

Old Fashioned Saturday Night Planned

A free "watermelon feed" will again highlight Old Fashioned Saturday Night in Lockney, scheduled this year for 6 p.m. August 13. The Chamber of Commerce board of directors made plans for the annual downtown Lockney event at their monthly breakfast meeting Monday morning at Rogers' Cafe.

Local clubs and organizations are

encouraged to plan booths and activities downtown on Old Fashioned Saturday Night. "We want to have as many as possible to participate," Chamber president James Race said.

Wilbur Mize is in charge of getting the melons again this year (Mize is the traditional "melon getter"), and John M. Tye and Paul Glasson are on the "ice committee," charged with securing

the ton of ice necessary to cool the melons.

Children's games on Main Street are also planned again this year.

Also Monday morning, the Chamber directors voted to pay \$25 annual dues to Water, Inc. J.D. Copeland reported that half of the Lockney Housing Development Corporation's apartments on North Main Street are now

occupied (five of the ten apartments—two 2-bedroom and three 1-bedroom units—are rented).

The Chamber's membership drive was discussed. Race said there now 60 member of the Chamber and set a membership goal of 100.

Chamber directors present were Race, Tye, Copeland, Eleanor Schacht, Maria Arellano, Paul Koonsman and Laverne Christian.

Women's Self Defense Course To Be Friday (Really)

The women's self defense course originally scheduled to be held in Lockney last Friday has been rescheduled for tomorrow (Friday, July 15) at the same place—the Methodist Church fellowship hall—and at the same hour—7:30 p.m.

Because of a scheduling mixup, the course was not taught last Friday. Some 55 women showed up for the instruction Friday evening.

Texas Department of Public Safety

Trooper Burt Sinclair will teach the course, designed to help women and girls to be more aware of how to protect themselves against those that might harm them.

The ladies of the Methodist Church are sponsoring the program, and they urge all women of the community to attend. High-school girls are encouraged to attend, and to bring their mothers with them if possible. Anyone age 14 and up is welcome.

School Board Hires Basketball Coach

Lockney school trustees accepted resignations from three school employees—including a high-school teacher/coach hired just last May—at the regular monthly school board meeting Monday. Ronny Alldridge, hired May 9 as head basketball coach and teacher at Lockney High School, resigned to accept a position at Lamesa. Jerry Miller, elementary school P.E. aide, and Fleeta Adams, Elementary Title I Reading teacher, also submitted resignations.

The School board hired another head basketball coach, Thomas Michael Belar, and rehired Lesca Durham as elementary P.E. aide (she held the position before Miller) Monday night.

CAFETERIA MILK BID

The LISD trustees accepted a bid from Cloverlake Milk Company of Plainview for milk for the school cafeterias for the 1977-78 school year.

The bid was for \$0.0945 per half-pint carton, for homogenized vitamin D whole milk and for low-fat chocolate milk. It was an "open-ended bid," allowing for changes in the price as wholesale milk prices change.

SCHOOL BUS ORDERED

The board approved the order of a new 54-passenger school bus. The bus will probably be delivered in October, 1978 and will replace an old bus.

AIR CONDITIONERS

Also approved was the purchase of two replacement evaporative coolers for the field house at the football stadium. The 4,000 CFM coolers are to be purchased locally at a cost of \$190 each.

SERVICE CENTER

A motion to approve participation next school year in Region XVII Service Center media service (at a yearly cost of \$1 per A.D.A.) was approved. The Service Center provides films, consultation services, computer services, and other resources.

INSURANCE REVIEW

Insurance agent Bob Miller reviewed the school district's insurance coverage for the trustees, giving amount of coverage and cost for each policy. Trustees suggested consolidation of some policies if possible.

TRAVEL APPROVED

The school board approved sending coaches to a Dallas school in August, and okayed attendance by superintendent John Peck at a summer workshop next week in Austin.

SUPERINTENDENT'S REPORTS

The superintendent reported on the special legislative session in Austin (Texas lawmakers are trying to come up with a new school finance bill) talked about the proposed 1977-78 school budget, and discussed several proposed school board policies which are due for consideration at next month's meeting.

Trustees present Monday were Tom Duvall, Kenneth Brosech, Kelton Shaw, Eugene Tannahill and Austin Beedy.

Commissioners Meet With Architects; No Contract Made

Floyd County commissioners met with architects Monday during their regular monthly meeting but no contracts were made concerning the county jail being brought up to meet state requirements.

Representatives were present from Stiles & Stiles, Ronald D. Sebring, Atcheson, Cartwright & Assoc., and Hall & Whitaker Architects. Commissioners voted during their May meeting to give the jail project priority

since a state jail inspector had met with them and told officials the requirements were a must.

In other business Monday commissioners voted unanimously that Sheriff Fred Cardinal be allowed to purchase

three emergency lights for the department cars.

It was also agreed that the county trapper's salary be raised from \$425 per month to \$450 per month and that the county tax rate remain at 95 cents per hundred valuation.

Birch Lobban was hired as new Floyd County assistant extension agent, replacing Mike Brown, who resigned to go into private business in Godley, Texas. Lobban will assume his duties here July 21.

Commissioners all agreed that they felt the Probation and Juvenile office has been successful and if, after the third year funding from Criminal Justice, if County funds are available and if the probation office seems to be as successful as now, the project will be continued with County funds.

All commissioners were present for the meeting.

Father-Son Game Caps Teen Baseball

Season; Locals Second In League

The Lockney teenage boys ended their baseball season Friday night, winning by forfeit when Roosevelt failed to show for the last scheduled game. Lockney ended the season with a 10-4 record, tied for second in the league.

Saturday evening the boys took on

their dads, granddads and uncles for a fun game. The boys soon learned the men came to play ball and the boys had to get with it! It was a good game, ending up 17-18 (?) Starting pitcher for the boys was John Cummings and for the men, Claude Brown. There were no home runs in the game, but a great

triple was made by Turner Hunter (Jeff McCormick's granddad). Other men playing in the game were Buddy Comer (the exceptionally good umpire for all the local games), Mario Arellano Sr., Audry McCormick (who must have been the outstanding "slider" for the night!), Rodger Stapp, Shelby Race, Larry Christian, Carlos Molinar, Joe Luna and David Quisenberry.

Coach Turley maintained his neutrality during the game (in other words, he "chickened out"—remembering the broken arm he received in last year's father-son game). Thanks to Felix Silva for umpiring the game.

Watermelon was served afterwards to the players and their families. The boys then voted among themselves for three players to receive special recognition—Karl Race, most improved player; Mike Arellano, most improved hitter; and Troy Turley, most valuable player.

The boys wish to thank everyone for their attendance at the games and thanks to all groups and individuals who contributed to the association this year. A special thanks to John Bickley and his continuing interest in teenage baseball, to the City of Lockney for taking care of the electric bills, and to Wilbur Mize, who furnished all the ice used in the concession stand at the games this year. Thanks to coaches David Quisenberry, Joe Luna and Roy Turley, and to commissioner Rodger Stapp.

TEENAGE BASEBALL awards went to (left to right) Troy Turley, Most Valuable Player; Karl Race, Most Improved Player; and Mike Arellano, Most Improved Batter. Players on the Lockney team voted on the award winners Saturday. (Staff Photo)

The Floyd Philosopher

Has A Scheme To Avoid Being Swamped With Presidential Libraries

Editor's note: The Floyd Philosopher on his Johnson grass farm thinks he has foreseen a problem for this country.

Dear editor:

There's a future problem facing this country the people ought to be giving some thought to. It's Presidential libraries.

Although Gerald Ford served only two years, plans are now underway to build a Presidential library for his papers. Ground was broken recently for a library for John Kennedy. The Harry Truman library was built several years ago. The Lyndon Johnson library was completed a few years ago and is now crammed with millions of Presidential papers and other odds and ends. There's some random talk of building one for Richard Nixon.

Stop and think about this. If every President has to have a library when he leaves office, and if this nation endures for 1,000 years, do you realize how many libraries that's going to be? One hundred and twenty-five, if we have a retiring President every eight years.

Actually it'd be more than that, counting one-termers, future resignations, possible impeachments, etc., plus the libraries already built. Ought to come to over 150 at least. That is a passel of libraries, and they're

going to get crowded, especially if one city winds up furnishing say 10 or 15 Presidents. It might take a Constitutional amendment saying no two Presidents can come from the same town and still have a library.

Therefore I have an idea. Let's head off this library crisis before it gets out of hand. The thing to do is to build one huge pyramid in about the center of the country and put all the past and future Presidents' papers and stuff in it, down to the last inaugural hat, pipe, bottle ship, First Lady's dresses and secret agreements with foreign countries.

Now nobody knows for sure how the Great Pyramids were built, but somebody in the military-industrial complex, if given a cost-plus contract, out to be able to get the hang of it. Egypt, where they are, would be a great place for junketing Congressmen to visit to study the things. They could come back by way of Paris.

If this country doesn't want to be over-run with Presidential libraries, we'd better get that U.S. pyramid started. It's more serious than you may think. There're plans afoot now to build libraries for ex-Congressmen. Will state Legislators and Justices of the Peace to next?

Yours faithfully,
J.A.

DALLAS, TEXAS, JULY 11, 1977...Directors of Gifford-Hill and Company, Inc., declared a regular quarterly dividend of 20 cents per share on the common stock. The dividend is payable September 6 to shareholders of record August 8, according to John R. Hill, Jr., Board Chairman and Chief Executive Officer.

What One Person Can Do

When David E. Freeman of Toronto, Canada, works hard, he can type one page an hour. That's because he can type with only one finger. David was born with cerebral palsy. But he has written six plays, several of which have been staged in New York.

His parents sent him to a school for the handicapped, where he started and edited the school paper. At 17, he entered a sheltered workshop, but quit after six months.

"That was all I could stand," he says. "The pay was 75 cents a week. I sanded blocks and separated nuts and bolts." He began addressing envelopes and hauling out garbage, kept on writing and finally sold a few pieces. Then, he enrolled in McMaster University, where he met William Glasco, a professor who also worked as a stage director.

Professor Glasco suggested that he adapt one of his stories for the stage. The play, "Creeps" was a hit and won the Chalmers Award as best Canadian play of the year. Later, it was produced in New York.

Mr. Freeman works at his typewriter seven days a week, eight hours a day. The need for independence is a theme that runs through every work of his plays and stories.

"But that doesn't just come to you," says David E. Freeman. "You have to grab it."

If each of us were to struggle as determinedly to overcome the obstacles in our lives, just think what we might achieve.

The winners are Shanna Igo of Hale Co.; Pearl Perez, Swisher Co.; Prynness Parkman, Bailey Co.; and Annette Parham, Lubbock Co.

Named as alternates are Mary Smith of Cochran Co., first alternate; and Kay Stephens of Yoakum Co., second alternate. These two girls will fill in at Abilene, September 16-17, in case any of the others can't compete in the finals during the State 4-H Dress Revue.

All 15 contestants, who represented a 20-County area of the South Plains, made and modeled their own outfits.

Special honors went to Miss Prynness Parkman for showing the best outfit constructed of fabric of cotton or cotton blend; and to Miss Shanna Igo for the best wool outfit.

Also awarded during the show was a \$500 Aubrey W. Russell Scholarship. Cathy Hess of Scurry County was presented the award by Mrs. Sheila Fillingim, treasurer of the District 24-H Scholarship fund. The scholarship is offered by the home demonstration clubs in District 2 each year based on best record book and other criteria to a 4-H girl majoring in home economics at Texas Tech University.

Darlene Broese, daughter of Mr. and Mrs. Kenneth Broese, Lockney, represent-

ed Floyd County in the Senior Division. Miss Broese earned the right to participate earlier at the County Dress Revue held in May.

In addition to senior level competition, 36 juniors modeled garments of their own creation. Heather Holt, daughter of Mr. and Mrs. Kenneth Holt of Lockney, represented the Junior Division age 9-11 from Floyd County while Jill Whitfill, daughter of Mr. and Mrs. Bill Whitfill also of Lockney, modeled in the 12-13 years of age Junior Division.

The two groups of juniors will not compete beyond the district level.

There are no 1-2-3 placings in the annual dress revue. Contestants are judged on their sewing and construction skills, overall appearance, modeling ability,

and their 4-H record books.

A luncheon honoring all contestants, parents, Extension agents and special guests kicked off the awards phase of the event. Presenting the awards was Mrs. Edward Breihan, representing the Plains Cooperative Oil Mill which sponsored the luncheon.

Martha Beavers, 4-H'er from Scurry County, was mistress of ceremonies. Other 4-H'ers on the program were Linda Smith and Lisa McIlwain of Gaines County.

Peggy Robertson, assistant county Extension agent (home economics) in Dawson Co., served as chairman of the event, with Catherine B. Brawford, district Extension agent (home economics), serving as coordinator.

NEWS 'N' NOTES (by Sharon Hillis)

In choosing a fabric, quality need not mean expense. Check fabric this way:

- Rub the fabric against itself several times. Watch for flaking, which means the fabric is heavily sized and may lose body after laundering.
- Stretch the fabric—then release it. It should spring back. If not, areas of strain will bag later.
- Wad a corner to check for wrinkling, but remember that some crinkle cloth and puckered fabrics are supposed to wrinkle.
- Check for vivid, clear colors.
- Dull colors signal dyes that may not wash well.
- Make sure fabric designs are printed on the "straight" of the grain. Noticeably off-grain designs are difficult to match in sewing.
- Rub the fabric against another fabric to detect crocking.
- Crocking means the color rubs off. When a brightly colored fabric crocks, it is almost impossible to set the dyes at home.
- Look for the term colorfast on bolt ends or hang tags to insure that the fabric will not fade.

Goens Return From Reunion In England

Mr. and Mrs. Bud Goen have returned to their Floydada home after an extended visit in England for a reunion with her three brothers. The Goens left Dallas June 6th., via New York arriving in Manchester on June 8th., where they were met by a brother and his wife, Mr. and Mrs. Laurie A. Kenward.

This was Mrs. Goen's first trip back to her native land since 1955, and was the first for her husband. Being an avid hunter, he especially enjoyed going pigeon hunting. The Goens said fish and lamb was primarily the meat dish in England and found that beef was extremely high priced there, as well as fine china.

Kenward and wife. They toured the coastal towns including Brixham, a fishing village spending a few days there then back to Warwickshire and north to Yorkshire where they visited cousins.

Mrs. Goen said they found the weather there cold and no higher than 70 degrees temperature in day time. It rained nearly every day Mrs. Goen said and they only saw the sun three times during their stay there.

This was Mrs. Goen's first visit with two of her brothers in 22 years. One, Laurie and his wife were visitors in Floydada some two years ago.

Floydada Nursing Home Happenings

By Faye Walters

When we lose someone we love it's hard to bear the sorrow, and it takes strength and courage to help us face tomorrow.

So may the words of others and their true concern for you, help sustain you day by day and be of comfort too.

When we lose someone we love its hard to bear the sorrow, and it takes strength and courage to help us face tomorrow. So may the words of others and their true concern for you, help sustain you day by day and be of comfort too.

For Sickness and sorrow Comes to us all, But through it we grow and learn to "stand tall." For trouble is "part and parcel of life" And no man can grow without struggle and strife, And the more we endure with patience and grace The stronger we grow and the more we can face. And the more we can face the greater our love, and with love in our hearts we are more conscious of The pain and the sorrow in lives everywhere. So it is through trouble that we learn how to share. We hope these words will help the family of Ethel Long to bear their sorrow. She was a very sweet and kind lady and we will miss her at the Nursing home. We are sorry Agnes Anderson is back in the hospital. Hope she will be home soon. The 4th of July has come and gone. It was pretty quiet for most of our residents but I don't think they

mind at all. We have had real good devotions this week and everyone received a blessing from the good singing and the word of God.

Tuesday was manicure day and Wednesday we took a nice field trip out in the country. The crops are so pretty. Our residents really enjoy seeing the crops as most of them use to live on farms.

Taking this trip were the driver Mr. Freeman, Florence Badgett, Agnes Anderson, Dora Langford and myself. We were sorry Docia Manning, Hope Hammonds and Henry Love did not feel like going.

Thursday was fun day with bingo. Top winner was 5 games and Pearl Carrick won four, Hallie Bertrand and Ray Reed won two; and Clara Williamson won one game.

Mary Plumlee's daughter from California has been visiting her. Several others have had friends or family members from afar to come see them this week.

We would like to thank the two women who brought the apricots to our residents. I am sorry I don't know their names but may the Lord bless them.

We appreciate every visitor we had this week which included; Otis Anderson, Doris Snodgrass, Troy Massey, Mrs. Pike Hanna, Parnell Powell, Sue Moore, Jewell Ginn, Mary H. Wilson, Clara Redd, Rosie Covey, Josie Ross, Alice Plumlee, Inez Barton, Phillis Nixon, Randy Nixon, Thelma Jones, Edna Patton, Mrs. Jim Owens, Mr. and Mrs. Hubert E. Davis and Ruth Hill.

Present from Floydada were Opal Rogers, Mr. and Mrs. Wylie Rogers, Mr. and Mrs. Nealey Richardson, Rimmer Rainer, Mr. and Mrs. Parnell Powell and Melody, Mr. and Mrs. Harold Bennett and Rhonda, Mr. and Mrs. Gary Bennett, Tiffany and Kristi, Mr. and Mrs. Larry Barbee, Shannon and Shayla, Mr. and Mrs. Tony Jones, Zane and Terry, Mrs. Don Faulkenberry and children, Kyle Glover, Carmen Powell, Rosemary Hardin, Cliff Hopper, Bart Patzer and Jeff Bertrand.

and seems to be doing well.

WE had a wet July last year. It rained on the 10th, 11, 12, 13 and 14th giving the city proper 2.40 for the week, however at that time for the year Floydada had only received 8.60 inches of rain and we are standing on 13.28 at this writing.

IN meddling around I have found out it was the old Dr. Vern Andrews home which burned recently and not Dr. R.C. Andrews Dr. R.C. was the first county doctor and Dr. Vern came later. Have also found out that the old Dr. Pepper Bottling Works we were wondering about sometime back was located at 221 E. Missouri. It was owned by Mrs. J.A. Burrus in the '30s, managed by F.C. Smart and salesman was Clayton Teague...and at one time I'm told Floydada had nine cafes in the downtown proper. This person recalls the Busy Bee, Del Rue Cafe, City Cafe, Coney Island, Doo-Drop Inn, Jerry's Cafe, Lewis Cafe, Tourist Lunch, Uncle Bill's Place where you could get a good bowl of chili and a soda... some of the drug stores at that time served sandwiches. The best I can count now is only 8 restaurants and drive-in eating places, with only one in downtown Floydada.

THE high cost of energy has struck again and the latest victim is the fountain at the entrance to Texas Tech. The fountain was turned off because of the high cost of energy and maintenance for the fountain. Actually its been off for several months and is saving \$23.14 per day plus maintenance cost.

Aside from 58 delegates to the National Women's Conference and a number of resolutions on women's issues, Texas will have a film and an exhibit on International Women's Year (IWY) as a result of the Texas Women's Meeting June 24-26.

The film, "Decade of our Destiny," was provided by the National Commission on the Observance of IWY to each state for its women's meeting. The 11-minute film explains the origin and meaning of IWY, the Mexico City Conference, the resultant World Plan of Action and Decade for Women (1976-86), and the U.S. response.

The film will be available for loan to groups and individuals beginning in August from the Texas State Library, Information Services division, Reference Section, P.O. Box 12927, Capitol Station, Austin 78711, and from the Visual Instruction Bureau, University of Texas, Austin 78712.

The Texas IWY Coordinating Committee, chaired by Owanah Anderson of Wichita Falls, has invited Texas Woman's University, Denton, to prepare an exhibition on IWY activities in Texas. The exhibit will form the Texas booth at the National Women's Conference in Houston Nov. 18-21 and then go to the State Archives in Austin for display and research.

Dr. Mary Evelyn Huey, TWU President, has appointed a committee to prepare the exhibit. On the committee are Gertrude Gibson, Admissions Counselor; Dr. Josephine Kunkle, Library Science Professor; Dr. Donald E. CANCER ANSWER LINE

American Cancer Society
M. D. Anderson Hospital and Tumor Institute

A reader explains: "I am concerned because when I was a teenager, I had radiation treatment for my tonsils. I have heard that this can lead to cancer. Is this true? What should I do?"

ANSWERline: In the early 1920's it became medical practice to use radiation or radium to treat a number of different conditions of the head or neck. Unfortunately, the thyroid gland, which is located in the neck, also received either direct or scattered radiation at the same time. Sometime after the Second World War, it became apparent that some people exposed to atomic radiation or even medical radiation, later developed thyroid cancer, and the medical usage was stopped. Fortunately, while many thousands of people have received radiation for medical purposes, only a very small percentage have or will develop thyroid tumors. Most of these tumors are benign. But when cancer is present, it is of the type that can be cured by surgery if treated when in an early or localized stage. It is therefore essential for anyone with a history of head or neck radiation exposure to be checked by a physician now, and to continue to be checked at least every two years. There is low incidence of this form of cancer, and a high probability of cure for those who do have thyroid cancer. But you must protect yourself by having a checkup.

hours.

I know that a lot of churches and charitable organizations depend heavily on sales to raise money and, hopefully, this law will make it easier on them by cutting through some of the red tape.

BOB BULLOCK
Comptroller of Public Accounts

Dear Mr. Bullock:

I read somewhere that the Texas Legislature passed a law exempting from the sales tax goods sold at fund-raising events sponsored by churches and other non-profit organizations. Would you please explain the new law?

You are referring to Senate Bill 382 sponsored by my friend Sen. Max Sherman of Amarillo. That bill, by the way, already has been signed into law and is now in effect. It allows religious, educational, charitable and other non-profit, tax-exempt organizations to hold one tax-free sale or auction each calendar year.

Please note that such groups are allowed only one tax-free sale a year. If they hold more, they must collect the sales tax. The one tax-free sale may not exceed 24

hours. Your office recently filed a lien against me for failure to pay my franchise tax on time. I've paid the tax, and want to get the lien released. How do I go about it?

A lien release will be mailed to you when we receive your franchise tax payment. To have the lien removed, you must take the release to the courthouse in the county in which the lien was filed. Don't send the lien release back to us—take it to the courthouse.

Mr. Bullock: I recently had reproductions made of some documents, and the clerk in the copy shop added sales tax to my bill for the reproductions. Are copying services subject to the sales tax?

Yes. The making of reproductions for a fee is considered a sale of tangible personal property rather than a service and, therefore, is subject to the sales and use tax. Ask Bob Bullock is produced as a public service to the taxpayers of Texas by the State Comptroller's Office. The answers here do not necessarily apply in every similar situation and should be used only as a general guide. If you have a question, write Ask Bob Bullock, c/o Tax Information, LBJ Building, Austin, Texas 78774 or call toll-free 1-800-252-5555.

How To Conserve Water

Check every faucet in your home for leaks. Just a slow drip wastes 15 to 20 gallons a day.

Put a bit of food coloring in the toilet tank to see if it's leaking into the bowl. Leaky toilets are among the home's worst water wasters.

Water lawns and gardens with good sense. Do it early or late, not in mid-day heat. See that the water goes where it should, not on sidewalks or driveways. And don't leave sprinklers on too long.

be your own Meter Maid

You can add up your groceries while you're buying...

You can add up your gasoline while you're buying...

But
can you add up your electricity while you're buying?

Yes you can... Here's How!

Learn to read your electric meter. It will let you determine how many kilowatt hours you use in a given period of time... an hour, a day, a month or a year. That's how electricity is measured — by kilowatt hours used.

Your residential electric meter will have either 5 or 4 dials

Electric meters are easily read from right to left as you look at the meter. If the pointer on a dial is between two numbers, write down the smaller number. When the pointer is directly on a number such as one (1) (see center dial above) then read it as 1 if the pointer on the next dial immediately to the right has passed zero (0). However, read it as zero (0) if the pointer on that dial to the right has not reached zero.

The dials above read (from left to right): 9-3-1-1-5. If, however, the pointer on the second dial from the right above was between 9 and zero then the center dial would read as a zero.

Now let's read the same meter 24 hours later

This later reading is 9-3-1-3-8. Subtracting the first reading, 93115, from the new reading of 93138 — the answer is 23. Thus you would have used 23 kilowatt hours in the 24 hour period.

Now you can become a METER MAID and watch your meter like a miser if you choose. WE HAVE A BOOKLET CALLED "MANAGING YOUR ELECTRIC BILL" plus other WISE USE TIPS booklets that help keep you from wasting electricity and so help lower your cost. Any of these booklets are free for the asking at your Public Service office... come by and see us.

By Mrs. J.E. Green

The 4th of July has come and gone. A very quiet one as for some of us were concerned.

We did have a nice weekend. Our son, Clyde Green and daughter, Annie surprised me Friday evening and visited until Sunday morning when they return-

County Agent's Corner

By Doyle Warren
Floyd County Agent

NOTICE: Texas Corn Growers Association has been certified by the Commissioner of Agriculture to hold their corn commodity referendum check-off, with the regular election being held on July 29, and absentee balloting taking place from July 15 through July 26.

All interested corn producers should check with their County Agent to obtain an absentee ballot and leave it in the Agent's office. You do not have to be registered to be qualified to vote—only a certified corn producer in Texas, or owner of any interest in a corn crop.

VOTER INFORMATION

1. Although a signature and address is required on each ballot, this information is confidential. Only the canvassing committee will have access to the ballots, and after counting they are placed in a closed container which may not be opened without court order. How a person votes and the extent of production is completely confidential.

2. Ballots will be counted by a committee consisting of a county judge, a representative of the Texas Agricultural Extension Service, a representative of the Texas Corn Growers Association, and a representative of the Texas Department of Agriculture. Results will then be certified to the Commissioner of Agriculture for verification.

3. Voter Eligibility. The law states all producers are eligible to vote in these elections—a producer is defined as anyone who produces or caused to be produced corn for commercial purposes. In practice, anyone who would have to pay the proposed assessment is his own name is eligible to vote in the elections. However, it is not the intent of the Act to have two votes allowed on the same production.

4. The ballot includes both a referendum proposition and a commodity producers board election. An individual voter may vote for a board member regardless of whether he votes "for" or "against" the referendum proposition. He may also vote for a board member if he declines to indicate any preference at all on the referendum proposition.

5. Please verify your production in number of pounds produced in 1976. Also, vote only for the number of board members in your area as shown on the ballot, or a write-in vote. (Refer to areas defined by Counties as shown in the Referendum proposition.)

6. Each individual who votes must complete either Section A or Section B at the bottom of the ballot. If production in the case of any person was on a "share" basis, he should verify only that portion that represents his share. If anyone is unable to give his production in specific terms, he should estimate as closely as possible.

7. A. If you are voting by ABSENTEE BALLOT, fill out your ballot, sign and return to the Texas Corn Growers Office. It must be postmarked before midnight, July 26, 1977.

B. If you are voting by REGULAR BALLOT, fill out your ballot, sign and place it in the box provided at the site of the election.

8. Be sure to sign your ballot by normal signature and print your name and full address in the appropriate space at the bottom of the ballot.

9. Call the Association office if you have additional questions.
