their direction. When such a warning is given, the weather bureau in the storm's line of approach immediately notifies all communities in the area.

The sets were offered to local areas by the U. S. Government from war surplus stock. Each one was converted into a storm warning set at a cost of \$10,000, borne by the cities.

Louisiana and Oklahoma are cooperating in the southwestern warning network by operating limited networks of their own.

"We now have what we consider one of the best local se-

vere weather warning services possible to render at this time," said the U. S. Weather Bureau's regional office in Fort Worth.

Dallas is reported to be considering installing a set. Here, before the set in Fort Worth has served both cities. A set is said to be badly needed in Del Rio.

State Health Commissioner Henry A. Holle said his department stood ready to provide vaccine and public health engineering and emergency nursing know-how to stem the threat of disease in event of weather disaster.

Meanwhile, the Commissioner urged these precautions if and when a tornado is sighted: Take shelter in a storm cellar, cave, or underground excavation.

When underground protection is not available, take protection along the inside walls on the lowest floor of a strongly reinforced building, or against the southwest corner of a house.

In open country, move away at right angles to the path of the storm. If there is no time to escape, lie flat in the nearest ditch or depression to a void flying debris.

TELEPHONE TALK

By J. C. Oakley, Manager

Vacation Tip

I guess everybody looks forward to that once-a-year vacation, and probably wishes it came around more often. And since this is the start of the vacation season, it's a good time to remind you how your telephone can help you have a better vacation.

After you have the fishing gear and everyone's bathing suit tucked away in the car ready for an early morning start, why not call ahead Long Distance?

It's the courteous thing to do if you're visiting relatives or friends. That way, they'll know about when to expect you.

It's the smart thing to do if you're stopping at a motel or hotel on the way. With reservations, you can drive a couple of more hours and put more miles behind you. No need to stop early in order to get accommodations.

More and more, nowadays, people count on Long Distance to help them enjoy their vacation more.

Remember: Your calls go through twice as fast when you call by number. And rates are lowest on station-to-station calls every night and Sundays.

A Family Friend

You know, the telephone has always seemed to me to be a real "friend of the family."

Mother uses it to do a lot of her shopping, and to "visit" with friends around town.

For Dad, it's a big help in carrying on his business, and keeping in touch with what's happening in community affairs.

And for the growing children at your home, it's probably a "must" for asking their friends over to visit, or asking them where's the best place to meet for the weekly walk to the movie.

These are probably just a few of the ways in which the telephone proves itself as a family friend — always ready to help you and your family keep in touch.

You'll Love The Convenience

If you already have an extension telephone in your home—or your office—you KNOW first-hand how many steps and how much time you save every day.

If you haven't ordered an extension yet, why not do it today, and find out how much you'll like the convenience of an extension telephone, installed wherever you want it.

Just call the telephone company to place your order. The cost is \$2.00 for installation, and the monthly extension rate of \$1.00.

Call by number. It's twice as fast.

County Fair Crochet Entries May Win In National Contest

Mrs. R. H. Tinsley of Sterley, chairman of the Women's Division of the Floyd County Fair, is urging women of the county to begin now to crochet something to enter in the local fair crochet division which also may win in the National Crochet contest this year. Details concerning the crochet contests were released as follows:

Start now — crochet an entry for exhibition at the Floyd County Fair this fall. It's easy, it's fun, and you may win \$500 plus a free trip to New York City as the Grand National Crochet Champion in the 15th Annual Nationwide Crochet Contest, which has over \$3,000 in cash prizes.

Once again, the Nationwide Crochet Contest is calling all teen-age girls, adult women and men to join in the fun of friendly competition for cash prizes and honors. The 1956 Crochet Contest includes a special classification for teen-age girls. If you are between the ages of 13 and 18, you may vie for cash prizes and awards in the Teen-Age girls class of the contest.

Your Floyd County Fair is a participating fair in this contest. And here are the Nationwide Crochet Contest Rules:

1. All entries must have won a Nationwide Crochet Contest state ribbon at a participating state, county or local Fair. Contact your fair for entry requirements.

2. All entries must have been completed since January 1, 1956, except in those cases where participating Fairs are held prior to April 1, 1956. In the latter case, entries completed since July 1, 1955, are acceptable.

3. All entries must be crocheted of mercerized crochet cotton in any size thread up to and including 100. Mercerized crochet cotton with a metallic strand is also eligible.

4. A contestant may submit as many entries as have fulfilled all the foregoing rules.

5. National judging in New York will be based on workmanship, beauty of design and general appearance. Decision of judges will be final. In case of a tie, duplicate prizes will be awarded.

Nationwide Crochet Contest prizes are:

Grand National Champion: \$500 (this includes classification first prize award), plus a free trip to New York City.

Teen-Age Girl Champion: \$100 first prize award, plus a free trip to New York City for herself and one parent or guardian.

Texas 4-H'ers To Receive Awards

Texas 4-H Club members will receive 17 educational awards this fall for outstanding achievement in 4-H from a fund provided by the Santa Fe Railway System.

Thirteen of the winners will represent Texas as delegates to the National 4-H Club Congress in Chicago, Nov. 25-29. Four winners will receive \$250 college scholarships. Selection of the scholarship winners is based upon individual all-around 4-H project work.

These awards are the state's share of 68 educational awards and twenty-five \$250 scholarships provided by the railroad through the National Committee on Boys and Girls Club Work in 31 states.

As in previous years, Santa Fe will honor its award winners at a special dinner in Chicago during the 4-H Congress.

Selection of the winners will be made by the State Extension Service.

LOW CALORIE FISH BAKE

Can gourmet cooking and low calories ever meet in the same recipe? They not only meet but marry in this Special Fish Bake. During the day, put out a package of haddock, cod or sole fillet to defrost. At your convenience make a sauce of 1 chopped onion, sautéed in butter until tender, to which is added 1 can concentrated tomato soup, 1 teaspoon A-1 sauce, 3 tablespoons chili sauce, ½ teaspoon prepared mustard and pinches of thyme, basil, sugar, pepper (to taste). Simmer sauce 5 minutes. Pour over fillets in a flat casserole. Bake at 400 degrees for 20 minutes.

This morning at the market a reporter questioned me:

- Q. You're a home maker and mother?
 A. Yes.
- Q. Do you and your family attend Church?
 A. Every week, unless prevented by illness.
- Q. Surely you don't take the children when they're small?
 A. Oh yes. It's been proved that habits formed during the first five years establish a pattern for life.
- Q. When it's raining or snowing doesn't it often seem best to stay home?
 A. No. Bad weather doesn't usually keep us from doing other things we want to do. Besides, children go to school on rainy days so why not to Church and Bible School?
- Q. Then you feel regular worship is good for a family?
 A. Not only good but necessary. Religious training is the fourth R, and the most vital part of our learning to live.

THE CHURCH FOR ALL . . . ALL FOR THE CHURCH

The Church is the greatest factor on earth for the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend services regularly and support the Church. They are: (1) For his own sake. (2) For his children's sake. (3) For the sake of the community and nation. (4) For the sake of the Church itself, which needs his moral and material support. Plan to go to church regularly and read your Bible daily.
