EDITORIAL

For if ye forgive men their trespasses, your heavenly Father will also forgive you. — Matt. 6:14.

TEXAS VOTERS ought to find out who it is in the State Senate who is so dead set against levying a natural gas severance tax and also who is so opposed to raising the tax on beer from \$4.30 to \$10.00 per barrel. Both of these measures have been passed by the House of Representatives and then killed in the State Senate. The reason we have situations such as this is that the voter is too lazy, too indifferent, too disinterested to find out for himself how his own senator or representative is voting. He doesn't know whether he's voting for the best interest of the state or not because he isn't interested enough to find out. Lazy, indifferent voters lead to corrupt government.

ORGANIZED LABOR in West Texas received a set-back Friday when the employees of the Plains Co-op Oil Mill at Lubbock voted overwhelmingly not to join the union. Whether it is to the best interests of the worker to join a union was not particularly a question in this election. We feel sure the question facing these employees was whether or not they wanted to join forces with a corrupt organization that might misappropriate their money, raise their dues without consulting the members and use their dues money for political activities that many of the individual members would oppose. West Texas is not the only place where organized labor is having a hard time expanding. The situation will continue until labor cleans house and rids itself of the goons, grafters, communists and other unsavory characters who make their living as hangers-on of organized labor.

SCHOOL TAXES have been the subject of much talk in the Lockney School District recently. The recent equalization of taxes apparently raised city values much more than rural values with many Lockneyites finding their valuations more than double last year. In case you are confused about the matter, the amount listed on the notice you received concerning the meeting of the equalization board is the actual valuation you will pay taxes on. The rate is \$1.50 so you may figure your own taxes.

NO ONE WANTS to pay any more taxes but if the school board's program of expansion will result in a better school, then most of us will resign ourselves to the tax paying duty. But patrons of the Lockney school district will be hoping to see improvements in the school program as well as buildings from this big jump in taxes. It will take time, of course, but it should come.

BUSINESS and financial analyst Sylvia Porter writes: "Let's say that back in 1950 you received a cool \$10,000 and had this lovely lumpy sum free to invest as you saw fit. If you had put the whole \$10,000 in a 'typical' one-family house, your investment now would be worth around \$15,000. If you had put it in the U. S. Treasury's 2 1/2 per cent bonds due 1967 (the marketable bonds sold by the government in the war loan drive of 1942) your \$10,000 now would be worth only around \$8,800. If you had put it in 'typical' farm land, your net-egg's value would have grown to \$16,139 by early this year. If you had put it in stocks — the across-the-board list of stocks in the Standard & Poor's stock average — your \$10,000 would be up to more than \$25,100."

WRITING in National Review, Robert M. Bleiberg observes: "In a competitive market the goal of every entrepreneur... is to increase profits not by raising prices but by cutting costs and expanding markets. Moreover, to the dismay of those who view the economic system as some kind of static model, the entrepreneur constantly is seeking to turn equilibrium into dynamic change in order to profit thereby."

AN OMAHA PSYCHIATRIST, speaking during a symposium on the aging at the American Medical Association's 108th annual meeting, said that a man spends his first 65 years preparing for the last 15. He suggested a positive health program for older persons. Some of its items: A balanced diet including more protein, vitamins and fluids; and less fats and calories; adequate rest of mind and body; pursuit of interesting and specific recreational activities; a sense of humor; participation in community affairs; continued expansion of knowledge, wisdom and experience.

MOST MEAT packing companies, says the American Meat Institute, pay out about three-quarters of each sales dollar for livestock.

ECONOMICS LESSON

With Our EXCHANGES

ON DISLIKING PEOPLE
 Will Rogers once said that he had never seen a man he couldn't like, which might work if one could just consider the other fellow's good points and overlook the selfish greedy and cruel qualities that they have. Personally I enjoy disliking some folks and I doubt if life would be worth living without a few enemies even though it is quite possible that sometimes the other person does not realize that you dislike him or her so much.

CCC LOANS REPAYD
 Here are some quotable quotes from Farming For Profit, a Doane's agricultural report. "Few city people realize or are told that most price support loans are repaid. It's a fact that over a 25-year period CCC has been repaid 84 cents on every dollar loaned in price support activity. 'Who's feeding at the public trough?' asks Doane's 'Subsidies in industry started back in the colonial days. The same magazines that harp about agriculture with such inaccuracy are receiving postal subsidies, even after rate increases. It is estimated that in 1956 the

postal subsidy to 14 large magazines amounted to \$38,775,000. The postal deficit in behalf of business was greater in the 1945-56 period than the cost of CCC price support programs for the past 25 years."

What is the answer to these charges, Mr. Benson? — Troy Martin in Olton Enterprise.

WHY SO LONG
 Present state politicians who will be seeking re-election in 1960 will answer only to the voters when the question arises on "Why the long haggling and expensive special sessions in 1959?"

Legislators have had their share of the problems, no doubt, this year in trying to find the necessary funds to pay off the state's indebtedness and prepare its expense account for the next two years.

Yet, while they were arguing to deadlocks on the tax situation, it was easy for them to come to an agreement on a bill appropriating money to pay legislative expenses. Both the House and Senate have final passage to a bill transferring \$400,000 from the cigarette tax fund to pay costs of the second special session.

This brings legislative expenses so far to approximately \$2,700,000. Maybe Texas should have voted for Amendment No. 1 last year which would have provided annual session and adequate salaries for legislators. It would have probably been cheaper than the special sessions. — Paducah Post.

RABID BATS
 Mrs. Amos Ellison was on the point of entering her home last year when a bat swooped down and bit her. It shook her somewhat. But she passed over it until a doctor urged her to take the rabies shots. Not long after, Mrs. Jake Leatherwood was bitten by a bat and took the shots. Most persons don't know that there has long been a rabies epidemic among Texas wildlife—skunks, foxes, coyotes, particularly bats. And there are bat flights over Crosbyton every evening. That's how your dog may get it if he isn't vaccinated. — Pat Bennett in Crosbyton Review.

AN AMERICAN style supermarket, complete in every detail, is a major part of our exhibit at an International Trade Fair in Barcelona, Spain. Five thousand visitors jammed the market in the first hour it was open.

Dear Editor:
 I see where some Louisiana folks have been trying to prove that their Governor Long is short some of his marbles.

My unworldly neighbor says a fad like this—people going around checking the mental wiring of our officials—could demoralize the whole country.

Says weeding out the non-compos could leave government mighty short-handed, on account of a man has to be a little off-base to run for public office.

ONE OF THE 7 BIG BESTS CHEVROLET GIVES YOU OVER ANY CAR IN ITS FIELD

Take it, not from us, but from official results of this year's Mobilgas Economy Run: Chevy's pennypinching 6 delivers the most miles per gallon in its field. For a pair of these Chevrolet sixes with Powerglide walked away with the first two places in their class, getting the best mpg figure—a whopping 22.38—of any full-size car. And here are more expert, impartial opinions and on-the-record facts backing us up on Chevy's other six bests:

BEST TRADE-IN
 Check the figures in any N.A.D.A.* Guide Book. Chevrolet used car prices last year averaged up to \$128 higher than comparable models of the "other two."

BEST STYLE
 It's the only car of the leading low-priced 3 that's unmistakably modern in every line. "In its price class," says POPULAR SCIENCE

magazine, "Chevrolet establishes a new high in daring styling."

BEST BRAKES
 In direct competitive tests of repeated stops from highway speeds, conducted by NASCAR, Chevrolet out-stopped both of the other leading low-priced cars—and why not? Chevy brakes are far larger, built with bonded linings, to help lengthen brake life by as much as 66%.

BEST ROOM
 Official dimensions reported to A.M.A.† make this clear. For example, Chevy front seat hip room is up to 5.9 inches wider than comparable cars.

BEST ENGINE
 Every motor magazine has given Chevrolet's standard and Corvette V8's unstinted praise. As SPORTS CARS ILLUSTRATED puts it: "Indeed this device is surely the

most wonderfully responsive engine available today at any price."

BEST RIDE
 MOTOR TREND magazine calls Chevy "the smoothest, most quiet, softest riding car in its price class." You'll be able to tell this yourself, instantly. And your Chevrolet dealer can tell you about a long list of other advantages besides these 7 big ones!

Claude Woffords Host Relatives

Mr. and Mrs. Claude Wofford were hosts to a group of relatives last Saturday evening at their home here. Cake and ice cream were served to Mr. and Mrs. Wm. R. Wofford, Santa Fe, N. M.; Mr. and Mrs. O. D. Wofford, Mr. and Mrs. Jake Smith, Mr. and Mrs. Josephine, Plainview; Mrs. and Josephine, Plainview; Mrs. Ona Lee and Dale, Lee Wofford, Amarillo; Mrs. Mamie Wofford, Mrs. Ethel Carroll, Mr. and Mrs. Leon Wofford, Mr. and Mrs. Lloyd Wofford, all of Lockney.

More than 5,000 people have been lost at sea with no trace since World War II.

Floyd County HD Council Meets

The Floyd County council met on Saturday, July 18, in the council room with 21 present to represent 11 clubs. The exhibit of plastic flower arrangements and wall plaques was presented by the Sterley club. Miss Carrel Lone of the Shell Oil Company will present a demonstration on packing a two week wardrobe into a small bag at 2 o'clock September 14 in the chapel of First Baptist Church in Floydada. The public is invited to attend. Sue Wilson of South Plains was chosen in the dress review last Friday night at Floydada to enter the district meet at Lubbock on July 31. Her dress won over 14 other entries. Mrs. R. G. Dunlap, Miss Phyllis Roggendorff and the citizenship committee gave reports to close the meeting. The next meeting will be September 19.

Donna Baughman Gives Report To Legion Auxiliary

Miss Donna Baughman gave a report to the American Legion Auxiliary on her recent trip to Bluebonnet Girls State at 8 o'clock Thursday night at the American Legion home. Miss Baughman was sponsored by the American Legion Auxiliary to attend Girls State June 10-19. Her interesting report included details about the election of Girls State officials, county and city officers, meetings of the Girls State Senate and House and the Texas Senate and House.

Hostesses Mrs. Marty Smith and Mrs. Dorothy Thomas served refreshments to Miss Baughman, Frank Baughman, Mrs. Kenneth Wofford and Jean, Janice Hays, Mrs. Carl McAdams, Mrs. Wilfred Stoener, Mrs. Mary Smith, Mrs. Ike Dodson, guests, and members Mmes. Louise Hodel, Vencil Casey, Viola Moody and Jean Schaffner.

A short business meeting followed the report. The auxiliary planned a forty-two party to be July 30th at the Legion Home at 8 o'clock. The purpose will be to furnish the new kitchen with dishes and silver. Admission to the party will be two pieces of silver per person of four per couple or 70c per person and one dollar per couple. The money taken will be used to buy dishes. The stainless steel may be bought at White's Auto Store. Games of bridge and canasta will be provided for those who don't play forty-two. The public is invited to attend.

Officers will be installed at the next meeting on August 6 with a salad supper. Each member is asked to bring a salad.

Sand Hill News

By Mrs. James Jeffress
Blooms were found in the fields all over the community this week, so soon maybe there will be a ball of cotton. Weeds are the biggest problem since the showers have come so close together. Between two and three inches of rain fell last week, but some tractors were able to get into the fields Monday.
Miss Judy Bullocks was honored by her mother, Mrs. R. L. Bullocks, with a birthday party Wednesday afternoon from three to five in her home. Indoor games and records were played during the afternoon. Refreshments of birthday cake with nine candles, ice cream cones, nuts, and punch were served to the honoree, Jimmy and Timmy Jeffress, Johnny Noel, Ronnie Miller, Dixie Baird, Tommy McQuartin of Fort Worth, Alice Myrick, Marilyn McLain, Sue Sherbert, Allison McLain, Marjion Wylie, Donna and Denise Cates, and Mmes. Wylie, James Jeffress and Ed Noel.
Tommy McQuartin of Fort Worth spent the past week

visiting in the home of his cousin, Ronnie Miller.
Rev. and Mrs. Frankie Rainey of Plainview were dinner guests in the home of Mr. and Mrs. Red Sloan and family Sunday.
Mr. and Mrs. Bill Stinger and Christy spent the week end visiting in the home of Mrs. Stringer's parents, Mr. and Mrs. Joe Earp.
Mr. and Mrs. T. C. Hollums, Norma and Keith spent the week end in Amarillo visiting relatives.
Mr. and Mrs. Lynn Miller and family visited in the home of her sister in Tulla Sunday.
All the 4-H girls in the community entering the dress review met Monday morning with their leader, Mrs. Hollis McLain for final instructions before the review held Wednesday. Those present for this meeting were Marilyn McLain, Janice Miller, Becky Miller, Betty June Miller, Mary and Elaine Starkey, Norma Sue Hollums, and Beverly Jeffress. The community is proud of the interest shown in the newly organized 4-H club.

They were enroute home from Graham where they had visited their daughter, Mrs. Mauretta Kunkel, Mrs. Kunkel and her daughter, Mrs. J. H. Willis, accompanied them home for a visit.

BAILEYS RETURN
Mr. and Mrs. O. C. Bailey returned Monday from a week end trip to Ruidoso, N. M. They were accompanied on the trip by Mrs. Bailey's sister, Virginia McQuirk of Amarillo, and Mrs. Nila Henson of Edgewood.

SCONES FOR GRIDDLE COCKERY
If you don't have a griddle on your range, get out your pancake griddle and turn the burner to a medium flame. If you have a griddle thermometer or an automatic top burner heat control, the temperature should be 375 degrees. Let the griddle preheat while you mix 1 cup mashed potatoes with 1/4 cup melted butter, 1 cup flour, sifted with 1 teaspoon salt and 1 teaspoon baking powder. Roll the dough into a circle about 1/2 inch thick and cut the circle into 6-8 pie-shaped pieces. Grease the griddle with a little salad oil and brown the scones on both sides. Serve them with a chef's salad and a cup of tea for lunch.

STATE CAPITAL Highlights AND Sidelights by Vern Sanford TEXAS PRESS ASSOCIATION

AUSTIN, Tex. — Texas' 56th legislature fizzled to the end of its third session and 180th day in its main job — providing a way to run state government still undone.

Gov. Price Daniel called a session to begin just after the last one ended. House members repeatedly voted down tax bills presented by joint conference committees. Senators and representatives state voted favorably each time.

First House rejection was by vote of 81 to 64. This was on bill to tax tobacco, natural gas production, corporation franchises, utilities, motor vehicles, liquor, wine, boats, cars, airplanes, radios, TVs, telegraphs, cameras and phonographs by the drink in private clubs.

Speaker Waggoner Carr named a new House conference group composed of members who had voted against the bill. They met with the same Senate conferees that had worked twice before.

Only change in the new report was that the private club tax was cut out and the radio and TV tax slightly increased.

House rejected it again, this time 83 to 66.

More conferences and more votes followed in the final frantic hours. All futile! None made any apparent progress toward compromising the basic bone of contention, whether to tax gas pipelines. House favors this "severance beneficiary" tax by a narrow margin. Senate is flirty against.

Along with his new call, Governor Daniel issued a sober

warning. Unless a tax bill is passed and effective (requiring a two-thirds favorable vote) by Aug. 15, there won't be time or money to get Sept. 1 checks to 225,000 old age pensioners.

CARR FOES BACK DOWN — During the tense, short-tempered days in the wind-up of the last session, Speaker Waggoner Carr was, for a time, the target for pent-up frustrations and pressure.

Carr had worked to get the House to accept the Senate-passed tax bill. When the House turned the bill down, Carr said that "obstructionists" had defeated it.

This was a red flag to members already sensitive to public criticism of a "do-nothing" Legislature. For several days they simmered. They accused Carr of trying to thwart the will of a House majority, talked of voting him out of the speakership.

In a dramatic showdown, Carr stepped down from the rostrum and challenged his critics to remove him if they thought it would make things any better.

Nobody accepted his dare. A few minutes later, on motion of Rep. Joe Burkett, the man Carr defeated for the speakership, Carr was escorted back to the speaker's chair.

And the wearying legislative battle began again.

NEED MONEY FIRST — Amid the legislative tax deadlock, the Commission on Higher Education decided to stop studying new money-spending programs until there's money to spend.

Commission's job is to determine needs of the state's colleges and universities and make recommendations to the Legislature. Expanded programs and new degrees are being sought by many schools. But when the Commission met, there was no money in sight even to open the schools next fall, let alone expand them.

Commission resolved to "approve no programs which entail additional expenditures until such time as monies are provided for the programs and offerings already in existence."

OIL QUOTA KEPT DOWN — Texas oil allowable will be held down to nine producing days again for August.

Railroad Commission ordered the same production as for July — 2,700,164 barrels a day on a nine-day schedule.

Major oil purchasing companies and independent producers were virtually agreed that production must be kept low to reduce excessive stocks.

WATCH THAT PAINT — If someone slips on a strip of wet city paint, is the city liable for personal injury damages? State Supreme Court has this issue under consideration in a case that could affect all Texas cities.

City of Austin is being sued for injuries of a person who slipped on fresh paint marking a car parking slot. Lower courts held the city was liable.

Texans can live better these days because milk is more abundant. Milk provides about 100 food nutrients — minerals, vitamins, protein elements and fats.

THE LOCKNEY BEACON, LOCKNEY, TEXAS, JULY 23, 1953

CROSS ROADS REPORT

Dear Editor:
I see where school authorities in some places make students dress neatly, on the theory that people sort of act up or down to the way they are dressed.

My autopsychiatrist neighbor says this is a sound principle, as he notes that when he dresses sharp he thinks sharp, and when he dresses sloppy, he thinks sloppy.

So when he sees some lady in loud-figured spider pants, tail-out shirt and slouchy shoes, he figures it's probably just as well that he never took that mind-reading course.

STUDENT FEE BILL OKAYED — A bill to require state college students to pay an activity fee passed both houses by very narrow margin.

Measure would allow the colleges to charge students up to \$30 a semester to support health services, book rentals, cultural and athletic events, campus publications, parking, etc.

Any college may exempt from the fee up to 10 per cent of its enrollment in cases where the charge would cause "undue financial hardship."

Bill was hard fought. Opponents declared it would make "free public education" available only to the rich. Backers said the colleges had to have more money. It was estimated the bill could bring in as much as an extra \$1,000,000 a year.

BEACH BILL PASSES — Both houses passed and sent to the governor a bill guaranteeing public access to state-owned beaches.

It took a conference committee to work out the differences between House and Senate ideas on the bill.

As finally passed, the bill says the public shall have the right to come and go from public beaches. No one, it says, shall erect a fence or barrier to prevent this.

Beaches that cannot be reached by public road or ferry are exempt.

WAIT, YOUNG LOVERS — Governor Daniel's expected signature on a newly passed bill will put a damper on the elopement plans of Texas teenagers.

It will require boys under 21 and girls under 18 to wait three days after obtaining a license

"I hate parties ...when they're over!"

Parties are fun — while they last ... but they're not fun when it comes to clean-up time. No one likes to hand wash stacks and stacks of dirty dishes.

But the fun goes on when your electric dishwasher cleans up after a party. It's so much nicer to get the dirty dishes out of sight — then you can push the button anytime later.

Party dishes are usually your best dishes. When you wash them electrically—automatically... you eliminate dish chipping and dish breaking—an important money-saving bonus of sanitary electric dishwashing.

ATTENTION, HUSBANDS!
Don't be a dishwasher... buy one. Best of all, electric dishwashing costs only a penny and a half per day.

the First Baptist Church, led the group in singing "Others" and "Heavenly Sunlight" before the program began. Mr. and Mrs. Sides then sang as a duet "Longing for Jesus" and "It took a Miracle." Also on the program were Mrs. Don Hatch, singing "I Shall Not Pass Again This Way"; Sandra McCandless and Carol Howell, who sang "May You Always" and "Near

to the Heart of God"; and Mrs. Edgar Hays with "The Love of God". Shirley Mitchell and Janice Hays played piano selections and Janice accompanied those who sang.

Miss Norma Vernon of Plainview visited her parents, Mr. and Mrs. Bert Vernon, during the week end.

Nancy Nix Feted With Shower

Miss Nancy Nix, bride-elect of Lonell Hays, was feted with a bridal shower in the home of Mrs. Dwight Jackson Saturday, July 18th, from 3 to 5 p.m.

Hostesses for the occasion were Mmes. Dan Griffith, Gene Belt, Doug Marshall, E. A. Bonner, Fred Dorman, Joe Foster, Loren Rhodes, Marvin Sams, Conrad Henderson, Payton Powers, Dwight Jackson, Floyd Jackson, Valca Thomas, Kenneth Wofford, Forrest Smith, Raymond Meriwether, Bob Jarrett, Jerry Wofford, and Raymond Rhodes.

In the receiving line were Mrs. Dwight Jackson, the honoree, Miss Nix, her mother, Mrs. Jack Nix, and mother of the bridegroom-elect, Mrs. Arvie Newton. They wore corsages of pink carnations to match the color scheme carried out in the table decor.

A white imported hand drawn table cloth covered the table which was centered with a miniature bride under a satin arch, surrounded with pink carnations. Mrs. Jerry Wofford made the favors and Misses Pat Ashton, Rita Marshall, Myrna Hays, and Mrs. Larry McCormick served the pink rosebud mints, white cake squares and punch. Floral arrangements were placed throughout the house.

Land Contract Increases In Farmland Sales

College Station. — Sales of
farmland financed by land
contract, a device which by-
passes credit institutions as a
party to the sale, have about
doubled since 1946, says A. B.
Wooten, extension economist.

The buyer deals directly with
the seller in land contract
transactions. No mortgage is
written, and the buyer does not
take title to the property until
his installment payments add
up to a substantial portion of
the selling price, the economist
says. Land contracts are one of
the several devices currently
helping to meet the demand for
land during a period of rising
prices. Rising prices usually
tend to discourage those buyers
lacking either sufficient cash or
the credit to obtain convention-
al mortgage.

In the year ending March 1,
1958, sellers financed 43 per
cent of all farmland sales, says
Wooten. The total was about
the same as the combined loans
for farmland purchased by
credit institutions, including
Federal Land Banks, during the
period.

A land contract has attrac-
tions for both buyers and sell-
ers, says Wooten. The buyer is
able to get control of a farm,
usually for a small down pay-
ment leaving him free to invest
his capital in farm stock and
equipment. The seller, on the
other hand, gains a tax advan-
tage by selling through a land
contract as the total income
tax on his capital gain when
spread over a number of years,
may be considerably less than
the tax on a large sum received
in a single year. To qualify for
this advantage, he said, the
seller must limit the down pay-
ment to 30 per cent or less of
the selling price.

Some sellers, too, prefer land
contracts because they furnish
a steady income. Otherwise,
sellers would be faced with the
problem of reinvesting a lump
sum profitably. And finally, in
case of payment default, re-
possession under a land con-
tract is much simpler and
faster than under mortgages,
he said.

Buyers assume a risk when
buying with a land contract
because their equity may be
jeopardized if the contract is
inflexible. In some states, a
buyer can lose his total equity
for default of a single payment.

FARM BUREAU DIRECTORS APPROVE RECOMMENDATIONS

Waco. — The Texas Farm Bureau board of directors, meeting here in mid-July, approved a long list of recommendations made by the organization's 39-member Commodity Advisory Committee. The committee, composed of 26 lay members and 13 state directors from all sections of the state, met for two days prior to the board's regular quarterly session.

Among the major recommendations made by the livestock subcommittee and approved by the board were the following:

1. Endorsement of animal health legislation passed by the 56th Legislature, especially the brucellosis eradication program. County Farm Bureaus were requested to help bring the brucellosis program into operation at an early date.

2. Texas Farm Bureau requested to strengthen its efforts to promote red meats through the state-wide committee of the National Livestock and Meat Board. This state committee was organized recently.

3. Texas Farm Bureau requested to support all possible efforts to inaugurate a crew worm eradication program in Texas.

Some of the major recommendations of the field crops subcommittee which were approved by the board included:

1. Texas Farm Bureau to arrange for demonstration of new electronic cotton classing machine at TFB Institute Aug. 2-5 in Dallas.

2. American Farm Bureau Federation requested to work for a percentage decrease in grain sorghum storage rates in proportion to the decrease in price supports for that commodity.

Among dairy subcommittees recommendations approved were the following:

1. That legislation controlling sanitation of milk shipped into Texas be initiated much earlier at next regular session of Legislature. It was also recommended that a proposed draft of such legislation be prepared for study by Farm Bureau and dairy associations. A bill of this nature was defeated this year in Austin.

2. That TFB board of directors continue to oppose proposed labor department regulations pertaining to farm labor.

The poultry subcommittee made these recommendations which were approved:

1. TFB requested to compile information on provisions of various poultry contracts.

2. Study requested on the advantages and disadvantages of broiler auctions.

3. American Farm Bureau Federation requested to study USDA's proposed amendments to regulations governing egg grading, inspection.

Among approved recommendations made by the water subcommittee were the following:

1. Study should be made of overlapping authority of various agencies, leading to development of legislation to control water pollution.

2. Study should be made of underground water resources with information compiled for users of such water. It was suggested that methods and effectiveness of recharging underground reservoirs be a part of the study.

3. Study requested to be made on necessary legislation to eliminate and prevent federal government from pre-empting state waters.

Among the approved recommendations made by the fruits and vegetables subcommittee were the following:

1. Texas Farm Bureau requested to publicize its efforts in securing the Co-operative Inspection Service Agreement so as to receive proper credit for same.

2. TFB research department requested to furnish information pertaining to laws already in existence for controlling diseases and insects moving in to Texas.

3. TFB requested to contact Texas Agricultural Experiment Station for information on prevalent types of insects and diseases which cause major economic damage to crops.

4. Study requested of Enabling Acts of other states, such as California, which allow producers to ask for referendum on State Marketing Agreements.

5. Study requested on bargaining associations, with emphasis on type of association which finds markets and bargains on prices for fruits and vegetables.

All-American Team Will Work Out At Wayland College

Plainview. — Seven All-Americans and five other top stars, members of the 1959 United States' Women's Basketball Pan-American team, will arrive this month on the campus of Wayland Baptist College, Plainview, to begin workouts for the famed Pan-American games in Chicago, Ill., Aug. 27-Sept. 7.

Coached by Harley J. Redin of the Wayland Hutchenson Flying Queens, the team will hold workouts five times a week prior to the trip to Chicago, playing by International Men's Rules as required in all Olympic events.

Eight states and eight members of the Flying Queens are listed in the 12 member team. Three players from Tennessee, two from both Texas and Oklahoma, and one member from Iowa, Michigan, Missouri, Mississippi, and Georgia, are on the team.

Besides Wayland, Nashville Business College, Iowa Wesleyan College, and Dowell's Dolls are represented by team members.

From the All-American ranks Nashville has the great Nera White, 6-0 five time All-American, who was made a member of the Women's Hall-of-Fame, and Joan Crawford 6-0 three time All-American. Iowa Wesleyan also will send two All-Americans to Wayland's workouts: three time choice Sandy Flete, 5-9, Garnaville, Iowa, and one time selection, Rita Horky, Blissfield, Mich., a 5-11 scoring star.

Wayland has three All-Americans on the 1959 team: Hall-of-Famer Katherine Washington, 5-9, Murfreesboro, Tenn., also a five-time choice; Patsy Neal, 5-9, Elberton, Ga.; and Carolyn Miller, Palestine, Tex., 5-11; each a one time selection, are the All-Americans from Plainview.

Four members of the Hutchenson Flying Queens and one cager from Dowell's Dolls of Amarillo finish the 12 member team; Joyce Kite, 5-3, St. Joseph, Mo.; Carla Lowry, 5-8, Newton, Miss.; June Stewart, 5-8, Marlow, Okla.; Marsha Scoggin, 6-0, Collinsville, Tex.; and Evelyn Searles, 5-9, Arkoma, Okla. Miss Searles attended Wayland last year, but played with Dowell's Dolls at the tournament.

Miss Kite, the shortest member of the team, was featured dribbler for Wayland in pre-game warmups last year, and will also be used in the Pan-American games. She joins the Wayland physical education faculty in September.

Workouts will be open to the public after the first week, and an exhibition match between team members has been tentatively scheduled for the last week of workouts, according to Coach Redin.

EVENING ELEGANCE — It's hard to believe that this glamorous evening gown is made from cotton flour sacks. The pattern, originally designed for the 1959 Miss America, is McColl's 4870. For information of cotton bag fashions for style show use, write the National Cotton Council, Box 9905, Memphis 12, Tenn.

PREVENT CHERRY PIE BOIL-OVER

An ounce of prevention can save much toil when you make fresh cherry pies, says Margaret Spader, home service editor. Don't fill the pie too full, and cut the slits for the top crust to the center. Seal the top crust to the bottom crust under by dampening the rim of the bottom crust first, then fold the edge of the upper crust under the bottom pastry and press the edges together with the tines of a fork. Cut a piece of aluminum foil about three inches larger than the pie plate and place on the rack underneath the pie.

The biggest animal in the world, the blue whale, feeds solely on small shrimp that never grow more than 2 inches long.

A WAY TO REDUCE KITCHEN CLEAN-UP

Throw-away aluminum liners for burner bowls will keep your range spanking clean on busy days. Use the liners when you fry chicken or fish or cook foods

that spatter. You'll be spared a clean-up job that can be time-consuming.

A lot of blade—and a low, low price!

Here's a utility blade priced within the reach of anyone who owns a light tractor. We state flatly, this will be the largest selling light blade in the country, because it is the greatest value. All welded, sturdy, 240 lb. construction, 13" mouldboard plus 6" replaceable cutting edge of 1/2" grader-blade steel. 8 adjustments for angling and reversing.

If you need a larger, more versatile blade for specialized ditching and terracing work, Semir makes big tough ones that tilt, angle, and pitch in more directions than the average man can think of. But for simple utility work, this Lone Star blade is it!

I see where there is one church putting in a swimming pool and tennis court, and another one is giving trading stamps to attract customers.

Which my career Christian neighbor says he don't see any harm in, if a minister just can't draw a crowd by preaching.

But says maybe it's not so much weak salesmanship as it is prospect density which plus a salvation agency into cut-throat competition with such as the Sunday comics, or a fish.

**Preserve Cotton
Fiber Quality
Advises Specialist**

College Station. — A moisture meter can be used in the gin, on the gin yard and in the field as an aid to preservation of fiber quality during the cotton harvesting and ginning season, reports Fred C. Elliott, extension cotton work specialist.

Use of the moisture meter on lint slide samples in the gin will give the information needed to adjust drying, he says. The goal should be to gin cotton at five to seven percent lint moisture for best quality preservation. Numerous tests in the USDA Ginning Laboratories show that drying to this moisture level gives a smooth sample and allows proper cleaning. Overdrying should be avoided, Elliott cautions.

At a number of gins in Texas last year, the growers made money by cooperating with the ginner in a seed cotton grouping program. Elliott says a moisture meter was used to determine the moisture content of the seed cotton in the trailers. Then, the trailers were grouped on the gin lot according to moisture and trash content or method of harvesting. This plan enables the ginner to take the time lag out of adjusting drying equipment for groups of bales and the grower receives more benefit from improvements in gin machinery, he adds.

A moisture meter can also be used in the field to avoid harvesting cotton too damp. This practice, says the specialist, will be helpful this year with the anticipated increase in machine harvesting. Last year there were 1831 spindle pickers in 78 counties in Texas and 26,692 stripper harvesters in 133 counties, saving the growers \$50,000,000. All indications point to a big increase in machine harvesting in 1959. Machine harvesting has brought many benefits to the cotton industry, but has also presented problems in quality preservation. However, Elliott adds, these problems can be overcome by proper care or adjustment of machines and not operating too early or late in the day in damp or wet cotton. For further information, obtain a copy of bulletin 297, "Keep Cotton Dry, Loose and Clean" from your county agent.

Cotton Insect Situation

There appears to be a slow buildup of Fleeshoppers throughout the county. Late cotton should be watched closely for damaging numbers. Aphids are found in most fields, but are usually limited to small patches.

Federal Gas Tax Refunds

Federal Gas Tax Refunds are now due in. This is for gas used for farming operations and includes gas used from July 1, 1958 to June 30, 1959. This claim should be filed with your U. S. District Director of Internal Revenue by September 30, 1959. If you do not have the forms, they are available in the County Agent's office.

Irrigation

It might be a little early to start worrying about irrigation, but due to the continued moisture most of our cotton and grain sorghum crops do not have as good a root system as in past years. In a week to ten days soil moisture could be depleted. Grain sorghum in the boot uses about 3 of an inch per day and cotton that is blooming about the same. So it does not take long to use the available moisture.

Dear Editor:

I see where an economics prophet says money is going out of style, and pretty soon everybody will just stroll through life with a deck of credit cards.

My dis-credited neighbor says already some filling stations are kind of suspicious of a man trying to pass a \$10 bill, and some store clerks don't hardly know how to act when you offer to pay cash.

But says the current type of credit card only postpones a man's troubles for 30 days, and what he needs is a next-generation credit card like the government uses.

IS IMPORTANT TO ALL OF US!

IN THIS COUNTRY, it makes no difference whether you are a farmer, doctor, lawyer, merchant or have some other vocation, cotton is important to your livelihood. Since it is one of our basic crops we all benefit when cotton demand is high. Therefore it is helpful when we demand cotton goods in our purchases. Be sure to ask for cotton when you buy your clothing.

IN ADDITION, cotton is economical, smart and comfortable to wear. It has many advantages.

The Best Experts

... Neighbors or Strangers?

It has been wisely said that an expert is an ordinary workman ... away from home.

Perhaps that is why many of us are inclined to favor doctors, hairdressers, merchants, mechanics and other service people who live away off in some other ... and larger ... city.

Yet they are only human beings, just like their counterparts in our own locality ... no smarter, with no more training, experience nor ability. And these far-away experts can never offer us the real interest in and familiarity with our particular problems that we get from the experts who live among us.

"Yes, sir; you can have complete faith in our expert mechanics. You don't know any of them."

Right here ... within a few minutes of your door are virtually all your needs in goods and services ... like a vast and handy store-room ... ready to be called on when — and if — you need it.

Dear Editor:
I see where some Florida folks say their "Three Little Pigs" storybooks are giving white children inferiority-complexes by picturing the smartest little pig as a black one.

My reactive neighbor says it seems like standard practice for social order cobbler to use children's stories to condition generations of people for their reform ideas.

Like the one about Little Boy Blue goofing off under a haystack when he was supposed to be tending sheep, which has finally got people set-minded against letting work interfere with the coffee break.

230,000 New Students Will Start To School

Six years ago, more than 230,000 new Texans were born, and they will be entering school for the first time in both public and private schools in September.

The right preparation for those first school days is vital to the future satisfaction and adjustment of your child in his new environment.

If he has an older brother or sister the task will be easier, but still there are many steps of getting-ready-for-school that should be taken before Sept. 1.

Some effort should be made to make it clear to the child that he will be on his own — without Mom or Dad watching over him all the time — a good while before that first day of school.

Clothing should be given much thought. Check the habits of your local school and find out what is the predominant mode of dress. If all the boys wear long pants, by all means make sure your son has them too.

Make sure everything is large enough, but not baggy or his classmates will make fun of him.

Proper nutrition is very important. When school starts allow enough time in the morning for a wholesome breakfast. A good breakfast includes citrus fruit or juice, milk, whole grain cereal or bread, eggs, or bacon or both.

Lunch and dinner should be leisurely and pleasant, too. The new adventure of school is pretty fast paced, but mealtime offers an opportunity for the family to pause and enjoy being together.

Now is the time to check on your school's requirements regarding vaccinations or other health measures and take care of them well in advance.

Also, nearly every school district in Texas requires proof-of-age for first year students in the form of a certified birth certificate.

You may obtain a copy by sending one dollar to the Registrar of Vital Statistics where your child was born or to the Division of Vital Statistics, Texas State Health Department, 410 East 5th Street, Austin, Tex.

Be certain to include the name of the child, date of birth, place of birth, father's name, and mother's name.

It would be a good idea to do it now to avoid the August rush. (This is a weekly feature of the Public Health Education Division, Texas State Department of Health.)

Mr. and Mrs. W. L. Carthel visited friends in Sudan over the week end.

MAX ASCOLI writes in The Reporter: "Perhaps Khrushchev, by raising the issue of Berlin and of Germany, thought that the time had come to cash in on a superiority in missiles and similar weapons that, in the years ahead, may make Russia stronger than we. If this is so, he has proved to be a singularly imprudent man. For the two major powers still have, and are likely to maintain for quite some time, a capacity for reciprocal obliteration. The greater the destructiveness of the new weapons, the less their usefulness as a threat. Between powers that communicate with each other by attrition - diplomacy, aggressiveness never pays. When the means of warfare are of immeasurable and universal destructiveness, ultimate can serve no purpose."

SENATOR WILEY of Wisconsin proposes the creation of a Commission on Federal Taxation which would conduct a thorough going study of our present tax system and recommended reforms. The Senator says: "The basic principles governing tax reforms are: (1) Taxes should be based on ability to pay; (2) taxes should allow reasonable incentive to earn, to grow, to expand; and (3) insofar as possible, taxes should be nondiscriminatory. In addition, the tax policy should promote efficiency, stability, equality and justice."
