The Floyd Philosopher
Finds One Agreement All Nations Of
The World Will Live Up To

Editor's note: The Floyd Philosopher on his Johnson grass farm applauds, with one hand, a new agreement signed by the leading nations of the world.

Dear editor:
 Some pessimistic people claim it's impossible for the nations of the world to ever get together on much of anything, especially on abolishing war. They say an agreement between nations isn't worth the paper it's written on, even though the price of paper is ten times what it used to be, including the paper this newspaper is printed on.

This is not always true. For example, just recently the major countries got together and signed an agreement outlawing the use of weather in warfare.

They've agreed that a man-induced earthquake, for instance, cannot be used, although you can see how effective it'd be to run one right through the middle of your enemy's country when it was getting ready to attack. It is now unlawful, under the agreement, to stir up the ocean and send a tidal wave over

some country you're at war with.

Guided hurricanes or tornadoes cannot be sent through another country, ripping up cities right and left in the pursuit of peace.

Producing a drought throughout your opponent's lands has been outlawed, as well as, in case you overlooked some spots and crops came up anyway, producing torrential rains at harvest time.

Lightning can't be man-directed, it must be allowed to strike where it pleases like nature intended. No late crop-killing freezes are allowed, and no country will be permitted to melt another country's snow in the winter time.

Now you may ask, will the nations signing this agreement live up to it? Will refuse for example to devastate an enemy's country with a searing drought, or split it in half with an earthquake?

Of course they will until one of them figures out how to do it.

Yours faithfully,
 J.A.

TIPS NOT TAXABLE

AUSTIN — State Comptroller Bob Bullock urged Texans Wednesday to take a close look when paying the tab at their favorite restaurant or club.

If the establishment has automatically added a tip to the check and then charged the sales tax on the tip, the customer has been overcharged, Bullock said.

CENTURY PLANT ENDS 13-YEAR STRUGGLE—Mrs. Berch Gilliland of 820 South Main in Floydada displays this backyard century plant as it bloomed for the first time in 13 years this spring. (Staff Photo)

"Send that check back and tell them to figure it again," Bullock urged.

The Comptroller said a bill recently passed by the Legislature exempts mandatory gratuities from the sales tax. He urged restaurant and club owners — and their customers — to familiarize themselves with the new law.

Bullock said the law will eliminate the past confusion over the taxability of tips.

In the past, a tip was subject to the sales tax if it was automatically added to the bill by the management.

Voluntary tips or gratuities, however, were exempt from the tax.

The new law, which became effective April 25, excludes from the sales tax "reasonable" mandatory gratuities which do not exceed 20 per cent of the price of the meal or drinks.

The law requires, however, that the gratuity be identified as such on the check and the full amount be distributed to the employees who provide the service, such as waiters, waitresses and bartenders.

Mrs. Scott O'Banion

Miss Bradley, O'Banion Exchange Nuptial Vows

The Main Street Church of Christ in Lockney was the scene of nuptial vows exchanged Sunday afternoon by Miss Glee Ann Bradley, daughter of Mr. and Mrs. Marten Bradley of Lockney, and Carl Scott O'Banion, son of Mr. and Mrs. Max O'Banion of Lubbock.

Jerry Klein, minister of the church, officiated the double-ring ceremony.

The church wedding chorus sang several wedding selections. Mr. and Mrs. John Bookout from Hartley, uncle and aunt of the groom, sang "Sunrise, Sunset," and Mrs. Bookout sang "The Lord's Prayer." Van Bradley, Lockney, brother of the bride, sang "The Wedding Song."

Given in marriage by her father, the bride wore a formal-length silk organza dress featuring a high, sheer neckline with a band of beaded lace. Beaded lace trimmed the bodice. The A-line skirt was enhanced by a double row of lace down

the front and extending around the chapel-length train. The sheer, fitted sleeves were adorned with lace, and the floor-length veil was edged with matching lace. The bride carried a bouquet of yellow and white daisies surrounding yellow rose buds.

Miss Judy O'Banion of Lubbock, sister of the groom was maid of honor. Bridesmaids were Mrs. Monte Huddleston of Sapulpa, Oklahoma and Mrs. Clarence Hardy of Lockney, sisters of the bride, and Miss Debbie Loar of Canton, Oklahoma. Their formal-length dresses were mint green dotted Swiss with square necklines, empire waists and tiered skirts edged with lace. They wore white picture hats banded in mint green ribbon, and carried bouquets of yellow and white daisies tied with yellow ribbon.

Lisa Bradley of Lockney, a niece of the bride, was flower girl. Ring bearer was

The altar area was decorated with two brass candle-trees entwined with foliage and yellow and white daisies and holding yellow tapers. The couple's parents' pews were marked with foliage-wrapped candle holders holding yellow tapers and tied with yellow ribbon.

At the reception, the bride's table was laid with a white cloth edged with lace. The three-tiered cake was topped with bride and groom figurines, and yellow icing roses decorated the tiers. Family Reunion Held At

Mrs. Owen Thornton's family, the McManigals, gathered at the Thornton home this past weekend for a reunion of all nine of the surviving brothers and sisters in her family. There were 11 children, 4 sons and 7 daughters, born to her parents, Mr. and Mrs. M.V. McManigal, deceased, of Happy, Tx. Two brothers are deceased, and one's widow was present at the gathering. The last time all 11 children were together was when Mrs. Thornton was 8 years old, and the last time the surviving 9, and 1 who is now deceased, were together was 20 years ago when their father died. The mother, Mrs. M.V. McManigal passed away 23 years ago.

The M.V. McManigal family came from Wayne, Nebraska in box cars with a family of 5 children, and their livestock, to settle at Happy where they were one of the first five families to make their home. Because the older children were gone from home when the younger ones were born, their "get togethers" have been sparse. They hope to make a family reunion an annual affair.

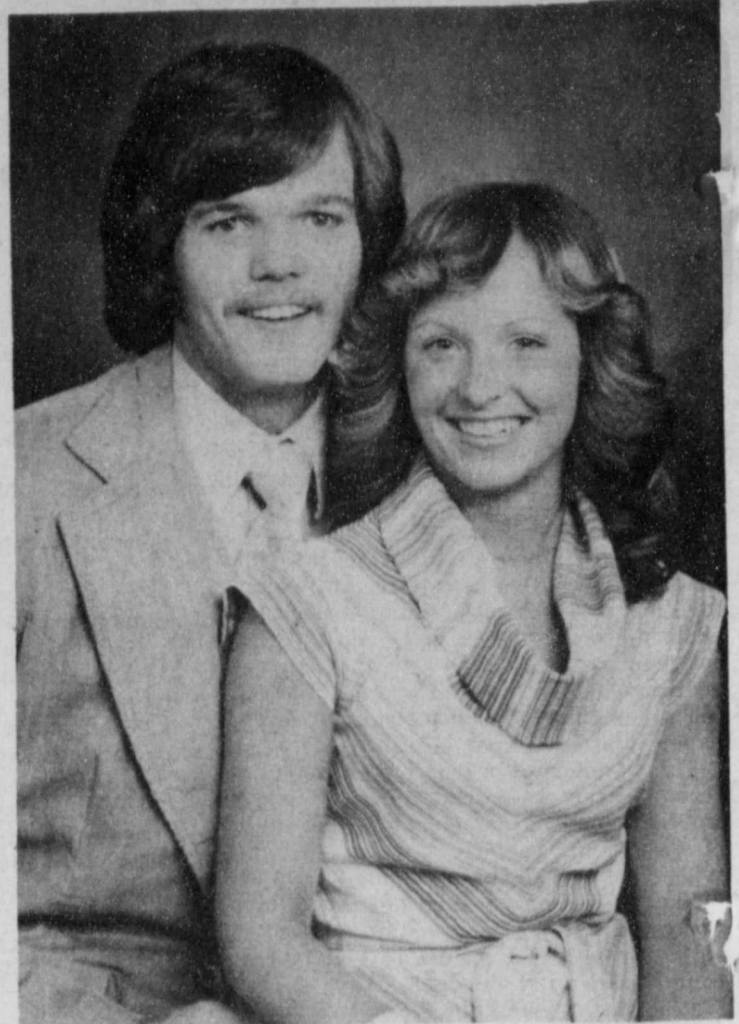

The brothers and sisters arrived on Friday and Saturday, and their names, relationship and addresses are as follows: Mr. and Mrs. Ernest (Merle) White (sister) from Happy; Mrs. Mildred Schuman (sister), White Deer; Mr. and Mrs. Hobart McManigal (brother), Happy; Mrs. Eva Creswell (sister), Truth or Consequences, N.M.; Mr. and Mrs. Morlan McManigal (brother), Happy; Mr. and Mrs. O.H. (Betty) Rahlis (sister), Happy; Joie Dale Brown (sister, Tulsa); Mr. and Mrs. Roy (Margaret) McCutcheon (sister) Eufaula, Okla.; Mrs. Jack McManigal (sister-in-law), Canyon; Owen and Kathleen (sister) Thornton, the hosts, and two of their children, Mr. and Mrs. Ricky Kellison and Kori; Mr. and Mrs. Ronnie Thornton, Ronee and Richie, all of Lockney.

Owen Thornton surprised each of his sisters-in-law and his wife by presenting them a corsage at the Saturday evening gathering.

Arriving on Sunday were some children of the brothers and sisters, Mr. and Mrs. Pat Maynard of College Station, Mr. and Mrs. Glen Maynard and children of

ENGAGEMENT ANNOUNCED—Mr. and Mrs. B.J. Terrell of Route 1, Lockney, announce the engagement of their daughter Mitzi Gail to James Joseph Glenn, son of Mr. and Mrs. A.C. Glenn of Plainview. The bride-elect is a graduate of Lockney High School and attended South Plains College in Levelland. She is employed at Dorothy's in Lubbock. What One Person Can Do

Doctors at the Mennonite Hospital in Bloomington, Illinois, can order an unusual prescription-music. And the person who fills it is Deanna Edwards. Ms. Edwards is a music therapist who works with hospital patients through words and music. She explains her form of therapy as "the effecting of change in the physical well-being of a patient through music." She has found that "music has a very beautiful effect." Sometimes even comatose patients "will come out of a coma on occasion when they hear the music of a song that they love."

"I write songs which reflect the needs of the patient," says Ms. Edwards, who composes her own music and has recorded two albums, "A Song Is a Gentle Thing" and "Peacebird."

While "music is a universal language," she goes on to explain that, "because it is also very personal, we can prescribe music to the needs of the individual." From her work with terminally ill patients, Deanna Edwards has found that "grief is a healthy thing." She maintains that people need to be able to express their grief "creatively" and that they can do so through music. Her most popular song is called, "Teach Me To Die."

Reflecting on how her work has influenced her, Ms. Edwards says, "I'm much more aware of life, of beauty, I'm beginning to live as if each day were the last in my life. And when we do that, we begin to experience a richer quality of life."

News Of Science That Affects Our Lives
Next time you notice corrosion on your automobile, air conditioner or household appliance, consider the fact that corrosion is also eating away the nation's industrial and structural equipment at the rate of about \$10 billion annually. But scientists are doing something about it.

To control this insidious enemy, a growing breed of specialists called corrosion engineers are setting up stations near the ocean to see what effects sea air and water have on different materials.

Boosters.

HE came whipping out of the hills of western Pennsylvania in 1973 like a blast of chill autumn wind, carrying half the college football coaches in the nation under his arm. It was first down and anywhere you want to go for Tony Dorsett, the schoolboy sensation out of Altoona, Pa. and Dorsett went nowhere. That is, his nine-second speed and fifty hips took him to Pittsburgh and home. Ohio State Notre Dame, Southern Cal, Oklahoma--none of them got within field goal range of Touchdown Tony-- now the Cowboys have him!

KING of the road John Smee is one of the last. For some 40 years he's been trekking his way around the country, wearing shoes made of pieces of truck tires thrown from passing vehicles and listening to Bach and Beethoven over his small portable radio, his only companion. His worldly possessions are pulled behind him on two homemade carts and he pauses along his journey to work at odd jobs to get enough money for food. Seems strange that in this modern world that we still have hobos, not because of a "have to case" but because they like it that way.

Floydada Nursing Home Happenings

By Faye Walters
This has been a good week at the Nursing Home. Our devotions have been so good and all the residents seemed to get a lift from the word of God and the beautiful singing. Our exercise class has been great and so has the domino game. We have another quilt in and Hope Hammonds and Mollie Jones are piecing on some more quilts. Pearl Carrick is crocheting bassinet purses, while Dora Langford & myself are quilting with some help from Alto Probasco and Gladys Wimberly. All in all we have been pretty busy. Wednesday was pretty enough to take our field trip and it was fun to get out in the country and see the crops. Although we were sorry to see where some crops were hailed out. Some fields were still too wet to plant. Taking this trip were the driver Mr. Freeman, Florence Badgett, Hope Hammonds, Agnes Anderson, Pearl Carrick, Gladys Wimberly, Dora Langford and myself. Thursday was bingo day and everyone really enjoyed playing as it had been two weeks since our last games. Clara Williams was the big winner with three games; Willie Mae Stambough, Hallie Bertrand, Pearl Carrick and Gladys Wimberly won two games each and Hope Hammonds and Ray Reed won one game each. Agnes Anderson had just started playing when they came after her to go visit with her family. She has a son and family here from California visiting and she is really enjoying them. We would like to thank Maxine Cantrell for the scraps, also Alto Probasco's granddaughter, Mrs. Wilson from Pasadena, Texas who sent a large box of scraps. We would like to thank the well driller and the retired car salesman for the nice green onions. The residents really enjoyed them. We appreciate all our visitors this week which included Parnell Powell, Otis Anderson, Mr. & Mrs. Leon Anderson, Mary Tony, and Julie, of Tyler, Jewel McCormick, Lisa & Nancy Anderson, Mrs. Ruby Bostick, Anders & Deanna; Norco, La, Mrs. Bill Smallwood; Matador, Mrs. & Mrs. Hubert Davis, Mr. & Mrs. Tommy Barker, Brian, Craig, & Tamatha; Stephenville, Mrs. Carrick Snodgrass, Luke Davis and Mennie Day of Costa Mesa, California.

years with Sons of the Pioneers is gone. Lloyd Perryman, whose voice contributed to the smooth harmonies of the band, died Tuesday in California. Perryman replaced an original member of the group in 1936 and after 1949 was informally the leader, teaching arrangements of such pioneer classics as "Cool Water" and "Tumbling Tumbleweeds" to new members.

HOW TO MAKE HOME IMPROVEMENTS "JUST THAT"
To make home improvements be "just that," consumers should follow some simple precautions. --before calling a contractor, know what you need done. This will help identify the work you believe most important--and it will help make sure you don't "get talked into" additional jobs. --Get at least three estimates on any job. Be sure the estimates are comparable, that each contains what will be done, and that each says exactly how much the entire job will cost. --Before deciding on a contractor, check out the firm's reputation. Check that the company has a permanent place of business in the community--and intinerant contractor will not be around later to handle complaints.

Lakeview News

(By Penny Golightly)

Brenda Watson and I were discussing families and family reunions recently and I told her we had a family paper that comes out once a month. It's called "McNabb Gabs." Members of the family give donations and send in news of things that has been going on in their immediate family. It is then typed and photographed. This past year each of the thirteen children from my great grandparents, Mr. & Mrs. Walter McNabb have been sending in their family biography. Out of these thirteen children my grandmother, Mrs. W.J. Weeks was the oldest, so our family biography is last. It will come out in June.

“Shiokari Pass” Film At Floydada Methodist Church

SHIOKARI PASS, a new film from the producers of THE HIDING PLACE, will be shown at Floydada First United Methodist Church, 203 W. Kentucky on June 5, 1977, Sunday evening. The one hour color release from World Wide Pictures will be shown once beginning at 7:00 pm.

SHIOKARI PASS is unique among World Wide Pictures productions. Although it has an English soundtrack, it was originally produced for showing to Japanese audiences. It was filmed entirely in Japan with a Japanese cast and crew, and depicts the delicate beauty of that country. The drama of the story unfolds against a backdrop of Japan's spring blossoms, snow-capped mountains, and whispering

native music. A true story, SHIOKARI PASS is based on the international best seller by Ayako Miura. Nearly two million readers have been touched by this story of the abiding love of a young couple at the turn of the century.

Credited with creating a deeper understanding of the Christian faith among the Japanese people, the film tells of the love of Nubuo for Fujiko, and of his willingness to be guided by his personal faith, no matter how great the cost of commitment.

From its gentle opening to its gripping, unexpected conclusion, SHIOKARI PASS is a profound demonstration of the power of love in one life.

The Reverend James W. Smith, pastor of First Unit-

ed Methodist Church, extends an invitation to each member of the community to

attend this special showing and added, “SHIOKARI PASS is the kind of film that

will be enjoyed and remembered by the entire family.” There will be no admission charge for the film program.

Loans Available to Meet EPA Clean Water Standards

AUSTIN—Texas farmers may now take advantage of a new federal loan program to help comply with clean water requirements in their operations.

“We are very pleased to see that this loan program, which has been available to small businessmen since 1974, has now been extended to include farmers,” according to

Agriculture Commissioner John C. White.

The loan program, which went into effect in January 1977, is designed primarily to provide monetary assistance to farmers who are working to control erosion and the run-off of chemicals from fields.

The program is a cooperative effort between the Environmental

Protection Agency (EPA) and the Small Business Administration (SBA).

Specifically, the program is designed to aid owners or operators of small farms who

often do not have adequate resources to combat water pollution problems. Loans will not be considered for operations with gross sales of more than \$275,000 annually.

Under the program, loans will be made by the SBA following certification from EPA's regional offices

PSYCHOLOGY
MANY PSYCHOLOGISTS SAY THAT A CAR HAS SYMBOLIC VALUE TO TEENAGERS. AS AN EMBLEM OF ADULTHOOD IT REPRESENTS FREEDOM AND EXCITEMENT. BUT IT CAN BE DANGEROUS IN IMMATURE HANDS. THAT'S WHY PARENTS WHO WANT THEIR TEENAGERS TO BECOME RESPONSIBLE DRIVERS SHOULD SET CLEAR LIMITS AND INSIST THEY TAKE A DRIVER EDUCATION COURSE AT SCHOOL!

Wayne Coleman and his sister, Mrs. Preston Greenhaw left last Thursday to spend the Memorial Day weekend in El Dorado, Arkansas. They stopped at Howe, Texas and visited their uncle, Leslie Coleman.

Mrs. Ada Stewart, accompanied by her brother and his wife, the Joe Posters, attended the 50th reunion of her high school graduation class, year 1927, in Lubbock on Saturday. Attending a luncheon at the Hilton Inn were about 75 members of the original class of 172, approximately 50 relatives, the school principal and 8 teachers. While Mrs. Stewart was attending Lubbock High School, her brother, Joe, was attending Texas Tech, and he saw many people he had known while in college.

Among those from Lockney fishing at Hubbard Creek near Breckenridge this past weekend were: Bill and Mary Ruth Fewell and their grandson, Jim Ansley, Fred and Billie Huggins, Alton and Flo Barnes, the Richard Ellisons, the Paul Recceers, Dan and Nina Teuton and their daughter, Rhea and Rick Offut of Lubbock, Jerry, Terry and Rosemary Ulmer, and Lee Carthel.

Mr. and Mrs. Embre Douglas had as guests on Sunday, Mr. and Mrs. Kenneth Garrett from Leonard, Tx.; Mr. and Mrs. Buck Fowler, Mrs. Donna Bryan and children, Rex and Chuck, and Mr. Allen Fowler, all from Happy. Other guests were Mr. and Mrs. Johnnie Belt, Kevin and Latona Gay; Mr. and Mrs. Lanny Barnett, all of Lockney.

Monday visitors in the Douglas home were Mrs. Glydel Burke, Vickie and Ricky; Mr. and Mrs. Charles Burke, all from Pampa; and Mrs. Bertha Rolling from Lockney.

Mrs. Jewel Roberts had as guests this past weekend, her daughter, Judy and Ben Merrill, and Lisa, from Denison. Another daughter, Jill and Ronny Rogers, and Brandy, from Amarillo, arrived on Sunday and stayed until Monday.

Mrs. Olive Myers spent last week in Lubbock visiting her brother, the Sidney Mudgetts, and in Shallowater visiting her son, the Jimmy Myers. She attended her granddaughter's (Kim Myers) graduation from Shallowater High School Friday night. Also visiting with Jimmy and Earnestine was her mother, Mrs. Alvis Nichols from Celeste, Tx. The Jimmy Myers and Mrs. Nichols accompanied Mrs. Olive Myers home this past weekend and were her guests.

Mr. and Mrs. Mike Moneoy had as guests this past weekend, his daughter and her husband, Debbie and Dave Goodrich from Stamford, Tx.

Rick Strange Selected For Math Program

ABILENE, TX...Rick G. Strange, son of Mrs. R.L. Crawford, of 101 J.B. Avenue has been selected to attend the Summer Program in Mathematics at Hardin-Simmons University in Abilene. Rick is a student at Floydada High School. The program is sponsored by the National Science Foundation and is six weeks in duration, June 5 to July 15.

The twenty-six participants were selected on a competitive basis in which primary consideration was given to the student's interest and ability in mathematics. Participants will come from seven states. All will be seniors in high school this fall.

Successful completion of the summer program will amount to eight semester hours of college-level mathematics and is intended to acquaint students with fundamentals of creative mathematics in a setting of independent mathematical discovery. During the summer course, students will be practicing mathematicians, studying both theoretical and applied aspects of mathematics.

Fewer than five thousand students nationwide will be

selected for participation in such projects this summer conducted at about one hundred forty sites about the country.

Dr. Charles Robinson, chairman of Hardin-Simmons' Division of

Science, is director of the program.

RABIES
Rabies is an acute infectious encephalomyelitis which can occur in all warm-blooded animals including man, and is caused by neurotropic virus (attacks nerve tissue). The virus is found in saliva, salivary glands and central nervous system of infected animals. Bats are the only symptomless carriers of the disease.

SYMPTOMS OF RABIES
1. Incubation period is 21-60 days in dogs, but has a range of 10-205 days; Most develop symptoms in 21-35 days. In man, the onset of symptoms is 11 days to 11 months.

2. There are three forms of the disease:
a. Furious
b. Dumb
c. Atypical
Symptoms in small animals

FURIOUS
1. Change in disposition-wants to be by himself in dark places.
2. Has desire to wander, about 2 days after symptoms start, and bites everything in its path. Dog will return home if possible after a time.
3. Mentally deranged.
4. Will eat indigestible objects such as rocks, sticks, etc.

5. Eyes mat.
6. Change in voice.
7. Paralysis of lower jaw.
8. Paralysis of muscles used to swallow.
9. Progressive paralysis and death occurs 4-7 days after onset of symptoms.

DUMB
1. No particular viciousness.
2. Usually has a shorter course.
3. No tendency to roam-usually hides in a dark corner.
4. Stupid look due to paralysis of lower jaw.
5. Paralysis spreads to other portions of the body.
Symptoms in cattle and horses:

In cattle the furious form is most common with the animal attacking other animals and humans. Instead of the usual peaceful look on their face, their expression is one of alertness, the eyes and ears following sounds and movements. Cattle usually begin to bellow as symptoms progress; the character of the bellowing is different from normal and may continue intermittently until approaching death.

Probably the so-called dumb form is the one to which people are exposed most often. The animal is not that vicious; one of the symptoms is as if the animal is choked or has something wedged in its mouth. In attempting to relieve the choke, a person comes in contact with infected saliva. Horses may show symptoms of colic by rolling. These animals usually are very aggressive, biting and kicking viciously. They frequently suffer self-inflicted wounds.

The virus of rabies may be found in saliva a few days before symptoms begin; this is the reason for the 10 day observation period.

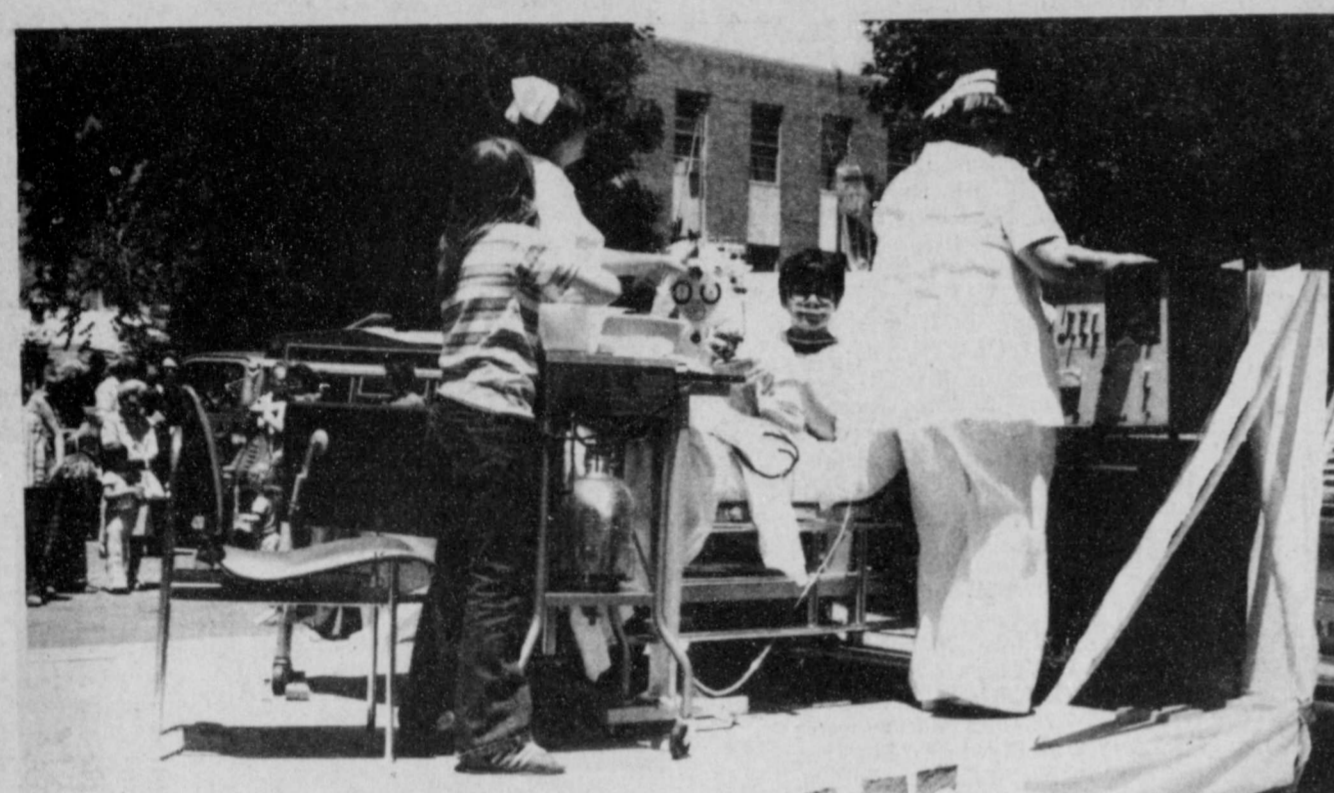

WHAT TO DO IF AN ANIMAL BITES A PERSON OR THEY BECOME EXPOSED TO INFECTED SALIVA BY ANY MEANS.

1. Catch animal immediately-keep for 10 days.
2. Wash bite very well with soap and water.
3. Contact doctor immediately.

4. Bites over exposed areas are more severe than if bitten through clothing, because clothing will absorb some of the saliva.

RABIES CONTROL PROGRAM

1. Vaccination of all dogs every year.
2. If having a rabies epidemic, keep dogs in fenced yard; if taken from the yard, must be on a leash and muzzled.
3. All ownerless dogs should be impounded and destroyed.
4. License must be purchased for all dogs.
5. Fine should be imposed on people who do not have dogs vaccinated.
6. Education of public via radio, TV, etc.

If a person is bitten by an animal and for any reason rabies is suspected, the animal should be taken to a veterinarian and observed for 10 days. This way positive diagnosis of the disease can be made. If the animal is normal at the end of 10 day observation period, the person who was bitten will not have been exposed to rabies.

When handling a suspected animal, always wear gloves to prevent possible exposure from saliva. All suspected cases should be submitted to your local veterinarian as soon as possible. If it is not practical to submit the head to the veterinarian immediately, wear gloves and cut the animal's head off (if animal is too large to refrigerate whole).
2. Place the head in one or two plastic bags and seal.
3. Refrigerate the head (do not freeze) since warm temperature causes rapid deterioration of the brain

and makes positive diagnosis much more difficult.

4. As soon as practical, submit the head to your local veterinarian, who will assist you in the proper method of submitting it to a diagnostic laboratory.

Animals exposed to rabies is about 99.9% fatal once symptoms start; therefore, prophylactic treatment of an animal which has been exposed to rabies and not previously vaccinated could be very dangerous to the owner in the event that prophylactic treatment did not prevent the infection. Therefore, the safest precaution generally would be to destroy the exposed animal unless it had been previously immunized against the disease.

Rabies occur year-round but the incidence is greater

in the warm months because more animals are moving around.

Do yourself and your pets a favor and get them vaccinated against rabies.

There have been four cases of rabies reported in the Panhandle area this year. In each instance the rabid animal was a skunk and they were observed fighting with family dogs.

The first workmen's compensation insurance law to go into effect was passed by Wisconsin on May 3, 1911!

We will open on Saturday's
and close on Sunday's.
This will give us a chance

Cattlemen To Register For Beef Referendum

The U. S. Department of Agriculture has announced

June 6 as the beginning of a two-week registration period for Beef Research and Information Order referendum and issued rules for the referendum.

Anyone who was a cattle producer during 1976 can register to vote, either in person or by mail, at local ASCS offices between June 6 and June 17.

A list of those registered will be posted daily at ASCS offices and final listing will be posted five days after registration closes.

Those registered can vote between July 5 and July 15 at their ASCS office. For approval of the Beef Research and Information Order, at least

50 percent of those registered must vote, and two-thirds of them must favor it.

The Order that producers will consider in the upcoming referendum would authorize a research and information program administered by a Beef Board of up to 68 producers. Board members would be appointed by the Secretary of Agriculture from nominations submitted by producer organizations. Each state of geographic area would be represented in proportion to its cattle production.

The Beef Board could initiate a broad spectrum of projects to improve beef production, distribution and marketing. Such a program could include consumer education and information, and research.

During the first three years of operation, the Board could collect assessments of up to three-tenths of one percent of the value of all cattle sold. After that, the rate of assessment could be changed but could not exceed five-tenths of one percent — the maximum amount permitted under the Beef Research and Information Act. Producers not wishing to participate in the program could have their assessment refunded.
