Commissioners Approve Revenue Sharing Budget

Floyd County Commissioners approved use of revenue money for the following nine months in their regular monthly meeting Monday morning.

Most of the \$98,816.00 went for roads. They approved \$49,408 for the four precincts and \$20,000.00 for the Muncy farm to market highway. They gave the Floyd County Museum \$1,000, the Floyd County Day Care Center \$1,000 and the High Plains Mental Health-Mental Retardation Center \$3,200.00. The rest of the \$98,816.00 (\$24,208.00) was designated for agriculture building, library and jail construction project...with the jail house having first priority.

There is another approximately \$100,000 of revenue money in the bank and County Judge J. K. Holmes made a motion that \$95,000 of this be set aside for a library and agriculture building designation. This motion was voted down 3-2. The Judge and Jack Lackey voted for the motion.

The county courtroom was full of people from all over the county and discussion centered around what

money would be available for jail, library and agriculture offices for the next three years.

The commissioners agreed they would take 50% for road maintenance and allow the other 50% (some \$284,000) to be used for jail, library and agricultural offices.

The commissioners agreed that the jail was a must...there was no choice... state law requires that jail standards be met.

In conversation with the commissioners after the meeting, it appeared that an architect would be used to determine the cost of remodeling the present ag building into a jail house, and the cost of remodeling the Light-house Electric building for a library and ag offices should it be purchased.

Judge Holmes said that a representative of the state will inspect the jail house next week, and probably condemn it...although it has not been officially condemned at this time.

Following the meeting, Amy Hollums, president of the "Friends of the Library" said that it was just impossible at this time to estimate what money might be available for a library, as the estimate for a jail would have first

priority.

The judge and Mrs. Hollums both expressed hope that the Commissioners Court would be able to spend some revenue money for a library.

NEW LIBRARIAN

Mrs. Doyle Walls, who has worked in the county tax office for the past five years, was selected to take over the duties of county librarian July 1. She will begin training under Mrs. A. T. Hull, present librarian June 1. The announcement was made at the meeting. The librarian's salary is \$650 per month.

OTHER BUSINESS

In other business commissioners voted to allow a raise to the sheriff from \$2.50 per day to \$3.50 per day for prisoner's meals; designated \$1,000 per year from each precinct for control of noxious weeds in bar pits; made motion to enter into contract for lease purchase of a teletype machine; fund the payment not exceeding \$125.00 per month for gasoline for the mini-bus; and decided to open the canneries in Floydada and Lockney on July 1 and close November 30, 1977.

Commissioner Lackey made the motion that court not designate any

amount of money to Weed District for control of bindweed chemicals. The motion died for want of second. Carthel made the motion, seconded by Milton that the county designate the \$1,000 per year from each precinct for control of the noxious weeds. This motion carried with Lackey voting against.

Milton made the motion that court enter into contract with Criminal Justice Division for the lease purchase of the teletype machine, which carried unanimously. Carthel made the motion for the county to fund the mentioned amount for gasoline for the mini-bus for the next 12 months beginning July 1, 1977. Motion carried.

Jarrett made the motion that Lackey be appointed to the Floyd County program building committee. Motion carried which was seconded by Carthel.

Before adjournment the board of equalization for 1977 was organized.

SCHOOL OUT FRIDAY 13

Tomorrow, Friday the 13th, is a lucky day for students in the Lockney school system—they don't have to go to class. Teachers are not so lucky—they'll be "in school" for a teacher in-service day.

HE'S NOT SUPERSTITIOUS... and it's a good thing he's not—because Karl Race will be 13 years old tomorrow—Friday the 13th. Karl, son of Mr. and Mrs. Bill Race of Lockney, shows his disregard for superstitions by walking under a ladder. He'll be celebrating his birthday with his "near-twin", Jeffery McCormick, son of Mr. and Mrs. Audrey McCormick, who is 13 today. Karl is the grandson of Mr. and Mrs. Claude Brown and Mr. and Mrs. Elton Mathis, both of Lockney.

BEACON LIGHTS

OUR TYPESETTING COMPUTER has been stacking...or spitting out the letter "S" for two or three weeks. Hopefully, the repairman will be here today and we can look more accurate in our pelling unday.

I REALLY ENJOYED the Lockney FFA banquet the other night. The food tasted home-made, and the entertainment sounded professional. Those football players (Glen Land and Ronnie Cunyus) did a good job on the piano, playing dinner music, and the group from Olton (sorry, I didn't catch the name) were good, too.

BOB LILLY, former Dallas Cowboy, has bought a ranch not far from here. The May "Comings, Goings and Doings," published by the First National Bank in Quitaque, tells about it:

"A well known sports celebrity was in Quitaque a few days ago, when he visited several business houses and looked over the town. Bob Lilly, of Dallas Cowboy fame, and his partner Bud Cooper, were here to visit and look over the 4000 acre ranch north of Quitaque that they recently purchased from Clyde Saul. Bob said it was the first time he'd ever been to Quitaque, and he was impressed with the friendliness of the people and the beauty of the surrounding country. He said they had flown into Amarillo, and had pulled their Air Stream trailer down to the ranch, where they camped out in a beautiful setting under the stars. He said it was an indescribable feeling to awaken in the morning and see the beautiful Caprock, and to experience the quietness that prevailed in that scenic setting. The ranch was purchased primarily for its beauty and its recreational benefits, and Bob said he'll probably be making frequent trips here to enjoy the solitude and relaxation that can be found in the rugged Caprock country where his ranch is located.

School District Calls For Bids On Stadium Renovation

Lockney Independent School District board of trustees voted Monday night at the regular monthly board meeting to call for bids on renovation of the home stands at the school football stadium. Bid specifications will call for all-aluminum decking and seats on the home (west) side and a new pressbox and steel pressbox support, with options for construction of a film booth atop the pressbox, for changing tread depth in the center 55-foot section of the stands to 30 inches (five inches wider than the present space between seats), and for different types of enclosures on the sides and top of the stands.

The school board voted to call for the renovation bids after hearing from Southern Bleacher Construction Company representative Glenn McNatt about approximate cost of several stadium renovation possibilities.

The school board also decided that the school district would pay as much as \$4,244 in addition to \$11,000 already

authorized for construction of two tennis courts. (Bids on court construction were over original estimates.)

The school trustees accepted an offer from the class of 1977 to donate water coolers and wall clocks to high school; granted permission to the tennis club to have a sponsored track meet in June for children through age 12; granted permission to the Lockney Police Department to use the football field for a donkey softball game in June; and agreed to pay the summer salary of Danny Wilson (teacher-coach who has resigned effective at the end of this school year) in May.

Also Monday night, the school board accepted the resignation of high-school social studies and English teacher John Roberts, and hired three regular classroom teachers and one federal migrant program teacher. Regular teachers hired for the 1977-78 school year were Mrs. Fleeta Adams (elementary school), Miss Jeanmaire Hamilton (kindergarten) and Ronnie Aldridge (high school math and coach). Mrs.

Elida Leal was hired, subject to federal funding, as a migrant teacher.

The board approved transfers into the district next year for all students who went to Lockney schools in 1976-77 and denied requested transfers for four students who did not attend school in Lockney last year.

School superintendent reported on a federal bill now in Congress which would make terminated school employees eligible for unemployment compensation beginning January 1, 1978. Peck said "If this bill passes, it will just add another burden for local taxpayers."

Present at the school board meeting were trustees Tom Duvall, Austin Beedy, Jerry Williams, Eugene Tannahill, Kelton Shaw, Kenneth Brosech and Eddie Foster; superintendent John Peck; principals R. L. Knox, W. H. Hallmark and Weldon Dodson; athletic director Jim Warren; Lockney Tennis Club president Delvin Bybee and McNatt of Southern Bleacher Company.

Shootin' Mail Boxes Pretty Expensive!

Shootin' a mail box came pretty costly for three Floyd County men who were arrested for shooting a mail box and highway signs just off Highway 70 between Lockney and Floydada Sunday afternoon.

Floydada Justice of the Peace H. E. Porter fined each man \$57.00 plus the cost of the new mail box. He said the Post Office department could have filed charges which would have meant a two year prison term plus fine.

There is also a fine for shooting highway signs. The men were shooting 22 rifles.

Lakeview News

(By Penny Golightly)

LAKEVIEW, May 9—I talked with Mrs. Clyde Bagwell today, May 3rd. It was very nice to hear her voice on the phone again. I learned that she did Lakeview News for eight years and Fairview News (which she still does) for forty years.

During the past week we at Lakeview had 2 1/10" of rain. So far we haven't had any hail during this rain spell.

In all, 28 members of the family were present. Mrs. Nola McCravey accompanied Mr. and Mrs. Rudolph McCurdy to Lubbock. Leonard McCravey is a half brother to Rudolph McCurdy. He puts on the Winston score board at a lot of the Professional Rodeo Cowboy Association rodeos, like

National Finals in Oklahoma City, and "Daddy of them All" in Cheyenne, Wyoming. It was reported by Mrs. McCurdy that he and his new wife called in Saturday and were going to a rodeo at Jasper, near Dallas.

Mr. and Mrs. Fay Hart now live in town, but feel that they are still Lakeview people. They lived in the Lakeview Community for some thirty-five years. They went to the funeral of Fay's cousin, Guy Southern of Lubbock, in the First Baptist Church. Then they attended another funeral of a good friend, Harley Gunn, at the Church of Christ in Flomot.

David Hart worked on Mother's Day, so David, Linda and daughters and Mr. and Mrs. Fay Hart met for dinner at a local restaurant.

Floydada Nursing Home Happenings

By Faye Walters

This has been a very busy week trying to get ready for open house Sunday, May 8 for Nursing Home Week which started Sunday.

Our Open House was real good. So many friends and family members were here to attend and the residents seemed to enjoy everything. The Administrator, Paul Westbrook, spoke on Parnell Powell, Mayor, who took over and made a nice talk after a prayer by George Finley.

Then we had some very good music and singing by George Finley, Mona Dean, Gean Christopher, and Art Ratzlaff. They sang several gospel songs then some funny songs. Also some songs they thought the resi-

dents might remember singing when they were younger.

After this, everyone enjoyed refreshments of cookies, punch and coffee and visited with the residents as long as they wished.

We would like to thank everyone who brought cookies and who helped serve. We always appreciate the way some are always ready to do things to make these residents happier and more contented.

We have two new residents, Pearl Carrick and Emma Bostick. Pearl Carrick if from Gerber, California and she is my husband's mother, so we are privileged to have her here so we can enjoy her.

Emma Bostick is from Matador and we are very happy to have her also. We hope both of these ladies will be happy here and that we can have a part in making them feel at home.

We would love to list all our visitors but it is too long a list so we will just say, "God Bless everyone who came and made this such a Happy Mother's Day for all."

We will have lots more activities to tell about next time as all this week will be Nursing Home Week and we have many things planned for our residents.

Bettye Baker

Mrs. Bettye Baker, dietitian at Caprock Hospital and state secretary of Hospital Institution and Educational Food Service Society, was in Amarillo May 6th and 7th to attend the workshop "Together We Are Something" held at the Villa Inn. Mrs. Bettie Brock of Canyon, R. D. and consultant for Caprock Hospital also attended the workshop. Mrs. Brock is State Advisor.

The workshop consisted of representatives of seven states, Texas, New Mexico, Louisiana, Oklahoma, Kansas, Colorado and Florida.

The organization, referred to as HIEFSS is sponsored by the American Dietetic Association and has gained prestige as a national organization for dietetic assistants and dietetic technicians who qualify for membership through special training and supervised experience. By participating in the national and affiliated state society members have the opportunity of progression by sharing and acquiring knowledge and experience.

Purpose of this workshop was to improve the organizational structure of the society thereby increasing the quality and quantity of continuing education for those working in health related institutions.

Mrs. Baker said she had gained considerable knowledge and leadership in food administration and nutrition care. Being a member of HIEFSS offers the ability to wear the insignia signifying to the patient and employees of other departments that the wearer is qualified.

Toast to Hospitals

PAUL HARVEY

CHICAGO—Seven days in May (May 3-14) will be National Hospital Week. After that we can go back to taking for granted our nation's 7,156 hospitals—unless or until we visit in pain or in tears.

Before and after National Hospital Week some will mean-mouth the medical profession generally and mention hospitals only to repeat some story relayed through some friend of a friend or a neighbor's relative.

But—if only this once a year—let's hear it for the hospital! Your parents had a life expectancy of 47.3 years. You can expect to live half-again that long. We must be doing something right.

In just the past five years our nation's death rate has been reduced by nearly 5 percent!

Improved medical treatment has diminished every major death threat except two—and for those two we have mostly ourselves to blame: suicide and lung cancer.

The cost of hospitalization? Dreadful!

Until you recognize that hospitals operate around the clock, seven days a week at a per-hour cost to the patient which is half what we pay the TV repairman.

Nationwide, hospitals employ 3 million people—five times more than the automobile industry. Those payrolls nourish our public treasury and our hometown economy.

In 1929 hospitals contributed 3.6 percent to our nation's GNP; today 8.3 percent.

Your hospital charges more for patient care? Hear this: Hospitals spend more than ever before. In 1929 \$3.6 billion. This year more than \$120 billion.

Your hospital bill has increased 300 percent in the past 20 years; the costs of operating a hospital have increased 300 percent in the past 10 years.

And hospitalization would cost you much more than it does except for the ceaseless efforts by administrators and

personnel to share services, share equipment and improve personnel efficiency.

Yet despite improved efficiency, overhead is such that only 1-in-10 of America's finest teaching hospitals is able to operate in the black—and those by less than 2 percent.

Much of the increased overhead reflects more sophisticated technology. But these costs have to be measured against the harvest: transplants, bypass surgery, megavoltage therapy.

Your grandfather had to go to Mayo's for specialized treatment now commonly available in your hometown community hospital. There are now 400 American hospitals with bypass teams. Intensive care, unheard of a few decades ago, is available now in 63 percent of our hospitals; 31.9 percent are equipped for cardiac intensive care; 69.8 percent for respiratory therapy; 31.3 percent have nurseries for premature.

So far I've said nothing about the punishing effects of inflation and arbitrary hiring quotas and mandatory government safety modification. To comply with just one bureaucratic edict last year cost Florida hospitals \$50 million.

And the malpractice insurance menace has multiplied that cost in some places 1,000 percent in one year!

And while you and I are staggered by the increased per-day cost of hospitalization—balance that against this:

Our hospitals, whether six beds or more than 3,000, general or specialized, are now able to expedite treatment and/or therapy so that the average patient is out of the hospital in fewer days.

American hospitals, at whatever cost, are by all measures the world's finest. They have given us back workdays we would have lost and have credited our personal account with additional pain-free years of life itself.

If only for this seven days in May, let's hear it for the hospital!

L.C.C.A. Officers Installed

The Lockney Chapter of the Lubbock Christian College Associates held their year-end meeting on May 2, 1977, in the home of Jan Mize. Co-hostess for the salad supper was Janie Carter. Laura Manning provided beautiful irises to decorate the Mize home.

The program for the evening was the installation of officers for the coming year. Presiding over the installation was Mrs. Imogene Siburt of Lubbock. She began with a short, entertaining history of L.C.C.A. and concluded with a poem about "Service." As she installed the officers, she presented each of them with a carnation corsage on which a minia-

ture symbol of their office had been placed.

Officers of the L.C.C.A. for 1977-78 are: Janie Klein, President; Janie Carter, 1st Vice President; Mary Glen Degge, 2nd Vice President; Dorothy Smith, Secretary; Cheryl Bradley, Treasurer; Carol Bramlet, Reporter; and Effi Sherman, Historian. Others who enjoyed the meeting were: Annabel Bramlet, Alma Baxter, Lorene King, Mavis Reecer, Madge Huff, Annie Smith, Faye Sams, and Millie Martin from Petersburg.

Meddlin's BY PEGGY MEDLEY

I HEAR the folks over Quitaque way are going to have a new neighbor, occasionally that is. Bob Lilly of the Dallas Cowboys (former player I should say) was there recently to visit his 4,000 acres ranch north of Quitaque that he and a business partner have purchased from Clyde Saul. The two flew to Amarillo then pulled an Air Stream trailer to the ranch where they camped out. We're told that the two bought the ranch for its beauty and recreational benefits and the football ace said he probably would make frequent trips there to relax and enjoy the solitude of the beautiful caprock country.

THE graduating class of 1929 of Baylor Medical School then in Dallas, will hold homecoming this weekend. Dr. A.E. Guthrie is a member of the class and plans to attend. Of the some 60 in the class there are only 30 left, Dr. Guthrie said. Last week Dr. Guthrie and his physician son, Dr. Aubrey Guthrie of Hurst were on the Island of Aruba in the Carribeans for a five day medical convention.

A STRONG sisterly feeling has brought an England woman to Floydada on an extended visit. Mrs. Jean Hay of New-Ton-Le-Wil-lows, England, arrived Saturday night for the visit with the Ralph Ruckers. Mrs. Hay found her sister in the hospital however recovering from gall bladder surgery. Mrs. Rucker is now home and doing well, recuperating under the care of Mrs. Hay. This is the first visit to the United States in 33 years for Mrs. Hay, who

lost her husband last December. The trip here for her came about from a "feeling" she had of being needed by her youngest sister although she was unaware that Mrs. Rucker was to undergo surgery. This type of feeling of being "needed" derives I'm sure from closeness of family ties. It took Mrs. Hay only two days to get her passport and visa for the trip. She arrived in Lubbock Saturday night and Mrs. Rucker came home from the hospital Monday and the two are staying busy reminiscing of their days in England. Need of some one else's help is something that everyone of us comes face to face during the events of our life time. No one is self contained that he can honestly say, "I don't need help from anyone." Not even the

richest man in the world can isolate his persons and go it alone in this journey through life. Certainly this trip to America for Mrs. Hay through personal efforts to be with the Ruckers will always be cherished by them. As Mrs. Rucker commented "Having Jean with us is like having your mother with you because she is the 'mother of somebody'."

At Wit's End...

By ERMA BOMBECK

This month, all over the country, routines will be broken with the dismissal of school. Working mothers will have the added responsibility of supervising their children via telephone messages on the refrigerator door. It is in their interest that we offer a SUMMER PRIMER FOR IMAGINATIVE CHILDREN.

This is a house. Vehicles are not permitted in the house. Occupancy of this house by more than 200 people is dangerous and unlawful. Violators will be prosecuted. There is a dog in the house. His name is Spot. Spot likes to run and play and chase sticks. He also likes to relieve himself with some regularity. Watch Spot for telltale signs of urgency such as jumping higher than the ceiling, gnawing on the doorknob, or tunneling under the door. It is fun to eat. See the milk? See the butter? See the lunch meat? They cannot run. They cannot walk. They have no legs. They must be picked up and returned to the refrigerator or they will turn green. Green is not a happy color.

Hear the phone ring? That means someone wants to talk to you. Ring. Ring. Ring. When the phone rings pick it up and speak directly into it. Say "Hello." Say "Good bye." Say anything. A bedroom is a special place. Find your bed each day. Try. Sometimes you cannot see your bed because it is covered with clutter. This is not healthy. A cluttered room is a messy room. Fish die in a messy room. Mothers cannot breathe in a messy room. A messy room is unfit for humans. Many people in this house are human. A bathroom is your friend. It is there when you need it. Lids do not like to be standing all the time. They get tired. Towels do not like to be on the floor. They cannot see anything. Ugh. Soap does not like to die in a drain and melt. Boo. See Mommy come home. See Daddy come home. They are walking on their knees. Be kind to Mommy and Daddy. "Look, Look, Mommy! Bruce is bloody!" "I'm telling, Debbie." "I didn't do it, Daddy!" Do you want to make Mommy crazy? Do you want to make Daddy rupture a neck vein? Then shape up, up, up.

and Deming, New Mexico where they visited her parents, Mr. and Mrs. Bud Pope.

Mr. and Mrs. Bud Warren went to Lubbock Mother's Day to the home of their son, Mr. and Mrs. Randell Warren, where a group gathered for a Mother's Day dinner at Kabobs, hosted by Mr. and Mrs. Randell Warren. Others enjoying the dinner were Mrs. Lucille Dickson, Mr. and Mrs. Jim McMahon, Mr. and Mrs. Randy Tim Warren, Mr. and Mrs. Fredie Dickson, and Mr. and Mrs. Mike Davis. In the afternoon Mr. and Mrs. Bud Warren went to the home of another son, Mr. and Mrs. Robert Warren, where they had the evening meal. Mrs. Warren reports they ran into a heavy rain storm on the way home Sunday night. Mr. and Mrs. Sam Bass of Lubbock visited Saturday night with Mr. and Mrs. Eugene Watts and family. Mrs. E. W. Walls reports .90 of an inch of rain at their place Monday night.

young children—and following a physician's advice. To learn more about it, she suggests trying to answer the true-false quiz below:

- 1) If I stay calm and relaxed, I won't have high blood pressure.
- 2) High blood pressure is the leading contributor to strokes, heart disease, and kidney disease.
- 3) I can tell when my blood pressure is high.
- 4) Once I have high blood pressure, it usually means I will have it for the rest of my life.
- 5) Headaches and dizziness are symptoms of high blood pressure.
- 6) There's nothing I can do about high blood pressure except watch my diet.
- 7) It's important to have my blood pressure checked every year.
- 8) May is National High Blood Pressure Month.

ANSWERS

- 1) FALSE—High blood pressure—or "hypertension" as it is also called—is not nervous tension. A relaxed, easygoing manner is no guarantee against high blood pressure.
- 2) TRUE—High blood pressure is a physical condition in which the heart and blood vessels are under a constant strain. If undetected and untreated, it may eventually lead to a stroke, heart disease, or kidney disease. In fact, 100 people die every day from the consequences of untreated high blood pressure.
- 3) FALSE, FALSE... High blood pressure usually has no symptoms. It is

"Oh, and Mother sends her 'I told you so.'"

sometimes called the "Silent Killer" because it does its terrible damage without you suspecting that something is wrong. 4) TRUE—For the vast majority of people with high blood pressure the condition will be with them for life—but that's not as bad as it seems. There are many ways to lower an elevated blood pressure and to keep it low—although science hasn't found a cure for most common form of high blood pressure. 5) FALSE—For most people with high blood pressure, there are no symptoms, especially in the early stages. In severe cases—usually in persons who have had HBP for many years but weren't treating it—there will sometimes be dizziness and headaches. If you are told that you have high blood pressure and you don't treat it, the first symptom may be a heart attack or stroke. 6) FALSE—Although there is no cure for high blood pressure that will keep your blood pressure normal once and for all, it can be controlled with proper treatment. Your doctor may suggest some diet restrictions (less salt, less fatty food)—and maybe prescribe medication. If your doctor does give you pills, it's important to take them regularly. 7) TRUE—Because high blood pressure has no symptoms, the only way to know whether your blood pressure is high is to get it checked by a doctor or other trained health professional. It's quick, painless, and one of the cheapest life insurance policies around! 8) TRUE—May is National High Blood Pressure Month. Do you know what your blood pressure is?

Combat High Blood Pressure

COLLEGE STATION—High blood pressure can kill or cripple the 23 million Americans who have it—unless they're controlling it to keep the risks to a minimum, warns Carls Shearer, a health education specialist.

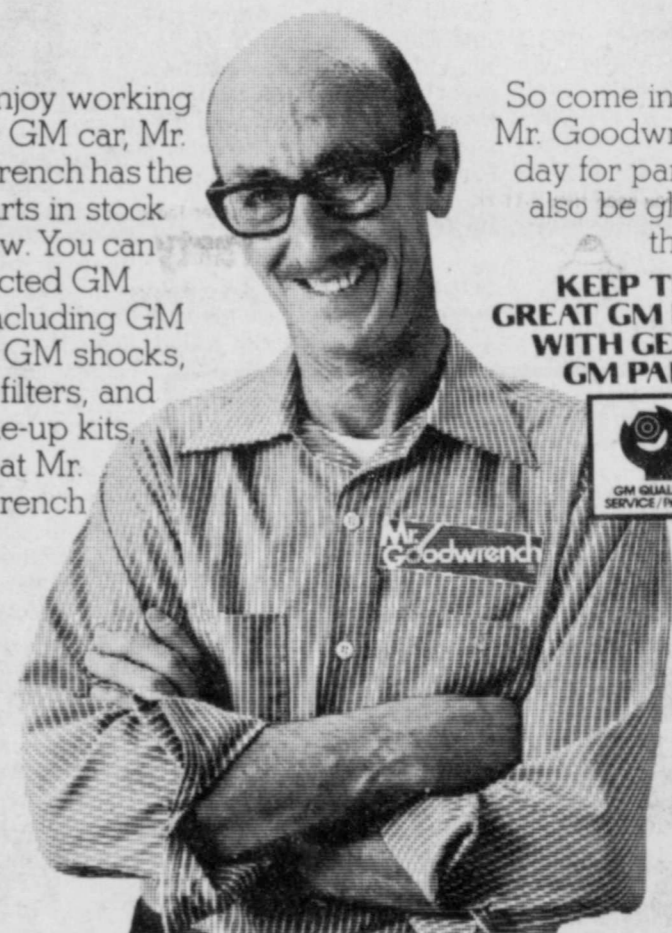

Some people don't even know they have high blood pressure—and many others aren't doing enough to control it, partly because they don't understand enough about it, she said.

Miss Shearer is with the Texas Agricultural Extension Service, The Texas A&M University System.

To combat high blood pressure's threat, she recommends regular blood-pressure check-ups, even for

Sales Tax Rep. In Floydada Thursday

AUSTIN —State Comptroller Bob Bullock announced he is sending a representative from his Lubbock office to Floydada on Thursday May 12 to assist local taxpayers and answer questions about state taxes.

Bullock said Enforcement Officer Raymond Bogus will meet with local taxpayers at

the Floydada Court House Room 103 from 10 a.m. to 12 p.m.

"If Floydada area merchants, or anyone else for that matter, have any questions about state taxes or need help in preparing tax forms, Mr. Bogus, will be there to assist them," Bullock said.

IMPLICATIONS OF FARM POLICY PROPOSALS FOR GRAIN PRODUCERS—Carter Administration

proposals to raise the corn loan rate to \$2 per bushel while holding the wheat loan rate at \$2.25 would, if implemented, tend to encourage feedgrain production relative to wheat

production, says an economist with the Texas Agricultural Extension Service. A 300-million-bushel wheat reserve is also being proposed which would be held by farmers under a three-year storage contract. The sorghum target price is being proposed at about \$3.70 per hundredweight while the corn target price will be \$1.75 per bushel.

"We're trying to cut the red tape in this office and we believe these face-to-face sessions with taxpayers help do just that," Bullock added.

Bullock reminded those taxpayers who are unable to meet with his representative on May 12 that they can still get their questions answered quickly by calling his TOLL-FREE tax information number in Austin. That number is 1-800-252-5555.

The Lubbock office, headed by Donald F. Paxton, serves Lubbock and surrounding counties.

CASES SETTLED OUT OF COURT ON VIOLATIONS OF THE U.S. PLANT VARIETY PROTECTION ACT ON ACCO COTTON PLANTING SEED

Plainview, Texas, May 5, 1977 - ACCO Seed announced today settlement of damages on violations against their protected variety of Paymaster 303 Cotton Planting Seed. All of these were settled out of court in ACCO Seed's favor.

The violations were committed during the fall of 1976 and early part of the 1977 planting season by a Hockley County seedsman, a Hockley County farmer, a Crosby County ginner and a Martin County co-op gin. All the parties acknowledged their violations and paid damages to ACCO Seed.

Under the Plant Variety Protection Act, those who without proper authority infringe the rights of a variety owner by selling or using, for prohibited purposes, a protected variety of cottonseed may be liable to the variety owner for treble damages, court costs, and attorney's fees and subject to an injunction against further infringement.

ACCO Seed will continue to vigorously enforce its rights under the Act for their protected varieties which include Paymaster 111-A, 101-B, 303, 266 and Paymaster Dwarf.

ACCO Seed, a division of Anderson, Clayton & Co., with one of its regional offices located in Plainview, is a supplier of sorghum, corn, cotton and alfalfa seed in the United States and foreign countries.

Submissive Adults Should Assert Themselves

COLLEGE STATION—Today's "submissive adults" should assert themselves more, so self-respect could replace the anxieties that trouble them—and there is a "no-fail" formula for it, a family life education specialist says.

Do you feel people often take advantage of you?

Do you feel embarrassed over complaining about poor quality goods and services for which you have paid?

Do you have trouble expressing your ideas and feelings?

If you do, then you need to learn to assert yourself.

At least that is how Mrs. Ilene Miller with the Texas Agricultural Extension Service, The Texas A&M University System, says it.

"Each of us has the right to stand up for ourselves, our ideas and our best interests—but seldom are we assertive enough," she charges.

"From childhood, we have been taught to submit to authority. At home, school, work and church we learned to follow instructions, be obedient, pleasant, cooperative, humble and self-denying. We were taught to do as you are told, be seen and not heard, be quiet and follow instructions, be cooperative, don't argue—and many more submissive lessons.

As adults, we are often still too dependent on others and do not stand up for our own rights, she says.

"Many adults tend to exhibit the same submissive behavior they learned during childhood.

"When they do what others direct them to do—regardless of their own feelings or rights, these submissive adults become more dependent, display feelings of anger, anxiety, shame and defeat and are less able to

make decisions for themselves.

"However, when individuals do learn how to assert themselves pleasantly but firmly, they receive many benefits—feelings of pride, self-respect, competency, and much more," she suggests.

Her "no-fail" formula is this:

—First, remember you are not responsible for the actions of any other adult but yourself. You build better relations when you are responsive to others' needs and feelings, but you are not responsible for their actions.

—Remember nobody is liked by everyone. Be yourself rather than spending time and effort trying to live up to others' expectations. It is impossible to please others all of the time, so don't try.

—Accept your right to make mistakes, to make

unwise decisions and to fail once in a while. Attempts to be perfect can leave you feeling frustrated and inadequate. Remember, you can even fail occasionally in asserting yourself.

—Politely express your feelings and ideas and be willing to stand up for your

right to make decisions which affect you. Learn to say "no," "I don't care," "I don't know" and "I have changed my mind."

It may seem difficult at first, but you will find it easier to state your position as you assert yourself, she concludes.

FLOYD DATA

Mr. and Mrs. Carl A. Moosberg flew to Mexico City Sunday, May 1st. On Tuesday they went to the Winter Cotton Service Unit office and cotton fields at Iquala, Mexico (about 175 miles south of Mexico City). There they inspected open cotton research plots of Growers Seed Association—that were planted after harvest season here last fall.

The cotton is ready for harvest and ginning and will be flown here for spring planting in research plots of this area for 1977 crop.

They also saw many points of interest in Taxco (silver mining area) and Cuernavaca, Iguala and Mexico City areas.

They flew back to Lubbock Saturday, May 7 and were met by Alice and Carla Moosberg at the airport.

What One Person Can Do

When Mary Stevens starts a school year, she begins what she calls "turning the class around." Children come to her special class in a Harlem, New York, school after four years of "education." Yet, some don't know their ABC's.

But the "turning around" involves more than an attitude toward letters and numbers. Mrs. Stevens hopes to encourage a turning of the spirit of a child. Aside from a handful of motivated students, most are blighted by the stresses in their environment. There is bedlam in the class sometimes, and children wander out the door. Her response is never anger. A former student recalls, "she never hit nobody...the different thing about her is the kindness."

"These children," says Mary Stevens, "must learn to respond to something else. And eventually they will trust me enough to find something in themselves to respond to. This is the only way they will get a sense of themselves."

When children walk out of the room, she firmly walks them back to their seats. She coolly handles the constant interruptions: "My friend James, please sit down" and "Excuse me, Mr. Thompson—class, we will wait for Mr. Thompson."

Children come to her about the turmoil in their homes, and she tries to provide a "warm, receptive place for them at school." She makes learning fun, taking the class on trips to widen their experiences. "I feel they need something to keep going. You never know what is going to turn them around."

One girl was particularly difficult. "I stayed on her back...insisting that she had talent," says Mrs. Stevens. After winning honors in junior high school, the girl came back and said, "You told me I could do it."

Teachers like this give young people the gift of hope.
