

# Floyd County market value higher than average

Property in Floyd County was assessed at 71.4 percent of the market value in 1981 as compared to the statewide average of 54.4 percent, according to a Texas Research League report.

The statistics were compiled by the TRL from market values determined by the State Property Tax Board. The purpose of the report is to provide taxpayers with information to assist them in determining the equity of the assessment of the property they own. It will also help local officials in evaluating the equity of their taxing system.

SPTB determined the market value of each of the 13 categories of the 1,070

school districts in the state. In most instances a ratio of appraisals to market value for a sample of properties in that category was determined, the report stated.

For school districts, the "actual ratio" includes motor vehicles, farm personal property and other personal property which are often not taxed. The "alternative ratio" is for school districts consisting of the average ratio for the other ten categories of property.

"In some jurisdictions this 'alternative ratio' may be more typical than the 'actual ratio' which includes the SPTB-estimated market value of property not actually appraised and

taxed," the TRL report stated. **Appraised to market value ratio by class of property as determined by S.P.T. Board 1981**

For Floydada ISD, the actual ratio, 65.3 percent, alternative, 66.4; single family, 80 percent; multi-family, 90 percent; vacant lots, 78 percent; agricultural land, 65 percent; agricultural improvements, 60 percent; commercial and industrial, 48 percent, oil and gas minerals, 100 percent.

Cars and trucks in Floydada, 100 percent; bank 49 percent; utility, 77 percent; agricultural personal property 46 percent; business personal property,

76 percent and other personal property, 94 percent.

For Lockney ISD, actual ratio, 78.1; alternative, 80.1; single family, 81, multi-family, 64; vacant lots, 48; agricultural land, 85; agricultural improvements, 57; commercial and industrial 71; oil and gas minerals, 0; cars and trucks, 100; bank, 55; utility, 93; agricultural personal property, 62; business personal property, 69; and other personal property 84 percent.

South Plains ISD, actual ratio, 60.3; alternative, 66.4; single family 59; multi-family, 0; vacant lots, 39; agricultural land, 67; agricultural improve-

ments, 53; commercial and industrial, 76; oil and gas minerals, 100; cars and trucks, 100; bank, 0; utility, 69; agricultural personal property, 34; business personal property, 82; and other personal property, 100 percent.

## Appraisal district reduces budget

A reduced budget for the Floyd County appraisal district was presented at the budget hearing April 5. The budget was reduced by \$3,506 from last year. The budget hearing went smoothly and the budget was passed with few complications according to Shelia Faulkenberry, chief appraiser of the district.

Only two items on the budget were increased this year, the cost of the audit and the area maps and aerial photographs. The cost of the audit increased because the budget and tax collections were audited. The maps and aerial photographs were included in the budget because appraisal districts are required to have these. And since the district's organization in 1980, these maps and photos were not done until now.

"The budget was reduced this year," said Faulkenberry. "Everyone was happy with that. We are trying to reduce everywhere we can. We hope everyone else can do the same. The

taxpayers have had enough strain."

The Floyd County Appraisal District collects taxes for ten of the 11 tax entities in Floyd County. These are Lockney I.S.D., City of Floydada, Mackenzie Water Authority, South Plains I.S.D., Dougherty I.S.D., Floydada I.S.D., Caprock Hospital district, Lockney General Hospital district, High Plains Water and Floyd County. The City of Lockney is the only entity not collected by the appraisal district.

Collections to date for the district are \$3,415,114.92 of the tax roll levy of \$3,700,194.65. This represents 93 percent of the taxes collectable with prior delinquent taxes of \$495,587.23.

With the appraisal district assessing and collecting taxes, it costs each entity less than one percent of its tax levy.

Touch-Tone® service (desk or wall units), along with Trimline® and Princess® models.

The offer also includes special feature instruments such as the Touch-a-matic® 12 adjunct dialer, the Touch-a-matic 16 and Touch-a-matic S Series telephone sets, the Action Phone™ and TeleHelper speakerphone, and the TeleHelper answer-and-record units.

FCC regulations prevent party-line customers from purchasing these phones.

## Purchase considerations and warranties

Instruments already installed in a customer's home or office will cost less than equipment in our inventory. Phones sold in place carry a 30-day warranty; those sold from inventory carry a 90-day warranty.

A full text of this warranty is available free upon request by writing to Southwestern Bell Fulfillment Center, 600 St. Louis, Room 619, Springfield, MO 65806.

## Court considers new radio equipment

Harold Lewis, Motorola radio representative from Lubbock, presented a proposal for new radio equipment to the Floyd County Commissioners during the regular session Monday.

According to Lewis, the present Sheriff's office radio console is about ten years old and is literally "worn out." The radio also links the Floydada City Police, law enforcements agencies in other cities and the Texas Department of Public Safety. The console in the sheriff's office is the primary source of the communication problem.

Floyd County spends about \$100-\$300 in repair to keep the radio in operating condition. Also, the base station at the transmitter tower is not in good condition, having been struck by lightning several times. However, it is not as bad as the console in the sheriff's office.

The new radio console presented will be easier to maintain, and uses more advanced electronic circuitry. It will cost \$4,610 to replace the base station at the tower and \$4,595 to replace the console in the sheriff's office. The commissioners decided to put the equipment up for competitive bids, stressing the importance of radio communications for the sheriff's department and police department.

County Judge, Choise Smith, presented the Grant Application to the court for the purchase of the radio equipment. The court signed the resolution authorizing the grant application for unbudgeted 1983 funds through the criminal justice system.

Jonelle Fawver, Floyd County Tax Assessor, met with the court and explained the errors made that resulted

in overpayment to the county. Motion was made by Jack Lackey and seconded by Bob Jarrett to table this matter until next court meeting May 9. Motion carried.

In order to refund this overpayment, it was necessary to set up new line items. Motion was made by Bob Jarrett and seconded by Thomas Warren to set up these new line items on the Special Road, Library and General funds to refund the overpayment of the 1981 taxes that was made to these funds in 1982. Motion carried.

Wayne Allison presented a fringe-benefit life insurance program for the county employees to purchase for themselves. The court agreed to introduce this program to the county employees.

### Other Court business

Harold Lewis met with the court to discuss fertilizing the grass and spraying the weeds on the courthouse lawn. Motion was made by Sam Spence and seconded by Thomas Warren to hire Carthel at a cost of \$250 to fertilize and \$140 for spraying. Motion carried unanimously.

Motion was made by Thomas Warren and seconded by Jack Lackey to employ Langston Williams as a full-time employee for precinct 3. Motion carried.

Thomas Warren made the motion to transfer \$7,000 out of the Wages line item to the Extra Labor line item in precinct 3. Sam Spence seconded the motion and it carried unanimously.

Motions were made and seconded to approve the following requests and contracts for the use of county equipment and machinery: Lewis Reddy, Vernie Moore, Paul Teuton, Jerry Davis, Delton Jack, Kent Covington, Adrain C. Helms, Bundy H. Campbell and J.R. Turner.

Motion was made by Bob Jarrett and seconded by Thomas Warren to transfer \$60,000 from the road and bridge fund to the precincts, each precinct to receive \$15,000. Motion carried.

## Miller exhibits photography

The First National Bank, Floydada, is happy to have on exhibit the photographic art of Sandi Miller, Plainview, during the month of April.

A native of Quanah, Sandi grew up in Childress where she graduated from high school, then attended Wayland Baptist University, majoring in piano and voice. She and her husband, Elza Miller, have two daughters, Stephanie, 15, and Nikki, 11.

Sandi began working as an aide to the music, occupational and recreational therapists at Central Plains MH-MR, Plainview, in 1975. She is now Coordinator of Special Projects, and her responsibility in public relations requires her to travel a nine-county area where she gives programs to school, and clubs and works with the media.

"My hobby came about by accident", said Sandi. "A friend urged me to attend a night photography class at Wayland. It grabbed me from the

beginning. I bought a 35 mm camera and did a lot of practice action shots of my daughter Stephanie, a cheerleader."

"Music is a very important part of my life", said the artist. "but my photography says more about me! Someday, I intend to turn my hobby into a profession. Every show or exhibit encourages me and helps keep my dream alive!" Presently, Sandi's home responsibilities, her fulltime career, and the Millers' youth work at First Presbyterian Church allow time for only one or two shows a year.

Sandi uses her photography in her Supplementing Sandi's exhibit in the lobby of the First National are three paintings by Suzanne Teykl, a former guest artist, also from Plainview.

The public is invited to see the art display during regular banking hours: Monday, 9:00 to 5:00; Tuesday through Friday, 9:00 to 3:00.

## Green Thumbers train at alcoholism session

Former Congressman Wilbur Mills, Doc Severinson of the "Tonight Show", and Ralph Waite of "The Waltons" all have at least two things in common: they used to suffer from alcoholism, and they now have much better lives after coming to grips with the disease.

The stories of these prominent people were part of the information provided to more than 50 Green Thumb workers attending a special alcoholism training session at the Senior Center in Crosbyton on April 12.

In a film entitled "They Do Recover," Waite, Mills, and Severinson discussed the development of their alcohol problems and the paths they followed to find relief.

The fact that these well-known people are alcoholics helps to show the disease--and alcoholism is a disease--can strike anyone, rich or poor, lonely or in the spotlight," said Green Thumb district director Susan Armstrong, who conducted the training.

"Mills and Severinson suffered from severe blackouts, and Mills was afraid

he had a brain tumor until examinations revealed his problem was alcoholism," she said.

"Waite says he often felt 'dead and alone,'" Armstrong said. "even though he was a national celebrity. Many of our workers--especially widows and widowers--know the feeling. We want to demonstrate that alcohol will only make any existing problems worse."

She said some of Green Thumb's enrollees have lost their jobs because of drinking, and for these people the future is dim. "They've lost their income and their self-respect, and few of them will have the resilience and energy to fight back. Prevention, whether you're young or old, is the best answer."

Green Thumbers from Floyd County attending the session were June Van Cleve, Mabel Foster, Juanita Teaff, Katherine Edwards, Georgia Finley, Allen Rendon, Andres Solis, Petrolia Ortez, Marcello Lara.

FIVE YEAR membership award pins were presented to [top L-R] Pam Woody, Beckie Grant and Crystal Rowley, from cadet Troop 450. [Below]: Two-week camperships were awarded to [Front L-R] Elaine Gibbs, Misty Avila and Zora Woody. [Back L-R] Trixie Vick, Michele McKay, Candy Emert and Therese Sims at the Girl Scout Father-Daughter Banquet Saturday.

## Father-Daughter Banquet held

A south of the border theme accented the annual Girl Scout Father-Daughter Banquet Saturday. After Junior Girl Scout troop 318 said grace and the Cadet troop 450 welcomed the fathers, Brownie troops 299 and 307 sang their Brownie smile song.

Rosemary Finley, guest speaker.

# International program presented to 1934 Study Club April 5th

The 1934 Study Club entertained their guests Tuesday night with a salad supper and an international program. The dining tables were lavishly decorated with many conversation pieces from foreign lands.

In keeping with the club's theme, "Look For the Beautiful," Mrs. Floyd Bradley introduced the program "Wide, Wide Beautiful World" with speakers from the following lands: Mrs. Ralph (Pat) Rucker - England; Mrs. S.K. (Eunice) Hong - Korea; Mrs. Ferit (Ayse) Acar - Turkey; and Mrs. Al (Lisa) Howard - Samoa. The group prepared beautiful and very interesting displays of their family heirlooms, mementos, antiques and souvenirs from their homelands. Each speaker gave some of their country's history, customs, and their heritages.

Mrs. Rucker has been in the United States since 1944, and she dubbed herself the "Mother Hen" of the group. Pat is a member of the Cosmopolitan Club in Plainview and she strives to make new arrivals feel at home and welcome in a strange land. Pat married her husband, Ralph, while he was in England helping to build airbases and airstrips for the U.S. Air Force. In 1951 they came to Floydada and Ralph became the owner of the OK Tire Company.

She told of a warm, loving family life, how her mother could always seem to find a way to meet the needs of any of the children. Her father is remembered as a kind, loving, even-tempered man, and Pat said, "I can see these admirable qualities in my own children, now that they are grown." The bicycle was their mode of transportation. Her father rode the same bicycle to work for fifty years, and Pat gave a graphic description of four sisters riding on one bicycle to their school. As each girl finished her schooling, this left more room for the others. Pat, being the youngest, eventually "owned the bicycle."

Mrs. Hong and her husband came to the United States in 1974. They lived in New York City for five years, where Dr.

Hong pursued his medical studies. In 1979 the family moved to Floydada and Dr. Hong is now practicing at Caprock Hospital. Eunice said living in Floydada is quite different from a large city, but she likes it for its peace and quiet. She was dressed in a lovely embroidered kimona, which she called her engagement (or celebration) dress. She told about the engagement and wedding customs in Korea. Eunice was educated in a mission school, and spoke of Korea as being a Christian nation due to the early work of Presbyterian missionaries.

Mrs. Acar and her husband, Ferit, came to Floydada in 1981 and he is also practicing medicine at Caprock Hospital. Ayse is a pharmacist. In speaking of her family she said her father is a district attorney and her mother a homemaking teacher. Ayse has lived in this country for nearly four years and is looking forward to a visit to her home in the near future. She explained some of the customs of her country. She told how Turkish coffee is made, which is much stronger than the American brew. She said when a person had finished and wanted no more, the person would lay a spoon across the rim of the cup. She showed how a prayer scarf was worn for prayer time in a mosque.

Mrs. Howard wore a lovely Samoan dress, and she said the design is exclusively Samoan. Over her left ear she wore a flower, and her jewelry was carved out of a coconut shell. Lisa has been living in Floydada fourteen years. She spoke of "her little island" which is approximately forty miles long and twelve miles wide. It is about thirty miles between the other islands in the Samoan chain. Lisa's father had been one of the island chiefs. She spoke about the island exchange of money, their customs and economy, and she showed a "fly-swatter" her father had made from coconut husks, which she said the men held on their shoulders to shoo the flies. For the program finale, Lisa performed a graceful Samoan dance to lively island music.

The members and guests who enjoyed this outstanding program by Pat, Eunice, Ayse, and Lisa were Mmes: Milton Ashton, Bill Hardin, Allen Bingham, Floyd Bradley, W.H. Bunch, Earl Crawford, W.L. Davis, Garland Foster, A.E. Baker, J.S. Hale, Jr., Weldon Hammonds, Paul Kern, Anthony Latta, Edwin Leatherman, M.J. McNeill, T.L. Holland, W.O. Newberry, W.H. McClung, L.D. Simpson, W.H. Simpson, Jr., G.W. Switzer, A.C. Carthel, W.W. Trapp, M.L. Solomon, and A.L. Wylie, Jr.

The next meeting will be in the home of Mrs. Kyle Glover on April 19.

THE 1934 STUDY CLUB had their international luncheon April 5. These ladies [l-r] Ayse Acar (Turkey), Lisa Howard (Samoa), Pat Rucker (England) and Eunice Hong (Korea), gave a presentation from each of their native countries as part of the theme, "Wide, Wide, Beautiful World."

It snowed again Monday night and the temperatures dropped again. The snow has melted and we had a beautiful spring day this Sunday.

There were several visitors at the Assembly of God Church Sunday including the Rev. and Mrs. H.E. Barnard of Amarillo, Laverne Peek of Lubbock, and Minnie Mitchell of Crosbyton.

A Senior Piano Recital was given by Sandra Mitchell in the Assembly of God Church at 2:30 Sunday afternoon. She played selections as Cantabile and Fugue, Andante Con Variazioni, March Funebre, Prelude in D Minor and My Tribute. She has been studying music with Dell Gray of Floydada. Among those present were the Rev. and Mrs. H.E. Barnard of Eakly, Oklahoma, Sharon and Jay Green and Christina of Amarillo, Laverne Peek of Lubbock, Minnie Mitchell, Gary and Janice Mitchell, Jana Parish, Michael and Ryan of Crosbyton, Dell Gray and friends of the community. A reception followed the Recital in the Fellowship Hall. The table was laid with an ecru table cloth over pink. Cake and punch, nuts and mints were served to the guests. The cake was a replica of a baby grand piano beautifully decorated. We are proud of Sandra's achievements and she chooses to continue her study in music.

By Sophie Garza  
"Shades of Blue" transformed the A.B. Duncan Elementary cafeteria to a cordial atmosphere for the 1983 Junior-Senior Banquet and Prom, Saturday.

As the theme suggested, the decor consisted of different shades of blue. Helium-filled balloons covered the ceiling and adorned the doorway, as chandeliers made of balloons hung nonchalantly from the ceiling.

Servers, wearing navy blue, served courteously and promptly. The menu consisted of barbecued brisket, green beans, potato salad, hot rolls, and a choice of cherry, peach or blueberry cobbler topped with ice cream.

Cindee Davis, mistress of ceremony, opened the program by introducing Wayne Morren, junior class president, who gave the welcome. Jodie Smith,

senior class president, gave the response and spoke briefly of the symbolic blue.

"Blue symbolizes the beginning and an end," she said.

Joe Faulkenberry gave acknowledgements and a toast was given to the graduating class of 1983. Cimmarron, a two man comedy band from Lubbock Christian College, entertained the crowd of about 165.

A relaxed and joyous mood prevailed which was created by the decor and smiling faces. It was a sense of pride for the juniors knowing that the atmosphere was created by them. For the seniors, it was a time to look back and to look forward. As the 1983 prom ended, a lifetime of memories were implanted into the hearts of many. It was altogether outstanding and different.

**MR. AND MISS SENIOR CLASS**, LaDonna Heflin and Walker Brooks, were presented at the 1983 Junior-Senior Banquet Saturday.

## General Mechanical class attend a meet at Amarillo April 9th

The Della Plains General Mechanical class, consisting of high school and junior high students, traveled to Amarillo Saturday, April 9, to attend the Area 6 Vocational Contest meet. Attending this meet were Martin Riojas, Ray Hernandez, Scott Watts, Stacy Williams and Randy Hernandez.

Technical quality meets standards in construction, finish and assembly. Also included is the skill level which displays quality and neatness, shows originality and initiative and presents overall quality and workmanship. The score they received was above average.

Wes Side Story by Wes Brown

If I could change the world...

As I am writing this, outside it is snowing as though it were the middle of January. I can only guess what the weather will be doing by the time you read this week's column. You can be sure it would be different than last week.

I had plans for the weekend and they weren't shoveling the sidewalk. I was feeling rather blue about this when I thought of a prayer. I have known for some time. It went something like this: "Lord, grant me the ability to change the things I can, the patience to accept the things I cannot and the wisdom to know the difference." I began to think of things I would change if I had the ability.

First I would make Monday a transition day between the weekend and the rest of the week. Under my plan, we would come to work on Monday, but take care of only the things we put off doing on Friday.

I would re-write all of the television commercials so they no longer insult our intelligence. I would eliminate talking dogs, dancing cats and all commercials that use children under the age of 12. The last thing I need is an intelligent four-year-old telling me why one fast food place is better than the other.

While we are on the subject of television, all of the television stations would give us our evening news straightforwardly and honestly. I don't want to be entertained with cute stories like the daily updates of the newly hatched condor chicks.

Alarm clocks will no longer shatter our nerves with a bell or buzzer. Instead, the smell of coffee perking and bacon frying would wake us. Those smells have pulled me from a warm bed quicker than any alarm clock.

Check books will balance automatically. Banks would give us \$2,500 every time we deposited a toaster.

All politicians would do as they are supposed to, represent the people they serve. This would solve many of the problems we have in our government. I would make people who think they know how to run our government or think they have all of the answers to our problems to hold a public office for a week and see how much they know.

All of the words in the American language would be spelled the way they sound and not according to Webster.

Postage stamps and envelope flaps would stick to the envelope instead of each other. I would require every radio station to play a popular song enough to keep it popular instead of 26 times a day.

I would require every person who wakes someone up with a wrong number, listen to 45 minutes of Slim Whitman's greatest hits.

Although it seems nearly impossible, I would find something to improve the taste of coffee. Anything is an improvement over tasting like burnt hickory bark.

About the best way I know to change typewriters, is to make them return automatically so I wouldn't be typing off of the page.

To change the car industry, I would make all of the car companies manufacture cars like the Volkswagon Beetle which cost about \$2,500 when it was in its peak years. This way, more people can afford a new car and therefore sell more cars.

Products that claim to be "child-proof", "unbreakable", "water resistant" and "guaranteed" really are what they say. I would make all products with a warranty not break down the day after the warranty expires. All batteries would give an audible warning before they run down instead of letting you find out when you need them the most.

I would eliminate professional football (i.e. the USFL) during the summer. Each sport has its season and summer is not the season for football.

All diet soft drinks and foods would taste as good as the television commercials say they do. For that matter, make any product perform as well as the commercials say it does.

The line at a grocery store, bank or any other business I am waiting in always moves slower than the others. I would make them all move at the same rate.

After everything is said and done, more will be done than said rather than the other way around.

Of all the things I would change if I could, I wouldn't change days of bad weather. These will have to be the things I would accept. If it weren't for the bad weather we wouldn't appreciate the good weather.
