RESTORATION OF THE COURTHOUSE AND AGRICULTURAL BUILDING began this week as Karr Tuck Pointing of Iowa employees place a protective covering over all the windows.

a view from

The Lamplighter

By Ken Towery

It will soon be time, gentle reader, for us to gird our loins and prepare for the battles ahead.

On February 7th filing for a variety of elective offices will close, and on that date the "silly season" will officially be upon us. I don't know where the term came from; it's been around longer than I have. Generally speaking, in the news business, it's reserved for those times of the year when people tend to do strange things, like when the moon is full, or during extended periods of sub-freezing weather when people get cabin fever, or the political season, when politicians begin to think seriously about what they can promise the people in exchange for their votes.

All things aside, however, politics is serious business. Serious because it is the path to government in democracies, and it is government that now has such pervasive influence on the quality of all our lives, for good or ill.

It is only natural, one supposes, for the people to become cynical about politics and politicians, considering the promises made and kept. But actually there are many good men and women in politics and government, seeking to do good for the people. Mostly, it seems to me, these are found at the local level, where citizens serve as mayors and councilmen for little or no pay, and where they are in daily contact with those whom they serve. It is much less true when we throw Congress in the equation, where the pressures of party discipline and special interests combine with the worry of losing a lucrative income to produce a breed to public servants who are neither servants nor public.

I have long felt that politicians are somewhat like school teachers, in that we simply do not, indeed cannot, pay the good ones what they are worth to us. and the bad ones are paid too much at any level, and at any price. That is a problem, I suspect, that will be with us always. About all we can do, in the long haul, is try and sort them out as best we

This year we will be spared the full court press. Most of our statewide office holders are comfortably enscounsed for another two years, so we don't hear Mark White promising us lower utility bills again, or Bill Hobby promising us again that he is going to do something about the water situation in West Texas, this time around. They will spend a good bit of time explaining to school teachers why they didn't get a pay raise last time the legislature met, and why they will definitely get it the next time. Whatever time they have left over will be spent in organizing and turning out the vote for Walter Mon-

Between now and November we will all have to spend a good bit of time listening and deciding. Being an eternal optimist, I think the people will probably make the right decision. If they judge as wisely this time as they did four years ago, in most cases, the Republic will survive.

WENDY RUFF

A scholarship fund has been set up in memory of Wendy Ruff at the First National Bank, Floydada. Wendy was active in the speech department of Floydada High School for three years and excelled in debate.

This scholarship fund will go to a deserving Speech student. Anyone wishing to contribute to this fund may do so by contacting Mr. Joe Willis at Floydada High School, or by going by the First National Bank.

The amount of this fund will determine whether or not it will be perpetual scholarship.

Freezing temperatures dominate holidays here

For more than two weeks Floydada and surrounding area residents had been enveloped by ice and snow with temperatures below freezing for a record time and the bitterly cold wind chill factor keeping most residents inside. However, there were a few people that had to be out in the weather, among them were Lighthouse Electric, Southwestern Public Service and City employees. Busted water mains, frozen meters, and downed electrical lines kept these employees busy all through the holidays.

Southwestern Public Service manager Lewis McDaniel reported "We were very lucky, we only had one outage in the Barwise community which only cost us about 20 man hours. But if it had continued we would have had a lot more

Lighthouse electric employees worked three days in the freezing weather some 14 hours a day trying to maintain rural residents electricity. Claude Weathersbee reported the Lighthouse employees put in some 560 overtime hours costing the cooperative approximately

City manager Bill Feuerbacher told city council members at Tuesday's regular meeting that the cold spell had cost the city approximately \$5000.00 to \$7500 for new meters and water lines alone. At that same meeting Feuerbacher reported that many Floydada residents had requested water leak adjustments who had broken water lines from the cold weather. After discussing the problem, council members agreed that the adjustment would be 50% of the amount used over the average

"Heart month" designated

Volunteers for the American Heart Association will be calling on Floydada residents in February to ask for contributions for the 1983 Heart campaign. This year's campaign goal has been set at \$5,000. Currently, \$1,013 has been received. A business drive will be conducted during the month of Febru-

"The money raised during out campaign goes to support research, professional and public education and community service programs in Floyd County," said Sherry Hale, local chairman of this year's Heart Association campaign. "With costs rising everywhere and because of the tremendous toll in lives and money due to heart disease and stroke each year, it is absolutely essential that we reach our

"Heart disease, stroke and high blood pressure afflict more than 40 million Americans and are responsible for half of all deaths in this country," said Hale. Of the nearly one million deaths each year from heart disease and stroke, more than 200,000 occur before retirement age. "We need volunteers and contributions to help in the fight for your life and ask that you give generously when a volunteer calls on you," said Hale.

Other key campaign committee chairmen serving the American Heart Association of Floyd County division, are: Dr., S.K. Hong, president; Dr. Andy Hale, president-elect; Tom Farris, treasurer; Joy Fulton, secretary; Linda Hinsley, program chairman; and Olin Watson is in charge of memorials.

Candidates deadlines set

Opposed Candidates for political office are required by Article 14.07 of the Texas Election Code to file with the County Clerk the following campaign expense reports:

The Calvary W.M.U. of 1984 was begun with a live meeting in the

country. Mrs. Gary Hill as hostess for the covered dish supper. This was followed by the program, then the Christmas tree. There was 18 women present. A nice evening.

After several better days we have more cold, dark and dreary ones but no more snow yet. Good "stay at home

Mrs. Ethel Warren visited Mrs. Leo Frizzell today.

Glenna and Millard Watson had dinner Saturday with her parents, Mr. and Mrs. Henry Brewer.

Mr. and Mrs. O.G. Mayfield spent the holidays in Henrietta visiting their sons and family, the Gene Mayfield.

Mrs. Fred Battey's company Sunday were Mr. and Mrs. Archie Huckabee and daughter of Lubbock and Mrs. Ola Warren, city.

Well, we Greens had our postponed Christmas get together Thursday nite till Sunday. The first arrivals were the Clyde Greens of Peralta, New Mexico. Thursday nite at 10 p.m. All my children were here but Jimmy. Half of my grandchildren and half of my "great grands." Also the Anthony Lattas. What a good time we have!

Margaret Ryman and daughter Beth of Hubbard were the last to go. Margaret suggested I go to Lubbock with her and go shopping them come back Sunday morning for church at Calvary. We spent the nite with her daughter after we toured Penny's and Sears. We made it for church.

At the age of eight, E.L. Cornelius came to Texas from Blount County, Alabama to Ennis, Texas, in Ellis County. For years after that he and his family would travel back and forth between the two states.

His father died when he was six years old, but after a time, his mother married her late husband's younger brother. "He always seemed like my real dad, he was really all I had ever known." said Mr. Cornelius

Farming for a while in Texas, his stepfather would get the "itch" to do something better and move back to Alabama. "He would open some kind of business while we were in Alabama. I remember he once purchased a place that made stove pipe. I was big enough by then that I could use the machine that crimped the pieces of metal together." laughed Mr. Cornelius.

World War I began and in 1918 Mr. Cornelius entered the Army. Due to a flu epidemic, after only two months of training, he was shipped to France. During his stay in France he assembled cars, trucks and motorcycles. "I even got to see President Wilson drive by" he chuckled.

After the war, he came home to Texas and in July of 1932 moved to Floydada to take a job as nightwatchman at the compress. In 1933 he and his brother-inlaw, Pierce King, opened a store near the present Perry's. "Roosevelt had declared a week's bank closing to change over to his "New Deal"." said Mr. Cornelius. "We bought eggs and cream from the Floydada farmers and would sell it at Armor's Creamery across the street. Eggs then were about 12 cents a dozen.

Saturday was our big day. We would open at daylight and wouldn't close until midnight. Everyone came to town on Saturday.

After his brother-in-law's death Mr. Cornelius sold the store and went to work for Mr. Wester at Wester's Grocery & Market. He then purchased a grocery near the present day Donut Shop on the highway. He decided to retire after six years there.

Mr. Cornelius raised his two children. Don and Doris in Floydada. "At one time we lived on Kentucky Street in the upstairs of the Hargrove home. They would wake the kids up and make sure they got to school. We lived in the old funeral home at one time." laughed

He sent both of his children to Texas Tech University, both of them attending the University at the same time.

"I didn't get much of an education as I was growing up as we moved so often. When I'm reading and I see the name of a town, I look it up on a map. When I see a word I don't know, I look it up in my dictionary" said Mr. Cornelius. His dictionary he said was "purchased from Alma Holnies in 1964.

In 1956 Mr. Cornelius moved into the Lamplighter Inn. "It wasn't always called the Lamplighter. The Dailys built the hotel in 1914. It has been called the Daily Hotel and Commercial Hotel. You know there aren't very many of these hotels left. There used to be the most beautiful trees out front and on Sunday over 100 people would come to eat in our dining room." remembered Mr. Cornelius.

When asked why he had lived at the

Lamplighter these 27 years, he said "I've never found a place any handier. I am in walking distance of most anything I need. Besides all that I wouldn't know what to do with all my junk."

Born October 12, 1894, Mr. Cornelius attributes his long life with "taking life one day at a time." "I used to like to work in the yard, and I still walk a great deal. And I take vitamins everyday." he laughed.

With his self education and his uncommon goal for life, Mr. Cornelius should have no trouble living another 90

Nell Pritchett oils on display

Many of the works of artist Nell Pritchett of South Plains are on display the month of January at the First National Bank in Floydada.

Mrs. Pritchett began painting while recovering from surgery about 15 years ago. Since that time she had worked with many different kinds of paints including pen and ink.

After attending a workshop in Floydada presented by Connie Martin, who Mrs. Pritchett said has influenced her work more than anyone else, Mrs. Pritchett began taking art lessons. She has taken for some six years from Ruth Barnett whom she said "showed her the basics" and has attended workshops by Pat Krahn, and Mac Carowe of Lubbock, as well as workshops by William

"I really just paint for the fun of it" said Mrs. Pritchett. She has had exhibits in Floydada and at the Floyd County Fair. She will do requests but said "I paint something the way I want to paint it and if they don't like it they don't have to take it.

Living about 12 miles north of Floydada on the Silverton highway. Mrs. Pritchett said she "didn't really have a studio and uses her utility room, or the dining room or the snack bar...I'm just a 'Sunday Painter'.''

Her paintings will be on display at the First National Bank the entire month of January. She welcomes everyone to go by and see her work.

The ceiling fan has found new use.

So has the coal we use.

Some folks don't realize that one of our oldest forms of energy has a new and improved use. Southwestern Public Service Company uses coal to make electricity.

Improved use.

Use of low sulphur coal and filter systems helps prevent air pollution problems.

Now, our coal-fueled plants produce more than half the electricity you use. Because coal is plentiful and less expensive than natural gas, which we've

used for years. We say coal is new and improved because it's more efficient cost-wise, and because we're preventing air pollution problems with filter systems we've helped develop.

Coal helps us control your cost of electricity. And keeping your cost of electricity as low as possible is another way we're...

I have been enjoying my new job as Activity Director of Floydada Nursing Home. The residents and staff have made me feel so welcome and are very

Monday we had Devotions with Trinity Church at 10:30. Shirley Varner, Sabrina, Ira Sullivan, Mildred Thrashread the scripture. Ira. Dartha, and Shirley sang a special song. We did not have music therapy because it was a

Tuesday The Primitive Baptist Church, with Neeley Richardson led the Devotions. Neeley and his wife led the music, and he read the scripture. They brought bananas to all the residents and staff. We appreciate this generous giving. We started a Bible study in the afternoon, of the Women of the Bible and how they coped with crisis. We are studying the Book of Ruth. Then later in the afternoon, Mrs. Ed Muncy and Mrs. Clarence Guffee from the Sunshine Class of the First Baptist Church, brought bananas and cookies for all the residents. They visited in all the rooms as they handed out the bananas and cookies.

Wednesday the City Park Church of Christ brought the Devotions. Their singing was beautiful and the scripture so meaningful. Wednesday afternoon we played Bingo. The residents always enjoy playing this game. Emmitt Lawrence bingo'ed the most times and Sue Thompson and Ona Jameson both bingo'ed on the blackout game. It was

Thursday we went on a bus trip to Plainview and got an ice-cream cone. It was a be ... tiful day for a drive and the residents were glad to be out after being in for so long during the cold weather. Those going on the bus trip were Emmitt Lawrence, Mrs. Bernie, Bennie Wilson, Addie Lindley, Lura Brashears and myself.

Friday Mary Corley and Nettie Adams led the Devotions. We certainly do appreciate all who donate their time and energy helping make life better and more enjoyable for the residents. Emmitt Lawrence made his 281st owl this week. He sells these owls for \$12.50 each. Also on Friday the residents saw the movie "Country Coyote Goes Hollywood." They enjoyed the popcorn along with the movie.

We would like to welcome our two er, and Dartha Westbrook and I, sang | new residents to our Home. They are the hymns with the residents. Then I A.J. and Sarah Huckabee from Stephen. Texas. They are the parents of Wanda Williams. We hope the Huckabee's will be happy here in our Home. Visitors were: Mrs. Watson Jones,

PUBLIC NOTICE

In proceedings pending before the Public Utility Commission of Texas (PUC), local exchange telephone companies are requesting authority to charge AT&T Communications of the Southwest, Inc., for use of their facilities. These proposed charges are higher than AT&T Communications can pay at current Texas long distance rate levels. To position itself to be able to implement rates that are sufficient to produce revenues that will recover the costs facing the company, AT&T Communications must now file for rate relief to be able to implement rates that reflect the costs of access that are ultimately imposed on the company.

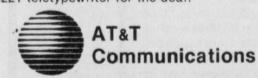

While AT&T Communications does not want to increase its Texas rates, an increase would be required to recover the increased access charges AT&T Communications will have to pay to the local exchange telephone companies under several proposals pending before the Commission. These access charges at the proposed increased levels represent more than 80 percent of AT&T Communications' operating expense in Texas.

Accordingly, AT&T Communications, in accordance with the Public Utility Regulatory Act and the rules of the PUC, hereby gives notice of the company's intent to implement a new schedule of rates for long distance calls within Texas. The proposed rates will be effective January 28, 1984, unless otherwise determined by the Commission. All customers and classes of customers would be af-

fected by AT&T Communications' proposed rates. If higher access charges are ordered, AT&T Communications has no recourse but to pay these charges and recover the costs from its customers as a cost of providing long distance service within Texas. AT&T Communications has filed rates which would mean a maximum overall increase in adjusted test period revenues of \$301.4 million, or 27.85 percent. This amount would help recover cost increases due to the proposed level of access charges now pending before the PUC.

A complete copy of all tariffs and rate schedules is on file with the Texas Public Utility Commission at Austin, Texas, and with every municipality in Texas.

Persons who wish to intervene or otherwise participate in these proceedings should notify the Commission as soon as possible. A request to intervene or participate or for further information should be mailed to the Public Utility Commission of Texas, 7800 Shoal Creek Boulevard, Suite 400N, Austin, Texas 78757. Further information also may be obtained by calling the Public Utility Commission Consumer Affairs Division at (512) 458-0223 or (512) 458-0227 or (512) 458-0221 teletypewriter for the deaf.

Services for Vera Anita Clary, 41, of. Lubbock were at 2 p.m. January 9 in Franklin-Bartley Chapel with the Rev. Glenn Harlin officiating.

Burial was in Peaceful Gardens Memorial Park under direction of Franklin-Bartley Funeral Home.

A former Lockney student, she died at 10:15 p.m. Saturday, January 7, in St. Mary's Hospital after a short illness.

The Quitaque native was a Texas Instruments employee. She moved to Lubbock six years ago from Plains.

She was a Baptist. Survivors include a brother, Johnnie Clary of Lubbock; step-parents, Mr. and Mrs. E.R. "Bear" Wauson of Plains; three step-brothers, Wayne Wauson of Muleshoe, Gene Wauson and Robert Wauson, both of Plains; four stepsisters, Pauline Deen of Lubbock, Priscilla Herington of Farwell, Gloria Compton of Plains and Theada Wauson of Lubbock.

Pallbearers were Shelton Teeter, Eddie Bilbrey, Harry Bilbrey, Steve Barnes, Reggie Pearl and Eddie Pearl.

Heart Answers

WHAT ARE HEART MURMURS?

Heart murmurs are extra heart sounds produced by the circulation of the blood through the valves and chambers of the heart. There are different kinds of murmurs. A doctor can recognize them and determine whether a murmur is harmless or indicates a heart condition requiring medical care. Innocent, or functional murmurs are common in children. A large percentage are likely to have had one at some time. Contact your local American Heart Association for more information.

Mrs. Roy Teague returned to her home near Dallas last Thursday after staying several days with her mother-inlaw, Mrs. Riley Teague and for the funeral of Earl Bishop the previous Monday. Shirley's sister, Elya Turner, and grandson of Abernathy came over to visit Thursday afternoon and took Shirley to the Lubbock Airport to catch her plane that evening. Besides Roy Heflin Teague, the grandson and great grands who were pallbearers at Earl Bishop's funeral included grandsons: Howard, Dwain, Jimmy and Donnie Bishop; Mariou B. Howard, and James Earl, Rodney and Keith Teague. Great grandsons were: Michael, Greg, Lance, Brent, Randy and Sharon Bishop, Earl Bodie, Tim, Kent and Ryan Teague; also Joe Mack and Scott Tilson; Trip and Tye Taylor, Jack Howard and Mike Samihi. Little great, great grandsons

who accompanied the men in the family

were: Jason, Charlie and Cody Tilson. Mr. and Mrs. Don Harrison braved the icy streets for Christmas in Lubbock with their son and family, Mr. and Mrs. Jerry Bob Harrison. Max and Jeanette Harrison and daughter were also present. Ruth was supposed to bake the turkey, but Jerry got worried she wouldn't be able to drive over and cooked another turkey. Everyone had plenty to snack on while they were

The William Bertrand home was the gathering place for all their children and also the Orville Newberry's for Christ-

Ronald and Betty Bertrand and Shelly were there from Vernon, Texas. Jill and Martin Warren from Tahoka were there with their three, Lezlie, Will and Rebecca. Randy and Connie Lu, Angie

and Misty Bertrand and from our community were present. The Newberrys included Lorene and Orville from Floydada. Their children and families were Dale and Pat Newberry and children of La Mesa, and Deanne Jones, Ken and Rexanne Jones of Midland. All arrived at Fay and Williams on Christmas Eve day for a big family dinner. Then on Christmas Day, Faye and Williams went to the Newberrys for dinner with their families.

Bad weather caused the family, of the late Mr. and Mrs R.C. Smith to delay their Christmas get-together. But at last on Saturday, January 7, they all met at Milton and Jo Harrisons'. Everyone brought covered dishes and had a good time. Present were Don and Ruth Harrison of Lakeview, Roy and Sunshine Smith of Plainview, Mona and Jean Dunn from Hale Center, Bill and Lillian Smith of Floydada, Max and Jeanette Harrison of Floydada, and Foy and Jesse Smith of Levelland.

Max Harrison and daughter, Tracy, came out to Ruth and Davis for dinner Monday. The college students will return back to their campuses this week. Tracy Harrison and Jody Smith and others of the 1983 high school graduating class have had a sad holiday with two of their classmates, Dusty Burieson and Wendy Ruff dying in accidents within a few weeks of each other. So much sadness for the families and friends of the two young people who were so popular.

Mrs. Q.D. Williams visited Mrs. Riley Teague Monday for lunch. While the sky was grey with clouds and cold winds, they shared hot soup and cornbread around the kitchen table. Remember when families used to make a meal of cornbread and sweetmilk for supper. An old Southern favorite brought to the Southwest, and still served around many a Floyd County elaborate food.

Riley Teague is still in Caprock Hospital. His children call daily to inquire for his health.

Mr. and Mrs. Jerry Fowler and son, Brodev of Lubbock came over Friday before Christmas to stay with her parents. Mr. and Mrs. Odell Breed, until Tuesday. Her brother, Mike and family, arrived Thursday and stayed until Tuesday also. They all went to Bob

and Francis Hambright's home on Friday for the Hambright family Christmas. Then on Monday, December 26, all went to Ella and Ray Lloyd's house for the Breed family Christmas party. On New Years Eve, Shirley and Jerry Fowler entertained them in their home for a farwell to the old year.

The Bobby Kendrick's big farm house was nearly bursting at the seams during Christmas when all the Kendricks met to celebrate together. Byron and Eileen Kendricks and daughter came from Colleyville the week end before Christmas for their visit, and returned home. On Friday, December 23, Becky and Rick Sterling and children, Ginger, Jana and Andrea arrived from El Darado, table when everyone's tired of rich, Texas. Saturday afternoon Sandy Stewart and her two boys, Ben and Jed, arrived from Oklahoma City. Sandy's husband is a colonel in the Air Force and is presently in Saudi Arabia. Sunday morning saw Linda and Wayne Mixon, Todd, Cindy, Nancy, Jay and Keith arrive from Seminole and Lub-

bock. They returned home that evening. Other Sunday guests at the Kendricks included Cheryl Crawford Simmons of Dallas and Max Crawford of Montana,

DEALING WITH COLD-DAMAGED

LANDSCAPE PLANTS Record-breaking cold temperatures

have caused devastating damages to ornamental plants over much of Texas. Excessively low temperatures over a prolonged period with little or no accompanying moisture cause damages and losses that will be remembered for

Culled dairy cows to be slaughtered

COWS TO IMPACT BEEF MARKET A new law encouraging cutbacks in milk production is probably going to send a lot of extra culled dairy cows to slaughter, possibly lowering cattle prices significantly during 1984. The potential number of culled dairy cows is probably close to 1.5 million head over and above the normal dairy cow slaughter, notes a livestock marketing economist with the Texas Agricultural Extension Service, Texas A&M University System. This large cow kill could lower 1984 fed Choice steer prices by \$1.25 to \$1.50 per hundredweight, and salvage cow prices by \$4 to \$6 perhundredweight. Feeder cattle prices could also be forced downward about \$3 to \$4 per hundredweight. In addition, such lower prices could cause some 'panic selling' of beef cows, further

needs.

TOP_KICK

Here are some of the most frequently asked questions about freeze-damaged plants and the best courses of action for homeowners:

1. Should I cut back plants that

appear dead? Herbaceous plants that appear dead probably are and can be cut back or removed immediately. Woody shrubs, broadleaf evergreens and trees that appear damaged are best left unpruned until they leaf out in the spring or when a definite assessment can be made.

2. Why can't I prune off the apparently dead growth now? Pruning tends to stimulate new growth which could be easily damaged

again by typical winter cold spells. 3. The leaves are all falling from my

live oaks--are they dead? Probably not. Live oaks often lose their foliage in mid- to late-winter just before new growth appears. This bare, dormant period likely will be longer that

usualy this year but not permanent! 4. Can I replace my dead plants now?

Yes, but look for split bark and other freeze damaged on plants in containers. Plants in containers are more susceptible to damage than those in the landscape, and if they have not received cold protection, their roots systems may be damaged or killed. Texas nurserymen have sustained severe damages and are making a concerted effort to restock with heatly, undamaged plants for winter and spring planting.

5. When will I know for sure if my plants are dead or alive?

It may be next summer or even later before all damage is evident. Damaged roots and stems may have sufficient conductive tissue to maintain a plant until it comes under stress from excessive heat or lack of water during the summer growing season.

6. What can I do to help my injured

Be sure they have adequate moisture. This may mean irrigating plants in mid-winter. Our current moisture status is OK, but unless we receive some snow or rain in January, plants may have to watered in February. Also, you may want to fertilize any freeze damaged trees and shrubs in late February or early March to help promote new growth and healing of damaged tissues.

High Plains Water District will hold election Jan. 21

Voters in eight High Plains Water District counties will go to the polls on January 21 this year for the annual election of a slate of District Directors and County Committeemen. The ballots will list three Board members for re-election, and positions for 24 county committeemen.

District Directors Gilbert Fawver of Floydada, James Mitchell of Wolfforth, and Mack Hicks of Levelland, will seek re-election. Fawver is seeking his second two-year term. Mitchell will seek his fifth term of office and Hicks a third term. Directors may serve an unrestricted number of two-year terms, while committeemen are elected for four years and may not serve more than two consecutive terms.

The number of acres a wheat farmer can enroll in the U.S. Department of Agriculture's 1984 payment-in-kind program will be limited so that no farmer will receive more than \$50,000 in benefits, a USDA official said.

Everett Rank, administrator of USDA's Agricultural Stabilization and Conservation Service, said payment limitation is a ceiling imposed by law on the total amount of payments a farmer can receive for participation in USDA's production stabilization programs.

are not subject to this limitation, Rank

"Because the 1984 wheat loan rate was reduced from the statutory \$3.55 per bushel to \$3.30 per bushel to maintain our domestic and export markets, a portion of the deficiency payment rate may not be subject to the \$50,000 payment limitation," Rank

"The amount of deficiency payment not subject to the \$50,000 limit will be the amount that the deficiency payment rate exceeds the difference between the old \$3.55 loan rate and the \$4.45 target price. This will ensure that the total returns to participating farmers will be the same as if the adjustment in the loan level had not been made," he said.

"We do not believe the payment limitation statute applies to PIK commodities and we did not apply the limitation to last year's PIK program," said Rank. "This view has now been challenged by the General Account Office and some members of Congress.

"We continue to believe we are correct, but the issue must be put to rest so that we can get on with implementation of the 1984 PIK program for wheat. Therefore, we have decided, as a matter of administrative policy, that a farmer will not be allowed to receive a combination of PIK compensation and cash payments for participating in production stabilization programs that exceed \$50,000, using the 1984 county wheat loan rate to determine the value

of the PIK.' Rank said a proposal to make the necessary changes in the PIK program regulations will be published soon in the Federal Register and that final action on the changes would be completed before the sign-up period for the 1984 program ends February 24.
