## Water Rolling Into Mackenzie Lake!

MACKENZIE LAKE is 84 feet deep, but only 18% full. Photographer Jim Huggins was last seen hurtling from the plane as he leaned too far out the window to shoot the picture. However, he tossed the camera back to Jerry Ulmer, who arranged the flight with Doodle Milton.

Recent rains have caused the water to roll down Tule Creek and into Mackenzie Lake which was 84 feet deep Tuesday. Ninety-one lots have been leased and only 15 desirable ones remain for lease.

Lake manager Jim Green told this newspaper Tuesday that the lake now covers 306 surface acres and holds 8,932 acre feet of water.

Jim said that if you want to know what this is in gallons of water it is 122 trillion, 498 billion, 604 million, 592 thousand gallons of water.

The Mackenzie board will meet Tuesday night and review the lot leases, the possibility of putting motor boats on the lake and other steps of recreation progress for the lake area.

Jim said the fishing was poor due to the muddy water input the past week.

The lake will be 150 feet deep when full. For comparison, White River Lake is full at 50 feet.

## Co-Op Meeting Saturday Night

Lockney Cooperatives' 20th annual stockholders' meeting is scheduled Saturday at 8 p.m. in the Lockney Elementary School cafeteria.

Directors will be elected, dividend checks will be awarded, and dinner will

## Tennis Ball Size Hail Blasts East Floyd

Black storm clouds prowled the eastern half of Floyd County Sunday afternoon, dumping over two inches of hard rain and up to tennis ball size hail stones that destroyed fine wheat crops and early row crops.

The worst hit areas was south of the Cedar Hill Community ranging some six miles into the Center Community. One farmer estimated about a six mile north-south hauled out area... and six to seven miles from the Silverton Highway going east into the Fairview Community.

The hail stones fell for about an hour. Lakes are full of water and farmers

anxiously await drying weather to begin replanting row crops.

Since the price of wheat is only about \$2.00 per bushel most of the wheat destroyed was not insured. The dryland wheat was the best in many years due to good rainfall.

Some of the farmers receiving hail included: Steve Lloyd, Elwin Chappell, L. B. Cozby Jr., Leonard Matsler, Bill Hopper, Lee Burton, J. R. Noland, Larry Noland, E. A. Noland, Woodrow Wilson, Thomas Warren, Ray Ford, Wayne Collins, Truett Hartsell. Some of the farmers lost young cotton and grain sorghum.

All concessions on the courthouse lawn must have permission from Sheriff Fred Cardinal and must not be located east of a line extending north and south from the bell mounted on the lawn.

**NOTICE**  
Members of the J. W. Harrison VFW Post will be selling poppies during Old Settlers Saturday, May 28th, in observance of Memorial Day, which is Monday, May 30th.

**HOOTENANNY DEADLINE**  
Deadline for entering the 8 p.m. Saturday night Hootenanny Talent Show is 5 p.m. today. If there are not at least ten contestants the show will be cancelled. Entries may be made at The Beacon office in Lockney, The Hesperian Office in Floydada.

## Donkey Ballgame

Scheduled June 16

Advance tickets are on sale at the Lockney Police Department for a donkey baseball game between the Lockney Police and the Floyd County Sheriff's Office teams.

The game will be Thursday, June 16 at the Lockney football stadium.

Billed as "the world's most hilarious sport," the game promises...thrills, spills and fun for everyone.

Advance tickets prices are \$1.50 for adults and seventy-five cents for children. Tickets at the gate will be \$2 and \$1.

## Homemade Ice Cream

Corn on the Cob!

Floyd 4-H'ers will be selling homemade ice cream and corn on the cob Saturday on the Southeast corner of the square, in front of the agriculture building.

Everyone is invited to come and enjoy the cream and corn...and help the 4-H operating fund at the same time.

## Grand Opening Set

### At Thomason Grocery

Thomason Grocery, 114 NE 8th Street (Lone Star Highway), Lockney, will have its grand opening celebration today, tomorrow and Saturday. According to Arvin and Evelyn Thomason, new owners/operators of the store (formerly Keeter's), they plan to have a full line of fresh meats in addition to groceries, and "...we intend to give friendly service."

Thomason was born in Plainview and graduated from high school there. He started in the grocery business working for J.W. Smith Grocery in Plainview, and worked for O.B. Jackson Wholesale Meat, Ehresman Wholesale Meat, and Warren and Emmett White's Food, all in Plainview. He was in the meat business in California for 24 years before returning to Texas to run the Lockney grocery.

"We wanted to come back where the people are friendly," Thomason said. The Thomasons will make Lockney their home.

Don Vernon will continue as grocery manager at the store. Vernon, who has been in the grocery business in

## Superintendent Says New Education Law Will Favor Large Schools

State legislators will be working out a compromise bill on public education this week, and according to Lockney ISF Superintendent John Peck, whatever the final decision is, it will be large-school oriented, and small school districts like Lockney stand to be financial losers.

The Texas Senate and House of Representatives have passed different versions of the education bills, and a

joint committee must come up with a compromise if the new school law is to be passed by the last day of the legislative session, May 30.

According to the Lockney superintendent, the House bill specifically prohibits an increase in local taxes without permission from the state—but the Senate version would probably necessitate an increase in taxes over the two years, especially in smaller

schools.

"One appeal we have made continuously is that our local taxpayers have had about all they can stand," Peck said. He added that State Representative Phil Cates and State Senator Ray Farabee both have been very attentive to the needs of the Lockney community in education matters.

Transportation allotments are ba-

sically the same in both bills; the Local Fund Assignment (the share the local school district must come up with to run a minimum foundation program) is appreciably lower in the House version; but there would be a possibly reduction in special education (Plan A) services under the House bill.

Both versions speak to equalization aid, which Lockney is currently receiving; but the House bill has more to say

about tax reform (which could mean, among other things, stricter standards for school tax assessors and collectors). Teacher salary requirements are contained in the Senate bill, but are dealt with separately in the House.

The House bill requires 174 days of classes and six teacher in-service days; the Senate bill requires 180 days of school with no specifications for in-service.

### Lakeview News

(By Penny Golightly)

LAKEVIEW: May 23-1 went to visit my great uncle, Preston Weeks, Tuesday 17th on his ranch about 10 miles out of Crosbyton. He informed me that during some of this bad weather and rain we had recently that lightning killed one of his cows and a calf. The calf didn't belong to the cow that was killed, so he has managed to get the calf that lost its mother and the cow that lost her calf, to accept one

another. At least some good came out of it!

We have a new baby colt at our place. The only trouble we had was finding the little filly. We were all gone when the happy event took place and when we came home, we found our mare in the lot, and the filly, outside the lot in a fenced area by the corner of the lot. Mother and filly have been reunited.

Mr. and Mrs. Dean Watson and girls Amanda and Deanna also attended the Watson family reunion Sunday in the Pioneer Memorial Building in Crosbyton. Mrs. Rudolph McCurdy was also in attendance. Brenda's count of family members present was one hundred and twenty-five. Brenda also visited Sunday with her

Some people are up in arms because General Motors put Chevrolet engines in some of their Oldsmobiles. It's nothing new. Frequently a politician turns up in an Oldsmobile-type job equipped with a Model-T brain.

Politicians are always behind the times in their figures of speech. Some of them still say, when an idea that's superfluous comes up, "That's like carrying coals to Newcastle," when a better version is, "That's like hauling peanuts to Plains."

It takes a unanimous vote of 12 jurors to convict a gangster of a crime, but only a 5 to 4 vote of the Supreme Court to throw the conviction out.

We all ought to clear our desks out once a year and Congress every four years.

Yours faithfully,  
JA.

Mrs. Larry Jones

## Debra Sue Williams And Larry Jones Wed In Garden Setting

Debra Sue Williams and Larry Samuel Jones repeated wedding vows Sunday afternoon May 22 at 3 o'clock

in the garden area at South Park Inn in Lubbock. Rev. Jesso Nave, pastor of the First Baptist Church, Peter-

sburg, performed the double ring ceremony.

The bride is the daughter of Mr. and Mrs. Horace Williams of Petersburg and the groom is the son of Mr. and Mrs. Watson Jones of Floydada.

Mass arrangements of spring flowers in brass containers formed the altar scene. A white kneeling bench was highlighted in the background by a memory candle and gold candelabra with white tapers tied with blue ribbon.

Music was provided by Mrs. Roxanne Fry of Paducah, niece of the bride, who was maid of honor and June Collins, Petersburg, Rosemary Baily, Fort Worth and Michelle Williams, Lubbock, bridesmaids. They were attired in floor length dresses of blue polyester and wore hair halos of white daisies and carried umbrellas touch at the center with daisies.

The bride, escorted by her father, wore a crepe polyester organza gown fashioned with a wedding band neckline of Venice lace extending

into a sheer bodice yoke. The full bodice and highrise waist line was of Venice lace, and the long straight sheer sleeves were touched with Venice lace appliques, and used again on the skirt front. Matching lace encircled the hemline of the dress with the skirt extending into a full chapel length train. She carried a white prayer book on which lay an arrangement of yellow roses accented with blue baby's breath. She wore a white hat bordering the brim with white daisies.

Cliff Jones of Fort Worth served his cousin as best man. Ushers were Randy Fry and Mark Alldredge of Floydada, and Gene Williams and Steve Specter both of Lubbock.

For the reception which followed the serving table was laid with a yellow lace cloth centered with an arrangement of daisies, carnations and roses. Mrs. Gene Williams, Mrs. Jimmy Williams and Mrs. Dan Fry served wedding cake and punch from crystal appointments.

The bride changed to a white jumpsuit for travel. After a brief wedding trip the couple will make their home at 1917 49th, Lubbock, where she is employed at Texas Instruments and the groom is with Bush Hog Husky.

The bride is a graduate of Petersburg High School and the groom is a graduate of Floydada High School and Texas Tech University.

The groom's parents hosted the rehearsal dinner Saturday night at South Park Inn.

## Candlelight Vows Read For

## Jodie Eastham, Jerry McGuire

Wedding vows for Jodie Lou Eastham and Jerry Wayne McGuire were solemnized at 7:00 p.m. May 21 in a candlelight service in the Floydada First United Methodist Church. Rev. James E. McGuire, pastor of the First Baptist Church of New Deal and father of the groom, performed the double ring ceremony assisted by Rev. Jim Smith, pastor of the Floydada Methodist Church.

The bride is the daughter of Mr. and Mrs. Carmel J. Eastham, Jr. of Dougherty and the groom is the son of Rev. and Mrs. James E. McGuire of New Deal, recently of Floydada.

Mrs. Tommy Wylie registered guests. A single long stemmed yellow rose in a crystal and silver vase and a blue plume pen adorned the registration table.

Ushers were Don Warren, Larry Stovall, Michael Rainwater, all of Floydada and Mark Eastham of Clovis, New Mexico, the bride's cousin. Their boutonnières were yellow carnations.

Miss Penny Bertrand, church organist, played traditional wedding selections and accompanied Miss Christy Stringer as she sang "I Love Thee" and "Evergreen" preceding the ceremony and later, "The Wedding Prayer" and "Kneeling Dear Savior."

Martin Eastham, brother of the bride, and Melissa Eastham of Clovis, cousin of the bride, were candlelighters. He wore a pale yellow tuxedo and Miss Eastham wore a floor length dress of blue floral organza. After lighting the candles they gave the lighting torches to the mothers of the bridal couple who then lit a single candle on either side of the altar.

Behind the altar was a large arched candelabra with white tapers covered in palms, blue and yellow carnations and gypsophelia. Palm trees and brass cathedral shaped candelabras holding long white tapers enhanced either side of the altar.

Brass potted palms standing on podiums near the outer edges completed the altar area decorations. Large bows of blue and yellow satin marked the family pews. An open Bible was the focal point on the church altar, flanked on either side by the single candle lit by the mothers. During the ceremony, the couple used these candles to light the Unity Candle together, symbolizing the two, from separate homes, were uniting as one to establish a new home. The large white Unity Candle stood in front of the open Bible in a ring of yellow roses, baby's breath and lily of the valley. To complete

the lighting of the Unity Candle ritual, the bride and groom presented their mothers with a yellow rose.

Mrs. Roger Coursey of Amarillo served as her sister's matron of honor. Bridesmaids were Miss Linda Norman and Miss Brenda Vickers, both of Dougherty, Miss Kathy Winders of Earth, and Miss Connie Nelson of Dimmitt. They wore identical formal length gowns of sunshine yellow polyester knit fashioned with scooped necklines formed by crisscrossing bands which accented the empire waistlines. The sleeves of their frocks were sheer, free flowing to the wrist. They wore matching yellow picture hats with fluted brims. Each carried a long stemmed yellow rose tied with long streamers of blue and yellow satin ribbon. Little Miss Jamie Eastham of Temple, cousin of the bride, was flower girl. She wore a long dress of blue dotted swiss with short cap sleeves and a wide blue satin ribbon at the waist. She carried a dainty bouquet of blue and yellow carnations and baby's breath in a white tulle and lace basket. Master Ethan Eubanks of Floydada was ring bearer. He wore a yellow suit matching the fabric of the bridesmaids dresses and carried a white satin and lace heart-shaped pillow holding the wedding rings.

James McGuire of Lubbock, brother of the groom, was best man. Groomsmen were Donnie Combs of Lubbock, Stephen Thetford of Plainview, both brothers-in-law of the groom, Randy Free of Lubbock and Gordon Bond of Floydada. They, as well as the father of the bride, wore solid pale blue tuxedos with white and blue ruffled shirts. Their boutonnières were blue carnations. The grooms' tuxedo was all white and he wore a yellow rose bud boutonniere.

Escorted by her father, the bride wore a formal length gown of white silk organza fashioned with a deep scoop neckline edged with scalloped chantilly lace. The full length sheer Bishop sleeves were caught with a narrow cuff of lace. A band of scalloped lace extended down each side of the empire bodice and onto the softly gathered A-line skirt. A chapel length train, accented with a large Dior bow, flowed from the center back waistline. Tiny white satin bows were scattered over the lace and down the center of the train. Her headpiece was a Juliet cap of matching lace holding a lace edged tiered cathedral length veil of illusion. Her bridal bouquet was a large colonial

nosegay of yellow roses, white cushion mums and baby's breath with long white satin streamers.

For the traditional something old the bride carried a lace handkerchief which had been carried by her maternal grandmother, mother, aunt, and sister at each of their weddings. Something borrowed was a diamond pendant necklace from her aunt, Mrs. Julian Walker and something new was diamond earrings, gift of the groom. She wore the traditional blue garter.

A reception followed the marriage ceremony in Fellowship Hall. Members of the houseparty were Mrs. Tommy Horsford of Cotton Center, Miss Julie Walker of Houston, cousin of the bride, Miss Donette Marble, Miss Nancy Anderson, Miss Debby Johnson, Mrs. Joe Womack and Mrs. Blake Hickerson, all of Floydada.

The bride's table was laid with a hand drawn white linen cloth and a centerpiece formed with a silver candelabra holding long white tapers. The bride's bouquet and white alabaster doves were at the base. Fruit punch was served from a silver punch bowl on a large silver tray. The wedding cake was decorated with yellow roses, white wedding bells and pale blue garlands. The upper tier was separated by white fluted columns and held the traditional bride and groom cake decoration. Nuts and mints served from silver and crystal compotes completed the table appointments.

The groom's table was laid with an ecru colored crocheted tablecloth made by the bride's great grandmother. A blue underliner was used. The centerpiece was a large floral arrangement in various shades of blue with touches of yellow and white in a wicker basket. Coffee, German chocolate cake squares, mints and nuts were served from silver appointments.

Christy and Vicky Eastham of Temple, cousins of the bride, distributed rice bags.

For travel, Mrs. McGuire changed into a four piece pink pant suit with white accessories. Her corsage was of deep pink carnations, baby's breath and stephanotis. After a wedding trip to Ruidoso, New Mexico, the couple will be at home near the Lakeview and Dougherty communities where the groom is engaged in farming.

Mr. and Mrs. McGuire are 1976 graduates of Floydada High School. The bride attended South Plains College at Levelland where she earned a certificate in Secretar-

**State Ag Leader Encourages Heavy Beef Referendum Vote**

AUSTIN--Every "man, woman and child who owns cattle in Texas" should register and vote in the upcoming national beef referendum, Agriculture Commissioner Reagan V. Brown has urged. "Every cattle producer in the state has an equal vote in deciding the future of the proposed national beef check-off system," Brown said, "and as the major cattle-producing state in the nation, we have a particular responsibility to make our wishes known."

Brown said that at least one-half of all registered cattle owners in the country must cast a vote concerning the referendum before the results can be validated. "Since no list now exists of cattle producers in Texas or

the nation, prospective voters will be required to register during a prescribed time period prior to voting," he added.

Projections are that registration will begin in May. Actual voting on the referendum would probably

## Motley Widow Gets Pay

The widow of Motley County Sheriff Jalmar "Jinks" Wilson recently received \$50,000 from the U.S. government under provisions of a new federal law which provides benefit payments to survivors of public safety officers and firefighters killed in the line of duty.

Wilson was shotgunned to death November 12, 1976, just 49 days away from his planned retirement as sheriff. Two suspects in the shooting currently face capital murder charges in connection

with the incident. Wilson's wife, Geneva, is among the survivors of 25 other public safety officers and firefighters across the U.S. to receive such benefits. The funds are made possible through the Public Safety Officer's Benefits Act of 1976.

## Floydada Nursing Home Happenings

By Faye Walters

Well, everyone has been resting up this week after such a busy Nursing Home week, but I think all our residents really enjoyed every activity we had.

We have had real good devotions this week and beautiful singing. We appreciate everyone who came out.

Our exercise class is still growing. Pearl Carrick, Alta Probasco and Mollie Jones have attended most of the week. We welcome everyone.

Tuesday was manicure day and some nails sure

looked pretty when the day was over.

Wednesday the weather was too bad again for our field trip, so we played dominoes. Boy! What competition. It is so much fun watching the residents play.

Pearl Carrick, Ray Reed, Mollie Jones, Agnes Anderson, Hope Hammonds and myself played every day except one this week.

Thursday the women from City Park Church of Christ gave the resident's birthday party of the month. They served punch and cake. Everyone had a wonderful time.

We had three with birthdays in May. Mary Plumlee, Willie Mae Stambough and Mark Jardon.

May the Lord Bless these women who are so faithful to come every month of the year and give this party.

We have another new

resident, Gladys Simberly. We hope she will be happy here.

We appreciate all our visitors this week which included: Mrs. George Wexler, Alma Ruth Nelson, Mary H. Wilson, Dorothy and Otis Anderson, Sue Moore, Wayne Jordan, Amarillo, James and Sue Grider, Reedley, Calif., Mrs. Keith Reeves, Trina, Deborah and Becky Reeves, Mr. and Mrs. Pete Roe, Mr. and Mrs. Edd Neff, Dorothy Kerr, Mr. and Mrs. Louis Anderson, Nancy and Lisa, Wiley Rogers and Lurene Gee.

## Meeting Set For Beef Producers

A countywide meeting about the proposed Beef Research and Information Act has been called for 8:00 p.m. Thursday May 26 in the Massie Activity Center in Floydada by L. N. Johnson, chairman of the Floyd County Beef Development Task Force.

Details about the upcoming beef referendum will be explained, the chairman has announced.

The educational program, which is designed for all beef and dairy cattle owners of the county, will include two slide presentations about the Beef Research and Information Act—one prepared by the Texas Agricultural Extension Service—and the second by the Beef Development Task Force. There will be a period for questions and comments from producers.

Additionally, the BDT chairman, County Extension Agent, Doyle G.

Warren, and Extension Management specialist Marvin Sartin, will provide more detailed information about the forthcoming beef referendum.

The Beef Research and Information Act serves as enabling legislation and authorized the Secretary of Agriculture to conduct a referendum among beef producers to determine whether they want a beef development plan, developed by an industry-wide committee.

"The beef development plan is a proposed national checkoff program that would be financed by assessment as spelled out in the beef marketing order. If approved, the plan would provide some \$30 to \$40 million per year for beef research, consumer and producer information, promotion and market development," explains Johnson.

## Bill King Retiring From Stock Show But He's Not Out to Pasture Yet

By MARVIN GARRETT  
When they build a Texas Agricultural Hall of Fame, the name of W. A. (Bill) King should be in it. King, who is retiring as livestock show manager for the Southwestern Exposition and Fat Stock Show, a job he has held for 31 years, also retired about three years ago as agricultural manager of the Fort Worth Area Chamber of Commerce.

Another of his recent retirements is from ownership of an Angus ranch in Hood County which he had built up to a show place.

But all of those retirements doesn't mean that King is away from the agricultural and Chamber of Commerce scene. He will continue as a consultant with the Stock Show and also will work as a member of the Haltom-Richland Area Chamber of Commerce.

King began his agricultural career as a vocational agricultural teacher at Floydada and later was associated with a Texas Tech training school at Lubbock that trained agricultural teachers.

During World War II he had a hand in helping the war effort by increasing the food supply. He worked for the State Department of Education in supervising the installation of community canning plants and in setting up farm shops that kept farm implements going during the war years.

Even today, in his well-equipped home shop in Haltom City, where he has an abundance of metal and woodworking tools, you may hear him refer to his workshop as his "farm shop."

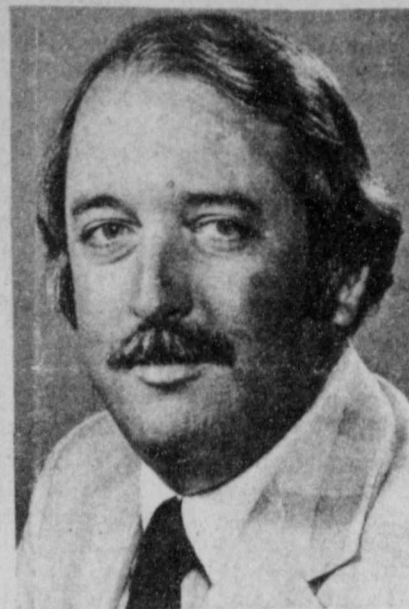

HE WORKED THE Chamber of Commerce and Fat Stock Show jobs at the same time, devoting long hours to the Stock Show job during the show period. "I tried to be the first man at the show grounds in the morning," he said, "and I didn't leave until I turned it over to the night watchman."

The show has about 25 superintendents for the various departments, and his job was to help them keep everything running smoothly. Thousands of exhibitors know Bill King and many of them have called on him with their problems.

One of the unique features at the Stock Show is the Sunday School breakfast for members of 4-H Clubs and Future Farmers of America. A packing company has sponsored the breakfast and interest dwindled until the break-

Manager, W. R. Watt, and explained that such a breakfast was unique on the stock show circuit. "Many mothers are concerned about sending their young sons off to what they think is a big, bad Fort Worth," King said, "and if the mothers know their sons are going to attend Sunday School, it will take some of the edge off their fears."

Watt liked King's suggestion, and the First National Bank took over the sponsorship of the now-popular event which has continued for more than a quarter of a century.

King still feels good about having a hand in the breakfast, which always features a popular speaker, good music, participation by leading 4-H and FFA youths and the star who may be entertaining at the rodeo.

AFTER THE retirement of the late Walter R. Humphrey, editor of the old Fort Worth Press, the Fort Worth Chamber of Commerce took over the sponsorship of the Press Soil and Water Conservation Awards Program which had been in existence a quarter of a century.

King was named director of the state-wide program which continued for another five years. In that work, he arranged a state-wide awards dinner and five regional awards dinners each year to honor farmers, ranchers, business and professional people who had made contributions to farming, ranching and ecology.

King was a founder and charter-

chairman for the state FFA Convention scheduled for Fort Worth's Convention Center July 13-15.

TAKING KING'S place at the Stock Show will be David Gibbs who has been associated with the show for 13 years. A Texas A&M graduate, Gibbs was livestock show announcer for five years before becoming arena director.

"There's no question about the importance of the Stock Show to Fort Worth," King says. "The money that it brings in is important, so is the advertising that the city gets from the show, and it gives the people coming here a chance to get acquainted with the town."

He believes, also, that the Stock Show is a good method of preserving the heritage and western flavor that people expect Fort Worth to have.

Fresh from his latest retirement, King, a veteran of banquets and English peas, was attending another Haltom-Richland CC ribbon cutting this week.

coming up a number of out of town visitors are expected. Hopefully the rains will let up by then, but we usually have a thunder head or two nearby, so bring your umbrella just in case. We must let Mother Nature have her way, since she understands her business better than we do.

RESEARCHERS at the University of California have come up with the following figures concerning the honey bees: The bee can carry only ten microliters of nectar per trip-she has to collect 42,000 microliters of nectar to produce one tablespoon of honey! (Honey is about three times as concentrated as nectar, so the bee has to collect 2.8 tablespoons of nectar for every tablespoon of honey) Thus, the poor little bee has to make 4,200 trips to flowers to produce one tablespoon of honey! Remember that the next time you pour the delicious sweetener over pancakes or biscuits!

FOR cooks on the run... hints for a successful dinner: Chicken: Cook at maximum speed. Plan on at least 150 miles at 55 mph. Cake: Bake slowly, about 40 mph; choose well maintained, smooth highway to prevent cake from falling. Oliver Batcheller, professor at California Polytechnic University, has come up with a mobile oven. Made of waste materials, it is attached to the tailpipe of his car. The hot exhaust gases pass around the oven and cook the food. Batcheller has prepared cakes, potatoes, and loaves of bread in his unique oven. "A person just needs to know the proper speed and cooking time," he says. Think of all the stewing that could be done during those hectic rush-hour traffic jams in the big cities. Batcheller has conceded that the idea of his mobile oven may not grab many people and he doesn't see auto manufacturers rushing to advertise his oven as an optional item on automobiles.

SOME crazy rules and ordinances in the books... It is illegal to hunt or shoot camels in Arizona. In Compton, California, dancing cheek to cheek is prohibited. Beanshooters are prohibited by law in Arkansas.

### As It Looks From Here

Omar Burleson, M.C.  
17th District, Texas  
WASHINGTON, D.C.—  
IF PRESIDENT CARTER'S  
PROPOSAL to adopt "in-  
stant" registration for vot-  
ing in Federal elections is  
approved, it is a good guess  
it would not be long until it  
applies to primaries.

THE CONDUCT OF  
ELECTIONS in the States is  
not the business of the  
Federal Government. The  
President's proposal would  
eliminate any pre-registra-  
tion to vote. A person would  
simply need to walk into a  
polling place on election day  
and present some form of  
identification to be able to  
vote. What this form of  
identification is, no one yet  
knows, but it certainly could  
not be made foolproof. At  
this very time, false identi-  
fication used in various  
forms of fraud is a serious  
problem. It is estimated that  
the use of false identifica-  
tion costs the American  
taxpayers \$10 billion annu-  
ally in cases ranging from  
welfare fraud to illegal  
immigration. There seems to  
be no problem at all in  
producing any kind of re-  
quired identification. There  
would be no problem in  
producing the same to vote  
although such an elaborate  
effort would probably not  
be necessary.

THE THEORY BEHIND

MORE PICTURES OF MACKENZIE LAKE

The 571 points per pound (5.71 cents) increase in the national base loan rate for cotton, from 38.92 cents per pound in 1976 to the 1977 rate of 44.63 cents, will mean an increase on average High Plains cotton of only about 558 points (5.58 cents) according to calculations made by Lubbock-based Plains Cotton Growers, Inc.

Most cotton grown on the High Plains falls below the Strict Low Middling 1-1/16 inch, 3.5 to 4.9 micronaire base quality, and discounts on the lower grades and staples are an average of 27 points greater than 1976 discounts. However smaller discounts on cotton with below 3.5 micronaire will offset about 14 points of this, leaving a net loan value reduction from discounts of about 13 points.

PCG used the average of qualities produced on the Plains in the 1971 to 1975 crop years as the basis for its calculations.

PCG officials also note that 1977 is the fifth consecutive year for which the grade and staple discounts have increased on qualities below SLM 1-1/16 inches, and that it is the first time in the last five years that overall micronaire discounts have not increased.

Grade and staple discounts for 1977 on qualities that make up over 95 percent of the average Plains crop average to 542 points, 216 points more than the discounts that applied in the loan schedule of 1972.

Low micronaire discounts for 1972 and 1977, respectively are: 2.6 and below, 405 and 600 points; 2.7 to 2.9, 270 and 390; 3.0 to 3.2, 165 and 200, and 3.2 to 3.4, 70 and 65 points.

Premiums and discounts that apply in the loan schedule each year for the most part reflect spot market quotations for the period August through April of the previous year.

"Therefore the five year trend toward a greater disparity between loan values for High Plains cottons and the base quality," explains PCG Executive Vice President Donald Johnson, "means there is a similar trend in the marketplace where our cotton must eventually be sold."

The USDA announcement of premiums and discounts included a statement that freight differentials for various warehouse locations across the Cotton Belt would be released soon. The High Plains rate, considering past experience, is expected to be about 44.55.

When the exact High Plains rate is available, PCG will compute and publish the physical loan price of all cotton qualities eligible for the loan. The schedule of loan values will be a part of the second quarter issue of "The Cotton Review," PCG's membership newsletter.

### NATIONWIDE CROP HAIL

COTTON

2. Substitution of crops will be allowed.
3. July 1st. additional coverage can be added at 1/2 price.
4. Harvest expense applies after. Cotton is 100% in effect.

CORN

When corn reaches the fifteenth (15th) leaf stage, it is very vulnerable to hail damage. The fifteenth leaf stage is usually when the corn is about 42 days old, or around June 10th for most fields. This is an extremely bad hail period for most of Zones 1 and 2.

Or Sam A. Spence 983-2881

THE NO PRE-REGISTRATION PROPOSAL is that many citizens are prevented or discouraged from voting by restrictive registration laws. The concern of low voter turnout is understandable. Only 53% of the electorate bothered to vote last November.

IT DOESNOT FOLLOW, HOWEVER, THAT UNIVERSAL REGISTRATION means universal voting. According to surveys, only 2% of last November's non-voters listed registration as the reason they failed to vote. It hardly seems that such a small number who say they were affected, would justify the spending of \$24 million every year which the proposal is estimated to cost.

THE AMERICAN POLITICAL REPORT shows that last November the farm belt and the Rocky Mountain

States had the highest turnout of any region. These States are mostly rural, and voting is not as easy where distances are involved as it would be in the cities. Fraud is frequently mentioned as an argument against no registration. No doubt, this method of voting would invite all sorts of cheating. The real fraud, however, probably lies in the fact that an "instant" voter who had not registered and who had not intended to vote could be herded to the polls by political machines and special interest groups.

VOTER APATHY IS A PROBLEM but a walk-in voter with no other qualification than his bodily presence hardly appears to be the solution. Participatory Government is meaningless unless citizens carefully weigh their votes. As the Dallas Morning News recently pointed out, "It is questionable whether the elimination of registration will spur many apathetic voters to go to the polls. But it should step up considerably the number of individuals voting more than once a voting day. The plan would thus produce more votes even if it didn't turn out more voters." The editorial went on to say, "If President Carter and his fellow electees in Washington really want to get Americans out and vote in great numbers in future elections, we believe that the best way would be for them to keep the faith with those who elect them."

THIS IS REALLY THE CRUX OF THE MATTER. Voting is a right and a privilege and people need to feel that their vote will once again have effect and meaning. Taming the bureaucrats and cutting Federal spending, hence restoring public confidence, would do more to spur voters to the polls than universal registration gimmicks. Such would demonstrate the recognition of the privilege, the right and the responsibility of having a real voice in choosing public officials.

Some parents-to-be are concerned about the new baby changing their lifestyle and making them stay-at-homes. When they ask me, I point out that most babies travel very well. With proper planning and equipment, you and your baby can go plenty of places together. Here are some suggestions:

For biking and hiking—You can get special baby seats for

the bicycle and carriers for backpacking baby.

For car travel—The newer children's car seats have improved safety features: they're held to the car with the adult seat belt, and have a chest harness.

For an overnight trip—Your car bed or the Gerber portable bassinet is good.

# No Ag Plan in Energy Program 'Disappointing,' Brown Admits

AUSTIN—Admitting his disappointment that plans for agriculture were not specifically included in President Carter's energy plan, Agriculture Commissioner Reagan V. Brown said he "would do all I can to help the President achieve his conservation goals."

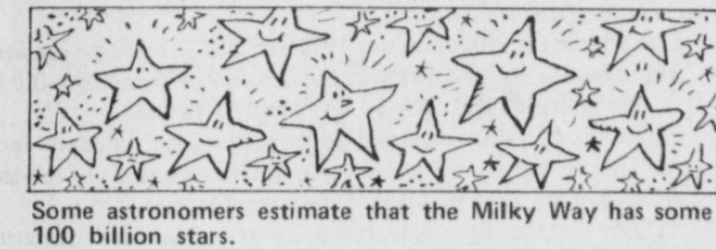

"But we will be just as vigorous in championing the cause of farmers and ranchers," Brown added, "for in the final analysis, as the farmer goes, so goes the nation."

The new commissioner, named in March to fill the unexpired term of the previous head of the Texas Department of Agriculture, said he felt the President's message "was straightforward and sobering."

"There seems to me to be a consciousness in all America that we must tighten our belts to conserve energy and move with all deliberate speed in developing new sources of energy."

Speaking of the admission of agriculture's role in the plan, Brown said, "I have great confidence that President Carter, himself a farmer, Secretary Bob Bergland, and Undersecretary John C. White are monitoring these developments to assure a supply of agricultural fuels at prices which will ensure that farmers and ranchers can stay in business."

"All Americans have a stake in agriculture's ability to produce," Brown added. "They are as close to agriculture as the next meal."

## LETTER TO THE EDITOR

Dear Sirs: As an old timer of Floyd County I would appreciate if you would accept my letter to the editor, and I enclose \$1 for which, please send me the Hesperian for a week or two which will include our article.

I graduated from Floydada High School in May 1927 (Bessie V. Moore) then after one year in Wayland College, Clyde and I were married and moved to Wampa the same year and have made this our home ever since.

The last ten years or so, we have had a reunion for "us Moores" and every old timer-old or young are invited. We call it the "Cone-Starkey" reunion and have it at the Primitive Baptist Foundation, Cone, Texas. Everyone is invited.

Thanks,  
Mrs. Clyde Jonas Bessie

Here it is, almost time for our "old Timers Get Together" again, which means everyone old or young who ever lived around or near Cone, Starkey, McCoy, Farmer, Lakeview, Mt. Blanco—on and on we could go, but most important is getting the word to all our friends and loved ones, to meet us at the Cone school house, which is now the Primitive Baptist foundation.

The date is Sunday, June 19. Bring a basket lunch, spread it with us, and we'll guarantee you'll never be the same. You will see old friends and new ones and have something to talk about for months to come.

Each time we all meet, we can't help wondering who will be the next ones to be promoted to Glory. Many are absent and are missed so very much, each year.

May God Bless and keep us all.

Sincerely,  
The Moores  
Zora, Everett, Marion, Corene, Thula and Bessie.

**FLOYD DATA**

A recent visitor in the G. Jack Armstrong home was Mrs. W. D. (Doris) Johnson of Riverside, California. She also visited her son, Nathan Johnson and family in South Plains. Her daughter, Jane Hild and Penny of San Antonio drove to Floydada and took her mother home with her before she returned by plane to California. Mrs. Johnson regretted she failed to visit her many friends in Floydada.

Last Saturday Mr. and Mrs. Armstrong drove to San Antonio to visit his niece, Jane Hild and family and also attended the Old Trail Drivers barbecue at the Museum Hall in Breckenridge. Mr. Armstrong is a longtime member of the Trail Drivers. The couple also enjoyed an interesting tour of the Texas Rangers Museum returning home Monday.
