CROSS ROADS REPORT

Dear Editor:

I see where the folks down in Bolivia are pretty mad at the U.S. on account of some story they read in one of our magazines.

But my people-posted neiyhbor says he don't think we need to lose any sleep over this matter.

Says mostly when people are real put out with you, they want you clean out of their minds and so will send back anything you ever gave or loaned to them, but the Bolivians haven't got sore enough yet to send back any of our 120 million dollars. D. E. SCOTT

HAWAII

HAWAII-Aloha Casserole (Shrimp and spinach casserole). To 2 cans condensed cream of mushroom soup add 1 cup sour cream, 1 cup sliced mushrooms, 1/2 cup grated Parmesan cheese, 1/4 tsp. dry mustard. Heat, stir in 2 cups cooked shrimp. Layer in serving dish with 1 lb. cooked spinach. Garnish with toasted coconut. Serves 6. Really special served with the cold crisp taste of Coke, that so deeply satisfies.

MEXICO-Chill con Carne Mexicell (Chili begas with corn). Mix 1 can chili con carne with 2 cups whole kernel corn, 1 cup water, sliced ripe olives. Alternate with corn chips in greased casserole. Bake in 350° oven 30 min. Delicious with Coca-Cola. Its cheerful lift makes the whole meal more fun

SWEDEN-Smorgasbord Sandwich (Boiled beef sandwick). On buttered bread, put a slice of boiled beef, top with tomato slices, shredded horseradish, pickle relish. It's just made to go along with ice-cold Coca-Cola. Best-loved sparkling drink in all the world, enjoyed over 58 million times a day!

"My Daddy says that the electricity that lights our house comes from the Electric Cooperative and that if it hadn't been for the Cooperative we might still be using a kerosene lamp.

That's right young lady. Twenty years ago your Dad and some of his neighbors got together and borrowed money to build their own lines. They are paying the money back with interest. During the drought the payments were sometimes hard to make but they never missed a one. When you're old enough to have your own farm, remember the electrical system wasn't given to you. You are paying your own way with interest. It's a wonderful story of rural people working together to make a better life with Rural Electrification.

This is the month to begin or complete the series of Salk Vaccine Shots. This is your opportunity to declare War on Polio.

Now is a good time to start the shots. It takes only three. The first two should be two to six weeks apart. The third is given seven to twelve months after the second. There is still time to build your defense before the onset of the '59 polio season.

Why risk your health or the health of your children? Get your shots today!

Spring-A-Ling- — It's Kitchen Telephone Time

I guess you might say that Spring and color just go together. The lawns are getting greener, trees and flowers are starting to bloom, and soon there'll be color all around us.

Spring is also a time for housecleaning and remodeling — at least at our house where we always have a project or two on hand. Whether it's housecleaning or remodeling - or both - why not add an extra touch of color like a friend of mine did recently?

His wife was having a new counter-top installed in the kitchen, and called to tell him what a professional job the carpenter was doing.

Figuring that he wouldn't let the carpenter steal his thunder, my friend called the telephone company and ordered a white wall phone for the kitchen.

So Many Colors!

When he made the big announcement at dinner, my friend admitted he was worried about his choice of color. "They had so many colors," he explained, "I wasn't sure of which to choose. They had red, green, beige . . .

"But white goes best with the new counter-top," his wife interrupted, "just what I needed to perk up the kitchen even more.

The moral of this story is if you want to be a hero, add that extra touch of color by ordering a kitchen telephone for your wife. A kitchen telephone in color will brighten up the room, help her get things done, and let her chat with friends between chores.

P.S. Be a hero. Call the telephone company today.

Let's face it. Every day our large cities grow fatter on the dollars which we, and the folks in many other towns are taking from our own economy to give to them.

In plain words, our local area economy ... the cow, so to speak, which provides our sustenance - our businesses, our jobs, our social facilities . . . did not grow up and does not prosper on dollars we send to the cities.

When we're charmed by the mass and bustle, and by the ambitious claims of city business . . . so that we fork over our dollars to nourish their economy . . . we can't reasonably expect to be richly sustained by our own.

Your local business establishments give value for your money that cannot be matched anywhere else in the world . . . when you consider service, convenience, and the better reward for your own efforts which comes with improved trade volume in the area where you make your living.

God's Word - His Authority

God commanded Adam while in Eden not to eat of the tree of knowledge of good and evil. (Geness 2:16-17.) Satan used the serpent as an agent through which Eve was deceived. She ate and gave to her husband and he did eat. (Gen. 3: -2; II Cor. 11:3.) This disobedience brought the wrath of God and he drove them from Eden to till the ground. (Gen. 3:22-24.) Death was also brought upon Adam, Eve and

their offspring as a result. Uncounted tombs have been erected down through the ages as a result of this dis-

A Warning To Us

"But I fear, lest by any means, as the serpent beguiled Eve through his subtilty, so your minds should be corrupted from the simplicity that is in Christ." (II Cor. 11:3.) Obedience to God's commands has always been necessary to please him. "Blessed are they that do his commandments, that they may have a right to the tree of life, and may enter in through the gates into the city." (Rev. 22:14.)
