LOCKNEY, FLOYD COUNTY, TEXAS 79241

SUNDAY, APRIL 3, 1977

14 PAGES IN TWO SECTIONS

NUMBER 27

## Floyd Families Smaller Than Average

NEW YORK. —Are Floyd County families getting larger or smaller in size? How big is the average local family compared with those in other parts of the country? The question of family size has come

NO SERIOUS INJURIES were reported as a result of this accident Thursday morning at the intersection of East Locust and Eighth Streets (FM 97 and FM 378) in Lockney. Vehicles involved were a 1963 Mercury driven by Maudena Ester Rhodes of Floydada and a 1974 Ford pickup driven by Paul M. Cooper of Lockney. A passenger in the automobile, Mrs. Dosa Webb of Floydada, was admitted to Lockney General Hospital with cuts and bruises but was scheduled to be released Friday.

to the fore lately because of government figures that show marked changes, nationally, in family composition. Biologists and ecologists have been concerned for some years about the rapid growth in population and the resultant rate at which the country has been using up its natural resources and contaminating the environment.

More recently, there has been a change in the population picture, due to a sharp drop in the birth rate.

For the first time in history, the number of births in the United States has dropped to a level that represents zero population growth.

About 2.1 children per family are required just for population maintenance, according to the Census Bureau. It has been around that point for some time, in marked contrast to earlier years. The latest report, however, shows a rate of only 1.8.

In Floyd County, on the basis of the latest figures, households are somewhat smaller than in most communi-

ties, reflecting the birth rate prevailing in recent years. The average, locally, is 277 persons per 100 households.

In other parts of the United States, by way of comparison, the average is 296 per 100 households. Throughout the West South Central States, it is 299.

The figures show that families in the local area are smaller than they were some years ago. In 1960 there were 341 persons in every 100 households, as against the 277 per 100 today.

Although the nation's fertility rate is below the replacement level of 2.1 children per family at the present time, the real end of natural population growth cannot be expected until that rate has been maintained for a long time, because of the number of girls who are approaching child-bearing age.

Not until every girl now born completes her child-bearing years and she and her daughters have held to the 2.1 rate, would births offset deaths on a permanent basis.

## Floydada Man Gets Seven Years Prison

Amarillo—Seven-year prison sentences were set yesterday for Stony Chatman, 20, and Murray Jones, 54, both of Floydada, after they pleaded guilty to possession of heroin.

Chatman and Jones were indicted Sept. 2 for possession of a controlled

substance on Aug. 13.

They entered their pleas of guilty before 47th District Judge H. Bryan Poff, who assessed punishment.

There are three cases of possession for sale of alcoholic beverages pending against Jones in Floyd County Court.

YEARBOOK AWARDS went to 1977 Roundup editor Pam Bradley, pictured with faculty sponsor Mrs. W. H. Hallmark. (Staff Photo)

## FHA Observes 'Week'

Lockney Future Homemakers of America joined chapters throughout Texas last week in celebrating Texas FHA-HERO Week (March 27-April 2).

Wednesday was Teacher Appreciation Day. Thursday evening, HECE students honored their employers at the Home Economics Cooperative Employers Banquet in the school cafeteria. An eighth-grade tea was held Friday.

The local FHA "theme" this year has been helping older people. FHA members "adopted grandparents" at Lockney Care Center and did special individual things for them. They made bids for residents of the care center.

FHA money-making projects this year were selling doughnuts and cookbooks.

Programs during the year have included these: September—a program on "The Blind and Disabled" by Wendy Tooley; November—a program on abortion by Aubrie Emert from Plainview; December—a crafts program presented by Kathy Burke from Floydada, and a Christmas party with Virginia Taylor as guest speaker; January—a child abuse program presented by Jack Barnes and Kent Bridenstein from Plainview; February—Sweetheart Banquet with O' The Irish theme and entertainment by Tony Hakim, a student at South Plains College.

1976-77 officers, installed at the first of the year by Jackie Lou Holt, are Kristie Ford, president; Jan Glasscock, first vice president and program chairman; Karla Broussard, second vice president and encounter chairman; Janis Marr, third vice president and project chairman; Tina Dipprey, fourth vice president and recreation chairman; Laura Jaffe, fifth vice president and reporter; Pam Bradley, secretary; Christy Vincent, treasurer; Rosemary Ulmer, Parliamentarian; Denise Johnson, historian; Robbie Wright, corresponding secretary.

Future Homemakers of America was founded June 11, 1945 as an incorporated, nonprofit organization supported by membership dues. There are two types of chapters. FHA chapters place major emphasis on consumer education, homemaking and family life education combined with exploration of jobs and careers. HERO chapters, taking the name from home economics related occupations, place major emphasis on preparation for jobs and careers with recognition that workers also fill multiple roles as homemakers and community leaders.

Future Homemakers of America is one of six vocational education youth organizations. A part of the junior and senior high school homemaking curriculum, it provides meaning and motivation for youth working toward educational goals related to consumer homemaking and home economics for gainful employment and reaches beyond the classroom instruction into the home and community.

State President Phyllis Cicero explained that the overall goal of the organization is "to help youth assume their roles in society through home economics in areas of personal growth, family life, vocational preparation and community involvement. "In other words," she said, "it helps us develop leadership, good citizenship, and prepare for the vital work of our country. In our FHA and HERO chapter meetings we analyze member concerns and then develop projects that are related to our home economics classroom studies. Many people have no idea what is taught in homemaking classes today. It isn't just cooking and sewing, it's learning about living, teaching us how to cope with the dual role of homemaker and wage earner in today's fast-paced society.

We want to impress on people the importance of vocational education and of Future Homemakers of America as a part of homemaking education in preparing us for future living."

## Little League Signup April 18

There will be something new in Lockney Lions Club Little League Baseball this year—for the first time, girls will be eligible to play.

Signup will be at 7 p.m. Monday, April 18, in the junior high school cafeteria, according to baseball commissioner Gary Stennett. Registration fee is \$5.

Boys and girls age 7 through 12 are eligible to play in the league. Those who miss the signup April 18 can still

play if they contact Stennett or any Lockney Lions Club member by April 25. After that date, no players will be signed up.

## 1976 Yearbook Receives State UIL Awards

Lynn Griffin and Pam Bradley competing with other AA schools

throughout Texas, recently received state awards for their work on the 1976 Roundup. Miss Griffin, editor of the '76 yearbook, received a second place medal for the Division Pages. Miss Bradley, currently editor of the '77 Roundup, was presented a second-place award for the Faculty Section and a third-place award for the Class Section.

These awards are presented each spring at the annual Interscholastic League Press Conference in Austin. Students compete in six divisions,

corresponding to basketball conferences. The League's competitive, critical and instructional program is sponsored jointly by the UIL and the School of Journalism, the University of Texas at Austin.

"Lockney has been very representative in state contests, winning awards four out of the last five years. I'm very proud of the students who put the yearbook together each year. There is much more to it than just throwing a group of pictures together," said Peggy Hallmark, sponsor.

## South Plains Elevator Files Bankruptcy

Notice was given this week by the United States District Court for the Northern District of Texas, Lubbock division, that the South Plains Elevator is entering bankruptcy proceedings.

The statement reads as follows: "NOTICE OF FIRST MEETING OF CREDITORS IN PROCEEDINGS UNDER CHAPTER XI TO THE DEBTOR, HIS CREDITORS AND OTHER PARTIES IN INTEREST:

NBS Grain, Inc. (heretofore having done business under the assumed names South Plains Elevator and

South Plains Trucking Company) of Suite 405, Amarillo Building, 3rd & Polk Streets, Amarillo, Texas, having filed a petition on March 7, 1977, stating that it desires to effect a plan under Chapter XI of the Bankruptcy Act, it is ordered, and notice is hereby given that:

1. The first meeting of creditors shall be held at Room 305, Vaughn Building, 4th & Polk Streets, Amarillo, Texas, on April 8, 1977 at ten o'clock a.m.;
2. The debtor shall appear by its president or other executive officer before the court at that time and place for the purpose of being examined;
3. The hearing on confirmation of the plan shall be held at a date to be later fixed;
4. Creditors may file written objections to confirmation by a date to be later fixed."

## LOCKNEY SCOUTS AT POST

Three members of Lockney Boy Scout Troop #206—Dean Molinar, Steven Villalon and Roger Perez—are attending a Junior Leader Training Course at Camp Post this weekend.

The Lockney Scouts left Friday afternoon and will return home Sunday evening.

CRAFTS DEMONSTRATION by Kathy Burke at December FHA program.

FILM about abortion, the November FHA program, was presented by Mrs. Aubrie Emert.

KRISTIE Ford and Christy Vincent help prepare for "Luck O' The Irish" Sweetheart Banquet.

FHA MEMBERS listen to a Christmas story by Virginia Taylor at the FHA Christmas party.

### West Texas Chamber Banquet Slated

Speakers discussing a wide variety of subjects will be featured April 14, 15, and 16 when the 59th Annual Convention of the West Texas Chamber of Commerce meets in Midland.

Congressman George Mahon of the 19th Congressional District of Texas will be the principal speaker at the Friday evening banquet. Speaking on the American Free Enterprise System at the Friday luncheon will be Donald L. Bryant of New York, Vice President of the Equitable Life Assurance Society.

Jim C. Langdon, member of the Texas Railroad Commission, will speak on "West Texas and the Nation's Energy". Alberto Magnon of Laredo, Executive Vice President, Laredo National

Bank, will talk on "West Texas and Mexico"; and a representative of the White House Staff will talk on "West Texas and the Carter Administration", during a Friday morning session.

Registration will begin at 12:00 noon on Thursday, with committee meetings, as called by committee chairmen, scheduled to start at 1:30 Thursday. A Midland Hospitality Hour will start at 7:00 p.m. Thursday at the Permian Basin Petroleum Museum, Library and Hall of Fame for WTCC members and guests. Museum hostesses will conduct special tours for WTCC members and guests during and after the Midland Hospitality Hour. Thursday night will be free time for Dinner on the Town.

The WTCC Executive Committee will meet at a Friday morning breakfast starting at 7:00 a.m. The Friday noon luncheon is scheduled for 12:05.

At 2:00 Friday afternoon, the annual WTCC business session will be held at which officers for 1977-1978 will be

electd, 1978 convention site selected and award presentations made.

Following a Midland hospitality hour, the annual banquet is set for 7:15 at which Congressman Mahon will address the convention. The Quota Buster Breakfast at 7:45 Saturday morning will end the convention activities.

**EXTENSION SERVICE ADDS ASSISTANT PERSONNEL OFFICER**—Larry Joe Allen has been appointed to the new position of assistant personnel officer for the Texas Agricultural Extension Service. Allen has served as a county agent in Falls County for the past three-and-a-half years. During 11 years in the U.S. Army, he gained considerable experience in administration and personnel management, including recruitment and employment training. Allen is a native of Motley County but grew up in Jackson, Miss.

The largest state, Alaska, covers 586,400 square miles—an area almost one-fifth that of continental United States.

### Sorghum Most Economical

#### In Russian Tests

LUBBOCK—Russian tests of U.S. feed grains in relation to Russian corn have proven that the feeding efficiency of sorghum at present price relationships would amount to substantial savings for the Soviet poultry industry. The joint project of the U.S. and U.S.S.R. was promoted by Grain Sorghum Producers Association through the U.S. Feed Grains Council and FAS-USDA. One prime objective of the experiment was to increase energy levels of the diets through the use of U.S. feed grains, particularly corn and sorghum.

In early February, Dr. J. H. Quisenberry, professor emeritus of Texas A&M University and USFGC supervisor for the project, returned from Moscow with

the test results, which were very favorable for sorghum at current prices.

Of the four rations tested, the ration of half U.S. sorghum and half U.S. corn proved to be the best in feeding efficiency, which was .9 percent better than the second-ranked all U.S. corn ration. Ukrainian (Russian) corn was third, with the all sorghum ration fourth. The all sorghum ration was 3.44 percent less efficient in comparison to the all corn ration.

Current prices are ranging from 10 to 11 percent difference for the two grains at the Gulf. Therefore, the net savings to Russians would be significant if sorghum were fed to achieve the same production of pou-

ltry meat. The savings would be even greater if the two grains were blended 50-50.

## Farm-facts

A Weekly Report Of Agri-Business News  
Compiled From Sources Of The  
TEXAS DEPARTMENT OF AGRICULTURE  
John C. White, Commissioner

**Fewer Cattle On Feed... Sheep Feeding Shows Increase... Be On The Look Out... Eradication Is Goal.**  
Texas cattle feeders continue to reduce numbers of cattle on feed, the Texas Crop and Livestock Reporting Service notes.

As of March 1, there were 1,520,000 head of cattle and calves on feed in Texas. This is 16 per cent below a year ago and is eight per cent below a month ago.

During February, cattle feeders placed 226,000 head into their lots; this is 23 per cent below February of a year ago and 28 per cent under the previous month.

In the seven major feeding states (Texas, Arizona, California, Colorado, Iowa, Kansas, and Nebraska), cattle and calves on feed were down seven per cent from a year ago.

**SHEEP FEEDING IN TEXAS** shows a five per cent increase over a year ago. As of March 1, there were 128,000 head of sheep and lambs on feed. However, this figure is 20 per cent below the number on feed as of Jan. 1.

Sheep and lambs on feed are those intended for slaughter being fed a ration of grain or other concentrates or on succulent pastures and expected within the next three months to produce a carcass that will grade good or better.

**BE ON THE LOOK OUT** for these important crop reports due in the coming weeks.

April 14 is the date for the prospective plantings for 1977, based on April 1 conditions.

May 10 is the date for an important winter wheat production forecast based on May 1 conditions. And June 8 is the date for the winter wheat production as of June 1 conditions.

**ERADICATION OF THE SCREWORM** forever from Texas is the goal of a statewide program now in progress.

Livestock producers are being asked for their complete cooperation this year in order to accomplish this goal. As a livestock producer, you are asked to:

1. Check your livestock regularly
2. Treat wounds on livestock with approved screwworm-control remedies
3. Delay surgery on livestock as long as possible
4. Submit suspected samples of screwworms to the fly lab at Mission

The opportunity to wipe out the pest once and for all has never been better. A cold winter, a new strain of screwworm fly, and the new fly plant in operation in Mexico offer an excellent set of conditions with which to eradicate the screwworm.

None of this can happen, though, without the cooperation of every livestock producer. It will take the combined and continued efforts of every cattleman to make this the year that the screwworm is finally eradicated.

Dr. Quisenberry reported that:

- (1) there were two replicate pens of 64 birds each for each of the four dietary treatment groups;
- (2) unsexed chicks were picked at random for each of the treatments and replicate groups;
- (3) mortalities were comparatively low, considering the season and high bird density, particularly from 29 to 50 days;

**SNAKES ALIVE!** This almost five foot long live snake was brought to town by city employees Joe Falcon and George Sanchez. (Staff Photo).

(4) birds were weighed, killed and dressed on January 25, 1977 at the age of 50 days;

(5) the poor feed conversion was common to all diets, which strongly indicated environmental causes rather than diet formulation;

(6) since the feeding efficiency figure for the half-sorghum, half-corn groups were equal or superior to all the all corn diets, the Russians could use more sorghum to dilute Russian corn, if sorghum could be purchased at an economical price compared to corn;

(7) much, if not all, of the sorghum's depressing effects on growth could be corrected by skillful diet formulation.

GSPA and USFGC plan follow-up work with the Russians on the economics of sorghum purchases now that the nutritional tests are complete.

## WHEN YOUR CROP NEEDS WATER

You want the **BEST**    **APS.**

The real value of an irrigation system is the availability of a continuous and efficient operation. That is why the APS center pivot does not compromise quality to have the lowest price. Every APS includes the following as standard equipment:

- Solid state electronics
- 1½ h.p. heavy duty motor
- A dual safety system
- Low voltage control circuit
- 6½" galv. pipe
- Aluminum shielded cable
- Bronze heavy duty wheel drives
- and many more

**The Floyd Philosopher**

**Thinks He Has Found A Way To Put A Stop To All This World-Wide Worrying**

Editor's note: The Floyd Philosopher on his Johnson grass farm on comes up with an odd new scheme this week.

Dear editor:  
You open up your newspaper or turn on the evening news any day in the week and find the world's endless, dreary troubles laid out before you. Every day it seems like a new country is heard from with more trouble than the one in the news the day before—countries a lot of us never heard of a year or two ago, like Zambia, Uganda.

And that's just on one continent. Tomorrow somebody is going to find another country we never heard of before on some other continent, and it too will be reported in big trouble. The papers and the networks will carry the story, public officials will agonize over it, and we can add one more problem to our list.

I have thought long and hard over this and I've figured out the solution to people's mounting worries. What the world needs is a

new set of leaders, all of whom failed geography in school. You can't worry about or come to the aid of a country you don't know exists.

Maybe we need a President for example who, when asked—by some reporter who probably just heard of the place—what he thinks ought to be done about say Angola could reply without being laughed at by the rest of us: "I'm not too familiar with that local situation, is Angola in Oregon or West Virginia?"

People are simply learning too much geography. Don't the newspapers and networks know that every time they introduce a new country to us they're just adding to the sum total of our worries?  
Understand, I don't think ignorance is bliss, but on the other hand being informed can give you a headache.

By the way, which state is Angola in? What's the town's problem, busing? Dr-ought?

Yours faithfully,  
J.A.

**Accent On Health**

Over the years, America's health services delivery system has grown from the days of individual private physicians working alone in their own communities, to the present complex, interdependent network of physicians, clinics, laboratories, hospitals, emergency medical systems, and public health agencies. Not too many years ago, the only contact most people had with the health system began when they became ill, and ended with a visit to their family doctor. Now, at least in the larger metropolitan areas, people can choose from an array of private, public, and semi-public health services, not only to treat illness but to prevent it.

The system, however, has grown with virtually no coordination or planning. Thus some areas have more services than the public can effectively use, while other areas—especially rural areas—still lack even the barest minimum.

The National Health Planning and Resource Development Act of 1974 is intended to overcome some of these problems by providing for a degree of coherent direction. In 1975, the Texas Legislature designated the Texas Department of Health Resources as the State's health planning and resource development agency.

Robert O. Humble, Director of the Division of Health Planning, explains that the State Agency will operate primarily as a coordinating body for a network of 12 Health Systems Agencies. He says, "The Health Systems Agency is intended to provide health planning and resource development at the local level. These agencies will be responsible for developing plans for improving the health of residents of their areas, and they will be responsible for implementing these plans."

Humble says that each Health Systems Agency, or HSA, will draft a two-stage plan. "The health systems plan will be a long-range, goals-type plan, and it will consider elements for as far as five to ten years in the future. There also will be an annual implementation plan, which will be the means by which the HSA will carry out the long-range goals."

Implementation, as Humble explains it, does not mean that the HSA's will actually provide the services which they determine are needed. Humble says, "The health resources, the health resources, the institutions in the area will be responsible for actually providing the services. The HSA will not be allowed to provide funds for direct services; in other words, they won't be able to pay for the care of patients, but rather, for the planning and development of the institutions or services that are required in their area."

Each of the Health Systems Agencies will serve a specific geographic area. There are twelve HSA's for the entire State. Since each agency covers a large territory, and because of sparse populations in some areas of the State, there is wide variation in the number of people that each HSA serves. Humble says, "The HSA's range, in terms of population, from less than 300,000 all the way up to

almost 3 million."

This concept supports and complements the Department's development of ten Public Health Regions, which has been in process since 1970, and is predicated upon the same reasoning.

All of the HSA's are organized along similar lines; several have been established by the existing Councils of Government. Each HSA has a governing body, or board of directors, and a professional staff. According to Humble, guidelines have been developed to ensure that the governing bodies include broad community representation. He explains, "The governing body will be comprised of at least 51 percent, but not more than 60 percent, consumers of health care. Of this body, one-third can be elected local public officials."

"The remaining members of the governing body—anywhere from 40 to 49 percent of the membership—will consist of providers of health care. These members typically would include physicians, nurses, dentists, hospital administrators, and others who are directly involved in providing health care services to the public."

With overall guidance from the Texas Department of Health Resources, the hope is that the newly-founded Health Systems Agencies throughout Texas will be able to ensure that someday every citizen will have ready access to the health services he or she needs.

**Plans Underway By SPARC To Aid Sufferers Of Alcohol Abuse**

LUBBOCK—This county along with all 14 rural counties of Planning Region II will soon have a plan to aid those who suffer from alcohol abuse, according to Joe B. Phillips, President of the Board of Directors of the South Plains Alcoholism Regional Council. SPARC, as the new regional organization is called, has in mind to aid in creating County Alcoholism Councils with local people heading alcoholism prevention, referral, youth program committees, and a committee on emergency care where the alcohol abuser may be helped in his or her own community.

According to the Texas Commission on Alcoholism and the National Institute on Alcoholism and Alcohol Abuse (NIAAA), the Nation's third largest killer disease, alcoholism, is on the rise in this county.

"We in SPARC feel that local people in each county should do what they think is best for the alcoholics and alcohol abusers in their own communities. SPARC stands as a friend with a staff of people dedicated to combat alcoholism. It will not be our intention or purpose to tell any county how to take care of its own alcoholism problems, but we hope that we can help counties organize councils where local people can have an active part in planning the type of local programs needed to help the young, the female, the male, the old, the rich and the poor who abuse alcohol," Phillips said.

SPARC will have 15 Board of Director members

**Take Behavior Guidelines Shopping With Children**

COLLEGE STATION—Young children can behave well in public with patient, encouraging guidance of their parents, but it takes time—and repeated experiences—for a youngster to learn how he is expected to behave in different places and situations, Mrs. Ilene Miller, a family life education specialist, says.

To prevent frayed nerves, threats, tears or temper tantrums during shopping, she suggests several guidelines that go beyond telling a child to "be good."

Mrs. Miller is with the Texas Agricultural Extension Service, The Texas A & University System.

She says that a "be good" type of guidance does not tell the child much.

"A youngster needs to know what he can do—and when he has behaved appropriately. "First, try to plan shopping trips for a time when the child is not tired or hungry," she advised.

"Remind your child before you enter the store what is expected of him. For example, explain that there is to be no running up and down the aisles, that he is to sit in the cart or help you push the cart while you are in the grocery store."

"Also, give the child a job while you are shopping. For instance, your youngster could look for some familiar items such as milk, eggs or apples as both of you make your rounds up and down the store aisles."

On misbehavior, Mrs. Miller cautioned against plead-

**Pre-Easter specials focus on turkey, eggs**

COLLEGE STATION — Easter-related specials in some Texas grocery markets will focus on turkey and eggs, Mrs. Gwendolyn Clyatt, consumer marketing information specialist with Texas Agricultural Extension Service, reports.

At meat counters, scattered specials are available on beef and pork items — and lamb is

more prominent in some markets, she added.

She advises consumers to look for best beef values on chuck roasts and steaks, round steaks, ground beef and liver.

Pork features include quarterloin sliced into chops, Boston butt roast, smoked picnic, ham portions, bacon, liver and roll sausage.

AT FRUIT counters, items

with most economical prices are grapefruit, oranges, small-size apples, bananas and pears. Pineapple supplies are increasing as the season progresses toward its peak in May, she said.

In fresh vegetable departments, economy appears on carrots, broccoli, head lettuce, collards and mustard greens, turnips, rutabagas and potatoes. Also, fresh asparagus is available at moderate price

levels — and celery supplies are increasing.

At frozen food counters, vegetables head the "key features" list. Along grocery market aisles, "spotlight" items are canned peaches, corn and peas — and peanut butter.

CONSUMER WATCH-WORDS: Look for scattered promotions on lamb — including loin and rib lamb chops, leg of lamb and shoulder roasts.

**Good News And Bad News On Cotton To Be Outlined At SPD Meeting**

LUBBOCK—Cotton production prospects for 1977 appear favorable while continued increases in world-wide fiber consumption are expected to keep cotton prices up through the fall.

These bright prospects are part of the good news and bad news expected to come out of the upcoming annual meeting of the South Plains Development Program Thursday, April 7, at Lubbock's KoKo Convention Center.

The event gets underway with task force sessions

during the morning, and with the public gathering beginning at 1:00 p.m. Cotton growers and others interested in cotton's future are being urged to attend. About 300 to 400 growers, educators and industry representatives are expected.

The Texas Agricultural Extension Service and the 19-county volunteer South Plains Development Program are sponsoring this annual program which this year is focusing on the South Plains cotton industry.

Growers will also hear

news about agricultural credit which may not be so good. Individual farm units are expected to increase in size, requiring larger quantities of borrowed capital.

Marvin Sartin, area economist for the Extension Service who is helping to coordinate the program, says the future success of these units may depend on their ability to get adequate credit without government assurances.

Conferees will also be updated on progress in making Texas the top agricul-

tural state in the nation, and they will get a comprehensive review of major strides that have been made over the last 20 years in cotton production and harvesting.

The Extension Service in cooperation with the cotton task force of the South Plains Development Program and other cotton leaders of the area has developed a producers' guide for maximizing cotton profits. This program will be outlined during the SPD meeting.

"Cotton growers have

STOCKARD NAMED STATE AGENT FOR EXTENSION—Uel R. Stockard of Dallas, district agent with the Texas Agricultural Extension Service for the past 9 years, has been named state Extension agent for agriculture. Stockard, who has been with the Extension Service for 24 years, fills the position vacated when Joe H. Rothe became associate Extension director.

**SHOP FLOYD COUNTY FIRST**

been among the first to accept and implement innovations and developments in cotton production, harvesting and marketing," says Sartin. "In many instances, this acceptance has kept pace with research. Nevertheless, inefficiencies in all areas of the cotton industry still exist. Exonominists believe that with existing knowledge and technology, most farmers can increase their cotton profits by as much as 15 to 20 percent," he added.

Speakers will include Dr. John A. Hopkin, head of Agricultural Economics Department, Texas A&M University, College Station; Uel R. Stockard, state agent with the Texas Agricultural Extension Service, College Station; Charles Baker, cotton marketing specialist with the Extension Service, College Station; Dr. Levon Ray, professor and assistant director of research, Texas Agricultural Experiment Station, Lubbock; and Dr. James R. Supak, Extension agronomist at Lubbock.

South Plains Development is a voluntary organization of citizens working toward social and economic improvement of the South Plains area.

**Hints for HOMEMAKERS Money-Saving Tips**

**Simple-To-Make Placemat Napkin Sets Dress Holiday Tables**

You can make the holidays more colorful for your family and friends, without having to part with a lot of long green. It's easy when you create an attractive set of placemats and napkins that match your dining decor or favorite dinnerware.

These are made of Springmaid Slumbersuede pillowcases, combining smooth percale and sumptuous mock suede. Try them in tan, to match dinnerware like this apple-decorated pattern, or in any other of the full range of colors. One pillowcase is all you need to make a placemat and matching napkin.

These simple-to-make placemats and napkin sets require almost no sewing, are quickly done, easy to do, stain resistant, and machine washable. Here are directions for creating a full-sized 12 by 18 inch placemat and 18 inch napkin from one Springmaid pillowcase. Materials needed are the pillowcase, 1/2 yard of iron-on fabric fusing material, "Scotchgard" fabric protector, and thread for finishing hems. Strips before finishing are 3 1/4 inches wide by either 12 or 18 inches. Folded, finished strips are 1 1/2 inches wide.

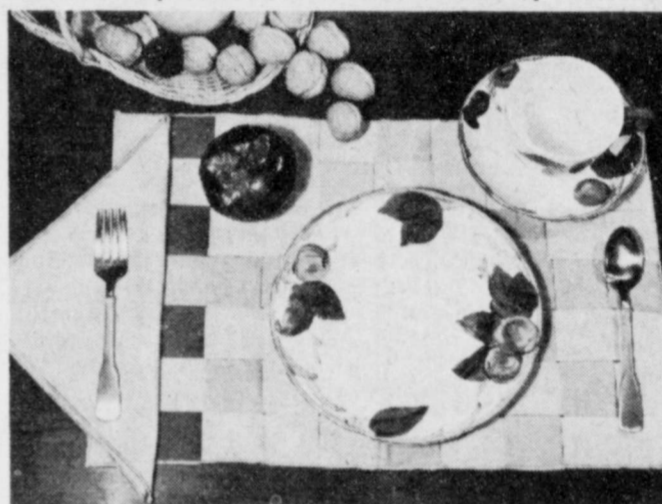

1. Open all seams and press flat.

2. Cut hem material into three lengthwise strips 3 1/4 inches wide.

3. Starting from one side of the border edge of the pillowcase, tear a square 18 by 18 inches to make the napkin.

4. Measure, mark, and clip along the remaining border at 3 1/4 inch intervals. Tear these into strips running the length of the pillowcase.

5. Cut hem strips to 18 inch lengths, making six strips. Make two more 18

ONE PILLOWCASE can be turned into this handsome mat and napkin set in either luncheon or ample dinner size.

inch strips from pillowcase percale. Cut other strips to 12 inch lengths, for a total of 12 strips. Or, combine 18 and 12 inch lengths in cutting hem and percale for a more varied arrangement.

6. Cut iron-on fusing material into 1 inch strips, as long as the fabric strips. Piece this material by cutting it (Eg., use 2 six-inch strips of fusing material for one 12 inch fabric strip).

7. Make a cardboard pattern 1 1/2 inches wide by 19 inches, and draw a line down the center. Place lengthwise in strips centering it. Fold strips side edges up to center line and press.

8. Remove cardboard, insert fusing material and iron to fuse edges at strip center back, with a 1/4 inch overlap, following manufacturer's directions for assuring a good bond.

9. Now you are ready to weave the strips. Lay out the strip that is to be on the left-hand edge of the mat (12 inches). Cross the long strip over the top of it, and pin strips together, forming an upside down "L". Place all pins so that points face

the outside edge. Line up edges to make a 90 degree angle. Pin the rest of the long strips to the left-hand strip, alternately going over and under the strip with edges lined up exactly, and seams to the back.

10. Weave shorter strips over and under long strips, alternating each time. Line up top edges and pin in place. Pin right and bottom border, securing all strips, with pins facing out.

11. Use the zig-zag stitch on the sewing machine to finish edges and permanently hold strips in place. Go over them three times for good measure. A simple overcast stitch around edge by hand can replace machine stitching.

12. Use the same stitch to finish napkin edge.

13. Spray placemats and napkins thoroughly with "Scotchgard" fabric protector so that spills are no problem. For more creative ideas, send for the booklet, "Make it With Sheets", Dept. DT, Springs Mills, 104 W. 40th St., New York, N.Y. 10018, and enclose 35 cents.

**GOOD CITIZENSHIP**

**A HELPING HAND**

Every year, about 200,000 people are in this country's prisons, but they are still people with real human needs and families on the outside who have needs, too. If their needs are answered now, it may help them to become better citizens when they're released.

For the man or woman in prison, on the way out, or free after serving time, the Salvation Army, in keeping with its

HUMAN NEEDS—New programs are helping prisoners resume useful lives.

Christian ministries, has a great deal to offer. It is engaged in prison counseling, parole planning and parole counseling services. What's more, through local family and community programs, your neighbors in the Salvation Army are

## Study Club Sponsoring Film

### On Tornado Awareness

Members of the 1956 Jr. Study Club of Floydada invite the public to a program on "Tornado Awareness" to be presented Tuesday night, April 5 at 8 o'clock at the Floydada Fire Hall. Richard Thomas of the Civil Air Patrol will present the program.

### U.S. LABOR

Since June 12, 1968, the effective date of the Age Discrimination in Employment Act (ADEA), the number of complaints filed against establishments each year has increased steadily from 1,031 in the 1969 fiscal year to 5,121 in the 1976 fiscal year, according to the U.S. Department of Labor.

The stork played an April Fool's joke on Mark Whittle about 5 a.m. April 1 when it became necessary for him to deliver, ahead of schedule, a 5 lb. 9 oz. red headed son, while enroute to Lubbock. Mark was taking his wife, the former Teresa Colston, by car to University Hospital, when they realized they would never make it. The baby was born between Idalou and Lorenzo and all three, mother, father and baby son, were reported doing fine later in University Hospital. The baby had not been named at press time. The Whittles are also parents of three year old Nathan.

Grandparents are Mr. and Mrs. C. C. Whittle and Mr. and Mrs. Jake Colston of Floydada and great grandparents are Mr. and Mrs. W. C. Whittle of Plainview, Mrs. T. T. Hamilton and Mrs. B. A. Colston both of Floydada.

Mr. and Mrs. Michael Hinsley are parents of their first son, Michael Chad, who

## Floydada Girl Scouts To Be Honored Sunday

Six Girl Scouts will be honored Sunday when they receive First Class Rank, the highest achievement in Girl Scouting.

The scouts, Beverly Burleson, Debbie Harrison, Julie Morton, Karen Turner, Lisa Welborn, and Jonna West, have worked toward First Class Rank during their scouting years, which for most of them began when they joined a Brownie Troop in the second grade seven years ago.

A Board of Review was

held for the candidates March 4 at the First United Methodist Church. The reviewing board was made up of Jim Word, longtime Boy Scout leader, Mrs. Ted Bell public school teacher, and Mrs. Andrew McCulley, Girl Scout committee representative. Each candidate had submitted essays entitled,

"What Girl Scouting Means to Me" along with a list of qualifications included badges earned as Junior and Cadette scouts, challenges in

the Cadette program, service projects, camping experience, council participation, and church and school activities. The girls were questioned individually during the two hour period and the board unanimously approved the granting of First Class Rank to the candidates. Commendation was made to Mrs. Jaynette Harrison, their troop leader, who has been a source of help and inspiration, to her husband, Joe Max Harrison, who was a "Scout Dad" on most of their camping trips, and also to the parents who have encouraged the girls in the program.

The First Class Ceremony will be held at 2:30 Sunday afternoon, April 3, at the Bible Baptist Church in Floydada. Mrs. Sue Parson, Floydada Service Unit Chairman, will present the candidates. Special guests will be Miss Sharon Washburn and Mrs. Allarae Russell from the Caprock Girl Scout Council office in Lubbock. Music will be provided by Jo and Tammy Payne. The public is cordially invited to attend the First Class Ceremony and reception.

PREPARING FOR SCOUT CEREMONY...These five FLOYDADA Girl Scouts are displaying table decorations which they are making for their First Class Rank ceremony to be held Sunday afternoon, April 3rd, at 2:30 o'clock in the Bible Baptist Church in Floydada. Pictured are Debbie Harrison, Beverly Burleson, Julie Morton, Jonna West, Karen Turner and Lisa Welborn. (Staff Photo)

## Caprock Hospital

### Auxiliary Meets Monday

Caprock Hospital Auxiliary will meet in the dining room of the hospital Monday, April 4th, at 9:30 a.m. A counseling therapist with the mental health-

retardation office will be guest speaker.

All members are urged to attend, according to Lillian Smith, president of the Auxiliary.

You can give fruit such as peaches, plums and nectarines more appeal by removing their peels. It's simple if you submerge the fruit in boiling water for about 30 seconds, remove them with a slotted spoon and dip them in cold water. The skins should slip

right off.

John Adams lived longer than any other President, according to World Book Encyclopedia. He died just 5 months before his 91st birthday on July 4, 1826.

## 190 Register At Salad Supper And Style Show

One hundred and ninety women registered for the salad supper and style show Tuesday night sponsored by the Women's Division of the Floydada Chamber of Com-

merce held in Massie Activity Center. The annual affair proved to be quite successful according to comments. This year's event was under the direction of Mrs. Jim Word, housing chairman.

Mrs. Tommy Farris and Mrs. Johnny Harris Jr., were coordinators of models and Mrs. Sam Henry was in charge of foods. Mrs. R. G. Dunlap and Mrs. Joy Smitherman were in charge of decorations with the backdrop decorations furnished by Bealls.

Mrs. Clarence Denton and Mrs. Jim Green were at the register.

The welcome was extended by Mrs. Jimmy Willson, president of the Women's Division, who also said crepe myrtles the organization were selling, are still available. Those interested may call any member of the Women's Division.

Following the delicious meal consisting of an array of salads, Mrs. Sam Puckett

took charge of the program in her very entertaining way and exceeded the style show and the presentation of 34 door prizes given by participating Floydada businesses.

Stores and their models included Bealls, Mrs. Jack Stansell and Lori Vinson; Hagood, Mrs. Larry Barbee and Shayla, Mrs. Sammy Hale and Tiffany Bennett; Hales, Mrs. Aldine Williams, Mrs. Jerry Thompson and Cristie McNeill; Montgomery Wards, Travis Bishop and Donna Chesshir; Peggy's Boutique, Mrs. Kent Covington and Mrs. Andrew McCulley; The Loft, Robbie Green and Adeana Morris; and Betty's Place, Mrs. Bill Kincaid and Debbie Dobbins.

Members of the Women's Division extend their appreciation to members of the Lion's club, Chamber of Commerce, individuals, including models, participating stores and to those attending for helping to make this event a success.

# Area citizen rated special

By MARIE HARRIS  
Herald Regional Editor

PETERSBURG — When Floyd B. Trowbridge moved from his farm in the Harmony Community, 16 miles southwest of Floydada, to Petersburg in 1964, he moved right into the hearts of most of the town's citizens. Comments concerning this 76-year-old senior citizen add up to mean "he's special."

Since his retirement because of arthritis, Trowbridge has passed many happy hours gardening in the spacious yard of his attractive brick home here. He has installed his own irrigation system to water the turnips, carrots, tomatoes, cucumbers, squash, green beans, sweet onions and other vegetables he raises and shares generously with friends and acquaintances.

Trowbridge and his daughter-in-law, Gayle Trowbridge, whose husband, Steve, farms the Harmony place, put up 330 cans of hominy last year. They prepared the corn for canning and a woman operator at the Lockney County Cannery furnished the cans and sealed them for 12 cents each. Trowbridge said they shelled the home-grown corn with a hand sheller.

HE HAS given many cans of food away, as well as the fresh garden stuff, but still has well-stocked cupboards. The cabinets are not only full but clean, like the balance of his house which he keeps himself since his wife died Jan. 31, 1973. He has a little assistance from Gayle and his three granddaughters. "They think I don't always do a good job dusting," he said.

Trowbridge tries to keep the house about like it was when his wife was alive. She was the former Minnie Belle Clubb, originally of Plainview and a 1918 Plainview High School graduate, who moved to Harmony. They were married Sept. 20, 1923. He has added a few colorful home accents such as artificial flowers and vases he picked up at garage sales.

But don't get the idea that Trowbridge is just a gardener and a housekeeper — he has many other interests such as the Petersburg Lions Club of which he is secretary-treasurer and has been for two years. He is a member of the Petersburg Chamber of Commerce and was chairman of the nominating committee this year.

AN ACTIVE member of First United Methodist Church, Trowbridge is a member of the board, was a layman the past two years and was Sunday School superintendent five years. He keeps the church supplied with flowers every Sunday they are in season, for in addition to vegetables he raises beautiful flowers to share with people he knows.

Lodge work has played an important part in Trowbridge's

—Herald Staff Photo  
He is a member of the Blue Masonic Lodge where he has gone through all the offices, is now chaplain and has been worshipful master. He also belongs to the Order of the Eastern Star and Chapter and Council of Floydada, in which he has held offices. He is a member of the Plainview Commandery and Scottish Rite of Lubbock.

Trowbridge, a former president of Petersburg Senior Citizens organized 12 years ago, enjoys the fellowship and activities of the group which meets twice a month in winter and once a month in summer in the First United Methodist Church. "It is a pretty good group," he stated. "We would have even more members but some people don't want to admit they are senior citizens."

HE IS SELF-EFFACING about having done any community service. "I've only done little things," he said. But everybody knows it is the little things that make big things.

Other pastimes Trowbridge likes are playing dominoes at the town's domino parlor and fishing. Well equipped with boat and the latest fishing gear, Trowbridge has fished six times in Mexico, twice in Canada and numerous times at nearer lakes.

Reminiscing about this part of the country when he moved to Lockney with his parents, Charles and Lily Trowbridge, in 1905, in two covered wagons — his parents each driving one — Trowbridge said, "It sure was different back then, because there was so much grassland and after a big rain the lakes there would be clear as could be and now they only look muddy." He remembers also seeing herds of antelope running on the prairies in the early days.

TROWBRIDGE was born in Frederick, Okla. July 17, 1900. After his father moved three years four miles north of Lockney, the family moved 11 miles southeast of Floydada in 1908. In 1916 they moved to the Harmony Community.

He attended West Texas State University two years and obtained a teaching certificate he never used. He and his brother, the late Clifford Trowbridge, farmed together. Once while Floyd was in Brownfield operating a corn sheller, their farmhouse at Harmony was destroyed by fire started by a coal oil stove flaring too high while Clifford was hitching up the horses. "There went all my clothes and my education," explained Trowbridge.

After their marriage he and his wife lived in the Harmony Community until 1926 when they moved to Amarillo and he worked in a lumber yard 10 years before returning to the farm.

In addition to Steve, Trowbridge has another son, W.C. Trowbridge of near San Antonio.

## Silverton Young

### Farmers Meet

Silverton Young Farmers met Thursday March 24, to make final plans for the consignment farm sale the club is sponsoring on April 2 at 10:30 a.m.

Members discussed the Silverton FFA Junior Rodeo to be held May 6 and 7. Charlie Thompson will be stock producer. The Young Farmers will sponsor a dance on May 7 following the rodeo. The club discussed possible queen candidates.

The club will enter a team in the Silverton Young Homemakers Volleyball Tournament to be held April 7, 8, 9.

Those attending the meeting were Van Breedlove, Fred Brannon, Clinton Dickerson, Jeep Jarrett, Bailey Loyd, Fred Hill, Wayne Stephens, Scott Garvin, To-be Riddell, G. W. Chappell, Fred Minyard, Orville Turner, Doug Bradford, Calvin Shelton, Walter Hill and Bill Rampey.

HISTORICALLY, the family has provided economic, physical and emotional support and protection to its members. Mrs. Ilene Miller, family life education specialist with the Texas Agricultural Extension Service, The Texas A&M University System says.

A GOOD NUTRITION rule-of-thumb is to serve liver once a week to help the family keep fit. Liver is rich in iron and supplies many necessary vitamins, explains Mrs. Gwendolyn Clyatt, consumer marketing information specialist with the Texas Agricultural Extension Service, The Texas A&M University System.

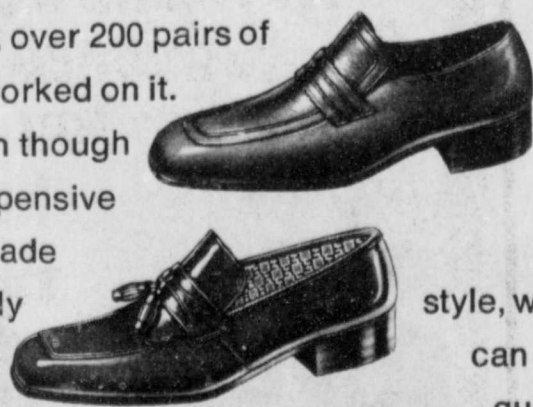

WHEN PURCHASING A MOBILE HOME, look for factory-installed anchoring straps under the skin of the mobile home, advises Mrs. Jane Berry, housing and home furnishings specialist with the Texas Agricultural Extension Service, The Texas A&M University System.

# South Plains News

By Mrs. Murray Julian

**SOUTH PLAINS, March 28th**—After the wonderful, steady rain which came to our area Saturday and Sunday night, we can hardly believe the dust is blowing today, Monday. We received one inch rain in some areas, .80 here in South Plains, and around .60 to 1/2 inch reported in other parts.

Those from the South Plains Baptist Church will want to remember there will be a Vacation Bible School Clinic held in Lockney, at the First Baptist Church Monday, April 4th. All those who plan to work will want to attend.

Rev. H. S. Calahan, Jr. from La Porte, will be doing the preaching for the Baptist revival coming April 24, to May 1.

Because of the muddy condition of the roads Sunday, there was a smaller than usual attendance at the South Plains Baptist Church. Visitors included Terry Julian and son, Dickie of Roscoe for church services.

Visitors at the home of Mr. and Mrs. George West during the past week included Mrs. Albert Mize, Miss. Annie and Nellie Bryant, Mrs. Stella Davis and Mrs. Verna Alimon all of Silverton, who were there Saturday. Sunday visitors were Robt. Lee Smith from Sterley and Mr. and Mrs. Edwin Davis. Mrs. Robt. Lee Smith came today, Monday. Mrs. West remains about the same health wise.

Mrs. Nathan Mulder from here attended the Housing Happenings in Floydada at the Massie Activity Center on Tuesday, March 15.

Harold Hamm entered St. Anthony's Hospital in Amarillo last Wednesday and on Thursday morning underwent surgery. He remained in intensive care for some time, but is out now and reported to be doing well this Monday. We offer our best wishes to him as he gets well from surgery. His family and others of the community have been there visiting with him, including Mr. and Mrs. Arby Mulder, Mrs. J. P. Taylor and Katie, Rev. Fred Blake, Mr. and Mrs. Leighton Teeple, and Mr. and Mrs. Raymond Teeple. Rev. Fred Blake left early Friday morning for Bronte, where he visited his 97 year old mother, who will be celebrating her birthday on April 6th. Mrs. Martha Blake lives in a nursing home at Bronte.

Mr. and Mrs. Arby Mulder went to Amarillo for a birthday dinner and celebration for Arby on March 21, at the home of their daughter, Mr. and Mrs. Jerry Taylor and children.

Mrs. Lois Lyons and her boys, Breck and Kyle, spent most of last week in South Texas at Padre Island during the childrens spring break.

Hobby Club will meet in Lockney at the home of Mrs. E. E. Wells, April 13, at 2 p.m. Bring a roll call message for spring cleaning.

There will be a school board election held at the South Plains School house on Saturday, April 2, with two places to fill for school trustees. Kendis Julian has filed for a place on the board, and Ronald Kitchens is a write in.

Bible Study will be held at South Plains Baptist Church Tuesday afternoon, March 29 at 4:00 p.m. for Mission Friends. Girls in Action meeting will also be at 4 p.m. There will also be a celebration for the birthday of the pastor's wife, Mrs. Fred Blake, after Bible study.

There will be a Fellowship Breakfast held at the Baptist Church Wednesday, April 6, at 8:30 a.m. All the women of the church are cordially invited to attend.

Mr. and Mrs. Murray Julian had their children, Mr. and Mrs. Kendis Julian and children, Mr. and Mrs. Terry Julian and Dickie of Roscoe, and Mr. and Mrs. Bruce Julian, and boys, Clay and Wade, of Perryton together over the weekend. The rain hampered getting back and forth to the farm, on a mile of muddy roads, but the children spent the weekend here, and all enjoyed Saturday at the farm, and Sunday in South Plains.

Staff Sgt. Kenneth Powell well leaves Tuesday, March 29th for Fort Sill, Oklahoma, where he will report in at his new army assignment on Thursday. Mrs. Powell will remain here for the time being with Kenneth's parents, Mr. and Mrs. Fletcher Powell.

Mr. and Mrs. Nathan Mulder and their children left after church last Sunday for

spent the night, then the next day went on to Albuquerque, New Mexico and spent the night with his uncle, Mr. and Mrs. Odell Mulder, after which they left for Arizona where they went through the Petrified Forest and on to the Grand Canyon. They returned home Thursday night.

**IF YOUR CAR IS OVER FOUR YEARS OLD**, it may not be worth while to carry collision insurance, says Claudia Kerbel, consumer information specialist with the Texas Agricultural Extension Service, The Texas A&M University System.

**USE A MICROWAVE OVEN** to heat baby's formula. A four-ounce bottle heats in 10 seconds and an eight-ounce bottle takes 20 seconds. This time in the microwave will not make the milk hot, but removes the chill. Add a few more seconds if warm milk is

desired. The nipple does not have to be removed, and glass, plastic or disposable bottles may be used, says Lynn Bourland, family resource management specialist with the Texas Agricultural Extension Service, The Texas A&M University System.

**MANAGE REPLACEMENT HEIFERS**—Proper management of replacement heifers is critical if producers expect a high reproductive rate in their beef herds, says a livestock specialist for the Texas Agricultural Extension Service. To overcome late calving and the subsequent lighter calves,

virgin heifers should be bred 20-30 days earlier than the regular cow herd and replacements should be kept from those becoming pregnant earliest. For a heifer to be bred at two years of age, she will have to show heat at 13 to 15 months. To do this, she must have adequate weight.

**WE Welcome Federal Food Stamp Customers**

Prices good thru April 9, 1977. We reserve the right to limit quantities. None sold to dealers.

\*Each of these advertised items is required to be readily available for sale at or below the advertised price in each store, except as specifically noted in this ad.\*

### Swine Shortcourse April 6

Swine producers interested in latest developments in swine feeding, finishing and handling are urged to attend the second annual Texas A&M University Swine Shortcourse to be held in Plainview, April 6, 1977. The event is set for the Hale County Agricultural

Center, getting underway with registration at 8:00 a.m. and opening remarks at 9. County Agent Doyle Warren says six swine experts will teach the course, which is being organized by the Texas Agricultural Extension Service in cooperation with Texas A&M Uni-

versity's Department of Animal Science, the South Plains Development Program, Texas Agricultural Experiment Station and Texas Pork Producers Association. Warren says the one-day shortcourse will offer a wide range of topics on diseases, buildings, equipment handling and nutrition.

Instructors include L. Bynum Driggers, Extension specialist with North Carolina State University, Raleigh; R. D. Glock with the Iowa State University College of Veterinary Medicine, Ames, Iowa; Howard Hesby, associate professor with the Texas Agricultural Experiment Station, College Station; Vernon Meyer, Extension agricultural engineer with Iowa State University, Ames; T. D. Tanksley, Jr., professor and swine specialist for the Texas A&M University System, College Station; and W. B. Thomas, swine specialist with the Texas Agricultural Extension Service, College Station.

Shortcourse participants will receive a copy of the proceedings, Warren says, which should provide excellent resource material which they can take home to study and incorporate into their management systems. Warren says the Panhandle South Plains is the leading swine producing area in the state. Texas A&M University, which for

The first state to ratify the Constitutional amendment lowering voting age to 18 was Ohio, on June 30, 1971.

WASHINGTON (AP)—President Carter is a "work horse" who spends more than 70 hours a week on the job without complaining of fatigue, but "we can see it sometimes in his eyes," says a presidential aide. According to a staff study of the President's first month-and-a-half in office, he has been working 75 to 80 hours a week, compared with a scheduled 55 hours. Appointments Secretary Tim Kraft, who directed the study as a guide for Carter and his schedulers, said in an interview: "We can see on paper that he's sometimes overdoing it. We can see it sometimes in his eyes, in signs of fatigue." But, says Kraft, "You know, he's a work horse. He never complains about work. If he has a complaint, it's about his ability to be efficient and effective and to get through the 'in box.' He never says 'I'm tired' or 'I need a break.'" But Kraft conceded that Carter did complain once that he had too many scheduled appointments in a single day. As a result of the study of Carter's activities from Jan. 24 to March 6, additional "contingency time" now is being built into the President's schedule.

## Carter 'work horse'

WASHINGTON (AP)—President Carter is a "work horse" who spends more than 70 hours a week on the job without complaining of fatigue, but "we can see it sometimes in his eyes," says a presidential aide. According to a staff study of the President's first month-and-a-half in office, he has been working 75 to 80 hours a week, compared with a scheduled 55 hours. Appointments Secretary Tim Kraft, who directed the study as a guide for Carter and his schedulers, said in an interview: "We can see on paper that he's sometimes overdoing it. ### VA News

Veterans going to school under the GI Bill could wind-up in debt to the Federal Government if they drop courses or receive non-punitive grades under certain circumstances, according to D.G. Ayres, Veterans Service Officer for Floyd County.

A recent Congressional amendment to the GI Bill requires the VA to retroactively cancel assistance payments for a course dropped without a grade. This also applies when a course is completed but the grade assigned is, in effect, ignored by the school for graduation requirements. The new regulations do not apply when the situation was caused by circumstances beyond the student's control. The new legislation is described as a major change in GI Bill benefits policy.

The new law, Public Law 94-502, provides that VA may not pay educational benefits for any part of a course which is not used in computing graduation requirements.

This means that many students will find themselves overpaid under the GI Bill for courses from which they withdrew and for courses in which the assigned grade is not used in computing the requirements for graduation. Payments for such a course must be stopped as of the first day of the school term, or December 1, 1976, whichever date is later. For example, if a student withdraws from a course on April 1, under the conditions outlined, VA payments will, in effect, be terminated retroactively to the beginning of the term. In the past GI Bill payments would have been continued up to the date of withdrawal, but the new law prohibits this.

If you served in the Army during WW II and received an award of the Combat Infantryman or Combat Medical Badge, you can now apply for the Bronze Star.

Award may be made upon letter application to: HQDA (DAPC-PAP-B) 200 STOVALL STREET ALEXANDRIA, VIRGINIA 22332 (enclosing documentary evidence, if possible, such as copy of DD-214)

Eligible are members of the Armed Forces of the U.S. who, after December 6, 1941 have been cited in orders or awarded a Certificate for Exemplary Conduct in ground combat against an armed enemy between December 7, 1941 and September 2, 1945, inclusive, or whose meritorious achievements have been otherwise confirmed by documents executed prior to July 1, 1947. For this purpose, an award of the Combat Infantryman Badge or Medical Badge is considered a citation in orders.

Documents executed since August 4, 1944, in connection with recommendations for the award of decorations of higher degree than the Bronze Star Medal will NOT be used as the basis for an award under the provisions of this paragraph.

ALL GAME PIECES PRODUCED FOR OUR BANK VAULT BINGO PROGRAM #483 HAVE BEEN DISTRIBUTED AND THAT PROGRAM HAS OFFICIALLY TERMINATED IN ACCORDANCE WITH F. T. C. REGULATIONS. ALL PRIZE WINNING GAME PIECES FOR PROGRAM #483 MUST BE PRESENTED FOR PAYMENT BY APRIL 9, AND NONE WILL BE ACCEPTED FOR PAYMENT AFTER THAT DATE.

**Lockney Locals**

**Mr. and Mrs. Danny Davis** of Littlefield spent several days last week through Monday of this week visiting their parents, Mr. and Mrs. Quentin Adams of Aiken, and the Thurman Davises of Lockney.

**The Nolan Kells** of the Lone Star community and their children, Kellena (Kelli) and her guest Breck Record, and Sharon and Leonard Thompson and Chad, attended a family "get together" of some of Mrs. Kell's family at the home of her brother, the Allen Brummetts of Quitaque on Sunday. Present were Mrs. Kell's sisters, Mr. and Mrs. Tom Shugart of California, and their grandson, Shane; Mr. and Mrs. D. R. Donica and daughter, Susan, from Dallas; and a brother, Max Brummett of Canyon. The occasion was also Max Brummett's birthday.

restaurant in Red River, New Mexico before retiring to Truth or Consequences 10 or more years ago.

**Mrs. Virgie Davis** visited in Hereford with her son's family, Mr. and Mrs. James Davis and Tiffany, from Sunday until Tuesday of this past week. They will be here to visit with her this weekend, and Tiffany is expected to stay with her grandmother for several days during her school's spring break.

**Mr. Charlie Cottrell's** brother, Jonas Cottrell, who resided near Ardmore, Okla. passed away on Tuesday. Charlie Cottrell is a resident of Lockney Care Center, and his daughter, Mr. and Mrs. David Jackson and their son, Mr. and Mrs. Donnie Jackson, attended funeral services at 2:00 p.m. on Thursday.

**Joan King**, a student at Texas Tech and the daughter of the Herman Kings, spent her spring break last week visiting her brother and his wife, Ben and Vicki King of Thibodaux, La. She drove to Dallas and went by plane to New Orleans. En route to Dallas, she stopped in Abilene and visited the Herman Thornton family. Vicki met her plane in New Orleans, a distance of 45 miles from Thibodaux. While in Thibodaux, Joan visited the Nicholls State University campus where both Ben and Vicki teach. On Friday afternoon and evening, the three of them went sightseeing in New Orleans. They took a trolley trip, visited the French Quarter, the Gardens, the Market Place and Jackson Square. On her return to Dallas, Joan visited in the home of her roommate, Chandra Davis, who accompanied her back to Lubbock on Sunday.

**Mmes. Sylvia Yeary**, Grace Colson, Georgia Ford and Jewel Roberts left last Friday for Tyler, Texas for the Azalea Trail tour which is an annual event there. At Jacksonville, Texas they stayed in the home of Sylvia's nephew and his wife, Pete and Maxine (Still) Yeary. From there, they went to DeQueen, Arkansas, and visited with Sylvia's brother and his wife, Mr. and Mrs. Olivia Weaver. On their return trip, they stopped in the Denison-Sherman area and visited Jewel's daughter and her family, the Ben Merrills. They got back to Lockney Monday night.

**Mrs. Ethel Carroll** had as guests on Sunday, March 27th, two of her children, Mr. and Mrs. Glyn Carroll from Dumas, and Mr. and Mrs. James Crane from Muleshoe.

**Mrs. Henry Bollman** attended a meeting of the "Quilting B's" Tuesday, March 29th, at 9:30 a.m., in Second Baptist Church, Lubbock. The program was, "Color and Design in Quilts" presented by Mrs. Conny Martin, a Lubbock artist.

**Mr. and Mrs. Owen Thornton**, accompanied by her sister, Mrs. Ernest White of Happy, attended funeral services for a brother-in-law, Bob Criswell, in Truth or Consequences, New Mexico, on Tuesday. Criswell passed away Saturday, March 26th. His widow, who is Mrs. Thornton's sister, lived in Lockney for a year in 1956 and worked in the restaurant then located in the old hotel building. Her name was Mrs. Eva Maynard at the time. The Bob Criswells owned a

**HAPPY BIRTHDAY**

April 4 - Alex Ochoa, Jovan Andrey, Mike Mathis, Rise Taylor.

April 5 - Janet Taylor Rose, Edith Dillard, Randy Rogers, Pete Gonzales.

April 6 - Mervean Carthel, Lezlee Wofford, Yolanda Luna, Dominguez Gonzales, Katie Taylor, Mrs. John T. Carthel, Tonja Whitlock.

April 7 - C. L. Calloway, Chester Mitchell, Isabel Ramos, Tom Duvall, Monty Mize, Anna Cook.

April 8 - Doris Casey, Yolanda Hernandez, Kay Taylor, Janis Marr.

April 9 - Ester E. Carrasco, Richardo Vasquez.

**Best Fishing Spots**

**LUBBOCK**—Fishing opportunities are readily available in the Panhandle-South Plains region for various species of fish including walleye, northern pike, large-

mouth bass, and catfish. Surveys conducted by the Texas Parks and Wildlife Department fishery biologists indicate good fish populations with some real lunkers in a few reservoirs.

"Angler success is determined by both the angler's ability to fish and his knowledge as to fish habit, location preference and skill in finding fish in new lakes," said Joe Kraai, Canyon fishery biologist.

"Greenbelt Lake near Clarendon has the best overall population of largemouth bass and this lake would be number one on my own list to fish this spring," Kraai continued.

For those anglers after real lunker bass, Baylor Lake near Childress would be the one to try as several 10-to-12 pound bass are caught each spring.

Another lake with a good bass population is Lake Theo on the Caprock Canyons State Park near Quitaque. Bank fishermen will find plenty of spots to try their luck in this clear lake in the scenic caprock country.

Fishermen interested in smallmouth bass should head for Meredith Lake near Fritch where some nice two-pounders have been giving anglers a good fight. Catfish anglers have a chance to catch catfish in nearly all of the lakes anywhere in Texas but some real large catfish in the 17-pound class have been recorded at Meredith Lake last year and this spring. Channel catfish in the 6-to-7 pound class are available at Greenbelt Lake according to successful anglers returning from their fishing trips.

A few 30-pound blue catfish were caught at Meredith Lake last spring and the serious fisherman should catch all he wants to eat.

Crappie fishermen who find the annual spring spawning runs can really fill their stringers at McClellan Lake near McLean. Greenbelt Lake also has a good population of crappie with most in the one-pound class.

Sandbass (white bass) populations are excellent in both Greenbelt and Meredith Lakes. Greenbelt Lake should furnish more opportunities for these fish due to the large amount of runoff collected two years ago providing plenty of water and natural habitat.

Walleye spawning season is in full swing at Meredith Lake and six-to-seven pounders are common as the fish move onto the rocky shoals to spawn. Extremely slow fishing with worms, minnows, and jigs are catching these walleye either from the bank or boat.

Fishing in Texas should be good in 1977 and the Panhandle-South Plains lakes are warming-up.

Anglers are asked to check their fishing license before leaving home and if a new one is required, purchase it from among the many license vendors in our area. Pack up your picnic supplies, fishing gear and enjoy one of Texas' most popular springtime events—FISHING.

Hanging by his feet 40 feet above the ground, Harry Houdini was able to free himself from a straitjacket!

**Newspapers Don't Really Cost — They SAVE You Money**

Merely shopping the advertised values on items needed weekly can save you many times over the price of a newspaper. Now and then ad shopping can bring you a savings on a major item far in excess of the total annual price of a newspaper!

Most important, a newspaper keeps you informed — not only on shopping values and business, but more significantly on community activities, government, civic problems and progress. Being informed is a vital first step toward effective good citizenship. In Floyd County most families look to a Floyd County newspaper—

**WHERE IN THE WORLD?**

**A QUIZ TO TEST YOUR KNOWLEDGE OF GEOGRAPHY AND CURRENT EVENTS.**

Once the capital of this 1,000-year-old country, the city's historic monuments include a medieval fortress and a 14th century castle. The coins here are made of aluminum and called zloty. Change is made in groszy and you can get quite a few back when you buy bargains in antiques, amber, pigskin and hand-woven tapestries.

Here you can enjoy caviar sandwiches, delicious delicatessen or smoked eel for dinner, and then spend the night in standard American comfort at the new Holiday Inn hotel that offers an indoor swimming pool, sauna and gymnasium. It's located near the famous ski resort of Zakopane in

the Tatras Mountains. Other popular sports include soccer and boxing, sailing and skating.

The city is (a) Moscow, Russia (b) Krakow, Poland (c) Lima, Peru?

ANSWER: (a) Krakow, Poland, the home of friendly people with a sharp sense of humor, imagination and hand-kissing courtesy.

**HAVE YOU UNFOUNDED FEARS?**

What are you afraid of? Many people are irrationally afraid of some rather harmless things and experiences, believing them to be full of unpleasant surprises.

Psychiatrists have a name for such obsessive, illogical or unreasoning fears. It's phobias.

You've heard of the fellow with a bulging medicine cabinet, who pops capsules and pills into his mouth like candy and shrinks from every sneeze or wayward draft as from the plague, which he probably thinks he's about to get. Well, he suffers from hypochondria, the fear of disease. It's a common phobia.

Sometimes people have fears no one has put a psychiatric name to. Take the person who wants to see something of the world, yet is afraid of leaving familiar surroundings and way of life and trying to cope with new situations.

One solution would be to stay at Holiday Inn motor hotels around the world. That way one can be sure of American comfort and plumbing, of safe, wholesome American food—or, authentic local food prepared by local cooks instilled with an American regard for freshness and cleanliness. It's part of the Holiday Inn System's tough, thorough code of 152 standards in which American comfort is combined with the foreign experience of maximum enjoyment.

Or maybe you have one of these phobias:

**Claustrophobia:** Fear of closed places, or of stifling. Locking a small child in a closet as a punishment has been known to give rise to this fear.

**Ailurophobia:** Fear of cats. This was a well-known Napoleonic phobia, and supposedly afflicted other dictatorial types such as Alexander the Great and Julius Caesar.

**Auto Accidents DO Happen . . .**

If one happens to you, be protected. Our car insurance offers coverage to meet your special needs — repairs to personal liability.
