Stadium Renovation Okayed

Aluminum Seats By Football Season

WHAT AM I DOING HERE? could be the thought of this Little Rustlers Rodeo rider Saturday night. (Photo by Hugh Daniel)

Lockney football fans will be sitting on new aluminum seats next fall as a result of action taken Monday night by Lockney Independent School District's board of trustees. The school board voted to accept a bid for renovation of the home-side bleachers and construction of a new pressbox. The bid, submitted by Southern Bleacher Construction Company, was for \$35,623.00. The job is to be completed by the beginning of football season next fall.

Acceptance of the bid came after a one-and-a-half-hour discussion in which the trustees explored several alternatives to the base bid, including deletion of the new pressbox and the use of wood for footboards.

The bid as accepted calls for removal of existing lumber on the home (west-side) bleachers; installation of all-aluminum decking on the existing steel framework; construction of a four-foot chain-link fence on the ends and back of the stands; building a 6 x 25-foot pressbox with a five-foot landing and three-foot walkway behind; steel supports for the pressbox; restructuring (and concrete resurfacing) of two existing end ramps; removal of the two front ramps and replacing with a single center entrance portal from the back side of the stands.

Rejected were more expensive alternatives for wider "contour" seats in the center (reserved-seat) section and for a film booth atop the pressbox.

EQUALIZATION BOARD APPOINTED

Ewald Quebe, Lester Carter and C.L. Mooney were appointed members of the LISD tax equalization board upon recommendation by tax assessor collector Jack Samford. The equalization board's organizational meeting will be June 21.

AIDE HIRED

Alicia Gregory was hired as a Title I aide, subject to funding. Mrs. Gregory's name had been inadvertently omitted from a list of personnel hired last month.

FNB SCHOOL DEPOSITORY

Lockney First National Bank was named official LISD school depository for another two-year period starting September 1, 1977.

REQUESTS FROM COMMUNITY

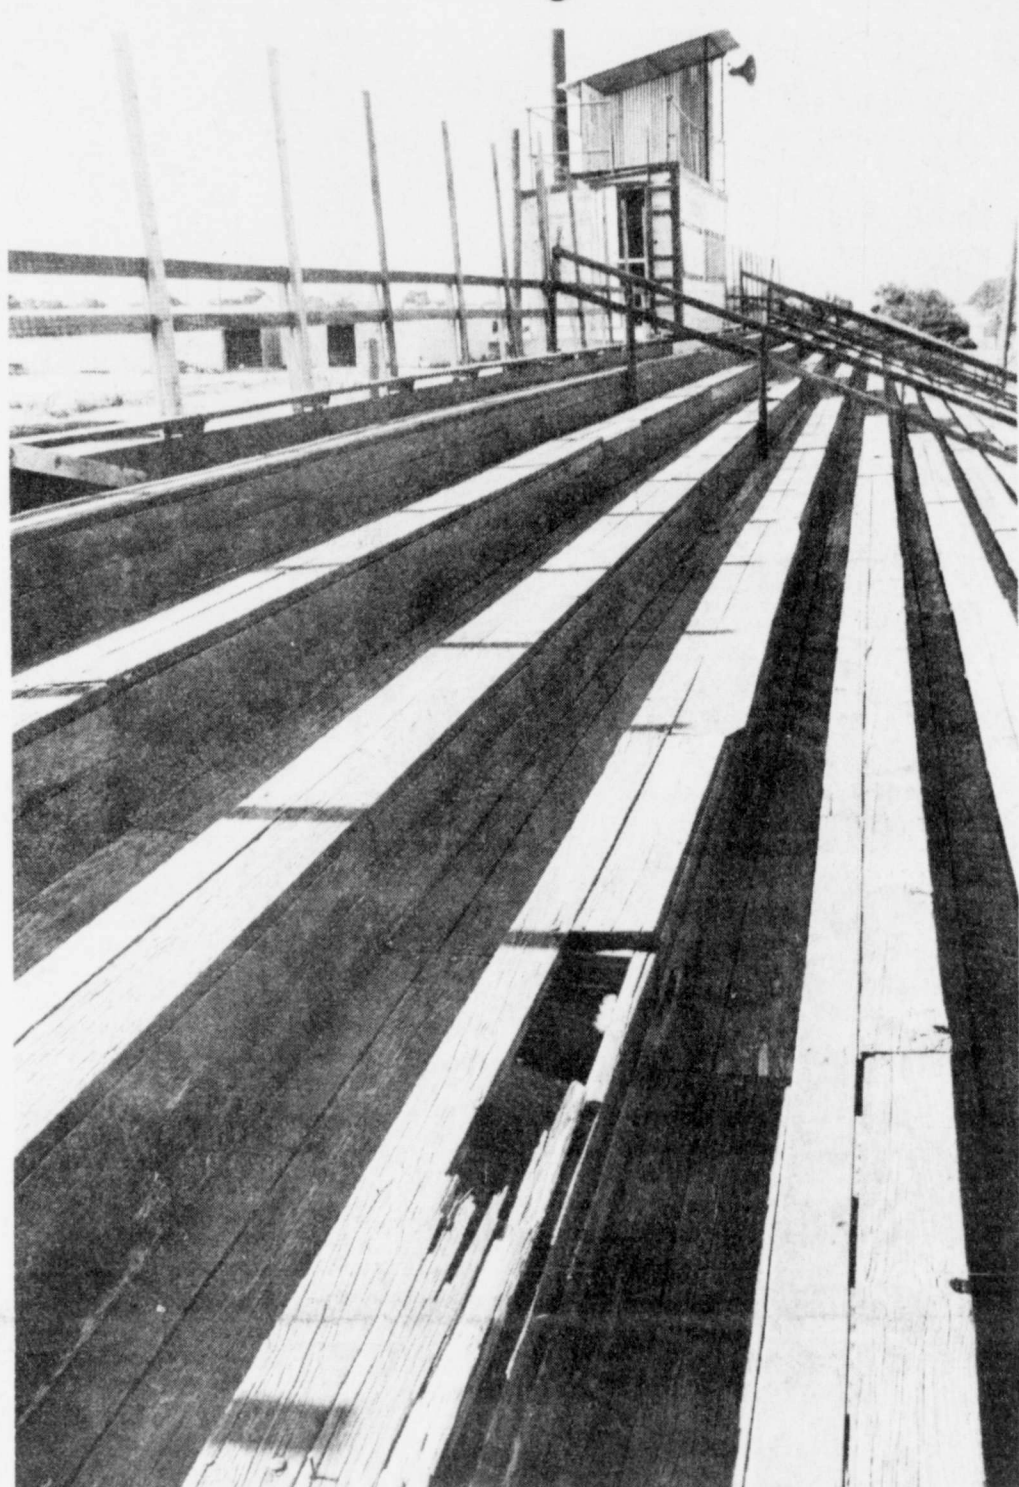

Trustees granted permission for 4-H Club members to take three school buses to Palo Duro Canyon on June 30. The 4-H Club is to pay standard rate for use of the buses.

The board also okayed a request by Herman Thornton to rent 16 school-owned folding tables.

FRY RESIGNS

The school board accepted the resignation of high school math teacher/tennis coach Louis Fry and voted to include Fry's final two months' (July and August) pay with his June paycheck. Fry taught in Lockney schools for 16 years. In addition to coaching the Longhorn tennis team, he was girls' basketball coach for several years.

Present at the Monday-night meeting were trustees Tom Duvall, Austh Beedy, Jerry Williams, Eugene Tanna hill, Kelton Shaw, Kenneth Broseh and Eddie Foster; secondary principal W.H. Hallmark and R.L. Knox; athletic director Jim Warren; Peck, Samford and Southern Bleacher representative Glenn McNatt.

IT COULD USE IT. The home side wooden bleachers at Mitchell-Zimmerman Field will be replaced with all-aluminum seating by the start of the 1977 football season. Lockney school district trustees accepted the stadium-renovation bid at the board meeting Monday night. (Staff Photo)

'A Hard Way To Get Moisture!'

Rain Storm Blasts Floyd

BY WENDELL TOOLEY

The cotton, corn, grain sorghum and all vegetable crops needed rain...many farmers had started irrigation wells. Then at the end of a long hot day Monday the rains came. They not only came, they were carried on winds of 60 to 70 mph that did considerable damage when the clouds finally moved on south.

The rain storm barreled out of the northeast bringing up to four inches of rainfall in some areas.

Some young cotton was completely washed away, some hail damage hurt other crops, some corn crops were levelled, and with wheat harvest about half over, some of it was damaged.

Most of the damage in the Lockney area came from the wind and rain—only small hail was reported anywhere near Lockney.

Rainfall totals in and around Lockney were from two to three inches—although all rainfall reports took into account the opinion that "the wind was

blowing so hard that all the rain probably didn't get in the gauge."

John Holmes, 417 W. Spruce, reported 2 5/8 inches of rain, and the Carter Gin gauge showed an even three inches.

Lighthouse Electric crews were busy through the night Monday and also Tuesday replacing some 32 poles snapped by high winds Monday night. Nine to ten poles were broken between Silvertown and South Plains, several in the Harmony and McCoy area, as well as near Crosbyton. Southwestern Public had three poles snapped in the Barwise area where three and a half inches of rain fell but no hail. A spokesman at Barwise Elevator said tree limbs in that area were snapped off, corn laid over and some cotton burnt.

One mile south of Sandhill two and a half inches of rain were received and no hail.

The Mitchells (about five miles west of Mune) received a lot of small hail and 2 to 2.75 inches of rain.

From McCoy to the Allmon Community farmers in that area were pretty well wiped out according to a spokesman at McCoy Grain.

Most farmers agree that the high winds carrying heavy dust did most of the damage to the cotton and feed, and the hard driving rain which followed

didn't help.

Of course the moisture is needed and appreciated, many lakes caught water which will be pumped on the row crop later this month. If hailed out the farmer may be able to get disaster payments, he may replant soybeans or possibly sunflowers.

4-H'sers State Champs

College Station-Floyd County's 4-H Poultry Demonstration Team was named the 1977 State Champs here June 8. This show and tell contest is a part of the giant 4-H Roundup held on the campus of Texas A&M University each year.

Team members were Darlene Broseh and Sharon Jones of Lockney. These champs scored 273.6 points of a possible 300.

Some 13 teams participated in this year's contest representing Texas communities from the northernmost tip of the Panhandle to the Gulf of Mexico and from the Piney Woods to the territory west of the Pecos.

McLennan County was a close second racking up 263.7 points. In third place was Upton County with 256.4 points.

The 4-H Poultry Demonstration Contest is cosponsored by the Texas Poultry Federation, Austin, and the Texas Agricultural Extension Service. An all-expense paid trip to the Junior Fact Finding Conference in Kansas City, Missouri, is awarded to the winning team by the TPF.

Gold, silver and bronze award medals were presented to members of the first, second and third place teams,

respectively. Each coach received a beautiful recognition certificate.

Extension Poultry Specialist William O. Cawley served as Superintendent of the 1977 Poultry Demonstration Contest. Judges were Mr. Monroe Fuchs and Drs. R.C. Fanguy and F.A. Golan.

Floyd County can be proud of these girls for their hard work and devotion to win at county, district, and state level.

Also competing at State Round-up from Floyd County was a rifle team consisting of Pat Miller, Kenny Willis, Mike Allen, and Kathryn Moore. Out of 48 teams the Floyd County rifle team placed 8th, scoring 753 out of a possible 900, in a very competitive contest. Pat Miller fired a score of 277, out of a possible 300, to place 4th high individual of the contest.

Clay Hamilton competed in the public speaking contest.

Others attending from Floyd County included: Mr. and Mrs. Kenneth Broseh, Mr. and Mrs. Austin Beedy and their daughter Tracy, all of Lockney; Mr. and Mrs. Harvey Allen, Kenneth Willis, and County Extension Agents Sharon Hillis and Mike Brown, all of Floydada.

4-H POULTRY EXPERTS—This Floyd County 4-H team placed first in the Poultry Demonstration at the 1977 State 4-H Roundup at Texas A&M University, June 7-8. They are Sharon Jones, daughter of Mr. and Mrs. A.L. Carlton, Jr., and Darlene Broseh, daughter of Mr. and Mrs. Kenneth Broseh, both of Lockney. Their demonstration was titled "Cents Sense." They were among more than 1,600 4-H youngsters from Texas competing in the 36 different events.

A CRATER? No, the hole in the ground in the yard of Frank Sanchez, who lives on NE 7th Street, is where a cellar caved in during the storm Monday night. The Sanchez family nearly decided to seek shelter in the earth-covered cellar but felt lucky that they didn't when they discovered the cave-in Tuesday morning. Inspecting the damage are Patsy, Maria, Connie and young Frank Sanchez. (Staff Photo).

Clean-Up Friday

The annual "clean-up day" for the city of Lockney will be Friday, June 17. Lockneyites are asked to place extra trash in alleys for pick-up on that day. Grass and leaves should be bagged, and tree limbs and other large trash should

be placed by trash barrels.

The city has arranged for equipment to pull trees and haul off old automobiles on that day. Call city hall (652-2355) before Friday to arrange for these services.

Ice Cream Supper Set June 24

The Floyd Philosopher Gets Parables And Poetry All Mixed Up In Explaining Cost Of Bread

Editor's note: the Floyd Philosopher on his Johnson grass farm, of all people, quotes poetry this week. It's possibly the heat.

Dear editor: According to the U.S. Department of Agriculture the average loaf of bread now contains less than 3 cents worth of wheat, 2.7 cents worth, to be exact.

Just because I don't grow any wheat is no reason why I can't discuss this matter, any more than a Congressman who adds on his fingers can't discuss intercontinental ballistic missiles.

It seems to me therefore that the ancient saying, "Cast your bread upon the water and it will return a hundred-fold," could have a modern version; "Cast your wheat upon the market and some smart guys will take 2.7 cents worth of it and make a 60 cent loaf of bread out of it."

This is like taking 40 cents worth of cotton and making a \$10 shirt out of it. It's like taking \$200 worth of steel and making a \$5,000 automobile. It's like taking a \$100 state legislator and making a \$57,000 Congressman out of him. It's like taking an ex-Secretary of State and making a multi-millionaire out of him.

People blame all this on the middle-man. As I understand it, in the case of wheat, the middle-men are those people between the wheat grower on his farm and the housewife in the grocery store buying a loaf of bread, and it takes some shrewd people to be able to squeeze from the middle and come out on the top only. You can't do it with an orange.

I guess the only answer to this is to buy your own wheat, grind it up, and make your own bread. You're going to run into trouble though when you try to make that plastic stuff to wrap it in.

Times have changed. Nowadays, if you cast your bread upon the water it's likely to hit an oil slick. These are the days when it's more profitable to repair appliances than own them.

As the poet said, "A jug of wine, a loaf of bread and thou singing beside me in the wilderness, ah, that were paradise enough, so long as farmers will keep on raising wheat at below cost." You can't beat poetry for getting at the truth.

Yours faithfully,
J.A.

Senator Farabee Asks Governor For Tax Relief

Senator Ray Farabee called on Governor Dolph Briscoe to include provisions for tax reform in the called session of the Legislature which is expected for July. He stated that tax reform should occur to reduce the property tax for financing public school education, utility tax for consumers of small amounts of energy, increase inheritance tax exemption, and allow for taxation of agricultural land on the basis of its productivity.

Senator Farabee said, "We were fortunate to have a surplus during the past year and I feel that some of this money should be returned to the people in the form of tax relief, specifically in the areas of property tax, inheritance tax and utility taxes. The inheritance tax laws have not been revised for many years. Also, inflation and high utility costs are taking a heavy toll on the taxpayers, especially those who must live on fixed incomes."

Although the Senate passed a measure providing for an expanded Constitutional amendment allowing agricultural land to be taxed on its productive value rather than on its market value, it failed to pass both houses of the Legislature. The mandatory 140 day session adjourned before the House could concur with Senate amendments to inheritance

and utility tax relief plans.

In reference to tax reform in his letter to the Governor, Senator Farabee stated, "Because of the uncertainties of agricultural production and prices, the present system is inequitable to farmers and ranchers. I share your goal of making Texas 'Number 1' in agricultural production, and it is my feeling that the legislation mentioned above would provide a needed incentive to Texas' agricultural producers."

The Governor is expected to call the special session because the Legislature was unable to agree on a public school finance bill before the end of the regular session. During a special session, the Legislature may consider only those issues which the Governor expressly authorizes.

South Plains News

By Mrs. Murray Julian

Mosquitos and flies have been making life miserable for animals and humans alike this past week in the South Plains area. We wish for a spraying service in the community.

Wheat harvest is at its peak here in South Plains, and a few farms are already through with wheat cutting. Some of the wheat had received a good bit of hail, especially the Cedar Hill farms, and those southeast of South Plains.

Mrs. Fred Marble and others of the Marble family have been carrying meals to the fields this week while the men are cutting wheat. Most of the farmers have machines from others points that are harvesting the crops.

Good attendance was noted at the South Plains Baptist Church Sunday morning. Visitors present were John, Melissa and Nikki Powell, Magdaline Solas, Mrs. Jerry Chappell from Duncan, Oklahoma, and Mrs. Madaline Clark of Plainview with her son Mr. and Mrs. Oliver Clark and daughter.

The G.A. Camp is being held this week at the Baptist Encampment, and girls and counselors from the South Plains Baptist Church left Monday morning for the camp. There will be meetings, games, and missionary studies, besides preaching. The girls will be there until Wednesday evening, G.A. Girls attending are Mitzi Julian, Cindy Mulder, Terry Bailey and Penny Mulder. Mrs. Nathan Mulder (Kathy) and Mrs. Kendis Julian (Janis) are counselors.

Mr. and Mrs. Jerry Chappell of Duncan, Oklahoma, arrived here Thursday evening and spent the weekend with their parents. Jerry helping his father, E.O. Chappell of Floydada, with the wheat harvest, and Darla spending some of the time here with her parents, Mr. and Mrs. Grigsby Milton, Jr.

Mr. and Mrs. Jerry Taylor and children of Amarillo were here visiting her parents, Mr. and Mrs. Arby Mulder Monday night and Tuesday. The granddaughters, Rhonda and Candy, had spent the weekend here with her grandparents, and attended church with them.

Rev. and Mrs. Fred Blake made a trip to Bronte, Thursday where they visited at the nursing home with his aged mother, Mrs. D.E. Blake. They found her doing as well as possible.

Mr. and Mrs. Frank McClure went to Old Glory Saturday afternoon to attend the funeral of her nephew, James Russell Newman Jr. who died at Monahans after a long illness. He was the son of Mrs. McClure's oldest brother, Jimmy Newman, deceased.

Mr. and Mrs. E.T. Evans of Amarillo, daughter of Mr. and Mrs. George Weast, left last Monday for an extended tour of Europe, and will be gone for several weeks. Mrs. Weast, who is in the Heritage Home in Plainview, is doing very well at this time.

BREAKFAST AT MAMIE'S

Members of the Hobby Club of South Plains met at the home of Mrs. L.T. Wood Wednesday morning, June 8, at 8 o'clock for "Breakfast at Mamie's," an affair which has become annual. All meet at the garden of the home, and enjoy games and breakfast together. Hostesses with Mrs. Wood this year were Mmes. Nita Marble, Ruby Higginbotham, Doris Powell and Dorothy Cummings. Mrs. Kinnibrugh was unable to be there as she had just become a new grandmother, and was with her daughter in Plainview. Mrs. Fred Blake gave the invocation and greeting at the breakfast and guests gathered at tables on the lawn and back yard area for a delicious breakfast of scrambled eggs and sausage, chili and scrambled egg casserole, hot biscuits, jams, jellies, hot cinnamon rolls, little pigs in blanket, and coffee. 60 degree weather made a perfect setting for the get together, and after the breakfast, the guests gathered in a large circle, where they enjoyed games, answered roll call, shared interesting places where they had traveled, and told where they came from before coming to Texas. Mrs. R.G. Dunlap had traveled more extensively than any, but Mrs. Gertrude Smitherman had been to the Holy Land, and Mrs. Murray Julian had traveled over most of the

United States, Mexico, Alaska and Canada.

Those present were hostesses, Mmes. L.T. Wood, Keith Marble, Ruby Higginbotham, Tillman Powell, Kendall Cummings and guests, Mmes. J.P. Taylor, Fred Marble, Fred Blake, Sterling Cummings, Alvin Nichols, Leighton Teeple, Early Pritchett, Murray Julian, Noel Deavenport, Herman Thornton, Harold Hamm, Jack McCown from Lake Whitney, Fred Howard from Plainview, Mildred Wells from Lockney and from Floydada, Mmes. Bill Beedy, Gertrude Smitherman, Alice Henry, R.G. Dunlap, John Key West and Mrs. Johnny Dunlap.

Mr. and Mrs. Kelvin Cummings returned home Monday after a business trip by plane to Orlando, Florida, and in that area. They also visited at Cape Canaveral.

Rev. and Mrs. Jeff Messer have moved to Quail, where Rev. Messer will be the minister at Quail Baptist Church. Mrs. Messer is the granddaughter of Mr. and Mrs. Frank McClure of this community.

Congratulations to Mr. and Mrs. Henry Dickens of Plainview and to the grandparents here, Mr. and Mrs. Sylvin Kinnibrugh, on the birth of their first baby, a son, born Tuesday morning June 7th, at 10:00 at the Central Plains Hospital in Plainview. The baby is the first grandson for Mr. and Mrs. Kinnibrugh as well. The mother is the former Beth Kinnibrugh. The baby weighed 6 pounds 13 ounces, and was named Henry Latham IV.

We congratulate Loran Wilson of Crosbyton as he was named valedictorian of his senior class and has earned several other awards. Loran is the son of Mr. and Mrs. Johnnie Wilson of Crosbyton, and the grandson of Mr. and Mrs. John Wilson of South Plains.

Mr. and Mrs. Lupe Lune of South Plains have announced the marriage of their daughter, Rosie Luna, to Roy Creek, of Amarillo. The nuptial mass was said Saturday afternoon June 4, at Guadalupe Catholic Church in Amarillo. The young couple will make their home in Amarillo.

Mr. and Mrs. Arby Mulder went to Amarillo early Sunday morning to attend the Holland family reunion, which was held in Thompson Park. This reunion is Mrs. Mulder's mother's family. There was beautiful weather for the event, and families came from Pampa, Fritz, Littlefield, Clarendon, Dallas, South Plains, and some from as far as California. 78 were in attendance. All carried dinner baskets laden with good things for the picnic meals.

Mrs. Sylvin Kinnibrugh left Saturday to go to Plainview where she will be staying until this Tuesday or Wednesday with her daughter, Mrs. Hank Dickens and baby son, Henry Latham IV who came home from the Central Plains Hospital Saturday afternoon. Sylvin was there Saturday night and Sunday with the family.

Mrs. Marjyn Wells of Denton, who has been staying here with her mother, Mrs. Lillian Marble, while she was in the hospital in Lubbock, and since she came home, left for her home Saturday. Mrs. Marble's sister-in-law, Mrs. Fed Johnson of Amarillo, came Saturday to spend some time here with Mrs. Marble while she is convalescing. Mrs. Marble is getting along just fine.

A new cooling unit has been put in the Fellowship Hall of the South Plains Baptist Church, and they are enjoying the comfortable coolness in the class rooms at the church.

John, Melissa and Nikki Powell, children of the Warren Powell family are here visiting for two weeks in the home of Mr. and Mrs. Tillman Powell, and they were all visitors at church for both services Sunday with the Tillman Powell family.

WHAT IS 4-H? 4-H means different things to different people, says a 4-H and youth specialist with the Texas Agricultural Extension Service. 4-H provides youngsters between the ages of 9 and 19 an opportunity to associate with other youth and to engage in valuable learning experiences. It also provides youth plenty of opportunity for fun and for working together for their community.

Peggy's Meddlin's
BY PEGGY MEDLEY

BACK from a weeks vacation in the mountains and I find myself wishing for the cool weather we encountered along the way. The wild iris were blooming in abundance in the Tres Ritos area, streams were running full, our appetites increased and I guess that's one of the best reasons for getting back home, so I can work on that! We were in a mini blizzard atop Rocky Mountain Trail Ridge several miles from Denver, Colo. Hopefully I can prove that when my pictures return. Its always nice to vacation but each time we come home prouder than ever we live in Floydada. Even with this heat and after Monday night's storm!

IT won't be long before speed signs will be converted to the metric system. Just think you can go 88.5 K.P.H. then. By the way that's equal to 55 MPH. As of now there is no plan to print both the metric and British figures on the same signs.

Under the plan, the conversion of all speed limit signs will be completed by September 30, 1978, and milepost and guide signs designating distances between cities will be up by the same date in 1982. New vehicles already have the metric speedometers and odometers and those with older cars will simply convert theirs with a past-on layover label we're told.

NOT all brides float gracefully down the aisle! Catherine de Medici, for example, had a weakness for pearls that caused her a ton of trouble on her wedding day. She wore six ropes of "great pearls" and a pair of pearl earrings which were the biggest in the world at that time. This wasn't too bad but add a pearl crown, and Catherine was so completely weighed down the procession had to stop frequently on her way to the altar so that she could remove her jewelry and rest for a while. Of course they had long church aisles back then too.

NEWS 'N' NOTES

(by Sharon Hillis)

APPLIANCE INSTALLATION COSTS
A consumer "check-out" on appliance installation costs—or non-costs—can add more realism to buying decisions.

Following is an appliance installation checklist:

COOKING APPLIANCES
Gas range—"piped" natural gas or LP delivery service plus a gas line to the kitchen. Natural gas installation may be least costly if you already have gas heating or gas water heating.

Electric range—220-volt service from your electric service "box" to the range site. Built-in ovens, counter-top units and "set-in" ranges will also require cabinet work, of course.

Microwave oven—no special installation for portable types.

Portable cooking appliances—normally no special installation.

INDOOR COMFORT APPLIANCES

Room air conditioner—no special wiring needed for small units, but separate 110-volt circuit or 220-volt service will be required for units with "BTU" cooling output higher than 7,000 and "amp" ratings higher than 7.5.

Humidifiers and dehumidifiers—no special wiring requirements. But location of humidifier is important for best performance. A dehumidifier should be placed where excess humidity problem is greatest, such as in basement.

FOOD PRESERVATION APPLIANCES

Refrigerator and freezer—no special wiring requirements. But be sure doors and stairways are wide enough and floors strong enough for larger appliances. Also be sure door can be fully opened.

KITCHEN CLEANUP APPLIANCES

Dishwasher—no special wiring or plumbing required for portable type, but be sure it has a storage place when not in use. Built-in units require special wiring and plumbing. This work should be done professionally.

Disposer—special wiring and plumbing are required. Compactor—portable type requires no special installation. Wiring and cabinet work probably will be needed for built-in models.

HOME LAUNDRY APPLIANCES

Washer—requires no special wiring but a separate 15-amp circuit is desirable and hot and cold water and drain facilities are essential. Electric dryer—all but smallest types will need 220-volt electric service.

Gas dryer—natural or LP service required to the home and to the dryer site.

Beef Referendum Registration Poor

Deadline is tomorrow for registration in the first national beef referendum and signups have been slow at the county ASCS office. Only 30 had registered at press time Wednesday.

Only 30 had registered over in Hale county earlier this week.

Voting will be July 5 through 15, also at the ASCS office.

Any person who owned cattle during 1976 is eligible to register and vote, including 4-H and FFA students who may have owned only one or two head.

Each producing entity—whether an individual, a family, partnership or corporation—is entitled to one vote, but they must register first.

If approved, a 68-member Beef Board will administer the \$30 to \$40 million raised each year through the check-off with members of the board nominated by existing producer organizations in each state.

A toll-free number has been set up by the taskforce for Texas producers with questions concerning the referendum, 1-800-682-4106.

V A NEWS

Texas veterans may be eligible to attend State supported universities and junior colleges without having to pay tuition or fees, according to D. G. Ayres, Veterans Service Officer for Floyd County.

This benefit is available when a wartime veteran has used up his Federal "GI Bill" entitlement or the time limit for the use of the benefit, has expired. The Assistance is provided by a State law, the Hazlewood Act, which has been incorporated into Chapter 54 of the Texas Education Code.

The exemption is available to veterans of the Spanish-American War, World War I, World War II, the Korean Conflict, the Post-Korean Period and the Vietnam Era. In addition to wartime service, the veteran must have been a legal resident of Texas at the time he entered military service.

This benefit is also available to the children of Texas servicemen who died in military service, and to the children of Texas military personnel who are missing in action or prisoners of war. The eligibility is also extended to children of Texas National Guardsmen killed since January 1, 1946, while on active duty either in the service of the State of Texas or the United States. Any person claiming this benefit must also be legal resident of Texas at the time application is made for the exemption.

Application should be made directly to the registrar of the college or university the eligible person plans to attend. The registrar will advise the applicant as to the evidence necessary to establish eligibility.

TEXAS SIXTH IN NATION IN POULTRY INDUSTRY--Cash receipts from poultry and eggs in Texas totaled \$375.2 million last year, up \$32 million from 1975. That was good enough to rank the state sixth in the U.S. poultry industry, says a poultry marketing specialist with the Texas Agricultural Ex-

tenions Service. Texas receipts accounted for 5.33 percent of the national total of more than \$7 billion in 1976. On a commodity basis, Texas was sixth in turkey production, ninth in egg production and seventh in broiler production. Per capita egg consumption continued to decline last year while broiler and turkey consumption was up, the largest on record.

New Price Record is Set By Last Year's Peach Crop

AUSTIN—Total figures on the 1976 peach crop in Texas show a new price record set, even though production during the year was well below normal levels, Agriculture Commissioner Reagan V. Brown has announced.

Cash value of the crop was \$3.6 million. Total production, according to the Texas Crop and Livestock

Reporting Service, was 438,000 bushels, up from the 333,000 harvest the previous year, but well below a season record of 760,000 bushels in 1958.

Severe hail damage reduced yields in the Hill Country, as well as the Cross-Timbers area. The majority of the commercial crop on the High and Low

Plains was either lost or suffered extreme damage from a March freeze, Brown noted.

Texas is the 11th ranked state in peach production. There were 790,000 peach trees in the state as of January 1, 1977, with 530,000 of the trees in commercial orchards.

Gillespie County leads the state in the number of trees with 126,000, followed by Gaines County, 86,300; Duval, 37,000; Atascosa, 34,000 and Smith with 32,100.

Loan Cut On Low Grade Wheat

WASHINGTON (AP) — Farmers who harvest lower grade wheat this year will get reduced federal loans on their crop, particularly in the eastern states, the Agriculture Department said Tuesday.

On the average, wheat in Kansas and the other major wheat-producing states will qualify for about one cent a bushel less than last year. Loans on wheat in Arkansas, Louisiana and all states east of the Mississippi River will be reduced an average of three cents a bushel.

The adjustments are being reflected in county loan rates for 1977 wheat. The national average loan rate is \$2.25 a bushel, the same as last year, but actual rates vary from county to county, primarily be-

cause of differences in transportation costs.

Officials said that No. 2 and No. 3 grades of wheat will be discounted two and four cents a bushel, respectively, compared with last year "to encourage delivery of higher quality wheat" by farmers. Premiums for higher-protein wheat also are being increased as an incentive.

Under the program, farmers can get loans from USDA on their crops. If the market price later is higher than the loan rate, the common practice is for farmers to pay off the loans and sell their crops on the market.

But if cash prices do not rise much above the loan rate, farmers can let the government take over their crop. In that case, the loan is canceled and USDA owns the commodities.

Officials said that county loan rates will be sent to state offices of the Agricultural Stabilization and Conservation Service. A spokesman said that state offices in states where the 1977 wheat harvest is under way will be able to announce county loan rates at local offices by the end of this week.

All other county wheat loan rates should be available sometime next week, the spokesman said.

Vegetable Crop Income in '76 Hit Hard by Wavering Market

AUSTIN—Cash receipts from vegetable crops in Texas dropped \$25.7 million below those of the previous year, according to the Texas Department of Agriculture.

Agriculture Commissioner Reagan V. Brown explained that while crop production was at an average level, "the market just didn't hold up to the level of 1975." He noted that prices paid in 1975 were "unusually good."

Vegetable cash values in 1976 totaled \$206,871,000. Greatest decline was shown by onions, down \$15 million from the previous year. Also hard hit were carrots, down \$6 million; cantaloups, down \$4 million; tomatoes and sweet potatoes, both down \$2 million and watermelons, down \$1 million.

Significant gains in cash values were shown by the Texas Crop and Livestock Reporting Service for cabbage, up \$6 million; cucumbers, up \$1.5 million and lettuce, up \$1.6 million.

Texas was the fifth leading state in acres harvested in vegetables, with 192,600, preceded by California, Wisconsin, Florida and Minnesota.

Farmers in Texas pay more than \$188 million annually in farm property taxes, according to Agriculture Commissioner Reagan V. Brown.

The first European known to have seen the Pacific Ocean was Antonio d' Abreu, a Portuguese, who in 1511 (two years before Balboa) sailed into it from the other direction, by way of the Indian Ocean.

TRAVEL TIPS AND TRICKS

This year Queen Elizabeth II celebrates the 25th year of her reign, and the people of the British Isles are in a Silver Jubilee mood. A particularly warm welcome awaits visitors from the Commonwealth and cousins from America.

Visitors to London invariably head for the Tower of London, to see the Crown Jewels and absorb 900 years of history. The best times to avoid crowds are first thing in the morning and late in the evening. Just before 10 o'clock you can watch the guards lock up for the night with the Ceremony of the Keys.

Affectionately called Beefeeders by the world, the Tower guards are officially named Yeoman Warders. A companion order of Yeomen of the Guard officiates at royal ceremonies. Today the colorfully uniformed Beefeater has come to symbolize England.

When people speak of Beefeater, throughout the Commonwealth and around the civilized world, they are even more likely to be talking about a certain premium quality London distilled dry gin than about Tower guards. So God save the Queen, in her Silver Jubilee year. And God protect her Beefeeders—every man and bottle.

FASHION FORECASTS

WHAT TO EXPECT
T-Shirt Tips For Cheap Chic

Good quality cotton T's survive endless washing, fit into any lifestyle, move easily from morning to night, and provide an inexpensive way to achieve the look you want.

While tank tops and camisoles are barer than ever this year, classic T's are softer, less structured, and sport loosely rolled up sleeves. At least one of these new tops is going to find its way into your summer wardrobe, so here are some tips from Tric-Trac designer, Phyllis Keitlen:
• Slide it over slim pants, a skirt, or a bikini.
• Wear it loose or rope-belted.
• Accessorize it with a thin gold chain, or a cotton scarf.
• Layer it over a tank top or turtleneck.
• And at bedtime, slip it over bare skin.

As It Looks From Here

Omar Burleson, 17th district, Texas WASHINGTON, D.C.— From the time schools close in May or June until they open again in the latter part of August or September, there is an influx of visitors to Washington. Included are large numbers of young people who come to view firsthand those things they have learned about during the school year. For many, this is their first trip away from home and, no doubt, will be long remembered. It is a fine thing for people to see their Nation's Capital and, especially the Congress in session. It must give a greater appreciation of what the seat of Government is about.

We have just had a group of Future Farmers of America who were here on an annual trip sponsored by the FFA and their schools. In a few days, we will have a large group of 4-H Clubbers and Government-in-Action students who will tour various Government buildings, including visits to the galleries of the House of Representatives and the Senate. This is also an annual occasion, as are a number of other groups of young people chosen from organizations to come to Washington.

Those who have been here and observed the Sessions of Congress may have experienced disappointments in seeing the procedures on the Floors of the two bodies of Congress. Depending on the type of legislation being considered and at what stage it is being debated, all too often the impression is left that there is not a total participation by Members. Oftentimes, a Member is up making a speech with few Members in their seats and apparently those not paying very close attention to what is being said. This impression is not good and, especially, for younger people who expect to see every Member in his seat and everything in order.

The fact is that it is virtually impossible for every Member to be in attendance at all times. There are Committee meetings where, in most instances, the real work on legislation is performed. Others are seeing Constituents, answering their telephones, responding to the multitude of letters which arrive daily or conferring with staff people. All sorts of demands are made on a Member's time and becomes a part of his daily duties.

Legislation is first debated under what is known as "general" debate. The time for general debate is set by the Rules Committee and can be from one hour to ten hours, depending on the particular legislation. During this period, time is yielded by the managers of the bill to other Members. When the time for a general debate has expired, rules permitting amendments follow. Members of the Committee from which legislation comes are first recognized for amendments, followed by other Members who wish to offer some change. In this period, the attendance is much greater since only three Committees, namely, the Ways and Means, Rules and Appropriations, can hold sessions during this time. It is necessary for a Member to be present to become informed before voting.

So, a lot depends on what period a particular debate is in for visitors in the galleries to get a true impression. There are times when the conduct in the Chamber appears to be something like the New York Stock Exchange and, again, when it appears that no one is interested in what is taking place.

As often as possible this is explained to Constituents and, particularly, our young people. It seems important that they have an understanding of what goes on and why.

Palo Duro Drama Opens

CANYON—A combination of music, dancing, romance, comedy, history, along with dramatic sound and lighting effects will again reverberate from Palo Duro canyon as the musical drama "Texas" reopens June 15. Paul Green, a Pulitzer Prize-winning playwright,

wrote it all down and West Texans, many of whom are descended from the families that first staked their claim on the high plains, portray those roles in the outdoor drama which plays nightly except Sunday through Aug. 20. A special one-night performance will be presented on Sunday, July 3rd, during the summer schedule. The production with a cast of 80 actors, singers, and dancers, begins each evening at 8:30 p.m. CDST just as the sun slides behind the canyon rim and twilight

settles over the park. The park permit will not be required of persons enroute to the drama after 6 p.m. each evening. Palo Duro canyon, itself a part of Panhandle history, furnishes a dramatic backdrop as the drama unfolds in the Pioneer amphitheatre.

The drama is fast becoming one of the Southwest's major tourist attractions with the help of Margaret Murphy, founder and publicist of the drama. Advance reservations are recommended for the drama according to Mrs. Murphy as ticket requests come in by phone and mail. Over 98,000 visitors witnessed the drama in 1976 and bookings have already been set for future shows into 1981.

Palo Duro State Park, which hosts the drama is located 12 miles east of Canyon and 35 miles south-east of Amarillo. The park is a major attraction as visitors are surprised to see the park road suddenly curve downward to reveal brilliantly colored cliffs stretching along the main chasm and several side canyons. Modern camping and picnicking facilities including water and electrical hookups

are available to the park visitor. Horseback riding, a miniature train ride and ample space to just sit and view the canyon are also available. Information about the park can be obtained by writing the park, P.O. Box 114, Canyon, Tx. 79015 and ticket information and reservations can be made by writing "Texas", P.O. Box 268, Canyon, Tx. 79015 or phone (806) 655-2182.
