Fry, Moore Strong Contenders In Regional Tennis

After posting strong wins over Tulia and Floydada in district playoffs last week, Danny Fry and Howard Moore will enter the regional tennis competition in Lubbock Friday and Saturday with an impressive 25 wins against four losses for the current season.

Three of their four losses have come at the hands of AAAA schools, Amarillo Tascosa and Amarillo High, and AAA Seminole. This impressive duo has lost only one match to a AA competitor, Denver City, state finalists in Austin last year.

Coach Louis Fry stated that regional competition will be super-tough this year as Fry and Moore will be facing the state finalists, Denver City, as well as region winner Colorado City, back from last year.

TENNIS TOURNAMENT TROPHIES acquired by the doubles duo of Fry and Moore include two second-place trophies at Snyder and Brownfield, and two first-place trophies for wins at the Amarillo Relays and the South Plains Tournament played at Canyon. Large trophy in center is the boys' team trophy, also acquired by Fry and Moore at the Amarillo Relays. (Staff Photo)

Pre-School Clinic

Scheduled Wednesday

The annual pre-school clinic and registration for children who will be at least five years old before September 1, 1977, will be held from 1:30 to 3:00 p.m. Wednesday, May 4 in the Lockney Elementary School Cafeteria.

Sponsored by Athena Junior Study Club, the clinic is for children who will start kindergarten next fall and for first-graders who have not attended school before September, 1977.

The children will register for school, receive necessary immunizations, and have their eyes examined. A medical doctor will be present to give physical examinations.

Parents are asked to bring their children's birth certificates and immunization records. Both are necessary to complete registration for public school.

Paulino Bernal Is Evangelist At Primera Iglesia Bautista Revival

Paulino Bernal will be the evangelist for the "Living Proof" revival today, tomorrow and Saturday at Primera

Iglesia Bautista in Lockney. Pastor Glenn Smith and the congregation invite everyone to attend the services, which start at 8 p.m. each day. Music director for the revival will be Troy Smith of Lockney.

Bernal was converted on October 18, 1972 in McAllen, Texas, his place of residence for the past 16 years. His conversion has transformed his entire family and career.

His experience in the promotional field finds its roots in the field of professional entertainment. He was the originator and promoter of the "Big Dance" in Texas and elsewhere in the Spanish-American world. As booking agent for many stars from the entertainment field he was in popular demand.

At the early age of 13 he organized the "Conjunto Bernal," an eight-piece band that attained national popularity immediately. He played guitar and later the accordion. They toured throughout the US wherever there was a concentration of Mexican-Americans. He formed the "Bego Record Company" that became a million-dollar

organization. A portion of the organization, "Consolidated Record Sales," was sold for 1 1/2 million dollars. He is the sole owner of Bernal Records, Inc., now sub-leased to Marsal Productions of San Antonio.

He recorded over 50 LP's of his own. He has now turned to recording religious recordings. His most recent recording is "Paulino Bernal relatu su Nueva Vida" (Paulino Bernal tells of his New Birth). His witness is being heard all over Texas. The thousands who heard his secular recordings are attracted to his services and hundreds are turning to Christ as a result of his testimony.

Although a new Christian, Mr. Bernal has committed more scriptures to memory in the brief time than most Christians in a lifetime. His use of the Scriptures in his witness is a blessing beyond description.

Commissioners Still Face Revenue Sharing Budget Action

The second try at adopting an eight months budget for Floyd County's \$98,816.00 in Revenue Sharing funds has been set for Monday, May 9, 1977 at 10:30 a.m. in the Floyd County courtroom.

According to Revenue Sharing regulations, the budget must be published ten days before the adoption by the Commissioners' Court in order that the public may have information on the proposed use of the funds.

The proposed budget, made from suggestions received from Floyd County citizens at the Public Hearing on March 14, includes the following items:

Precincts...	\$49,408.00
Muncy Farm to Market Road project...	20,000.00
Floyd County Museum...	1,000.00
Floyd County Day Care Center...	1,000.00
High Plains Mental Health/Mental Retardation Center	3,200.00
Agriculture Building, Library, & Jail Fund...	24,208.00

Total... \$98,816.00

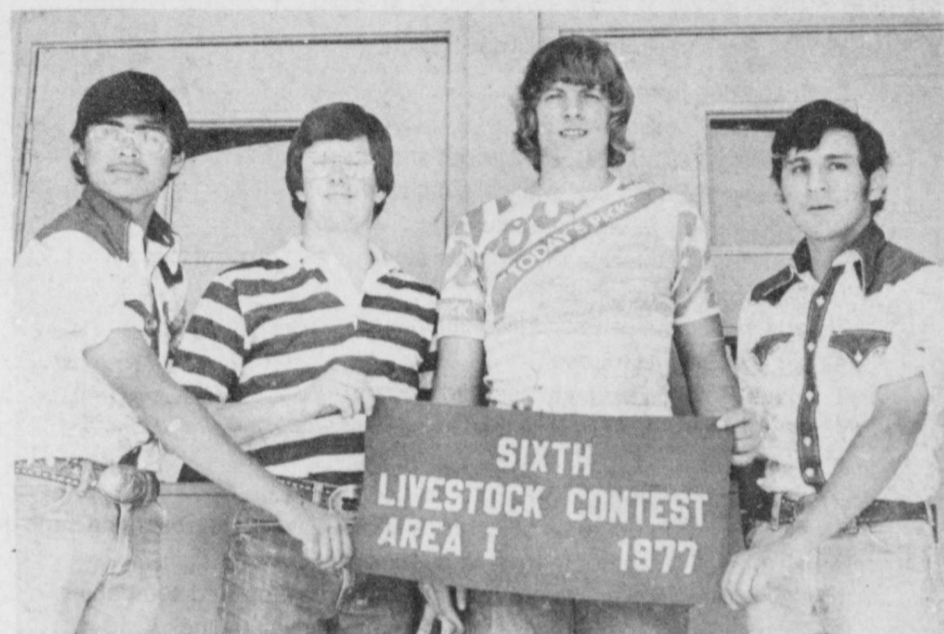

This budget reduces the amount the Commissioners' precincts receive for road maintenance to 50% of the funds. The Commissioners had received 60% of the funds from the past Revenue Sharing program.

The Muncy Farm to Market Road in Precinct #2 and Precinct #3 is allocated \$20,000.00 to complete the purchase of rights of way, moving utilities and

other expenses. A total of \$40,000.00 has been set aside for this project. Small amounts to the museum, Day Care Center, and Mental Health Center in Plainview will leave \$25,208.00 in an Agriculture, Jail and Library fund for rebuilding or improving these buildings. Additional money will be added to this fund in the next three years.

This is the same budget which was proposed on April 11 for adoption. At that time, Precinct #2 Commissioner Bob Jarrett made a motion which

would have raised the amount received by the Precincts to 60% of the funds and cut the Agriculture Building and the Library from the improvement plans. His motion was seconded by Precinct #3 Commissioner Grigsby Milton but failed to carry in the vote which followed. Jarrett and Milton voted for the motion. Precinct #1 Commissioner Aaron Carthel and County Judge J. K. Holmes voted against the motion. Precinct #4 Commissioner Jack Lackey was not present at the court session.

State and Local Taxes

An article in the March *Financial Statement*, publication of the Office of Planning and Research of the State Comptroller's office, sheds some light on Texas taxing and spending. It reads as follows:

"Texans spend a smaller share of their personal income on state and local taxes than do the residents of most states, according to a recent study by the U.S. Advisory Commission on Intergovernmental Relations. In 1975, Texans paid out 10.0 percent of their personal income in state and local taxes, compared with an average of 11.9 percent for the 50 states. Texans ranked 44th among the 50 states on this measure.

"The lighter tax burden enjoyed by Texans is illustrated in the accompanying table. The percentage shares of personal income paid out in state and local taxes during 1975 are listed for the ten most populous and the four regional states. Percentages for the total state and local tax burden are also shown.

"Texas ranked 43rd in state tax revenues paid out of personal income, with a 5.3 percent total recorded for 1975. By contrast, New Mexico's state levies claimed 9.5 percent of the state's personal income, ranking second among the 50 states. New Jersey state taxes absorbed the smallest share of personal income among the states listed, registering 4.3 percent in 1975.

"Texas ranked 30th in local tax revenue paid out of personal income, with 4.7 percent of the state's personal income going to local governments in the form of taxes. In first-ranked New York, local tax receipts accounted for 8.2 percent of total personal income.

"New York also ranked first among the 50 states in total state and local taxes as a share of personal income. The tax burden imposed on New York residents amounted to 15.7 percent of the state's personal income in 1975.

"Two states among the 14 listed had lighter overall tax burdens than Texas' 10.0 percent. State and local taxes in Arkansas claimed 9.9 percent of personal income, and the tax burden in Ohio was 9.5 percent."

Teena Jones, Richard Wooten Wed

Miss Teena Jones became the bride of Richard Wooten Saturday afternoon in the First United Methodist Church of Lockney. Earl Cantwell, minister of the Rock Creek Church of Christ, performed the ceremony. Parents of the couple are Mr. and Mrs. F. G. Jones, Jr., and Mrs. and Mrs. Lester Wooten.

The bride, given in marriage by her father, wore a formal length gown of white silk organza and net over peau, designed with a high ring neck, "U" shaped sheer yoke in back and front, empire waist and skirt styled with two rows of wide lace on the bottom and trimmed with white scalloped alencon lace. The skirt swept to the back, forming a chapel-length train. The veil was fingertip length with three rows of lace, with flowers for a cap. The bride carried a bouquet of white daisies, blue carnations and

baby's breath. She carried a penny in white lace and a gold wedding band belonging to her great-great-grandmother Rushing.

Gaye Gibson, sister of the bride, was matron of honor. Her aqua dress was floor length, with handkerchief sleeves trimmed in white lace. The dress had a square neckline also trimmed in lace. She carried a white basket of white daisies with aqua ribbon.

Best man was Pat Mooney. Candle lighter was Stacey Miller, and registrar was

Dawn Miller. They are nieces of the groom.

Mrs. Bobby McCormick played "The Twelfth Of Never" and "The Wedding March."

Servers at the reception were Sandy Jones, Patty Jack, Melodie Tidwell and Linda Berner. Members of the house party were Mrs. Charles Huffman, Mrs. Durward Jack, Mrs. Frank Duckworth and Mrs. Freddie Morren.

The newlyweds are at home in Lubbock. Both are candidates for May graduation from Texas Tech University.

Coffee Honors Donice Holton

Carla Donice Holton of Lubbock, bride-elect of Don Ed Holmes, was honored Saturday morning with a gift coffee in the Floydada home of Mrs. Mack Hickerson. Mothers of the betrothed couple, Mrs. Chuck Holmes of Floydada and Mrs. Jimmie Holton of Wichita Falls joined Mrs. Hickerson and the bride-elect in receiving guests.

Among special guests were grandmothers of Miss Holton and her fiancé, Mrs. Eunice Hamilton of Wichita Falls, Mrs. Alma Holmes of Duncanville and Mrs. M. Lackey of Lubbock, and an aunt of the future groom, Mrs. Ronnie Darby also of Lubbock.

Mrs. Jerrold Vinson served refreshments from a silver service. The table was laid with an ivory lace cloth centered with a lead crystal bowl containing multi-colored silk flowers, later presented to the honoree from the hostesses along with a set of cookware.

Assisting Mrs. Hickerson with the coffee were Mmes. C.C. Whittle, L.D. Smith, W.H. Smith, H.G. Watts, Jerrold Vinson, Jim Jackson, Louis Lloyd, H.W. Bennett, Denzil Sanders, She-

rwyn Shurbet, Don Shurbet, Mac Smitherman, C.L. Roberts, and J.M. Willson Jr.

Mrs. R. C. Smith Honored On 96 Birthday

Mrs. R.C. Smith was honored with a dinner on her 96th birthday Tuesday evening, April 19th, in the home of her son and wife, Mr. and Mrs. Bill Smith. Attending the dinner other than the honoree and hosts were Mr. and Mrs. Roy Smith of Plainview; Mr. and Mrs. Travis Dunn and Jean, Lockney; Mr. and Mrs. G.W. Smith, Mr. and Mrs. Don Harrison,

Floyd Smith, Mr. and Mrs. Max Harrison, Debbie and Tracy; Mr. and Mrs. Ronnie Smith, Stacy and Andra; Mrs. Frieda Dunn, Rob, Reagan and Jayna and Mrs. Helen Johnson, mother of Mrs. Ronnie Smith, all of Floydada; Mr. and Mrs. Weldon Jones, Hale Center; and Mr. and Mrs. Bob Hansen, Gregg and Ricky of Rochester, New York.

Mrs. Smith has been a resident of Floyd County for the past 72 years. She and the late R.C. Smith and the two older children, Roy and Fay moved to Floyd County from Montague County in 1905. They lived in the Center Community for one year then moved to the family home in the Lakeview Community where the other six Smith children were born. They are Floyd Smith, Mrs. Don Harrison, Mrs. Travis Dunn, G.W. Smith, Mrs. Milton Harrison and Bill Smith. The family

grew up on the same farm the parents moved to in 1906.

Mrs. Smith's husband passed away in 1938 and she continued living alone on the farm until 1968 when a son, Floyd, retired and moved to the home place to make his home with her. A daughter, Mrs. Milton Harrison and her husband live nearby and operate the Smith farm.

Mrs. Smith has eight children, 14 grandchildren and 24 great grandchildren.

Menard Field Named Outstanding Senior Citizen

Menard Field was named Outstanding Senior Citizen to represent the Floydada Senior Citizen organization at a meeting to be held in the Mackenzie Park in Lubbock May 11. Mr. Field, along with other outstanding Senior Citizens over the area, will be honored during the Lubbock program. He was selected during the regular

meeting of Floydada Senior Citizens last Wednesday at their covered dish luncheon. Present for the local event were seven visitors from Lockney, one from Alliance, Nebraska, one from Lubbock, one from Petersburg, and one from Lockney. Visitors are always welcomed as well as new members.

Miss Janice Miles from the Homemaker Service Aide Program at Texas Tech explained their programs and showed films of aides assisting the elderly. She explained this program helps both the elderly and the aides, who attend classes at Tech once each week for training.

Jimmy Fullinim entertained with a program of religious songs which were enjoyed by the group.

Mrs. C.H. Rose of Lockney extended an invitation to the Floydada group to attend their club meeting on Thursday, May 5. Since there are two invitations for events in May and also the Floyd County Pioneer Day, the Floydada Senior Citizens voted not to schedule their regular meeting in May, therefore they will not meet until June 15.

NEWS 'N' NOTES

(by Sharon Hillis)

"Now" fashion—on a shoe-string budget—is possible with just a few ideas for updating current wardrobes.

Identify items in your present wardrobe that are still usable—then update those by making changes in them or by adding new items that coordinate with them for a more fashionable look.

Below are several trends for spring /summer '77—with ideas for incorporating these into your present wardrobe.

Bright bold colors, especially stripes are spring's hottest news. Also popular is all white, white with black or brown, and white combined with bright colors.

Choose tops in the newest styles and boldest colors to coordinate with pants, shorts, and skirts you already have. White separates

from previous seasons are particularly usable for this coordinating technique.

Pant legs tend to be narrow and straight from the hip, so flared legs from the past may need modifications. Pants and shorts come in many lengths this season, so many possibilities for those "too short" pants are available. Cut them to mid-calf length, to the knee, to mid-thigh, or to short shorts.

Styles may be cuffed or uncuffed. If appropriate, convert them to gauchos or parachute pants with elastic or drawstring at the ankle—or add a fabric band at the bottom. Bands are seen everywhere this spring.

Longer skirts promise to be the favorite length, although many lengths are available. To achieve desired length for skirts, add ruffles in fact, rows of them—or a band in a coordinating print,

For a Mother or a Grandmother, a memory of every loved one in her family.

Floydada Nursing Home Happenings

By Faye Walters

The rain has been great this week but the storm warnings have upset some of our residents.

We are all thankful that none of the storms were very bad here.

We have had good devotions this week and everyone seemed to get a special blessing from the word and from the songs.

Wednesday was too stormy to take our field trip but maybe next week will be pretty. The residents really miss their ice cream and trips on Wednesdays.

Our exercise classes have been good and we are happy to have Mollie Jones and Alta Probaseco attending.

Thursday was bingo day and everyone was ready to play. Top winners were Agnes Anderson with four games, Ray Reed and Hope Hammonds both won 3 games, Hallie Bertrand won 2 games and Willie Stambough and Clara Williamson won a game each.

We have two new residents, William and Tersie Green.

We appreciate all our visitors this week which included:

Sue Moore, Martha Leatherman, Mr. and Mrs. Floyd Anderson, Mr. and Mrs. Otis Anderson, Mr. and Mrs. Hubert Davis, Mrs. Paul E. Wilson, Jerry Jarrett, Parnell Powell, Lori Jarrett, Artie Webb, Mrs. George Wexler, Alma Ruth Nelson, all of Floydada; Ivy Bridge, Doris Gaither, Mrs. Gordon Wright, Levelland; Mrs. Jackie Jackson, Amarillo; Christopher Crisp, Levelland; Mr. and Mrs. Bill Smallwood, Green Bostick, Mrs. Ruth Benson, and Mildred Plumlee, all of Matador; and Mr. and Mrs. Clay Anderson of Stinnett.

Harmony Club Has Meeting

Harmony Home Demonstration Club met Monday in the community center with Mrs. Jimmy Kelly and Mrs. Zant Scott as hostesses. Seven members and the extension agent were present, and answered roll call with "The worst bargain I ever bought," which ranged from material to lawn mower.

During business plans were made for the County-Wide meeting and salad luncheon on May 9 at Light-house Electric. The event begins at 10:30 with get acquainted games followed with a program by Mrs. James McNeill on sand arts. Lunch will be served at the noon hour after which a guest from Tulsa will give a jewelry demonstration, "Make It Like Commercial Candy." Invitations to all women in the Lockney and Floydada area are extended.

The program for the Harmony Club was presented by the extension agent, Sharon Hillis on "You Know, Those Thing-Ama Jig Type Wall Fasteners?" Mrs. Hillis said a person could use hat or wig pins for hanging lightweight objects close to the wall, and urged that they be driven in at an

angle. Also gummed cloth hangers may be used, but Mrs. Hillis said in removing them from the wall later to be sure and soak so as not to peel paint from the wall. She said to attach heavy objects to a solid wall, use flange type fasteners if to a masonry wall and a fiber hanger with lay screw shield on a plastic anchor. These fasteners may be found at hardware stores.

Attending the meeting other than hostesses and the agent were Mmes. Everett Miller, Mather Carr, R. N. Hopper, Elmer Williams and Glen Curtis.

news from these two communities, give me a call.

COFFEE buddy Jean Hale won the pretty Iosa in a hanging planter from a drawing at the Hanging Basket Monday afternoon. Figure she will be happy enough to buy us a cup at least one morning this week.

A pair of sun shades, aviation type with shaded lenses have been found in front of the Hesperian. If you have lost such, please come to the Hesperian and identify.

SOMEONE needs to form Mothers of Twins Club around here. Noticed that Amarillo has such an organization which held a convention last weekend with lectures, small group discussions, fashion show and a luncheon and banquet. Mrs. Max Rucker of Amarillo, daughter-in-law of the Ralph Ruckers of Floydada, was general chairman for the event. The Max Ruckers are parents of twin sons.

SKATEBOARDS may be fine for the younger generation, but I'm not one to attempt the idiotic contraptions. I remember recently a grandmother told me she had conquered the art when she was told she was never too old to learn anything. It was the lively grandchildren who dared her to try. She commented that she got set,

pushed off, rounded the corner or rather she squared it and the skateboard went one way and she the other, landing in a neighbor's flower bed. She said, "I felt like telling the neighbor, while pointing a finger at the grandkids. They made me do it!" Not letting them get the best of her this 60 year old grandmother took off again and after much practice has now mastered the skateboard.

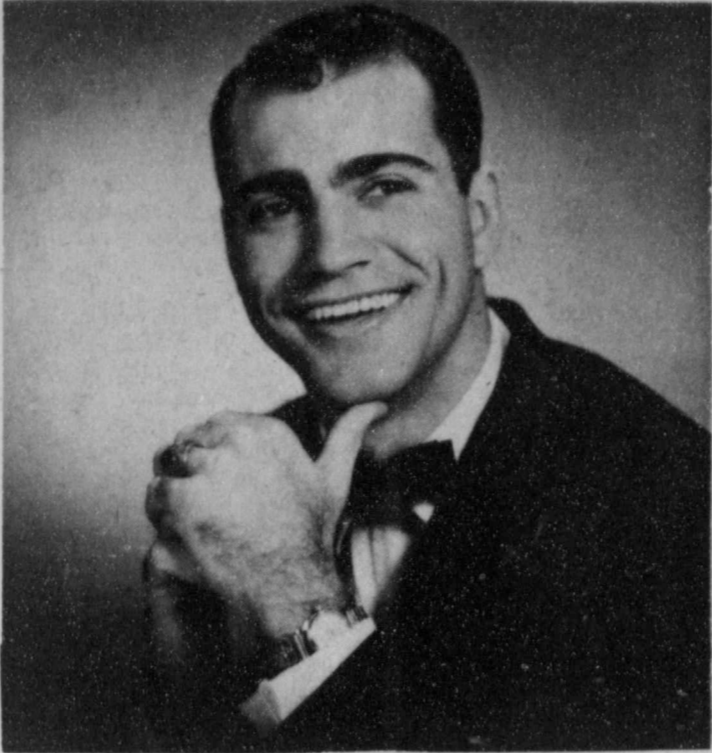

EVERYONE seems to always know what to get Mothers for their day, but when it comes to Dads we are nearly always stumped, or I am. There's something new this year for the dad who rides a motorcycle. You guessed it, Neiman Marcus has made arrangements with ostriches and reptiles, to cover his crash helmet. The ostriches supply the leather and the reptiles the trim for a mere \$1,500. By the way if you are interested, it's a special order item—so don't wait too long.

AND for the bride and groom who may have flexible wedding plans, and you don't mind if the ceremony is performed in a mall, and you don't mind if Golden Richards is your best man, then send your qualifications to Carol Spratt, marketing director for the mall in Fort Worth and coordinator for the wedding, which must be the afternoon of June 4th. So far only five couples have filled out the lengthy applications. Don't tell them I sent you, but for those who don't know who Golden Richards is, he is that golden blond wide receiver for the Dallas Cowboys.

AN usher for a church was retiring and was instructing his youthful successor in the details of his duties, "And remember, my boy, that we have nothing but good, kind Christians in this church—until you try to put someone else in their pew!"

A third grade teacher asked of her students, "Who can tell me what widow means?" A boy raised his hand and answered, "It is someone who isn't married to a husband or a spider."

PROBABLY THE FIRST MOTORCYCLE EVER SEEN IN AMERICA WAS A TWO-WHEELED VEHICLE INVENTED BY WILLIAM A. AUSTIN OF WINTHROP, MASS., IN 1868. IT WAS STEAM DRIVEN AND HAD A BOILER SUSPENDED AMIDSHIP. THE VEHICLE HAD A VERY LIMITED TRAVELING RANGE BECAUSE OF THE SMALL AMOUNT OF STEAM GENERATED.

Dr. Jack Henry

Dr. Henry To Be Inducted Into International Society

Floydada High School and Texas Tech graduate, Dr. Jack H. Henry of San Antonio, departs this weekend for Rome where he will be honored and inducted into the International Society of Surgery for total hip and total knee surgery. The honor is the highest in the surgery field. Dr. Henry studied in Europe several years ago under Dr. Smiley who perfected the total hip and knee surgery.

Dr. Henry received his Medical Degree from the University of Texas in Galveston and on a grant his sophomore year trained a

year at the Columbia Medical Center in Pennsylvania and interned at Ben Taub Hospital at Houston. He did a year's residency at Pennsylvania University Hospital, and was at Columbia Presbyterian Medical Center in New York several years before moving to San Antonio to do private practice.

Dr. Henry and his wife, Jane who will accompany him to Europe, have two children, Robert and David. He is the son of Mrs. Allene Henry and the late Jack Henry of Floydada.

Homebuilders Meet With Mrs. Walker

Homebuilders Home Demonstration Club met April 26 in the home of Mrs. John Walker, with the president, Mrs. Ruth Trapp presiding. Mrs. Walker read the devotional from Chronicles 22:3.

Roll call was answered by nine members on the "worst bargain I ever bought."

Mrs. Sharon Hillis gave the program on "Those 'Thingamajig' Type Wall Fasteners."

Many lightweight items up to 10 pounds can be hung by using a strong hat pin, wig pin or upholstery pin by driving the pin downward at an angle. A picture hook offers more strength than a nail since it goes into the wall at an angle.

When attaching heavy objects to hollow walls the flange type fastener or molly bolt work well.

Objects attached to masonry walls require special anchors, since ordinary nails and screws will not grip masonry materials. Most fasteners are driven into prebored holes and held in place by expansion after screws are driven into them. The fiber anchor is one of the most desirable.

A wide range of wall hangers were explained and displayed.

The following members were served a refreshment plate by the hostess: Mmes. Raymond Evans, Lee Rushing, Ernie Widener, Ruth Trapp, Elmer Norrell, Raymond Williams, Gordon Mayfield, and Bill Smith.

The meeting adjourned to meet May 9 for a county-wide meeting at Lighthouse Electric with Harmony as hostess.

As It Looks From Here

Omar Burleson, M.C. 17th District, Texas WASHINGTON, D.C.—AS WE HAVE SAID TIME AND AGAIN, no one has yet repealed the law of supply and demand. This principle is involved in the President's energy policy proposal.

THE ENTIRE THRUST OF THE PRESIDENT'S PRESENTATION is conservation. Certainly, there is nothing wrong with conservation. All sorts of statistics are available indicating that we use upwards of 50% more fuels for energy than is absolutely needed. On the other hand, this use of energy has given this Nation the most viable economy and the highest standard of living to be found in the world.

ENERGY FUELS WILL BE NEEDED FOR FUTURE GROWTH, to maintain our high level of economy, looking to the future development of high technology which furnishes jobs, and improvements for future generations.

THE PRESIDENT'S PROPOSAL ON ENERGY does nothing to increase production of energy supplies. The conservation measures mean sacrifices in our economy without anything to replace them.

IT MAKES SENSE TO CONSERVE IN AN INTERIM PERIOD but the controls which go with it are the main reason we are in the shape we are today. If we think we have controls and regimentation on the economy by a bureaucratic Government, if all the elements of the energy policy were adopted, there would be inevitably more at the cost of every citizen in this Nation. Not only is additional production not encouraged but it is to be more hampered and restricted by the red-tape of environmental controls, which is already limiting the production of coal and nuclear supplies. We have the natural resources in this Country if they were allowed to develop without being ham-strung by all the regulations which now exist but which will be just about total if all Administration recommendations are adopted

to meet the "crisis."

IT IS SOMETHING LIKE A MAN in the middle of the desert with a jug of water. He is told to conserve the water, but not encouraged to search for another supply. If he stands there long enough his bleached bones may be some day found with the jug of water still at his side.

OVER THE YEARS, THERE HAS DEVELOPED a high prejudice against fuel producers and, particularly, oil and gas. It is "big oil," "big coal," "big utilities," big everything which produces and delivers energy to the American people. Costs have gone up and will go higher if this entire concept is approved. A complicated system of rebates and subsidies of one sort and another is proposed to relieve the costs burden in certain areas. Unfortunately, some other "big businesses" who depend on adequate energy supplies are inclined to stand by, seemingly, for fear of drawing attention to themselves. In consequence, this "every man for himself" attitude is causing this Country's economy to lose ground on most every issue involving Government regulations.

HOMER'S ODYSSEY tells how the hero, Ulysses, and his men were shipwrecked on an island inhabited by a man-eating giant called Cyclops. In the face of this predicament Ulysses was able to persuade the giant to grant him the favor that he be the last of the crew to be eaten.

THIS ANCIENT GREEK STORY somewhat illustrates the attitude of some people and some businesses towards Government intervention in the free market. Each wants to be the last to feel the Federal teeth although they are deeply concerned about the preservation of the free enterprise system. Efforts are fragmented to preserve it. This seems to feed the trend here in Washington for more rules, regulations, control and regimentation on "the other guy."

The teeth of sharks are set in their mouths in rows. As one row wears out another takes its place.

The Floyd Philosopher

Wants More Information On The Judges Who Voted On Paddling Students

Editor's note: The Floyd Philosopher on his Johnson grass farm discusses the Constitutional issue of paddling this week, without saying how he fared when he was in school.

Dear editor:

One of the troubles with high-powered newspaper and television reporters is they're too superficial, they don't go deep enough into the important news stories of the day.

For example, the Supreme Court, but a vote of 5 to 4, has ruled it's not unconstitutional to paddle a school kid.

The wire services and the networks reported this, along with reports on why some members voted for, some against.

But they left out what I wanted to know: How many members of the Supreme Court were paddled when they were in school? If a member was paddled, did it, now years later, reflect itself in how he voted on this Constitutional crisis? Did the 5 who voted for paddling get paddled when they were in school, and the 4 who voted against escape? Or was it the other way around? That is, from which end did they approach it? While of course getting to the seat of the problem.

Reporters ought to get on the ball and give us the news we're really interested in, like does getting a paddling in school make a liberal or a conservative Supreme Court judge?

Some people don't think times have changed, but they have. Years ago, when a kid got paddled for misbehaving in school, it went to the Supreme Court, all right, but that court wasn't located in Washington, it was much closer. It was at home, where the kid automatically got another paddling for getting a paddling in school. You might call this double jeopardy, but to the kid it was a signal of clear and present danger that if he didn't straighten up he was going to have trouble sitting down.

I don't know whether it worked or not, but it sure saved legal expense.

Also, I don't know whether kids learned more or less years ago than kids do nowadays, but whatever was, more or less, it sure was quieter. Oh, occasionally an erasure was thrown through a window but never a teacher.

Yours faithfully,
J.A.

Cattle Profits Still A Year Or Two Away

COLLEGE STATION—Although cattlemen are starting to see better prices again, it may still be a year or two before they start making profits.

That's the contention of Dr. Ed Uvacek, a livestock marketing specialist with the Texas Agricultural Extension Service.

Uvacek, who has been in the business of analyzing cattle cycles for some time, is basing his projection on the assumption that a new cycle is just now beginning and that the second to the sixth year of the cycle is generally the most favorable period from the price standpoint. Historically, cattle cycles have been highly consistent in both duration and magnitude, generally lasting about seven- to eight-years during this build-up phase.

"Cattle numbers peaked in 1975," points out Uvacek, "and since then, there has been a liquidation which now

looks like it is coming to an end. With a new cycle about to start, the years 1978 to 1982 should provide fairly good price years for the cattlemen, if history repeats itself. Of course, this doesn't take into consideration such factor as droughts, depressions or similar catastrophic situations."

Although 1977 won't be a banner year for cow-calf operators, they should at least be able to realize incomes large enough to cover out-of-pocket costs, believes Uvacek. Of course, they will have to keep a wary eye on inflation—the real villain during the past several years and one which remains a constant threat. Improved price levels, therefore, may not be sufficient enough to offset rising production cost.

"In order to survive in this new cattle cycle, cattlemen will have to muster whatever technological, financial

and marketing innovations they can get their hands on," contends Uvacek. "The cattlemen of the 1980's must, by necessity, become market-oriented and be extremely progressive. Otherwise, he had better find another vocation."

Latest Sales Tax Rebate Check Mailed

AUSTIN — Comptroller Bob Bullock mailed checks totaling \$16.2 million to Texas cities and towns Friday, representing the April rebate of the one-cent sales tax they assess.

Bullock said his office has remitted \$105.7 million in city sales taxes this year to date, an increase of 21 per

cent over the same period in 1976. However, he explained, part of the increase is due to a change made by his office effective this month.

The Comptroller's Office has historically retained 4.76 per cent of the cities' sales tax collections to cover refunds or bad checks. Bullock said this amount has been reduced to 2 per cent, so that cities now will receive nearly 3 per cent more of their sales tax promptly for spending or investment.

Even without the change, he noted, "city sales tax collections are running a healthy 18 per cent ahead of last year."

Bullock also asked merchants to refrain from changing the due dates and period dates on the printed sales tax return forms they now receive from his office. He said the practice has caused many taxpayers' payments to be credited to the wrong reporting periods, sometimes resulting in erroneous billings being issued by his office.

The Comptroller's printed city sales tax allocation took a new form this month as well, with figures comparing each city's collections in 1977 with the same periods in 1976.

Each town is followed by its net payment this period; net payment same period 1976; 1977 payment to date; 1976 payments to date; percentage of change.

Be resourceful—when you're in the midst of preparing a recipe that calls for baking powder and find you're out of it, substitute one-half teaspoon baking soda and one-half teaspoon cream of tartar for each required teaspoon of baking powder, suggests Mrs. Gwendolyn Ciyatt, consumer marketing information specialist with the Texas Agricultural Extension Service, The Texas A&M University

"A Taste For Candy"

COLLEGE STATION— "Candies, as we know them today, basically date back to the 16th century, Frances Reasonover, a foods and nutrition specialist, says.

"Of course in those days, they were made by hand, where today's modern machines take over the task of cooking, molding, coating, drying and packaging.

In addition to machinery, one other major innovation hit the industry—refined white crystalline sugar—in the 19th century," the specialist with the Texas Agricultural Extension Service, The Texas A&M University System, said.

Initiating the history of candies, the ancient Egyptians—at least the rich ones—had a fondness for exotic sweets, she said.

"Both written and pictorial records show us that the 'upper crust' often nibbled on honey-sweetened confections, containing figs, dates, nuts and spices. These candies came in various shapes and were usually brightly colored.

"After the ancient Egyptians, history records revealed almost nothing about candy until the 14th century, when sugar was shipped into Venice. It then tells us that the resulting candy industry sold its wares largely to pharmacies or spice stores. And the industry remained fairly localized until sugar cane and sugar beets spread through the world.

What One Person Can Do

When Dayton, Ohio, residents call James Hopkins "The Fuzz" he is never insulted; he's delighted. Sgt. Hopkins uses the nickname "Buzz the Fuzz" on a weekly 90-minute radio program in which listeners phone the station with problems and questions.

Sgt. Hopkins, a 53-year-old veteran of 25 years on the force, supplies answers to queries of all types, some almost frightening. A teenager may ask "How can I get

a gun?" Adults may ask, "What happens to a cop who takes a bribe?" or "Can I legally kill a man who's stealing my property?" The sergeant answers, and sometimes invites callers to headquarters for further discussion.

Because of his radio program and other pioneering work in Dayton's police force, Sgt. Hopkins was awarded the 11th annual Police Service Award by Parade Magazine and the International Association of Chiefs of Police. The award cited his supervision of a nationally known project that invites Dayton citizens to help plan police policy, setting up guidelines with the police on how officers should act in various situations.

"There is no way you can effectively police a city unless there is cooperation and understanding between the police and the body of citizens," says Sgt. Hopkins. "I try on my own time to help build a bridge between police and civilians. If I succeed, everybody's a winner." Cooperation and understanding can be keys to the success of any program. If we succeed in building these, "everybody's a winner."

State Receiving More Utility Tax

AUSTIN— Comptroller Bob Bullock said Friday that sharp increases in Texas utility rates have nearly doubled state utility tax revenues since 1972.

Bullock said that state gross receipts taxes on electric, gas and water utilities and telephone companies brought in \$80.2 million in fiscal 1976, compared to \$42.7 million in fiscal 1972.

He noted that the upward trend continues, as the same gross receipts taxes have yielded \$53 million during the first six months of fiscal 1977.

The utility tax analysis is contained in the Comptroller's April monthly financial statement, which also includes an expanded report on the impact to Texas of federal regulation of natural gas prices.

Bullock said that state expenditures during February totaled \$519 million, bringing total expenditures during the first six months of fiscal 1977 to \$3.36 billion, a one percent increase over the previous year.

Spending by the Texas Department of Highways and Public Transportation continued to decline, he said. Highway construction and maintenance expenditures for the first half of the current fiscal year were \$298.1 million, down \$102.3 million from fiscal 1976 levels.

The Comptroller said the February state revenues of \$658.4 million pushed the fiscal year-to-date revenue to \$3.25 billion, nine percent

ahead of fiscal 1976. The state closed its books at the end of February with a cash balance of \$1.3 billion, he concluded.

Crop, Livestock Reports Needed

During late May and June, many Texas farmers and ranchers will receive a crop or livestock questionnaire from the Texas Crop and Livestock Reporting Service or will be personally interviewed by the Service's field staff. This is part of the continuous effort of keeping track of Texas' biggest business—agriculture.

The information gathered through the questionnaires and interviews provides the basis for determining the

Yugoslavia is the largest source of imported chairs. Other important sources of chair imports are: Taiwan, Singapore, Romania, Mexico, Italy, Denmark, Korea, and Japan. Some imports are limited to furniture parts made of wood, rubber and plastic with Taiwan being the most significant importer. Canada, Yugoslavia and Korea are also major contributors with imported furniture parts, reports Mrs. Patricia Seaman, area housing and home furnishings specialist with the Texas Agricultural Extension Service, The Texas A&M University System.

An increase in the government support price of manu-

facturing milk will help dairymen cope with rising production costs but will also bring some increase in consumer prices, says an economist with the Texas Agricultural Extension Service and the Texas Agricultural Experiment Station. As of April 1, the support price for manufacturing milk is \$9 per 100 pounds, up 74 cents from the price that prevailed for the past six months. The price increase is expected to boost the price of butter by 10 cents a pound and the price of nonfat dry milk and cheese by 5½ cents per pound. Fresh milk prices will likely increase about 1½ cents per quart.

MAIN & COLLEGE LOCKNEY, TEXAS

Letter To The Editor

LETTER TO THE EDITOR

Dear Editor:

I should like to join Mrs. Martin Stephan in urging all citizens to be informed concerning the Equal Rights Amendment. Although it now appears that recession by Texas is virtually moot, nevertheless much misinformation and misunderstanding of this proposed Amendment exists, thereby doing a disservice to our population as a whole.

Seldom have Americans been confronted with an issue which has generated so much heat and shed so little light. The proposed Amendment would guarantee only that "Equality of rights UNDER THE LAW shall not be abridged or denied by the United States, or any state, on account of sex." It will not wreck either our Nation or our legal system. It will affect only those laws which discriminate against women because they are women, thus providing equitable treatment for the majority of our population (by the numbers, women constitute the majority of U.S. population).

Among the things ERA WILL NOT do are:

1. ERA WILL NOT destroy the family unit as the basis of our social structure. Any one who believes that the family is in danger of disintegrating has never lived in Lockney, Texas! On the other hand, any one who believes that our social structure is, for all its members, a howling success and a little chunk of Paradise just hasn't been paying attention.
2. ERA WILL NOT deny any woman's husband the right to support her, nor will it deny any woman the right to be supported. State laws already provide for mutual support in marriage, and require both parents to be responsible for the support of their children.
3. ERA WILL NOT force women to leave their homes, put their children in day care centers, and go to work. The only law forcing any person, man or woman, to work is the LAW OF SURVIVAL. And anyone who thinks housewives don't work should follow some of them around for a day or so!
4. ERA WILL NOT force women to submit to military draft nor into combat zones. Currently there is no draft, but if there were, there is nothing in the Constitution which guarantees any citizen the "right" not to be drafted. Further, there exists now a Federal Law enacted by Congress during World War II, providing for the conscription of women. So what else is new about women in combat zones? Florence Nightingale at Balaclava was responsible for bringing to public notice the fact that since the beginnings of recorded history women have served in combat zones, either bearing arms or binding wounds.

Concerning the below-the-best issues:

5. ERA WILL NOT legalize homosexual marriage, any more than it will legalize incestuous or polygamous marriages. States' Laws prohibit all marriages except heterosexual marriage, and there is no reason to assume that the Texas State Legislature, lacking the courage to stand by their ratification of ERA, is going to risk passing laws to permit homosexual marriage!
6. ERA WILL NOT force men and women to use the same public or private toilet facilities (or "bathrooms" if you will). Federal Law now requires employers to provide separate facilities in their businesses, although any one who is observant would notice that a few very small businesses with few employees have only a single toilet. It must be obvious to anyone who has ever travelled outside Lockney that men and women use the same toilets on trains, planes, and buses and have done so for more than fifty years. And so far as can be determined, there has not been a single recorded case, in years, of pregnancy resulting from bathing in a bi-sexual bathtub!

American women have earned the right to be persons in their own right, not appendages to other persons or social units. So, Citizens, be informed! Equal treatment for women will enhance society, not bring it to a screeching halt. Open your minds and your reason and let some fresh air in!

Equally yours,
 May Pearl Burns
