Little League Interest High

Much interest was exhibited in the Lockney Little League Monday evening when some 60 boys and one or both of their parents crowded into the junior high building to sign up to play Little League ball this summer. Commissioner Tom Moore said that he had a total of 62 boys signed up but that 15 or 20 more boys are needed to make a good six-team league.

SURPRISE VISITORS

Mr. and Mrs. J. E. Newton were surprised late Sunday by a visit from two of her brothers, John Walke of Tulare, Calif., and Mr. and Mrs. George Walker of Blythe, Calif. The latter couple spent the night but John Walker is spending several several days here visiting his sister and Mr. Newton.

Funeral services for Louis Floyd Galloway, 64-year-old Sterley resident, will be held today (Thursday) at 3 p.m. at the Sterley Methodist Church. Rev. J. W. Read, pastor, will officiate and burial will be in Floydada Cemetery under the direction of Carter Funeral Home of Lockney.

Galloway was killed instantly about 7:50 a.m. Tuesday when a Fort Worth & Denver freight train engine struck the 1957 Chevrolet sports sedan in which he was riding at a crossing 5 1/2 miles north of Lockney on Farm Road 598, near the J. B. Potts home. Seriously injured in the collision was Bennie Huneycutt, step-son of the deceased man, and driver of the car.

Eye witnesses said that Huneycutt was traveling north on the paved road and apparently did not see the approaching train though it was whistling steadily. The train was traveling west, having left the Sterley station only minutes before. The car almost cleared the track but the engine hit about the center of the right rear wheel. The car somersaulted into a deep bar ditch on the west side of the highway traveling about 125 feet from the tracks before it stopped, laying on its top. Galloway was thrown out of the car but Huneycutt rode it all the way, witnesses said. Galloway died from multiple head injuries. The Beacon was told, His body was found about halfway between the tracks and the wrecked car. The car was a total loss.

S. F. Barber and his grandson, Danny Joe Barber, were spraying weeds on the Leslie Ferguson farm and witnessed the accident. They were not more than 50 yards from the crossing. They reached the wreck victims first and then the train crew came. Carter ambulance brought the dead and injured to town.

Huneycutt suffered a broken wrist, broken ribs, badly bruised knee and leg, a severe blow on his head and numerous bruises. He was still in Lockney General Hospital Wednesday noon.

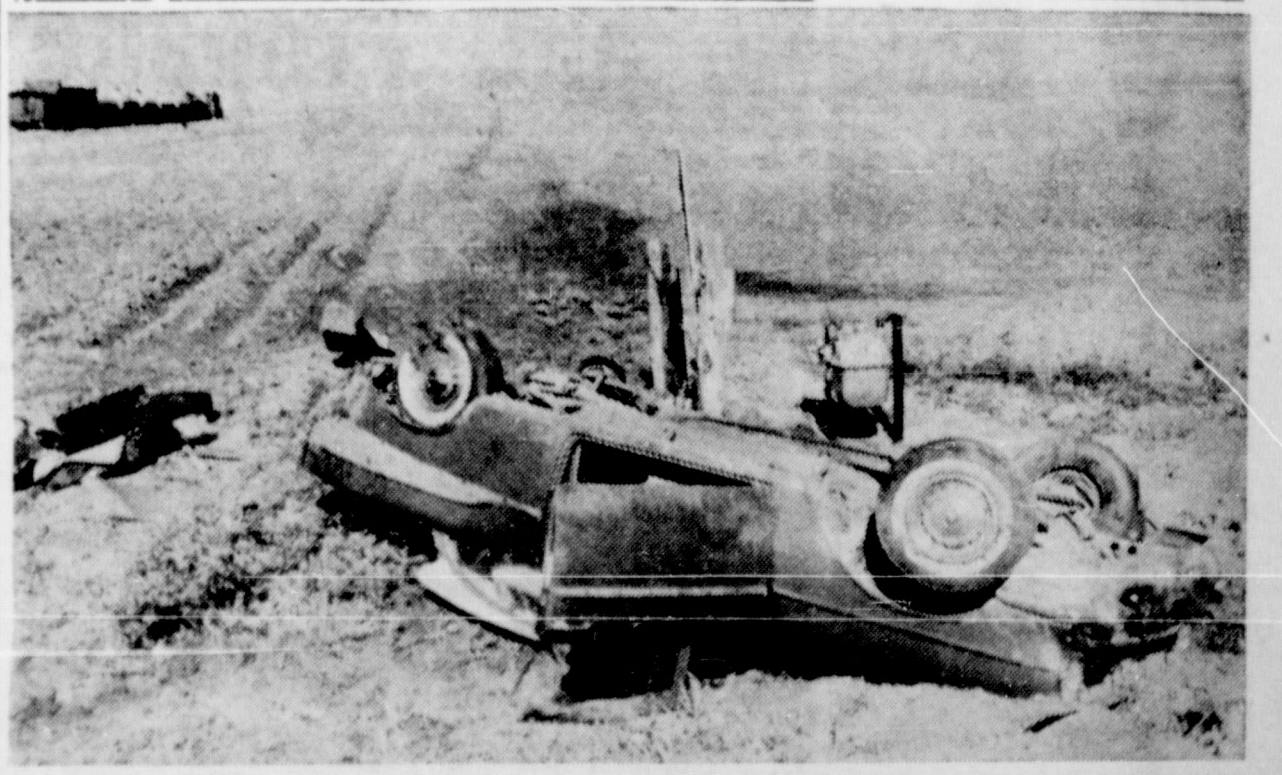

Huneycutt and his family arrived here at 4 a.m. Tuesday to visit his mother and stepfather. Their home is in Artesia, Calif. The two had been to Lockney to visit other relatives when the accident happened. Clothing and personal effects belonging to the visiting family was scattered over the right-of-way.

Galloway moved to this area from Gainsville in 1949. He was born Feb. 12, 1895, in Kentucky. Survivors include his wife, Mrs. Floy Galloway of Sterley; two daughters, Mrs. R. P. Sissney of Lockney and Mrs. Goldie Krotch of Dallas; three sons, Leroy and Clarence Galloway of Chandler, Arizona; and Dallas Galloway of Wilcox, Ariz.; three step-sons, Albert Huneycutt, who is in the Army but is visiting here; Howard Huneycutt of Lockney and Benny Huneycutt of Artesia, Calif.; four step-daughters, Mrs. Ruby Galloway of Wilcox, Ariz.; Mrs. Retha Chapman, Mrs. Catherine Carver and Mrs. Rachel Stewart, all of Lockney; one brother, one half-brother, 20 grandchildren and two great-grandchildren.

Member of the train crew were J. H. Stringer, engineer; L. C. Dubuque, conductor; T. J. Hollis, fireman; J. B. Webster, brakeman, and H. C. Young, all of Sterley.

Highway Patrolmen Carl Mullins and R. C. Dunn of Plainview investigated the accident. Sheriff Walter Hollums and Deputy Bill Tigert assisted.

Mrs. James R. Moore of Hollis, Oklahoma, was a Lockney visitor Sunday.

EDITORIAL

Forgetting those things which are behind and reaching forth unto those things which are before, I press forward ...

PEOPLE of the north and east are being led a diet of propaganda attempting to show that farm support prices are a drain on the national economy and tend to increase the cost of living through higher food prices. The farmer was one time the chief object of pity among the "do gooders" who wanted to raise his standard of living but apparently the tables have turned and now he is the object of their scorn because his standard of living is too high to suit them. One thing is sure—the subsidies received by farmers are no more in proportion than those received by other segments of our economy. The whole trouble is that the number of farmers has shrunk until he is no longer the power at the ballot box he once was. Therefore the politician doesn't consider his welfare as important as they did at one time.

BUT SOME adjustment should be made in the price support program. It is obvious that there are those who abuse it and that inequities do exist. All these things tend to bring opposition to price supports and hurt the little farmer as well as the big one. One such inequity is the amount of price support money paid to the really large farm corporations and groups of the nation. According to Lynn Landrum of the Dallas Morning News, during the year 1957 the Producer's Rice Mill, Inc., of Stuttgart, Ark., received \$1,980,000 in price supports from the government and Delta & Pine Land Co., Scott, Miss., received \$1,357,000 in price supports. Notice that one of these totals almost a million and a half dollars and the other slightly more than a million and a half. Westlake Farms of Stamford, Calif., received \$604,000. These three big operations received more in price supports than all the subsidies paid to all farmers in Pennsylvania, Maryland, Delaware and New Jersey, granting that these are not intensively farming states. Some ceiling should be placed on government money in this kind of farming groups, else the situation will rear the whole nation on price supports as a whole.

SOME TALK is heard of a

involvement, some for Lockney. A few citizens are interested in the point where they would put money into it. Seems that it is difficult to find a man, even here, who is old enough to stay in the hospital yet must spend most of their time in bed and need considerable care and waiting on. It is estimated that the cost would be pretty high, maybe fifty to seventy thousand dollars and that it would necessarily be a non-profit institution. Nothing definite as yet.

SEEMS THAT some teachers were displeased with the clipping we carried in The Beacon and week from another newspaper about teacher pay, etc. Our exchange column doesn't necessarily reflect the opinion of this newspaper though many times it does. But it is interesting and instructive to know what other people are thinking at times, and it seemed to us this little article would provoke some thought.

SURELY it is known by all who are even slightly interested that The Beacon stands for higher teacher pay. We have been arguing for some five years that local teachers be paid above the state schedule. Of course that is easier to argue than it is to do but as we figure it the only about \$100,000 per year its teachers about \$250 per year above the state schedule. This does not include those who are now drawing extra money, such as coaches, etc. In a district as rich in material things as the Lockney district \$10,000 per year would be merely a drop in the bucket. We can do it if we want to.

WE ARE in the midst of planning a building program for the school, with the expectation that we will spend hundreds of thousands of dollars for new buildings over a period of time. But, as has been said before by this department, if you have the finest building in the world, the best equipment money can buy and don't have a teacher you still don't have anything at all. We're in favor of new buildings. We're sure we need them. But not at the expense of teacher salaries. Let us say humbly here that our money for better teachers salaries is not altogether unwise. We believe that better teacher salaries will result in a higher level of ability among our teaching staff and that as a result we will have a better school.

WRITING in The New York Times Magazine, Kingsley Davis describes the increase in the earth's population as an "explosion." Sixteen years from now, it is estimated, the earth will contain a billion more people—and in 41 years nearly four billion more.

MOBILE VIOLENCE
Papers and magazines last week carrying the lynching story of Parker, a Negro charged with rape, called it mob action. It was far from mob action.

A true lynching mob is driven by heated, unplanned action, thoughtless of the consequence of what they are doing. As their debate and reason worsens they headlessly make a drive for their object, needless of any finesse or decor.

This so-called Mississippi mob acted contrary to all lynching. Their actions were well planned in advance, their object in mind and their timing excellent. No mob action there. I dare say their plans included far more than the destruction of a "thought-to-be" rapist. Mississippians today are far too intelligent to incite further congressional action in the civil rights feud. I rather think this group's main object was to deepen the racial strife now infecting the country. There is nothing that could turn the Negro more toward the left than mob action against a fellow, guilty or not. There is nothing that could more easily force them into the waiting red arms of the NAACP and related clan than the hopeless feeling of

being unprotected under the law.

It will be interesting to find who promulgated an act of this nature. I rather think it is like the recent school bombing, red dilled. — Cecil Waggoner in Claude News.

ILLNESS OR INDULGENCE?

This is a day when man tends to make respectable all his shortcomings.

If a man yields to the age-old temptation to give himself over to alcohol to the extent that he becomes a slave, he no longer is a drunken bum to be censured by respectable society and the church. Rather he is a "sick man" and the implication is that he should occupy a favored position in society. Just like a man dying of tuberculosis or cancer. When someone criticized Dr. Louis H. Evans, the noted Presbyterian minister, for being critical of an alcoholic, telling him that "alcoholism is a disease," Dr. Evans' retort was, "So is syphilis."

If alcoholism could be removed from among the "respectable" diseases and put with the disgraceful ones where it belongs, perhaps it might serve as a deterrent to those who crave social approval and respectability, yet want to enjoy the temporary pleasure that comes from drinking.

Regardless of the heinousness of a crime, modern day Americans are not prone to recognize the underlying cause. They prefer to believe that the guilty one is "mentally ill," that he was maladjusted as a youth and thus is not responsible for his act, that he does not deserve punishment but psychiatric treatment.

It's all a part of the false philosophy that man is basically good and that society is to blame for any defect in his personality, that all evil in him comes from without. It comes from the refusal of man to admit the fall of Adam, the pollution of the human blood stream, and the Biblical explanation of what happens to man when he yields himself completely to the power of Satan.

Mental illness is real. There is a place in the human scheme for psychiatry. But often these realities are only cover-ups for man's basic illness which stems from his fallen, unregenerate nature. — H. M. Baggerly in Tulsa Herald.

Dear Editor:
I see where Texas legislators heard there was a sudat camp in the state and they have been thinking about passing a law on the subject.

My tax-stripped neighbor says it might be they couldn't agree on what new rule this calls for because everybody wanted on the committee to go and investigate.

Says the boys had better be careful about legislating in the raw hide field, else they will be up against a mighty tough lobby — bathing beauties, baton twirlers, strip teasers, shorts wearers, and other members of semi-nudist cults.

Mobile Hits High In Station

A new high in circulation — 5225 books out — was achieved by the Texas State Library serving Crosby, Syd, Garza and Kent during April, according to Mary Jo Vines, library librarian.

The highest monthly demonstration of the Rural Library in its operation in Vines declared. "It is proof that the area are hungry for knowledge and recreation in good books."

The bookmobile is furnished by the Texas State Library provisions of the Library Service Act as a free one-year demonstration of first-class mobile library service to rural communities in the five counties.

The purpose of the program is to point the way to permanent library service after the demonstration terminates.

Miss Hope Cox of W. T. S. C. spent last week end with her parents, Mr. and Mrs. Marvin Cox, Miss Loy O'Brien, former Lockney student, now of Bovina, and a student at Texas Tech, Lubbock, spent Saturday in the Cox home.

Commencement ceremonies begin May 24 with baccalaureate services being held at 10:50 a.m. at First Baptist Church.

Wayland Plans Basketball Camp

Plainview. — With 13 reservations received for the Wayland Baptist College Summer Basketball Camp even before literature was mailed, a record attendance is expected for this third annual camp, according to Ed Billings, coach of the Wayland Pioneers. Bob Clin-daniel, coach of Plainview Bulldogs, and Billings, co-managers, will be assisted by Wayland varsity players as counselors to the young campers, June 8-19.

Campers will be divided into two age groups: 10 to 13 and 14 to 18. All boys will receive individual instruction in basketball two hours a day and play on organized teams four nights a week. Films of leading college and professional teams have been scheduled.

Swimming and trampoline instructions, also on the agenda, are limited to out-of-town campers, according to Billings. The camp directors say that only 40 boys can be accommodated on campus, but no limit has been set on basket-

ballers from Plainview or nearby areas who want just the basketball instruction. Those who stay on Wayland campus will have their meals in Slaughter Memorial Center and room in McDonald Hall for a fee of \$60. Day campers will pay \$20.

SHOPPING FOR A BRIDE?

A basic wardrobe of pots and pans is a gift a bride will cherish, especially if the selection is made by an experienced cook. Margaret Spader, home service editor of the Gas Appliance Manufacturers Association, suggests points to look for in oven cookware: handles that withstand high temperatures, few seams, rounded corners, smooth edges, standard sizes, sizes stamped on the bottom of the pan and a design that is easy to lift and transport when hot.

Mr. and Mrs. Leslie Ferguson and daughters, Debra and Jonita spent Sunday afternoon in Canyon visiting her father, H. Cook and Mrs. Cook.

Miss Kay Golden of W.T.S.C. spent last week end with her parents, Mr. and Mrs. Oscar Golden.

Local Pastors Will Graduate At Wayland

Plainview — E. O. Adams, Baptist pastor at Aiken, and Bryan Clemens, Methodist pastor at Aiken, are among 58 candidates for graduation at Wayland Baptist College commencement exercises May 25.

Commencement ceremonies begin May 24 with baccalaureate services being held at 10:50 a.m. at First Baptist Church.

Adams, Clemens and their families will be honored guests at 4 p.m. at the reception given by President and Mrs. A. Hope Owen at their home on campus.

Graduation exercises will be held at 8 p.m. May 25 with Richard M. Morehead, Austin correspondent of the Dallas Morning News, as Commencement speaker. Both he and Rev. Howard Scott, Hereford, who will deliver the baccalaureate sermon, will have honorary degrees conferred on them.

Son of Mrs. Fred Johnson, Alamogordo, N. M., Adams is active in the Ministerial Alliance at Wayland and served as vice-president of that organization. He appeared in the recent Historical Pageant.

God's Word — His Authority

For several weeks we have been writing of things which occurred in the Patriarchal Age. This was from Adam to the giving of the law of Moses and covered 1900 years. There was no written word during that time. God's spoken word was his authority. There was a family system of worship and the father of the family served both priest and prophet. The people at that time were called "patriarchs" (Acts 7:8-9; Hebrews 7:4.) We need to know that the commandments God gave them are not binding on us today.

God chose Abraham during the Patriarchal Age and from him came the twelve tribes of Israel, who later came to be known as "Israel" or the "Jews." The Law of Moses was given to this nation at Mount Sinai around 1500 years before Christ (Exodus 19, 20). The Law was given to the Jews (Romans 2:1-2). It was given to the Gentiles (Romans 2:14-15). It was Christ's death that the Jewish Age ended and the Law was taken away (Galatians 3:13, 24, 25; Colossians 2:14) and many other passages in the New Testament bear witness to this to be true. Since we live after the death of Christ we are governed by the laws of the New Testament, not Patriarchy or Judaism.

Trade in Lockney

... where shopping is a social affair

You Owe It to Yourself

... to shop home area stores first

The people who serve you in your local stores are your friends and neighbors . . . interested in you and in your problems; not in your business alone. Your trade keeps them here, to work with you for community betterment, to help you pay for better schools and churches and a happier social environment, to be at your side when difficulties arise.

We often accept some common fallacy as a fact . . . without bothering to look for proof. One of these you've often heard . . . and possibly uttered . . . is that prices are lower in city stores.

Yet . . . every day . . . people bring home bargains from the city and later find they could have bought the same thing for less money in their home stores.

You owe it to yourself . . . to your family . . . to your neighbors . . . and to your own future . . . to shop your home area stores first. More often than not, their prices are lowest; always their values are best . . . when you count service, convenience, and the better reward for your labor that comes with more trade volume where you make your living.

**It Pays to Buy
where you Live**

YOU get everything that your money pays for . . . merchandise AND a trade-invigorated community live in . . . when you buy from your home town merchants . . .

Home Making Hints

by Phyllis Roggendorff
County Home
Demonstration Agent

I found the Home Laundry Conference at Texas Tech at Lubbock last Friday very interesting and thoroughly enjoyed the day — except that I forgot to turn my car lights off after driving over in the fog that morning, and by 5:00 my car was completely dead.

At the meeting we heard talks and demonstrations given by representatives of several commercial companies including washer, dryer, and detergent companies.

A few of the "bits of wisdom" that we heard are:
Soil on collar and cuffs and other spots may need some pre-treatment. Simply pour liquid detergent on them and scrub before putting them in the machine.

Hot water washes cleanest and quickest so use it when possible. The temperature for heavily soiled white and color fast clothes should be about 40 degrees F.

The amount of soap or detergent needed depends upon the type of washer — top loading or front loading — the hardness of the water and of course the type of detergent used. Be sure to read the directions on the container.

"Wash and wear" garments, if rinsed in cold water, will not wrinkle so badly.

From research done by these companies on swatches of fabric and towels, the piece that was dried in the dryer after 12 launderings was nearly the same color as the original while the piece dried on the line was definitely faded.

Community Booths At Fair

Those of you who have wondered how to select the best vegetables and other exhibits for the community booth at the fair will be glad to hear that the county agents are holding a meeting on that subject next Tuesday, May 19, at 9:30 a.m. in the Home Demonstration Council room. Anyone interested is welcome to attend.

County Wide Tea

We had a very enjoyable time at the tea at Lockney last week. The committees all did a nice job and we all appreciated hearing the book report on "The Ugly American" given by Mrs. Jimmy Willson Jr.

Sand Hill News

By Mrs. James Jeffress

Just when everyone thought the bad weather was over, it came again Sunday morning. A hail hit the community in about a five mile strip, killing out fields of young cotton, onions and beating wheat patches. Just about all the young cotton will have to be planted over, and the community smelled of onions Sunday morning. The border lines seemed to be Bill Sherman's on the north and Rafe Ferguson on the south, but it's possible that it went even further south.

Mr. and Mrs. Jackie Myrick and daughter of Lubbock spent Mother's Day visiting in the home of her parents, Mr. and Mrs. Fred Jackson.

Miss Norma Sue Hollums was sponsored in the Maid of Cotton Contest in Plainview Thursday. Even the Norma didn't place she looked very lovely and the community was proud to sponsor her. Those attending were Mr. and Mrs. T. C. Hollums, Mrs. James Jeffress and Beverly.

Maxine Slone spent the week end in Lubbock visiting friends. Sunday visitors in the home of Mr. and Mrs. M. B. Swanner were Mr. and Mrs. Kenneth Swanner and son of Lubbock and Mr. and Mrs. Kirk Slater and Betty Gene.

Mrs. Bill Stringer and Christy have been in Munday the past few days visiting in the home of her parents, Mr. and Mrs. Joe Earp, formerly of the community.

Hollywood has nothing on Floyd County. If you don't believe it you should visit one of the sets when practice is going on for the Golden Jubilee Pageant. Those practicing Friday night from the community were Mr. and Mrs. Lynn Miller, Mr. and Mrs. Hollis McLain and Mr. and Mrs. James Jeffress, so come to Floydada during the week of May 24 thru 30th and have a big time.

Keith Hollums of Lubbock was home over the week end visiting in the home of his parents, Mr. and Mrs. T. C. Hollums and Norma.

The G. A.'s of the Sand Hill church will meet Thursday afternoon at 5:30 p. m. at the parsonage. It is very important that every girl be present, and they are making plans for their coronation on Wednesday, May 27th. This will be the last time Mrs. Rowland will meet with the girls.

Mr. and Mrs. Jess Starkey and family spent Sunday in Amarillo visiting her parents. Mary and Elaine Starkey were in the operetta "Who Stole the Tarts" that was presented Thursday night at the Lockney High School. Elaine was in the cast and Mary sang with the Melody Makers.

Dianne Montgomery of Lockney spent the week end visiting in the home of Beverly Jeffress.

Mr. and Mrs. Walter Knight had as their guest part of the week her brother, Mr. and Mrs. Pace from California.

Jim Jeffress of Silverton visited in the home of his son, Mr. and Mrs. James Jeffress and family Friday.

Mr. and Mrs. Lynn Miller and family and Mr. and Mrs. H. F. Jackson enjoyed dinner in Lockney Sunday.

Mr. and Mrs. W. R. Billington spent Sunday visiting in the home of her parents, Mr. and Mrs. Glenn in Plainview.

Miss Nellie Brown was on the sick list the first of the week and had to miss a few days of school.

A years subscription of Homes Life and a lovely corsage was presented to the youngest and oldest mother present at church Sunday morning. Rev. Bill Rowland did the honors and presented the corsages to his mother, Mrs. Rowland from Plainview who was the oldest, and Mrs. Jackie Myrick of Lubbock, the youngest.

Mr. and Mrs. Gene Swanner are the proud parents of a baby

Chevy pickup pulls through "bottomless" pastures to keep stock fed!

At the Hall Bros. Dairy Farm, Montgomery, Ala., they say this 4-wheel drive Chevy will go anywhere to keep stock fed—even through hub-deep muck that makes it a fight all the way. And yet after a full year of it—no mechanical trouble of any kind!

That Chevy pickup may not win any beauty awards (till it's cleaned up). But it's sure walking off with the top prize for dependability. And that's standard Chevrolet procedure. Put a Chevy truck to work and it keeps

on working until you say quft. Not before. We aren't claiming that every Chevrolet truck is turning out to be a miracle-worker and averaging 100,000 miles before a valve job. (Even though some are going 150,000!) You're sure to find, however, that you can't buy more truck dependability at any price. And that's borne out by the fact that more truck owners put their faith, and their payloads, in Chevrolets than in any other make. Take your load and schedule figures to your Chevrolet dealer. He'll specify the best way to handle both and save in the bargain.

No job's too tough for a Chevrolet truck!

Now's the time—see your local authorized Chevrolet dealer for a real truck buy!
