FRAME MAKER STAN McCLENDON and artist Penny Golightly display their art work given to the Floyd County Museum last week. The painting, an oil by Ms. Golightly, is of the old Massie home west of Floydada. The home was built in the late twenties by W.A. Massie. Mrs. Troy Massie lives in the house now. McClendon donated the frame for the painting. The painting will be added to the art gallery of local artist started recently in the Museum.

By Ken Towery

You should know, when we comment on state, national, and international events and issues, upon what basis we construct our comments, and upon what basis we make our decisions. In a way it is all very simple. We believe that liberty and freedom is to be desired over the absence of liberty and freedom, no matter what form that absence takes, and no matter what name it goes under. Socialism, communism, facism, are merely varying forms, it seems to me, of the absence of freedom and liberty. And if we accept the proposition, as do I, that man naturally aspires to freedom and liberty, we must also accept the proposition that an all-powerful government, one powerful enough to grant or deny that freedom and liberty, is to be avoided at all costs. So you will see us champion the idea of strong local governments, and oppose the concept of strong central governments. You will see us champion the cause of the man who climbs the coconut tree, as it were, as opposed to the cause of the man who merely sits under the tree hoping that a nut will fall now and then, or that someone else will climb the tree and knock down a free meal. We will oppose demagogues (no matter where they appear in our political community) and support men and women of reason who seek public office to serve the common good.

We will use the columns of this newspaper to help improve, to the extent we can, the economic life of the people of this county. We know full well that in an agricultural county, such as this, much of our economic well being depends upon just three things; hard-work, the weather and the agricultural policies of the federal government. But there are things a community can do to help itself, if it pulls together for a common purpose, that have little to do with either the weather or the federal government, and have all to do with the character of the people themselves. It is the character of the people here that, in the final analysis, brought us to this community and this newspaper.

And finally, we want you to consider this to be your newspaper. To that end we want your thoughts and suggestions concerning how we can make it better serve the community. We will welcome your letters commenting on problems or issues raised, or left un-raised, in our coverage of events or issues affecting life in our community. We do not believe, for a moment, that we have all the answers. But working together perhaps we can make progress.

## What are you thankful for?

These Thanksgiving thoughts were written by 6th grade reading students. They are original and express the feelings of 11 and 12 year olds concerning Thanksgiving.

### WHY I'M THANKFUL

By Jason Nichols  
My reason for Thanksgiving is that at spelling I'm a whiz.  
At math I'm not so hot.  
My history grade is shot.  
But that's the way it is.  
I'm thankful for freedom and health.  
And for my fathers not having wealth.  
For then I appreciate what I get.  
And for the dry season as well as wet.  
And my learning not by stealth.  
I am thankful on my part.  
For my continuing interest in art.  
My language still needs improvement.  
My reading needs more involvement.  
And my teachers touch my heart.

### THE MEANING OF THANKSGIVING

By Miki Schneider  
As we think of the Thanksgiving holiday, we are reminded of how the Pilgrims came to America on the Mayflower. Pilgrims and Indians were also to learn from each other and enjoyed each other's company during the first Thanksgiving.

Many times we take each other for granted, not realizing how thankful we should be for our family and friends. We should be willing to lend a helping hand just like the Pilgrims and Indians. Even when Thanksgiving ends, we should keep that spirit of sharing throughout the year.

### THANKSGIVING THANKS

By Gracie Mercado  
I am thankful for living in this world today. Which makes each person give thanks to God. For God is a wonderful and powerful person who gives us life to use and to care for.  
I am thankful for the sunshine that enters through the doors of nature. For trees of bonny apples, peaches, pears, oranges, and leaves.  
I am thankful for the skies above us that look like sheets of blue. For the animals that roam across the skies, fields, and forests, too.  
I am thankful for the rain which brings the colorful rainbows that glimmer in the sky.  
I also give thanks and glory to God for giving us land of precious hills, valleys, and plains.  
Also for the colossal feasts we have at Thanksgiving.

### THANK YOU LORD

By Shannon Paty  
Thank you lord for all you've given us.  
For families who love and take care of all our needs.  
For nature all around us and fluffy white clouds in the deep blue sky.  
Thank you lord for rain and sunshine that makes the world beautiful.  
For little children who love to play, and parents who love and care.  
For old folks so wise and cheerful.  
Thank you lord for the animals that bring us joy and provide food for all girls and boys.  
For the sun and moon and stars that govern both day and night.  
Thank you for the freedom you've given this land so that everyone can take a stand.  
For caring friends who pick you up when you fall and bring joy and cheer to all.  
Thank you lord most of all for being there when I call and loving me what ever I do, for I know that I will always love you. Amen.

### THANKSGIVING THANKS

By DeLinda Jackson  
God has made many wonderful things for which I love and care.  
The precious things that make this world a better place to live.  
For golden harvests in the fall and furry creatures running down long hills.  
Friends who help make the world go around and children playing on old, colorful country lanes.  
After their work as a farmer is done they get away from awesome fields and soft green pastures to lovely valleys to be with loved ones.

## South Plains News

by Murray Julian

South Plains, Nov. 21: Cold rain fell here Saturday morning, November 19th, with dark cloudy skies, and we though we were in for a wet week end; but the sun came out during the afternoon, and a beautiful week end followed, even though there was some hard winds. With a few days of good weather maybe the farmers will be able to gather their cotton, and get the wheat sown. With Thanksgiving coming on Thursday many farmers will still be in their fields. However, families will take times to enjoy family gatherings, and a time of giving thanks to their Maker for all the great and wonderful world and the things He has showered upon us all. We could not count our blessings, but we do humbly give thanks.

Sunday visitors at the South Plains Baptist Church for morning services were Mr. and Mrs. Bryan Karr who live near Dallas, and are here for a few days visiting relatives. They were dinner guests at the home of Mr. and Mrs. Raymond Upton on Sunday. Others at the church during the evening church services enjoyed a beautifully decorated cake, coffee and tea, in Fellowship Hall, as Rev. Cecil Osborne was given a birthday celebration.

Carlene Johnson presented the cake she has made and decorated. Carlene's birthday and Rev. Osborne's are the same day, Nov. 16th and Janis Julian's is Nov. 15th.

Mr. and Mrs. Early Pritchett came home last Monday from their summer stay out in Ruidoso, New Mexico. It was good to see them back in church services. We are glad, too, to hear that her sisters, Mrs. Jo Y'Blood is doing well from her knee surgery she had last summer.

Mr. and Mrs. Bobbie and Sylvin Kinnibrugh are back home again this week after she as gone most of last week, at the bedside of her brother-in-law, W.H. Simmons of Truscott, who was in the Hendricks Memorial Hospital in Abilene, where he was undergoing tests. They brought him back home over the week end to his home in Truscott. Sylvin and Bobbie also spent one night with Sylvin's father, J.A. Kinnibrugh.

Some of the plans for Thanksgiving among our people: Mrs. Ruby Higginbotham will have her sons, Bud Higginbotham, Brett and Shea of Lubbock, the Alton Higginbothams, and children of Floydada and Mrs. Nell McClung of Floydada and from Amarillo her sister, Edith Magnussen and a brother, Mr. and Mrs. Warren Cypert.

Mr. and Mrs. Nathan Mulder and children and Mrs. Letha Mulder plan to go to Clovis, New Mexico where they will spend the Thanksgiving holidays with Kathy's grandparents, Mr. and Mrs. W.B. Blalock.

Mrs. Helen Teeple was hostess for a Christmas Home Interior Party at her

home on Thursday, November 11, at 2:00 p.m. with Pam Hill being the demonstrator for the party.

Mrs. Bruce Julian left for home in Perryton on Thursday morning after spending several days last week visiting here with her folks, Mr. and Mrs. Edell Moore, and with Bruce's folks, the Kendis Julians and Mrs. M.M. Julian.

Several people from our vicinity went to Floydada last week to see the play, "Saga of Katy and the Gambler Lady," and thoroughly enjoyed it, either on Saturday night for the show and a dinner, or Tuesday night with the show and a dessert. Our own Mrs. Sara Probasco was director for the melodrama.

Remember Hobby Club members that the Christmas Luncheon and gift exchange will be on December 7th at Mrs. Smith's White House in Crosbyton, at 12 noon. Mrs. Sara Probasco will be bringing a reading, "Let's Keep Christmas," at the luncheon.

Dr. Fred Howard will be teaching from his book, "Guide Lines for God's People", written from the book of I Corinthians, on November 27, and the study will be going on through the following 4 nights, at the First Baptist Church in Floydada. There will be those from here who would like to take advantage of the study and who will want to go there for the study.

Visiting with Nathan and Connie Johnson, Tracey and Troy for the Thanksgiving Day festivities will be her parents from Floydada, Mr. and Mrs. R.Q. Botkin.

Remember there will be a Finger

Printing held by the PTA at South Plains School on December 7, put on by the Junior American Citizens program. The children will be finger printed on this day. This is a PTA project.

Mrs. M.M. Julian plans to go to Roscoe for the Thanksgiving holidays and will spend a few days with her children, Mr. and Mrs. Terry and Leona Julian. Others who plan to be there will be Dee and Bill Barnes and Mrs. Julian's great grandson Jayson and Dickie Julian all of Commerce.

Mr. and Mrs. Harold Hamm have gone to Arlington to visit with their daughter and family. A grandson, Aaron Berkes, had his birthday at the parents are Arlaine and Mike Berkes of Arlington.

At this Thanksgiving time I wish to extend best wishes to everyone and may you all have a happy, wonderful, grateful Thanksgiving. May we all give grateful thanks for a free land, for the privilege of living in America and our right to worship our God as we choose.

Here are some from pupils at the South Plains School. We could not print all of them, but all were so good.

WHAT I AM THANKFUL FOR

BY 5th & 6th GRADES

I'm thankful for having a family, cause I can go places with and I love them. I am thankful for everything and everybody in this world, so we would not be the only ones on earth. I'm thankful for electricity so at night we could see where we are going so we won't bump into them. I'm glad for the Junior American Citizens so we will know about presidents from long time ago, and things like that.

by Ricardo Gonzales  
I'm thankful for a bunch of things, like I'm thankful for life, God and Jesus and men, and for all the things, for if we didn't have some of the things we would be lonely, tired, grumpy and bored.

by Brian Teeple  
I'm thankful for my teacher because she shows me how to do math. I'm thankful to Mrs. Sanders for she gives me food. I'm thankful to read and write and speak to others because I learn lots of things. I'm thankful to all the teachers who help me, and for Mrs. Staples for she takes me to school. Miss Moreno is nice and good to me, and she teaches me to do times and how to talk English. I'm thankful to be healthy and to keep my body clean and God keeps me alive.

by Jorge Solis  
I am thankful for my family because they give me support when I need it. I am glad I live in America because I wouldn't live anywhere else. I am thankful for the Floydada Hesperian because I would not know things. I am thankful for God because if it was not for God I wouldn't be here.

American Telephone and Telegraph Co. and the Plan of Reorganization which was approved by the United States District Court on August 5, 1983, Southwestern Bell Telephone Company and AT&T Communications of the Southwest, Inc., have jointly filed with the Public Utility Commission of Texas an Application for and Notification of the Transfer of Facilities and Voting Stock.

This application affects the provision of interLATA service throughout the State of Texas. Effective with the implementation of this transfer of facilities, which is expected to be on January 1, 1984, Southwestern Bell will offer telephone service only within certain geographical areas defined as LATAs (intraLATA) in Texas. Concurrently, interLATA communication service presently provided by Southwestern Bell will be provided by AT&T Communications of the Southwest, Inc.

For purposes of this application, AT&T Communications of the Southwest, Inc., has filed a Tariff with the PUC containing rates applicable to all of its services in Texas at the same level as Southwestern Bell's current Tariffs. Certain adjustments necessary to implement divestiture have been made to the structure of the Tariffs.

Persons who wish to intervene or otherwise participate in these proceedings should notify the Commission as soon as possible. A request to intervene, participate, or for further information should be mailed to the Public Utility Commission of Texas, 7800 Shoal Creek Boulevard, Suite 400N, Austin, Texas 78757. # Young mother/teacher thankful for country

Many things run through one's mind when thinking of something to be thankful for.

All of us have been blessed in some way. Most of our blessings are taken for granted. These common everyday blessings are those of which one young woman in Floydada are most proud of.

Sally Lyles, daughter of loving parents, "A" student raised in Ballinger, Texas, came to Floydada in 1968. A new graduate of Texas Tech, she was full of dreams and great expectations. A patriot in the truest sense of the word.

Today she is still full of hopes, dreams and great expectations for her students. True she isn't newly graduated but she has experienced things that

have made her wise beyond her years.

She can give many things she is thankful for but at the top of that list is "the privilege to live where we live." She said she feels very fortunate to live in the United States of America and Texas.

"I feel we take too many things for granted. We (our present younger generation) have never really had to fight for "our" country." Feeling "we have failed to instill the kind of patriotism deserved of their country in our young people." She hopes to give them a small part of her love for her country.

Her caring for her students and others around her stems from her

childhood. Her father died when she was a sophomore in high school. Sally learned at a young age to take the most she could from everyday. To not waste one drop of life.

She thanks God for the parents she had. "They gave me morals and high standards. We were not rich but these values were worth so much more than money."

The late Helen Dunlap, another lady that loved life more than anything else, introduced Sally to Tommy Lyles in 1972. Six months later they were married. More than anything the two of them wanted a family, but nine years past and still there were no children. They had virtually given up hope when Sally prayed a prayer asking the Lord to please send them a child soon if they were meant to have children. Two months later Sally was pregnant.

Their son Jeffery, named after her late father, was born nine months later. She said she "enjoys every minute with Jeffery."

"Jeffery is truly a 'miracle.'" Sally developed "toxemia" while she was pregnant and the doctors told her that there should be no more children after Jeffery.

One year later, a pathologist in Lubbock found a malignancy in one of Sally's breast. The doctors checked and double checked. They performed surgery removing the malignancy completely.

JUST UP FROM A NAP Jeffery Lyles sits with his mother, Sally in his room, thankful for each other.

TSTA MEMBERS were treated to a chicken dinner last Thursday night at R.C. Andrews cafeteria. The group exceeded their goal of 100 members gaining a total of 104 members for the year. Pictured are President of local TSTA Al Galloway, June Cox, District 17 TSTA President, and Uniserv Director Bob Moore of District 17 TSTA.

## Cook of the Week

There is no time like the holidays to try out a new brand recipe and the cook of the week, Estelle Gilbreath has shared a recipe that is easy and nutritious.

Mrs. Gilbreath is a busy, very active woman. Living in Floydada for the past 32 years, she works with her husband and brother-in-law at Gilbreath Exxon

here in Floydada. She does everything from wash cars to keep books for the service station and besides that she is an active member of her church. She is Treasurer for the Calvary Baptist Church and a member of the WMU. She enjoys crocheting and also raises an abundance of African Violets in every shade.

Her recipe for All Bran Dinner Rolls was given to her by Francis Miller of Floydada. Mrs. Miller makes the bread into loaves but Mrs. Gilbreath prefers to make them into dinner rolls.

Mrs. Gilbreath said bread was her specialty. Her oldest son Gary fancies these rolls over anything else that she might make.

Excellent for carrying to church socials and family gatherings these rolls may be browned lightly wrapped in plastic and frozen. When ready to use, thaw, then warm.

Bill, her husband, loves these rolls. She said she would be taking these rolls to the J.W. Gilbreath home where they will be planning Thanksgiving Day.

Mrs. Gilbreath said she was most thankful this holiday for her health and the health of her family. "Without your health you have nothing," she said.

**ALL BRAN DINNER ROLLS**  
 3 cups warm water  
 3 pk. dry yeast  
 1 cup all bran cereal  
 3/4 cup granulated sugar  
 1/2 cup Mazola corn oil  
 1 Tbs. salt  
 8 cups Gold Medal flour  
 Dissolve yeast in warm water. Add All Bran, sugar, and salt. Mix well. Stir in four cups flour. Mix well. Add corn oil and mix well. Add remaining cups of flour. Mix well. Pour out onto floured board and knead well. Place in a large covered container and let rise in a warm place 1 1/2 to 2 hours. Dough should be at least twice the original size. Place on floured board and knead once more. Pinch off 2 inch balls and dip in corn oil and place on a well greased pan about 1 inch apart. Cover with a cloth and let rise in a warm place for 2 hours. Bake until golden brown at 350 degrees. Makes about 5 dozen.

## Kids give thanks...

Continued From Page 1

Where turkeys are killed, for the Thanksgiving feast.

And great beasts are put away. The fathers of our country, dear, are remembered with great humble thanks.

This is what I'm thankful for and what's so dear to me.

### WHAT I'M THANKFUL FOR

By Mychelle Harris

I'm thankful for the flowers that grow.

They make the earth so pretty and bright

I'm thankful for the green grassy meadows

They feed our cows and horses

I'm thankful for the teachers who teach us

Very patient, sweet, and kind

I'm thankful for all of my friends who treat me great

They are people I'll never forget

I am thankful for God, He's brought me many things

One special thing he's brought me is my brand new cousin, one month old.

## Age makes no difference on Thanksgiving day

There are many things we as Americans have to be thankful for and there are three young women at the Floydada Nursing Home that feel they have a lot to be thankful for.

Louise L. Clark was born November 23, 1889 on a farm in Lone Elm, Arkansas. As a girl she moved to this area and has lived most of her life in Floyd County.

When asked if there was one thing that stuck in her mind she recalled the Thanksgiving she had to pick cotton all day. She said "we just had ordinary food for supper that night, oh, we might of had a pie or a cake but no turkey or trimmings like we have today."

"I'm worshipful to God every day of the world a thousand times a day for being in as good health as I am."

She is proud of her 94 years young and will tell that to anyone.

Mrs. Addie Lindley has lived in Floydada the past 31 years. She has been a guest of the Floydada Nursing

Home the last year.

She said that most Thanksgiving fare as she was growing up and raising a family was "whatever they could catch...perhaps a chicken or a ham a good pie and some biscuits."

She also is most thankful for her health.

She and Mrs. Clark are roommates. Together they enjoy their life at the nursing home and help take care of each other.

What does one learn from all these experiences? Sally said she learned "that God is in control and that nothing is certain so live each day to the fullest and enjoy every little bit of everyday."

This Thanksgiving be thankful for all those small wonderful things given us without even asking. Laughter, tears, babies, a husband, a wife, a mother, a father, a country...

longer with us. "Ma!" I screamed. "Where's Pa?" "He has gone to kill some animals for us to eat so we won't starve," said Ma. "We have all we need plus the Lord's care for us, and that's all we can ask for. Just then Pa walked in. We could tell by the look on his face the storm had gotten worse. We had plenty of food now that Pa had come back. We had supper and then Ma read the Bible to us. We thanked the Lord for everything, especially a shelter, in the time of the storm.

For the next few weeks, I was always the first one up in the morning and the first one to start breakfast.

"Rise and shine," I said as I poked everyone out of bed. "The Lord has provided us with another beautiful day, and it even has stopped snowing." We all said a prayer to thank the Lord for the beautiful day He has given us and then we ate. Pa decided there was too much snow to travel. He also gave us an estimate of 20 inches of snow piled up outside.

Members answered roll call with "My First Home Away From Home" which ranged from a one room apartment and four rooms and a pat to more luxuriant accommodations.

Mrs. Floyd Bradley introduced the program "A New Home in a New Country" brought by Mrs. L.D. Simpson.

Mrs. Simpson entered dressed as a Pilgrim and told of the life of a woman as she endured the storms and hardships as she traveled to America on the Mayflower. Then she told of the happiness as they sighted land and of putting foot on American soil. That first winter as they struggled to build homes in the bitter cold and how often the death angel visited the little group of colonists.

Summer came and after a wonderful harvest they had three days of Thanksgiving festivities with ninety Indians sharing the event with them.

Removing the Pilgrim cap and apron Mrs. Simpson reminisced about her old Negro mammy that taught her to be thankful as the old woman gave her thanks.

"Much oblige, dear Lord for my vittles."

"Much oblige, Lord, for another day."

"Much oblige, Lord, to be able to do this housework."

Much oblige, Lord, for such fine

## Floydada Nursing Home Happenings

By Winona Jackson

Monday was hair fixing day for the ladies. Doloras and Leona were busy fixing hair and nails. After "coffee time", the Assembly of God group were here and Ira Sullivan sang a solo for the residents. Dorothy Kerr, our dietitian, made everyone laugh during exercise class by giving us her version of the "hoky poky." Bennie Wilson told her she could lose five pounds, shaking that much! Kim was here on Monday afternoon with Music Therapy, games, music and fun for everyone.

On Tuesday, Mr. Richardson was here to lead devotions for everyone and he always brings a huge bag of bananas...for the banana break. Shirley Varner led the Bible Study on Tuesday afternoon. This was a special treat for the ladies and gentleman who enjoy this time of sharing. Thank you, Shirley.

On Wednesday, Bro. Zumwalt and the City Park Church of Christ Choir led singing and devotions for us. The residents look forward each morning to "Church Time." This is a special time of fellowship, singing and inspiration for them.

Clara McNeeley received a package of lovely things from her son, Vernon. Clara will look so pretty. Wednesday afternoon the bingo players were ready for an afternoon of seeing who wins the bingo games...and the bananas!

On Thursday, the Rev. Earl Blair led the devotion time for us. The ministers who make the time to come out and be with us are all so appreciated. Thursday afternoon our friends from City Park Church of Christ hosted the monthly birthday party. Ann Brown and Una Clark were the "birthday girls." Tanya Covington joined her grandmother, Mrs. Clark and Sue Guthrie joined her sister, Ann, for the celebrations. Jessie Stewart and Letha Lightfoot were also

guests. Everyone enjoyed cake, punch and picture taking.

Friday Faye Benson and Gladys Widner, representing First Baptist Church, led the devotion time and singing for us. The residents enjoyed Faye's singing a lovely song for them. Friday afternoon there was a large crowd of residents watching a Walt Disney movie "Old Yeller"...with punch and POPCORN!

We received a nice surprise this week...Wendy Jackson called from her home at a San Saba Nursing Home to say "Hello" to her friends here. Wendy is doing fine and will be going to her home in January...to stay! Everyone here was so happy to hear from Wendy and were so pleased with Wendy's good news.

The Grace Sunday School Class of First Baptist Church is making lap robes for the residents. Cleo Goins and Mrs. C.M. Meredith brought the ones which they had made to us this week. They were so pretty and were very quickly on the laps of two little ladies.

Our thoughts are with Bonnie Howard this week. Orland's death was a sad time for all of us. Bonnie will have caring concern each day to help make her days easier.

Over 150 girls between the ages of 8 and 12 auditioned and 45 were accepted. Since 1962, the choir has performed at Westminster Abby, the Vatican, Concert Hall in Hong Kong and in 28 other countries.

They have been on national TV in Tokyo and Mexico.

The Texas Girls' Choir has performed before President Yen in the Republic of China, entertained on the J.F.K. Aircraft Carrier in Greece and at the White House.

They have sung before king, queens and presidents; made dozens of major network television appearances; cut 53 record albums; presented 100 to 150 live concerts annually, and have been reviewed and honored throughout the world.

This past year they went on a 19-day tour to Germany.

The Texas Girl's Choir will present four concert series in the metro-plex this year.

On October 15 they performed with Jack Melick and the Melick Orchestra. The big band sound of Melick has thrilled audiences for years at such places as the Dunes and Rivas, in Las Vegas and accompanied super stars Sammy Davis, Betty Grable, Milton Berle and Mickey Rooney.

March 24, 1984, the choir will perform with John Gary. John Gary's star-studded vocal career spans countless television, movie, concert and stage appearances in addition to his recordings.

In January, the Texas Girls' Choir will perform with Jean Berger.

Then on May 5 the One O'Clock Lab Band, with Neil Slater, director, will be performing with the Girls' Choir. This jazz band's awards fill pages and include a Grammy nomination, White House appearance for the state visit of the king and queen of Thailand, multiple international tours, recordings and rave reviews.

Duke Ellington said of them, "I wish it was my band."

In between the annual national and international tours, the Texas Girls' Choir performs for civic clubs, groups, weddings and churches. They are required to attend charm school, music clinic and leadership training annually to help develop character, self reliance and leadership.

## Senior Citizens News

By Mary Pearl Coward

The Senior Citizens held their third Thursday luncheon Thursday, November 17. There were 58 members and 26 visitors present. If you think 84 children would make a lot of clutter, you should come to hear that many Senior Citizens gathered together to visit and talk.

Mrs. Nettie Adams, the program chairman, opened the program by giving a brief history of Thanksgiving Day and what it means to us here in the United States. A very inspiring program of gospel songs was presented by Mrs. Rachel Taylor assisted by Mrs. Wayland Jones and Mrs. Ella Mae Gentry.

Following this musical program, Thanksgiving talks were given by the Rev. Blair, pastor of the Methodist Church, and the Rev. Bradley, pastor of the Baptist Church.

A bountiful Thanksgiving dinner of turkey, dressing, gravy, vegetables, salads, desserts and drinks was served.

The Senior Citizens and our guests extend our most sincere thanks to the ladies who prepared and served this good meal. We are especially grateful and thankful to the merchants, the Adams Well Service, Buddy's Grocery, and Kirtley's Grocery for donating the lovely turkeys for this Thanksgiving feast.

### FALL FRUIT TREE SPRAYING CONTROLS DISEASES

Fall is often the time when fruit tree care is forgotten or neglected, but it's a critical time for controlling many peach and plum tree diseases to insure a good crops next year.

With the arrival of fall, there's often a tendency to forget our peach and plum trees that served us so well last summer, but fall is a critical time for controlling many diseases. Applying a copper fungicide now can stop or reduce three of the six diseases that attack peach and plum trees in Texas. These are peach leaf curl, bacterial leaf spot and bacterial canker.

Puckered and distorted peach tree leaves that were either bright red or light green in diseased areas last spring were due to peach leaf curl fungus. The

only time to effectively control this disease is in the fall with a copper-containing fungicide such as Kocide 101.

Timing of the fall spray is critical for effective control and for avoiding tree damage. Copper is a metal and may cause severe defoliation unless applied correctly.

You should spray when 70 percent of the leaves have fallen off the tree. Spraying too early will cause leaf shed or cause the spray to be ineffective later.

Bacterial leaf spot and bacterial canker can be partially controlled by fall spraying with a copper fungicide. But again it's important to spray at the right time to prevent foliage burn.

Bacterial leaf spot affects both fruits and foliage. The infection causes fruit to crack and leaves develop angular spots which drop out. Bacterial canker will kill trees slowly. Infected trees will have gum or wax forming on the trunk and main limbs.

Fall spraying in our area is usually done between late October and late November. This year, now is the optimum time to spray peach and plum trees with copper fungicide.

Fall spraying is important to the health and production of fruit trees, because there's no other time when 50 percent of peach and plum tree diseases can be controlled with one spray.

### Heroes sought

Who will succeed little Chris and Amy Wilhite of Hopkins County, winners of the 1982 Texas Rural Heroism Award? There may be dozens of dramatic, life-saving incidents this year which could qualify for the 1983 Rural Heroism Award.

The search is underway for the 1983 Texas Rural Heroism Award for that person or persons judged to have performed an heroic deed during a time of crisis, according to Ben Bullard, Council president and assistant safety director for the Texas Farm Bureau.

March 1, 1984, is the deadline for entries to be received by the Rural Heroism Award Committee, Texas Farm and Ranch Safety Council, P.O. Box 489, Waco, Texas 76703.

Chris and Amy Wilhite received the 1982 Rural Heroism Award last April in Houston for their efforts in saving the life of their father, Steve Wilhite whose right arm was mangled in a hay-baler in June, 1982.

The heroic act or human-life-saving deed must have occurred in Texas during 1983 and should be related to farming or ranching. Nominations should include a written account of the incident and the names, addresses and telephone numbers of all persons involved. Newspaper clippings and photos should also accompany the nominations, if available.

The 1983 Rural Heroism Award will be presented during the Monday morning opening general session of the 45th annual Texas/Southwestern Safety Conference and Exposition, March 19, 1984, at the Hyatt Regency Hotel in Dallas.

## Program underway to control prairie dogs

By Benny J. Butler  
County Extension Agent

The Floyd County Extension Service cooperates with the Texas Rodent and Predatory Animal Control Service to provide producers with a means to control the prairie dog population on their land.

Prairie dogs can cause considerable economic damage thru the holes that they dig, and the plants they eat. Cattle and horses can step in a hole and easily break a leg. Pastureland in a prairie dog town is practically worthless because the dogs keep the native grass eaten down. Towns near fields can cause considerable damage to crops. Prairie dogs seem to be especially fond of wheat.

Two types of poison are available thru the Floyd County Extension Service: (1) phostoxin pellets, and (2) zinc-phosphide treated oats. For producers with large acreages of prairie dogs, the poison oats are the most cost-effective method. For people who just need to treat small areas, the pellets are probably the best choice.

The best time of the year to treat with poison oats is from mid-November to the last of January. The best results are obtained if the prairie dogs have been pre-baited using untreated oats. About 1 tablespoon of treated oats per hole is sufficient.

When treating with the pellets, it is best to use an irrigation tube or something similar to stick down in the hole to aid in placing the pellets far enough in the burrough. The hole should then be stuffed with newspaper or something to aid in covering it up. Old oil cans work great if you have enough of them.

Extreme caution should be used at all times when handling either of these types of prairie dog poison. Gloves should be worn to avoid contact with the skin. Both the pellets and the oats should be stored in a well ventilated building. The pellets should never be kept or transported in the cab of a pickup or the trunk of a car. Carry them in your toolbox or something that the fumes won't get into the air that people are breathing. The fumes are deadly. When treating a field, always start on the downwind side and work your way

upwind. Be sure to place a warning sign on your fence after treating the holes.

We currently have a few bottles of the phostoxin pellets on hand and will have some poison oats around the second week in December. We are presently taking orders for the oats. They come in 50 pound bags and will cost around \$30. If you would like to get some of either the pellets or oats, please call the County Extension Office at 983-2806 by November 30 to place your order. Leave your name, phone number, and private applicators license number if you have one.

Please remember to order enough the first time to allow for any followup treatments that will need to be made. Also remember that it is generally much cheaper to use the treated oats for the initial control effort and use the pellets for any followup or cleanup treatments.

## Question facing producers — To buy hay now or later?

Livestock producers are facing the question of whether to buy hay now or to buy it as required during the feeding season to hold down the feed cost of wintering livestock.

The decision now involves less uncertainty than at the beginning of the hay harvesting season. But the alternatives for livestock producers are decreasing each day.

There are three hay buying strategies for the livestock producer who intends to carry his herd through the winter. One is to buy feed as needed during the coming months. If the winter is mild, hay prices will not increase as expected, which could be an advantage for buying as needed. Also, hay purchases can be better matched with requirements.

Another strategy is to secure required hay as soon as possible. Based on historical data, hay prices are usually lower in November than December, the February prices usually exceed those in January.

In evaluating this strategy, the cost of buying hay in November, when compared to buying as needed in January and February, must include the cost of holding the hay. Holding costs include interest or opportunity cost of the money tied up in the hay, casualty insurance on the hay, and in some cases the cost of storage facilities. Based on data from the last 10 years, a livestock producer could lower his purchase cost an average of \$1 per ton by buying as soon as possible.

A third alternative is to buy one-third of the required hay each month—December, January and February. Compared to buying as needed, the

buyer can lower his hay purchase cost by 50 cents per ton with this method.

The cost difference indicated in these strategies may seem insignificant or may even prove inconsistent when other factors are included. The data are averages for many hay markets for a large geographic area, so price variations in local markets are averaged out or nullified.

Distance from the purchaser—is also a factor that could raise the net farm cost of hay purchased later in the feeding season.

# Will Martin born in half dugout

Born in November of 1908, Will Martin has lived in Floyd county all of his life. He is one of the few early Floyd county residents remaining in Floydada at this time. This is simply a short history about his parents and two sisters coming to Floyd county as his mother told him about it in his earliest years. He recalls some earlier days in his life in the following account:

Papa and Mama and the two little girls, Mary and Jewel, came to Floyd Co. in 1898 from Vernon in a covered wagon. They came sometime in the winter as a snow storm stopped them at Matador and the sheriff let them stay three nights in the jailhouse. When they reached Floydada they went about five miles north of town to Grandpa Martin's place that is the Lindsey Graham farm now. Papa got a job from Mr. Massie and moved the family southwest of town to what we called the Massie Ranch.

Sister Selma was born in about 1899 or 1900 and died with diphtheria. The night she was real bad they couldn't get

a Dr. to come out there. Papa walked about three miles to get a lady to stay with Mama until he could tell other neighbors. She was about eight months old. Sister Mary told me she was already choked to death when Papa left to get the neighbor. Mama didn't seem to realize it or didn't want to give up hope and held Selma in her arms all the time Papa was gone.

They moved from the ranch sometime after this to a place about a mile and a half northwest of where Muncy elevator is now and Papa worked cows and Mama helped feed cows on the halves for R.E.L. Muncy. Then September 5, 1901 Brother Henry was born. They moved back to the ranch and made a payment on a place two and a half miles west of town. Along in these years Grandpa Martin took a trip back to little boy was born and that little boy was me. Mama didn't have a name picked for me. So in a week or two she let Mary and Jewel pick a name for me and that was Will Massie Martin. I

Arkansas and died while he was there and was buried there. My step-grandma sold the land and cows and went to Dalhart, Texas to wheat farm with her boys. I never saw any of them except Uncle Jess and Uncle Perry between that time and 1937 when Papa died.

Mama and Papa moved on their little place, west of Floydada, which they had bought with Mary, Jewel and Henry about 1906. They had a well dug and a windmill put up. They dug a half-dugout, covered it with lumber and shingles leaving a dirt floor. They had a tent for a spare room. In the late summer of 1908 Papa started building a room and hallway on the house to have it ready for the new baby to be born in so it wouldn't have to be born in the old dirt floored dugout. Papa didn't get the house done, he did get the floor down and was working on that when Mama had to have the Dr. called out to our place. While the Dr. was waiting for Mama to get ready he helped Papa nail down boards on the floor. About 4 o'clock in the afternoon of November 2 a

THE MARTIN FAMILY - 1913

don't know who started it but most of the people called me Willie, some of the older people called me Willie until I was 35 years old.

I wanted this picture that is with this writing shown for a threefold reason. First to show the front half of the dirt floored dugout that I was born in. Next to show people that most small boys wear dresses up to five or six years old. The second child on the left is me. And last to show that friends and neighbors got together on Sundays, for a Easter egg hunt and for general good times. Soon after this picture was taken Sister Annie Lee was born on June 25, 1913.

To be brief I started to school in 1916 and stayed in the first grade two years. Miss Roxy Ivy was my first teacher. She sure was a fine woman and guess everyone liked her. I started to school at Northside, a wood building northwest of the present City Hall. The year after I was moved to Eastside a brick building with two stories and basement. Lightning struck Northside and burned it to

the ground. My Sis got off two weeks while they built some make shift classrooms and it sure did make me made because I didn't get off. I liked all of my teachers all the way through school. Both the women teachers and what few men teachers I went to. As my memory goes they were all fair and reasonable. I got two paddlings in school but it was my fault not theirs. They had told us not to chew gum, paper, tar, or talk out in class and I didn't mind. In the third grade Miss Bernice Henry caught me chewing tar and gave me my choice of either staying after school for a week or take a spanking. I didn't want to be until nearly night getting home so I took the strap. When I was in the fourth grade Miss Elliot caught me chewing gum and the same thing happened again. I went the other years through the 11th grade and graduated in 1928. I spent the next seven years in the depression helping Papa try to farm and working when I could find a job. I met my wife Beatrice

about 1933 and we were married in 1935. We had three children, eleven grandchildren and one great grandchild. Much has happened in these past 48 years but that is certainly another story.

Martin celebrated his 75th birthday November 2. We think we are indebted to citizens such as this who have dedicated themselves to being staunch, hardworking citizens for our community.

## Letter to the Editor

Dear Editor,

It seems as though the farm economy has almost been overwhelmed by the events of the summer, the early freeze and then the devastating hail and rains upon the cotton.

However, these circumstances give the businessmen of Floydada the opportunity to expand their market area and meet the needs of their rural and farmer friends.

By broadening their operations over more hours per week to make their goods and services more available. They can shorten the trips of their neighbors to the market place which should rightfully be Floydada instead of Lubbock or Plainview.

There is a more positive flavor toward business success in Floydada this year in that the majority of farm families will be trading closer to home due to the farm economy. This means money formerly spent in Dallas, New Orleans, Florida or California will be spent in Floydada. Even though there will be reduced farm income, a larger percent will stay in Floydada.

Floydada merchants can increase their market share and turn this apparent disaster into opportunity. Opportunity to let the farm families know they are welcome and appreciated in Floydada. As Floydada merchants do all the right things to make their business grow they will imprint upon the minds of their customers that Floydada is the place to trade. Merchandise quality should be good and customer complaints should be handled to make the customer happy and get his repeat business. Prices should be adjusted so that the customer is convinced that he is getting the best buy he can possibly get. Our farm friends will be more quality, value, price conscious and will not be satisfied with shoddy products just because they are cheap. They want products that will last longer and give better service with less maintenance. On this area our automotive manufacturers leave a lot to be desired. In fact, like the telephone system operated in Texas by Southwestern Bell, the price is increasingly high when compared to the quality and service actually rendered and the frustrations that are rendered and the frustrations that are created by their poor service.

There is another positive indicator in the sales tax returns to the city of Floydada. At the end of September, the sales tax returns had risen to just over 2% behind last year, pointing to a stronger late summer and early fall economy. This also indicates businessmen are taking the initiative and

through affirmative action are pulling more trade back into Floydada.

Yet, I restate and re-emphasize that Floydada has always, that is, up until the mid 50's been a Saturday trades day town. Probably 40% of its entire week's business was done on Saturday, until the merchants decided that they would be content with less return on their investments, even if it brought bankruptcy, to close on Saturday to have more leisure time.

Other merchants further destroyed their best day by giving double stamps on Wednesday. Now if those merchants were wise, they would go back to double stamps on Saturday and further rob Plainview and Lubbock grocers the privilege of serving Floydada area consumers.

Oh, a lot of things have been tried to create the air of the old days to bring customers to Floydada and other area towns. Flea markets in Ralls, Olton day in Olton, Petersburg day in Petersburg, drawings every Saturday on the square in Floydada, movies on the square in Ralls Saturday night. All to no avail. The primary reason for this dismal failure is that when you get them to town, there is no merchants in town to render their service outside of department stores, barber shops or other specialty stores. Even the drug stores sought to further confuse the customers and send them to Lubbock or Plainview by rotating the Saturdays they would be open.

Does all this really mean that Floydada really wants to grow? Does all this mean those businesses that close Saturdays or Saturday evening really care about Floydada or their customers needs? Are the farm families and the families from Lockney, Silverton, Quitaque, Turkey, Matador, Paducah, Roaring Springs, Spur, Crosbyton, Ralls and Petersburg really encouraged to trade in Floydada?

In all this, it would seem that there is a lot of talk, but little substance to what is said, unless merchants take an affirmative action to bring customers into their individual stores, and not just to the courthouse square for a drawing that really does no one in any particular business any good.

Consumers in the Floydada area can be particularly helpful in getting banks and merchants to stay open by letting them know that they do buy goods on Saturday in Plainview, Ralls, and Lubbock that they cannot get in Floydada on Saturday.

It is time to accentuate the positive. It is time for creative planning to get people to frequent the stores in Floydada on a more regular basis. People go

where people are, and a store that is full of people shopping will draw more people to shop in it.

1984 and the balance of 1983 can well be the most innovative and the most profitable times that some Floydada merchants have ever had.

Think, plan, motivate, market, advertise, promote your business and price for turn over of merchandise. Potential remains potential until you can bring it to reality.

Floydada is a strategic market center in West Texas and will become more so as more merchants get involved in making it happen.

Everything that happens to make a town grow has to have some one in the saddle making it happen.

Saddle up, Floydada merchants and ride. You're the key to your own prosperity with your neighbors helping you to achieve your place in the sun.

## Social Security In Floyd County

by Terry J. Clements

Recently, we discussed how the Social Security Act as amended in 1977, limited the payment of back benefits on some retirement and survivor's claims if the back payment would result in a permanent reduction to future monthly benefits. Among those affected by this provision were widows and widowers who had attained age 60 but who were under age 65.

The changes in 1977 became effective with January 1978 and continued to be in effect through June of this year. However, beginning with July, 1983 a new law excludes the limit on back payments on widows/widowers claims. Under this new law, back payments may be made for one month; the month of death.

For example: If you lose your spouse due to death this month, you may wait until next month to file your widow's/widower's application. If you meet all factors for entitlement (age, length of marriage, etc.) to widows/widowers' benefits, during the month of your spouse's death, your payments may begin effective with the month of death rather than the month after death when you actually file your application.

Under the 1977 Amendments, your

Speeding up sewing without relaxing basic standards take practice and planning. But here are some tips to help you save sewing time.

Alter the pattern to the correct measurements before you cut out the garment. This eliminates endless fittings as you sew and helps insure a well-fitted garment when your sewing is completed.

Fold the fabric with the right sides together unless you need to see the right sides to match the fabric design. This places the fabric in the correct position to stitch center front or center back seams as soon as pattern pieces are removed.

Cut out several garments, including interfacings and linings, at one cutting session. Mark all essential construction details as you cut. If fusible interfacings are used, fuse them in place at this time. Pin sew-in interfacings in place so they will be ready to stitch as soon as you begin sewing.

payments could not begin until the month you actually filed an application.

The reason for this change is obvious. If death occurs during the latter days of the month, personal grief may make it undesirable to rush to the nearest Social Security office to file for survivors benefits. In recognition of this fact, the Administration has made this new provision to allow for the one month's back pay.

If you have a question concerning these changes or any Social Security matter, please call us at 293-4371. If you need to visit our office, the address is 1401-B West 5th Street in Plainview.

Learn to work in units, and complete as much of one section of a garment as possible while it is flat. For example, apply pockets to the garment before sewing side or shoulder seams. Sew in the zipper before sewing side seams. In many cases you can complete the neckline before sewing the side seams. Also, some sleeves can be sewn in before underarm seams are sewn.

Eliminate extra motions by sewing as many darts and seams as possible in a continuous movement. For example, sew the shoulder seams, bodice side seams, skirt side seams and sleeve seams one after another. A small gap of stitches between the pieces can be clipped at the ironing board when pressing. Use a press cloth and steam or a misting bottle to speed pressing of seams and darts. Be sure to press all seams before sewing across them with another seam.

Threads at the ends of seams can be secured easily by back-stitching three or four stitches or by lifting the presser foot slightly and sewing several stitches in the same spot. This does not hold true with the point of darts. They look better if stitched to a point and the threads tied by hand.

## LET US GIVE THANKS

### Lakeview News

By Joyce Williams

The Lakeview oil well was down to 10,592 feet Monday, and biting some granite. The crew said when they began drilling into granite that would mean no show, and they'd start pulling everything out. But they plan to continue drilling a few more days in hopes of a better showing.

Meanwhile on top the ground, cotton harvest is in progress and gins are turning out the baled cotton. Fields are rimmed again with modules of cotton and cotton trailers with people tramping it down. Workmen are thankful for jobs, for living expenses and some Christmas money. If dry weather holds, most fields will be stripped long before Christmas, since there is an abundance of machinery to harvest the reduced crop.

Recent guests at the Riley Teague home include their daughter, Sue Tilson and guest, Bill Swearer, of Lubbock, who were here Sunday evening. Joe Mack and Sherry Tilson and sons, Jason and Charlie also came by for supper. Mrs. Betty Howard and daughter, Gail, of Lubbock were there Sunday, last week, to visit her father, Earl Bishop in Caprock Hospital, and the Teagues.

Mr. and Mrs. Grady Dunavant returned home this week from a ten day visit in Durango, Colo. with their son, Melvin. They all visited Mr. and Mrs. True Kirk and Mr. and Mrs. Truman Dunavant. The men went deer hunting, with good results.

Mr. and Mrs. James Williams and children attended open house at Schacht's Flowers in Lockney Sunday afternoon.

Mrs. Weldon Hammonds attended the Arts and Crafts show in Floydada Saturday at the MAC. Her daughter, Mrs. Ann Glasscock, had many beautiful wood and painted hand crafted articles in her booth.

Ford Miller of Texas Tech spent the weekend visiting his uncle and aunt, Mr. and Mrs. Q.D. Williams. He went wild turkey hunting and bagged his limit. On Sunday afternoon he accompanied Monte and Q.D. Williams to Roaring Springs to look over the deer crop.

Allen and Lori Kirk of Durango, Colo. are visiting their grandparents, Mr. and Mrs. Grady Dunavant for Thanksgiving holidays.

Mr. and Mrs. Joe Thurston attended the Thanksgiving supper at the City Park Church of Christ Sunday evening after church.

Mrs. Q.D. Williams attended the Texas State Teachers Association chicken dinner served at Andrews Ward School cafeteria Thursday evening. Mrs. Lavada Garrett led group singing, accompanied by Mrs. Jo Payne, while the teachers waited for the chicken to be delivered from Lubbock. Patriotic songs, popular songs and rounds were sung with enthusiasm. Mr. and Mrs. Jack Gregory also took a turn at leading. Lavada soloed "God Bless America," and the crowd picked it up. A wonderful relaxed evening was enjoyed as a result of attaining over 100 members in the local organization.

Mrs. Viola Brown spent Sunday with her daughter, Mrs. Alene Hambricht, and family. Jerry, Kathy and Heather Green of Lubbock were also guests.

Alton and Louise Chapman of Gatesville stopped by the Riley Teague house Saturday morning, coming from Pampa where they had attended funeral services on Friday for his older brother. Judge and Mrs. Choise Smith attended the Floydada Arts and Crafts show Saturday. They went on to Lubbock for supper with his parents, Mr. and Mrs. Flukie Smith.

Miss Jody Smith, of Texas Tech University, came home for the week-end.

There is much to be thankful for in all households this Thanksgiving. Please offer prayers for families of servicemen killed in Grenada and Lebanon. May all you dear neighbors have happy visits with your loved ones, whether you are in the cotton field or gathered around the family board.
