Cummings Sets WT Track Records

Zach Cummings helped West Texas State University's track team defeat Texas Tech in a dual meet last Friday. The former Lockney High School athlete, son of Mr. and Mrs. Sterling Cummings of South Plains, turned in two record-setting performances, winning both the 60-yard high hurdles (in 7.1 seconds, tying the WTSU record and setting a new record for the WT Activity Center) and the 60-yard intermediate hurdles (in 7 seconds flat, setting a new school record and tying the Activity Center record).

Cummings' performance in the dual meet Friday brought to four (out of 11) the number of WTSU track running-event records held by "Lockney boys." Sprinter Tracy Dickson owns the WT records in the 440-yard dash (49.2) and the 60-yard dash (6.0), having set those

marks in 1972 and 1973, respectively.

Cummings' also qualified for the NCAA Indoor Invitation Meet March 12 in Detroit. Sunday and Monday (February 27 and 28) he'll run in the Missouri Valley Conference Indoor Championship Meet at Columbia, Missouri.

In the U.S. Track and Field Championship Meet February 12, Cummings made the semifinals, beating the eventual 60-hurdles winner in the quarter-final event.

Tax Office Closed Friday

Lockney Independent School District tax office will be closed Friday, February 25. Tax office personnel will be attending a meeting in Amarillo.

Fire Friday Night Destroys Shores Home

A fire Friday night at the residence of Mr. and Mrs. Melvin Shores, in the 400 block of East College Street, completely destroyed the house and everything the family owned. Units of the Lockney Volunteer Fire Department answered the alarm at about 7:30 p.m. Friday.

The house, reportedly one of the first built in Lockney, "the Old Dagney Place", burned to the ground. Firemen were able to save only the refrigerator.

Mr. and Mrs. Shores, their three children --William, age four, Letha May, six, and Darrell, seven --and Shores' nephew and his wife, Mr. and Mrs. Harold Dean Chandler from Warner, Oklahoma, were in the house when the blaze was discovered by Mrs. Shores.

"I was just starting to put the children to bed," Mrs. Shores said. Now she's glad she didn't --everyone got out of the burning structure without injury (the visiting Chandlers had just taken their clothing from their car into the house).

Shores, who owned the house, reported that he carried no insurance on the home or contents.

Several Lockney individuals and organizations have helped the unfortunate family with donations of clothes, furniture, and cash. The Lockney Salvation Army unit paid for rooms for the family at the Lockney Motel. Employees of Lockney Feed Yards, where Shores had worked until recently, also paid for a night's lodging for the family. The Lockney Fire Department Ladies Auxiliary has collected clothing and furniture for the Shores, and local churches have taken up special collections to help the family. "People we

didn't even know have come by with things," Mrs. Shores said. Interviewed in their motel room Monday afternoon, Mr. and Mrs. Shores expressed appreciation to all the Lockneyites who had "helped out."

The fire department has not determined the cause of the blaze, but

Shores theorized it was the result of faulty electrical wiring since lights in the house were blinking shortly before the fire was discovered.

Mr. and Mrs. Raymond Parker returned last Friday from a visit downstate. At Hico, Texas they spent ten days with Dale and Vesta Wood. At Cleburne, the Parkers visited with the Smith relatives, and at Buffalo Gap they spent four days with their son, Charles and Sandra Smith and their girls, Holly and Wendy.

Mrs. Cliff (Elaine) Hardy spent last week in Galveston undergoing medical treatment.

Mr. and Mrs. C. H. Rose and Mr. and Mrs. Clyde Hill spent one day last week in Lubbock visiting with the Lewis Busbys.

The Herman Huffmans, who live six miles northwest of Lockney, recalled with interest the story of the "run-away box car" in April 1947, which was reprinted on the front page of the Feb.

6th paper. On that night, Mr. and Mrs. Herman Huffman were watching an approaching storm to the west. The Fort Worth and Denver track is about 1/8 mile south of their house, and when a flash of lightning lit up the vicinity, they saw the box car headed east down the track. They called to their children, Janet, Joe and Charles, so they too could see this unusual happening.

Mrs. J. B. Allen's grandson and his family, Mr. and Mrs. Craig Tannahill and children of Lubbock, visited with her Sunday afternoon.

Mrs. Lozelle Graham spent from Tuesday until Friday of last week in St. Marys Hospital, Lubbock. She was there for the removal of pins from her back which were placed there during a bone-graft operation in October.

VA News

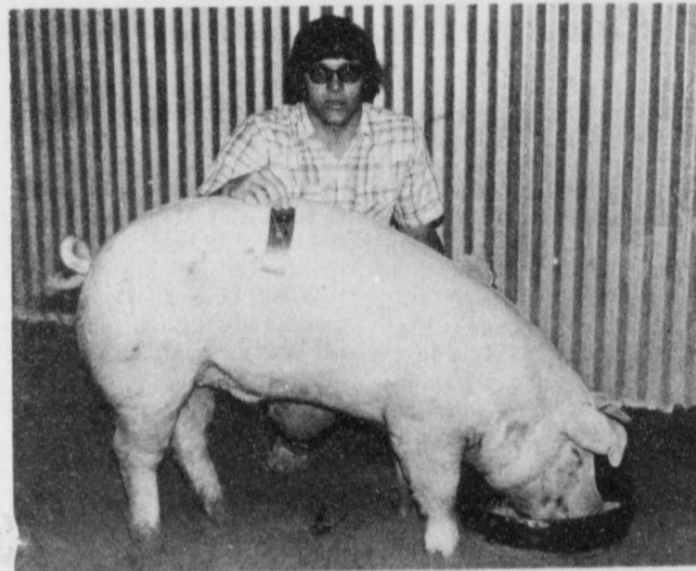

As the nation's taxpayers ponder the new federal income tax returns, the Veterans Administration reminds recipients of veterans benefits that these payments generally are exempt from taxation.

Major tax-exempt VA benefits are compensation, pension and educational assistance. The latter includes subsistence payments to vocational rehabilitation trainees. These monthly payments need not be reported on federal income tax returns, Jack Coker, VA Regional Director, said.

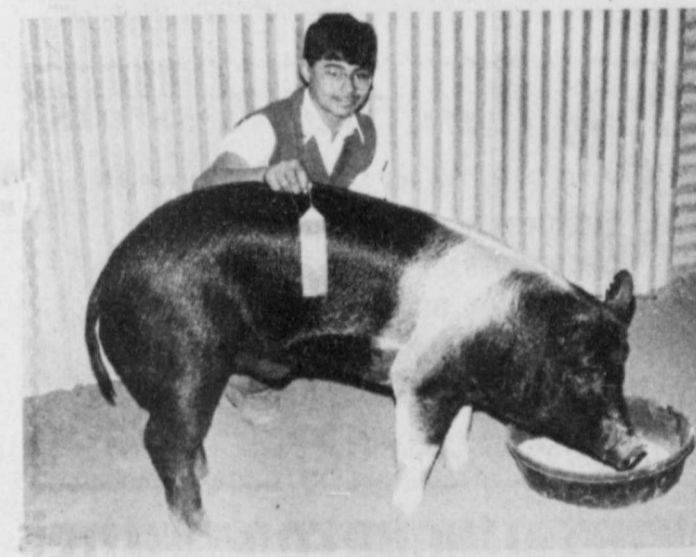

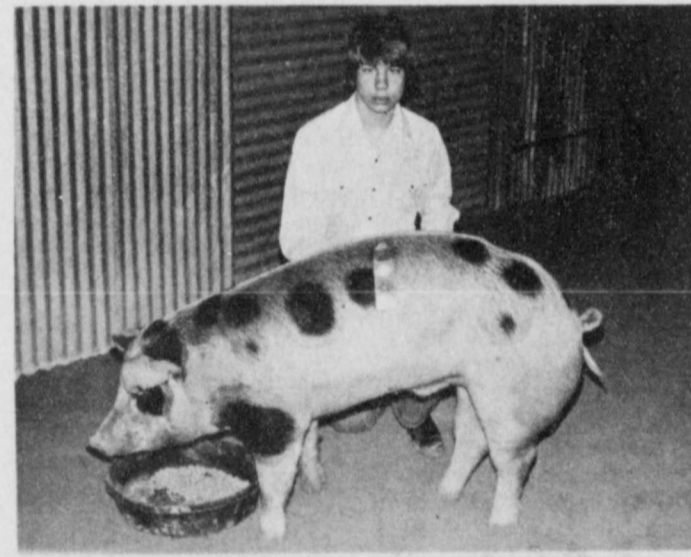

Also exempt are VA grants to military service-disabled veterans for specially adapted homes and automobiles and clothing allowances paid to service-disabled veterans whose usage of prosthetic or orthopedic appliances result in undue wear and tear on clothing.

Dividends and proceeds from government life insurance policies are exempt from federal income tax, but the proceeds are subject to federal estate tax, Coker explained.

Interest accrued on government life insurance dividends left on deposit or credit with the VA is not exempt and must be reported on federal income tax returns, Coker added.

WHEN time permits we hope to do some stories on some of the young people who are returning to Floydada to make their home. Off-hand I can recall four young families who have recently returned. Mac Wilson is working with his dad, at the lumber business, Lannie Glascock is farming with his wife's parents, the Weldon Hammonds, Gary Matsler is now managing Leonard's Cafe, however, his father is still working there, and Charlie Overstreet is a vet at Dougherty.

Our Antiques Program For Homebuilders

"Our Antiques" was the program given at the Homebuilders Home Demonstration club in the Mrs. Gordon Mayfield home February 22. Devotional from Leviticus 8:31 was read by the hostess. Each member answered roll call with a show and tell antique piece belonging to them. There were pieces of art glass, jewelry, salt shakers and salt shakers, and various pieces of glassware and china. Each piece had an interesting history and was a family heirloom. Mrs. Raymond Williams had the program for the afternoon. Being an avid collector of antique glassware she gave a very informative program. She stated the history of glass goes back to 1607, made in Jamestown. There is no glass existing from that period. Very little exists that was made in 1700. Glass was not in general use here before 1800 except for windows and bottles. All glass was hand blown before 1825, and pressed glass was invented in 1825. Color was

put into our glass after 1825. Blue, amethyst, aquamarine, soft green and amber. Also milk glass became prominent. By 1800 America was producing many kinds of useful and decorative wares, and the making of ceramics had become an industry. But through the 19th century most good china was imported. All bone china came from England, Haveland and Lemoges from China, Ironstone has been used since Roman times. Holland has been famous for many years for the Delft pottery, and is still producing the beautiful Delft blue pottery. Whatever antique you may be shopping for - whether glassware, furniture, pictures or whatever, go to a reputable dealer and educate yourself first on what is authentic and inspect the item you are interested in thoroughly before you buy. But above all make sure it is an antique if that is what you are shopping for. The meeting adjourned to meet March 8 in the home of Mrs. Ernie Widener. A delicious refreshment plate, carrying out the George Washington motif was served by the hostess to Mmes. Raymond Williams, Ernie Widener, Elmer Norrell, Raymond Evans, Ruth Trapp and Bill Smith.

The Floydada Speech and Drama Club is hosting their first invitational speech tournament, this Saturday, February 26th. Individuals who have volunteered their time as judges and time-keepers need to be at the High School or Andrews Ward 15 minutes before took time to say Happy Birthday. It meant so much to her. Mrs. Luttrell's twin sister, Mrs. Minnie Martin, who many will remember, lives in Texarkana, Texas and is doing well.

their scheduled round. The tournament is appearing to be well received. So far sixteen schools have sent in entries. Schools participating are: Brownfield, Clovis, Idalou, Lockney, Lorenzo, Lubbock-Cooper, Lubbock Coronado, Lubbock Christ-Moss, W. O. Newberry, Vernon Parker, George Springer, L. B. Stewart Jr., W. Mrs. Lillie Luttrell...A spritely 93... Still loves a part ANY day And MISS one...NO SIREE! Mrs. Hammonds has her day...The same as Valentine... So "hearts and flowers" have filled her life And things have been just fine! We cannot leave a party Without the birthday song... So get your voices ready now And join the "sing along." February 17, women of

the City Park Church of Christ entertained residents of the Rest Home with their regular monthly birthday party. After everyone was seated in the dining room and pictures were made by the Hesperian photographer the party was off to a lively start. The poem was read and all joined in singing the "birthday song."

The "honor" table was laid with a white cloth and centered with a lovely arrangement of fresh flowers which Mrs. Hammonds had received for Valentine's. Special birthday cards marked placed for the honorees and all were able to be present. A delicious chocolate cake was served, complimented by a delightful fruit punch, to all residents, guests and employees.

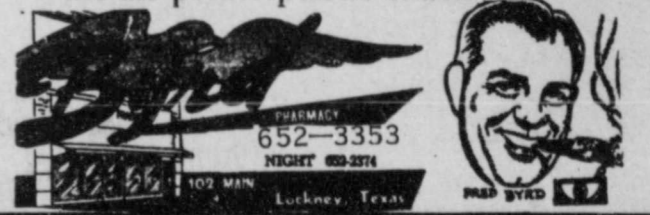

The next party will be Thursday, March 17, 2:30 p.m. You are invited to attend, especially if you have a friend or relative who is being honored.

Postal Service Estimates \$514 Million Public Loss

February 21-26, 1977 is the second annual Postal Service's interest in -and protection of -its consumers.

"American consumers lost and estimated \$514 million last year as a result of mail fraud and misrepresentation-by-mail schemes," according to Postmaster Ed Wester.

Accounting for most of the losses were schemes involving stocks and land investments, credit misrepresentation, and false claims against insurance companies.

"In a concerted effort to

assist consumers, Postmaster General Benjamin F. Bailar has designated February 21-26 as the second annual Postal Consumer Protection Week. This week is designed to alert the public to mail-order schemes and serves to emphasize the consumer protection activities of the Postal Service," Postmaster Wester said. "The Postal Service has been helping consumers since enactment in 1872 of the Mail Fraud Statute."

Investment schemes ranked first in dollar value, with a loss to the public of \$59

million. Failure-to-furnish merchandise ranked first in the number of complaints received, with more than 19,000 reported, involving a loss of \$2.6 million.

Postmaster Wester stressed that the overwhelming majority of those making up the \$60 billion mail-order industry are honest and seek to satisfy their customers. But, as in other industries, there are a few disreputable ones that cause problems.

The Postal Service actively investigates mail fraud and false representation by mail, and assists with mail-order and service problems, through the efforts of the Postal Inspection Service, the Consumer Protection Office of the Postal Service Law Department, the Service's Judicial Office and its Consumer Advocate.

The consumer protection activities of these departments include attempts to resolve unsatisfactory mail-order transactions such as failure-to-furnish ordered merchandise or make pro-

mised refunds. Administrative proceedings may be initiated against mail-order firms that falsely advertise their products. In cases of all fraud, the Postal Inspection Service presents investigative results to the appropriate U.S. Attorney for criminal proceedings.

"In conjunction with Consumer Protection Week, we are re-emphasizing the Consumer Service Card program, to remind consumers of our continuing interest in their mail-service and related problems," Postmaster Wester said. "Consumer Service Cards are available at the Post Office or from letter carriers, and provide the means for attacking problems individually and geographically."

"If you have any problems, complete and mail a Consumer Service Card for mail service assistance. Talk with my office or a postal inspector concerning possible false advertising-by-mail or fraud. Let's work together," Postmaster Wester added.

Weight Gaining
FOR THOSE WHO NEED TO PUT IT ON!

Countless methods of weight reduction have been introduced and their effectiveness debated upon during the past few years. Yet while latest research indicates that today, the majority of our population is overweight, often overlooked are the 13 million Americans who are actually underweight.

Poor eating habits, insufficient appetites, aversion to highly nutritious foods and high metabolisms are just a few factors skinny people are subject to. As a result, many lean or underweight people cannot participate in strenuous activities because they simply don't have the required weight to back them up. This is especially notable in sports. Many football players, wrestlers and boxers actually have to "build themselves up" to a certain weight level before they can successfully participate in their respective contact sports.

If insufficient weight is a familiar problem to you, there is a delicious food supplement called Wate-On, which has proven itself very successful in adding weight to skinny people for over 25 years. Reports from actual users have verified gains of 5, 10, 15 pounds and more.

For those who simply want to look more robust and feel better, this supplement provides an amazing source of calories, vitamins, minerals and other body-building nutrients that supply energy, strength and stamina. It is available in 5 delicious flavors, liquid or tablets.

For a free book on weight-building, write to Wate-On, Dept. WO-478, 427 W. Randolph St., Chicago, Ill. 60606.

Thieves Steal From Church, Business, Residence

Thieves hit three times in the Floydada community last weekend. On Friday night, early in the evening, the Jay S. Hale home on the Ralls highway

was broken into and robbed of jewelry and small TV set. On Saturday night, or early Sunday morning, the front door of Buddy's Super Market was broken, and a little

over \$100 stolen. Police found the cash register money trays thrown in the barrow ditch of the Ralls highway. On Sunday night the "Tabernacle" was stolen from the altar of the

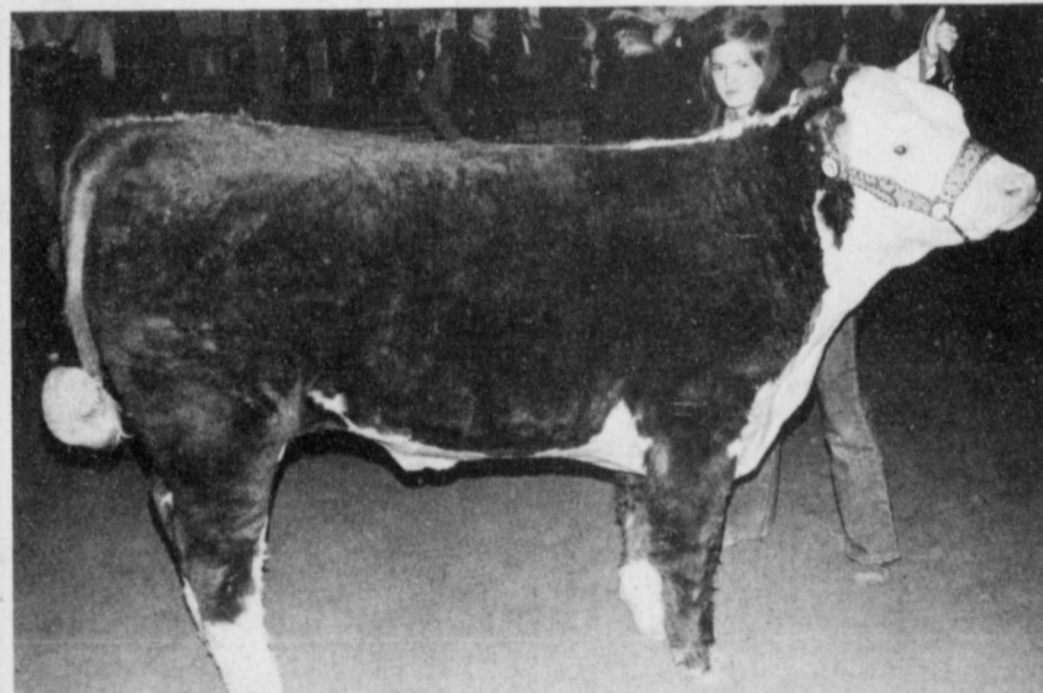

Catholic church. Tuesday city police and sheriff officers reported no arrests made as investigations continue.

Some of the foods unknown in Europe until Columbus brought them back from America are turkey, peanuts, pumpkins and potatoes.

Floydada Nursing Home Happenings

By Faye Walters

This has been a lovely Valentine week. Some days almost like summer, which the residents are looking forward to.

We have a new resident, S. G. Appling. We hope he will like it here.

During the week the Girl Scouts brought cookies and visited; the Sunshine Sunday School class from First Baptist brought fruit and gum and the Spanish Baptist Mission from Petersburg brought cookies and visited and sang songs for the residents; and Fern Anderson and Mrs. Porter brought scraps. To all these we would like to tell you how

much we appreciate them. Wednesday we had a nice field trip and enjoyed ice cream. Taking the trip were Henry Love, Viola Weems, Dora Langford, Ida Martin, Florence Badgett and myself.

Thursday the ladies from City Park Church of Christ gave the birthday party of the month for our residents. We had three with birthdays in February, Lillie Luttrell, Hope Hammonds and Bessie Powell. Cake and punch were served to all the residents and employees and visitors. It was such a nice party and we love these dear ladies for being so thoughtful.

We have had real good exercise classes this week and wonderful devotions.

Sure hope Agnes Anderson and Hope Hammonds feel like going on our field trip next week. We really miss them, also Ray Reed.

Visitors at the Nursing Home have been Mrs. George H. Wexler, Alma Ruth Nelson, Artie Webb, Mrs. George Smith, Mrs. Clarence Reddy, Mr. and Mrs. Otis Anderson, Guy Galloway, Wayne Appling, Lurene Gee, Mr. and Mrs. Floyd Anderson, Mr. and Mrs. P. L. Hunting, Fishing License Sales Down

LUBBOCK - Revenue from license sales across Texas has dropped drastically and expenses are soaring with all divisions of the Texas Parks and Wildlife Department affected.

Hunting and fishing license sales finance 44 percent of the department's operations and one of the hardest hit divisions is fisheries.

Priorities for increasing sport fisheries through 1979 are being scrutinized closely. Pike procurement and stocking, chemical reclamation of small impoundments and a 50 percent reduction in private fish stockings are three projects being reduced or dropped due to a lack of funds.

The northern pike program is included in this project cut. Surveys indicate that only a few anglers have accepted the northern pike program and most of the no. pike have been caught incidental to bass fishing.

According to figures from 1975-76, license sales are not down in the Panhandle-South Plains. The biggest drop is in the large cities and suburban areas of central and south Texas.

Measures are being taken to finance the procurement and stocking of hybrid striped bass, walleye, striped bass, and Florida bass across Texas. If revenue from license sales continue on the

downward swing through 1977-78, even these programs could be reduced or eliminated.

The P&WD is looking for ways to supplement the depleted funds by operating department vehicles for a longer period, spending less time on low priority projects, transferring personnel to high priority projects, and hiring fewer P&WD applicants.

To stimulate fishing interest in the large cities,

fishing seminars are being held by the P&WD personnel. The increased utilization of fishing opportunities should create an increase in the number of fishing license sales.

The P&WD has furnished the Texas sportsman and his family with the widest variety of hunting and fishing opportunities in the country but, many of these projects will be eliminated if operating revenue is not secured soon.

What One Person Can Do

When Bob Considine died, many of his fellow journalists considered him the finest newspaperman of his time. But it was to Considine the humanitarian that H. D. Quigg, UPI Senior Editor, paid tribute in a moving appreciation.

Said Mr. Quigg: "He was a humanitarian and few knew

it. His bearing and demeanor had the quality of majesty, but his spirit bubbled constantly with fun, with a gift for humor that crackled with originality. Stale jokes of the street were not for him; obscenity and profanity never crossed his mouth."

Mr. Quigg recalls that on news stories around the country or the world, Mr. Considine was the man who helped young journalists who were not as experienced as he. Always mindful of others, he never gave a party without inviting the copyboys first.

Mr. Considine's powers of

concentration were legendary. He used every spare moment, and besides his work as a newspaperman, columnist, newscaster and correspondent, he wrote 25 books. He loved his work, and frequently said so.

"In what other trade can a man hope to build a bridge between himself and others every day of every week and every year?" he once wrote. "Call it vanity, call it arrogant presumption, call it what you wish, but I would grope for the nearest open grave if I had no newspaper or wire service to work for, no need to search for and

sometimes find the winged word that just fits, no keen wonder over what each unfolding day may bring."

God asks no more of each of us than this: that we do what we are doing with a will, and that we leave those with whom we have worked and lived the richer for having been with us.

The word "cattle" comes from the Latin *capitale* meaning wealth or property. At one time it meant all domestic animals. Now it is used only for bovines.

Science collections

AUSTIN, Texas (Spl.) - Not all scholars at The University of Texas go to the library to do research. Some go to collections of rocks, plants or animal specimens.

UT has 10 such science collections - ranging from rare butterflies to meteorites. One of the best is in the UT Herbarium, seventh largest in the nation with 850,000 specimens of native plants from the southwest U.S. and Latin America.

The UT Herbarium collection provides vegetation data that is fundamental to programs from range management to environmental biology, and even including poisonous plants and obnoxious weeds.

If fuel costs are squeezing the profit out of your corn crop, plant

The Cost Cutter

One Less Irrigation • Lower Harvest and Hauling Costs • Less Moisture Dockage • Lower Drying Cost • More Income and Profit per Acre

Pioneer brand 3780 improves corn profits four ways. It is an early hybrid that takes one less watering than the hybrids you've been planting. It also dries faster after maturity than other corns. Since it has good standability and ear retention, you can leave it in the field to dry. This means you harvest less moisture, haul less moisture, and have little or no dockage and drying cost.

SINCE IT DOESN'T COST AS MUCH TO GROW, IT CAN MAKE MORE MONEY

In 1976, farmers found that "Cost Cutter" 3780 produced significantly more net income per acre than competitive corns of much later maturity. Though the green weight yield of later maturity corns was greater, 3780 was usually much lower in moisture and thus higher in dry yield per acre. When the saving in irrigation fuel cost was added to

the higher dry yield, it made a difference of \$20 to \$30 net income per acre.

This hybrid matures 11 to 13 days earlier than our famous 3369A but it doesn't concede yield for its earliness. Under most growing conditions, it will yield pretty close to the full-season varieties and harvest several points drier.

TOUGH ENOUGH TO TAKE IT

3780 is also a tough little hybrid that can take some stress. Head smut didn't bother it in 1976. It has good roots and stalks and holds its ears well. It is sensitive about getting pre-tassel water right on time, however. That critical irrigation time is fairly short since it passes quickly through each stage of growth.

Here are actual examples of 3780's ability to make more profit than later maturing, high yielding competitors:

	Yield wet weight lbs./acre	% Moisture at Harvest	Pay Weight after drying ¹	Gross return per acre ²	Harvest and hauling cost ³	Difference in irrigation cost ⁴	Gross return per acre for each hybrid	Dollar per acre advantage for 3780
PIONEER brand 3780	8,788	14.6	8,788	\$ 351.52	\$ 43.94	—	\$ 307.58	\$ 22.47
VS.								
M17N28*	10,729	25.1	8,669	\$ 346.76	\$ 53.65	\$ 8.00	\$ 285.11	
PIONEER brand 3780	8,156	13.6	8,156	\$ 326.24	\$ 40.78	—	\$ 285.45	\$ 26.37
VS.								
M17N28*	8,661	20.7	7,760	\$ 310.40	\$ 43.31	\$ 8.00	\$ 259.09	

*The most widely sold station cross on the Plains. It is sold under several different brand names and variety designations.
 1. Drying and dockage charge was 2% per point of moisture above 15.5%. 2. Returns figured with corn at \$4.00 per cwt. 3. Harvest and hauling costs at 80¢ per cwt. 4. The savings of one irrigation by 3780 at an estimated cost of \$8.00 per acre.

STAGGERED MATURITY

If you're farming big acreage, 3780 is the perfect hybrid to use with Pioneer brand 3369A and 3195 in a Staggered Maturity planting program. The new Pioneer program allows you to:

Hedge against weather problems.

Use water, labor and machinery more efficiently.

Harvest each variety at the optimum time.

Farabee Bill Would Protect Grain Farmer

Austin State Senator Ray Farabee has introduced amendments to the Texas Grain Warehouse Act which will upgrade existing regulations to aid in protecting grain farmers from loss through grain trading and speculation.

The bill, co-sponsored by State Representative Joe Hubnak of Rosenberg, will raise bonding requirements to the level of federally licensed warehouses, require close accounting of scale tickets and make issuance of negotiable grain warehouse receipts mandatory.

"My goal is to make the deposit of grain in a state-

protected by the current law. We must discourage those few who would speculate with the property of others," Farabee said.

The proposal will raise minimum bond requirements for warehouse operators from \$10,000 to \$15,000, and the maximum will be upped from \$500,000 to \$750,000.

licensed warehouse as safe as the deposit of money in a bank," Farabee said. "The hard work and savings of many farmers for one or two years is stored in grain elevators and warehouses."

"The grain business has changed so rapidly in the past 10 years that grain farmers are no longer fully

protected by the current law. We must discourage those few who would speculate with the property of others," Farabee said.

The proposal will raise minimum bond requirements for warehouse operators from \$10,000 to \$15,000, and the maximum will be upped from \$500,000 to \$750,000.

FHA Offering Rural Housing Loans

The Farmers Home Administration has begun a program through which it will guarantee rural housing loans made by commercial banks, savings and loan associations, and other private lenders, Alfred A. Harrison, FmHA County Supervisor for Floyd and Motley Counties, announces.

FmHA, the rural credit agency of the U.S. Department of Agriculture (USDA) will guarantee up to 90 percent of the principal and interest of these loans.

Guaranteed housing loans will be available for moderate income borrowers who cannot get housing mortgage credit without a guarantee. Applicants who cannot qualify for guaranteed loans may apply for loans made by FmHA.

At present, the USDA agency will offer loan guarantees only under its single-family housing loan program. FmHA will continue to make single-family housing loans with its own funds. It will also continue to make, but not guarantee, loans for rural rental housing, farm labor housing, housing site development, and other purposes.

Single family housing loans are made in open country, towns of up to 10,000 population, and certain designated towns of between 10,000 and 20,000 population. They finance modest but adequate housing and related facilities, Harrison explains.

Loans may be used to buy, build, improve, repair, or rehabilitate houses and related facilities, and to provide adequate water and waste disposal systems.

Guaranteed loans will be made only to applicants with moderate income, defined by FmHA as adjusted gross income of less than \$15,600 per year for residents of Texas, and not eligible for FmHA subsidized rural housing loans. Low income

applicants may be eligible for subsidized rural housing loans made by FmHA (Substitute higher limit if release is used in Alaska, Hawaii, or Guam.)

Loans to be guaranteed are limited to 97 percent of the market value of homes \$25,000 and 95 percent of the loan in excess of \$25,000. The borrower must have equity from his own resources, in the form of cash or land for the down payment notes Harrison.

The top limit for a guaranteed rural housing loan to a resident of Texas is \$33,000. The maximum repayment period is 33 years.

Harrison also reports that FmHA regulations provide lenders who obtain guarantees for rural housing loans options for selling, assigning, or selling participations in the guaranteed parts of these loans.

FmHA regulations require that the lender making a guaranteed rural housing loan be a local lender

located in or doing business in the area where the house is located.

To apply for an FmHA-guaranteed rural housing loan, contact your local lender.

The grouch of 40 will be a grouch at 80-- the happy, kind person of 40 will be a happy older person, Mrs. Vivian Blair, family life education specialist-aging, with the Texas Agricultural Extension Service, The Texas A&M University System, says.

ROGER POAGE

Pioneer brand seeds are winning hands down against all comers in this part of the country. They keep setting yield and test weight records for a lot of farmers, and that's the name of the game.

Take Pioneer brand corn, 3369A is a medium-maturity hybrid grown on more acres around the Southwest than any other variety and with good reason... profit. Pioneer 3790 is a new corn hybrid that has come on strong as an early variety with big yields at high plant level. It's about 11 to 13 days ahead of 3369A.

And, enough can't be said about Pioneer brand 8311 grain sorghum. This great hybrid makes full use of the growing season and yields big consistently, even when weather and disease threaten.

We'd like to visit with you farmers about your seed requirements. But whether you're ready to buy your seed or not, stop in soon and get your free Pioneer Hi-Bred cap.

Treasure Hunters In Floyd County

By Peggy Medley
There may be jewels underground in Floyd County and not necessarily oil. Treasure hunters from Colorado are here seeking the jewels said to be in handles of buried swords! Hunter Pritchard and Bob Velten, professional treasure hunters, received a letter and a map from a man, name withheld on request, who found such a sword or swords in Floyd County in 1933 or 1934. The two hunters say they will share their findings with anyone who may know the location of such swords if they are found. They are also seeking one of the swords which reportedly is in a museum, supposedly in this area, but a check with the Floyd County Museum failed to turn up such a jewel sword.

The two treasure hunters went on to Dallas Monday night on business and will return to the Floyd County area this weekend, to seek additional information concerning the swords. Anyone having information which they think may be of interest to the hunters may contact them through their company Eight States Associates, Inc. Box 1438, phone 303-447-2222, Boulder, Colo., 80302.

The hunters consented to have the letter published which they received from the man. It reads in part as follows:

My story begins either in 1933 or 1934. I was being reared by elderly grandparents on a small dryland farm in northwestern Texas.

My grandma was sick and old, having lost her fortune, approximately a quarter of a million in the fall of 1929, and never recovered. My step grandpa had been an old time lawman, Federal Marshall and a peace officer in Oklahoma.

Our only type of transportation other than by foot or horseback was by wagon, that being the case in this incident.

Every so often during the year we had to drive the wagon into town for supplies. The town was about six miles away and was called Lockney, Texas. It had the only cotton seed mill in that area. We bought almost all the stock feed and the bran we bought for the pigs we also used for making bread.

This particular time we went to town was in the fall of the year. It had been the usual very hot and dry summer and most of the depressions and water holes were dry and caked up. About mid-way to town I decided to walk instead of riding in the wagon. I was always doing this, barefooted as usual and mostly walking in the ditches, running, jumping and kicking at the grass weeds or dirt cakes, just being a kid, and my grandpa half asleep not paying any mind.

Along comes this depression in the land, what my grandparents told me were old time "Buffalo Wallows". The county had put their road across one end of it, and the railroad ran further out on the end of the lake. The

road grader had graded the ditch that spring, water had dried up and left dirt cakes and I kicked something solid and hurt my toe. I investigated, digging around and rolled out this bundle, seeing more of the same in the hole. I covered it back over with loose dirt and all the time hollering for my grandpa to stop the wagon and help me. I ran to catch up with the wagon and got him to stop and return with me to the bundle. He had to help me get the bundle into the wagon. As I recall I don't believe he was greatly impressed but then as sick, old and tired of life as he and grandma were, nothing short of pure gold would have impressed them.

After so many years my memory is a little faded as to the exact number of items and contents of the bundle. I remember it was about four feet long and eight to ten inches thick. I know there were at least two long swords, maybe three and two of these shorter in length, maybe two feet long and sharp on both sides and heavy. All had hilts, some with hand covers, and in scabbards or sheaths and they were jeweled.

My older brother by two years, took one of the straight bladed ones and broke about a foot and half off the tip of the blade and used it for sticking in the ground. It was real fine steel for I remember it being stuck at one time in the side of the barn walls and it would just quiver.

My grandma was upset about the hazards to us kids

with such things and she knew I would hide the swords before I would get rid of them. So somehow she contacted a school principal, a Mr. Hill and without our presence he came and gathered everything up. I was too young and too upset to do anything about it. I recall the principal trying to get me to tell him where I'd made my find but I never told a living soul UNTIL NOW. My grandpa knew about where, but to my knowledge he never went back looking nor did he ever mention it to anyone.

Grandpa's adopted son was five years older than me and we were closer than my older brother and me. He always told me I should never tell my secret to anyone until I was ready to dig it up myself. All these years that the way it been, and now...out of that family of five, I'm the only one alive. My doctors gave me one year of life four years ago, so its just a matter of time. So if your looking and maybe finding what I found so many years ago then it won't be one of those lost forever items, will it?

I don't know what else I can tell you. Try to understand my maps are of a 11 year old boy. The last time I lived there was 1935 and things have a way of changing and it isn't much to go on.

The letter ended by wishing the hunters good luck in their venture in trying to locate an old buffalo wallow in Floyd County where possibly treasures of long ago are buried.

Oil dwindles

AUSTIN, Texas (Spl.) — Americans are using more than twice as much oil daily as the nation is able to produce in a day, says a University of Texas geologist.

Such consumption, says Dr. Samuel P. Ellison, Jr., causes the U.S. to be more than 50 per cent dependent on foreign oil and, in its quest to find more oil underground, more "drilled out" than any other country.

If the present rate of usage continues, the nation's proven oil reserves of about 31 billion barrels will be used up in about 10 years, he notes.
