He and Cal Duncan met with members of the Lockney Vegetable Growers Association last Thursday in the Lockney Auto Show rooms to discuss the matter.

Flynn offers to furnish plants to local growers 15% of the crop with the responsibility of planting and growing the crop. The company will be responsible for labor of harvesting and marketing but the costs will come out of the crop revenue, it was said. Offers to furnish seed on vegetables for 15% of the crop under the same conditions above.

Flynn stated that his company would like to have acres of onions, 300 acres of tomatoes, 100 acres of peppers, 400 to 600 acres of cantaloupes, and later on 400 to 500 acres of lettuce.

Duncan said that the vegetable trade all over the country is expected to be here in the middle of next year and will go into the market further at that time, he said.

The county board employs and pays the school supervisor and the local board can only make recommendations concerning his employment.

Contracts of High School Principal F. M. Smith, Junior High Principal C. H. Cheves and Grade School Principal Alma Dutton were all extended one year and since each still has one year to run, the principals were, in effect given two year contracts.

Coaches Rudy Haile, Troy Lemley and Elvin Lyon were all given one year contracts which is for the school year 1958-1959.

The board contracted with Charley Williams of Lubbock for an audit of the school finances.

2552 Polls Paid In Floyd County

County Tax Collector T. T. Hamilton reported a total of 2552 poll taxes paid through January 31st. A total of 44 exemptions were secured making the eligible voter figure 2596.

Mr. Hamilton said that payment of polls was unusually heavy in the Lockney area and in Precinct 2, probably due to interest in the Commissioners race. He kept the tax collectors office open until midnight January 31st and sold his last two polls at 11:30 that night to a Lone Star man.

The total eligible voters is down some 650 from the normal figure, Mr. Hamilton told The Beacon.

Collection of state and county taxes was "mighty good" through January 31st, he said. The office collected 94.5% of rendered taxes to that date this year compared to collections of 94.6% to the same date last year. He said that money collections totaled \$61.50 more this year than last, the smaller percentage coming about because of more taxes being on the role this year.

He said that county officials were very pleased with the collection of ad valorem taxes this year.

Holley, Wilson Leave Bank For Other Posts

Claud Holley, executive vice-president of the First National Bank here for the past two and a half years, and Joe Wilson, cashier of the bank for nearly five years, have resigned their positions to accept posts with other banking institutions in the area.

Mr. Holley was named president of the First National Bank at O'Donnell last week end and took up his duties with that bank Monday morning of this week. Actually he was named to the position effective February 1st. He has entered into an agreement to purchase 20% of the bank's stock and was named a member of the board.

Mr. Holley replaces E. J. Smith, who resigned his position as president of the O'Donnell bank on January 24.

Local Teams End Home Season Tues.

Lockney basketball teams play their final two home games of the season this week. Friday evening the Longhorns and Longhornettes take on Abernathy here and next Tuesday the locals meet Slaton in their last home appearance.

The Tahoka and Floydada boys head the chase for the 2-AA title with 7-1 records. The Abernathy girls appear to have the district championship won. They have a district record of 7-0 and a season record of 26 victories without a setback.

Last Friday the Tahoka Bulldog teams invaded the local gymnasium and won both ends of a doubleheader—60-49 in the boys' contest and 56-28 in the girls' tilt.

Jerry Brown was the big gun in the Bulldog attack with 34 points. Bill Reagan copied scoring honors for the local boys with 17 points. Kelly Harrison and Larry Jarrett dumped 10 points for the Longhorns Patsy Norman, 14 points, and Jan Thomas, 12 points, were leading scorers for the Tahoka girls. Ann Brown led the Longhornettes with 10 points.

Floydada Whirlwind teams won two games from local squads Tuesday evening. Floydada toppled the Longhorns, 71-39 in the boys' encounter. Bill Patterson scored 20 points for the Whirlwinds and was high point man in the game. Ranny Vickers dumped in 16 points for the visitors and James Teague added 12 points. Jimmy Minter scored 19 points for the local boys.

Lockney girls dropped a close, 29-23, game to Floydada. Scoring by the locals was well distributed with Carolyn Merrill and Janice Boedeker sinking seven points each and Linda Baxter making six points. Mae Johnson had 10 points for Floydada and Joyce White added

EDITORIAL

Be not deceived: God is not mocked; for whatsoever a man soweth, that shall he also reap. — Galatians 6:8.

COMPULSORY membership in labor unions is under attack in many states, although the United States Supreme Court has held it to be legal. Recently a measure was introduced in the legislature of California outlawing compulsion in joining unions. Texas has long had such a law upon its statute books. Seems to us that freedom to join or not join a labor union is as important as other freedoms we take for granted. Organizations operating for laudable purposes do not need the compulsion of law to recruit members. Any organization that relies on compulsion to gain any part of its membership is, in essence, already a racket and is bound to be taken over by racketeers to some degree sooner or later. Doing away with compulsion would also remove the racketeers from the labor unions. It would be good for labor as well as the country as a whole.

NEXT YEAR COUNTRY is what a lot of folks call West Texas. We're always going to make a whopper of a crop "next year." A report from the Texas Cottonseed Crushers Association says that 1958 should be that "next year." The report points to the wonderful moisture which has fallen the last year and says that "Invariably, it's the year following good

rainfall that we record top cotton yields." Records the past 32 years bear out the statement. Not only that but it is expected to be the cheapest crop grown in a good many years due to the excellent moisture conditions. Also good moisture assures better grades, they say. So the point is, plant your cotton acreage this year. It is due to be a good one.

DESPITE Mr. Benson's plea that farmers are doing good, here are some statistics released by State Commissioner of Agriculture John White to the contrary: Five years ago it took 951 bushels of wheat at \$2.06 per bushel to buy a 20-29 tractor at \$1,960. Today it takes 1130 bushels of wheat at \$1.91 to buy the same tractor at the current cost of \$2,160. In 1952 it took 147 bushels of corn at \$1.73 per bushel to buy a 2-bottom plow at \$255. Today it takes 214 bushels of corn at \$1.22 per bushel for the same plow at \$262. Also in 1952 it took 390 dozen eggs at 338 cents per dozen to buy a wringer-type electric washer at \$132. Today it requires 562 dozen at 249 cents per dozen to buy the same washer at its present price of \$240. Note the increased amount of products it requires to buy the same machinery over the requirement five years ago.

BOY SCOUT WEEK is observed this year Feb. 7-13. Slogan for the week is "Onward For God and Country." Scouting is a very worthwhile activity for boys of most all ages. It stands next to church activity in benefits to boys. We're sorry that there isn't more interest in Scouting in this community. A few people have been interested but most of them have worked themselves down in trying to promote the movement and haven't received enough help from the rest of us. Working with a group of boys can be termed nothing less than unselfish community service. It is worthy of some group's time and effort to do a better job or promoting Scouting of all types in this area.

MARCH OF DIMES drive now on reminds of these statistics: Polio cases in Texas in 1957 were lowest in a decade. The 1957 total was 734 cases compared with 1,307 in 1956 and a high of 3,984 cases in 1952. The polio vaccine is given credit for this decline and it is expected to continue gradually as more people take the vaccine. But remember the thousands for whom vaccine was too late. They still need treatment and rehabilitation. Your March of Dimes provides that.

Reduce Delinquency INCREASE FACILITIES

(A distinguished Texas judge offers pointers on combating our rapidly increasing juvenile delinquency problem.)

By JUDGE SARAH T. HUGHES

JUDGE HUGHES

Our good Texas program for re-training juvenile delinquents into worthwhile citizens is today imperiled by too little space in our very good institutions to relieve the situation but not enough.

Extremely Overcrowded
The State Training School for Boys at Gatesville is designed to handle 575 boys. It now has about 850. The girls' school at Gainesville was built for 180; it has 220.

The last Legislature provided dormitories for 160 boys, a school building, kitchen, and dining room.

Release Too Soon
No more boys, however, will be accommodated. The new buildings will simply serve to relieve the present overcrowding. Many boys who already need to go there can't be sent; many boys sent will be released before their training is sufficient. And with our ever-increasing delinquency rate, even more offenders will be free who need to be confined and trained.

At Gainesville three new dormitories and a security treatment cottage were provided to replace existing ones considered extreme hazards. But they will not provide room for more girls.

Increase Facilities
With present facilities so inadequate, whose responsibility is it for failure to rehabilitate? Isn't it ours? We are the people whose elected representatives carry out our wishes. What can we do to remedy the situation? We can make our legislators and our county officials (for county-level facilities) understand clearly what we want.

Next week: The younger learn from the older.

Dear Editor:
I see where there has been an Indian uprising in North Carolina, and the State's rubber-tired cavalry had to rescue white settlers at a KKK meeting.

Lots of shooting went on. But, like in the movies, hardly anyone got hit. The Indians were subdued, but not as subdued as the ku kluckers.

I guess the Redskins got mad and uprose over being accused of trying to get too chummy with the white man. After all, history shows that for 200-odd years they put up a stiff fight to keep the whites from moving in with them.

D. E. SCOTT
SINCE 1939, railroad wages have increased 187.4 per cent, and the prices of materials and supplies used by the railroads have gone up 138.1 per cent. But the average revenue received for performing one ton-mile of freight service increased only 42.2 per cent in the same period.

With Our EXCHANGES

HOUSING PROJECT

The proposed Housing Project for low-income families here is one that the News is endorsing 100 per cent. This is something that Tahoka has needed for a long time and with the terms set down by the Public Housing Administration, we can't lose — either financially or in any other way.

In an article appearing in the Reader's Digest entitled "Slum Clearance Pays Extra Dividends" this statement is made: A progress report shows that it's not just the poor and ill-housed who benefit — it's the whole community.

Besides it helping these people get on their feet, it can make Tahoka a much lovelier town in which to live. — P. J. in Lynn County News, Tahoka.

AMERICAN RECIPE

"How is it," an Englishman asked of an American friend, "that you Yankees get on so well in business while so many of my countrymen fail? What is the secret of your success?"

"Brains, my boy," the American said. "You should eat more fish. Give me \$5 and I'll get you some of the same wonderful fish my wife buys for me. Eat it and you'll begin to catch on, too."

The Englishman parted with the \$5 and the next day a fish was delivered to his house. He met the American the following day.

"How did you like the fish?" the American asked.

"Oh, it was a splendid fish."

"Do you feel different in any way?"

"No," the Englishman said. "I can't say I do, but I've been thinking old chap, wasn't \$5 a jolly stiff price for just one fish?"

"There you are," the American replied. "Your brain is beginning to work already!" — Cecil Waggoner in Claude News.

SURRENDER TO SUBVERSIVES?

A Federal Court in San Francisco regretfully turned loose 11 more Communists; presumably they are free to continue their conspiracy against America.

The California court could not do otherwise. Last June the Supreme Court virtually wrecked our government's only law to combat Communist; it only prevents him from taking violent action to overthrow our government. At least, said the Supreme Justices, that's what Congress intended for the act to mean.

Again the Supreme Court presumes to know what is in the mind of another branch of government. That is not the court's function. When the court does that, it is legislating by crystal ball.

But a careful reading of the Smith Act, and of investigating committee reports upon which it was based, shows clearly Congress did know what it was doing and what it intended. — The Dallas News.

GOOD OLD MEXICO

What Texans have been unable to do, due to their republican brainwashed Democratic leaders, Old Mexico may do for her.

If the United States decides to take back the tide lands beyond the 3 mile limit, then Old Mexico will have just claim to them. In the independence of Texas, Mexico recognized the 10 1/2 mile limit of off shore land inasmuch as the original grant from Spain included this area as well as Texas territory when Mexico received her independence. Should the United States repudiate Texas' claim then the land rightly belongs to Mexico.

If this be treason then what shall we call the republican Indian-givers, who bribed Texas voters and are now asking for repayment? — Cecil Waggoner in Claude News.

CROSS ROADS REPORT

Dear Editor:

I see where the auto workers union has decided they want part of the big profits being made by the tail-fin makers since they started attaching autos to same.

Also note that some folks, such as G. M. stockholders, do not favor this idea on account of the union does not also offer to share losses when the car business is dull.

But my laboring neighbor says most people are fair-minded. He thinks the auto workers would be willing to share the same hardships and want that company officials and union bosses have to suffer when business is slow and there ain't any profits.

Tree Seedlings Are Available To Landowners

College Station — Some 210,000 tree seedlings are available to West Texas landowners for windbreak planting this spring according to Don Young, head, Forest Management Department of the Texas Forest Service.

"Landowners interested in planting windbreaks should get their orders in before the March 1 deadline," Young said. "However, these trees may be used only for windbreaks; they are not to be used for ornamental or shade planting purposes," he added.

Red Cedar, Chinese elm, Austrian pine, and ponderosa pine seedlings are available and will be shipped for planting shortly after March 1. The small trees will be sold for \$3 per hundred.

"Cedar and pine seedlings have 6 to 9 inch tops while the elm trees range from 12 to 18 inches. All of the small trees have 8-inch roots. The seedlings are packaged root to root in moss and moisture-proof paper rather than being individually wrapped in burlap," Young reported.

Application blanks can be procured from county agents and Soil Conservation District offices in the West Texas area. In addition, the forms are available upon request from the Director, Texas Forest Service, College Station.

"Established windbreaks are an excellent means of preventing wind erosion of valuable topsoil as well as providing protection for farmsteads," Young stated.

Betty Jean Foster Active At CWC

Denver, Colo. — Miss Betty Jean Foster, daughter of Mr. and Mrs. E. J. Foster of Route 1, Lockney, is participating in the annual ski program at Colorado Woman's College where she is a student.

Over 200 students make trips each Friday to beautiful Winter Park, which is 65 miles west of Denver, where they spend the day learning to ski. The college furnishes transportation on modern buses and hires skilled instructors to supervise the lessons. The program will operate on five Fridays in January and February. Faculty members of the CWC physical education department are in charge.

Balconies were originally built for purposes of defense.

Carryover Of Cotton Lower

College Station — The supply of cotton in the United States during the 1957-58 marketing year is estimated at about 23 million bales—4.6 million bales smaller than the record of last year and the smallest supply since 1953-54.

The carryover at the end of the present marketing year, August 1, 1958, is expected to be around nine million bales, according to John G. McHaney, extension economist. This is the smallest since 1953 and 5.7 million bales below the record high of 1956 and two million bales smaller than that on August 1, 1957.

The disappearance of cotton during the present season is estimated at about 14.1 million bales, says McHaney. This is 2.1 million bales smaller than the 16.2 million bales last year.

In 1956-57, domestic mill consumption of cotton declined to 8.6 million bales as compared to 9.2 million the previous season and it is estimated that this year's figure will be about the same, points out the economist. So, mill consumption will probably be the smallest since 1953-54.

Exports during the 1957-58 marketing year are expected to be about 5 1/2 million bales — more than two million bales below the high exports of 1956-57, McHaney says. This compares with the 1955-56 average of about 5.3 million bales.

As of November 8, 1957, continues the economist, the U. S. government had allotted about 254 million dollars to finance cotton exports for the year ending June 30, 1958. If completely used, these funds will finance the export of about 1.7 million bales, as compared with exports of about 2.7 million bales last year. However, he adds, additional funds may be made available before the end of the current fiscal year.

In 1957, farmers produced an estimated 11.7 million running bales from the smallest acreage since 1878 and allotments during 1958 is 37,006 acres smaller than the 1957 allotment. Meanwhile, manmade fiber consumption increases annually, concludes the economist.

Swine Sale At Plainview Saturday

The Texas Chester White Breeders and the Panhandle-Plains Poland China Breeders will hold their semi-annual registered swine sale Saturday, February 8, at Plainview. Offered for sale will be 23 bred gilts, 23 open gilts and three boars representing both breeds. Five breeders of Chester Whites will have animals consigned to the sale. R. C. Mitchell, Lockney breeder, is the only Floyd County breeder represented at the sale. He has three bred gilts and two open gilts consigned to the event.

Eight breeders of Poland Chinas have entries. These sales, held twice each year, offer a fine opportunity for 4-H and FFA boys as well as adults to secure outstanding animals from the top herds in the state. A free lunch at noon for all breeders and prospective buyers will be furnished by the two associations. The auction sale will begin at 1:30 at the Panhandle Plains show barn at Plainview with Kenneth Bozeman of Lubbock as auctioneer.

FOR THE COMMITTEE COOK

When preparing foods for church suppers and community dinners, buy frozen vegetables in quantity pack, advises Margaret Spader, home service editor of the Gas Appliance Manufacturers Association. It will take 16 to 22 pounds of peas, corn, lima or green beans to feed 100 persons. You will need more of such vegetables as asparagus and spinach, she suggests, as they have a tendency to pack down. For cooking large amounts of frozen foods, Miss Spader advises partial thawing so the vegetables can be separated before cooking. When packs are frozen solid, thawing time may take several hours.

DATA ON DIAPERS

To be sure baby's diapers are extra clean, the wash water should be 140 degrees or hotter. Use a cup of full-action sudsing detergent and wash for 10-15 minutes. It is very important that they are thoroughly rinsed or they will not be as fluffy, absorbent and comfortable as they should be. Hot, hot water is the secret for whiteness and effective soil removal.

The
LIMITED...

There's a tingle of excitement in that word *limited* as long as we're describing a train.

But if we were speaking of the boy—describing the effect which spiritual neglect has on the development of the character of a child—that's a different matter! There's nothing thrilling about a soul that has been *limited* in its opportunity for religious expression and growth!

The churches of our community are here to give ALL our children religious training . . . to help ALL our families foster a spiritual atmosphere in their homes.

As we make use weekly of the opportunities our churches provide, the potential Christian growth of the child, the family and the Nation becomes UNLIMITED.

**THE CHURCH FOR ALL . . .
ALL FOR THE CHURCH**

The Church is the greatest factor on earth for the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend services regularly and support the Church. They are: (1) For his own sake. (2) For his children's sake. (3) For the sake of his community and nation. (4) For the sake of the Church itself, which needs his moral and material support. Plan to go to church regularly and read your Bible daily.

Cooper Not Hurt In Jail Break

Former Floyd County Sheriff Earl Cooper was not seriously injured when he tangled with three prisoners in a jail break at Stinnett last Sunday morning. This information came to Cooper's brother-in-law, Leonard Finley of Lockney Sunday afternoon.

Cooper, a former Lockney resident, and sheriff of Floyd County for two terms, has been a Hutchinson County deputy sheriff for several months. He was acting as jailer at the time of the break.

The men, all hardened criminals, jumped Cooper when he went to serve them breakfast. He fought them for some 10 minutes and then Mrs. Cooper, hearing the noise in their nearby apartment, came to investigate.

One grabbed her and forced her to give him keys to the jail and to the Cooper's car, using a butcher knife for a weapon. They made their escape, traveling into Kansas but turned back to Texas and were captured Tuesday at noon on a farm near Jericho, Texas.

Mrs. Baylor Byars Returns Home

Mrs. Baylor Byars is at her home in the Aiken community after receiving treatment recently at Lockney and Plainview hospitals. She is able to have company, Mr. Byars said this week. The Byars daughter, Mrs. F. L. Maupin and little daughter, Jenny Sue, are staying here with them while her husband is overseas.

Many Friends Honor E. M. Lawsons On Golden Anniversary

A host of friends and relatives were on hand to compliment Mr. and Mrs. E. M. Lawson on the occasion of their 50th wedding anniversary. Hosts for the memorable occasion were children of the couple.

E. M. Lawson moved to Lockney in 1907 from Bernard Ranch and the Tom Coble Ranch near Spearman. From 1907 to 1908 he carried the mail from Lockney to Lubbock in a mule-drawn buggy. He married Miss Emma Reed in February, 1908 and the couple moved to a farm at Petersburg where they lived two years. The bride had moved to Lockney with her parents in 1882 from Bell County in a covered wagon drawn by oxen. The wedding took place in the home of her parents, Mr. and Mrs. T. Z. Reed with Rev. J. A. Weathers, Baptist preacher, and the late father of Mrs. Edd Whitfill, reading the vows. In attendance were Mr. and Mrs. Tom Rigdon, Mrs. Bill Virden, William Rigdon, Lockney, and Mrs. Ollie Wilson, Floydada. All but one of these also were on hand to help the couple celebrate their 50th anniversary Sunday.

In 1909 the couple made a trip to Hansford to visit Mr. Lawson's uncle, J. C. Sanders at Hansford, and they traveled across Palo Duro Canyon in a buggy before any roads were ever cut. The Lawsons moved to a farm at Lone Star in 1910 where they lived for 25 years. He retired in 1945 and moved into Lockney where they have made their home since.

Children born to the couple are Reed of Lone Star, Billy Jack of Kress, and Mrs. Viola Rowell, Lockney. All the grandchildren helped with hospitalities at the open house Sunday.

Lawson, grandson, met guests at the door and presented them to the honorees. Eugenia Lawson of Kress, granddaughter, secured names for the guest book and Reeda Cay, 3-year-old daughter of the Reed Lawsons, assisted in opening the gifts.

The refreshment table was laid with white linen cut-work over yellow and centered with a five-tiered cake topped with a bell-shaped arch under which stood a miniature coach drawn by horses. Gold figures, "50" were above the coach and beneath it were the names of the honored couple. The second layer was accented with baby booties and the names of the couple's children lettered in gold. Wedding bells and the married names of the grandchildren marked the third tier, and on the fourth tier were booties and the names of the grandchildren. The fifth tier which was the base of the cake was designed as five wedding bells signifying the couple's 50 years of married life. Swans, rosebuds and butterflies decorated the cake which rested on a large reflector marked with a small gold coach. The cake was baked by Mrs. Viola Rowell. An arrangement of gold mums holding a gold "50" and the names "Emma and Morgan" was at one end of the table and at the other were five white candles flecked with gold and banked with flowers. Sugar cubes topped with yellow rosebuds completed the table decor.

Miss Sunny Lawson presided at the silver coffee and tea service and Miss Lohoma Rowell served white cake squares from a silver tray. The girls, high school seniors, are granddaughters of the honorees.

Flower arrangements in the entertaining rooms designed by Tom Simpson of Plains Floral, included a mantel arrangement of gold mums featuring a jacinth streamer with 1908 at one end, the words "Through the years" in the center and 1958 at the lower end of the streamer. Fire Damage Is Set At \$1250.00

Fire damage to curtains and ceiling in the Lockney High School auditorium last Wednesday evening was estimated to be \$1250.00 by Supt. H. H. Nicholas this week. Mr. Nicholas said that the school had filed a claim for that amount.

The fire started as a group from the Speech Class were practicing one-act plays. A flood light near one of the big stage curtains caused the curtain to catch fire. Damage was confined to one side of the stage curtain and the ceiling in the vicinity of the curtain.

Quick thinking as well as quick work by members of the cast and adults present prevented the fire from doing more damage, school officials said. While one student pulled down the big curtain others ran to the nearby home economics room and began carrying water in dish pans to the stage, and still another ran to call the Fire Department. The fire was almost out when the fire truck arrived on the scene.

The damaged curtain was replaced by one of practically the same size from the side windows and the three plays were presented Thursday night on schedule.
