Whirlwinds capture County Championship Friday

The tenacity of the Floydada Whirlwinds payed off Friday night when the Whirlwinds defeated the Lockney Longhorns winning the Floyd County Championship.

Taking advantage of a Longhorn fumble in the fourth quarter, the Whirlwinds broke their four game losing streak and defeated the Longhorns 7-0.

The game was scoreless until the fourth quarter when the Longhorns

fumbled the ball on its own 10 yard line and Whirlwind Micheal Saens ran from the two yard line for the winning touchdown. Saens also tacked on the extra point.

The defenses were the key to the game as neither offense could muster much of an offensive threat.

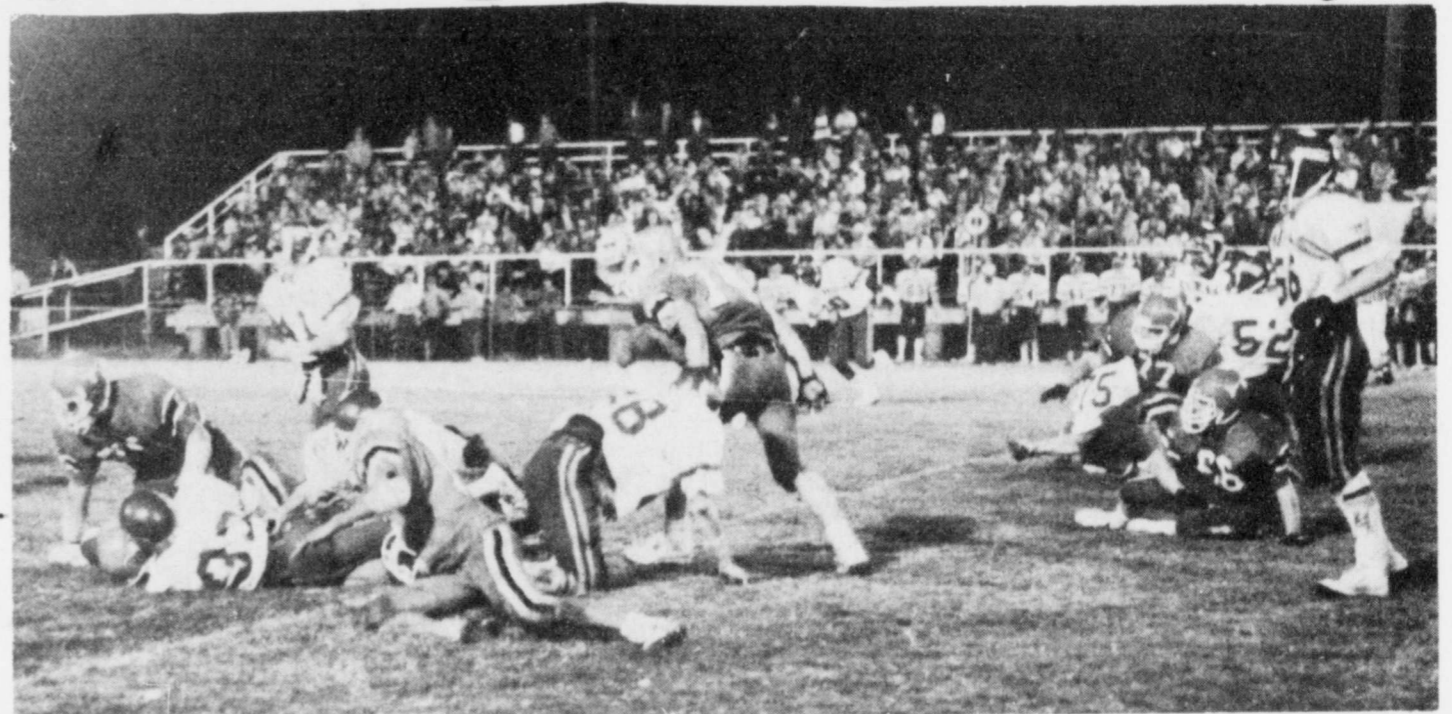

The Longhorns couldn't seem to hold on to the ball. They had two passes intercepted by the Whirlwinds and fumbled the ball five times.

The Whirlwinds had a total of 206 yards with 9 first downs. The Whirlwinds held the Longhorns to 105 yards total offense and kept the Longhorns down to only five first downs.

The Whirlwinds will go into their second district game against the Childress Bobcats Friday night at Wester Field.

Outstanding offensive players were: Mike Saens and Mark Hatley.

Outstanding defensive players were: Ricky Poole, Mike Ruff, Gilbert Flores, Mike Saens, Derrick Jenkins, Fernando Arvizu, Carlos Baker, Alvin Cooper, Mark Hatley, Quint Anderson and Pat Lloyd.

THE WHIRLWINDS grabbed themselves a handful of Longhorn beating the Longhorns 7-0.

Roger Gonzalez named artist for October

When walking down the main halls of Floydada Junior High School one doesn't have to look too far to find an abundance of talent lining the walls.

Art teacher, Dwayne Franklin has started displaying some of his art student's finest work in the main lobby of the school.

This month's artist of the month is eighth grader Roger Gonzales. Born in Lockney and raised in South Plains, he is the son of Mr. and Mrs. Raul Gonzales.

Roger attended South Plains Elementary school through the sixth grade where he started his drawing in Ms. Hunter's art class.

This will be Roger's second year in Mr. Franklins art class.

Pencil drawings are Rogers favorite artist endeavor and his own self portrait is his favorite piece of work.

Franklin asked Roger to do the self portrait after deciding to display Roger's work as artist of the month.

Asked what he thought about Frank-

lin's art classes, Roger said he finds them "fun and easy."

Roger hopes to continue with his art and wants to make art his career.

People are Roger's favorite subject when drawing.

He also enjoys repairing bicycles and anything else that is mechanical.

Franklin has five art classes plus an industrial arts class that he teaches daily.

There is one high school art class that he teaches during 0 period from 7:45-8:45 a.m.

The remainder of his classes are Jr. High students, 7th and 8th graders combined.

The art work of his students are displayed throughout his art room and some of his previous high school art classes designed and painted the Whirlwind and opposing teams mascots that hang in the gymnasium at Jr. High.

Franklin said he was "very proud of all" his students and was appreciative of the recognition for them.

"They need lots of encouragement. I tell them they are good but they say it's only because I'm their teacher. It's different when someone else tells them they've done something good."

T A C Election slated

Should Floyd County have an office for the tax assessor collector or should the sheriff be in charge of the collections?

Floyd County voters will be asked this question in the upcoming November 8 general election.

Earlier this year the 68th Legislature passed a law stating that any county with a total population less than 10,000 would revert the tax assessor collector office to the sheriff unless there was a bill in the county's next election to keep the office.

Floyd County has had a tax assessor collector since 1935. In 1978 the appraisal office was separated from the tax assessor office and in 1982 the collectins for that office were first made by the appraisal office.

The tax assessors duties now are taking care of the voter registration, issuing titles, permits, and enforcing

sale and use tax.

The office, staffed with two full time persons, is flooded with paper work daily from the state as well as on a local level. Funds of \$199,400 has been collected as of this date, for the road and bridge fund alone.

Jonelle Fawver is Floyd County's present tax assessor collector. Born in Conway, Arkansas, she and her family lived in the Sandhill Community where she attended Sandhill School.

Graduating from Floydada High School in 1944, Fawver moved to Amarillo and during the war worked in the Pantex plant there.

After the war Fawver moved back to Floydada where she went to work for Floyd County Rural Electric.

She went to work at the tax office in 1965. In 1973 she was elected Floyd County Tax Assessor Collector.

State treasurer sends checks

Texas Treasurer Ann Richards is sending checks totaling \$7.3 million in grants to the state's 254 counties for road construction and maintenance projects.

The 18 counties in the Lubbock area are receiving a total of \$438,000, with Floyd County receiving \$30,252.25.

The State Treasurer each year disburses money appropriated by the legislature for the Lateral Road Program. The grants may be used by counties for the purchase of right-of-way and for construction and maintenance of lateral roads, farm-to-market roads or state highways.

Richards said the \$7.3 million is allocated to each county under a formula based on the county's area, rural population and lateral road mileage.

Since the new firm has no finishing equipment, socks being produced by Bradford Textile Co. are either being "finished out" by the purchasing firm or Bradford contracts for the finishing through Specialty Sox in Crosbyton. He terms his plant as a "family operation."

For now, all socks being produced are "personalized" with lettering designating a school or organization. Each of the machines "should produce about 50 dozen pair on a six-day week," Bradford says. These are "14 to 16 hour days."

Bradford has found sufficient markets for his entire production. He believes that "they're (markets) there if you are willing to work hard to find them." Among his first work was producing game socks for the Chieftan football team and the Whirlwinds.

The owner of Crosbyton's sock production facility is a Floydada native and the son of Mr. and Mrs. Floyd Bradford of Floydada. His wife was reared in

Boosters organize

By Jana Lawson

The Speech and Drama Boosters held an organizational meeting on September 13. This group was organized to support and raise money for the speech and drama activities of Floydada High School.

performed at Floydada High School. They are also planning social functions for the kids before each tournament.

Some long range goals are to raise money for a new P.A. system for high school, to raise money for a scholarship to be given to a senior of Floydada High School, and to build props for U.I.L. one act plays. An attempt is going to be made to get a new wardrobe and obtain new furniture for the drama department.

Officers were elected. Nancy Willson was elected president, Randy Hollums was elected vice-president, and Mary Alice Davis was named secretary-treasurer.

Needs of the Speech and Drama Club were discussed; finding judges, getting donations, arranging concession help, and obtaining trophies for the Floydada speech tournament were included in the list. One plan for fund-raising includes the sale of tickets to all of the plays

If you are interested in donating your money or your time, or if you would like to be a member of the Speech and Drama Boosters please contact Joe Willis at 983-2264 or Nancy Willson at 983-2474.

Public Notice

Southwestern Bell, in accordance with rules and orders of the Public Utility Commission of Texas, hereby gives notice of its intent to re-file evidence and appropriate tariff(s) in support of a request to establish rates for the use of certain complex inside telephone wiring in the amount of \$54.5 million annually. This request was previously a part of the considerations in Docket 5141 and now has been re-docketed as Docket 5420.

Customers who do not own the Complex Inside Wire associated with their Customer Premises Systems (such as PBX and Key Systems), and who utilize Southwestern Bell's wiring after January 1, 1984, could be affected by this request. On January 1, 1984, all of the Customer Premises Systems presently provided by Southwestern Bell Telephone Company will be transferred to a subsidiary of AT&T and that subsidiary of AT&T will be almost exclusively responsible for the charges pursuant to the proposed tariff on January 1, 1984. After January 1, 1984, customers who purchase their Complex Customer Premises Equipment and do not purchase, but continue to use, Southwestern Bell Telephone Company's inside wire will be subject to the charges proposed in the tariff.

The proposed effective date for these new rates is January 1, 1984.

Persons interested in intervening in this matter should file a written motion expeditiously with the Public Utility Commission of Texas, 7800 Shoal Creek Boulevard, Austin, Texas 78757, as the Hearing on the Merits in Docket 5420 is set for November 21, 1983.

Homemakers Club meets

The Extension Homemakers Club met October 10 in the Community Center with Anna Maude Hopper as hostess. She read the scripture I Cor. 10:14-11.

The vice president, Lucille Miller, called the meeting to order. Roll call was answered by An Ancestor I Remember. Bess Carr reported on the Extension Homemakers Club state meeting in Lubbock September 20-23.

The programs were discussed and some changes made. The next program, October 24, will be clubs choice. A

One resignation accepted at school board meeting

In Tuesday night's regular meeting the school board members were: Harvey Allen, president; Don Hardy, vice president; Travis Jones, secretary; Bill Orman, Weldon Pruitt; Bud Rainey and Fred Zimmerman. Also present were Superintendent Jerry Cannon and business manager Tommy Cathey.

Following the opening invocation and the reading and approval of the minutes of the previous board meeting, Cathey gave in his report a tabulation of funds received since the last board meeting. A check was received from the State for \$64,258. Delinquent taxes in the amount of \$10,095 had been received from the Tax Appraisal Office, a substantial increase over the delinquent taxes received for September of last year or in any recent year. He also asserted that another good check from delinquent taxes collected was expected this month.

In new business the resignation of Karen Bunjes was accepted. She and her husband will be moving to Crockett where he will pastor a church. One the recommendation of Supt. Cannon, the board approved the hiring of Zacha Gregory to replace her as a first grade teacher at A.B. Duncan.

Cannon reported to the board that Joyce Kimble was recovering nicely from surgery in the Methodist Hospital in Lubbock. When he visited with her earlier in the week, she was expecting to be released yesterday or today.

A written report was passed out to the board members on the results of the TABS (Texas Assessment of Basic Skills) test administered to the third, fifth and ninth grades. A separate article in this issue reflects the progress made over last year's scores. Some discussion was had by the board making the mastery of the TABS a requirement. Special education would be exempted from that requirement. It was decided that the matter would be considered for a time before a decision could be reached.

The proposal to insulate the metal and gables and ceiling of the fieldhouse at Jr. High was approved. A bid of \$675 had been submitted on the job.

J.W. Dawdy elected director by SWCD

J.W. Dawdy, of the Sandhill community, was elected to the Floyd County Soil and Water Conservation District #104 last Tuesday night. Dawdy will serve as director for zone 5 which covers the southwest part of the county. The term will be for five years, serving with other directors, Les Nixon, Weldon Becker and Junior Taylor.

A 1970 graduate of Idalou High School and a 1975 graduate of Texas Tech University, Dawdy has his degree in Agricultural Economics.

He and his wife Cheryl, who is a native of Fort Worth, have two daughters, Leigh, age three and Erin, one. Dawdy is the son of John and Fay Dawdy of Idalou.

One zone is vacate due to the death of Herman R. King, an appointment of someone will be made at a later date by the directors.

The purpose of the Floyd County SWCD is to promote sound soil and water conservation programs on farm and ranch lands within the district and to serve as a voice for farmers and ranchers on conservation matters and other issues affecting private property rights of landowners. The district is a legal sub-division of state government with no taxing powers. All conservation programs are of a voluntary nature to the landowner or operator. The Floyd County SWCD was organized in 1941.

J.W. DAWDY was elected to the Floyd County Soil and Water Conservation District Tuesday night. He will serve as Zone 5 director.

Bentsen introduces Drought Relief Program

Senator Lloyd Bentsen, noting that Texas ranchers are suffering through their worst drought in more than 30 years, introduced legislation Tuesday that would require the Department of Agriculture to provide emergency feed assistance.

The Bentsen bill would eliminate the discretionary feature in current law which allows the Secretary of Agriculture to decide whether or not emergency feed assistance will be provided to drought-stricken ranchers. The secretary would retain discretion in determining what form the assistance would take.

The bill would also allow the Secretary of Agriculture to release stocks of feed owned by the Commodity Credit Corporation for livestock feed. At present these CCC-owned commodities can be released only through a presidential disaster declaration.

"The bill would also see to it that all farmers and ranchers suffering from a natural disaster could qualify for disaster assistance, whether or not their county has been declared a disaster area. Natural disasters do not follow county lines and there is no rational reason why disaster aid programs should be limited by these artificial constraints," Bentsen said.

"The CCC currently owns over 17 million bushels of corn that is classed as

grade four or five and that is stored in or near the areas of Texas that are most in need of emergency livestock feed assistance."

"This corn, purchased in the Midwest following the Russian grain embargo and shipped to the Texas Panhandle for storage, now sits overhanging the local grain markets and costing taxpayers about \$5 million a year to store."

"Although it is down-graded in the market and cannot be used for export or the Payment-in-Kind program it is still usable for livestock feed."

"At Rankin, Texas, about 175 miles south of elevators full of this damaged corn, there are ranches that have had only six-tenths of an inch of rain this year. These people, suffering through the worst drought in more than 30 years, are watching a lifetime of hard work slip through their fingers."

"These ranchers are not asking the government to give them this grain, they are willing to purchase it and to transport it themselves," Bentsen said.

"The Department of Agriculture has sat on this problem too long. They have cost too many Texas ranchers their cattle and sheep and they have cost taxpayers too much in useless storage payments for damaged grain," Senator Bentsen said.

Farm vehicle exemptions still in effect

State Senator Ray Farabee (D-Wichita Falls) announced today that pre-1983 width exemptions for farm machinery traveling on highways will continue in effect.

"After discussing the matter with the Governor and interested legislators, the State Highway Department noted that the width exemptions for farm vehicles were not repealed by the Legislature and specified that those exemptions will continue in effect as under prior law," said Farabee.

"Farm vehicles can continue to move about as in past years without regard to width and without need of a permit," Farabee noted.

He explained that the formal ruling by the Department was necessary because some have interpreted state and federal laws passed earlier this year as repealing the width and permit exemptions that Texas agricultural interests historically have enjoyed.

"Representative Steve Carriker (D-Roby) and I will introduce legislation to put an end to any lingering doubts about the situation and to ensure that the specter of this unneeded economic burden does not arise again. We have requested the Governor to include this legislation in any Special Session," stated Farabee.

Agricultural Producers Program set up

What could be more enriching for beef, sheep, other livestock, and grain producers than sharing agricultural and cultural ideas with student-trainees from other developed countries.

MAST International, an agricultural student-trainee program expects to place, in 1984, over one hundred student-trainees, ages 20-26, that have agricultural schooling, have operated tractors, and have handled beef, sheep or other livestock for at least two years. In addition, these student-trainees from Australia, Denmark, England, Finland, France, Germany, the Netherlands, New Zealand, Norway and Sweden, can speak English and also plan to continue farming when they return home.

Interested families can host the trainees for one or more eight month periods: January 11-September 10, 1984 for Australian, English and New Zealand beef and/or sheep trainees. Other livestock or crop only trainees are possible during this period. The other periods are March 23 - November 22, 1984 and/or August 23 - March 22, 1984. Trainees from all countries and for all kinds of farms and

ranches are expected for these periods. The international student-trainee will work the same hours as the host family and in return, the student-trainee will learn about new systems of farming and/or ranching, the American culture and family and new agricultural methods and technologies relate to his or her career goals.

MAST International, administered through the Agricultural Extension Service, University of Minnesota, has brought together 1,600 international student-trainees with over 1000 American agricultural producers and families since 1949. According to one farmer who hosted a student, the experience was a positive one. "I spent the same number of hours as before on the farm without getting worn out, thanks to someone who was not only an exciting companion, but also an experienced

worker."

Families wishing to host must be willing to accept the trainee as a member of the family or production team; interested in the trainee as a person and as a representative from another country; willing to provide training as well as experience and be able and willing to pay approximately \$500 to \$525 per month, provide room, board and laundry, plus appropriate work insurance.

A reciprocal program is also available for young Americans to these countries.

For an application form and further information contact Fred Hoefler, Agricultural Extension Service, 405W Coffey Hall, 1420 Eckles Avenue, St. Paul, Minnesota 55108. (612) 373-0725.

Domestic Guidelines

With 249 million lunches being packed across the United States each week, it can be seen that "Brown Bagging" is a way that many lunches are served. What could be simpler than reaching in the freezer in the morning, pulling out a sandwich and tucking it into a brown bag? Most people are for anything that will keep the morning rush hour as simple as possible, and having sandwiches made ahead of time will help.

Sandwiches can wait in the freezer a couple of weeks, so prepare a big batch at one time. Also, the sandwich you pack in the morning will be thawed and just right to eat by noon!

Spread the bread slices with softened margarine before filling and closing, to help keep the filling from soaking into the bread. Be sure that sandwiches to be frozen are well wrapped in heavy duty plastic wrap or plastic bags and sealed with tape; in freezer paper; or foil. Remember to label the sandwiches.

Here are some fillings and ingredients that freeze well:

- Cooked or canned beef, pork or other meats, chicken, ham or fish - either sliced, diced or ground, or in mayonnaise - bound salad mixtures. (Freezer books tell you that mayonnaise should not be frozen, but the small amounts used in sandwich fillings will be just fine.)

- Cheeses - sliced, shredded, soft or hard, and cheese spreads. This includes cream cheese, which may get a little crumbly after freezing, but is fine for sandwiching.

- Also bologna, salami, etc., peanut butter, nuts, hard-cooked egg yolks, relishes and condiments - catsup, mustard, chili sauce, pickle radish.

DO NOT freeze fresh vegetable or fruits or other very crisp foods. They become watery and lose their crispness when thawed.

Landscape & Gardening

BENNY BUTLER

Cool weather signals rye planting time. Many homeowners overseed lawns or barren areas without established turf with rye to prevent erosion of topsoil during fall and winter. Of course, rye enjoys cold temperatures and remains green and growing throughout the winter when bermuda and Buffalograss are dormant.

Because many nurseries are selling ryegrass, gardeners should understand that annual ryegrass used for lawns is not the rye which should be planted in gardens. Annual ryegrass remains small; cereal or Elbon rye grows much taller and provides much more organic matter. Neither of these ryes should be seeded before cool temperatures arrive since germination of rye in hot soils is practically impossible.

Because many nurseries are selling ryegrass, gardeners should understand that annual ryegrass used for lawns is not the rye which should be planted in gardens. Annual ryegrass remains small; cereal or Elbon rye grows much taller and provides much more organic matter. Neither of these ryes should be seeded before cool temperatures arrive since germination of rye in hot soils is practically impossible.

After several years of testing, cereal rye has proven to be the fastest growing, most cold tolerant annual grass available. Gardeners can plant cereal rye in late fall and have a thick mat of grass about 10-15 inches high in late winter. Shred this grass with a lawn mower or flexible string trimmer and till

it into the soil so that it can rot before spring planting. Shredding and tillage one month before planting allows for adequate decomposition.

Planting cereal rye offers many advantages. Cereal rye beautifies the garden area with greenery. It will add the best organic matter available to the garden soil, and this type of "green manure" crop decomposes rapidly. As if these benefits were not enough, cereal rye roots serve as a "trap crop" for nematodes. Once nematodes enter cereal rye roots, they cannot escape and will perish. When cereal rye decomposes as does most organic matter, it releases organic acids which tend to help reduce soil alkalinity.

Cereal rye can be planted by merely seeding directly on top of the garden soil and raking in. Apply seed at a rate of one pound per 100 square feet of garden area to insure good coverage. Raking may not even be necessary. Be sure to water rye regularly (once a week) and fertilize for maximum growth. Always shred rye before it forms seed heads since sprouting rye seed in early spring may become a nuisance. Rye seeded in the fall will not become a week problem during the spring rye plants cannot withstand hot temperatures and will die.

Educational programs conducted by the Texas Agricultural Extension Service serves people of all ages regardless of socioeconomic level, race, color, sex, religion, or national origin.

Smith hosts Sandhill Hobby Club

The Sandhill Hobby Club met Oct. 6 in Lockney with Neva Smith as hostess. Before the meeting opened Johnnie Quisenberry showed a beautiful quilt she was making. She also showed baskets made from print material, a pillow and Dresden Plate design in embroidery hoops to be hung on the wall. She gave pointers on putting a quilt together and on quilting.

The meeting was called to order by the president, Bess Carr. The new year books were passed out. The president thanked all of the committee members for a job well done.

Floydada Nursing Home Happenings

On Monday, Doloras and Leona were out to give the ladies a lift in their spirits by fixing their hair for them. Everyone knows how happy a new hair style makes a lady feel. Monday afternoon Kim was here and she entertained some of the residents with musical bingo and prizes.

Tuesday the residents enjoyed the "banana break" which Mr. Richardson brings to everyone, and on Tuesday afternoon Iva, Irene, Ona, Una, Bennie, Addie Sue, Ruth, Francis, and Mrs. Bernie attended Bible Study. These ladies enjoy sharing their insights about the Bible in this study and discussion time.

There are many of the residents who enjoy spending time in their rooms. Alma Ruth Nelson and Clara Williamson enjoy reading in their rooms and visiting with family members and friends who come to visit. Mary Cobbs enjoys having her daughter, Jane Bean, and her husband visit her. Charlie Lewis always enjoys his visitors, and he spends some time watching television.

Wednesday afternoon the bingo fans were ready for their bingo games. Ona Jameson won the most games and Ona and Lura tied for the black-out prize.

On Thursday the residents enjoyed a special treat. Dartha Westbrook, Francis Rose, and Shirley Varner entertained the residents with beautiful music. The residents really enjoyed the "Trio", and would have kept them singing all afternoon if the Trio's voices had lasted. Thank you girls...everyone really enjoyed your music!

On Friday, Nettie Adams helped Mary Corley with devotion time by leading the singing. Thank you, Nettie. Mary was playing the piano with a broken finger. This is a real dedication! Ruth Benson thought the music was "wonderful" and said "sometimes when we have to make a special effort to do something...the results are better."

So true...Ruth. Friday afternoon was movies and popcorn. The movie fans watched an animal story about the sandhill crane and another film which was an Orson Well's mystery.

I learned an interesting fact several weeks ago when I asked the residents to choose their favorite month of the year. The favorite months were: two for December because of Christmas, Hallie Betrand said January "because it was the beginning of the year." The rest of the residents chose as their favorite month, the month that their birthdays

are in. Birthdays are evidently very important to everyone no matter what their age. We should all remember this.

Addie Lindley went home with her daughter, Letha Lightfoot, Friday to enjoy lunch. I am sure everyone there enjoyed...Addie! Emmit Lawrence also had the pleasure of going to Matador to attend a family reunion on Sunday. The residents enjoy these special times with their families...but I think they are always happy to "come home" again.

To all the volunteers and visitors we have had this week...thank you and we love you! Gwendolyn Howard; Mrs. Watson Jones; Dolores Cannon; Mr. and Mrs. Joyce Williams; N. B. and Jo Ann Mooney; Charley L. Berry, Sr.; Ira M. "Laugh Lines"

BY DON AND SARA PROBASCO

Bits of Humor, Trivia, and an occasional Word of Wisdom

Stubbornness does have its helpful features. You always know what you are going to be thinking tomorrow.

Executive ability: the ability to decide quickly, and then get somebody else to do the work.

No one ever created a great thing suddenly.

We have only 2 things to worry about: one is that things will never get back to normal. The second is that maybe they already have.

Authority makes some people grow -- others just swell.

Life is a one-way street. No matter how many detours you take, none of them leads back. Once you know and accept that, life becomes much simpler.

One way to get into trouble is to be right at the wrong time.

Another way is to have only one set of keys and lock the door, with the keys on the INSIDE. It will save time and money to get duplicates made BEFORE you need them.

PUBLIC NOTICES

City of Floydada
P.O. Box 10
Floydada, Texas 79235

TO ALL INTERESTED AGENCIES, GROUPS AND PERSONS:
On or about October 31, 1983, the above-named City of Floydada will request the U.S. Department of Housing and Urban Development to release Federal funds under Title I of the Housing and Community Development Act of 1974 (PL 93-383) as amended, to be used for the following projects:

ACTIVITY	ESTIMATED COST
Street Improvements	\$13,000

All of the above referenced projects will be located within the corporate City Limits of the City of Floydada, Texas. It has been determined that such request for release of funds will not constitute an action significantly affecting the quality of the human environment and accordingly the above-named City of Floydada had decided not to prepare an Environmental Impact Statement under the National Environmental Policy Act of 1969 (PL 91-190).

The Reasons for such decision not to prepare such Statement are as follows:

Street Improvements - It is the major intent of the City of Floydada to improve the condition of roadways for area residents within the neighborhood. Streets that are not reconditioned create safety hazards and maintain the blighted appearance of the Target area. The project will eliminate these problems. Minor grading and clearing will occur but no long-term changes in land characteristics are anticipated. Construction activities will produce certain amounts of very limited air and noise pollution over a short term. No major increases in traffic or auto exhaust pollution are expected.

An Environmental Review Board respecting the within project has been made by the above-named City of Floydada which documents the environmental review of the project and more fully sets forth the reasons why such Statement is not required. This Environmental Review Board is on file at the above address and is available for public examination and copying upon request in the office of the City Secretary between the hours of 8:00 a.m. and 5:00 p.m., Monday through Friday.

No further environmental review of such project is proposed to be conducted prior to the request for release of Federal funds.

All interested agencies, groups and persons disagreeing with this decision are invited to submit written comments for consideration by the City of Floydada, to the office of the undersigned. Such written comments should be received at P.O. Box 10, Floydada, Texas 79235 on or before October 28, 1982. All such comments so received will be considered and the City of Floydada, will not request the release of Federal funds or take any administrative action on the within project prior to the date specified in the preceding sentence.

The City of Floydada will undertake the project described above with Block Grant funds from the U.S. Department of Housing and Urban Development (HUD) under Title I of the Housing and Community Development Act of 1974. The City of Floydada is certifying to HUD that the City of Floydada and Parnell Powell in his official capacity as Mayor consent to accept the jurisdiction of the Federal courts if an action is brought to enforce responsibilities in relation to environmental reviews, decision making and action; and that these responsibilities have been satisfied. The legal effect of the certification is that upon its approval the City of Floydada may use the Block Grant Funds and HUD will have satisfied its responsibilities under the National Environmental Policy Act of 1969. HUD will accept an objection to its approval only if it is on one of the following bases: (a) that the certification was not in fact executed by the certifying officer or other officer of applicant approved by HUD; or (b) that applicant's environmental review record for the project indicates omission of a required decision finding or step applicable to the project in the environmental review process. Objections must be prepared and submitted in accordance with the required procedure (24 CFR Part 58) and may be addressed to Community Development Department of Housing & Urban Development, P. O. Box 2905, Fort Worth, Texas 76113.

Objections to the release of funds on bases other than those stated above will not be considered by HUD. No objection received after November 18, 1983 will be considered by HUD. The Chief Executive Officer of the City of Floydada is Parnell Powell.

Lakeview News

Last Thursday afternoon heavy machinery trucks arrived at the D&B oil well site north of the Lakeview gin to set up the rig. Tool pushers, Bobby Flatt, stated this in Rig No. 7. He also said their company drilled about two years ago on property owned by the Campbell family between Dougherty and Matador. 23 rigs are in operation over West Texas for the company. They plan to go 10,000 to 10,500 feet, Mr. Flatt said.

Mr. and Mrs. W.H. Bunch returned home earlier in the month from a tour of western states. In Denver, Colorado, they visited Willie's sister, Mrs. Sara Denton. From Colorado they traveled on the Utah. They visited at Grand Canyon National Park, Glenn Canyon, Hoover Dam and Lake Mead, also Las Vegas, Nevada. They reported beautiful scenery and weather.

Mrs. Roy Fawver was hostess to the

1929 club's opening meeting last month. She entertained with a salad luncheon. Members brought salads which the hostess served with a hot casserole of chicken tetraginne, coffee and tea. Program chairman, Ann Swepston, previewed the club programs for the year and handed out new year books for their folders. She reported on the 200th anniversary of the signing of the American Constitution the Nation is celebrating. Members were reminded to bring article for the Day Care Center to the next meeting.

Mr. and Mrs. Duane McClintord have the Lakeview Gin open and ready for business.

Holt Bishop ate Sunday dinner with Mr. and Mrs. Howard Bishop. Mike and Rozanne Bishop also came out for dinner at noon.

Mr. and Mrs. Bill Gafford of Crowell

visited his sister and family, Mrs. Weldon Hammonds on Tuesday.

Mrs. Pat Brown of the Crosbyton Museum is presenting "The Battle of Blanco Canyon" to Ralls fifth graders this week. The battle between the U.S. Calvary and Quanah Parker's band of Comanche Indians took place October 10 in 1871. The students will bring their sack luncheon when they visit 20 foot falls, south of Silver Falls, where it is believed Col. Ronald McKenzie and his men camped the night before the battle. Then they will prowl the battlefield and walk through the historic experience.

Mr. and Mrs. Brian Akins visited their daughter and family, Mr. and Mrs. James Williams, Ashleigh and Austin. All came out Saturday evening for supper with Mr. and Mrs. Q. D. Williams. Mr. and Mrs. Dee Adams were also guests.

Club meets

The Homebuilders Extension Club was hostess to the Harmony and Lone Star Club for a luncheon and program on September 27 at the County Extension Building.

After the salad luncheon Mr. Williams from Williams Florists gave a very interesting talk about where the flowers are bought and received at the shop. We were impressed to learn of the different states and countries the flowers and plants come from. A lovely Hawaiian Flamingo arrangement was given by Williams Florists to the club and drawn, as a door prize by Mr. Wynon Taylor. Mrs. Taylor owns a ceramic shop in Ralls and brought a number of her lovely items to show and tell what steps it takes to make the pretty glazed pieces.

The Homebuilders Club gave crocheted butterflies and potpourri bags as table favors to Elvira Stewart, Ruth Reeves, Helen Huffman, Syble Teeple, Vera King, Bess Carr, Ruth Scott, Inez Walker, Blanch Williams, Muri Mayfield, Leila Mae Burns, Barbara Willis, Ruth Trapp, our agents Mary True, Bennie Butler and guests Mrs. Wynon Taylor and Mr. James Williams.

South Plains News

By Mrs. Murray Julian
 South Plains, October 10:

Saturday and Sunday of the past weekend brought fog, rain showers and colder weather to the area, and this Monday cooler weather is still with us. Today the South Plains Post Office is closed in honor of Columbus Day.

The Rev. Cecil Osborne is home from Dalhart, Texas where he has been the past week, preaching at a revival during the week and closing out Sunday evening. Kelvin Cummings spoke to the Wednesday night prayer meeting here to the group attending the meeting in Rev. Osbornes absence.

Ray Harvey, Doctor of Psychology at Wayland College in Plainview, filled the vacancy of preacher during Rev. Osbornes absence on Sunday and he spoke at both morning and evening services here with wonderful sermons.

At the South Plains Baptist Church High Attendance Sunday will be celebrated on the last Sunday in October, on 30th, with "Dinner on the Grounds" for everyone attending. Come and join your neighbors for a joyous occasion.

Kenneth Blenden, 35, of Lubbock was killed Tuesday night in a one-vehicle accident near Petersburg. His services were held at Lockney on Friday morning at 10:30 a.m. at the Lockney Church of

Christ, with interment in the Lockney Cemetery. He was well-known in our vicinity, and we extend our sympathy to his parents, Easton and Dewanda Blenden and other relatives.

Mrs. Inez Minyard of Littleton and her sister, Mrs. Letha Mulder went Saturday morning to Clarendon to visit another sister and husband, Mr. and Mrs. Pete Land. They drove back home Sunday in the bad, foggy conditions, and really had to creep along, but arrived back home safely.

At the South Plains Baptist Church those that were elected to head the Food and Hospitality for the coming year at the church were Ruby Higginbotham, Connie Johnson, Gail Henderson and Gleyne Earle Cummings. Those who will be taking care of flower and gift giving for the church are Nina Upton and Gleyne E. Cummings.

Mr. and Mrs. Sterling and Gleyne Earle Cummings went back to Alexandria, Louisiana and spent about nine days there visiting with relatives and were with their grandson, 2-year-old son of Mr. and Mrs. Kim Cummings who has been ill. They left him doing fine at this time and growing well. They came back home Sunday before last.

The Annual Elementary School Halloween Carnival will be held in South

Plains on Monday, October 31. It begins at 6:30 p.m. and closes at 9:00 p.m. Frito pies, nachos, homemade pies for desserts with coffee and Kool-Aid will be served, and there will be a cake walk with all sorts of different games held at the school house for the children. The costume judging will start with prizes for pre-schoolers, and on up to adults, and prizes for the best adult costumes. Come dressed in your costume and have a good time. Remember the carnival is held earlier than usual this year, beginning at 6:30 p.m.

Mr. and Mrs. Harold and Mildred Hamm went to Amarillo Thursday night to meet their daughter, Mrs. Arline Berkes and 10 month old son, Aaron, who came to spend the week-end with them flying here from Arlington. Saturday night in Amarillo a niece and husband of the Hamm's, Mr. and Mrs. Truman and LaVerna Vineyard of Amarillo held their 40th wedding anniversary at the Tascosa Country Club, from 7:30 p.m. to 10:30 p.m. Going from here were Mildred and Harold Hamm, Annelda and Howard Staples, Jeaneva Huff and Amarillo and Arline Berkes of Arlington. The Hamm's went back to Amarillo Sunday morning to put Mrs. Berkes and Aaron on the plane for Arlington.

Sunday morning at the South Plains Baptist Church Mr. and Mrs. Carlton and Diane Johnson, boys, Tanner and Carson, and baby daughter Velvet Brienne were in church for the baby's first trip to church, and we were all delighted to get to see her.

A.P. Sanders, a long-time resident of South Plains, who moved from here to Lockney in 1957, was given a birthday reception on his 85th birthday, Sunday, October 2, at his home in Lockney, with his four children being hosts for the occasion. His children, Hansel and Connie Sanders live here at South Plains. The birthday party was held from 3:00 p.m. to 6:00 p.m. Sunday afternoon. A two-tiered birthday cake frosted in beige icing, and decorated with brown and green mums, an old time wagon in candy icing with "Memories of Long Ago" written on the cake made a beautiful picture. Served with the cake were turkey and ham sandwiches, coffee and punch. A beautiful centerpiece on the table was a bowl of bronze and yellow mums. The house was filled with guests, relatives and friends. 128 people registered for the happy occasion.

PTA members are still selling pecans and if you would like to order them for holidays use, please call some member of the PTA, or call Mrs. Lora Bethel PTA president. The pecans are \$4.00 a pound.

Mrs. Lora Bethel here in South Plains is beginning a cooking class for little girls, at her home on Tuesday afternoons at 4:00 p.m. Mrs. Bethel will teach basic cooking, giving tips, measuring ideas, and they will be making cookies.

Later on in the third quarter, Tommy Cathey threw a touchdown pass to Noe Soliz bringing the score Floydada 14, Lockney 0.

On a sweep in the fourth quarter, Clay Lowrance scored another touchdown and with the help of Leif Younger's extra points made the score 22-0.

The last touchdown was scored by Cornelius Campbell on a reverse. Leif Younger scored the extra points.

Coach Mike Cocanougher named James Toney, and Leif Younger as outstanding offensive players and Cornelius Campbell, and Troy Faulkenberry as outstanding defensive players.

Breezers skunk Horns

Students do well on test

The State Board of Education recently released the fourth annual cycle of TABS statewide and regional results for students tested in February, 1983. These results include scores for math, reading, and writing tests given to third, fifth, and ninth graders to assess established state objectives.

Floydada scores compared favorably with the state and regional results in all three grades with several areas showing a higher percentage of mastery than the state and region.

Ninth grade students taking the exit-level test scored 83 percent mastery in math while the statewide percentage was 79. Reading was mastered by 78 percent locally, compared to 80 percent statewide. Writing mastery was 94 percent locally, 90 statewide.

Third and fifth grade students showed 100 percent mastery in spelling and acceptable handwriting. Statewide percentages were 97 and 95 percent respectively. Third grade students improved over last year's scores on every objective in math and reading with the greatest gain in "Identify fractional parts", 91 percent mastery, and "Multiplying whole numbers", 96 percent mastery.

Grade five students made their greatest gains in reading, "Drawing conclusions", 92 percent mastery and "Following written directions", 85 percent mastery.

School districts are asked to use these test results to improve curriculum and to individualize instruction for those students not mastering the objectives. State guidelines call for 85 percent of the students taking the exit-level test to demonstrate mastery. Local goals which are included in the 5-year Priority Plan call for all students to master the TABS test.

Coaches Comments

By Coach Joe Paty

We were very pleased with the win over Lockney — it's always good to beat Lockney — it's a pressure game because of the rivalry. It's a sweet win because it kicked off our district play and helps to begin with a victory. It was a big win for us because it breaks a 4 game losing string and the kids needed that.

I felt we played a good defensive game and was real pleased with the entire performance of our defense. We held them to 5 1st downs, 42 yds. rushing and 53 yds. passing. Anytime you hold a team for less than 100 yds. total offense that's an excellent defensive performance.

Offensively we moved the ball pretty well but just couldn't get across the goal line. Mistakes, poor execution and lack of concentration were the main factors that kept us out of the end zone. Plus the fact that Lockney played an outstanding defensive game as well.

John Wayne Foley ran for 91 yds. Michael Saens had 34 yds and one TD.

Mark Hatley had 19 yds. Derrick Jenkins caught 5 passes for 80 yds.

This week against Childress we expect a good ball game. Childress is coming into the game with a 4-2 win-loss record. They are playing good ball this year and we will have to play well to win the ball game.

Childress has a well balanced ball club with good passing and running. Doing the passing duties is QB Boyd Johnston with Stoney Hughes, Travis Anglia, Dwayne Burt and Terry Smith his receiving corp. Their running attack is centered around the FB Scott Long and TB Kenneth Sims. They play an even front on defense led by John Waits Joe Hutson, C.A. Christy, and Kyle Summers.

We are looking forward to an exciting game with the Bobcats this Friday at Wester Field at 7:30.

Beck ends training

Army National Guard Pvt. Jackie L. Beck, son of Tommy L. and Pat Beck of Flomot, Texas, has completed one station unit training (OSUT) at the U.S. Army Infantry School, Fort Benning, Georgia.

OSUT is a 12-week period which combines basic combat training and advanced individual training.

The training included weapons qualifications, squad tactics, patrolling, landmine warfare, field communications and combat operations. Completion of this course qualifies the soldier as a light-weapons infantryman and as an indirect-fire crewman.

Soldiers were taught to perform any of the duties in a rifle or mortar squad. He is a 1983 graduate of Motley County High School, Matador, Texas.

7th grade breezes by Lockney

Floydada's Freddy Toney opened up the game with a 3 yard touchdown run. Danny Caballero ran for the extra points.

In the second quarter, Lional Garza scored the second touchdown of the evening on a 5 yard run. Danny Caballero added the extra points.

Intercepting a Lockney pass, on the 50 yard line, Danny Caballero put another 6 points on the board. Chad Quisenberry passed to Dana Cooper for the extra points.

The final quarter of the game was scoreless.

Outstanding Offensive players named by Coach Lee Hurt were Chad Quisenberry and Joe Barrientos.

Outstanding Defensive players were Dana Cooper and Danny Caballero.
