COUNCIL DENIES PERMIT FOR 'MOONIES'

City Election Called April 2

During the regular February meeting Thursday morning, Lockney city council called an election to choose successors to Mayor Claude Brown and aldermen Thurman Davis and Bobby McCormick, whose terms will expire in April. The city election is scheduled April 2.

City Attorney recommended that election notices, ballots, and polling-place instructions be printed in Spanish as well as English, and that someone be available to give oral instructions in Spanish at the polling place.

The Lockney aldermen turned down without consideration an application from the "Unification Church" for a

vendor's permit. Members of the "church" had sought permission to sell merchandise (candy, flower, etc.) in the city, but their application, according to city attorney Paul Lyle, did not conform with the city's ordinance, so the council did not consider the permit application.

City secretary Erma Lee Duckworth reported that the recent water-rate increase would bring in an additional (approximately) \$20,000 per year, or about a 25% annual increase in city revenue.

Mayor Brown reported that he had received favorable comment from South Plains Association of Govern-

ments (SPAG) and Texas Department of Health Resources on the city's application for a Community Development Block Grant for sewers and paving in the northeast part of the city.

A letter from SPAG said in part: "...The Executive Committee of the South Plains Association of Governments has reviewed your preapplication for a Community Development Block Grant and found your project well designed and consistent with existing plans. The Association gives favorable comment and recommends that the application be approved..."

SPAG, the letter said, concurs in a statement by the Texas Department of Health Resources. A letter to the city from that department said in part: "...This department endorses the efforts of the City of Lockney in their attempt to eliminate potential health hazards..."

Total of the grant requested is \$206,129. The wastewater collection portion of that total is \$60,047.50; engineering costs, \$6,005.50; "contingencies" \$6,005.00; paving project costs, \$134,071. "Approximately 225 persons in the minority area of the city will benefit..." according to the state health resources department's letter.

There was a preliminary discussion on next year's budget.

Present at the council meeting were in addition to Mayor Brown, Lyle, and Mrs. Duckworth were aldermen Davis, J. D. Copeland and Jerry Perry.

which case the award ceremony will be held the following night. Whether Monday or Tuesday, the

award presentation will start at 7 p.m. in the Lockney Elementary School Cafeterium.

Lockney High School students will be admitted free. Admission charge for others is 25 cents each.

LHS favorites, personalities and beauties, as well as "Mr. and Miss LHS" will be announced at the awards program.

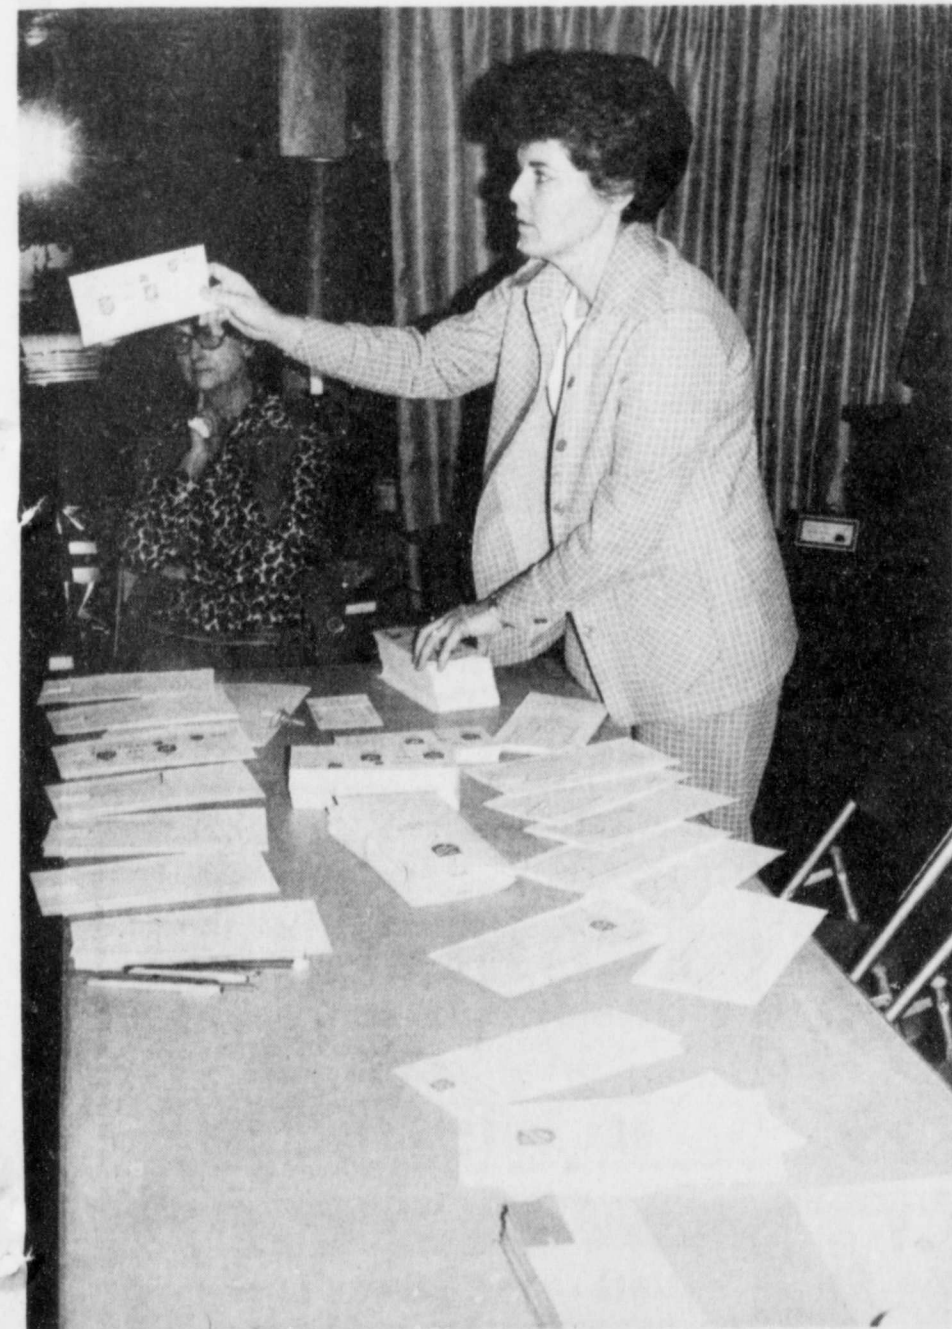

DAMAGING RURAL MAILBOXES is a Federal offense, according to Lockney Postmaster Douglas Meriwether, who holds one which was damaged recently on Route 2, Lockney, about four miles east of the Cedar Hill community. It was the third one belonging to the same rural customer to have been destroyed recently. The most recent vandalism, discovered the last of January, apparently involved shotgun and rifle blasts and maybe the stoke of an axe or similar instrument. Whoever did it faces a possible fine and imprisonment if they are caught, Meriwether says. (Staff Photo)

FLOYD COUNTY UNDERGROUND WATER

Ground Water Decline

AUSTIN The future course of underground water depletion in Floyd County and its effect on irrigation water production are projected through the next 44 years in a new report released by the Texas Water Development Board (TWDB).

James M. Rose, Executive Director of the Board, said Report 211, an "Analytical Study of the Ogallala Aquifer in Floyd County," charts the impact and future course of the aquifer in the county.

The study and report were made by TWDB staff members A. Wayne Wyatt, Ann E. Bell, and Shelly Morrison.

Rose said most High Plains residents know that the area's ground water is declining and that the Board, recognizing the importance of the area to the state's economy, are continuing to search for additional supplies of water.

Guidelines provided in the report were obtained by the use of electronic computers that simulate the aquifer's behavior and should provide the groundwater user in the county with reasonably good estimates by which future management decisions can be made.

Floyd County had about 8.8 million acre-feet of ground water in 1974. The study shows that 58 percent, or 5.1 million acre-feet, will be left by the year 2000 if past water-use patterns and aquifer behavior are continued in the future. Only 3.3 million acre-feet or 38 percent will remain in storage by 2020.

Pumping lifts in wells which now range from less than 100 to 425 feet, will increase to nearly 450 feet in some areas of the county by 2000 and will approach 475 feet in some local areas by 2020.

Compared to the 254,000 acre-feet of water produced in 1974, the amount expected to be produced in the years 2000 and 2020 is about 180,000 and

146,000 acre-feet, respectively, an overall decline of 43 percent.

Nowhere in the county is the water expected to be exhausted, but yields of wells will decrease and expense of irrigation pumpage will climb. The increased lifts will require more energy and thus greater cost in bringing the water to the surface.

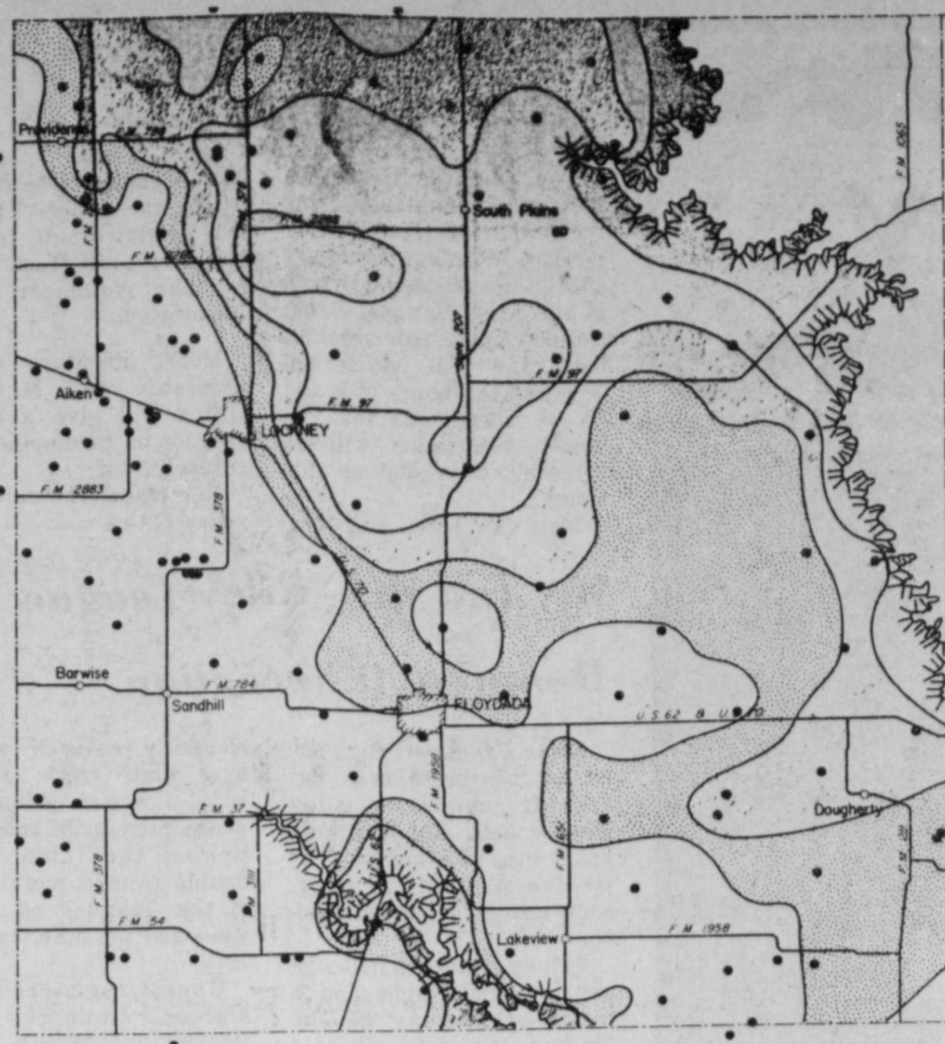

During the past three decades, the withdrawal of ground water has greatly exceeded the natural recharge of the aquifer. If this overdraft continues, the aquifer ultimately will be depleted to the point that it may not be economically feasible to produce water for irrigation, the authors state.

These findings, the authors emphasize, are based on the continuation of past trends. Future events can be very different if these trends change, the authors say. The most determinative factor may be the decisions of the water users themselves.

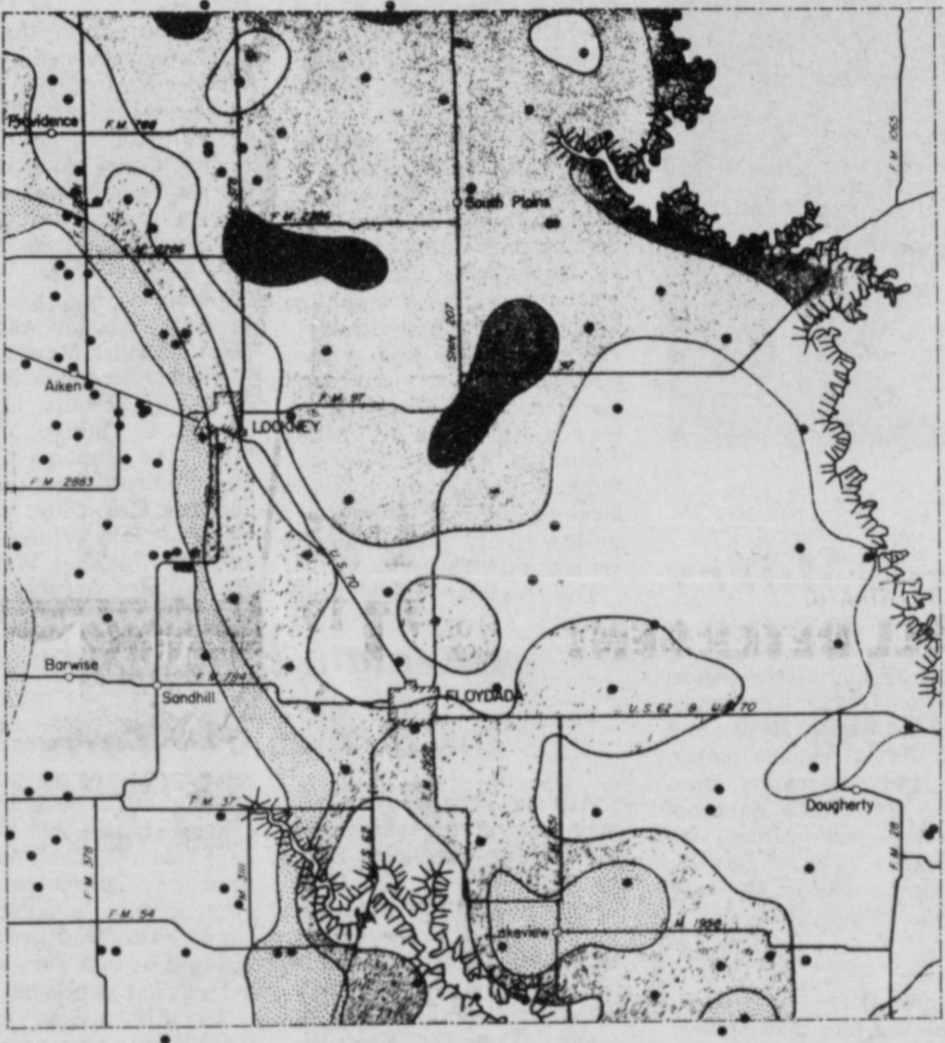

The report contains maps, charts, and tabulations which reflect estimates of the volume of water in storage in the Ogallala Aquifer and the projected depletion of this water supply by decade periods through the year 2020. The report also contains estimates of pumpage, pumping lifts, and other data related to current and future water use in the counties.

The maps in the report are intended for use as general guidelines only and are not recommended for use in determining water availability when buying and selling specific tracts of land. It is recommended that a qualified ground water hydrologist be consulted to make appraisals of ground water conditions when such transactions are contemplated.

Copies of the report are available without charge from the Texas Water Development Board, P. W. Box 13087, Austin, Texas 78711, said Rose.

A Weekly Report Of Agri-Business News
Compiled From Sources Of The
TEXAS DEPARTMENT OF AGRICULTURE
John C. White, Commissioner

It's Only Money . . . Sheep Feeding Declines . . . Grain Stocks Increase.

Cotton has again assumed the number one position in value of Texas farm crops. The value of the crop for the 1976 season was more than \$1 billion. Upland cotton was worth \$1,010,880, American Pima cotton was worth \$4,800,000, and cottonseed had a value of \$119,354,000. Add that together and the 1976 cotton crop was worth \$1,135,034,000. That represents one-third of the total value of the nation's entire cotton crop.

Grain sorghum, which has been the number one cash crop for the past few years, slipped into number two position with a 1976 value of only \$647,309,000, or about one-half the worth of cotton. Sorghum value in 1976 was about \$250,000,000 under the 1975 crop, reflecting lower prices and lower acreage. Still, the 1976 figure is about half of the nation's total grain sorghum value.

Corn ranked third in total value in the State. That crop had a cash value of \$450,000,000, which is \$150,000,000 more than the previous year.

Wheat is in fourth place with a 1976 value of \$325,710,000. This is \$120,000,000 below that of the previous year, again due to lower prices to producers.

A crop you probably wouldn't consider in the top five money makers is nonetheless in fifth place. That crop is hay. The value of the hay crop in the state for 1976 was \$260,445,000.

SHEEP FEEDING IN TEXAS continues to decline. The Texas Crop and Livestock Reporting Service notes that the number of sheep and lambs on feed as of Jan. 1 is the lowest since 1966.

Sheep and lambs on feed totaled 160,000 head on Jan. 1; this is down 15 per cent from a year ago.

Animals on feed are those intended for slaughter being fed a ration of grain or other concentrates or on succulent pastures and expected within the next three months to produce a carcass that will grade good or better.

STOCKS OF GRAINS in both Texas and the nation show an increase from last year. Texas stocks of the four feed grains -- corn, oats, barley and sorghum -- are estimated at 303,000,000 bushels, up 32,000,000 bushels from last year. Corn stocks accounted for the increase.

Wheat stocks are estimated at 98,000,000 bushels, up 39 per cent from a year ago.

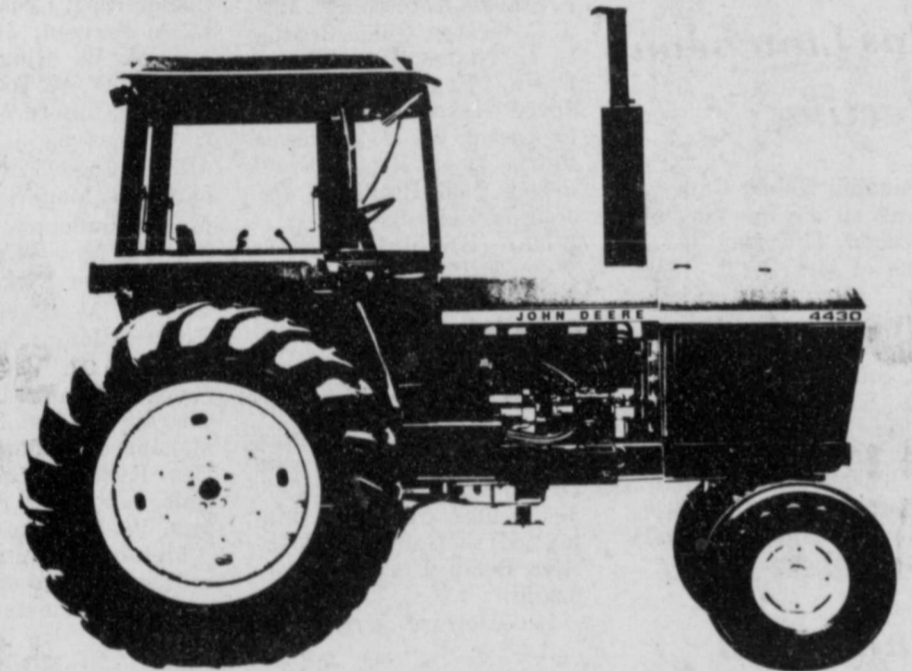

Nationwide, Jan. 1 stocks of all wheat were 28 per cent above a year earlier. Stocks of the four feed grains -- corn, oats, barley and sorghum -- are up seven per cent from a year ago.

In Texas, grain sorghum stocks are down nine per cent from last year; corn stocks are 49,000,000 bushels above last year.

Miss Burk presented some very good points on hair care saying the hair is made up of scales. Always comb the hair well before washing and never attempt to remove tangles while the hair

is wet. When combing always start at the ends of the hair and comb up, never from the scalp down. When using electric rollers or curling iron never comb hair until it is completely cool. Miss Burk said this prevents breaking the ends of the hair.

She told the group that Lighthouse Electric was in the process of publishing another cookbook and invited members to send in their favorite recipes.

Athenians Enjoy Love And Strawberry Tarts

Athena Jr. Study Club members met for their regular meeting Thursday, February 10, in the home of Mrs. Larry Golden. Introducing the theme for the evening, Mrs. Wilbur Mize, accompanied by Mrs. John Peck at the piano, led the group in singing "Love Will Keep Us Together." Members then took turns telling their favorite love stories, which included personal reflections; Biblical examples; and some well-known novels, such as "Love Is Eternal" and "The Gift of the Magi."

Highlight of the evening was a heart-shaped gift exchange. From a jar each member drew a valentine with another member's name on it, then gave the gift she brought to that person, telling why she appreciated her.

An intermission for refreshments separated the program and the business session of the meeting. Scrumptious, homemade strawberry tarts, coffee, tea, and Coke were served by the co-hostess, Mrs. Lewis Diepenhorst.

The upcoming district convention was the main topic of discussion during the business session. It will be held March 11 and 12 in Lubbock at the South Park Inn.

Mrs. John Peck brought the new "Vibra Marker," a machine for marking identification or personal possessions, which Athena has purchased to be used by members, and then made available to other citizens of the community. The club voted to sponsor a bike-athon for Cystic Fibrosis later in the spring. Mrs. Bill Hunter was placed in charge of organizing this project.

Mrs. Wilbur Mize, who is the state TFWC arts department chairman, has been assigned to design and oversee construction of an official Texas badge for state TFWC officers to wear to the various conventions they attend. She presented her design and the materials, asking Athena members to help construct the pattern badges to be sent out to the other junior study clubs in Caprock district. COOKING Brilliantly TIPS FROM THE TOP

You can give your green peas a fresh French flair by covering and cooking them in a saucepan lined with lettuce leaves for 15 minutes. The lettuce provides the moisture needed and helps the peas keep their flavor.

A cherry topping for cheesecake can be a sweet cherry glaze made by arranging one drained can of pitted light sweet cherries over the top of the cheesecake and heating 3/4 cup of red cherry jelly slightly, stirring until smooth and soft. Spoon the softened jelly over the cherries and chill well.

To help fish and seafood really cut the mustard, make a mustard sauce. Heat dry mustard, flour, salt, cream and sugar in a double boiler. Add a beaten egg yolk and heated vinegar and serve hot.

Is Seeing Believing?

Ever talk, really talk, to someone who's blind? Someone who depends upon their fingertips to get the message, and knows that it's late afternoon only when the warm sun kisses their cheeks?

You may find that they "see" a lot more than we do!

In a dark world, people come to the truth by the sound of voices, the feel of things, the touch of others. Much of life is a sham. Hairstyles don't matter, nor the kind of car someone drives, or the cost of their clothes, or the lavishness of their home. It is the person who counts.

A blind person knows faith, too, because he has needed it desperately, because he's had to grope for it, because it's become very tangible, very precious, when finally he has found it.

We could take lessons.

We deliver.

Always have.

After more than 35 years of experience, the member-owned electric cooperative has the distribution problem down pat, delivering an abundant supply of dependable power. Our cost of delivering power has been kept under control.

But the price of power and the cost of generating fuels is something else. A shortage of natural gas means higher electric bills. Conversion of generating plants to alternate fuels is expensive. And the people who generate our power are no happier than we are with these increased costs.

But our job has always been to deliver power as efficiently, as dependably and as economically as possible. This we have done. This we are doing. And this we will do. It's a 35 year tradition.

Mental Health Services Provided In Floydada

Mental Health Services are available for residents in Floyd and Motley counties through the local Family Service Center located in the Courthouse. The Floydada office is a satellite office from the Central Plains MH/MR Center in Plainview. Mrs. Audette Kincaid is the Community Mental Health Worker locally, who has regular office hours or people having questions or needing information about mental health and mental retardation services.

A therapist visits the office on Tuesdays and Thursdays of each week. Joe Tillman M.S.W., has appointments with individuals, families, and groups throughout this two county

area. According to Tillman, "individual, group, marital, family counseling is available locally through the Floydada office." The type of therapy provided each client or clients depends on the presenting problems that people are wanting to work with.

Tillman explains therapy as a sitting where individual (s) verbalizes a stressful situation. Therapy gives people a chance to look at their intradynamic personality make-up, and how a person may want to change behavior according to pressure.

A large majority of counseling done through the local Family Service Center involves marital and (or) family therapy. These types of

therapy involve more than one person and usually other family members. "In family therapy," Tillman states, "the identified client may not be the only one with a problem." He continues, "often the presenting problem is only symptomatic of the relationship patterns within the family unit."

The local office provides therapy for the public on a sliding scale fee charge commensurate with a person's ability to pay. According to Tillman, "the services provided through the local office attempts to meet the needs of the community and of those asking for help." Tillman and other staff members are available, at no charge, for community organization programs related

to behavioral problems individually, marital or family. Persons interested in finding out more about the services through the local office, may contact Audette Kincaid at 983-2584. In conclusion, Tillman states, "the local office is provided for people in Floyd and Motley counties. We want people to feel free to call us at any time."

Museum Board Has Meeting

The publishing of Floyd County history, book form, was discussed at the quarterly meeting of the Floyd County Historical Museum board members. Dave Taylor of Lubbock presented cost estimates of different sizes and bindings of books.

The board met in a called session February 7 in the museum to vote their ap-

proval of entering into contract with the publisher. History books of several neighboring counties were examined before casting votes.

The History of Floyd County will contain family histories of all who wish to participate. No length of residency or limitation to early day settlers will be imposed. A set number of columns will be offered for each story. If a family does not use all the space contracted, pictures or fillers may be used.

Mrs. Virginia Taylor, board president, will announce a general committee and a field committee for each community in the county. Additional details will

also be announced later. Members attending the meeting included Helene Holt, Reba Henry, Joyce Williams, Alice Henry, Jim Word, J. D. Copeland, Joe Parrish, Grigsby Milton, Ted Bell, Sherry Colston and Virginia Taylor.

Children's Theatre Production

At Elementary School Thursday

(It was announced in last Thursday's Beacon that the National Children's Theatre production of DANIEL BOONE would be on Wednesday, February 16. The children's play will be presented on THURSDAY, FEBRUARY 17.)

In honor of the United States Bicentennial, the Il Penseroso Junior Study Club is proud to be able to present the first performance of the National Children's Theatre Association's touring production of DANIEL BOONE, at 9:30 a.m. and 1:30 p.m. on February 17 in the Lockney Elementary Cafetorium.

This new play written especially for the National Children's Theatre Association tells of the life of Daniel Boone from a teenager son of a Quaker family, growing up in the wilds of early Pennsylvania, to his death at 86 in Missouri.

Children of all ages will thrill at the great courage of Boone as he carved out the famous Wilderness Trail through the Appalachian Mountains to open the West to settlers; how his son and his brother were killed by Indians; and yet he made friends with the Indians in

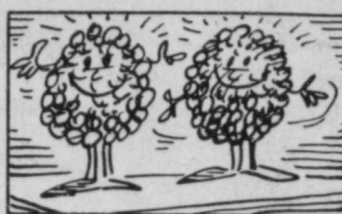

order to protect hundreds of settlers.

The excitement of Boone saving his daughter when the Indians captured her; and his leading the settlers to victory over the Indians when they attacked Fort Boonesborough, will have audiences on the edge of their seats.

This Bicentennial True American History play will have colorful authentic costumes (including the famous Black Buckskin suit Boone wore), beautiful scenery and music, making this a treat for all children to see and enjoy.

The National Children's Theatre Association of Dallas and New York has assembled a cast of professional adult actors to portray the roles in DANIEL BOONE, American Frontiersman.

Tickets are 25 cents and will be on sale at the door.

Wash blackberries and raspberries just before use. Water causes mold on these berries.

DANIEL BOONE tells two of his children, Jemima and Israel, about his plans to take the family to settle in the beautiful land called Kentucky. The touring NATIONAL CHILDREN'S THEATRE COMPANY'S production of this Early American history of DANIEL BOONE, AMERICAN FRONTIERSMAN, written by Marian DePew Ostrander, will be presented February 16 at 9:30 a.m. and 1:30 p.m. in Lockney Elementary School Cafetorium by Il Penseroso Junior Study Club. Tickets may be purchased at the door on the day of the performance, 25 cents.

A 10-minute call to San Francisco doesn't take a lot of dough.

For just \$2.44 or less, you could take down these recipes by Long Distance.

We're printing these recipes to make a point: a Long Distance call lets you say so much, for so little.

In a 10-minute phone call to San Francisco, between 5 p.m. and 11:00 p.m. tonight, you could take down the recipes below. And by dialing 1+, the most you pay is \$2.44, plus tax.

So enjoy a pleasant visit tonight by Long Distance. Whether you call to get a couple recipes... or just to find out what's cookin'.

1. SOURDOUGH STARTER

1 package active dry yeast
2½ cups warm water (105° to 115°)

1 cup instant nonfat dry milk
2 tablespoons sugar
4 cups all-purpose flour

a) Stir yeast, water, dry milk and sugar in 2½ quart crock or non-metallic bowl until yeast is dissolved. Stir in flour gradually until a smooth batter forms. Let stand loosely covered in warm place, 3 to 5 days. Stir down batter occasionally. Store loosely covered in refrigerator.

b) Replace exact amount of starter used for each recipe by stirring equal amounts of homogenized milk and flour back into starter. (For example, replace 1 cup starter with ½ cup homogenized milk and ½ cup flour.) Let stand loosely covered until it bubbles, overnight. Stir down. Each time this process is repeated, the starter becomes more active and develops a more sour flavor. Note: if stored as much as two to three weeks between usings, just pour off the watery layer on top and replace following procedure in (b).

2. SOURDOUGH BREAD STICKS

1 cup instant nonfat dry milk
1 cup warm water (105° to 115°)
1 cup Sourdough Starter (see Recipe No. 1)
2 cups all-purpose flour
3 tablespoons vegetable oil

2 teaspoons salt
2 teaspoons sugar
½ teaspoon baking soda
½ to 1 cup all-purpose flour
¼ cup butter or margarine, melted

a) Mix dry milk, water, Sourdough Starter and 2 cups flour in non-metallic bowl, cover loosely. Let stand in warm place until mixture is coarse and bubbly, at least 8 hours.

b) Mix oil, salt, sugar and baking soda into sourdough mixture. Stir in enough of the remaining flour to make dough easy to handle. Knead dough lightly on well-floured board, about 2 minutes.

c) Roll dough into rectangle, 15 x 10 inches, on well-floured board. Cut into fifteen 1-inch strips. Roll each strip into even round strand, about 14 inches long. Double strand over and twist to form bread stick. Place bread sticks on greased baking sheet; brush with melted butter. Cover with plastic wrap. Let rise in warm place until double, 1 to 1½ hours.

d) Heat oven to 375°. Bake bread sticks until golden brown, 30 to 35 minutes. (Makes 15).

Cotton Officials Optimistic

The search for solutions to cotton's problems dominated official functions at the recent National Cotton Council convention in Orlando, Florida. But in off-stage conversations, optimism was the order of the day.

So reported Donald Johnson, Executive Vice President of Plains Cotton Growers, Inc., Lubbock, on his return February 1. "It seemed to me a big majority at the meeting, representing all segments of our industry, expect 1977 to be a good year for cotton," he said, "with prices improving and holding at satisfactory levels through harvest of the 1977 crop."

Cotton prices received by farmers in calendar 1976, according to the U. S. Department of Agriculture, across the belt averaged 60.6 cents per pound, up from 42.9 cents in 1975. Meanwhile food and feed grains, major alternative crops, were suffering severe price declines, causing some to expect a huge increase in cotton acreage, overproduction and sharply lower prices for cotton in 1977 and 1978.

"Such a possibility certainly exists," agrees Johnson. "but the prevailing opinion in Orlando was that U. S. and foreign acreage and production increases in 1977 aren't likely to be that large."

USDA's report in January put U. S. planting intentions this year at 12.8 million acres, up 10 percent from the 11.6 million planted in 1976. Many at the NCC convention believe domestic and foreign markets can absorb the production from 12.8 million acres without collapsing prices. They cite expected world cotton stocks of less than 20 million bales on August 1, 1977, the lowest since 1924, and a U. S. carryover on that date down to near 3 million, down from 3.7 million the previous August.

"Also, there are a lot of people who doubt that plantings this spring will actually reach the 12.8 million intentions figure," Johnson notes. "And they could be right," he adds, in view of water problems in the far West, three years of poor crops for land-competitive soybeans, too much rain in the Rio Grande Valley and less than ideal subsoil moisture on the High Plains.

Johnson's own thoughts about 1977 price prospects are largely in agreement with those found in Orlando. "Barring extremely favorable growing seasons in all major cotton producing regions of the world and/or an economic recession, world production this year isn't expected to exceed world consumption. And since we have tight supplies and fairly strong prices now, I see no reasons at this point to expect any sustained downward pressure on prices for the rest of the year."

Certain Tax Guidelines Apply For Separated, Divorced Parents

Certain tax regulations apply to separated and divorced parents in claiming children as dependents on tax returns, the Internal Revenue Service said.

Since only one parent can claim each child as an exemption on his or her return, the parent, generally, with custody of the child for the greater part of the year is entitled to the dependency deduction.

According to the IRS, there may be an exception to the rule based upon terms of the decree and the amount contributed to the child's support by the parent without custody.

Once a determination of dependency is made under these rules, the same determination applies in other areas requiring dependency, such as medical expense deductions.

The free IRS Publication 501, "Your Exemptions and Exemptions for Dependents," covers claiming children as a dependency deduction and can be obtained by filling out the handy order blank appearing in the instructions portion of the tax package.
