Postal Receipts Up 33 Percent For Fiscal Year

Postal receipts at the Lockney post office were up 33 percent for the fiscal year ending June 27, according to a report by Mrs. Jeffie Griffith, postmaster.

The total receipts for the year were \$25,475.60 compared to \$24,659.07 for the previous fiscal year, Mrs. Griffith said. Receipts by quarters the past year were: quarter ending October 18, \$6,437.51; quarter ending January 9, \$9,036.64; quarter ending April 4, \$5,514.17; quarter ending June 27, \$4,487.28. The difference in the fiscal years was \$816.53.

Mrs. Griffith explained that the receipts for the final quarter were down considerably due to the change in postal rates which will go into effect Aug. 1. Many firms are allowing their postage stamp stock as well as envelope and post card supplies to run down in preparation for the higher postal rate.

New Postal Rates
The new postal rates, which are effective August 1, will increase the cost of mailing first class mail, air mail, and post cards. The new rates require a four cent stamp on first class mail. Air mail rates will increase from six to seven cents and post cards will increase from two to three cents.

Replacing the old three-cent stamp will be the Lincoln four-cent stamp, which will be lavender in color. The new seven-cent air mail stamp, colored blue, shows a silhouette view of the wing spread and fuselage of a composite jet airplane which will soon be in use.

The air mail post card will sell for five cents after August 1 instead of the present four cents now. The double post card or the "reply paid post card" will be priced at six cents instead of four cents. The Statue of Liberty will replace the pictures of Martha and George Washington on this card.

Books of stamps now are available in two sizes; books of 12 and 24. The new four-cent stamps will only be printed in books of 24 stamps and will sell for 97 cents. Air Mail books will be priced at 85 cents for 12 stamps.

Coils of 100 stamps which now sell for \$3, will sell for \$4. A coil of 500 stamps will be \$20, a five dollar increase.

Second class mail rate will be two cents for the first two ounces and one cent for each additional ounce or fraction, or fourth class rate, whichever is lower, the postmaster said.

Third class mail will be raised from two cents for the first two ounces and one cent for each additional ounce to three cents for the first two ounces and one and a half cents for each additional ounce. Eight ounces now constitute third class mail, but under the new law, fifteen ounces will be the maximum, it was said.

The book rate has been raised to nine cents for the first pound and five cents for each additional pound. The present rate is eight cents for the first pound and four cents for each additional pound.

Envelopes will be available in short and long sizes. Air Mail envelopes are priced at seven cents.

Floyd Bond Sales Are 43% Of Quota

Floyd County series E and H bond sales have now reached 43.7 percent of the quota for the calendar year, according to an announcement by Joe Glidden of Floydada, county bond chairman.

Floyd County people have purchased \$108,530 in bonds against a quota of \$246,000. May sales totaled \$7,608. The totals quoted were up to June 1st.

District No. 2, which includes Floyd County, has purchased 46 percent of its goal, while the state as a whole has hit 43.3 percent of the goal of \$175,000,000.

First Quarterly Conference Sunday

The first quarterly conference will be held Sunday afternoon at 2:00 at the First Methodist Church. Dr. Luther Kirk of Plainview, who is the District Superintendent, will preach at the morning service and conduct the conference to be held that afternoon.

D. D. Langford Has Heart Attack

D. D. Langford is in a critical condition in Methodist Hospital at Lubbock, friends said Wednesday. Mr. Langford, a retired mail carrier, suffered a heart attack at his home in Lubbock about noon last Saturday. His breathing is a little better at times than it was but there has been no material improvement in his condition, it was said. The attack was termed a coronary occlusion by physicians.

The Langfords lived here for many years and he carried the mail on Rural Routes 1 and 2 out of Lockney. He retired and they moved to Lubbock about two years ago.

His room number is 405 at Methodist Hospital, friends said.

Two Children Die In Auto Accident Thurs.

Two young children, former residents of Lockney, were killed late Thursday night in an automobile accident on a country road northeast of Sunray, Texas. They were Sharon Solomon, age 5, and her sister, Beverly June Solomon, age 3, children of Mr. and Mrs. L. G. (Ike) Solomon who now live at Sunray.

Funeral services for the two children were held at the Assembly of God Church in Sunray Sunday morning at 11 o'clock conducted by the pastor, Rev. W. F. McCleskey. The children were buried in Lockney Cemetery with graveside rites conducted here by Rev. Joe Stone, local Assembly of God pastor. The Solomons have three other children buried in the Lockney Cemetery.

A young man, Sherman Medford, 16, was also killed in the accident. A convertible driven by the little girls' older brother, John Solomon, age 17, went out of control and overturned. Three others were riding in the car but escaped serious injury.

The Solomons lived here until about 1950 and he was employed by Patterson Grain Co.

Swine Program Set For Tuesday

"Swine Production and Marketing" will be the topic of a program planned at the district court room in Floydada for Tuesday of next week, July 15. Speakers will be Dr. A. B. Wooten, economist; Dr. C. M. Patterson, extension veterinarian; and T. D. Tankersley, associate in animal husbandry, all from the extension service at College Station.

The meeting will get underway at 2 p.m. Tuesday and arrangements are being made by the county agent's office.

All people of the area interested in swine production are urged to attend. The Floyd County meeting is part of a four-county tour by the three extension service representatives.

Curtis Davis Is On Destroyer

San Francisco, Calif. — Curtis W. Davis, USN, son of Mrs. Everett Cole of Lockney, aboard the radar picket destroyer USS Henry W. Tucker, took part in the First Fleet visit to the San Francisco Bay Area July 3-7.

The visit commemorated the 50th anniversary of the visit of the Great White Fleet to San Francisco during its cruise around the world. A full-scale Naval review will be staged as the Fleet enters the Bay.

Following a long weekend of recreation, including many civic-sponsored events, the Fleet put to sea on July 7 for a five day striking force exercise, code named "Blue Bolt."

The operation involves 36 ships, 26 squadrons of naval aircraft and over 22,000 personnel. Ships and planes at sea will form fast-moving "Blue" attack carrier teams which will strike out against simulated mainland targets. "Orange" defensive forces consisting of shore based Naval aircraft and submarines will try to outwit the invaders.

Striking force exercises are designed to give advanced training to personnel preparing to deploy to the U.S. Seventh Fleet in the Western Pacific.

Mr. and Mrs. Clyde Dunn arrived Monday to visit in the home of Mrs. Lula Woodburn.

Good Rains Fall Last Week End

Very beneficial rains covered most of Floyd County last week. Falling Friday, Saturday and Sunday morning, most of the moisture fell slow enough to soak into the ground and will prove very beneficial to cotton and feed, farmers say. "It fell just right to help the crops," is a common expression.

Some farmers had started or were preparing to start irrigating and the week end moisture will postpone pumping another week or 10 days.

Some hail fell in an area north of Sandhill doing some damage to crops, but the area was not large. Crops were damaged in varying amounts on the farms of Clark Cates, Leroy Durham, Nellie Brown, Walter Knight and M. B. Swanner. High winds also did some damage in that area blowing down farm buildings on the Glen Kinard and Nellie Brown farms and a television antenna on Leroy Durham's place.

The rainfall for the three-day period measured just about two inches in Lockney. It was much more in some places with up to five inches reported in the Sandhill area. F. O. Schacht, south of Lockney, reported 1.6 inches; Hilburn Casey, eight miles northeast, reported 2 1/2 inches; Leslie Ferguson, five miles north, reported three inches and the Lone Star area had only about one inch.

The absentee balloting will continue through July 22, which is three days prior to the primary election date. Those who wish to cast an absentee ballot must apply at the County Clerk's office or request such a ballot by mail.

Voters were reminded this week by election officials that they must vote in their own voting precinct when they vote in person on July 26th.

Lockney Boys To Appear In All-Star Game

Two Lockney Longhorn footballers—John Hanst and Jerry Williams — will be on the "Sodbusters" roster in the first annual Panhandle Grid Classic to be held in Amarillo Saturday evening, August 23.

The "Sodbusters", composed of boys from smaller classification schools (Classes AA, A, B), will battle the "City Slickers", larger schools (Classes AAA, AAAA) athletes at Price College Stadium in the first all star game ever played in Amarillo.

Gary Finch, all-state halfback from Dalhart, will head the Sodbusters team which includes several all regional and numerous all district selections. Frank Hodnik, coach at Price College, Amarillo, will serve as the Sodbuster mentor. Bill Cross, former little All America at West Texas State, will tutor the City Slickers.

Hanst, all-district, all-regional, and honorable mention all-state, has already accepted an invitation to play in the Greenbelt Bowl game at Childress August 15. A 200 pound tackle, Hanst captained the Longhorn team last fall. He has been awarded a four-year athletic scholarship by Texas Tech. John is the son of Mrs. R. H. Ford.

Williams, a 150 pound speedster, was named to the all-district second team and was honorable mention all-region and all-state. Jerry has signed a letter of intent to play football at West Texas State. He is the son of Mr. and Mrs. Lois Williams.

Williams and Hanst are 1958 graduates of Lockney High.

Members of the 24-man Sodbuster team from neighboring schools include David Hutto, Tullia; Ronnie Downing, Floydada; Keith Lowe, Dimmit.

The City Slickers roster will be released Sunday, July 12.

Tickets for the game are now being accepted by mail. Mail orders should be addressed to Panhandle Grid Classic, P. O. Box 989, Amarillo. Ducats went on sale for \$1.50 at Vance Hall's Sporting Goods and Bucks Sporting Goods, Amarillo, last week and will go on sale in the area soon.

Mr. Stone underwent an operation in April and had not left the hospital since. His wife, sister to the late C. P. McPherson of Lockney, passed away four weeks ago but her husband was unable to attend the services. Mr. Stone was a retired barber. He was a veteran of World War I.

VEGETABLE HARVEST BEGINS IN LOCKNEY AREA THIS WEEK

Board Employs Teacher, Plans Remodeling Job

The board of trustees of the Lockney School District employed one teacher and made plans for some remodeling work to be done at various buildings this summer in the regular board meeting Monday night of this week.

Mrs. Marvin Gilbert was employed to teach one section of the sixth grade the coming year. Mrs. Clyde Seaman will teach the other section of the sixth, and both sections will be taught at the C. N. Townsend grade school building instead of the junior high building as last year. Supt. H. H. Nicholas said Wednesday. The move is made to relieve crowded conditions at the junior high building, it was said.

The board authorized the remodeling of a portion of the city auditorium building to provide two class rooms there. These rooms will be used to house the overflow enrollment in the grade school during the heavy fall months. Also an additional rest room for the girls and a teachers' lounge will be provided for at the grade school building. This remodeling work will get underway next week, Mr. Nicholas said.

School will begin this year on Tuesday, Sept. 2nd, and football practice will start on Monday, August 25.

Baptist Junior Girls To Camp

Seven 9-10 year old girls left Monday afternoon to attend the Junior Girls camp at Plains Baptist Assembly. They were Linda Carter, Carol Ann Howell, Jo Ann Zavala, Connie Reed, Linda Abbott, and Jean Latimer, and were sponsored by Mrs. Leslie Ferguson and Mrs. Hilburn Casey. After two days of worship, conferences and recreation the girls returned Wednesday.

Another group, girls 11-12, left Wednesday for a camp for their age. Girls attending this session are Sandra McCandless, Juanell Potts, Jonita Ferguson, Carla Lemons, Nadine Cumby, and Joan Falls. They are sponsored by Miss Jovonne Taylor, Janice Hays, and Mrs. Bill Hodiel. They will return Friday.

Chamber Park Committee Named

A city park committee was named by President Claude Brown of the Lockney Chamber of Commerce in a meeting of the Chamber officers and directors Monday morning. The committee is composed of "Rusty" Baccus, chairman, Fred Pyrd and Owen Thornton. The committee was requested to study the park situation and make recommendations to the City Council. Mr. Baccus said Wednesday that one member of the committee, Owen Thornton, is out of town and he did not know when the committee might meet.

A labor camp committee was also appointed Monday, that being composed of Owen Thornton, J. B. Seale and Lester Carter. This committee will study the local labor camp situation and report back to the board.

A financial report was given by Treasurer Don Hatch and some discussion was heard on the 50th anniversary celebration for the City of Lockney.

Methodist Revival Begins At Aiken

Rev. H. V. Caraway of Trenton, Texas, will hold a revival at the Methodist Church in Aiken beginning Monday, July 14, and continuing through Sunday night, July 20.

Rev. Caraway held a revival there last summer and the people invited him back this year. Marvin Marshall the regular music director will lead the singing.

Services each night will begin at eight o'clock. Morning services will begin Tuesday morning at eleven o'clock. Everyone is invited to attend the services said the pastor, Rev. Bryan Clemons.

RETURNS HOME

Mrs. Floyd Huff returned home Tuesday from Austin where she spent a month with her daughter, Mrs. Douglas Degge, Mr. Degge and family. Two of her grandchildren, Olin and Sara Lesa Degge, returned home with her for a visit.

The harvest of vegetables of various kinds is beginning in the Lockney area this week but it will be another week or 10 days before any volume is reached, vegetable men told The Beacon Wednesday.

Already some onions have been harvested and field sacked. Graders at two local sheds are scheduled to begin operating today (Thursday). Cucumbers have also begun moving slowly. Recent rains have delayed harvest of all vegetables.

Gateway Produce Co. set up their onion grader at their shed in South Lockney Monday and began harvesting some onions along the Floyd-Hale County line Tuesday. J. C. Aills is in charge of the local shed. He said that the onion crops this year appear to be of good quality and the yield is also expected to be good. Some fields will yield from 400 to 500 50-lb. bags per acre, Mr. Aills said. Most locally grown onions are yellow and white Granos, being harvested now, and Spanish Sweeties which will be harvested in about three weeks. Gateway has about 500 acres of onions in this area, Aills said.

J. R. Belt, four miles west of Lockney, harvested 16 acres of onions the past week. They are in field sacks and will be graded at Gateway's shed this week. He estimated his yield at 300 to 400 50-lb. bags per acre. He has another field yet to harvest.

An onion grader was being installed Wednesday at the Lockney Vegetable Shed and was due to start operations today. The shed is owned by 20 local men, both business men and farmers, and DeBrynan Vegetable Co. of Zeeland, Michigan, will grade and sack the onions for local farmers. Bob DeBrynan is here and in charge of the shed. Onions have been harvested on the farms of Revis Harris and Bob Kropp and will be graded at the shed this week end. Howard Mosley also has some onions ready to harvest as does Hugh Marble. The Beacon was told.

The demand for onions is very good but the price is low, local farmers said Wednesday. Some quoted the going price as low as \$1.35 per sack while others said it was as high as \$1.50 per sack. Local vegetable men say that the good demand indicates a better price within a week or 10 days.

Cucumbers Moving
The Craddock Food Company has set up their cucumber grading machine at the High Plains Gin plant here this week and were open Wednesday afternoon. They will be open again Friday afternoon, and on Monday, Wednesday and Friday of next week. After that they hope to have enough cucumbers coming in to stay open six days of the week. First to be harvested came from a small field belonging to J. H. Cooper just south of Lockney.

Gerald Sams is in charge of the shed again this year. He said Wednesday that Craddock had almost 300 acres of cucumbers under contract in the immediate Lockney area. Some cucumber acreage has been destroyed by hail and other fields badly damaged.

Bob Price, representing the Craddock company, was here this week making arrangements for the shed and contacting growers.

Local growers are producing cucumbers under a contract price on a graduated scale.

Bear ye one another's burdens and so fulfill the law of Christ—Galatians 6:2.

THE AVERAGE VOTER will usually listen to experienced advice on candidates of whom he has no general knowledge. Therefore the poll among lawyers of Texas relative to their choice of the two candidates for the Supreme Court of Texas should be enlightening to all of us. With more than 7,500 lawyers of the state expressing an opinion, 5,844 favored Justice Joe Greenhill, now on the bench by appointment, over Judge Sarah T. Hughes of Dallas County, who received 1,727 votes. Even in Dallas County Justice Greenhill received 695 votes to 575 for Mrs. Hughes. Not only is Joe Greenhill preferred by lawyers but he is also preferred by a lot of irrigation farmers on the High Plains of Texas because of his help in drafting laws concerning underground water rights. The High Plains of Texas will probably remember that valuable help when election day comes.

POLITICAL FINESSE
I read with interest Friday's Globe-Times in which Louise Evans revealed the campaign contribution in behalf of Senator Ralph Yarborough. I hope she carries this public research and service further and reveals the sources of contribution to the Bill Blakley campaign.

None of us are naive enough to believe that Blakley is being supported by dollar contributions from the "poor boys" of Texas. It would also be interesting to see just who is backing the campaigns of Daniels and Gonzalez for Governor. However, these boys are not covered by legislation requiring records of all contributions as labor is. The voters have long known that their choice of candidates has always been limited between big business and big labor. It is a toss-up between two evils so they choose candidates to balance one against the other. For that reason I predict a victory for Daniels and Yarborough.

Until we find better means of running acceptable men for public office the campaign fund evils will stick out like roe thumbs. When it costs more to run for public office than the office pays something needs to be changed. — Cecil Waggoner in Claude News.

GOING SHOPPING
One of these days I must go shopping. I am completely out of self-respect. I want to exchange some self-righteousness I picked up the other day for some humility, which they say is less expensive and wears much better. And I want to look at some understanding which is being used for wraps this season.

I'd like to find some of these pretty samples of peace—we are a little low on that, and can never have too much of it. And, by the way, I must try to match some patience with what my neighbor wears. It is very becoming to her, and might look well on me.

because you have had your incentive removed. And, you, Dick, won't work because you are getting something for nothing.

THE MODERN STRIKE

In the modern strike the strikers do not know what they are striking about until they get a bulletin from headquarters. The power to call the strike was long since delegated. Our experience in the local telephone strikes leads us to believe the above statement to be true. There was considerable local disruption of business and there was irritation. Why should the public be punished in a disagreement between the employer and the employed? We thought it was pertinent to have the answers. What was the strike about? What were the issues? Nobody here knew, and The Hesperian's nosing into the affair apparently was resented. The only answer we had was that they had not got a bulletin on the progress of negotiations. Where from? St. Louis. Why the public is not entitled to look behind the scenes to see what is going on is the mystery part to us. It's the public that takes the beating, and pays the bill.—Homer Steen in Floyd County Hesperian.

Dear Editor:
I see where nearly everybody is worried about our railroads threatening to go broke, but Washington figures a \$700,000,000 gov't-guaranteed loan will fix all their troubles.

My insolvent neighbor says this is likely to go down in history as the On-the-Cuff Age, with people believing you can cure any ailment from chicken pox to bankruptcy by borrowing some more money.

FRUIT KABOB—TALL DRINK GARNISH Fresh fruits and berries, strung onto cocktail picks make glamorous garnishes for tall summer drinks. For lemonade, try small wedges of fresh pineapple and raspberries on a pick. Strawberries and honey dew melon balls look pretty in limeade. Freeze mint leaves, slices of lemon or slices of lime into ice circles in your gas refrigerator for iced tea and other cold beverages.

FROM THE County Agent's Office

By Cecil Lewis and Harold W. Ellison

COTTON—There is a greater reward than usual to the farmer that produces quality cotton. The spread between premiums on the better grades and discounts on low grades is expected to continue wider than usual due to the high per cent of low grade cotton produced last year. Spotted cotton comprised nearly one-third of the total cotton produced in 1957.

An average price per bale during the years 1952-56 for middling one inch cotton was \$174.00. The same grade the price for 1957 cotton was \$171.00 which is not a large difference. One inch middling spot cotton sold for \$151.00 per bale during 1952-56. In 1957 this same grade sold for \$136.00 per bale. The spread in value between spotted grades and comparable white grades had widened sharply, for example increasing from \$23.00 on Middling during the past five years to \$35.00 per bale at the present.

If we could raise our average grades one grade during this cotton growing year we could add considerable income to each farm.

Check your production practices especially on irrigation and make sure you give your cotton a chance to mature.

SUMMER LEGUMES—Many of you have land in the Acreage Reserve Program and now would be an excellent time to plant cow peas, Soybeans, or Mung beans on this land for a green manure crop. We have plenty of moisture available to make good top growth. This practice is one that would add many pounds of organic matter

To the Voters of Precincts 2 and 4:

I am taking this means to let the voters know I am still in the race for Justice of the Peace. I have not been able to see all you voters because I had to work as much as I could and I have been handicapped for transportation but I am asking your vote and support. If I am elected I will promise to do the very best I can. I feel that, as I have worked with the city, county and state officers I have become acquainted with the duties of the office and will show equal fairness to all, no special favors to anyone.

I will surely appreciate your vote and support for your next Justice of the Peace. 14-3tc

to our soil. Many of you have noticed that cotton following clover, alfalfa, or cotton burs will give us more increase in yield than we can expect from commercial fertilizer. The green manure crops will make our soil warmer, earlier in planting season, reduce soil water evaporation, and will take more during a rain.

NEW ARRIVAL Mr. and Mrs. Douglas Degge of Austin are parents of a new son, born June 23. The young fellow was named Kyle Vance and weighed 9 pounds, 7 ounces at birth. Watson of Lockney is the great-grandmother of the new arrival.

Better Times ... for You

No other word starts out so many hard luck stories. No other word explains so many failures. Yet it's the backward-looking word which crystallizes our experience ... and, when used as a guide, enables us to look forward with more wisdom.

For example, we might say "IF every dollar of local money that has been needlessly spent outside of this trade area in past years had been spent at home, those of us who live in this community would be far more prosperous, happier, and more secure."

Thus ... as we contemplate what might have been ... IF ... we can make our plans to avoid the errors of the past. We can see more clearly

how a dollar here and a dollar there, saved from dribbling away into some other economic stream, will soon add up to brighter and more prosperous times ... for us and our families, our friends and our neighbors.

Sand Hill News
By Mrs. James Jeffress

The fields are very wet this week after as much as five inches of rain fell in parts of the community. The north part only received about one inch. Some hail fell. The Walter Knights, Lloyd Cates, and M. B. Swannars received the most damage. The terrific winds that accompanied the rain blew down farm buildings on the Kinard and Brown farms and Leroy Durham's television antenna. The community was without electricity for a few hours. Lightning hit the Dale Stringer home causing considerable damage.

The Sand Hill Club met Wednesday afternoon with Mrs. Rafe Ferguson as hostess. The club members enjoyed making aluminum trays during the afternoon with H. F. Jackson and Mrs. Walter Knight in charge. Those attending were Mmes. Lynn Miller, Orton Miller, Orba Miller, R. L. Bullock, J. L. Spears, C. B. Carmack Rafe Ferguson, Walter Knight, H. F. Jackson, Hollis McLain and Bill Stringer. They all met Thursday to finish the trays.

The Junior Class received the large banner for having the highest monthly grade and the Beginners received the small banner. Teachers are J. M. Williams, Juniors, and Mrs. Dale Stringer, Beginners.

We are so happy to have our new members in the church this week. We have the Orle Phillips family from Bellview and the Calvin Gustin family from Wayland College. We say welcome to you, Brother Gustin is the new music director of the church.

Swanner, Dale Stringer, and the guest speaker.

Dear Editor:
My historical neighbor says he sees where Alaska has been voted in as a genuine State, and it's too bad these folks didn't realize their long-time ambition until after States went out of style.

Says it used to be there was considerable prestige about being one of the United States, sort of like being one of the starters on a championship football team.

But since the Supreme Court referees commenced carrying the ball too, being a State is about as notable as being a Pfc. at a general's crap game.

D. E. SCOTT
Crossroads U. S. A.

The next meeting will be the first Monday in August.

The G.A.'s met Monday night at the parsonage with the president, Miss Mary Starkey, in charge. After the program was presented, the girls enjoyed making stuffed animals. South Plains

By Mrs. Murray Julian

Fourth of July picnics and speakers at the Plains Baptist Encampment were rained out on Friday night as cooling showers came and continued throughout Saturday and Sunday morning. Amounts varied from an inch in the eastern part to 2.60 in the southern and western farms of the vicinity. Some of the farmers had started their wells for the big feed, but now watering will be postponed for a few weeks. The rain fell slowly, soaking into the thirsty fields.

Dr. John Freeman preached at both services on Sunday and was a guest at the noon hour with Mr. and Mrs. Early Pritchett and boys in their home for Sunday dinner. 37 were

CROSSROADS REPORT
D. E. SCOTT

Dear Editor:
My postoffice expert neighbor says it used to take two days for an air mail letter to get here from 600 miles away, but the last one took four days, after the PO people got a raise in pay.

Says lots of them are good friends of his, but he can't help being a little glad they didn't get any bigger raise.

On account of he couldn't stand the mail service getting any slower. When his wife's mother writes to him to jump she means now, and too much delay in getting the word from her is liable to detract from his home life.

Mrs. L. T. Wood was hostess in her home Monday evening from 7-9 for an Indian Pow Wow, a party given for her primary Sunday School class. Assisting her were Mrs. Arby Mulder, Mrs. Kenzell Cummings, and Mrs. L. N. Johnson, who came dressed as an Indian, with her hair braided. Tents were erected for the children's play, and games were enjoyed during the evening. Refreshments of wieners cooked over the outside barbecue and punch were served. Prizes for the best girl costume went to Beth Kinnibrugh in her Indian dress. Jerry Calahan won the prizes for the best boy costume. Plastic Indians were given as favors. Present with Mrs. Wood, Mrs. Mulder, Mrs. Cummings, and Mrs. Johnson were Bobby Jones, Jerry Calahan, Calvin and Zacha Cummings, Steve and Stanley Pierce, Katy Taylor, Kelly Smitherman, Beth Kinnibrugh, Phil Kinszow, Carlton Johnson, Larry Beedy, Ricky Parks and Kim Cummings.

Mr. and Mrs. Thomas Pierce Beverly, Stanley and Steve went to Lubbock on the Fourth of July to attend a picnic and reunion of her family, the Robertsons. The rain cloud broke up the meeting after supper and the Pierces returned home. They found no rain at their place north of South Plains but received a good rain Saturday and Sunday.

Mr. and Mrs. W. H. Simmons and Ronnie of Truscott arrived Sunday evening for supper and they spent the night and Sunday in the Sylvin Kinnibrugh home.

Mr. and Mrs. Gene Morrison and Gary spent Wednesday in Lubbock, and Mr. and Mrs. Murray Julian were in Lubbock Thursday.

TEXAS PRESS ASSOCIATION

Mid-way recession called Texas economic activity turning their heads again. Reports show movement in overall activity since the month of February and are hoped for pick-up in a good year after the bases for the current year of cautious optimism are these:

BANK DEPOSITS: Folks have in oil demand develops during the latter half, analysts say, lots of money in the banks; in most areas, more than last year. Response to the Texas Banking Commission's mid-year call for condition of banks showed that most have higher deposits than last summer and some are at new record highs. Dallas County bank deposits increased by \$333,000,000; Har-

ris County (Houston) by more than \$267,000,000 over a year ago. Towns with all-time high deposits were Amarillo, Corpus Christi, Tyler, Midland, Denton and Port Arthur.

RETAIL SALES: Despite sag here and there, Texas retail sales are expected to run some seven per cent ahead of '57, says the University of Texas Bureau of Business Research. Because of low months early in the year, sales volume for the first five months of '58 were one per cent below the same period for '57. But a late spring upsurge put May, 1958, sales ahead of those for May, 1957. Apparently Texans are concentrating on essentials. Compared to last year, farm implement sales were up 27 per cent, food up 11 per cent, autos down eight per cent.

BUSINESS INDEX: BBR's latest report shows the 1958 level of general business activity four per cent below May 1957. But May, 1957, was a dizzy pinnacle, the highest point ever reached by the Texas business index. Since the low in March the index has made encouraging progress, pulling up by eight points. Fall will bring the tip-off, says BBR, as to whether recovery momentum is sufficient for a rise to a new crest.

EMPLOYMENT: Although thousands more were out of work than a year ago, Texas Employment Commission's most recent over-all survey showed a substantial shortening of the jobless lines. Like the general business index, employment seemed to be making a steady recovery from the early spring "trough." Number of unemployment dropped 4,200 during May, TEC reported, and non-farm employment rose to almost three million. Insured unemployment in Texas was only 4.1 per cent of the working force compared with the national average of 7.2 per cent.

COMPANY CHALLENGED — A king-size clash is in prospect July 15 between the State Insurance Department and National Bankers Life Insurance Company of Dallas.

Commissioner William A. Harrison has ordered the company to prove fitness of its management or lose its license. National Bankers, regarded as one of the largest and most prosperous companies in the Southwest, claims more than \$19,000,000 in assets. Some \$5,000,000 of these are discounted by the Department as unsound or unsuitable for an insurance company. Specifically questioned by the state are a number of mortgage loans made by the company to other firms in which the company's officers or directors have an interest.

Company President Lester F. Hall said the firm's financial footing is so sound it could raise \$5,000,000 in a matter of hours. He said the company had

"The girl who lays all her cards on the table, will usually be left playing solitaire."

a premium income of \$10,000,000 last year and net earnings of \$1,000,000.

GLAD TO MOVE OVER — Despite the prospect of losing "biggest state" honors, Texas officials say they're happy to welcome Alaska as No. 49. Sample comments:

Gov. Price Daniel: "We will still have the biggest navy."

Sec'y of State Zollie Steagley: "I'm glad another state will bear the brunt of the gags about being the largest state."

Atty. Gen. Will Wilson: "I suggest they nail down their off-shore lands before they enter the union."

SEMI-WESTWARD HO! — Re-designed Texas-tan uniforms have brought a new look to the Texas Highway Patrol. Semi-western in style, the uniforms sport black trim, black shoes, wide-brimmed grey hats with western crease.

Only 380 patrolmen and other division members of the Department of Public Safety are outfitted at present. New uniforms for the rest of the force will have to wait for another appropriation from the Legislature.

TAXPAYERS GET WARY — Slumpy in federal income tax collections in Texas the past several months have been noted by Internal Revenue officials.

Cause has been attributed to recession-minded taxpayers lowering their estimates of income for the year. South Texas collector Bob Phinney thinks, however, most will wind up making just as much money as last year.

Last year Texans paid a record-breaking \$2,600,000,000 in federal income taxes, about \$128,000,000 more than in the year previous.

SCHOOL COST CLIMB SEEN — Texas counties expect cost of education to climb \$70,000,000 annually in the next five years.

This was revealed in reports of 251 counties to the Hale-Aiken Survey Committee on Public Education. Most of the increase would go for expansions necessary to keep up with increasing enrollment.

Counties differed as to how the money should be raised. Twenty-five per cent favored higher local taxes or increased valuation. Forty-four per cent wanted additional money from the state. Nine counties favored federal aid. Thirty-five recommended a sales or income levy.

SHORT SNORTS — Walter Buckner, publisher of the San Marcos Record and past president of the Texas Press Association, has been named by Governor Daniel to the Industrial Accident Board. He will serve as the employed representative. The two other members of the board are Ned Price of Tyler, representing labor; and Leon-

ard Carlton of Austin, representing employees. . . A \$20,500 grant for re-codifying Texas school laws has been provided by the M. D. Anderson Foundation of Houston. A legislative committee headed by Rep. Robert H. Hughes of Dallas is in charge of the work. . . Preliminary report on a comprehensive survey of Texas water resources has been submitted to Governor Daniel. It was requested by Sen. Lyndon B. Johnson and prepared jointly by state and federal water agencies. Contents of the report will not be released for publication until final approval is given. . . Farm experts expect that a 92-year-old record for cotton yield per acre may be topped this year. Second highest yield was recorded last year at 295 pounds. All-time high was 325 pounds per acre in 1886—when soil was virgin. . . Governor Daniel has proclaimed July 14-20 as State Park Week to call attention to the 56-park unit begun in 1924 when Gov. Pat Neff and his family donated "Mother Neff Park" to the state. . . Texas draft quota for August will be 539 men, only one more than were called for in July. State Selective Service Headquarters also announce that some 1,700 men are to take pre-induction exams in August.

Save Life Of Girl Bitten By Rattler

(Note: This story was taken from the Hale Center American. Weldon Jones and his parents, Mr. and Mrs. Calvin Williams are all former residents of Lockney. Weldon, a former Lockney High football star, is the grandson of Mr. and Mrs. G. B. Thompson and Mr. and Mrs. Dee Williams of Lockney.

Weldon Jones, son of Mr. and Mrs. Calvin Williams of Hale Center and his wife are credited with saving the life of her sister after she had been bitten by a rattlesnake.

The young couple of her sister, Miss Jean Dunn, of Plainview, were hunting arrowheads in the Palo Duro Canyon when the rattler surprised Miss Dunn.

Weldon and his wife wrapped a belt above the wound on Miss Dunn's leg, but he didn't have a knife of any kind of instrument with which to administer first aid.

A frightened ride followed for them to save Miss Dunn's life. They rushed her to Claude, but there was no snake serum available in Claude and they had to carry her to Groom. A heavy three-inch rain had soaked the area a short time earlier causing swollen streams across the road to Groom and the trip to Groom required 45 minutes. They had to drive through pastures several times to get a round swollen streams.

By the time they reached Groom, gangrene had already set up in the girl's leg as the flow of blood had been cut off so long to prevent the venom of the snake from spreading.

Although her condition was critical, fast treatment saved the girl's life. She is now recovering at her home in Plainview.

Mr. and Mrs. Jones who formerly resided in Hale Center several months recently moved to the John Gilbert ranch located in the Palo Duro Canyon. Heavy rains in the Canyon washed dens of rattlers all over the canyon.

Just before Miss Dunn was bitten, the arrowhead hunters killed one rattler. Excited over the three arrow heads they had found the trio did not hear or see the other rattler until the girl was bitten.

Mrs. Williams was called to the Groom hospital a short time after young Jones and his wife arrived in Groom with Miss Dunn.

Mrs. Williams said that she gave her son and his wife a first aid book for a keepsake so they would be prepared next time. She received the first aid book while attending a first aid course in Hale Center a few weeks ago.
