Broseh Cuts First Load Of Grain Sorghum

FIRST LOAD OF GRAIN SORGHUM in the Lockney area (and the county) came to Patterson Grain at 2:30 Wednesday afternoon. Dumping the grain are (left to right) Sergio Gracia, Patterson employee Odell Kerr, who works for Kenneth Broseh, producer of the first load) and Patterson Grain employees Refugio Vasquez and A. Rendon Jr. (Staff Photo)

The first reported load of grain sorghum this year in Floyd County arrived at Patterson Grain in Lockney at 2:30 p.m. Wednesday. Kenneth Broseh, producer of the first load, qualifies for the \$50 premium from the Lockney Chamber of Commerce for the first marketable load brought to a Lockney-area elevator.

The 12,760-pound load tested 13.3 percent moisture. Test weight was 55 pounds. The dryland grain sorghum was cut three miles north and two miles east of Lockney.

LCC President To Speak Here Tuesday

Dr. Harvie Pruitt, president of Lubbock Christian College, will speak at the recruiting party of the Lockney chapter of the LCC Associates at 7:30 p.m. on Tuesday, September 6. The

DR. HARVIE PRUITT

residence came in contact with a 12,000-volt power line.

Mize received electrical burns to his hand, arm and chest. He was taken to Lockney General Hospital, where he was treated and released.

Mize Injured While Installing CB Antenna

Wilbur Mize was injured at about 6:20 p.m. Monday when a CB antenna he was installing at the Rick Mosley

Beacon Lights

by Jim Huggins

SOUTHWESTERN PUBLIC SERVICE'S agriculture development department comes up with an interesting chart on cattle feedlots. In 1965, 6,700 head of cattle were feedlot fed in Floyd County.

In 1970 a peak of 61,000 were fed, and in 1976 we had dropped to 32,000 head.

Of course the price of cattle has caused the decline... now that grain prices have also dropped, might be that the number of cattle on feed will increase.

"YOUNG MAN," said a father to a youth who came calling on his daughter, "didn't I hear the clock strike four when you brought my daughter home the other night?"

"Yes sir," replied the lad. "It was going to strike eleven, but I grabbed the gongs and held them so it wouldn't disturb you."

Muttered the father, "Doggone it, why couldn't I think of that in my day?"

IN CASE YOU have been wondering, Cher's tattoo is at the "base of her back." It's a small butterfly with musical notes around it. No, I haven't seen it, but got this information from a reliable source.

HOSPITALITY

Hospitality is the art of making people feel at home when you wish they were.

A FRIEND IS one who knows all about you and likes you just the same.

Explorer

Paper Drive

Lockney Explorer Post, sponsored by the Lockney Police Department, will have a paper drive on Saturday, September 17. The Explorers are asking Lockney residents to save newspapers, magazines, and other paper for them to pick up on that date.

To arrange for pickup of papers, call 653-3548 any time Saturday, September 17 and give your name and address. The Explorers will pick up paper on that day only.

Patrolman Donnie Ballew is adult sponsor for the Explorer Post. President of the post is Donny Wiley; first vice president is Jeff Isom; second vice president is Buddy Wiley; secretary-treasurer is Jackie Gaskins; and master of arms is Craig Ellison.

Band Boosters

Meet Tuesday

Lockney Band Boosters will have their first meeting for 1977-78 Tuesday night, September 6, at 6 p.m. in the band hall. The fair booth will be planned and other projects of the year will be discussed.

All band students and parents are asked to be thinking and planning their items for the gift bazaar later in the fall.

Please come to this meeting and help plan the year's activities.

QB Club Tuesday,

Not Monday

The Lockney Quarterback Club will meet at 7:30 p.m. Tuesday in the junior high school cafeteria. Regular meeting night is Monday, but the booster club will meet on Tuesday this week because of the Monday Labor Day holiday.

GAB Meeting

Wednesday

All members are urged to attend the Girls Athletic Boosters club meeting Wednesday, September 7 at 8:30 in the junior high school cafeteria.

The GAB will discuss some things that need to be settled this week.

LHS GENERAL AG MECHANICS CLASS was at work last week putting the finishing touches on the stadium-remodeling job. Pictured are (front) Smokey Hill, Robert Gutierrez, Danny Clark, Jessie Nuncio, Jerry Rodriguez; (back) Terry Roberts, Lyndall Stapp, Danny Wilson, Oscar Garza, Joe Rodriguez, Pete Molina. Another class member, Monty Hulcy, is not pictured. (Staff Photo)

Antelopes 14, Longhorns 7

LAST-MINUTE HEARTBREAKER

A 23-yard, last-minute touchdown run by Post wingback Randy Baker gave the Antelopes a 14-7 come-from-behind victory over The Lockney Longhorns Friday night in the season lifeline for both AA teams.

Baker's game-winning scamper came with just 45 seconds left in the contest. Up until then it looked like the Longhorns might have pulled off the upset—they were ahead 7-6 the entire last half until Baker's TD. The Lopes faked the kick on the conversion and the holder, quarterback Brad Shepherd, ran for the double-point extra to make the final tally 14-7.

Post opened the game with a 70-yard drive that stopped on the Longhorn three-yard line. But when the Antelopes got the ball back four plays later, they made good on the scoring threat. They took over on the Lockney 42 following the 32-yard punt and drove for the touch. Baker got that one too, going in from three yards away. All the Post yardage came on the ground. The kick for extra point was wide, leaving the Lopes up 6-0 with 47 seconds remaining in the first quarter.

The Longhorns went ahead just before halftime. Jody Foster pounced on a bobble punt at the Post 19-yard stripe, and the 'Horns scored four plays later with tailback Danny Clark going the final six steps. Johnny Arjona's PAT kick gave the 'Ragin' Red' the one-point lead they kept until the last minute.

The Antelopes apparently went ahead on the last play of the first half, but after a discussion, the officials ruled that the Lopes had started the play after time was out in the first half, and the 'Horns went to the dressing room with a 7-6 lead (although the scoreboard still read 12-7 Post).

The third period was spent near midfield, with neither team being able to penetrate the other's 35-yard line.

Post won the statistical war, notching 14 first downs to the Longhorns' seven and 218 yards rushing to Lockney's 108.

New At Post Office:

Key Locks On Boxes

Some post office boxes have been converted to the key type locks replacing the combination type locks that were presently in use.

This has become necessary due to the fare wear and tear procedure. This rendered the boxes not adequately secure for the security of mail matter placed in them.

Two keys will be furnished each box converted at a charge of \$1.00 for each key. This charge will be refunded upon termination of the box and return of the keys. Customers desiring more than two keys must make application justifying the need. These will then be ordered from mail equipment shop in Washington, D.C.

Eventually all post office boxes will be converted to the key type to provide the ultimate in post office box security.

Also, in attempting to provide an outstanding service to our customers by handing out mail called for by customers for other people and for parents who send their children in to call for the mail, this office has been severely criticized for handing out mail from the post office boxes that has already been boxed.

People who have made a habit of calling for other peoples' mail will now have to obtain the key from the individual if they are to pick-up the mail for them.

The practice of handing out mail that has already been placed in boxes will be discontinued effective immediately.

In an emergency we will gladly hand out mail to an individual upon a written request from the box holder. Each written request will remain on file in the local post office.

YOU NEED A KEY to get in your post office box if yours is among the ones whose locks have been replaced recently. Postmaster Douglas Meriwether says all boxes in the Lockney post office will eventually have the new key-type locks. (Staff Photo)

PRICES EFFECTIVE SEPT. 4-10, 1977

"Every cotton producer should let his representatives in Washington know how he feels about two labor bills soon to be considered by Congress."

This is the opinion of Ed Dean, Field Service Director for Lubbock-based Plains Cotton Growers, Inc. and a director of the National Council of Agricultural Employers (NCAE).

H.R. 3744, as reported by the House Education and Labor Committee, provides for increasing the current minimum wage from \$2.30 (\$2.20 for agriculture) to \$2.65 for all workers covered on January 1, 1978. Agriculture would lose its lower minimum.

Another bill, H.R. 8410 which is now being considered by a House Subcommittee, would amend the Labor-Management Relations Act, adding two more members to the present five-member National Labor Relations Board. Such a change would allow unions to "pack" the Board and bypass the majority opinion on many decisions.

The bill would also require an election on union representation within a fixed number of days after it was requested by a labor organizer. This would make it possible for a union to force an election at any time during a vacation, layoff, or whenever it considered its chances most favorable.

In Dean's opinion H.R. 8410 would greatly facilitate unionization of labor, especially in the Cotton Belt where the workers have typically rejected unions in the past.

"PCG," says Dean, "as an organization and as a member of NCAE is strongly resisting this bill."

The wage-hour bill would mean a 15.2 percent increase in the minimum wage for most workers, and a 20.5 percent increase for agricultural workers. By comparison, the cost of living will have increased less than 13 percent in the two years since the current minimums became effective in January, 1976. This calculation assumes that inflation in the last half of 1977 will continue at the same rate as in the first half, Dean explains. H.R. 3744 also provides that after 1978 the minimum will be raised annually to correspond

Fishing Good At Mackenzie

Fishing for catfish at Lake Mackenzie has been good for both channels and flatheads. Several fish over five pounds were caught last week.

After the recent cold front, fishing for small bass in the coves was excellent. Sunfish are biting very well but crappie and walleye are slow. The water temperature is 78 degrees at six feet.

with a fixed percentage of the average factory wage. The Labor Department estimates this formula would bring the minimum to \$2.89 in 1979 and \$3.15 in 1980 — increases of nine percent each year.

PCG and NCAE are protesting this bill on the grounds that all of these increases exceed past and expected changes in the cost of living, are far greater than the rise in labor productivity, and therefore are clearly inflationary for every sector of the national economy.

Others in the cotton industry have also voiced concern about passage of H.R. 3744, with National Cotton Council President Jack Stone quoted as saying "It might well be the most inflationary action ever undertaken by our government."

The bill also allows an overtime exemption for gins for 14 weeks in a calendar year. Current law provides for this exemption on a seasonal rather than calendar year basis. The cotton industry seeks to retain the exemption on a seasonal basis, requiring that overtime be paid only after ten hours a day and 48 hours a week during the 14-week period.

Agriculture Consumes 95% Of Area's Water

LUBBOCK — While the long-range answer to the water needs of the High Plains relies on importation rather than simple conservation, by taking certain steps the homeowner can make the best, most economical use of the water that is currently available, according to Water, Inc.

Since better than 95 percent of the water consumed on the High Plains of West Texas and Eastern New Mexico goes for irrigation and other agricultural purposes, residents often overlook measures that can be followed to conserve water around the house.

The idea that conservation

begins at home is an old one, but it has contemporary application on the High Plains. As another old saying suggests, every little bit helps. By observing a few simple guidelines, those little bits will amount to a savings in the family budget and conservation of a precious commodity. While conservation does not mean the consumer should not use the water he needs, it does mean he should make good use of that water without unnecessary waste.

The average daily water use for a family of four is 225 gallons for normal domestic uses, including bathing, drinking, cooking and wash-

ing. That daily average does not include lawn watering and car washing. According to Texas Water Development Board statistics, 73 per cent of the average daily usage occurs in the bathroom, 11 per cent in the kitchen and 16 per cent in the utility room.

In the bathroom water can be conserved in several ways. For instance, shower times can be decreased. When taking tub baths, use one inch less water than normal. While shaving and brushing teeth, turn off the water faucet instead of letting water go down the drain.

Additional water can be saved by making adjustments to the commode, whether it means adding a brick to the tank compartment or replacing the conventional five or six gallon tank with a new 3 1/2 gallon fixture. Avoid using the commode as a garbage disposal by eliminating unnecessary flushing of cigarettes, facial tissue and other trash.

In the kitchen, water can be saved by chilling a filled pitcher in the refrigerator instead of letting it cool while running the tap. Installation of faucet aerators will reduce consumption. The homeowner should use the sink stopper as often as possible during cooking and washing chores.

Appliances in both the kitchen and utility room should not be used except when there is a full load of dishes or clothes. In buying appliances, consider those which use less water or have settings that allow you to match the job at hand with its water needs.

In all parts of the house, water leaks should be stopped. Whether the leak is a dripping faucet or a loose washing machine hose, the drop-at-a-time loss is significant. A slow drip alone can waste 170 gallons a day or 5,100 gallons a month. Eliminating such nuisances can amount to a savings of several dollars each month on water bills.

Conserving energy around the house indirectly saves water for the homemaker. For every kilowatt hour of electricity saved, you are conserving the half-gallon of water it takes to produce that electricity.

Water conservation outdoors is equally important in a semi-arid climate such as the High Plains because of the amount of water required to keep lawns in good shape. Watering lawns at night or during the cool portion of the day cuts down on evaporation. A slow watering increases absorption and lessens runoff. Fertilizing lawns at least twice a year provides greater root stimulation and reduces water requirements. Also, landscape your yard with grasses native to the area and with plants that do not require excessive water.

Water, Inc., is a non-profit corporation which promotes water resource development.

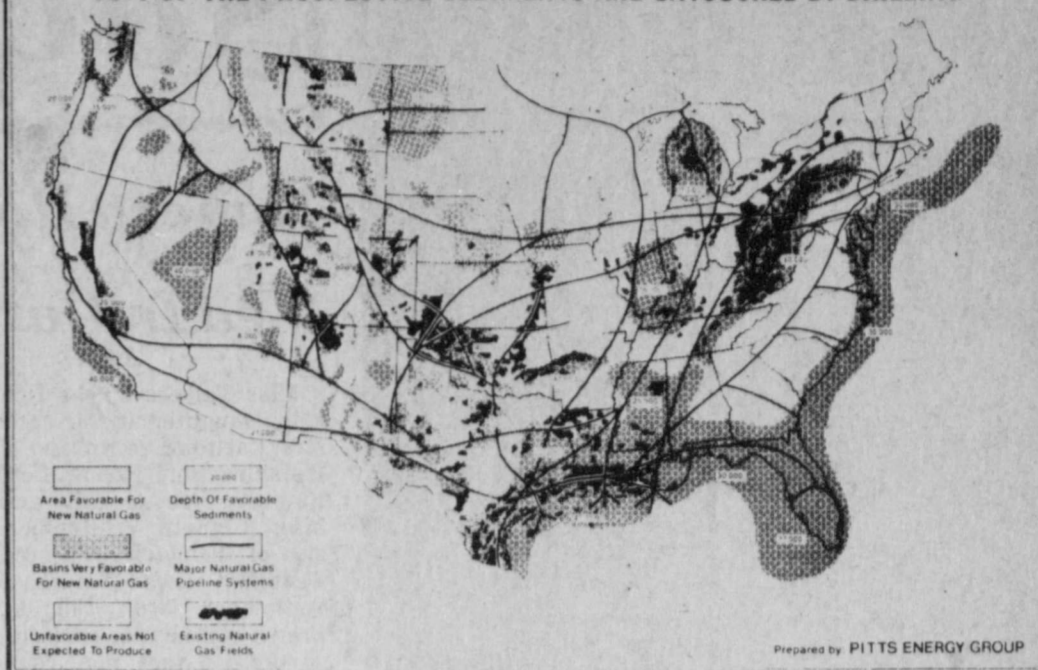

NEW TREATMENT FOR LEATHER and suede now being tested may soon make them dry-cleanable by ordinary methods, announced Margret Ann Vanderpoorten, clothing specialist with the Texas Agricultural Extension Service, The Texas A&M University System.

PAY A LAWYER TO WRITE YOUR WILL, suggests Claudia Kerbel, consumer information specialist with the Texas Agricultural Extension Service, The Texas A&M University System. "Homemade documents are sometimes not legal," the specialist warns.

AMERICA'S UNTAPPED NATURAL GAS SUPPLY

98% OF THE PROSPECTIVE SEDIMENTS ARE UNTOUCHED BY DRILLING

Area Favorable For New Natural Gas
Depth Of Favorable Sediments
Basins With Favorable For New Natural Gas
Major Natural Gas Producing Systems
Unfavorable Areas Not Expected To Produce
Existing Natural Gas Fields
Prepared by PITTS ENERGY GROUP

Study Shows Vast Supply Of Gas

Vast supplies of natural gas remain to be found and produced in this country, even though President Carter and his energy advisors have claimed that natural gas "has had it". A map showing the distribution of sediments prospective for oil and gas in the United States has been issued by the Pitts Energy Group, Dallas, Texas to refute claims of the Administration that no more natural gas can be found. The map is based on studies commissioned by the National Petroleum Council, and from U. S. Geological Survey information.

Oil and natural gas production has been established in only about 50,000 square miles (less than 2 percent) of the 3,000,000 square miles identified as having oil and gas potential. Tremendous quantities of new natural gas are expected to be produced from the 98 percent of the untested, potential sediments as natural gas prices rise to the market value of other fuels.

Geologists have known for years that huge quantities of new natural gas either actually exist or probably exist in environments where artificially low prices for gas

have prevented the drilling of wells. They fall into these general categories:

1. **LOW-PRODUCTION AREA** where wells may produce slowly for many years, or require expensive special recovery treatment, neither of which is economic under past price regulation. The Fort Worth Basin of Texas is such an area, where unregulated prices have provided the incentive to increase drilling activity by 600 percent in four years, swelling gas supply by 3000 percent in parts of the area.
2. **DEEP GEOLOGIC BASINAL AREAS** where the largest reserves of natural gas have long been expected to come from depths below 15,000 feet. In 1976 only 404 such deep wells were drilled

(1 percent of the total of 39,875 wells) due to uncertainty of gas prices sufficient to provide an investment return.

3. **FRONTIER AREAS** at remote distances from existing pipelines, where no immediate market is available and long term investment for development has not been justified by low gas prices.

4. **SPECIAL CATEGORY AREAS**, such as the Texas Gulf Coast where 105,000 Trillion cubic feet of gas has been calculated to exist in high-pressure, hot salt water. Only 10 percent of this gas would supply the needs of the entire nation for 200 years.

Now! What you pay to lease a Zimmatic depends on the price of corn.

Here's another first from Lindsay the Zimmatic Corn Crop Lease. Instead of a fixed lease payment, you pay for your Zimmatic based on the price of corn. If corn prices plunge, so does your lease payment.

By offering this new lease, Lindsay is sharing some of the same risks that you face every year. Corn prices fluctuate, which affects your profit picture. That's why Lindsay developed the exclusive Zimmatic Corn Crop Lease... a revolutionary program that tailors your lease payments to the changing price of corn, from one year to the next.

The Zimmatic Corn Crop Lease is designed so you can lease a Zimmatic without using your normal operating credit sources... your Zimmatic pays its own way by turning on your production.

The number of Zimmatics available under this program and the time period of this offer are limited so come in soon and get all the details on the Corn Crop Lease and other exclusive leasing programs available only through Lindsay Credit Corp.

Take advantage of a program that has never been offered in the industry before... it's the lease we can do for you.

Tamera Holland And Bert Rimmer Wed In Garden Ceremony

Miss Tamera Jayne Holland, daughter of Mr. and Mrs. Carlton Lee Holland of Plainview, and Ronnie Bert Rimmer, son of Mr. and Mrs. Kenneth V. Rimmer, also of Plainview, repeated wedding vows Saturday, September 3rd. Bill G. Brown of Lubbock performed the 8 o'clock p.m. ceremony in the garden at the home of the bride's grandparents, Mr. and Mrs. A.L. Holland, 1302 Amarillo Street in Plainview.

The groom was reared in Floydada and lived here with his parents until some 15 years ago when they

moved to near Plainview. He is a 1973 graduate of Plainview High School and attended Texas Tech University where he was a member of Beta Theta Pi Social Fraternity. The groom is presently engaged in farming near Plainview.

The bride is a 1976 graduate of Plainview High School and is associated with Mophone of Plainview, a division of Associated Communications, Inc.

For the garden wedding she chose a formal length gown of sheer white organza with embroidered Venice lace gently shaping the renaissance neckline and overlaying the empire bodice. Softly tiered ruffles formed the short cap sleeves. The full A-line skirt flowed into a chapel length train with a deep flounce, edged with Venice lace, forming the hemline of the skirt and train.

She wore a picture hat of matching organza and lace banded with silk tulle, which formed a double bow in the back. The wide streamers of the bow extended the full length of the train and were trimmed with Venice lace. She also wore white bridal mitts and a yellow garter,

made for her by her paternal grandmother in her chosen color.

For something old, the bride wore a solitaire which was her maternal grandmother's engagement ring and worn by both her grandmother and her mother in their weddings. She borrowed a pearl pendant from her mother, and for something blue she had a satin pocket for her shoe with two pennies and a six-pence for good luck. The blue satin pocket and the pennies were given to her by the groom's sister. The copper wheat pennies were minted the year the bride and groom were born. An arm bouquet of white roses, daisies and assorted blooms, laced with baby breath and white stephanotis complimented the brides' ensemble. A detachable white cateleya orchid in the arrangement was her going away corsage.

Maids of honor were Miss Pam Foster, Lubbock and Miss Jodie Estes of San Marcus. Matrons of honor were Mrs. Ric Holland, Plainview, sister-in-law of the bride, and Mrs. Ron Jantzen, Corsicana, cousin of the bride.

Bridesmaids included Miss Nelta Culver of Lubbock, Miss Tammy Wesley, Levelland, Miss Cheri Holley and Miss Holly Horn both of Abilene.

Miss Marzee Holland of Plainview, cousin of the bride, was junior bridesmaid. Flower girl was Angie Holland, Plainview, cousin of the bride.

Ring Bearers were Roxie Holland, Plainview, cousin of the bride, David Pool, Austin, cousin of the bride. Train bearers were Brian Lindsey and Scott Lindsey, Lubbock, nephews of the groom.

Serving the groom as best man was his nephew, Mike Rimmer of Des Moines, Iowa. Groomsman were Ross McKinney, Lubbock, Reggie Holland and Ric Holland, brothers of the bride, Plainview, Darrell Holley, Lubbock, Jim Green, Plainview, Max Fugate, Levelland and Johnny Mallow, Windom. The groomsman also served as ushers with the exception of the bride's two brothers, who together escorted their mother.

Bridal attendants wore gowns fashioned with fitted bodice empire waists, A-line skirts, and spaghetti straps of white printed chiffon of yellow roses over

Mrs. Bert Rimmer

yellow satin. They carried arm bouquets of greenery and yellow roses, and wore hair pieces of matching flowers.

Junior bridesmaid, ring bearer and flower girl wore yellow chiffon over soft yellow satin with fitted bodice, spaghetti straps and yellow gathered skirts with yellow silk roses at the waists. They wore clusters of daisies in their hair.

Martin Duckett, Plainview, was pianist. Solos and group singing were by Miss Tammy Pyatt, Miss Margie Hodges, Ronnie Arnn, and Danny Ellis, cousin of the bride, all of Plainview. Roger Edwards was trumpeter.

A special song, "Tammy" was sung by Danny Ellis. Other songs during the ceremony were "Evergreen," "Wedding Song," and the "Lord's Prayer." "Trumpet Tune" was played for the groomsman entrance. "The Hawaiian Wedding Song" was also a special number during the ceremony.

Mrs. Reggie Holland, sister-in-law of the bride, registered guests. For the reception which

followed, the brides' table was in the living room centered under a Strauss Crystal chandelier. It was laid with a white chantilly lace cloth over white satin and held a three tiered colonnade cake, topped with wedding bells entwined with lily of the valley. The centerpiece was of yellow roses, white daisies and other mixed white flowers. Picot ribbon streamers, with clusters of flowers on the ends, extended from the arrangement. Silver appointments were used. Mrs. W.C. Hayes, cousin of the bride and Miss Nancy Dunning of Abilene served cake. Mrs. Ken Rimmer, sister-in-law of the groom, Mrs. J.D. Ellis, Mrs. Kim Hughes, aunt and cousin of the bride, served punch and assisted with other duties.

The grooms' table in the dining area of the home was centered under a tiffany lamp. An arrangement of yellow daisies and votive cups, in a silver candelabra formed the centerpiece. The table was laid with a hand-made ivory French lace cloth over yellow. The groom's cake was served by Mrs.

Darryl Lindsey, Lubbock, the groom's sister, and Miss Trae Nobles of San Angelo. Coffee was served from a silver urn by Mrs. Tommy Holland, aunt of the bride with Mrs. Leon Melton, great aunt of the bride and Mrs. Darwin Green cousin of the bride, assisting.

Yellow satin rose buds, filled with bird seed were distributed to guests by the groom's nieces, Beth Ann and Kim Rimmer of Des Moines, Iowa.

Newlyweds departed for a short wedding trip to a summer cabin in the Sangre de Christo mountains, near Santa Fe, New Mexico, then to the Grand Bahama Island. They will be home after September 18 at Route No. 2, Plainview.

The rehearsal dinner, hosted by the groom's parents was held Friday evening at The Far East Restaurant.

Among out of town guests registering early were: Mr. and Mrs. G.D. Applewhite, Hale Center, Grandparents of the bride; Mr. E.B. Rimmer, Stockton, California, grandfather of the groom. Mrs. W.R. Colville, Amarillo, great aunt of the bride; Mrs. Gertrude Young, Fort Worth, great aunt of the groom.

Mr. and Mrs. Bernie Joe Greenwood, Mr. and Mrs. Artie Dennis, Mr. and Mrs. Cliff Riley, Mr. and Mrs. Louis Wardlaw, Mr. and Mrs. Mike Hawk, Mr. and Mrs. Randy Evans, Mr. and Mrs. A.J. Harvey, Mrs. Charles Simpson Donnie and Ronnie, Mrs. Perry Threadgill, Mr. and Mrs. Durwood Finley, Mr. and Mrs. Darryl Lindsey and Mr. and Mrs. Bill Brown, all of Lubbock.

Mr. and Mrs. Hershel Travis, Modesto, California; Mr. and Mrs. Roy Hazelip, Irving; Mrs. Gertrude Young, Fort Worth; Mr. and Mrs. Cecil Hanks, Electra; Mr. and Mrs. Ken Rimmer and family, Des Moines, Iowa; Mrs. A.J. Earp, Childress; Mr. and Mrs. Q. Carter, Littlefield; Mr. and Mrs. Raymond Rimmer and family and Mr. and Mrs. Tom Barrick, Arlington.

Mr. and Mrs. W.C. Hayes and David, Austin; Mr. and Mrs. Darwin Green, and Mrs. Ron Jantzen of Corsicana, Mr. and Mrs. Floyd Layfield, Trinidad; Mr. and Mrs. Jerry Sheets and Michelle, Garland; Miss Elvia Moreno, El Paso; Mr. and Mrs. Clarence Fought, Clovis, New Mexico; Mrs. Barbara Hatfields, Carleton, Mr. and Mrs. Bob Goulden and Bob Marshall; Mr. and Mrs. Gary Hankins and Chris, Electra; Mrs. Virginia Carver, Floydada, Mrs. Eugene Heath, Mr. and Mrs. Dick LeMond, Mr. and Mrs. Gene Alexander, Mr. and Mrs. Claude Burnette, Mr. and Mrs. Wesley Davis, Mr. and Mrs. Swan Pettie; and Mrs. Leonard Robertson all of Hale Center.

DECEMBER WEDDING PLANNED...Mr. and Mrs. Richard Clinton Beach of Fort Worth announce the engagement of their daughter Alison Marie to Stevan Wayne (Steve) Barker, son of Mr. and Mrs. Art Barker Jr. of Lockney. Miss Beach is a graduate of Boswell High School in Fort Worth and of Texas Tech University, and attended the University of Texas at Austin. She is an Alpha Chi Omega Sorority member. She is employed by Margaret's of Lubbock. Barker, a Lockney High School graduate, received a B.A. degree from Texas Tech and is a third-year student at the Texas Tech School of Law. He is a member of Delta Tau Delta Fraternity. Barker and Miss Beach will exchange vows December 31, 1977 in the First Presbyterian Church in Fort Worth.

FLOYD DATA
Miss Carla Moosberg is commuting to Tech this fall. Later in the semester she will commute to Lockney High School to do her student teaching in Home Ec. Education.

The word nickel comes from a German word for "imp" because of the trouble it gave chemists in early times.

Europe's most successful new car in history is now at
BACCUS MOTOR CO.

1978 FORD
FIESTA

The remarkable success of the new Fiesta in Europe has surpassed even the most popular cars from Volkswagen, Renault and Fiat. Behind that success are these good reasons:

GREAT FEATURES!

- Hatchback. Looks, unlocks easily through rear door.
- Easy service. See-through battery indicator, brake fluid units.
- Does 0-50 in an average of 8.8 seconds (an average of 9.1 seconds). Cold, emissions equipped models.
- 100 miles on 14.4 gallons, which occurs every 100 miles (normal driving). Many maintenance-free parts.

- Front-wheel drive. Go in snow, mud or ice.
- Power. Seats four adults. More back seat leg room than any other imported or domestic car in its class.
- Transmission-mounted engine gives nearly flat floor.
- Fold-down rear seat. For 29 cu. ft. loadspace.

GREAT MILEAGE!
EPA-rated at **46** MPG HWY / **34** MPG CITY

Mrs. William Dean Jones

Darlene Johnson Bride Of William Dean Jones

Miss Joyce Darlene Johnson became the bride of William Dean Jones Saturday, September 3, 1977 at 5 o'clock in the afternoon. The double ring ceremony was performed by Reverend William L. Self at the Wieuca Road Baptist Church in Atlanta, Georgia. Following the ceremony, a reception was held in the Grand Salon Room, Fox Theater.

The bride is the daughter of Mr. and Mrs. Bruce Lee Johnson of Hurst, formerly of Floydada. The groom is the son of Mr. and Mrs. George Dean James of Oklahoma City, Oklahoma.

Given in marriage by Jack Lee Johnson of Fort Worth, her brother, the bride wore a traditional gown of ivory satin and re-embroidered Alencon lace. The empire bodice featured a high neck crowned in lace and a sheer yoke of organza softly accented with a touch of lace. The bodice was adorned with motifs of lace and had long tapered sleeves scalloped with re-

embroidered Alencon lace from the elbow to the wrist, giving a peek-a-boo effect. The A-line skirt flowed from a high empire waist with vertical rows of Alencon lace at each side accenting the line of the dress with the hem encircled with Alencon lace. From the back waist fullness, soft gathers of satin flowed into a chapel length train.

She wore a cathedral length mantilla completely edged in matching Alencon lace.

The maid of honor was Miss Cindy Augenstein of Fort Worth, sister of the bride. Brides matrons were Mrs. J. Eugene Bain, of Arlington, Mrs. Jack L. Johnson, of Fort Worth, sister-in-law of the bride, Mrs. John L. Scoggins, of Marietta, Georgia, and Mrs. Andrew J. Tuggle, of Atlanta, Georgia. Attendants were gowned identical in print jerseys of rust and apricot on an ivory background. The double spaghetti strapped dresses featured high empire bodices with

ties gathering the bodices at empire points sending folds of fabric down the A-line skirts. Sheer matching print chiffon capes accented the gowns.

Best man was John L. Scoggins, of Marietta, Georgia. Groomsman were Bill W. Shoptaw of Marietta, Georgia, Richard D. Walker, Joe V. Myers, and Andrew J. Tuggle, all of Atlanta, Georgia.

Miss Allyson Shoptaw of Marietta, Georgia was flower girl and Andrew Brett Augenstein of Fort Worth, nephew of the bride, served as ring bearer.

The bride graduated from Floydada High School and attended West Texas State University and is employed as a flight attendant for Eastern Airlines. The groom is a graduate of the University of Oklahoma where he was a member of Alpha Tau Omega fraternity. He is presently employed by Gulf Coast Investment Corporation in the Commercial Loan Department.

The couple will reside in Houston, Texas at 2331 Alabans.

E.M.T. And Hospital Auxiliary Set Fund

Raising Garage-Bake Sale

At a joint meeting Monday by E.M.T. and Caprock Hospital Auxiliary it was decided to hold a garage and bake sale to secure funds for a heart monitoring machine for Caprock Hospital and needed equipment for their ambulance.

The garage and bake sale will be in

the former location of Spears Small Engines, next door to Stewart Cleaners on North Main, September 8, 9 and 10th from 8 until 5 p.m.

Anyone having items they wish to donate may take them to Caprock Hospital where the collection station will be located.

Mrs. Andrews

Mrs. Cecil (Margo) Andrews, a former Lockney resident, died August 1 in Methodist Hospital in Lubbock, after a brief illness.

Mrs. Andrews, a native of Rheinhausen, Germany, had been a resident of Levelland for six years. She was the manager of Eva's Youth Shop and a member of the Cactus Drive Church of Christ.

Services were held August 3 at the Church of Christ with George DeVol officiating. Interment was the City of Levelland Cemetery. Survivors are her husband,

Cecil Andrews of Levelland; two daughters, Mrs. Lynn (Marion) Bryant, Memphis, and Celia Andrews, Levelland; her father, Heinrich Huenten, Duisburg, Germany; and one grandson. She was a daughter-in-law of Mr. and Mrs. C.H. Andrews of Aiken.

The first American college of pharmacy was established in Philadelphia in 1821.

Seven Floydada Women

To Be Listed In OYWOA

The Board of Advisors for the Outstanding Young Women of America Awards Program announced today that seven Floydada women named have been selected for inclusion in the 1977 edition of OUTSTANDING YOUNG WOMEN OF AMERICA.

The Outstanding Young Women of America Program is designed to honor and encourage exceptional young women between the ages of 21 and 36 who have distinguished themselves in their homes, in their professions and in their communities. Accomplishments such as these are the result of dedication, service and leadership-qualities which deserve to be recognized and remembered.

This is the goal of the many leading women's organizations, college alumni associates and public officials who nominate deserving young women to participate in the program. Serving as chairman of the program's Advisory Board

is Mrs. Dexter Otis Arnold, honorary president of the General Federation of Women's Clubs.

The women listed, along with approximately 10,000 fellow Outstanding Young Women of America from across the United States, will be presented in the prestigious annual awards volume. In addition, they are now being considered for one of the fifty-one state awards to be presented to those women who have made the most noteworthy contributions in their individual states. From these fifty-one state winners, the Ten Outstanding Young Women of America will be chosen. The ten national winners will then be honored at the annual awards luncheon to be held this fall in Washington, D.C.

Those listed in Floydada include: Judy Frances Allen, Kathy Lou Burk, Rebecca J. Burns, G. Gean Christopher, Rhonda Kay Guthrie, Norma Jean Patton, and Kaye V. Powell.

Olive trees sometimes live more than one thousand years.

Susan Gramstorff And John L. Fetzer Wed

Susan Gramstorff and John Leroy Fetzer were married at the home of the bride's parents, Mr. and Mrs. J. John C. Gramstorff, of Farnsworth, Texas, at 11:00 in the morning on Saturday August 20. Reverend Wallace Kirby, pastor of the First United Methodist Church, Perryton, Texas, performed the double ring ceremony. Parents of the bridegroom are Mr. and Mrs. Bruce L. Fetzer of McHenry, Illinois. The couple were attended by Young Sook Han, of Tallahassee, Florida, and Paul Harms, of Peoria, Illinois.

Attending the ceremony from Floydada were the grandparents of the bride, Mr. and Mrs. D.S. Battey, and Mr. and Mrs. David Battey, Jr.

Mr. and Mrs. Fetzer are

at home at 2442 A Street, Lincoln, Nebraska. Mrs. Fetzer received her M.S. in Nutrition from the University of Nebraska, Lincoln, Nebraska, in May, 1977. She received her B.S. from Grinnell College, Grinnell, Iowa, in 1975. Mr. Fetzer is attending the University of Nebraska, Lincoln, where he is majoring in business administration.

Staining Wood

You can add beauty to your home with staining, without straining your back or budget. A wide range of new earth-inspired stain colors is now available for exterior and interior wood surfaces and applying them is as easy as applying a coat of paint.

Before you begin staining, it's wise to gather the tools needed to do the job right. These include: paint brushes, tack rags, drop cloth or staining cloths for use in wiping interior semi-transparent stains. If you

are using an oil base stain, it should be applied with a natural bristle brush. For latex stains, use a synthetic or polyester bristle brush. The most important decision a homeowner has to make is in choosing the just-right color and stain effect desired—one that brings out the grain character of wood and enhances its color or one that disguises unappealing grain pattern and plays up the texture of wood.

To simplify color selection and show both opaque and semi-transparent color stain effects on wood, one company, PPG Industries, which makes Rez wood stain products, has introduced an easy-to-use stain selection system. It allows the consumer to see solid and transparent color effects in 144 colors. These include traditional and earth-oriented tones, rich woody greens, subtle tans, browns and neutrals, and new blues and grays to capture a New England weathered look. All are available

Tax Representative To Be In Floydada Thursday

AUSTIN—State Comptroller Bob Bullock announced he is sending a representative from his Lubbock office to Floydada on Thursday, Sept. 8th to assist local taxpayers and answer questions about state taxes.

Bullock said Enforcement Officer Raymond Bogus will meet with local taxpayers at the Floydada Court House Room 103 from 10 a.m. to 12 p.m.

"If Floydada-area merchants, or anyone else for that matter, have any questions about state taxes or need help in preparing tax

forms. Mr. Bogus will be there to assist them," Bullock said.

"We're trying to cut the red tape in this office and we believe these face-to-face sessions with taxpayers help do just that," Bullock added.

Bullock reminded those taxpayers who are unable to meet with his representative on September 8th that

they can still get their questions answered quickly by calling his TOLL-FREE tax information number in Austin. That number is

Baccus Ford Showing The 1978 Fiesta

Ford's German built Fiesta, now on sale at Baccus Ford Sales, South Main, offers sports car feel in a quality-built small-car package.

"Fiesta is the most successful new car ever introduced in Europe and already has received rave reviews from automotive editors and enthusiast publications in the United States," Rusty Baccus said.

"It's a car that must be driven to be appreciated and we hope interested customers will visit our dealership for a test drive so they can see for themselves what a truly fun-to-drive car Fiesta really is."

Built to exacting standards at Ford of Germany's Saarlouis assembly plant, the front-wheel-drive Fiesta is powered by a perfor-

mance-proven 1.6-liter Kent overhead-valve engine teamed with a fully synchronized four-speed, floor-mounted manual transmission.

Fiesta's driveability is enhanced by rack-and-pinion steering for more precise control and a MacPherson-strut front suspension system for improved directional stability. Heavy-duty shocks and a rear stabilizer bar are optional.

Fiesta's long list of standard equipment also includes Michelin steel-belted radial tires, front disc brakes, bright aluminum bumpers, highback bucket seats, carpeting and a fold-down rear seat.

Air conditioning, tinted glass, a rear window wiper/washer, sporty cast aluminum wheels and power front disc brakes are major options.

Function and economy were basic Fiesta design considerations. Built on a 90-inch wheelbase, the car weighs less than 1,800

pounds and has a 49-state EPA fuel economy rating of 46 miles per gallon highway, 34 mpg city and 38 mpg combined highway/city. (In California, Fiesta has EPA ratings of 43 mpg highway, 30 mpg city and 35 combined highway/city.) Gasoline mileage may vary under actual driving conditions.

Fiesta's front-wheel-

drive, transverse-mounted engine design saves space for additional passenger and luggage room. Rear seating, for example, is exceptionally good with more leg room than in most other cars in Fiesta's class.

Even with the rear seat in an upright position, Fiesta has nearly seven cubic feet of usable luggage capacity, and with the rear seat down there are 29 cubic feet of cargo space. The rear hatchback door extends down almost to the bumper for easy loading and unloading

of groceries or luggage. Fiesta is available in one model—a three-door hatchback—with four trim levels: standard, Decor, Sport and Ghia.

"Ford dealers in Europe sold more than 118,000 Fiestas during the car's first six months on the market—the highest introduction sales total for any new-car nameplate in European history," the local dealer noted, "and we expect it to be equally popular with value-conscious small car buyers in the United States."

FORD'S POPULAR German-built mini-car, the Fiesta, is now available. Fiesta is powered by a performance-proven 1.6-liter Kent engine. Standard features include rack-and-pinion steering, MacPherson-strut front suspension, steel-belted radial tires, front disc brakes, front bucket seats and fold-down rear seat. It is available in one model—a three-door hatchback—with four trim levels: standard, Decor, Sport (shown here) and Ghia.

Lockney Locals

Mrs. Bill [Wanda] Moats received word Thursday morning, Aug. 25, that her mother Mrs. Mary Hileman had passed away at McKinney. She had been a resident of the Pavilion Nursing Home in McKinney for the past ten years. Mr. and Mrs. Bill Moats, Donna and Paul, attended funeral services Saturday Aug. 27th at the Westminster Baptist Church in Westminster. Mrs. Hileman is survived by her daughter and a son.

Mr. and Mrs. Pete Shankle of Memphis, Tx. have spent the week visiting their daughter and her family, Mr. and Mrs. Carl Lee Jr., and Boyd, and Mr. and Mrs. Dale Galloway.

Mrs. R.L. Holland returned home Saturday of last week after a 17-day stay in Nichols Hospital, Plainview, where she has been a surgical patient. Their daughter and her family, the Ed Mussers left Wednesday of last week for their home in Marengo, Ill. The Mussers' son, Tom, stayed in Canyon to attend college as a sophomore at West Texas State; and their son, Bob, went to Columbia, South Carolina to enter a Baptist College as a third year ministerial student.

Mrs. Holland's brother, Mr. and Mrs. L.W. Powell of Gainsville, Tx. spent Friday night of last week in the Holland home. The Powells were returning from California where they had visited with relatives.

Mr. and Mrs. Melvin Thacker expect their daughter Jane and David Scheele to arrive Monday from Bryan, Tx. for a week's visit with them, and with David's family the Albert Scheeles of the Providence community. They will also visit Jane's brother, the John Thackers of Silvertown.

The O.C. Allison had as guests this past weekend their daughter and family from Plainview, Darla and Marion Cross, Pat and Curtis. A granddaughter, Kelli Cross from Plainview visited with them on Tuesday.

Clark and Lucille Harris spent last weekend in Colorado Springs, Colo. visiting her sister and husband, Mr. and Mrs. L.E. McNutt. Meeting them there and accompanying them home was their daughter and children, Mrs. Carolyn Whittington, Ronnie and Rainey. Carolyn and her children had gone to Denver with her sister, the Dane Clarks, the previous Monday.

Mr. and Mrs. F.G. Jones, Jr. spent last weekend at Sherman, Tx. visiting their daughter Teena and Richard Wooten. Teena works for the City of Sherman and Richard works for Texas Instruments.

Mr. and Mrs. B.B. Wilkes returned Wednesday from a 3-day visit in Austin, Tx. with their children Mr. and Mrs. Lesley Wilkes and daughters, Julie and Holly; and Patty Jo Wilkes.

Bill Hale Candidate For State Legislature

Floydada's Bill Hale has tossed his hat into the political ring as he this week announced his candidacy for State Representative of the 66th Legislative District.

Hale, a conservative, will seek election on the Republican ticket. The 47-year-old department store businessman made the announcement with the following statement, "I believe the best interests of the people in our district will be served by having a truly conservative representative in our State Legislature. I also believe that I am the man who can best further these conservative beliefs in Austin."

Hale was born in Floydada and has lived here all his life with the exception of service in the United States Air Force, 1951-53, and while attending Texas Tech, 1947-1955. His BBA degree from Tech was in personnel management.

He has been a partner with his father in Hale's Department Store since 1955.

The Hales have been married 25 years. Carolyn was the former Carolyn Halthcock. They have two married sons; Richard, assistant manager of Hale's Department Store and Michael, student at Texas Tech University. One unmarried son, Steven, is a first year student at Texas Tech Law School.

South Plains News

By Mrs. Murray Julian

South Plains, August 29th Students registered at South Plains Elementary School Monday, August 29, and then remained for classes. Mrs. Jeanne Yates is teaching 5th and 6th grades, Miss Carole Arnold, principal of the school, teaches 3rd and 4th grades, and Miss Alice Cooper is teaching 1st and 2nd grades. The teachers are driving back and forth from Plainview. Mrs. Pat Harris is school cook. Bus drivers are Mrs. Vickie Emert, driving the bus to Floydada, and Fred D. Blake, driving the small bus at South Plains.

Hobby Club Members will meet for a Dutch Luncheon in Plainview at noon Wednesday, September 14. The group will then visit the Museum in Plainview.

Congratulations and best wishes to Mr. and Mrs. Kelvin Cummings on the birth of their first child, a son, born Monday, August 29, named Kendall Kelvin, weighing 7 pounds and one ounce. Grandparents here are Mr. and Mrs. Kendall Cummings of South Plains.

Mrs. Frank McClure is in the Lockney Hospital, Room 6, this Monday, and will be there for a few days. We hope that she soon will be able to go home.

Mr. and Mrs. Tillman Powell and Sandra went to Van Alstyne, near Dallas to spend the weekend with his mother, Ethel Powell. They returned home Sunday evening.

South Plains PTA met at the school house Monday morning for their first meeting of the year, and Mrs. Nathan Mulder presided. Their next meeting will be Thursday, September 8, at 2:45 p.m. All mothers and fathers are urged to be present for the meeting. If you would like fresh pecans, please call Carolyn Marble or Kathy Mulder, so they can find out how many the P.T.A. needs to order.

Mr. and Mrs. Terre Michaels of Dallas arrived here Friday for a visit with her grandparents, Mr. and Mrs. Alvin Nichols. Saturday all made a trip to Mackenzie Lake, and they report a great deal of water in the lake. Mrs. Nichols prepared birthday dinner Sunday in celebration of Cindy and Mr. Nichols' birthdays. Guests from Hale Center were Mr. Nichols cousins, Mr. and Mrs. Howard Springer. Birthday calls for Mr. Nichols and Cindy came from Cindy's sister, Mrs. David Allen and daughter from Moyock, North Carolina, and from Lake City, Colorado where Mr. and Mrs. Glen Whitfill are staying this week. They are the parents of Cindy.

Band students from South Plains in the Whirlwind Band at Floydada this year are Ronette Kitchens, Teresa Stewart, Dwayne Marble, Kristi Julian, Renee Sanders and Atha Blake.

Birthdays for September in this area are those of Stanley Sanders, Sept. 6, Reta Hamilton, Sept. 10th, Raymond Upton, Sept. 14th, Shelli Bethel, Sept. 15th, Murray Julian, Sept. 25th, and Mitzi Julian, Sept. 27. Anniversaries during September are those of Kay and David Pipes, Sept. 4th, Janis and Kendis Julian, Sept. 4, Genet and Fred Blake, Sept. 10th and Gail and Ira Henderson on Sept. 14th.

Mr. and Mrs. Harold Hamm are grandparents of Duane Patrick Huff, born August 15, to Mr. and Mrs. Patrick Huff, who live in Arlington. Other grandparents are Mrs. Vilyn Huff of Arlington and Leon Huff of Oklahoma City, Okla. Great grandparents are Mrs. Lena Patrick of Arlington. The baby weighed six pounds at birth. He was in the hospital for a week, but is home with his parents now and doing fine. Mr. and Mrs. Hamm were there and stayed until this last Thursday, when they returned home.

Len Wood is going to attend Texas Technical University this fall, as a freshman. Randy Calahan is back to West Texas State University this fall to resume his studies. Arlene Hamm, who finished at Texas Tech the first semester of the summer term in July, with a Bachelor of Fine Arts degree has gone to Arlington where she will visit Mr. and Mrs. Pat Huff. Donette Marble left Tuesday a week ago, for Levelland, and is enrolled in South Plains College. She had only a week

at home as she went to both terms of summer school at Levelland. She is a sophomore this fall. Mr. and Mrs. Raymond

Upton returned home Monday evening from Ruidoso, New Mexico where they spent a good, restful vacation the past week.

Other vacationers in Ruidoso were Mr. and Mrs. L.N. Johnson and Deneen and Denise, who spent the weekend there and returned home Monday.

Mr. and Mrs. Early Pritchett have been enjoying a vacation out to Ruidoso, the

past week, and are expected home in a few days. The weather is perfect out there, with a hint of fall in the air, and cool nights make for pleasant vacations.

Mrs. R.L. Holland, mother of Mrs. Don Marble, spent over two weeks in the Central Plains Hospital in Plainview, and was able to come home last Saturday. She had undergone major surgery.

State Welfare Has A New Name

The State Department of Public Welfare will have a new name Monday, August 29, but it will be doing the same job.

A bill passed during the regular session of the 65th Legislature goes into effect Monday, changing the name of the agency to the Texas

Department of Human Resources (DHR).

As the Department of Human Resources, the agency will continue to offer the same services as it did as the welfare department. Public assistance in Texas primarily is provided to the needy aged, disabled, and to

dependent children.

Publications of the agency carrying the old welfare name will be used until supplies are exhausted, then will be reprinted with the Department of Human Resources name.

Telephones are now being answered with Department of Human Resources, not welfare department.

As head coach of the Green Bay Packers, Vince Lombardi lost only one championship game, a 17-13 decision to the Philadelphia Eagles in 1960.

The National Football League was organized on Sept. 17, 1920, in Canton, Ohio, under the name of the American Professional Football Association.

George Halas was the head coach of the Chicago Bears for 40 years.

Modern Day Saddle Tramp Passes Through Floydada

Frank Roubieu

By Peggy Medley
A modern day saddle tramp spent several nights in Floydada the past week listening to yarns spun by old timers and gathering information for his new book simply titled, "Modern Day Saddle Tramp."
Frank Roubieu, 33 year old former professional rodeo rider, stopped over in Floydada as he has done in several other small towns enroute from Ardmore, Okla., to Bakersfield, Calif., aboard his seven year old registered quarterhorse mare named Haint-Killer.
While here he was houseguest of the Larry Ferguson, worked two days for Mike Smith, one day at the Floydada Sale Barn...and enjoyed interviewing old timers in the company of Bobby

Jack Dempsey, whose father, Jack, is a rancher on the Cogdell Ranch.
Frank's trip started in early August and he plans to reach Bakersfield around the first of December "providing I make it through the Mohave Desert on Haint-Killer," he stated. He also has four mountain ranges to cross so the going could be tough. Frank said he would travel Highway 70 to Muleshoe, south to Elida, then to Roswell, Socorro and the Continental Divide to Phoenix. From there he will decide on conditions for the trip across the desert, picking up pack horses with supplies to last him until reaching his destination. After reaching Bakersfield, he plans to return to Oklahoma by plane and his horse by truck.
From his adventures he will compile his book, "Modern Day Saddle Tramp." At the present time he is writing "Home Remedy and Folk Lore For Livestock." His books already on the market are "Artificial Insemination For Cattle" and "Reproduction Physiology for the Bovine Equine."
Frank, a native of Louisiana, has a degree in Animal Science from LSU. He grew up on a ranch and when he moved to Norman, Okla., in 1969 he established the J.R. Cattle Co., Ranch near that city. Frank travels a great deal giving lectures on artificial insemination and its feasibility and daily working of cattle.
This is his first real adventure traveling a great distance by horse. He says the slow two miles per hour, averaging 20 to 30 miles per day, tells on him as well as the horse. This, he says, is mental as well as physical, and adjustments must be made before he encounters the trip across the Mohave.
In the short time and the distance he has covered to Floydada, he said he had already found that western hospitality is real and was amazed at the attitude of people he has encountered thus far. Commenting on one rancher in Motley County, Frank said he rode up to the ranch, asked for water, which he does not carry, and received a friendly reply of "Sure, help yourself, haven't seen a saddle tramp around here in nie on 50 years!" Frank ended up spending a couple of days at the ranch, taking

FLOYD DATA

Mrs. Clifford Hacker and children, Cliff and Cris Lee of Knox City spent a week in Floydada recently visiting her parents, Mr. and Mrs. Leroy Burns. Visiting Thursday of last week with Mr. and Mrs. Burns were Clifford Hacker and Cliff, who had been in this area on business and were enroute home.

FLOYD DATA

Mr. and Mrs. Truman Hagler of Houston were guests last week of Mr. and Mrs. Carl A. Moosberg, Carla and Alice, Hagler is Mrs. Moosberg's brother.

There have been ten Triple Crown winners in racing and three of them had names beginning with S. They were Sir Barton, 1919; Secretariat, 1973; and Seattle Slew, 1977.

Jim Wright To Speak For Area Democrats

Fran Finney and Carl King, State Democratic Executive Committee members from the 31st Senatorial District, announced plans have been completed for "An Evening With Jim Wright." The "Evening" will include a reception, dinner and remarks by Wright, Majority leader of the U. S. House of Representatives. Special host for the event will be Congressman Jack Hightower of Vernon.
"An Evening With Jim Wright" will be held on Friday, September 23 at the Hilton Inn on Interstate 40, east of Amarillo. Committee-man King said of the plans, "This event should foster strong, clear lines of contact and communications between our area and top Congressional leadership." Mrs. Finney said, "The evening should help further to acquaint the new Majority Leader with the particular concerns of the Panhandle area. He is a dynamic man and will probably be the next Speaker of the U. S. House of Representatives."
In announcing plans for "An Evening With Jim Wright," the 31st District Executive Committee named

Jim Useton of Randall County as District Coordinator for the event. Co-chairmen for ticket sales will be Lois Johnson of Amarillo and Kate McLeod. The Democratic County Chairmen will serve as coordinators for each of the twenty-six counties in the District.
In accepting the invitation to come to Amarillo, Congressman Wright said, "I am genuinely excited about this opportunity to come to the Panhandle. I look forward to this opportunity to visit with the people of this important area. As Majority Leader, I want the opportunity to discuss such major issues facing Congress as the new Agriculture Act, energy legislation, and foreign relations. I hope all citizens of the area will join with us."
Congressman Wright was elected majority leader of the U. S. House on December 6, 1976, after more than 27 years of public service. Wright represents the Fort Worth area in Congress. After distinguished military service, he was first elected to Congress when he was 31 years old. He is presently serving his twelfth consecutive term. A prolific writer,

Jim Wright has authored three widely-acclaimed books and numerous articles. Dinner tickets for "An Evening With Jim Wright" can be purchased for \$12.50 per person. Tickets for two to the reception and the dinner are available at \$100.00 per couple. All events will be held at the Hilton Inn in Amarillo.
Proceeds from the event will be used to support local needs and activities and will not benefit any political candidate or office holder.

JIM WRIGHT

notes for his book, which will contain true names, true towns and true stories he learns during his travels. Most of his nights through Texas, New Mexico and Arizona will be spent at ranches. He may sleep in the bunk house if there is one, or out under the stars in his bedroll, about the only thing he is packing aboard Haint-Killer. He will stop and work a day or two along the way for spending money, as well as sell key rings made by

Jim Houston's Western Store in Burkburnett. The leather key rings are engraved "Modern Day Saddle Tramp" with a picture of Haint-Killer. He says crossing the desert and mountain ranges will be a lonesome venture with only his horse to talk to so this particular portion of the trip could take its toll mentally.
Maybe the adventurous young man will not encounter what the early day saddle tramps did but he will have

to face the dangers of weather and varmints (the crawling kind) while he is breaking trail to California. He will face the first blush of the day to the golden twilight of the setting sun not knowing what is ahead for him and Haint-Killer...there will be sandstorms and hot winds, snow and rain...and from this will come "Modern Day Saddle Tramp."

WESTERN AG SALES CO., INC.

DRYERS

The three temperature "Sensor" Automatic Dryer utilizes a ten inch compartmentalized grain column permitting more air flow and uniform drying. Unique air-foil blade design produces more Cubic-Feet of Air per Minute (CFM) at low horsepower. Ram Jet Burner/Plenum for more efficiency. Many sizes available - some sizes in stock.

STORAGE

Meets the needs of both small and large operators. Heavy duty wall stiffeners resist downward pressures and are computer-designed to support drying loads and stirring devices. Easily adapted to include any number of bins and any size drying capacity. Your dealer can help you plan for the grain drying and storage you'll need.

AUGERS

Galvanized, seamless welded tubes provide greater strength and durability. Pre-Assembled to save you time and to eliminate parts shortages. Choose the power that's right for you, gasoline, electric, P.T.O., Hydraulic. Features include heavy channel, long-life drive, heavy-duty flight, heavy duty shaft, self-aligning bearings, high quality gear box.
