Mrs. Williams Found Dead Thursday
Mrs. Ora Lavina Williams, 60 years of age, was found dead in her home in east Lockney last Thursday morning. She was found about 8:30 a. m. by her son, Curtis Williams and his wife, who entered the house through a window when they were unable to arouse her. Physicians said she had passed away about 6 p. m. Funeral services were held at the First Baptist Church Friday at 3:30 p. m., conducted by Quannah Jobe, Assembly of God pastor, assisted by Rev. Charles Broadhurst, Baptist pastor. Carter Funeral Home of Lockney was in charge.

Heat causes...
Mrs. Williams had been ill for a few days but condition was not considered serious. Curtis and his wife visited her Wednesday and she was feeling "pretty well" at that time. She was wearing a quilt, she said, and she had arisen early Thursday and lit a fire. Her body was found lying in a bathroom. A heart attack was believed to be the cause of death.

Season Ends For Local Teams This Week

Longhorn and Longhorne basketball teams are in their last week of the season. A scheduled contest at Post Friday night will probably be the season finale.

Slaton Tiger boys' and girls' squads were supposed to play local teams here Tuesday evening but adverse weather conditions forced postponement of the contest. The Lockney - Slaton match may not be played since both boys' and girls' teams from each school are already eliminated from title contention.

Floydada and Tahoka, with records of nine wins against one loss, lead the District 2-AA boys' division. The Whirlwinds and Bulldogs clash Friday night at Tahoka in a battle which will decide the district championship. A Bernathy's girls — breezing through 30 games without a setback this season — appear to have clinched the girls' title in 2-AA. The strong Bernathy sextet should go far toward winning the state championship.

Dimmitt Bobcats and Bobbies have won District 1-AA titles and will meet 2-AA winners in bi-district competition. Abernathy Antelopes nosed out the Longhorns, 68-41, in a game here Friday evening. Abernathy also won the "B" boys game, 43-36. No girls game was played since the Abernathy girls were entered in the Hardin - Simmons University Tournament.

Three Antelopes — Reggis Stephens, 18 points; Jimmy Dye, 15 points; and Gerald Watson, 10 points — shot in the double figures as the visitors came from behind to win. Roy Kidd paced the Longhorn attack with 14 points and Kelly Harrison added nine points for the locals. Lockney looked very sharp in the first quarter and held a 19-13 lead as the first period ended. But Abernathy moved in front, 27-21, at intermission and pulled away in the second half.

The Longhorn "B" squad, after being down 26-8 at half-time, came back strong and almost caught up with Abernathy. The visitors held a 13-1 lead at the end of the first stanza but the local boys picked up steam in the final two periods and outscored their rivals, Oyam and Buchanan and James Davis were big guns in the Lockney attack with 11 and 10 points, respectively.

Farmers Sign For Cucumbers

Craddock Food Manufacturing Co. of Garland, Texas, secured their 300 acres of cucumbers, or approximately that amount, Monday of this week when their representative, R. E. Brice, met with a group of farmers at the Plains Hotel here.

The food company agreed to pay the growers a price equal to that of last year for the cucumbers. Gerald Sams is representing the company here and will handle the grading and packing shed again this summer.

Local growers who have contracts to grow cucumbers include: Bill Staniforth Jr., Bill Staniforth Sr., W. B. Mullins, Horton Howell, Hershel Cartel, Hubert Frizzell, F. L. Vaneck, J. B. Seale, W. C. Whitlock, Hugh Marble, J. N. Noland, C. W. Whiteley, Elmer Thornton, Garland Sams, R. B. Holt, Gerald Sams, Raymond Rucker, Ray N. Ford, John and Bob Walker, J. H. Cooper.

Growers grossed better than \$400 per acre on the crop last year. Food manufacturers have been very pleased with the quality and quantity of cucumbers grown in this area, Mr. Sams said.

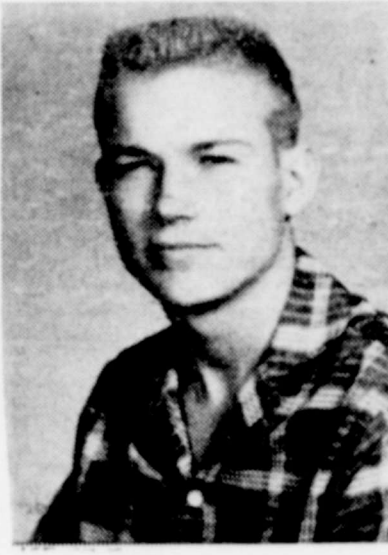

Whiteley Takes Job With Seed Co.

Dick Whiteley, former manager of the Lockney Chamber of Commerce, has accepted a position as salesman for the Associated Seed Growers, he said this week. Whiteley will work a territory from Odessa to the Canyon and east. He will continue to make his home in Lockney.

He began work with the firm Monday of this week.

3 Inches Of Snow Fall Here

A beautiful snow, estimated at around three inches, fell here Tuesday and Wednesday putting more moisture in the ground and helping the wheat crop. The temperature dropped to 10 degrees above Tuesday night.

The snow fell evenly, did not drift and will therefore be very beneficial from a moisture standpoint. It started just before noon on Tuesday and quickly covered the ground, continuing to fall at intervals Tuesday night and Wednesday. Moisture from the snow is estimated at around a half inch.

Cold weather and mist Monday caused ice to form on trees, roads and buildings and made driving hazardous. The only near-serious accident in this area occurred on Highway 70, just west of Lockney when a 1951 Ford 2-door sedan, driven by a Mexican, skidded on the slick road Monday morning and over turned, stopping on its top with wheels in the air. However very little damage was done to the car and no glasses were broken. The driver was not injured, officers said.

School Dismissed
Due to the heavy snow local schools were dismissed at 2 p. m. Tuesday but the schools operated as usual Wednesday though many were out with illness or due to bad weather.

United Chest Fund Reaches \$2355.45

The United Chest Fund reached a total of \$2355.45 in the north part of the county this week with a report from the Aiken Community totaling \$335.00. No report on the total for the county was available here but it is believed to be near \$6,000.00.

Delegation Asks Change Of Road In West Floyd

A delegation of Floyd County people met with District Highway Engineer Oscar L. Crain at Lubbock last Friday morning seeking a change in a farm-to-market road designation in the extreme western edge of Floyd County.

The Highway Department recently announced plans to pave a road running west from the Aiken - Providence pavement from a point four miles north of Aiken to connect up with a paved road in Hale County extending directly east from that city. The project would pave four miles, 2 1/2 of that in Floyd and 1 1/2 in Hale County. The delegation from this county suggested that the road project be moved a mile south in order to serve more people. The plan the local delegation has is to pave three miles west from a point three miles north of Aiken, then turn back one mile north to connect up with the existing pavement.

Members of the group pointed out that 10 to 12 houses would be served by moving the road south one mile while under present plans only one house would be served by the pavement. Also it was said that the present road is impassable much of the time because of a lake over the road and that it would be very expensive to build a suitable road through the lake.

Moving the road project one mile south would serve Paymaster Farm and its employees as well as a number of other residences along the route. Bob Gibson represented the farm at the meeting and asked for the change in the designation.

Mr. Crain said that his office would take the matter under advisement. The delegation included 10 or 12 farmers from the area in which the road is to be paved, County Judge J. D. McBrien, Commissioners Hugh Counts and Carl Plumlee, and from Lockney Mayor J. E. Cox, Claude Brown and Edgar R. Hays.

A group from the affected area, including representatives of Paymaster Farm, met with the Floyd County Commissioners Court Monday of this week, offering to supply the right-of-way if the Court could get the road designation changed. A total of 100 feet of right-of-way will be required. The Court plans to contact the Hale County Commissioners Court and discuss the matter of the change with them. Commissioner Counts said Tuesday.

County Tax Rate Set At \$1.28

Floyd County Commissioners Court set the county tax rate at \$1.28 in session Monday, the same rate as it was in 1957. The state rate was 42 cents the past year but the new rate will not be set until July.

The county tax rate includes these items:
Jury fund, 5 cents.
Library, 5 cents.
Road and bridge fund, 20 cents.
General fund, 35 cents.
Permanent improvement, 15 cents.
Road maintenance fund, 15 cents.
Court House bonds, 10 cents.
Old road bonds, 23 cents.

The Court talked with bond men Monday about selling the \$294,000 issue voted in this county in November for purchase of highway right-of-way. However they have made no trade to sell the bonds as yet and have another session scheduled with the bond men today (Thursday). The bond market is much improved over what it was when the bond issue was voted.

W. H. FIELDS ILL

W. H. Fields became ill at his home just south of town Tuesday morning but was reported to be much better Wednesday. He "blacked out", Mrs. Fields said. Unable to reach help on the telephone, Mrs. Fields came to town over slick roads and contacted a doctor who went back to the Fields home. Mr. Fields had regained consciousness by that time and, after treatment, is feeling much better. Contrary to reports, Mrs. Fields said the doctor reported he did not have a stroke or heart attack.

Assistant Agent Resigns Monday

Assistant County Agent Lynn Pittard submitted his resignation to the Floyd County Commissioners Court Monday of this week, effective March 1st. Mr. Pittard has accepted a position with the Extension Service at College Station. It was reported here.

He has served as assistant county agent in this county for some three years and has been in charge of 4-H work. Mr. Pittard has done a fine job and many people will regret to see him move.

New Cafe To Occupy Rose Building

Golden's Cafe will be the new business which will occupy the Rose building, corner of Main and Locust, soon after March 1st. L. M. Golden was here this week and reached an agreement with C. H. Rose for the lease of the building.

Mr. Golden told The Beacon that he would move almost new, modern equipment here and would have a modern cafe. He will have a private dining room for clubs and parties also. The Golden's are operating a cafe at Canyon at present but will move that equipment here. They have been in the cafe business for 20 years, 19 of those at Petersburg.

The Golden's, who will serve buffet style means, have a reputation for operating a very nice cafe.

Mrs. Golden is the daughter of Mrs. C. J. McClure of Lockney.

1958 Cotton To Be Supported At 81% Of Parity

Lubbock — The U. S. Department of Agriculture last week announced it will support grower prices of 1958 crop cotton at an average of about 81 per cent of parity.

This means the price for Middling 7-8 inch grade will be 30.75 cents a pound. This compares with 28.81 cents for the 1957 crop which was supported at 78 per cent of parity.

Better grades will be supported at premiums and poorer ones at discounts from the base grade. The schedule of premiums and discounts will be announced later.

W. O. Fortenberry, President of the Plains Cotton Growers, Inc., explained that the USDA after announcing this support of the 1958 crop at 81 per cent, has the privilege of raising the per cent of support later this year, probably this summer, if the cotton situation at that time indicates a need for a higher support price, however, the USDA cannot lower the support percentage from the announced 81 per cent.

A possible alternative for cotton producers this year may be offered if a proposed cotton bill, introduced by Senator James Eastland, (D. Miss.) is adopted and passed by Congress. Senator Eastland's bill calls for a referendum to the cotton farmer whereby he would be offered a choice between the announced 81 per cent of parity on his crop, or a possible increase in acreage of approximately 25 per cent to be supported at 75 per cent of parity.

Few cotton observers feel this bill can be passed in time to be effective on the 1958 crop, since planting is already underway in the Rio Grande Valley.

Carter, Cooper Named Directors Of Cotton Group

Lester Carter was re-elected and Jerry Paul Cooper was named a new director from Floyd County to the Plains Cotton Growers in a meeting at the High School Auditorium last Friday evening. Cooper succeeds E. J. Foster who has served the past two years as director.

Conrad L. Lohoefer, a representative of the PCG office in Lubbock, spoke to the small group of farmers and business men present, reporting on the progress made by the organization and what it is trying to do to improve the cotton situation.

Some form of entertainment will be provided for the period 9:30 to 10 a. m., just preceding the start of the program. Sponsoring the annual event are the Lockney Chamber of Commerce, the Fort Worth & Denver Railway, the Extension Service and the Floyd County Soil Conservation District.

Rotary Plans Public Sale

The Lockney Rotary Club is planning a public sale soon if sufficient merchandise and implements can be gathered together. Officers of the club said this week. The club hopes to find quite a bit of farm equipment which the owners will offer for sale at auction and possibly some other items may be auctioned off.

It is a money-raising plan for the Rotary Club and they will charge the usual 5% for everything sold at the auction. Auctioneer Tom Word of the Lone Star community has agreed to contribute his services. The merchandise to be sold will be gathered together in a central location here and the sale will be held at that place, time yet to be set.

All members of the club are seeking to locate some equipment or merchandise which the owners wish to dispose of, and if there are those who have something they want to list they may do so with any member of the club or at The Lockney Beacon Office.

The club will advertise the sale widely and use every method to secure a large crowd at the sale, it was said.

Be still and know that I am God. — Psalm 46:10.

LOSING the manager of the Chamber of Commerce is no reason for that organization to lessen its activities or slack up in its efforts to build the community. Of course, it does mean that the membership will have to take on more responsibilities and work harder at the job. Just recently we read an article which told of the growth in population of the larger cities and the loss of population in smaller cities. It was emphasized that if a city is to grow, the citizens of that city must work at the job of making it grow. Lockney has been growing since about the close of war in 1945 and the population at present is probably about twice what it was then. But we have lots of competition in this area. Other towns and cities are also growing and we must make people want to come to Lockney to live, we

must try to provide means of livelihood for more people, and we must try to see that local residents have more of the things that make living in a community pleasant and convenient. It's everybody's job and it will be beneficial to all.

IF NOTHING ELSE, the very cold weather we have experienced this winter should help in killing insects and perhaps lower the farmers costs for insecticides in the coming crop year. Maybe our memory is not as good as it should be, but it seems to us that this is the most severe winter we have experienced on the plains. We have had more cold weather, and more moisture, than any we can remember in the past 16 years.

THE NEW EGG LAW, which goes into effect in Texas on February 17, is designed to give legal protection to the egg industry, grower and seller alike. Essentially it is a grading and labeling act. It requires all eggs sold within the state to be properly marked as to grade and the eggs must meet the specifications indicated on the carton or crate. It should enable the housewife to buy the quality of eggs she wants and be certain that she is getting what she is paying for.

SPEAKING OF Chamber of Commerce, there will be plenty to do for the membership within the next few weeks. The annual Soil Day is coming up soon, February 21 to be exact, then the annual banquet, always a big affair in the community, is set for March 21. Following that the annual membership drive will be made. Meanwhile everyone should be doing what can be done to help promote the vegetable growing industry in the area. There is always something to be done toward the building of a community if one is interested enough and wants to look for it.

TAX-MAN SAM SEZ: The income tax folks spend a lot of time sending back income tax returns that Papa signed and forgot to have Mama sign. One taxpayer wrote the Internal Revenue that he had enough trouble with his wife without letting her know how much money he made. Since Texas is a community property state, Mama has to know how much Pop made because she is responsible for taxes on half of it. Every year the Revenue folks tell taxpayers to have both husband and wife sign the joint returns. Every year thousands of tax returns are sent back by the Internal Revenue folks who forgot to sign. If you don't want to take up corresponding with the Internal Revenue Service, get Mama's signature the first time.

CHANGING TIMES, the Kiplinger Magazine, estimates that about 10 per cent of all personal spending by families and individuals goes for automobiles. It says that in 1956 spending in the family car — including purchases, tires and parts, gas and oil, service charges and other costs — came to \$27 billion.

LEADING ECONOMISTS of business and universities recently met at the University of Michigan for a conference. The consensus of their views, as reported by the Wall Street Journal: "A mild business recession definitely is under way and no upturn is likely before late 1958."

Reduce Delinquency

VI LEARNING CRIME?
(A distinguished Texas judge offers pointers on combating our rapidly increasing juvenile delinquency problem.)

By **JUDGE SARAH T. HUGHES**

Gatesville, as you know, is the state school for delinquent boys. Only the worst offenders should be committed there, but unfortunately many counties do not have facilities for handling boys who cannot be rehabilitated on probation. Many others do not have probation officers, paid or voluntary.

Too Young
Such boys are really dependent and neglected rather than delinquent. They should never have been sent to Gatesville and it is not good that they are there.

Too Little Remedy
The last regular session of the Legislature did not provide a separate school for younger boys but did remedy the situation in part. Dormitory and eating space were provided away from the main campus.

REUTHER'S GOAL
Several have asked this source of information just what Mr. Reuther proposes for his United Automobile Workers Union. Briefly, his plan provides that a manufacturer's profits over 10 per cent of net capital be divided three ways:

- 1. One half to the corporation's stockholders and officers.
- 2. One fourth to all wage and salaried employees excepting executives eligible for bonus.
- 3. One fourth to be a rebate to car purchasers.

The formula is designed partly to increase consumer purchasing power. No. 3 proposal apparently is a new one in America, however share the profit plans have been in use in the U. S. for a long time. Observers see Mr. Reuther's "bugle call" for profit splitting as likely to keep passions stirred for months to come.

Most profit-sharing plans have had their origin with management's inspiration. It may be pointed out. — J. M. Forbes in Muleshoe Journal.

DEMO FIGHT
Even though there will be few, if any, hard-fought State races, 1958 gives promise of being a run-of-the-mine Election year in Texas.

There'll be no fights between Democrats and Republicans, only between Jeffersonian Democrats and Leftwing Democrats. Already there are two full-blown organizations, one official and the other unofficial, squared off for the hair-pulling.

The official State Democratic Executive Committee is the "regular" organization, headed by Gov. Price Daniel and National Democratic Committeeman Byron Skelton. The unofficial organization is headed by State Democratic Committeewoman Frankie Randolph. She has "bolted" the "regular" organization under which she holds title to office; calls her groups the "Democrats of Texas."

To illustrate the situation, a weekly periodical called the Texas Observer, voice of the Leftwing and published by Mrs. Randolph, uses up 10 times as much ink and space to "reading Sen. Lyndon Johnson and Speaker Sam Rayburn out of the party" as it uses to argue with the Republican foe. This is in spite of the fact that Rayburn and Johnson are the most nationally celebrated of all Texas Democrats and each is the leader of his party in his particular branch of Congress through election by his Democratic colleagues!

Hold onto your hats — but, more important, also to your good judgment! — The Plainsman in Lubbock Avalanche.

STEERING PARENTS

Police Chief Henry Aycock spoke before the Jr. High PTA Tuesday evening and, among other things, got himself labeled as a highly capable public speaker. Henry told the parents that hereford has an unusually low delinquency rate among the young people, especially when compared with cities. He emphasized the importance of training in the home and said that seldom does a bad delinquency problem develop in a Christian home. He further stressed the large number of local children who had been taken away from parents due to parental delinquency, concluding the thought with a suggestion:

"Sometimes I think it would be a good idea for the boys and girls to organize a club to help steer their parents in the right direction." — Jimmie Gillentine in Hereford Brand.

TOES TRAMPLED

Representative Saul tromped on the toes of a few of the local big-wigs last Monday night when he brought out the fact that alcohol is the greatest problem that faces America today. We look around us at the beer cans and whiskey bottles that litter our streets and lawns and scream to the high heavens that the young people are going to the dogs. While we are screaming so loud, the papas and mamas are pushing their beer back a little further into the refrigerator and are being a bit more subtle about their liquor guzzling in the back room of their place of business.

The so-called "social drinker" who cannot take a stand when the alcohol question comes up sets a good example for the youth of our times. That example is what leads to 87% of the men and women in the penitentiary causes 52% of the wrecks on the highways, caupenitentiary, causes 52% of the and over 50% of the juvenile cases. — John Pope in Quitaque Post.

P.T.A.'s to Celebrate Founders Day

11-Million Members Mark Organization's 61st Year

On February 17 the world's largest voluntary service organization will celebrate its 61st birthday.

This is the National Congress of Parents and Teachers, whose nearly eleven million members are active today in P.T.A.'s throughout the 48 states, the District of Columbia, Alaska, and Hawaii. They will mark the organization's Founders Day with a variety of activities aimed at strengthening and expanding parent-teacher work in their own communities.

Mrs. Rollin Brown, of Los Angeles, president of the National Congress, points out that these 43,000 P.T.A.'s have set the pattern for parent-teacher associations in areas where U.S. armed forces have established American communities overseas. And parents of school children in other nations have sought help from the National Congress in forming similar groups to promote education in their countries.

Founders Day activities, scheduled for February 17, will honor two women whose imagination and concern for children planted the seed for this still-growing organization.

It was in 1897 that Alice McLellan Birney and Phoebe Apperson Hearst conceived the idea of a National Congress of Mothers to promote the health and welfare of children by helping their parents learn more about how to fulfill a child's physical and spiritual needs.

They worked hard to interest other women in their aims and approached the date they had set for the organizing meeting with hopes of seeing a hundred or so delegates arrive at Washington's Arlington Hotel. But "if only twenty-five are there," admitted Mrs. Birney, "I shall be satisfied."

More than two thousand men and women turned out!

Their enthusiastic reception of the aims, as outlined by the Founders, and of the lectures, discussions, and conferences that made up the first meeting set the pace for a great national movement. Soon state congresses were founded, and before long the original "mothers' congress" was broadened to include the

concept of parents working with teachers.

Since that founding meeting, the National Congress of Parents and Teachers has written an impressive record of achievement. It includes these activities in behalf of children:

Donated hundreds of thousands of dollars in scholarships to students planning to enter the teaching profession.

Initiated a program for the periodic health appraisal of well children from birth through high school—an extension of the Summer Round-Up campaigns under which nearly three million pre-school children have received physical examinations.

Promoted successfully thousands of school building projects, including preliminary surveys, educational campaigns, and school bond issues.

Alerted the public to violations of child labor statutes, stressed the need for improved juvenile detention facilities, and supported sound adoption laws.

Helped establish child-care centers for children of working mothers and worked to raise the standards of all child-care establishments.

Established and supported public kindergartens until public support could be secured.

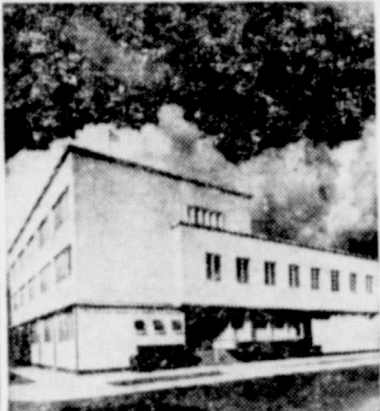

Pioneered in establishing and maintaining thousands of hot school lunch programs long before the public in general became aware of their importance.

Helped to keep the schools open during the years of war and depression—an achievement for which it received a special citation from the National Education Association.

Lewis, vice-president; Mrs. Adlai Stevenson, vice-president; Mrs. Theodore W. Birney, president and Founder; Mrs. Phoebe Apperson Hearst, vice-president and co-founder; Mrs. William L. Wilson, chairman of the Reception Committee; and Mrs. F. Benjamin Johnston.

Standing: Mrs. Henry J. Finley, chairman of the Press Committee; Mrs. James H. McGill, chairman of the Entertainment Committee; Mrs. A. A. Birney, chairman of the Committee on Arrangements; Mrs. H. W. Fuller, chairman of the Transportation Committee; Miss Mary Louisa Butler, corresponding secretary; and Mrs. Harriet A. McLellan, chairman of the Literature Committee.

Headquarters of the National Congress of Parents and Teachers stands today at 700 North Rush Street, in Chicago. The building, dedicated in 1955, won an award from the Chicago chapter of the American Institute of Architects and the Chicago Association of Commerce and Industry for excellence in architecture.

Mrs. Rollin Brown, president, uses giant thermometer to illustrate how membership in the National Congress has more than doubled since 1947.

TELEPHONE TALK

by J. C. Oakley, Manager

BACKWARD GLANCE

At the start of 1957 we had 1047 telephones working in Lockney and at the end of the year we had 1106, or a gain of 59. Average number local calls made each day in Lockney was 4,188; also the average number of long distance calls was 175 per day.

Folks in Lockney depended on their telephones to do many jobs for them in 1957 and we plan this year to continue offering the kind of service that telephone users here have come to depend on.

AT YOUR SERVICE

Some friends of mine are high in their praise of the telephone for its dependability in practically any kind of weather, day and night. They're happy with their telephone service and we're glad they are. But we're not content to rest on our laurels.

To improve their and your service, new ideas to improve telephone equipment are constantly tested by telephone scientists. New methods are continually put to work to help your calls go through easier and faster. Behind the scenes, experienced telephone employees work "around the clock" to give you the best in telephone service.

These three reasons, new ideas, new methods and experience, are why telephone service never stops improving, yet remains easy on the family budget.

OUT OF THE PAST

I was thumbing through some old magazines the other day and found some household hints that had been published during the war years. One column suggested using an egg-timer to limit your Long Distance calls to three minutes.

I started wondering if anyone is still using an egg-timer out of a force of habit. I hope not because you certainly don't need to.

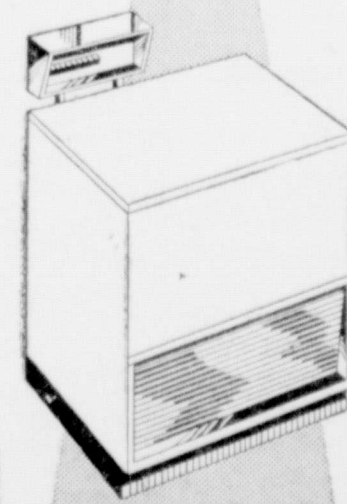

Today, there are plenty of Long Distance lines. You can talk as long as you like and as often as you like. In fact, it's wiser to take your time on Long Distance calls and say everything you want to say. One six-minute call always costs less than two three-minute calls. The longer you talk, the less it costs on a per-minute basis. And, you save an additional one-third when you call station-to-station.

Call by number. It's twice as fast.

Barbara Wilson, Ronald Christian Wed Sunday

An archway backed by palms and entwined with green tropical foliage, flanked by candelabra and tall baskets of white gladioli, formed the decorative setting for the wedding of Miss Barbara Wilson and Ronald Christian. The twin ring ceremony took place at the First Baptist Church Sunday, Feb. 9 at 3 o'clock. Rev. Charles Broadhurst, pastor, read the vows.

Mr. and Mrs. Carl Willson, Lockney, are parents of the bride, and the bridegroom's parents are Mr. and Mrs. Albert Christian, Turkey, Texas.

An organ prelude was played by Miss Bobbie Lu Casey who also played the wedding procession and accompanied Mrs. Donice Casey who sang "I Love You Truly" and "True Love". A trio composed of Katie, Gayle, and Cheryl Rucker, sang "Whither Thou Goest" and as a benediction they sang "Bless This House". They were accompanied by the organ by Miss Janice Hays who also played the wedding recessional.

Escorted to the altar by her father who gave her in marriage, the bride wore a waist-length gown of white embroidered tulle over net and taffeta. A lace bolero, buttoned down the front, covered the strapless bodice. The bolero featured a Peter Pan collar and long sleeves. The fitted bodice was shirred with a white satin cummerbund caught at center-back with a large bow. The skirt was designed with tiers of scalloped embroidered tulle. Her finger-tip veil of nylon tulle fell from a dora of seven pearls, sequins, and rhinestones. She carried a bouquet of white roses nestled in lacoon atop a white Bible and featured satin streamers tied with white carnations. The bride carried out the traditional something old, new, borrowed, and blue.

Mrs. Deann Williams, Lubbock, attended her sister as matron of honor. Bridesmaids were Misses Neida Sims, Lahoma Rowell, and Glenda Foadi. They were dressed in ballerina length dresses of blue net and chiffon and carried nosegays of white carnations and laceron.

Glenn Christian, of Amarillo, served his brother as best man. Mickey McLeod, nephew of the bride, carried the rings on a white satin pillow.

Candlelighters were Carol Davis and Carol Howell. They wore blue dresses and wristlets of white carnations.

Ushers were Jackie Christian, brother of the bridegroom, Glenn McLeod, Lubbock, brother-in-law of the bride, and Ira Clower.

Mrs. Wilson, mother of the bride, wore a navy suit and white accessories. Mrs. Christian, mother of the bridegroom, wore black with white accessories. Both wore a corsage of white carnations.

Reception
A reception was held in Fellowship Hall of the church following the ceremony. The refreshment table was laid with white and accented with the bouquet of the bride and those of her attendants. The three-tiered wedding cake was laid in white and topped with a miniature bride and groom standing beneath a lace-framed arch. Featured on each tier were white wedding bells with

blue clappers, swans and butterflies. Dolores Brown cut the cake and Martha Harden poured punch.

Mrs. Glenn McLeod, sister of the bride, secured names for the register. Music was played by Miss Bobbie Lu Casey. Assisting with the hostesses were Mrs. B. B. Vernon, Mrs. Hilburn Casey, Mrs. A. O. Seigler, Gary and Dickie Crosbyton, Mrs. Odell Wilson and Sally Ann, also of Crosbyton. The later two women are aunts of the bride.

The bride is a graduate of Lockney High School, having completed her work at midterm this year. The bridegroom is a graduate of Turkey High School and is presently employed with M-System Grocery in Turkey where the couple is at home after a short wedding trip. For traveling the bride left in a light blue two-piece suit touched with white. Her accessories were white and she wore a corsage of white roses.

CUP ARITHMETIC

If you know your cups, it isn't hard to measure fractions. Home economists keep a chart inside a kitchen cabinet door which saves a lot of figuring. Here is what it contains: 3/8 cup equals 1/2 cup plus 2 table-spoons, or, half way between 1/2 and 3/4 cup. 5/8 cup equals 1/2 cup plus 2 table-spoons and 7/8 cup equals 3/4 cup and 2 table-spoons.

PROTECT BAKING INVESTMENTS

Baking a cake is an investment in time and skill. Home economists recommend the use of containers with close fitting covers for keeping cakes moist. A large bowl, inverted over the cake plate, will also protect the cake from drying out.

IN, TEX. — One of the topics at next July's conventions likely will be held any more. Price Daniel has suggested the abolishing of the precincts. His premise is that of the infighting which the Democratic Party originates in neighbor-against-neighbor electing of delegates (precinct) to the conventions by direct vote primary. Governor Daniel pointed out that conventions sometimes are held by a minority group in the area. Many generally vote in the precincts to come to the voting place a week in one day for the conventions. Delegates by direct vote intended the governor, would do away with "rump conventions" and contests over which precinct delegation is entitled to seats at the county conventions. Governor Daniel's recommendation, made at the State Democratic Executive Committee meeting, came as a surprise counter-offensive to the DYT's "code of ethics" campaign. DOT (Democrats of Texas) is a liberal group, openly bucking the governor for control of party affairs. Spearhead of its drive is the "code of ethics" proposal designed, according to its sponsors, to eliminate much of the fighting and give everyone a fair shake at conventions. DOT members were immediately critical of the no-precinct convention plan. It would eliminate "grass roots" gatherings, they said, the only chance every citizen has to get up and speak his piece. But the governor had an answer for that too. He suggested that the new law provide that any qualified party member could propose a resolution at his county convention. Both the governor's and the DOT's suggestions are to be studied by the SDEC. Governor Daniel said if his plan meets with approval within the party, he will submit it to the Legislature next year.

TAX FACTS — Texans paid \$2,600,000,000, or one-fourth total income, in state, federal and local taxes in 1956. In a fact-packed report (its first), Texas State Tax Study Commission traces the history of Texas' taxing patterns from 1932 to 1956. Next in an expected series of about 10 reports will compare Texas taxes with other states. Findings are to be presented to the Legislature in 1959 to serve as background for revenue-wrestling. At present, says the report, Texas Taxes are derived 45 per cent from property; 22 per cent, sales; 16 per cent, severance; 17 per cent, all other sources. Basic pattern has not been changed since 1911, but all categories except the property tax have increased at least 10 per cent since 1950.

PRICE OF PROGRESS — Relocating utilities in the path of the new interstate highway system is going to cost Texas cities more than most officials had originally thought. Atty. Gen. Will Wilson ruled that state-federal funds may be used only in a limited way to pay for utility moving. Specifically, said Wilson, they may be used to pay for relocation of sanitary sewers and for other utilities, such as water and power lines, only if they must be moved completely outside the road right of way. Cost of re-locating water, power and gas lines within a right of way must be paid for by the city or utility company. Texas League of Municipalities protested the interpretation, said it would cost Texas cities as much as \$20,000,000 to comply. Chief source of disquiet to the city officials is that under the same federal building program, cities in other states are not required to meet this cost.

NO PRICES FOR SPECS — No mention of price can be made in an advertisement for eyeglasses until the State Supreme Court clears up questions about the new optometry law. High court turned down the request of an optical company to suspend the temporary injunction against price advertising until the test case is heard on March 5. Rival groups of optometrists are at odds as to what kind of advertising should be permitted. One group contends the law passed last spring clearly prohibits certain types of solicitation. Another agrees with the Nov. 18 Attorney General's opinion that the law is unconstitutional because improperly drawn.

CONTESTS QUESTIONED — Texas merchants who like to conduct contests or drawings as business builders, were set back, temporarily, by an opinion handed down by the Attorney General's department. Based on the state's laws governing lotteries, the opinion, at first glance, seemed to rule out any type of drawing for prizes. However, Assistant Attorney General Cecil C. Rotsch, who wrote the opinion, says that the ruling does not change, in

RED HEART COOKIES

First, make some real red sugar by placing a cup of granulated sugar in a pint jar. Add 1 teaspoon of red vegetable coloring and shake the jar vigorously until the sugar is evenly colored. Use your favorite rolled cookie recipe and cut the cookies with a heart-shaped cutter. Brush each cookie with slightly beaten egg whites, then sprinkle generously with the red sugar. Bake in oven, preheated to 425 degrees for 5 to 7 minutes.

US Trust creditors still cannot be paid. Suits filed by groups seeking preference have not been settled.

GENTLER SLIDE FOR TEXAS — In a year of predicted recession, the dip in Texas business will be less noticeable than for the nation generally. This prediction is made by the University Bureau of Business Research on the basis of figures for past recessions. In 1948-49 national figures dropped 19 per cent; Texas, 6 per cent. In 1953-54 the national drop was 11 per cent; Texas, 8 per cent.

Expanding industries and a growing population were noted by the Bureau in explaining Texas' favored position. A period of even greater activity was foreseen for the 1960's.

SHORT SNORTS — Ballot positions for the nine proposed constitutional amendments to be voted on Nov. 4 have been determined by a drawing in the Secretary of State's office. No. 1 position went to the amendment which would give legislators a \$7,500 annual salary.

Veterans Land Board has agreed to try to sell the remaining \$87,000,000 in bonds allowed under the program as rapidly as possible. Aim is to get the program rolling again without waiting for possibly more favorable interest rates. Land Office reins are now in the hands of new Commission.

Every drop of water, every bit of fertilizer that you put on a growing plant is returned to you in value . . . increased many times.

And every dollar spent at home instead of in some other community . . . promotes the growth and luxuriance of your own little personal prosperity tree.

We don't expect the neighbors to mow our grass, water and weed our gardens, so we won't have to be bothered with it. Trouble is . . . a lot of them are expecting us to to keep the ball rolling while they go city-shopping.

Let's . . . every one of us . . . remember that loyalty to our home community is merely loyalty to our own economic welfare . . . that scattering our buying power leaves our own prosperity plant with less nourishment.
