KEN TOWERY

## Floyd County papers purchased by Towery

The Floyd County Hesperian and the Lockney Beacon, the two county newspapers serving the county for more than 150 years collectively, have been purchased by Kenneth Towery and his wife Louise as of Tuesday, November 15, from Bluebonnet Media Corporation of Austin.

J. Tom Graham, as a representative for the corporation commented, "We are very proud to have been a part of Floyd County for the last four years. We believe in the future of this area. We have sold the newspapers so that we could reconcentrate our interest in the southeast part of the State. We are pleased that they will fall into the hands of a man the caliber of Ken Towery and his personable wife, Louise.

"Ken is one of Texas' most respected journalists, and we are certain that the people of Floyd County will like him and admire the newspapers.

"We also appreciate the fine effort that Carolyn Redding and her excellent staff have made for the Hesperian and Beacon."

Towery, born in Smithville, Mississippi, was reared in a farming area of South Texas. Volunteering for the U.S. Army on his 18th birthday, he served in defense of the Philippines for which he was awarded the Purple Heart, a Presidential Unit Citation with two Oak Leaf clusters and other decorations. He was captured by the Japanese at the Fall of Corregidor and spent 3 1/2 years in POW camps, mostly in China on a work detail.

Towery attended Southwest Texas Jr. College and Texas A&M.

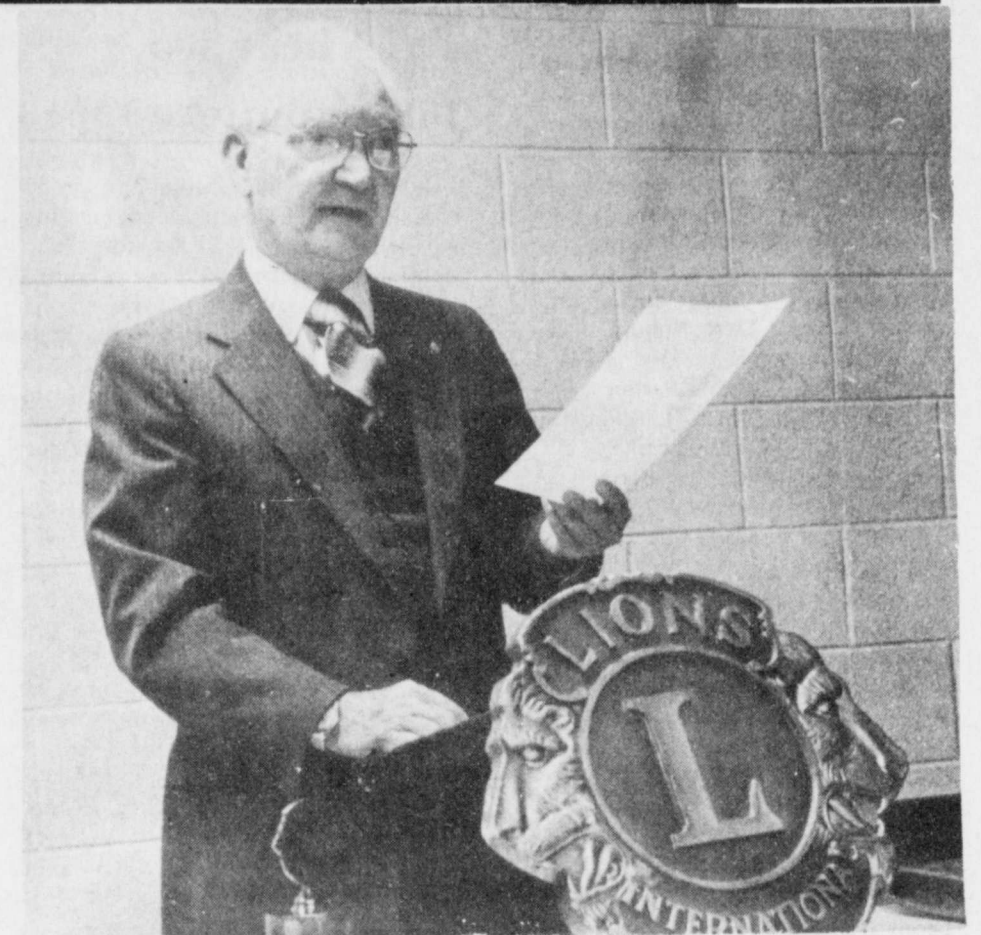

After working as reporter, Towery became managing editor of a small daily newspaper in Cuero, Texas, at which time he was awarded the Pulitzer Prize in 1955 for a series of stories exposing

fraud and corruption in Texas Veterans Land Program. He also received a special award from Texas Newspaper Association and later commended by Texas Legislature for journalistic excellence.

He has served as Capital Correspondent with a group of newspapers in Texas, headed up Sen. John Tower's elections campaigns twice and Nixon's 1968 general election campaign against HHH in Texas. While working with the United States Information Agency in Washington from 1969 to 1976, he was in charge of world-wide teletype news file to all American embassy operations plus being responsible for publishing plants in the Philippines, Lebanon, and Mexico, as well as the publication of some 60 foreign-language magazines around the world.

Towery returned to private life in 1979 and founded the Sentinel Corporation, a political and business consulting firm dealing in some real property. He helped to form Towery, Schulle and Associates and is managing partner of the joint venture operation. He was appointed by President Reagan in 1981, with Senate confirmation, to the board for the Corporation for Public Broadcasting, serving as chairman of its Audit Committee in 1982.

Upon having made the purchase of the two newspapers, Towery said, "We are very pleased to become a part of this community. I am convinced we have a bright future here, or I would not have sought to become a part of it. I will spell out, in subsequent editions, my philosophy on newspapering, and my views on how this paper is to be run and how it will fit into the community. But for now we merely want to say that we look forward to being a part of this community, and to helping it grow and prosper, along with the fortunes of all its citizens."

FORD MITCHELL

## Mitchell addresses Floydada Lions club

At last week's noon meeting, the Floydada Lion's Club heard Ford Mitchell, a well known personality to the area, speak.

Mitchell, exhibited a Bible published in 1611 by Robert Barker printer to King James. Its lined pages contained a concordance, a genealogy, a hymn book, the Old and New Testaments, and a family record. He commented on the fact that the Bible could have very easily been brought to this country by the Pilgrims since it would have been only 10 years old at the time they landed at Plymouth, Massachusetts.

Mitchell, a TV and radio personality for more than 30 years, worked with Frank McGee during World War II. He hosted such shows as Hospitality Time and Community Close Up after joining Channel 11 in Lubbock in May, 1957.

He became affiliated with Briercrest Savings and Loan in 1974 and is now vice president for business development.

Mitchell has been instrumental in making the Briercrest Heritage Collection what it is today.

He also brought the original newspaper page of what is the first Thanksgiving Proclamation, written by George Washington before the first presidential tour, dated November 26, 1789. He read the proclamation to the 30 members and guests at a tribute to Washington, our country, and the upcoming holiday. The contents of the proclamation is as follows:

### A GENERAL THANKSGIVING By The PRESIDENT of the UNITED STATES

Whereas it is the duty of all nations to acknowledge the Providence of Almighty GOD, to obey, his will, to be grateful for his benefits, and humbly to implore his protection and favour; And whereas both Houses of Congress have, by their joint Committee, requested me "to recommend to the People of the United States, a DAY of PUBLIC THANKSGIVING and PRAYER, to be observed by acknowledging with grateful hearts the many and signal favors of Almighty GOD, especially by affording them an opportunity peaceably to establish a form of government for their safety and happiness."

Now therefore, I do recommend and assign THURSDAY the TWENTY-SIXTH DAY of NOVEMBER next, to be devoted by the people of these States, to the service of that great and glorious Being, who is the beneficent Author of all the good that was, that is, or that will be: That we may then all unite in rendering unto him our sincere and humble thanks for his kind care and protection of the people of this country previous to their becoming a nation;—for the signal and manifold mercies, and the favourable interpositions of his providence in the course and conclusion of the late war;—for the great degree of tranquility, union and plenty, which we have since enjoyed; for the peaceable and rational manner in which we have been enabled to establish Constitutions of Government for our safety and happiness, and particularly the national one now lately instituted; for the civil and religious Liberty with which we are blessed and the means we have of acquiring and diffusing useful knowledge;—and in general, for all the great and various favours which he hath been pleased to confer upon us.

And also, That we may then unite in most humbly offering our prayers and supplications to the great Lord and Ruler of Nations, and beseech him to pardon our national and other transgressions;—to enable us all, whether in public or private Nations, to perform our several and relative duties properly and punctually; to render our national government a blessing to all the people, by constantly being a government of wife, just & constitutional laws, discreetly and faithfully executed and obeyed; to protect and guide all sovereigns and nations, (especially such as have shown kindness unto us) and to bless them with good government, peace and concord; to promote the knowledge and practice of true religion and virtue, and the increase of science among them and us; and generally to grant unto all mankind such a degree of temporal prosperity as he alone knows to be best. GIVEN under my Hand, at the city of New-York, the third day of October, in the Year of our Lord one thousand seven hundred and eighty-nine.

George Washington.

Until the salary is increased, she stated, there is no way to attract bright, young people into the teaching profession. They will go into industry, law, etc. where labor is well compensated.

## TSTA hear Sen. John Montford speak

On Thursday, November 3, a group from the local TSTA attended a meeting in Plainview, where Senator John Montford, who is on the Senate Education Committee, shared some of the topics being discussed by H. Ross Perot's Committee.

The Senator asked for input from those attending, and the response was enthusiastic, relative and emphatic. Senator Montford asked that a questionnaire dealing with the areas involved be circulated among teachers. After compiling the information received, he will return to Plainview and share the results of the survey and also the "pulse" of the Perot Committee.

The professional organizations of Plainview, sponsored Senator Montford's appearance and were generous in extending an invitation to the Floydada TSTA. Those attending were Norma Feuerbacher, Amy Hollums, Roberta Hardin, Sally Galloway and Al Galloway.

## Letter to the Editor

Dear Editor:

It is with growing concern that I watch the "new" movement a-foot to have all of the children in our country fingerprinted in the name of "love and safety". To date, I have not been able to get anyone to tell me how having their fingerprints on file (either at home or with some governmental agency) can prevent a kidnapping or other such. The response I usually get is that it would make identification easier, after they were found. This MAY be important to a lot of people.

At the risk of sounding like a "John Bircher", I am far more concerned with a potential use of these fingerprints by those who do not necessarily have the "love and safety" of our children foremost in mind. For over a decade, there have been those in our higher government who have been working toward a nationwide identification system, from cradle to grave, for a variety of purposes. I remember reading, back in the 60's, of a proposal to tattoo a number on the soles of newborn babies' feet that would be "their" number throughout life (for social security, driver's license, etc.) and would be required of everyone. Within one generation, under that plan, everyone under the age of 20 would be permanently marked with identification that would be on file with whatever agencies desired that information for whatever purposes.

Theoretically, one could be required to show that identification before renting an apartment, obtaining a job, opening a bank account, etc. I believe too strongly in personal freedom and the right to privacy to go along with that idea, as this could so easily lead to "Big Brother" sitting in an office somewhere punching his computer buttons and tracing everything that "John Doe" has done since being issued his number.

Sound Crazy??? So do a lot of other things that are going on around us in government every day.

At first, the fingerprinting idea (although a little far-fetched) seemed to be a private thing. All prints remained the property of the family. A few weeks ago, I read that regulations were being enacted in some areas to require that a copy of the prints be left on file at the law enforcement agencies for "further protection" of the children. Now I'm seeing more and more articles, such as the one that appeared in the Hesperian last week, with such "guilt provoking" titles as "Do You Love Your Children?" This insinuates that if you dare to question or reject the fingerprinting idea, you love your children less than you should.

I no longer have small children; if I did, I would RUN, not walk, away from this idea with all haste BECAUSE I love them. There are other ways to protect them from possible kidnapping (a very remote possibility, if you will look at the statistics) without the possibility of jeopardizing their freedom for the rest of their lives. At the very least, if you DO choose to have your children fingerprinted, be certain that you receive the only copies of those prints. Think about this carefully before you allow the emotional blackmail of this campaign to rule you. Once done, there is no retraction.

Sincerely,  
Sara Probasco

# Reforms made in school systems

In a regular meeting of the school board Tommy Cathey, business manager reported that \$505,969.92 in taxes had been collected by the Floyd County Appraisal Office as of Monday, November 7. That figure represents a 52.6% rate of collectable taxes, compared to a 47.6% collection that had been made by the same time last year. An additional \$11,559.90 had been collected in delinquent taxes which is almost double that of the same time last year.

Cathey also reported that the audit of the appraisal district office conducted by Bolinger, Segars & Moss of Lubbock had been completed. The results were handed down to the board.

The four school principals met with the board to give tentative plans to meet the requirements of House Bill 246 which was passed by the 67th Legislature which made some reforms for the school system.

Bob Copeland, A.B. Duncan principal, reported that for grades kindergarten, first, second, and third, very little change would be necessary to meet the required number of hours spent in the required areas a week. He said in the Floydada elementary school they were already meeting all of the requirements

except in physical education. Currently the elementary students have a physical education class twice a week, music twice a week, and library once a week. Next year physical education would be taught daily. With an extended day of about 30 minutes he said the elementary schedule could be adapted to create that extra class arrangement without having to add any faculty members.

Copeland also said their work on a scope and sequence study on the reading program was well underway and they would be presenting that to the board when it was nearer completion. He said they would also be working on curriculum guides for the reading program next year.

Preston Watson, intermediate principal at R.C. Andrews, brought his tentative scheduling before the board, stating that it was just that (tentative) because he did not know who would be the principal in that building next year. He proposed that with an increase to 60 minutes a day in math and dividing science and health, they could accomplish their goal. His proposal would also entail an extended day by approximately a half hour. Under his plan physical

education would be taught three days and two days of health would be taught.

Jr. high principal, Jimmy Collins, agreed with the two preceding principals that another 30 minutes tacked on to the school day would allow enough time for junior high to add one class a day for each of the two grades in reading. He said a coded transcript would be initiated in junior high which would be passed on to be completed at high school. The transcript would indicate whether the student was selecting a vocational/general, or academic course of study.

The reforms being imposed meant a "big change" for high school students, high school principal Charles Tyer reported. The students would be allowed to pursue three courses of study: vocational, general, or academic. Vocational requirements would include one course of vocational orientation and four credits of vocational training which does not include ag, homemaking, or CVAE but does include D.E. for a minimum total of 21 credits. With one more period the faculty could handle the same amount of students.

In general curriculums an extra year

of math would be required. Social studies will be taught with economics being taught as a separate course on all levels.

Under the academic plan of study would include three or four years of math, science, and foreign language for a total of 10 credits in those three areas. A total of 24 credits would be required including one credit in fine arts which could include band, art, or drama; and one year of computer science. By making seven 55-minute classes a student would be better served by being able to include some elective courses.

Times for starting and closing the school day was discussed, but set, pending finalization by the State Board probably in the spring.

Other items of business included the approval of the textbook committee, further discussion of making the TABS a graduation requirement, the handing down of the provision adopted by the State to broaden and redefine the sick leave policy.

The school board meetings will be held in December and January on the second Thursdays of the month to avoid conflicting activities.

ROBERT, BEATRICE and ROBERT, JR. ESPINOZA

## Espinozas open new business

Robert and Beatrice Espinoza are the proud new owners of Bea's Fried Chicken located on East Houston where the former Azteca Drive-in was located.

The parents of five children of their own and raising one niece, the Espinoza's said they are keeping busy their first few weeks in Floydada. Moving here from Orange Grove near Corpus Christi the Espinoza's were on their way to California when they happened upon the Azteca for sale while visiting with relatives here.

Mrs. Espinoza attended the first

grade at Floydada's R.C. Andrews Elementary but was raised in Robstown. A machine operator and plastics worker, Mr. Espinoza, who is the cook at Bea's has never cooked for the public but has always enjoyed and loves to experiment with new recipes.

## Spirit of Sharing headquarters established

The recently organized non-profit organization of SOS (Spirit of Sharing) has purchased the building just east of Ruben's Drive-In Grocery on East Houston.

Volunteers worked all day last Friday trying to restore the old building that will be the new SOS headquarters.

Due to a cutback in government social services, local Pastors as well as concerned church members, decided to organize a charitable organization to help people for a short time that need assistance in an emergency situation. Co-Chairperson Helen Martin said Friday that most of their work will be done on a referral basis. The service hopes to provide food, clothing or transportation for a limited time for those with an emergency.

Mrs. Martin commented that the organization needed furniture, appliances, volunteer labor, carpenters, plumbers, and that they would be needing a typewriter if anyone had one they should want to donate.

Several members recently visited the Pampa "Good Sams" a similiar organization. The Good Sams have already served over 2000 people in Pampa.

The SOS hope to open their facility here around January 23 of next year.

Workers that helped with the clean-up Friday were: Peggy Medley, Elvis Warren, Ralph Johnston, Jack McIntosh, Bob Chapman, pastor of the Bible Baptist Church, Margie Sue, George Wexler, Jo Bryant, Pauline Pierce, Ruth McIntosh, Ethel Carmack, Raymond Poole, who installed the sign for the building and Bill Baker who painted it.

## Floydada Nursing Home Happenings

Monday there were lovely flowers for the residents to enjoy. Ira Sullivan and Penny Edwards lead devotion time for the residents. Ira sang a solo for us, which everyone really enjoyed. There was good attendance at coffee time with reading and discussion of "The Lord's Prayer" this week. Janice was here Monday afternoon with Ceramics Class again. Emmitt, Iva, Bennie, Addie, Lura, Roxie, Irene, Hallie, and Ruth painted and were so happy to have the ceramics class again.

Tuesday at coffee time, as we were discussing how God reveals himself to us through people and through their love, Delzie Bradford and Edna Patton arrived to have coffee with the "coffee time group". They brought an angel food cake for refreshments. What a beautiful expression of God's love revealed...through people. Bible study on Tuesday afternoon was shared by Addie, Bennie, Sue, Iva, Ona, Una and Irene.

On Wednesday, Susie Mooney enjoyed having two sons and a daughter and son-in-law here to visit her. Wednesday afternoon was...BINGO!, with Nannie Belle, Hallie, Una, Sue, Bennie, Addie, Mrs. Birnie, Lura, Emmitt and Ona playing bingo and winning bananas and lollipops. Sue won the most games and was also the black out winner.

The West Side Church of Christ Singers were here Wednesday night to sing for everyone. I was not here, but I am sure the residents enjoyed their music...as always.

Thursday Evelyn took Emit, Sue, Iva, Addie, Mrs. Birnie, Lura, Nannie Belle, Bennie out for ice cream cones and drove them around town. The residents enjoy this "outing" so much. The senior citizen's bus is a blessing for all of our senior citizens.

Friday Emmitt made an owl and Irene, Iva, Ruth, Roxie, Irene, Hallie, Mrs. Birnie, and Una watched a full length film "Escape of One Ton Pet."

Mr. Bishop has not been well this week and Mrs. Williamson is still not feeling well enough to read her books, but she is feeling better.

Jessie Freeman's son was here to visit her this week.

Everyone here is so excited when their family and friends from other places visit. All of the local family members are so faithful in coming to see the residents. The residents enjoy everyone's family. They all have the pleasure of having lots of "company" each day. The residents agree that having fellowship with others is one of the reasons they enjoy their home here. You visitors are APPRECIATED! They are: Hazel Bradley, Lois Jones, Ana

## Chamber women plan bake sale November 19th

In their regular monthly meeting on November 7, the Chamber of Commerce Women's Division voted to hold a bake sale at the Lion's Club Arts and Crafts Festival on November 19. Mrs. Glenna Orman was appointed as chairman for the fund-raising effort. This will be the only opportunity this year to raise money for the club's treasury.

The stage area at the Massie Activity Center will be available for display of the baked goods, and all members of the Women's Division will be asked to contribute some type of baked goods. It is hoped that there will be a wide variety of items including pies, cakes, cookies, brownies, breads of all kinds, and candies. It should be remembered that with Thanksgiving and Christmas com-

ing up, goods that freeze well should be good sellers.

It was noted that, in order to have an abundant array available for those who arrive at the Festival early Saturday to shop, the Women's Division members will be able to deliver their homemade baked goods to the MAC on Friday night between 7:00 and 9:00 p.m. Also, it would be a nice 'extra' to include the recipe with the donated food.

Plans are not yet final for the annual Christmas Tree Lighting ceremony on the Square, but a tentative date of December 1 was set for the event.

The next regular meeting of the Women's Division will be Monday, December 5, at 5:00 p.m. at the School Administration office.

## South Plains News

By Mrs. Murray Julian

South Plains, November 14:

Beautiful weather for several days has made everyone here happy, the farmers, the elevator and gin people, and teachers, pupils as well, for the days have been beautiful, with sunrises and sunsets that light up the whole sky with yellow, orange, and bright colors, then at night the sunsets, with pinks, blues, lavenders, and greens that an artist would find hard to duplicate.

Cotton is coming in to the South Plains Gin of the Lockney Cooperatives here, and Lon Colvin says the turn out is fair. Farmers are working long, hard hours as they take advantage of the nice weather we are having at the present time.

Several members of the South Plains Baptist Church went to Lockney at 3:00 p.m. Sunday afternoon to bring a message in song and a preaching service to the men and women of the Lockney Convalescent Home. Old favorite hymns were played by Mrs. Darla Chappell, and led by Mrs. Ruby Higginbotham, and the Rev. Cecil Osborne brought a sermon on the 23rd Psalm. The men and women enjoy the songs and join in the hymns.

The South Plains Hobby Club went to Floydada Wednesday afternoon where they met at the home of Mrs. Letha Mulder for a program on Food Demonstration by Mrs. Mary True. The group met at 2:00 p.m. and Mrs. Kinslow brought the roll call with everyone giving a good dip recipe. Mrs. Lillie Mae Milton gave the Thought For The Day, and Mary True gave the demonstration of Recipes for the Holidays. She demonstrated cream puffs, eclairs, Christmas bread, and gave instructions and several new recipes for the holidays which are coming up. The last meeting was held at Juanita Teeple's home, and there were only a few present and each brought a painting to discuss. Refreshments this club day at Floydada were served to nine members and one guest. Snacks and dips were served by the hostess, with pumpkin pie and whipped cream, coffee and tea, since this is pumpkin pie time of year. Christmas plans were made and Hobby Club will go to Crosbyton to Mrs. Smith's House for their annual Christmas dinner. Each one will bring a gift to exchange at the dinner. Present at the home of Mrs. Mulder were Mes. Kendall Cummings, Fred Fortenberry, Bonnie Julian, E.J. Kinslow, Grigsby Milton, Cecil Osborne, Harold Hamm, hostess Letha Mulder, and guest demonstrator, Mrs. Mary True. The Christmas luncheon will be December 7, at 12:00 noon, at Mrs. Smith's House in Crosbyton. Mrs. Don Probasco will bring a Christmas reading, "Let's Keep Christmas." Your little Christmas gift should be under \$3.00.

The children of Mrs. Mamie Wood, James and Juanell Teague of Lubbock will be celebrating their 25th wedding anniversary and renewing their vows at the Monterey Church of Christ in Lubbock, on Tuesday, the 29th of November at 7:00 p.m. We extend our good wishes and blessings to them.

Mr. and Mrs. Dorothy and Kendall Cummings left last Friday week ago, for Glen Rose, Texas, where they visited Zach and Ravenell Cummings and their

three children who are at home, and spent the week-end and until Monday with them in their home. They also visited Dorothy's sister and husband, Annabel and Harvey Tumlinson of Pasadena while they were down there.

W.S. Simmons, brother-in-law of Bobbie and Sylvan Kinniburgh is in the Hendricks Memorial Hospital at Abilene since Monday of this past week.

Mrs. Jeaneva Huff, with children Duane and Marlaine, came here to spend the week-end with her parents, Mr. and Mrs. Harold and Mildred Hamm.

Mrs. Lou Burleson gave a report on Dyslexia here at the South Plains School last Thursday with a good attendance present. The teachers and Mrs. Ruby Higginbotham, and several mothers

around the community were present to hear the dyslexia report.

Kevin Staples, son of Mr. and Mrs. Annela and Howard Staples, was eight years old this past weekend and celebrated his birthday with ten little friends by going skating at the skating rink in Plainview, Saturday morning, November 12.

December 1st at the South Plains School there will be a PTA meeting on "Educational Toys." All mothers and others interested in the community are urged to be present from 2-4 p.m. Dec. 1st, the toys are called, "Discovering Toys" and Karen Royal from Plainview will be representing the toys. We urge mothers of children of pre-school to jr. high grades to come learn about the educational toys.

## "Laugh Lines"

BY DON AND SARA PROBASCO  
Bits of Humor, Trivia, and an occasional Word of Wisdom

Some people know how to live everyone's life but their own.

Laugh, and the world laughs with you. Snore, and you sleep alone.

Money: what things run into, and people run out of.

Those who cannot remember the past are condemned to repeat it.

A marriage counselor was listening to a man who'd been married for 10 years: "I used to be very happy. I'd come home from a hard day's work and my little dog would race around barking and my wife would bring me my slippers. Now everything's changed. When I come home, my dog brings my slippers and my wife barks at me." "I don't know what you're complaining about," said the counselor. "You're still getting the same service."

There is nothing more frightening than ignorance in action.

Anyone who forgives and forgets has understanding, compassion, and probably a poor memory.

Don't YOU forget the Lion's Club Bazaar this Saturday at the MAC. See you there.

# Lakeview News

by Joyce Williams

The Lakeview oilwell on the Billy Joe Hambricht from north the gin reports a drilling dept of 8875 feet on Monday evening. Water pressure dropped and the crew feared a leak or break, so they were pulling out the pipe Monday to check it over.

Mr. and Mrs. Joe Thurston returned home this week from trip to Derby, Kansas to see their new granddaughter, Leslie Allene Wise. Parents are Linda and Ken Wise, who also have another daughter, four year old Joanne.

Mrs. Earl Edwards was visited Saturday by her cousin, Mrs. Bob Pumphrey of Happy.

Mrs. Q.D. Williams visited her father, Edgar Jones at Truscott over the week-end. Wheat farmers had their tractors out in the fields, ready to plant wheat, when the heavy mist that turned into rain Friday and Saturday put a stop all plowing. From the South Plains to the Rolling Plains it was the same-too wet that day. Mrs. Williams and her sister, Mrs. Norma Lee of Vernon, visited their sister-in-law, Mrs. Vernon Jones, who is a patient in Wichita Falls General Hospital with chemotherapy burns. She was on her last round of treatment when the chemical was mistakenly injected under her skin instead into a vein in her arm. The result was a third degree burn from finger tips to elbow on her right arm, loss of the flesh and tendons on the arm. She is now undergoing skin grafts.

Mrs. Weldon Hammonds visited in Canyon from Tuesday through Thursday with her daughter, Mrs. Gaye Lynn Carpenter.

Mrs. Wayne McHam is staying busy with her custom dressmaking business, turning out pretty clothes for neighbors.

Saturday evening, Mr. and Mrs. Larry Glasscock visited in Lockney with Mr. and Mrs. Dart Carthel and enjoyed supper with them. Next day, Larry's parents, Mr. and Mrs. Bill Glasscock of Lockney and his grandmother, Mrs. May Reep of Plainview, ate Sunday dinner with Ann and Larry.

Oil news in the Crawlwell-Truscott area may affect Floyd County landowners. Dallas business men are searching the rural West Texas areas for unleased land. They're made mostly in their businesses and need to tax break before the end of the year. They are reported to be as willing to pay \$60 as quickly as \$20, and to sign 6 month drilling contracts without batting an eye so eager to get rid of their money. All the land in the Vernon-Crawlwell-Anadarko

Basin area is leased up, with none to expire for two or three years. Such a pleasant problem to have too much money on hand. Maybe Floyd County land owners with unleased land can help them out.

## Interviews to be conducted

A major research effort designed to record an oral history of the Vietnam era has been launched by the Division of Social Sciences at Wayland Baptist University.

Under the direction of Dr. Estelle Owens, associate professor of history, the project will provide historical source material of the Vietnam experience through tape-recorded interviews and could eventually make Wayland one of the leading centers in the country for research into the Vietnam era.

Plans call for project participants to interview as many persons as possible in the area who were involved in the Vietnam conflict. "Relatively little of this kind of thing has been done, and Plainview sits in the heart of an area teeming with veterans, refugees and missionary journeymen who served in Vietnam," Owens said.

She estimates that there are 40,000 veterans in the Panhandle area. All interviews will be done on a strictly voluntary basis. "We would never attempt to force anyone to talk about it (their involvement in Vietnam) against their will," Owens said.

Owens said the project will likely take some three to four years to complete. "It may be several weeks before we are prepared to begin the interviews, but

we would greatly appreciate any names of prospective interviewees now."

Persons who would like to share their experiences for the project, or who know of someone that might, are urged to contact Owens at Wayland Baptist University (806) 296-5521 as soon as possible.

## Green thumbs attend workshop

For the hundreds of older workers in the Green Thumb senior employment program, responsibility has been a way of life, an essential part of the traditional work ethic that most older persons accept.

But as 65 Green Thumb workers meeting at the senior center in Crosbyton learned recently, responsibility goes beyond caring for jobs and families; it also means being responsible for your own health.

"Working hard is the most important thing in many people's lives," said Green Thumb assistant director John Willingham. "Yet what most of us don't think about is that we can't work if we aren't healthy, and to be healthy we have to take care of ourselves."

Green Thumb provides part time work in public service agencies for low-income persons 55 and over. Texas Farmers Union sponsors the program, which operates in 108 counties across the state.

Willingham emphasized that it is far better to prevent a disease than to deal with it after it has attacked the body, and in a film produced by the American Occupational Medical Association, the Green Thumbs learned how diet, exercise, and good habits can forestall the onset of disease.

Green Thumbs from Floyd County attending the training session were Mabel Foster, Mary Adams, June Van Cleve, Katherine Edwards, Georgia Finley, Allen Rendon, Petronia Ortiz, Andres Solis and Lee Campbell.

## CENTER NEWS

Nov. 13, 1983: Hello, everybody! I'm home again after a month's visit down state. Mostly at Hubbard with my daughter and family. Didn't feel too well at first, and made two or three trips to the hospital. Now I feel better. Had a good time too. While there Margaret and two children and I made a trip to Hillsboro to see my brother's widow, Mrs. Mattie Matthews, of the Hillsboro Rest Home. She looked so pretty and seems better. She, like some of the rest of us, had a broken hip but is coming out of it we hope.

One Saturday we all went to the Homecoming at Brownwood for the Howard Payne University, where the Ryman children go when they finish high school. It was a nice day and we had a good time. I have three grandchildren there now.

I have another great grand. Gretchen and Elmer Shore have a son, Andrew Louis, who arrived October 27 in the Albuquerque Presbyterian Hospital, a few hours before his father arrived from Pakistan. I wonder if I'll get to meet Louis. That makes four for me. Sarah's and Doug's girl, Sara Emily, arrived in Hubbard Hospital in September, a beautiful baby. That family lives in Lubbock.

Margaret and I started home late Tuesday headed for Abilene, two of her daughters live there, to spend the night. After supper at a cafe, Margaret's car wouldn't start without help, so we left it near a shop to be fixed the next day. But it would be ready Wednesday at 4 p.m. So we had time to see Donna and Richard Bird, who were not home at first. We had dinner with them. A good time anyway.

On the way north the cotton crop around Snyder looked awful. The farther north the better it looked.

We arrived at Sarah and Doug Chandler's after dark. We enjoyed

seeing two of my great grand and parents again. Margaret left for home right after dinner Thursday and after school the Chandlers brought me home.

It was good to be in Calvary Church again Sunday morning, but we missed the Paynes who are sick with something like flu. We hope they will soon be well. The pulpit was filled by a young man from Wayland.

Mrs. Henry Brewer is sick since Saturday.

Wiley Rogers is doing pretty well. Alma Ruth Nelson was in church Sunday.

Mrs. Anthony Latta visited Mrs. Green this Monday morning.

I counted at least 20 full lakes between Lubbock and Floydada. How green the grass is in November!

## Emergency loan applications should be submitted early

Secretary of Agriculture John R. Block advised eligible farmers to submit promptly their application for drought assistance from USDA's Farmers Home Administration, even if their crops are not yet completely harvested.

"I strongly encourage farmers in designated counties who think they are eligible for emergency loans to apply right away so we can begin processing their applications," Block said.

"Even though a harvest may not yet be completed or exact losses certified the applications may be filed now in county Farmers Home Administration offices. Once that is done, farmers can wait until losses are determined before providing final information to support

their application."

If they wait until the filing deadline—six months after the county is designated—farmers risk delays in receiving loans because of the rush of last-minute applications, the secretary said.

Block also assured farmers they would not be adversely affected if portions of the disaster loan program are changed.

"I want those farmers who do file early to be assured that if any changes should be made in the authorizing legislation, we will support such changes being made retroactive to the time the designations were made," he said.

## Firewood can spread oak disease

Homeowners need to be cautious as to where they get their firewood for the coming winter season.

Firewood infected with oak wilt can spread the disease to oak trees in your yard.

Oak wilt disease is common in many areas of Texas, and the fungus which causes it can be transported in firewood. Wood-boring insects may also be present that later emerge and carry disease-causing spores to nearby trees.

While it's best to get firewood from areas not having oak wilt, it's not always possible to know the source. You

should stack firewood away from oak trees and cover the stack with clear plastic, sealed around the edges. This will prevent the emergence of wood-boring insects which can spread the disease.

It is also a good idea to use all firewood during the current winter season. Holding firewood over through the warm season allows the emergence of insects that carry disease-causing spores.

This information comes from Dr. Wendell Horne, Extension plant pathologist.

## Deregulation affects producers

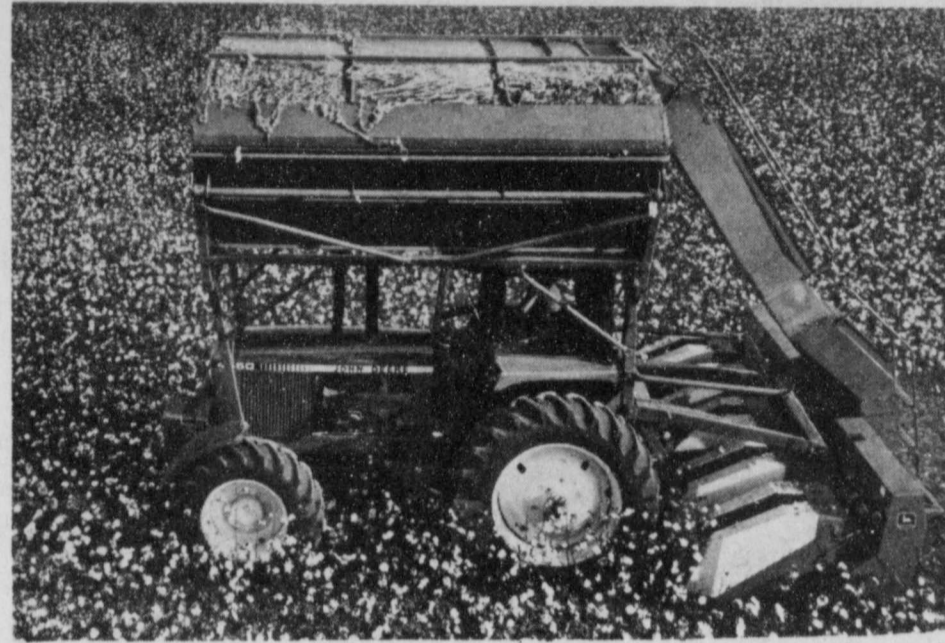

The national fertilizer industry uses about four times more natural gas for nitrogen production than farmers do for irrigation and crop drying. So obviously, any increase in natural gas prices from deregulation will affect fertilizer costs as well as fuel costs for crop producers.

If the Natural Gas Policy Act remains in effect for decontrolling gas prices, the current price may double by 1986. In the event of such an increase, Texas farmers would probably fare better than other U.S. producers.

First of all, Texas fertilizer production plants in the Gulf area are accustomed to paying for expensive intrastate gas and won't incur as high a price increase as users of interstate supplies. Also,

Texas plants have newer, larger and more efficient operations. Furthermore, the Gulf area plants have access to cheaper imported ammonia from Canada, the Soviet Union, Mexico, the Caribbean and the Middle East. Import competition among these regions will help slow down the rise of fertilizer prices.

All in all, Texas farmers will pay 10 to 15 percent more for fertilizer by 1985. The cost of natural gas for irrigation and crop drying is projected to rise six to nine percent in 1984 and up to 20 percent more than the current price by 1986. However, lower prices for other fuels will help offset the increase for natural gas and keep farmers' total energy bill down for 1984.

HERE'S THE ONE-OF-A-KIND tractor-mounted stripper. The new 4- or 5-row John Deere 740, introduced at a special announcement meeting in Lubbock, Texas. With a new 740 teamed with your high-horsepower tractor you can reduce harvesting cost by up to 51%.

## New cotton stripper introduced

Floyd County Implement, John Deere dealer in Floydada, has just returned from a special announcement meeting in Lubbock, Texas where a big new cotton stripper was introduced. It's the John Deere 740, a one-of-a-kind 4- or 5-row tractor-mounted stripper.

This new stripper is designed to be teamed with a high-horsepower tractor, and is said to reduce harvesting cost by as much as 51 per cent. In a comparison test across 1500 acres, John Deere engineers reportedly found that a new 4-row 740 mounted on a 4450 tractor with front-wheel drive costs as little as \$15 per acre to operate. A 5-row version on the same tractor costs only \$14 per acre. They figured it costs about \$30 per

acre to harvest with two tractor-mounted 2-rows (tractors without front-wheel drive).

To keep this cost-cutting harvester on the row longer, it comes with the largest basket in the industry for a tractor-mounted stripper—706 cubic feet. And an optional basket compactor and dump control makes it easier to fill and unload. They 740 comes with a 4-row header that's adjustable for 36- or 40-inch rows. This head can be equipped with an exclusive short or long modular crossauger extension to let the 740 strip on five 40-inch rows and most popular skip-row patterns. The 740 utilizes the same exclusive low-profile units as the John Deere 740 self-propelled stripper.

## Corn remains in release status

Corn entered in the farmer-owned grain reserve from October 6, 1981, through June 30, 1982, will remain in release status through November 30, according to a U.S. Department of Agriculture official.

Everett Rank, administrator of USDA's Agricultural Stabilization and Conservation Service, said the corn remaining released is in Reserve IV. Reserve V corn, which is corn placed in reserve after July 1, 1982, and the oats and sorghum which had been in release status, have been taken out of release, Rank said.

Rank said the decision on the reserve commodities was made following a review by USDA's Commodity Credit Corporation of their average market prices Nov. 1, as reported by USDA's Agricultural Marketing Service, adjusted to reflect the market place received by farmers.

On November 1, the adjusted price for corn was \$3.24 per bushel above the release level of \$3.15 for reserve IV corn but below the \$3.25 release level for reserve V corn. The approximate adjusted price for sorghum was \$4.92 below the reserve IV release level of \$5.36. Oats had an adjusted price of \$1.63 per bushel below the \$1.65 reserve release level.

Data used by CCC include daily prices compiled by the Agricultural Marketing Service, as well as the month-end report of prices received by

farmers issued by USDA's Statistical Reporting Service. This end-of-month report shows the previous month's average price and the current mid-month price.

Kansas City, Minneapolis, Omaha and St. Louis for corn; Kansas City and Texas High Plains for sorghum, and Minneapolis for oats.

For reserve IV corn loans storage payments will remain stopped and interest will continue to accrue. Storage payments will resume and interest accrual will stop for reserve V corn and all sorghum and oats loans.

## Amarillo agribusiness committee sets seminar

"Changing Times in Agriculture" is the theme of the Eighth Annual Golden Spread Agribusiness Seminar and Trade Show scheduled for November 18 at the Villa Inn.

The day-long program beginning at 8:30 a.m. with registration will focus on the areas of utilities and energies, commodity forecasts, estate and tax planning and the necessity for new innovative crops, namely grape production in the 80's.

The chamber's agribusiness committee has sponsored this seminar annually and in 1982, a trade show was added to the program. Traditionally, the seminar was designed to equip food and fiber producers in the area with current information about important issues in the field of agriculture. This year's program is no exception.

Representatives from four local and area utility and energy companies will provide a panel discussion giving participants an opportunity to question the recent and future trends in these areas.

Gary Stevens, Director of Area Relations for Southwestern Bell; Harry Neel, Vice President for Energas; Gary Gibson, Director for Southwestern Public Service and James Hull, Manager of Deaf Smith Cooperative in Hereford will make up this panel.

Current situations and three month predictions in the areas of grain, fiber and meat markets will be presented during a panel discussion by three Extension Economists from Texas A&M University System.

Dr. Ronald Knutson, Extension Economist in Marketing and Policy will discuss agriculture policies in general. Ernest Davis, Extension Economist in Livestock Marketing will address meat commodities, with emphasis on beef and pork. Edward Smith, Extension Economist in Grain Marketing will talk about grain and cotton predictions.

Wayne Hayenga, a member of the Farm and Ranch Management Section of Texas A&M will provide participants with important and timely information about estate and tax planning.

Grape production is becoming a popular crop in Lubbock and surrounding areas. Studies reveal that this innovative crop can be grown on the High Plains. Dr. Bill Lipe, Associate Professor for Vegetable and Fruit Research, Texas Agriculture Extension Service Experiment Station, Lubbock, will present the latest research and "how to" on grape production. Combined with his presentation will be a wine-sampling of Texas made wines from the Llano Estacado Winery in Lubbock. John Lowey, Vice President, General Manager of the winery and vinecultivist himself will provide information about the wines during the session.

The traditional "Top-Hand" Award will be presented to a Panhandle

## Veterans urged to file report

According to Margaret Herrera, Veterans Service Officer for Floyd County, a large number of Veterans Administration beneficiaries will soon be required to complete the annual income report. Required to provide the annual income accounting will be all veterans receiving disability pension, all widows and children in receipt of death pension benefits, and all parents in receipt of dependency and indemnity compensation following the service-connected deaths of their veteran sons or daughters. The income report will be mailed to all of the VA recipients on November 1, 1983. The completed report must be returned to the Veterans Administration prior to January 1, 1984. Failure to

return the report will result in termination of the benefits being paid. All persons needing assistance should contact their local Veterans Service Officer or veterans organization representative. All information entered on the card should be accurate, since most of it is subject to verification by the VA. It must be remembered that the Veterans Administration always verifies with the Social Security Administration the amount of Social Security benefits a person is receiving, as well as amounts paid to a person by many other sources. Incorrect income information can cause delays in the processing of the reports, and possible terminations and overpayments.

## Recipients get lump sum check

By Terry J. Clements  
A common topic among persons discussing retirement is the Social Security "back payment" or "lump sum check". Normally, what is being referred to is the accumulation of payments to an individual for retirement benefits retroactively. However, changes in the law over the years and more sophisticated retirement planning on the part of individuals has made the retroactive check somewhat of a "vanishing breed". Currently, back payments for retirement and survivors benefits are limited to six months. In other words, benefits can potentially be paid for the past 6 months if all requirements are met except the filing of an application.

The result would be a partial payment to be received the next year, when the beneficiary files an annual report with Social Security. There are few exceptions to this limitation. Disability applications can be retroactive for 12 months. However, no payments can be made for the 5 month waiting period required in disability cases. If you have a question concerning retroactive benefits or other Social Security matters, please call us at 293-4371. If you need to visit our office our address is 1401-B West 5th Street in Plainview.

**The amazing electric heat pump.**

Most heating units are inefficient because they have to create heat.  
There's one that doesn't... the electric heat pump, one of the most efficient ways to heat and cool your home. In the winter it gathers heat from outdoors to warm your home... and in the summer it reverses itself to become an air conditioner.  
Helping you use electricity more efficiently is another way we're working to justify your trust. For more information, contact your Southwestern Public Service Company manager.

## GT program held at WTSU

About 75 public schoolchildren from 11 Texas Panhandle communities will conclude the fall session of the Gifted and Talented Institute at West Texas State University with a program on Saturday, November 19.

Floydada students participating in the fall session are Travis Bishop, Michael Hicks and Tracey Warren.

During Saturday sessions, the students from 16 area schools have participated in courses involving perceptual motor skills, art, outdoor skills, creative dramatics, science, computers and the Panhandle-Plains Historical Museum on campus. WTSU faculty and staff members teach the courses.

They will demonstrate skills learned during the sessions and exhibit art work at 1 p.m. Nov. 19 in the Activities Center Ballroom.

Participants and their parents have attended the sessions from schools at Hart, Amarillo, Floydada, Canyon, Pampa, Tulia, Hereford, Dimmitt, Friona, Dawn and Silverton.

The 1984 spring session of the Gifted and Talented Institute will be hosted jointly with Region XVI Education Service Center in Amarillo. Each Saturday from January 28 through April 7, students and their parents will participate in course programs similar to the fall schedule.

## Better Business warns against magazine salesmen

The Better Business Bureau of the South Plains has received calls from all over the South Plains area regarding a company called Trade-Tech out of San Diego, California going door to door selling magazine subscriptions. As far as this office knows, none of the representatives of this company have permits to peddle in Lubbock.

According to the BBB/San Diego, this company is too new in their area to issue a report, however; they also have them listed as Star Gazers out of Las Vegas, Nevada. A check with the BBB/Las Vegas reveals that Star Gazers is owned by Lonnie Devine and the company has the same address and

principals as a company called Magnet and a company called Star Press International a/k/a National Press & Associates. Bureau files on National Press & Associates shows that the company is out of Florida and that the Orange County Circuit Court issued a default final judgment against Lonnie Devine and David L. Combs, owners, charging them with non-delivery of books and magazines, failure to give refunds, and misrepresentation. They have also been ordered to relieve themselves of any interest in Star Press International and National Press & Associates, must reimburse injured consumers, and forfeit all property.

Representatives of Trade-Tech are presently in the Lubbock area selling their magazine subscriptions and based on Bureau files, BBB/South Plains advises caution in dealing with this company. Company representatives are requesting checks to be made out to "CASH" so if you were to have a complaint, you would not have proof that you gave the check to the company.

If you are approached by a representative of Trade-Tech or any other company, ask to see their license to peddle (they should also be wearing an i.d. badge in Lubbock) and if they cannot produce such i.d., call the Police Department immediately.
