## Future Farmer Week Is Set February 21-28

Future Farmers of America members are scheduling special activities next week to focus attention on their work of their organization during National FFA Week, February 21-28.

Special activities of the Lockney FFA Chapter include a special radio broadcast, speeches at Lions and Rotary Clubs and the annual Parent and Son Banquet at the high school cafeteria.

The radio broadcast will be over Station KFLD, Floydada, on Friday of this week, Feb. 20, at 2:45 p.m. The broadcast will commemorate the birthday of George Washington on Feb. 22, and the program will depict his life as a farmer. Members of the cast are Wayne Cooper, Stanley Miller, Tommy Duvall and Larry Boedeker.

Two members of the local FFA will speak at local service clubs during the week. On Monday evening, Feb. 23, Byron Brock, president of the local FFA Chapter, will speak to the Lockney Lions Club, his topic being Future Farmers of America. On Friday, February 27, Duane Griffith, reporter for the local chapter, will speak to the Lockney Rotary Club on the same subject.

The annual Parent and Son Banquet for FFA members and the parents will be held on Friday evening, Feb. 27, at 7:30 p.m. in the lunch room at the high school. The program will be announced next week.

Membership in the FFA is made up of farm boys who are students of vocational agriculture in high school. The organization's activities are designed primarily to help develop rural leadership and good citizenship, and to stimulate the boys to better achievement in their study and work toward successful establishments in farming.

The Lockney FFA chapter has 84 members. Officers are president, Byron Brock; vice president, Wayne Cooper; secretary, Ricky Dollar; treasurer, Kenneth Calloway; reporter, Duane Griffith; sentinel, Billy Karl Race; junior advisor, David Roberson. M. L. Brewer, vocational agriculture instructor in Lockney High School, serves as advisor.

The national Future Farmer organization has 380,000 members, with 9,000 local chapters in the 49 states, Hawaii, and Puerto Rico. Membership in Texas totals 47,000.

Future Farmers choose the week of George Washington's birthday each year for the observance of National FFA Week. Although usually recognized as a Revolutionary War General and our first President, Washington's first love was the farm he called Mount Vernon. There, he was one of the first in the nation to practice contour planting, crop rotations, fertilization, and other soil conservation and improvement methods. It was more than a century after Washington's death before general use was made of many of the sound agricultural practices that he advocated.

## Bookmobile On "Get Acquainted" Tour Will Be In Lockney Tuesday

Crosbyton — Texas State Library Bookmobile Librarian Mary Vines announced today the mobile library will be taken on a "get acquainted" tour of the rural areas it soon will be serving in Crosby, Dickens, Floyd, Garza and Kent counties, February 18-28. The Bookmobile will be in Lockney Tuesday, Feb. 24, from 3 to 4 p.m.

Actual "check out" service for the people of these communities is scheduled to begin March 3 and will continue for a period of one year as part of the State Library's rural library service demonstration program being conducted under the Library Services Act.

The demonstration will feature cooperative practices including interlibrary loans among existing libraries in the five-county area, thus creating a library system which can draw upon the facilities of the State Library, the University of Texas Extension Loan Division, Texas A&M College Library and others.

Through this system, virtually any request for a book or informational material can be handled through the Bookmobile Librarian. Headquarters are in the Ellison Building in Crosbyton, where a stock of some 8,000 books is being installed to be circulated through the "bookwagon," which can carry approximately 2,000 at a time.

"Purpose of the exhibition tour," said Miss Vines, "is to acquaint the people we want to serve with just what a bookmobile is, and what it has to offer. We have found in other demonstration areas, in the State, that many people have seen a bookmobile, but did not know that this is a free library service.

"Everyone is cordially invited to come in and inspect the travelling library when it comes to his community."

She pointed out that it is comfortably heated for the winter months, and is equipped with an air-conditioner for the summer. Its interior is lined with finished oak shelving in the same manner as the stationary libraries "downtown."

Miss Vines said she and the driver-assistant John Harvey of Crosbyton will be happy to show off the bookmobile at the following times and places: Wednesday, February 18: 2:00-3:00 — Jayton Saturday, February 21: 10:00-11:00 — Crosbyton 2:00-3:00 — Ralls 4:00-5:00 — Lorenzo Tuesday, February 24: 10:30-11:00 — Floydada 3:00-4:00 — Lockney Thursday, February 26: 10:00-12:00 — Spur Saturday, February 28: 9:00-11:00 — Post

Mrs. J. H. Barnard, representing Floyd County on the area Bookmobile Committee, and Mr. Barnard will be hosts at a luncheon Tuesday at Floydada honoring Miss Vines. The affair will be held at the Colonial House. Guests will be those who are connected with the bookmobile or county library work. Miss Vines will speak to the group.

## Seniors Vote For Trip To Colorado

In a class meeting held Monday morning the Senior Class of LHS voted to go to a dude ranch in Colorado for the annual senior trip. Sponsors of the class are Mrs. E. C. Cope and Mrs. G. C. Applewhite. Billy Karl Race is class president.

The class expects to decide next week which dude ranch to visit.

This week members of the class are selling the annual birthday calendars which carry the birth date of each member of the family and the wedding anniversary date of each married couple who purchases a calendar. The calendar has proved very handy for those wishing to remember their friends' birthday with cards, gifts or other greetings. The class receives a good commission on the sales and depends much on this project each year to help finance the senior trip. They express their appreciation to all those who have already placed orders and ask all their friends to plan to buy a calendar this week.

GO TO CHURCH SUNDAY.

## Fred Paschal Dies Early Wednesday

Fred Paschal, former Lockney resident, died at 2 a.m. Wednesday at his home in Floydada. He had been ill for more than a year and his condition had been critical for several weeks.

Funeral services will be held at the City Park Church of Christ in Floydada today (Thursday) at 2:30 p.m. Richard Williams, the minister, will officiate. Burial will be in the Floydada Cemetery with the Lockney I.O.O.F. Lodge conducting a graveside service. The body is at Carter Funeral Home in Lockney.

Mr. Paschal was born April 9, 1912, at Woodsbury, Tenn. He came to Floyd County with his parents in 1928, settling at Lockney. He was married to Miss Lois Gertrude Clinton on March 21, 1933, at Frederick, Okla., and in the fall of that year they went back to Tennessee to make their home. They returned to Lockney in 1940.

He was employed as a butcher for a number of years. He owned and operated the Lockney Frozen Foods plant for several years after working there as an employee of Arch Cramer.

Mr. Paschal was married to Mrs. Margaret Quisenberry on May 5, 1945. The couple lived here until the summer of 1957 when they moved to Lubbock. Late last year, after he became too ill to work, they moved to Floydada.

He was a member of Lockney I.O.O.F. Lodge and the Main Street Church of Christ here, relatives said.

Survivors include his wife, Mrs. Margaret Paschal; three sons, Norman Paschal of Lockney, Bill Paschal of Plainview, and Joyce Paschal, who is in the U. S. Navy and assigned to U.S.S. Washburn; two step-sons, James Quisenberry of Lockney and Richard Quisenberry of Lubbock; and one step-daughter, Mrs. L. L. McElhane, Lubbock; one brother, W. M. Paschal of Dearborn, Mich., and 11 grandchildren.

Pallbearers will be Gene and Charles Hammit, Dr. J. G. Pruitt, Fred Reeves, T. C. Bilbrey and C. C. Reed. Carter Funeral Home of Lockney is in charge.

"Religion may be learned on Sunday, but it is lived in the week-day's work." — John Dougherty.

## LONGHORN BASKETBALLERS END SEASON WITH VICTORY

The Lockney Longhorns ended a successful season Friday when they topped the Muleshoe Mules, 75-53, in the local gym. The 75-point output was the Longhorns' highest of the season and probably the highest in Lockney High history.

By downing Muleshoe, the local cagers moved into third place in District 2-AA, one game ahead of the fourth-place Mules. Lockney would have been 2-AA champions had they won all their close games — a one-point loss to Abernathy, a two-point loss to Morton, an overtime loss to Muleshoe.

All-State candidate Milton "Moe" Mickey, playing on a sprained ankle, tossed in 18 points. Other Longhorns in the double figures included Jimmy Minter, 16, Oyama Buchanan, 15, Terry Clark, 13. The fifth Longhorn starter, Donald Ivy, added nine points.

For Muleshoe Roger Mitchell sank 17 and Darrell Oliver and Gary King each had 12. The Mules made an outstanding 50 per cent of their shots in the second half but the local quintet outscored the visitors — 31 to 27 — in the final two stanzas. Lockney held quarter leads of 19-14, 44-26, 59-34.

Although out of contention for the 2-AA title, the Big Red showed hustle and determination in their last two games as they gained revenge for earlier losses to Morton and Muleshoe. Coach Troy Lemley's cagers dropped in 145 points in their two final contests.

Muleshoe's girls sewed up second place in the conference with a 62-30 victory over the Longhornettes. The winners led after every quarter — 9-2, 29-7, 50-21.

Gwen Williams and Mary Gross paced the visitors with 28 and 20 points. Janice Boed-

Mr. Frierson is in charge of rebuilding the agricultural operations in the prison and has had unusual success with the livestock side, agricultural authorities say. He will speak at 11:15 and his topic will be "Working Livestock into a Farming Program." He is a graduate of Haskell High School, a veteran of World War II, has a degree from A&M College and served as county agent before going to work for the prison system.

## Local People Buy Plainview Bowling Firm

Mr. and Mrs. J. B. Seale of Lockney and Mr. and Mrs. Glenn Beard of Plainview have purchased the Plains Bowl, Inc. at Plainview and renamed the bowling alleys Plainview Bowl, Inc. The transaction was effective Friday of last week.

Bob Redford will continue as manager of the bowling alley and Tom Adams will be his assistant. Mr. and Mrs. Seale will continue to operate and manage the Plains and Seale Theatres here and Mr. and Mrs. Beard will continue to operate the Panhandle Popcorn Co. in Plainview as they have in the past.

The bowling alley is a very popular place for recreation and is very busy most of the time, especially during the evening hours. Many people from Lockney patronize the place.

Announcement of free instruction classes for ladies is made in an advertisement elsewhere in this issue of The Beacon. Mr. Seale said that every effort will be made to make the bowling alleys as attractive and satisfactory as possible to those who patronize it.

## City Runs Tests For Water Well

City officials have had three test holes dug within the city limits the past week, testing water sands to find the best place to put another city well. Mayor J. E. Cox said Wednesday that the city had no water shortage now but that the additional well was planned as insurance against a shortage in the future.

All three holes were in the west part of town, and all three showed fair amounts of water but no decision has been made as to where the well might be located, he said Wednesday. When the well is placed two pumps and a settling tank will be the only installations made there, the Mayor said.

## EDITORIAL

And though I bestow all my goods to feed the poor, and though I give my body to be burned, and have not charity, it profiteth me nothing. — I Cor. 13:3.

**PUBLIC SCHOOLS WEEK.** March 2 through 6, is primarily for the purpose of reaffirming the importance of the schools to the general public and refreshing our minds on our obligation to them. Too, it is designed to create a renewed interest in schools, and to spread information about schools that we, the public, may be better informed. We join with school authorities and others in urging you to take time to visit your schools during public school week. Or perhaps you may want to eat at one of the lunchrooms (making reservations in advance of course.) Let's get public schools conscious during public schools week.

**TEXAS AUTO** owners now pay a uniform rate on all automobile insurance, the rate being set by the State Board of Insurance Commissioners. A bill has been introduced into the Legislature which would allow "flexible rates" and the sponsors claim that it will save automobile owners \$34 million dollars per year on insurance. We're not real well informed

on the matter but we can't help but believe that competition is good for everyone and if the law is changed to allow various companies to set their own rates, it appears evident that the public will be benefited. We do know that auto insurance rates have been going up and up.

**FARMERS WOULD** do well to take out a few hours and attend the Soil Fertility Day program Friday. It appears to us that the program committee has done a good job, that the program will be real interesting and informative and that it will be profitable in some measure to everyone. You'll find a warm welcome at the program and at the barbecue at noon put on by the Lockney Chamber of Commerce. Take most of the day and rub elbows with your fellowmen. It'll do you good.

**ONE THING** most farmers learned at the cotton meeting last Thursday night — every man will have to make up his own mind and look at his own situation to determine which route is best for him. It's something like trying to decide whether to water that crop another time or not. Whatever you do may be wrong.

**IN AN EDITORIAL** entitled "Power of a Minority" the Portland Oregonian says: "The strike of the 4,400-member delivery union shut down New York City's nine major newspapers for 19 days. It threw out of work 15,000 non-striking newspaper workers, some of whose unions had accepted wage offers in the same pattern as that rejected by the deliverers. It cost the newspapers an estimated 25 million dollars. It seriously hurt retail trade in New York in the Christmas season and caused great inconvenience to shoppers. It left a numbing void in the people's right to know what is occurring in local, national and world affairs, and was stifling to their cultural and social life."

**U. S. POPULATION** is now about 175,500,000, according to the Census Bureau — 24,500,000 greater than in 1950. Females are slightly in the majority, with 50.5 per cent of the total. There are some 15 million people who have reached or passed 65.

**LAST YEAR,** reports the Tax Foundation, U. S. governments of all kinds spent at the rate of about \$360 million a day. Total spending for the year was about \$131 billion, a new high, and an increase of \$7 billion over 1957.

## Let's Break With Tradition!

Tradition is a wonderful thing and sometimes serves a useful and valuable purpose. But it can be a detriment to progress if followed to excess. We think the latter is true of a situation that exists in the Lockney Independent School District.

Since the Lockney School District and the six contiguous rural school districts were consolidated as a rural high school district in 1946, it has been the custom to elect one trustee from each of these seven original districts. The custom was first adopted presumably to appease those who were not pleased with the consolidation. But whatever usefulness it had in the early years of the new district has been lost and we believe that now this method of electing trustees is a hindrance to proper representation.

Why limit our choice of a trustee to one small segment of the people in the district, sometimes numbering not more than 50, when the choice can be made from the entire population, numbering probably more than 4,000 persons. Many times the board-appointed nominating committee has trouble finding a person willing to run from one of these rural districts. Furthermore, there is no lawful way to elect one man from each of the original districts unless these men just happen to get the most votes. Under the law, anyone can file who wishes to do so, and the candidates with the majority of votes win even if two of them live on the same block.

From another standpoint, this traditional way of electing trustees does not give fair representation. The Lone Star district, consolidated only two years ago, and having more population and more valuation than any of the original districts with the possible exception of Aiken, will never have a representative on the board if the present method is continued. Then the city of Lockney, with more than half of the population of the entire district, has always had only one representative on the board though it has most of the population and much of the valuation.

This is not to be construed as saying or meaning that Lockney has been mistreated by the school board, nor is it intended as criticism of the school board, nor any member of the board, past or present, nor the administration. The affairs of the district have been very well managed, as far as we know. We're just saying that the old way of electing trustees has lost its usefulness.

Let's forget about boundary lines that no longer exist. Let's take the restrictions off of the selection of trustees. After all, most people have forgotten the bitterness that came with consolidation. We all have the same desire—to have the best school possible. We think it's time for a change. Let's vote for school trustees on their individual merit — not on where they live.

## With Our EXCHANGES

### TWO POUNDS OF HAMBURGER

"President William A. McDonnell of the Chamber of Commerce of the United States, served as a captain in the U. S. Army in France in 1918," writes Edson B. Smith of the Boston Herald. "His pay at that time was \$200 a month. When exchanged this amounted to 1,000 francs. Today \$200 will buy \$4,000 francs."

"Mr. McDonnell points out that if an equivalent depreciation had happened to the United States dollar, viz if it had lost 83-84th of its value, a low priced car would now cost \$250,000. A \$100,000 life insurance policy would keep a wid-

ow in a second class boarding house for 10 months. A \$100 Social Security check would buy two pounds of hamburger.

"The moral of the above is that Mr. McDonnell obviously is of the opinion that the American people are too smug about inflation, a point in which we heartily concur." — The Burkburnett (Tex.) Star.

GO TO CHURCH SUNDAY.

### CIVIL RIGHTS

The Civil Rights Commission, made up of quite high-standing men in the country, have hired so many people they have come to the point where they must "do something" to justify the big expense accounts they are making. Naturally, they would seek out rights that are being violated in Alabama, Alabama, not Harlem. The old crusading abolitionist spirit is still rampant, that is going to hunt out and punish wrongs done in Georgia not New Jersey, Arkansas not Massachusetts.

But an uneasy feeling is beginning to grow up in states other than in the south that just perhaps the federal government is going too far. If the government can do things to people in Texas why can't things be done also to people in a state above the Mason and Dixon line, on the other side of the Rocky Mountains? The threat of the justice department the other day that where people do not do right, government will have to see that federal installations are not made in their midst, is a sort of an awakening thing. Who is going to say who does right or wrong? And why would the punishment be meted out through the pocketbook? — Floyd County Hesperian

Dear Editor:

I see where the problem of raising money for the country's needs is getting worse. Like my unsynchronized neighbor whose wants always stay way out ahead of his resources.

What we need is some kindly but stupid neighbor country which will fall all over itself to borrow money and help us out when we run short of funds.

This way we could leave our grandchildren able to afford some war-fighting and politicking and high living of their own instead of having to pick up the check for ours.

Lockney High School seniors were honored with an annual Sweetheart banquet at the First Baptist Church Thursday evening, February 12, at 7:30. Places were laid for 67 class and faculty members. The courtesy is an annual event of the church, sponsored by the WMU.

In an atmosphere of candlelight the Valentine theme was prominent in decorations, program and menu. On the wall back of the head table were double hearts pierced with an arrow lettered with the words "Let's be Sweethearts". Centering the speakers table were twin hearts of white styrofoam edged with white ruffled net standing amid an arrangement of American beauty roses, white baby breath and colonial flower tapers. Lettered in red on the table cloth in front of the flower arrangement was the word "Sweetheart".

Double hearts outlined with red ruffles stood on a ruffle outlined platform holding cups and hearts. Red tapers flanked these arrangements

placed at intervals along the other tables. On the piano was a white heart edged with lace banked with red and white carnations. White nut cups featured red hearts. Place cards and programs were designed also in the sweetheart theme.

Dr. Roy McClung, pastor of the First Baptist Church, Plainview, was speaker of the evening. His topic was "Aladdin's Lamp" in which he stressed the value of Christian education. G. C. Applewhite gave the invocation followed by a welcome by Mrs. Hilburn Casey, W.M.U. president. The response was given by Billy Karl Race, class president. A girls sextet from Plainview sang "Halls of Ivy", "Some Enchanted Evening" and "If I Loved You". Following the message of the evening John Ward, music director of Plainview Baptist Church, sang "It Took a Miracle". Rev. Charles Broadhurst offered the benediction.

Girls from the junior class served. They were Rita Falls, Eleane Baxter, Lesca Dee Dorman, Joann Smith, Donna Dorman, Margie Lacey and Patricia Gray. They wore white blouses, red skirts and red ruffled aprons.

### Cox-Jones Wedding Solemnized Sunday

Miss Sally Elizabeth Cox became the bride of Merrill Duane Jones Sunday afternoon, Feb. 15, at 2:30 in a double ring ceremony performed in the home of Mr. and Mrs. J. C. Chambers, Lubbock.

The bride is the daughter of Mr. and Mrs. Leslie F. Cox, Lockney, and the bridegroom is the son of Mr. and Mrs. Wesley Jones of Amarillo.

Wedding music was furnished with recordings of an a cappella singing group known as "The Wedding Chorus" from Broadway Church of Christ. They sang "Because", "The Wedding March", "Be With Us Lord" and "O Perfect Love".

Wyndal H. Hudson, minister of Parkway Drive Church of Christ, read the vows as the couple stood before an improvised altar designed in white featuring a cherub centering a large red Valentine rising from a path of white carnations.

Given in marriage by her father, the bride wore a street length dress of colonial white brocade satin designed with a fitted sleeveless bodice topped with a bolero jacket fashioned with long sleeves and Peter Pan collar. The skirt was designed with full circular flares.

Her shoulder length veil fell from a matching white crown and she carried a bouquet centered with a white orchid nestled in stephanotis showered with white bridal satin streamers tied in love knots.

Miss Sherry Burke of Kress was maid of honor. She wore a street length dress of red taffeta designed with a sleeveless low necked bodice attached to a flared skirt caught at center back with double pleats giving a bustle effect. She wore a wristlet of white and red carnations.

Reception  
For a reception held in the Chambers home following the wedding, the bride's table was laid with white lace accented with the bride's bouquet and a white wedding cake decorated with red roses. Red tapers in

crystal holders completed the table decor. Punch poured from a crystal bowl was served with the cake.

When the couple left for a short wedding trip the bride was wearing a navy blue plaid dress topped with a navy velvet jacket. She wore bone colored accessories and an orchid corsage.

The bride graduated from Lockney High School last spring and is a recent graduate of Isbell's University of Beauty Culture in Lubbock. She is employed as a beauty operator at Bernice Chambers' Beauty Salon, Lubbock. Her husband is a graduate of Amarillo High School and Amarillo Junior College. He is now an engineering student at Texas Technological College.

The couple is now at home at 3007 E. Second Place in Lubbock.

Mrs. Spears was council chairman in Home Demonstration work the past two years and has held most of the other offices from time to time. J. T. was Brotherhood president of Sand Hill Baptist Church last year. We are sorry to lose this good family and will miss them very much.

Mr. and Mrs. Kirk Slater Jr. will be moving into the Spears house and we welcome them. Mrs. Slater is the daughter of Mr. and Mrs. M. B. Swanner. They have one daughter, Betty Jean.

I would like to make a correction on last weeks news. Mr. and Mrs. Bill Shurbet moved into the J. M. Williams house and Mr. and Mrs. Don Shurbet have the new house on Sand Hill road. Now we know where you live. We welcome these to our community.

Asia in 1950 had almost 58% of the world's total population, or 1.4 billion people. By the year 2,000 Asia's population will triple to 3.9 billion people, or 62% of the world's total.

Dear Editor:  
I see where three fry-size Texas boys got caught wrecking a schoolhouse, but explained they were not bad boys; they just didn't have anything else to do.

My people-knocker neighbor contends that most folks have a handy blind spot which keeps them from seeing the good deeds lying around to be done when they are looking for some way to kill time.

Says when the three day work week comes, he dreads to think about what types of devilment loose-ended adults will find to occupy all of that spare time.

### JANUARY BUFFET MENU

In cold weather, guests expect substantial food. Here is a menu that will make them glad they ventured out: fruit-glazed ham and oyster macaroni casserole will bake to perfection in the oven set at 350 degrees. Serve fresh broccoli, green beans or a green salad for color and texture contrast. For dessert try one of the new pudding cake mixes, served warm with a garnish of vanilla ice cream. And, of course, plenty of steaming hot coffee.

## Abbreviated Names To Appear On Tax Refund Checks

"Don't fret if that tax refund check from Uncle Sam doesn't show your full name," says Ellis Campbell, Jr., District Director of Internal Revenue Service.

Due to mechanical limitations on the high speed electronic machines now printing tax refund checks, only the taxpayer's first initial of the given name, or names, is being used.

In rare instances, where a taxpayer's surname is unusually long, one or more letters at the end of the surname may even be dropped.

The IRS representative advises taxpayers to endorse their refund checks exactly as drawn. Then, if letters are omitted at the end of a surname, a second endorsement should be made showing the full surname.

## Small Business Adm Office In Lubbock

Lubbock — South Plains businessmen now can take advantage of a Small Business Administration branch office which has been opened in the Veterans Administration Building, 1600 19th St., Lubbock.

The SBA, created by Congress in 1953, gives financial assistance to qualified small businesses, counsels them on their financial problems and provides them with technical aid and management tips.

"Sometimes we can help a business without ever making it a loan," points out Carl Gallagher, acting manager of the new Lubbock office. "In fact, we are not in competition with private institutions and we encourage businessmen to go to their local banker."

To qualify for an SBA loan, according to Gallagher, a business must show that it is unable to get help elsewhere and the owner or owners must evidence good character and ability to operate a business successfully. He also must have enough capital so that "with the aid of an SBA loan, the business will be on a sound basis."

The Lubbock SBA office will serve a 96-county area west of a line from Quanah to Ozona. William H. McKeely and Miss Sadie Chumley will be in the office with Gallagher.

Small businessmen in this area can obtain help from the SBA concerning how to boost a product, how to get a fair share of government orders and contracts, how to improve accounting methods and how to solve other management and technical problems.

The SBA is authorized to make several types of loans, including direct and participating, up to \$350,000.

**THE CHURCH FOR ALL . . . ALL FOR THE CHURCH**

The Church is the greatest factor on earth for the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend services regularly and support the Church. They are: (1) For his own sake. (2) For his children's sake. (3) For the sake of his community and nation. (4) For the sake of the Church itself, which needs his moral and material support. Plan to go to church regularly and read your Bible daily.

## SKILLED FINGERS

As the skillful fingers of the surgeon work, prayers are on the lips of loved ones. Although there is faith in the knowledge and skill of the surgeon, all realize God's help is needed.

Eventually most men realize that skill and science are not enough. Even those of us who haven't been to church services for a long, long time find ourselves instinctively saying, "Please, God," when we face a crisis.

Why wait until then? God's providential help is needed by everyone—in time of crisis and in making the constant decisions of everyday life. The doors of the Church are wide open. Won't you come in?

The wedding of Miss Jeanette Widener and Owen Dee Young took place Saturday, February 14 at 4 o'clock in the home of the bride's parents, Mr. and Mrs. Dale Widener, near Lockney. Rev. Temple Lewis, pastor of the First Baptist Church at Lone Star Community, read the double ring ceremony. The bridegroom is the son of Mr. and Mrs. Dee Young of Baird, Texas.

Vows were repeated before an arch covered with white gladioli and greenery and centered with white and silver wedding bells tied with a white bridal satin bow. Seven-branched candelabra holding white tapers flanked the arch and were decorated with greenery and white satin bows. In front of the arch was a satin covered kneeling bench.

Miss Barbara Carruth, pianist, played the wedding music and accompanied Mrs. Gene Handley who sang "I Love You Truly", "Whether Thou Goest" and "The Lord's Prayer."

Given in marriage by her father, the bride wore a pale blue wool suit featuring a full pleated skirt. She wore a small blue feather hat and carried a white Bible topped with a bouquet of white carnations arranged with white bridal satin and net and accented with rhinestones. The Bible was borrowed from her college roommate, Miss Carolyn Grouse of Dallas.

**Home Making Hints**

by Phyllis Roggendorff  
County Home Demonstration Agent

Any weight watchers in your family? If so, you, the cook, can be a big help by planning and preparing foods that are nourishing, yet low in calories. Here are a few suggestions:

Use non-fat, dry milk solids for cooking.

Keep desserts simple — fresh fruits or canned or frozen fruits packed in water or juice — not syrup.

Roast or broil meats, poultry and fish instead of frying it in fat. (Don't broil pork as it may not cook it enough to be safe.) Avoid breading and use of egg batters on food.

Serve salads plain or with low calorie seasonings. Lemon juice is good, or make a low calorie dressing.

Prepare food without added fat, sugar or flour whenever possible.

For between meal snacks or nibbling serve low calorie foods. Celery or carrot sticks, cabbage wedges or other low calorie vegetables or fruits can be

tasty and satisfying. Avoid high fat foods such as cream, gravies, sauces, nuts, potato chips, pastries, cakes and cookies, rich puddings, candy, fountain drinks, and sundies; and starch foods such as macaroni, dry peas and beans.

**REFINISHING FURNITURE WORKSHOP**

If you're planning to attend the Refinishing Furniture Workshop on March 2, I hope you have already started removing the old finish and sanding. I was visiting with Mrs. Elmer Norrell who agreed that sanding is harder work and takes longer than you would expect. Your piece of furniture should be sanded real smooth before you bring it to the next workshop.

If you want to attend the workshop and have not started removing the old finish you may want to refer to last week's paper, when I gave some pointers on that process.

I plan to send a letter about the workshop to those that attended the meeting earlier this month and those who have told me they wanted to come. If you'd like your name added to this mailing list, please call and we will be happy to.

The American Flag was first officially displayed over Alaska when Russian troops lowered their flag and U. S. Marines hoisted the Stars and Stripes at Sitka on Oct. 18, 1867.

#### SOIL TESTING

There is much demand for soil testing today. Many of you are planning on using fertilizer on crops this year. A soil test is not a magic formula but an indication to what your soil might need. A soil test is no good unless the recommendation is tied to research showing over a period of years what you can expect from the rates of the different fertilizers. Fertilizer applied from a soil test will not pay you if other practices such as insect control, proper watering are not up to standard.

A soil test is a good way to start, but be sure the test is tied to research, so that the most likely combinations can be used. We in the County Agents' office will be glad to assist you with your fertilizer problem.

plate. Mrs. Smitherman gave a demonstration on the Care of the Feet. THDA nominee was Mrs. Wood. The District meeting will be held April 16 in Plainview. #### Multiple Award Winner

Miss Betty Joyce Gisler, 16, of Victoria, 4-H Health winner, was awarded a \$100 college scholarship from Ell Lilly & Co.

Miss Gisler, secretary of the Mission Valley 4-H Club, has won district and county awards totaling 53 ribbons, four medals, and three certificates in seven years of 4-H Club work. Her projects included health, dress revue, dairy foods and vegetable demonstrations.

She became interested in the health project after learning of nutritional values from food demonstrations. Assisting the school dietitian with meal planning, helping with health fund drives, and rousing control campaigns were among her health activities. A junior and assistant club leader, Miss Gisler has helped younger members with their project record books. She also leads group singing and square dancing.

#### Landscaping Expert

Winner of the 4-H Beautification of Home Grounds award was Jerry Barta, 20, of Marlon, who received a 19-jewel wrist watch from Mrs. Charles R. Walgreen, of Chicago.

This Guadalupe County 4-H'er initially became interested in landscaping when his family moved from Corpus Christi to their present farm in 1949. The house was over 50 years old and needed extensive and internal improvements.

A period of drought slowed down Barta's project, but he has added a lawn, shrubs, flowers, a concrete patio, and yard furniture.

But Barta's interest in grounds beautification did not stop with his own yard. Two years ago he decided that the grounds around his church and school could be improved by landscaping. He drew the plans and made many

speeches in behalf of the beautification, raising \$50 toward the expense at one PTA meeting. He has since planted and cared for both church and school grounds.

For the past year Barta has been writing a weekly newspaper garden column. Now a freshman at Texas Lutheran College, he has a part-time job as student gardener.

Home Economist  
Miss Mary Louise Taack, 17, of Hart, won the award in 4-H Girls' Home Economics. She received a \$150 scholarship from Montgomery Ward.

Miss Taack has successfully completed 4-H projects in foods, clothing, garden, home improvement, beautification of home grounds, poultry and electricity. From the 157 county exhibits, 60 demonstrations, and 25 showmanship events entered, she has won more than a dozen grand or reserve championships. She received many other ribbons and awards.

Better than these awards, says this able young lady, is the satisfaction she gets from her junior leadership project. Since 1955 she has been a sewing leader, helping others with project records and demonstrations. She is president of the Hart 4-H Club and a member of the county council.

#### Recreation Leader

Richard Barkley, 18, of Irving, won the 4-H Recreation award and a fountain pen and pencil set from the National Committee on Boys and Girls Club Work.

Barkley's first venture into recreation came in 1955 when he assisted at a Tarrant County recreation school. He later became county recreation leader.

At district 4-H Camp, he planned parties, led song groups and instructed in games. Recently Barkley was elected chairman of the 1959 District IV Council.

### Surplus Of Feed Grains Will Depress Prices

College Station — Feed grain prices in the 1958-59 marketing year are expected to average a little below the 1957-58 level, principally as a result of large supplies, predicts John McHaney, extension economist.

High yields have helped to boost feed grain production and stocks. McHaney points out. Near record yields in 1956 were followed by record yields in 1957 and 1958 and total utilization this year is expected to be 16 million tons below total production plus imports. This is expected to bring carryover stocks up to a record of about 75 million tons, a 27 per cent increase at the beginning of the 1959-1960 marketing year.

However, he adds, better quality of the 1958 corn and grain sorghum crops will make a larger percentage of these grains eligible for price support. Coupled with the six per cent increase in the number of grain-consuming livestock to be fed, this will help to give some strength to feed grain prices.

The seasonal rise in the price of corn the first six months of 1959 probably will be much less than the 28 per cent rise from January to June of 1958 because of record supplies on hand.

Grain sorghum prices in 1958-59 should average near those of last year, but will probably be a little lower. The higher quality of the 1958 crop appears to be the main factor which is holding the price above those of a year earlier, despite the larger 1958 crop and the record supply.

Supplies of oats and barley are at record levels and, as a result, prices in 1958-59 will probably average a little lower.

Outlook for feed grains the next few years is dominated by the large stocks that will be on hand for 1959-60 and the years to follow, McHaney said. Whether these stocks turn out to be an increasing problem of disposal or a desired reserve, they are now the most significant factor in the outlook for feed and livestock for the next few years.

Before rolling the dough, pre-heat the oven to 350 degrees. Bake the cookies 5 to 8 minutes. Yields 6 dozen.

Paul P. Harris

**Rotary Observes 54th Birthday On February 23**

Rotarians of Lockney will join with nearly half a million of their fellow Rotarians on six continents as they commemorate the 54th anniversary of the founding of Rotary. Rotary was founded by Paul Harris and a group of his friends on February 23, 1905 in Chicago.

Wilson P. Kermickel, president of the Lockney Club, in commenting on the program of Rotary, said:

"Rotary activities throughout the world are based on the same general objectives as those of our club — the development of fellowship among business and professional men, the betterment of communities, leading boys and girls into good citizenship, the promotion of high standards in business and professions, and the advancement of international understanding, good will and peace.

"The one basic objective of Rotary," he continued, "is its 'ideal of service,' which is to be thoughtful and helpful to others. To attain this objective, Rotary seeks all that which brings people together and avoids all which separates them. This is the reason why Rotary has become a worldwide institution, whose ideals have been accepted by men differing widely in language, customs, and historical backgrounds."

"For more than half a century, Rotary has grown in numbers and strength. In 1958, for example, nearly 400 new Rotary clubs were organized in 51 countries, and four regions were added to Rotary's membership roster — French Guiana in South America, Ghana in Africa, Laos in Asia and Madagascar in the Indian Ocean.

"Today, Rotary is a worldwide service organization of more than 470,000 business and professional executives who are members of 10,040 Rotary clubs in 111 countries on six continents."

**Farm Bureau Endorses Gas Tax Revenue**

Waco — Governor Daniel's proposal to tax natural gas as means of raising needed revenue has been strongly endorsed by the Texas Farm Bureau. J. H. West, president of the state's largest farm organization, declared that the tax is fair and equitable because it does not place an undue burden on Texans, while at the same time, gives the people of Texas an opportunity to benefit from the "irreplaceable" natural resource now being shipped out of state.

The revenue-raising proposal, HB 43, has been introduced in the House of Representatives in Austin by Rep. George Hinson of Mineola. The proposed tax is a "severance beneficiary" tax on natural gas at the rate of 3 per cent of value, which would raise \$41 million over the next biennium. It would be paid by the producer only if there is no severance beneficiary to pay for it.

West lauded both Governor Danie and Rep. Hinson for their efforts to secure needed state revenues from such a source. He contended that even with passage of the Governor's proposal, Texas would still be taxing natural gas at less than half the rate of some surrounding gas-producing states.

At present some 53 per cent of Texas' natural gas production is consumed out of state, with many of the consuming states deriving considerable revenue from taxing it. For example, the state of New York, Michigan, Indiana, Ohio, and Illinois collect from two to nine times as much in taxes per thousand cubic feet on Texas gas than Texas itself collects.

West said he agrees with Governor Daniel that Texans who may end up paying part of this tax on the gas consumed in Texas will be glad to do so in order to see that those who are enjoying more than half of our production outside the state pay a just tax on this natural resource.

The Texas Farm Bureau, at its convention last November in Corpus Christi, re-affirmed its policy favoring an increased natural resources tax when additional money was needed to run the state government. The policy first calls for strict economy in state government agencies and elimination of all non-essential services.

**AMUSING PATCHES FOR CHILDREN'S CLOTHES**

"Patched clothes are fun to wear," says Margaret Spader, home service editor of the Gas Appliance Manufacturers Association, "when the patch is a clown's face or a puppy dog." Children's drawing books are full of designs that can be used for patches.

Dear Editor: I see where "his" and "hers" bathtubs are coming on the market, with the difference likely being in the curvature.

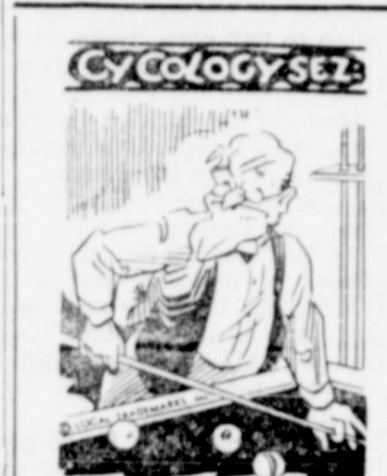

My domestic worm neighbor is not too much thrilled, though. Says "his" den is now the family TV center, and "his" clothes closet is general storage and the cat's powder room.

So he don't figure us men can keep a special he model bathtub to ourselves any more than we have, say, pants, which being insufficiently ample in the hip region hasn't kept the girls out of either.

### 400 At Cotton Meeting Here

Some 400 farmers crowded into the Lockney high school auditorium last Thursday night to hear discussions on the "A" and "B" cotton plans in the 1959 government farm program. County Agent Cecil Lewis was master of ceremonies.

Speakers included Thos. J. Hutchins, Floyd County ASC office manager; Van Davis of Lubbock, representing Plains Cotton Growers, and Bob Potot of Lubbock, representing the Plains Cotton Co-operative Marketing Association.

The speakers emphasized that cotton grown under "A" plan would be purchased by the government, discounted 5 parity points and offered for sale immediately. The grower has no further interest in "A" plan cotton, holding no equity in this type cotton after selling it to the government. The grower does maintain an equity in "B" plan cotton if he takes a government loan on it, but specialists foresee that most of this cotton will probably be sold at about 10 parity points above the government loan price which is set at 65 per cent of parity.

The group was told that if hail struck a cotton crop and completely wiped out part of it, the operator would have the choice of changing from "B" plan to "A" plan. However they emphasized that other types of crop failure, such as failure to come up for lack of moisture, etc., would not entitle the operator to change his choice.

The operators choice this year has no bearing on his next year's choice as he will be allowed to make a new choice each year. However one operator must make the same choice for all his places, should he operate more than one farm, in any given year.

Farmers can ask for re-grading on "A" cotton but the buyer does not have that right, it was said.

A straw vote at the end of the meeting showed about 20 per cent of the group saying that they would follow the "A" plan, about 20 per cent indicating the "B" plan and the remaining 60 per cent not voting.
