FOUNDATION HONOREE -- C.I. "Stony" Wall, left, receives a framed proclamation from Don Marble, president of the High Plains Research

Foundation Board, during its Thursday meeting. Wall was honored as one of the early supporters of the research center.

Herald Staff Writer

HALFWAY — C.I. "Stony" Wall of Amarillo was presented a framed proclamation honoring his work in connection with the High Plains Research Foundation during Thursday's Board of Trustees meeting at the Halfway complex.

During the presentation, board president Don Marble explained that Wall is one of the original members of the board and was instrumental in obtaining financial backing to purchase land on which the center conducts many of its activities.

"He has been one of the Foundation's biggest supporters and driving forces. He took a personal challenge to raise funds to keep the center operating during our early years and he has never stopped his sup-

port," Marble said.

Wall, chairman of the board of Pioneer Corp., is a former president of the natural gas concern. He has been a member of the High Plains Research Foundation for almost 20 years, Marble said.

IN OTHER business, the 50 board members and scientists present reviewed research projects currently underway at Halfway by 16 scientists and re-elected 40 members of the board to three year terms. "The board consists of 120 members, elected to staggered three year terms," Jack Cloude, Foundation executive director, explained.

The center, he said, was established in 1956 as an independent agricultural research organization. For the past three years it has been part of the Texas

Agriculture Experiment Station, Lubbock-Halfway, conducting research in connection with the Lubbock center.

"The reason we leased the center to the Experiment Station is due to the large financial base needed to do the job of agriculture research. We had the facilities but it was increasingly difficult to obtain the funding to maintain our load of research."

THE RESEARCH foundation at Halfway currently is governed by a coordinating board comprised of representatives from Texas Tech, West Texas State University, Texas A&M, Texas Agricultural Experiment Station, the Extension Service and all major commodity organizations for the purpose of coordinating the total agricultural research program for West Texas, he explained.

**Lakeview News**

(By Penny Golightly)

**LAKEVIEW**— May 2— Some farmers have been planting already, so planting season is upon us. We have had some to tell us that more cotton will be planted this year.

The Fine Arts Exhibit was marvelous. This type of thing gives the artists a chance for the public to get to know their artists. I personally hope this is the beginning of an annual thing.

Mrs. Fred McDougle from Crosbyton visited in Mrs. Brewer's home Sunday. Also Mrs. Brewer received a phone call from her brother, Guy Horman, 77, from Oklahoma City. He has recently undergone open heart surgery, and had to have thirty three pints of blood. However, he is doing well. Also an interesting aspect was that all of his brothers and his one favorite sister (Mrs. Brewer) were there at his bedside after surgery. Mr. Horman told them that was better than any shot a doctor could give him. He and three brothers and the one sister still have all of their mates. Of these five, four have celebrated their 50th wedding anniversary and one brother has celebrated his 62nd wedding anniversary. This is unusual for one family of their age to still have all their mates, but good news for family statistics!

Mrs. Dean Watson met in the home of Kay Powell with their sorority Friday the 29th. They celebrated their Founders Day in the First Christian Church. Thursday evening Brenda Watson and daughters, Amanda and Deanna, visited with Mrs. Byron Kendrick and girls. Brenda also went to Linda Hinsley's baby shower.

Mr. and Mrs. F. D. McClintock went to Bridgeport Friday through Sunday to their lake house. Mr. and Mrs. Donny Guess and their children, Amy Lyn and Jeffrie Bryan met them there and had some friends to join them from Fort Worth. They got in some good fishing and water skiing.

Rance Golightly spent Saturday evening with Amy and Max Green, daughter and son of Mr. and Mrs. Phil Green, in the home of Mr. and Mrs. Starks Green.

Grandchildren, Mike and Marlyse McGaugh, spent the weekend with Mr. and Mrs. Leonard Alexander.

A shower honoring Mrs. Michael Hinsley and new baby son was given in the home of Mrs. Randy Bertrand recently. As all of you probably know, the oil well north of Lakeview on Ruth Neff's land, had to be skidded over, and they had to start all over again on drilling. Last count of their depth was nearly a week ago and it was 5,000 feet.

**Center News**

(By Mrs. J.E. Green)

**CENTER**, May 2— Today is foggy, misty and cool, but Sunday was a beautiful May 1st. The showers last week kept grass and weeds growing. Women are busy in gardens and most are fighting dandelions in yards.

Mrs. Nora Jones Underwood of Lubbock visited Thursday with Mr. and Mrs. C. O. Spence.

Sunday visitors with Mr. and Mrs. Hal Thomas were Bill Thomas and Mr. and Mrs. Zant Scott. The Thomas children, Mr. and Mrs. Milton Mensch and baby did not come this weekend, as the Mensch car was in a collision with another. Their car was damaged but luckily no one was injured. Milton and baby were the only ones occupying their car.

Mr. and Mrs. Morris Carroll are in Dallas hospitals with their mothers—one had surgery.

Mr. and Mrs. Grady Edelman of Muleshoe visited Mrs. Green Sunday afternoon.

Mrs. R. C. Ross is about well after a week or two of illness.

Mr. and Mrs. Spence visited Mr. and Mrs. Claude Carpenter one day last week.

Patsy and Jimmy Dunn of Lubbock visited his mother, Mrs. Frank Dunn Saturday.

Mrs. Roy McCravy visited Mrs. Vinson Monday night.

Mrs. Roxy Covey is home after several days' visit with a son and family in Amarillo.

We have news that Steve Arney was married last month to Miss Debbie Smith of Lufkin, congratulations to this couple. Steve is the son of Mrs. Eunice Lewis and a grandson of Mr. and Mrs. J. D. Welborn.

After the evening Calvary Church service, Brother and Mrs. Randy Nixon were presented with a "church" pounding and refreshments were served. It was also Randy's birthday.

Mrs. W.L. Hartline was in Plainview last Tuesday with their daughter and family, June and Bob Landry when their daughter, Sharon had surgery—appendicitis. Sharon was brought home Friday.

Welborn Miller of Lubbock was in town Monday. He visited his aunt and her husband, Mr. and Mrs. Hal Thomas, also Mr. and Mrs. Hartline. He came by Plainview and visited his mother, Mrs. Olin Miller.

Mrs. Lola Cavanaugh of Silverton and Mr. and Mrs. Noman Hamilton visited Miss Vera Meredith Thursday evening. Miss Meredith spent over the weekend with Brother and Mrs. Clay Muncy in Lockney.

**FLOYD DATA**

Weekend guests with Mr. and Mrs. C. W. Jones were Mr. and Mrs. Jerry Phillips and Cristi of Ruidosa, New Mexico, and Julie Mount and Kenneth Mitschke both of Vernon. Dinner guests Saturday with the above group were Mr. and Mrs. Travis Phillips and Mr. and Mrs. W. A. Phillips all of Vernon. Joining them Sunday were Mr. and Mrs. Billy Hinkle and Joe, Mr. and Mrs. Wayne Poteet, Mike and Michelle, Mr. and Mrs. Billy Gene Hinkle and Pepper and Mr. and Mrs. Bill Fulton, all of Floydada.

### Response Enthusiastic To Art Exhibit

The Floydada Fine Art Exhibit drew enthusiastic response when it opened Sunday afternoon at the First National Bank. A "Meet the Artists" open house gave the public an opportunity to recognize more than thirty local artists who have paintings and drawings displayed in the lobby and the community room during this week.

An excellent variety of subject-matter in all media makes the exhibit unusually interesting. Paintings and drawings are noted as to title, artists name, and medium, making it easier for the beginning art-enthusiast to study the work.

The display will continue through Friday, May 6, and the public is cordially invited to come into the First National Bank during banking hours to see the exhibit.

**GUEST ARTIST FOR MAY**  
In addition to the work by local artists, two paintings by Carolyn Harris Whittington may be seen. Mrs. Whittington, the guest artist for May, has an oil, "Deep in the Forest," and a pastel "Pepper Pot" in the lobby.

### Marilyn Smith In Music Sorority

Marilyn Smith, daughter of Mr. and Mrs. Bryan Smith, was initiated into the Epsilon Pi Chapter of Mu Phi Epsilon Professional Music Sorority on Wednesday, April 27. A student at Texas Tech University, Miss Smith fulfilled various pledges throughout the spring semester and served as president of her pledge class. She was also the recipient of the "best pledge" award, voted on by the active members of Mu Phi Epsilon.

Earlier this year, Miss Smith was initiated into Alpha Lambda Delta, a National Scholastic Honorary for Freshmen women. Initiation ceremonies and banquet were Saturday, March 12.

Miss Smith, a May 1976 graduate of Lockney High School, is a sophomore applied piano major at Tech. She currently is a recipient of the Eva Browning four year piano scholarship, and she also plays saxophone in the Tech stage band.

Expect to see motorcyclists. When you drive with this mental frame of mind it's easy to see motorcycles in traffic, and to take appropriate action.

Respect the "space cushion" around motorcyclists—front, rear and alongside. Allow as much space for the motorcycle as you would for another car.

Check your attitude about motorcyclists. If you think of them as "troublemakers" or a nuisance on the road, it's unlikely you'll really share the road safely. Mentally put yourself on that motorcycle, then drive accordingly.

### "LOVE APPLE" CHOWDER

In saucepan, cook 2 slices bacon until crisp; remove and crumble. Pour off all but 2 tablespoons drippings. Add 1/2 cup chopped onion; cook until tender. Add 1 can (10 3/4 ounces) Campbell's Condensed Tomato Soup, 1 soup can water and 1 can (8 ounces) cream-style corn. Heat; stir occasionally. Garnish with bacon. Makes about 3 1/2 cups, 2 to 3 servings.

members present included Leon McAuliffe on the steel, Al Stricklin on the piano, Smokey Dacus at the drums and Leon Rausch on the guitar. A highlight of the program, at least to me, was the appearance of "Laura Lee" of Fort Worth, first girl vocalist with the Texas Playboys. She commented "There have been prettier and better girl vocalists with Bob's band, but I was the first." Laura Lee joined the band in 1943 when most male vocalists were gone to the war. Bob's widow, Betty also of Fort Worth, was back again this year. She has since remarried and is now Mrs. Betty Anderson Wills Sheets. Bob's sisters, nieces and a number of other relatives were present to pay tribute to the "King of Western Swing." Three of the band members present last year have since died and some members of their families were also present.

There was a standing ovation when emcee, Dr. Charles Townsend of West Texas State University, announced, "The Texas Playboys are on the air!" then applause and shouts as the band struck up the tunes of "San Antonio Rose," "Take Me Back To Tulsa," "Faded Love," "Dusty Skies," "Maiden's Prayer," "Trouble In Mind," "Stay A Little Longer," and finally "What Makes Bob Holler," mentioning just a few.

Also among those present to honor Turkey's hometown boy were the younger set. Grouped in front of the band stand, seated on grass in the center of the football field were the teenagers...giving forth with screams of delight as the band played the tunes they made famous during the 1930's and 1940's. Well, so much for music.

WEST Texans made a vain attempt back in the dust bowl days to joke about the dust and the effect it had on their lives. One story is told about a man who visited in this area during that time and a drop of water happened to fall on him. Being such a shock, he promptly fainted, and it took two buckets of sand thrown in his face to revive him! Fortunately weather conditions are not quite that bad nowadays...the nice showers of the past several weeks have helped

## Burleson Wants More

### National Defense Money

WASHINGTON, D.C.—In an uphill battle to restore \$4.1 billion for national defense, cut from the President's Budget proposal, Congressman Omar Burleson was successful in the passage of his amendment to the First concurrent Budget Resolution, considered by the U.S. House of Representatives yesterday. The House approved the Burleson Amendment by a vote of 225 to 184, in an all-night session but later recommitted the Resolution to the Budget Committee before adjourning at 1:03 a.m.

In his plea to restore national defense funds, Bur-

leson pointed out that his figure was still \$2.8 billion below the figure recommended by President Ford as a minimum consistent with national security requirements.

Burleson stated that the Defense Task Force of the Budget Committee—of which is a member—held only three formal meetings and was not asked to make any recommendations on the level of the defense budget, either to the Chairman or to the full Budget Committee. "The sum for national defense in this Resolution was simply plucked arbitrarily out of thin air and has neither logic

nor recognition of the hard facts for our future safety in this volatile world," Burleson said. He also mentioned that recommendations of other Committees in Congress were much higher than even President Carter's recommendation. President Carter became involved in the effort by calling the House leadership to urge support of his total national defense recommendation of \$120.1 billion for Fiscal Year 1978.

**As It Looks From Here**

Omar Burleson, M.C. 17th District, Texas WASHINGTON, D.C.—IN RECENT YEARS THERE HAS BEEN A SPATE of malpractice suits

against doctors, hospitals and the producers of pharmaceuticals. More recently, there have been malpractice court actions against lawyers but now a fairly new one has come on the scene.

THE LATEST OF MALPRACTICE ACTIONS has been against school systems. The parents of a 19-year-old have brought suit in Long Island, New York against the school district from which their son graduated. The action is based on the inability of the high school graduate to read. They say he is unemployable because he cannot read and write well enough to fill out a job application; that the piece of certified parchment scroll he received on graduation is worthless. The parents say their son lost a job as a carpenter because he was unable to read figures on estimates.

THE IDEA OF TAKING

A SCHOOL SYSTEM TO COURT for malpractice or breach of contract to educate is a novel one which raises questions about professional accountability for the consequences of the educational process.

THE THREAT OF THIS KIND OF ACTION must leave school administrators asking just how much obligation, if any, school legally have to their students. The question arises if there is an agreement implied between the educators and the pupils and are the courts the proper place to assess negligence in meeting the specific requirements of that contract.

IN THE CASE OF THE 19-year-old, the attorney for the parents claims the school had no right to give him a diploma in the first place. He said, "My client can only read about the fourth grade level." He points out that,

even after the high school graduate had special tutoring in the latter part of his year of graduation, little improvement was made and the tutor suggested that he should not be allowed to graduate. The school let him graduate anyway, even though as the boy now says, when he went out to get a job he could not fill out an application and couldn't even read the want ads or the street signs.

IN 1972, A SIMILAR SUIT WAS FILED in California by the parents of a high school graduate alleging, that after thirteen years of regular attendance in the public schools, he could not read. According to a Harvard Educational Review, this boy's high school records indicated his intelligence to be average or slightly above and that he had never been involved in any major disciplinary action. He maintain-

ed average attendance and average grades but couldn't read.

A LOWER COURT RULED FAVORABLY BUT the California Court of Appeals recently reversed the decision on the grounds that negligence had not been demonstrated. As a result of this decision, it would appear that cases claiming educational malpractice would face some tough obstacles but, despite this decision and a few others, those who feel they are the victims of the formal educational system, seem to be taking to the courts in increasing numbers. The University of Bridgeport, Connecticut, for example, has been sued by a woman who said she did not learn what was promised in the catalog description of a particular course. A jury in New York recently awarded \$750,000 in damages to a

23-year-old man because he had allegedly been misclassified as retarded when he was four years old and failed to receive the education he deserved. The case is being appealed.

PROBABLY TAKING NOTICE OF THESE CASES, a school district in Virginia has ordered 60,000 high school students to produce at least one piece of writing which must have flawless grammar, punctuation and spelling by the end of the year. In making his decision, the superintendent said, "At times we don't expect enough of our students. They do whatever we expect of them and if we expect mediocrity, that is what we are going to get."

PACKERS MAY MAIL CHECKS TO STOCKMEN—Despite some controversy, mailing of checks by packers to producers for livestock sold is "in order" and does not constitute an extension of credit by the packer, say two specialists with the Texas Agricultural Extension Service. Payment is generally made by check to producers who are not present at the point of transfer of livestock. A producer can draw up a written agreement requesting that his check for the sale of live-

stock is to be mailed. The check must be mailed before the close of the next business day. In case of nonpayment, the producer must notify the packer within 30 days. If the check from the packer is not honored, the producer must notify the packer within 15 days.

NEW STANDARDS FOR PUBLIC WATER SYSTEMS—Effective June 24, both public and private water systems will be subject to new regulations by the Texas Department of Health Resources (TDHR).

The TDHR will begin enforcing the National Safe Drinking Water Act of 1974 on that day, says a resource development specialist with the Texas Agricultural Extension Service. Any public water systems that serve 25 or more persons or have at least 15 service connections and that are used at least 60 days during the year will be subject to the new standards. These standards include sending a monthly water samples to the TDHR for analysis and having the system operated by a state certified water operator.
