## Ronee Thornton Best 4-H Horseman In Texas

Ronee Thornton and Afton Socks

Ronee Thornton, daughter of Mr. and Mrs. Ronnie Thornton of Lockney, won the State Champion Horseman award at the Texas 4-H Horse Show, held July 25-29 in San Antonio. In addition to winning the state horsemanship title, Miss Thornton made the finals in showmanship, reached the semifinals in the western pleasure class, and placed fifth in the state in the halter geldings class with her horse, Afton Socks.

Some 600 to 800 youngsters were at the state horse show, with competitors in the horsemanship class numbering about 180. The horsemanship class "...recognizes a rider's ability to ride a horse correctly and to use various aids needed to cause a horse to perform basic maneuvers....Riders are judged on basic position in the saddle, position and use of hands, legs and feet, and ability to control and show a horse...."

Miss Thornton received a sterling silver belt buckle and appeared on a San Antonio television show. Lubbock radio station KDAV interviewed her in San Antonio and broadcast the interview Monday morning.

Another Floyd County 4-H'er, Jay Waller of Floydada, competed in roping and reining at the state show. Todd Wilson of Lubbock placed fourth in cutting.

## Longhorn Football

### Two-A-Days Start August 14

Shoes will be issued Wednesday through Saturday, August 9-12. War-

ren said. Physical forms are available at the coaches' office at the field house or the superintendent's office in the school administration building.

"We expect a large number of candidates for the 1978 version of the Longhorns," Warren said.

## Natural Gas For Irrigation Threatened

A high priority for natural gas used for irrigation pumping and crop drying is one of the subjects of the energy bill being considered before the Conference Committee this week in Congress.

The Board of Directors of Plains Irrigation Gas Users Assn. Thursday night, July 20, in Plainview, expressed alarm at the threat not only to priority, but to continued availability of natural gas at a price the farmers can afford to pay. Reports were made at the Board meeting of considerable work done and several trips to Washington by Board

members to secure a priority and to secure a separate category and a special price for agricultural gas, but the Board members were gravely concerned about the drastic need for representation in Washington over the next few months in order to redouble the efforts already begun if natural gas for agriculture is to be protected.

It was stressed that financial support in the form of at least \$5.00 per well from every irrigation farmer in the area was going to be absolutely essential if the work which needs to be

done is accomplished during this most critical period. President Mills stressed that it will be too late and much harder to accomplish if the legislation becomes law because it would then have to be done by amendments to that law.

Vice President Jay Boston indicated that this was just as important and vital to every agriculture-related industry as it is to irrigation farmers, and that he hoped that every phase of the cattle industry and all agriculture-related industries would financially support the farmers in this effort if they knew how critical the threat to natural gas for irrigation has become.

Mr. Bruce Rigler, Executive Committee member from Plainview, stressed the fact that any businessman, would be convinced by a trip to Pecos and a look at the empty business houses and a look at the sand dunes on formerly irrigated land where 75% of the natural gas for irrigation was cut off only two years ago, and the devastating effect upon the businesses in that area would convince any intelligent businessman that this could not be allowed to happen in the Panhandle and South Plains of Texas.

The Board directed that a letter be sent to the Secretary of Agriculture to try to protect the priority to be given natural gas used for irrigation pumping, and requested that county meetings be held in each county over the Panhandle and South Plains so that every irrigation farmer could be informed as to the current activities not only in Washington, but at the special session in Austin where Senator Kent Hance has proposed the introduction of a bill which would give the farmer a right of appeal to the Railroad Commission with regard to price of natural gas in the same fashion that cities and towns presently have to appeal from any rate.

As a result of the work already done, considerable support has been garnered for a special category for natural gas used for irrigation pumping and crop drying, as well as a special price, but much more work is needed and many, many more Congressmen must be convinced that this is absolutely essential if we are to continue to use natural gas for irrigation. Mr. Boston expressed the view that it would do no good at all to have all the natural gas in the world if the price skyrocketed to a point where farmers could not afford to pump their wells, and that that critical point in price had already been reached, and that unless a lot of ground-work was done and a lot of Congressman educated on the amount of food and fiber production contributed to the nation's economy by this area, we would never be able to buy natural gas at a price we could afford to pay.

Mr. Carl King, Executive Committee member from Dimmitt, has made many trips to Washington, and expressed the view that we could get a special category and we could get a special price for natural gas for agriculture, and told the Board he felt that this effort could be successful and would be successful if it received the right kind of support from everyone dependent upon agriculture production in the Panhandle and South Plains of Texas.

## Masahiko Likes It Here

### EXCHANGE PROGRAM BRINGS

### JAPANESE YOUTH TO FLOYD COUNTY

Ask Masahiko Nakamura if he likes it here (in Floyd County) and, after he understands what you've said, his eyes will light up and he'll nod an enthusiastic "yes!" Masahiko is one of two Japanese youngsters staying for a month with Floyd County families as part of the 4-H Labo International exchange program. The 14-year-old is staying with the Jerry Williams family in the Providence community and apparently having a lot of fun, although

staying with the Williams family involves a lot of work, too.

He arrived on July 25 and since then has "done everything Ty (the Williams' 14-year-old son) does." He's helped Ty and Jerry change irrigation pipe and work cattle, and washed heifers in preparation for the upcoming Texas Junior Angus Field Day at Brownwood, where Ty and Libby (the Williams' 12-year-old daughter) are to show the animals. Kay and Jerry Williams have another son, eight-year-old Matt, who's still a little young to show a heifer at Brownwood.

Masahiko has studied English, French and Spanish in the Labo Exchange Program, but there's still a language barrier. A lot of the conversation between Masahiko and his Floyd County "family" is with the aid of Japanese-English dictionaries.

We learned a few things about Masahiko and his country in an interview, also conducted with help from the dictionaries:

He lives in Tachikawa, Japan, (apparently a suburb of Tokyo) with his

father, Hisao; his mother, Kyoko; and a brother, Akhiro, age 11, who is also in the Labo exchange program.

Masahiko rides a train to school six days a week—he goes to school all day Monday through Friday and half a day on Saturday. He plays basketball and takes judo instruction in physical education class, and although they don't play football in Japanese schools, Masahiko knows about the Dallas Cowboys and Tony Dorsett. Baseball is not a school sport in Japan either, but Masahiko has played in several games in a pasture near the Williams home and, Jerry says, "gets a triple every time he comes to bat." Masahiko also likes to swim.

There are 62 students in his class at school. He started school at the age of seven.

His family owns two cars, both Toyotas, but Masahiko can't drive legally until he's 18, the age at which one may obtain a drivers license in Japan. His father works in business machine sales.

The weather where Masahiko lives is much like here—hot in the summertime, snow in the winter.

Kay says the Williams family is really enjoying Masahiko's stay here: "It will really be hard to see him go. We're afraid the month will pass too fast."

Another Japanese youth, Yoshiyuki Ishii, is staying with the Buck Fords in Lockney, also as part of the 4H-Labo exchange program.

### LABO EXCHANGE PROGRAM

The Labo International Exchange Foundation is a non-profit organization. The main purpose of the Foundation is to foster friendship and cultural exchange by sponsoring home-stay programs in several countries.

The Labo Foundation, inaugurated May 26, 1973, was born out of a pilot project begun in the summer of 1972. At that time, the Labo Teaching Information Center in Japan (founded in 1966) and the 4-H Clubs of America jointly sponsored home-stay visits. One hundred seventy-nine Labo Party children (11-18 years old) and tutor chaperones were placed in 4-H homes in America for one month. A savings and loan program of financial assistance for Labo members was established with the approval the Ministry of Finance of Japan.

Since that time a total of 4256 Japanese youngsters and 483 adults have stayed in 16 states and one Canadian province. During this same period 1599 American and Canadian 4-H young people and accompanying adults from 15 states and the province of Saskatchewan along with members of the Hawaii Kyoikukai and Hawaii Labo have stayed in Labo homes in Japan.

## Bagworms Attack

Adult bagworm moths are unattractive insects. Females are wingless, legless and worm-like. Males have transparent wings as a result of loss of their scales soon after emerging from their larval home. The evergreen bagworm moth is a species found chiefly on cedar and arbor vitae; and as Floyd people are finding out, at times entire trees can be covered with the pendant bags.

Newly hatched larvae, in spring, assume a strange posture while weaving a silken band around their bodies, attaching to it bits of cedar foliage. By adding the new material, a cylindrical case is formed which grows upward and soon passes the tip of the abdomen.

LET'S SEE NOW.....Conversation between Masahiko Nakamura and the Jerry Williams family sometimes requires a Japanese-English dictionary. Masahiko is staying with the Williamses as part of the 4-H-Labo Exchange Program. From left: Masahiko; Ty, Matt and Libby Williams. (Staff Photo)

**Worcester-McCormick Vows Pledged**

Floating candles in the stained glass windows of the Plainview First Baptist Church chapel illuminated the scene as Shirley Joyce Worcester and Gary Grau McCormick, both of Plainview, were united in marriage Saturday, July 29. Reverend C.O. Haile, pastor of Cone Baptist Church, officiated at the 8 o'clock ceremony.

Soloist Mrs. Hollis Payne, accompanied by Tammy Payne at the organ, presented "Let It Be Me," "We've Only Just Begun," and "The 12th of Never."

The bride wore a gown of white organza with a modified Victorian neckline. The princess style bodice was accented with cluny lace, which also highlighted the full bishop sleeves and hemline. The double-circle skirt fell to a blush length train. The veil, which was designed in 3 tiers, fell to dress length and was fashioned of hand-sewn scalloped lace caught to a Juliet cap trimmed in matching lace. Miss Worcester carried cascading yellow roses, white daisies, yellow pixie carnations and baby's breath accented with white streamers.

The bridesmaids' dresses were of cotton voile in alternating colors of yellow and blue, featuring empire styled bodices and scoop necklines. Lace panels, which fell to the flounced hemline, accented the front of the dresses and were repeated in the full sleeves caught at the wrist by lace cuffs. Each wore a picture hat and carried a nosegay of white daisies and yellow roses tied with blue and yellow ribbons.

Following the ceremony, a reception was held in the church parlor. The bride's table was dressed with a white lace cloth centered by the memory candle from

the wedding ceremony and the bridesmaids' bouquets. The four-tiered heart shaped cake was decorated with cascades of white daisies and yellow roses, yellow satin bells and a tulle heart. The groom's table was laid with a white linen cloth set with a silver coffee service. Following tradition, chocolate cake was served.

A brass archway was the background for the exchange of vows. On either side were brass spiral candleabras holding apricot tapers. The archway and candleabras were entwined with emerald greenery. The nuptial area was centered with a table laid in white, which held the unity candle.

Mrs. Andrew McCulley, organist, presented wedding selections including "A Time For Us", "Color My World", "Green Sleeves" and "Love Story". As the ushers lit the candles and the mothers of the bride and groom lit the white tapers on either side of the unity candle, Mrs. McCulley played "Romance". Mr. Kay Crabtree, pianist, accompanied his wife, Hope, as she sang "We've Only Just Begun", "Evergreen", and "The Wedding Song".

The bride, given in marriage by her father, wore a classic silhouette - a formal gown of white crystal organza, designed with a fitted bodice of French chantilly lace graced with tiny bows and seed pearls. # Rancher To Receive National Gold Spur Award

Visions of yesteryear will flash before ranch families when they gather Friday, Sept. 22, in Lubbock to participate in a Livestock and Money Symposium and party. The annual Ranch Day will follow on Sept. 23.

Industry leaders will honor one of their leaders when the initial National Gold Spur Award is presented. The award, designed to spotlight humanistic and scientific contributions of the livestock and

ranching industries to society, is sponsored by six organizations: the American Quarter Horse Association, the National Cattlemen's Association, the National Wool Growers Association, the Ranching Heritage Association, the Texas and Southwestern Cattle Raisers Association, and the Texas Sheep and Goat Raisers Association.

The National Golden Spur Award sponsors, with the

texas Cattle Feeders Association and the Texas Tech University College of Agricultural Sciences, will sponsor the Livestock and Money Symposium.

More than 1,000 persons are expected to attend a prairie party at 6:30 p.m. Sept. 22 in the Lubbock Memorial Civic Center. The National Golden Spur Award will be presented at the prairie party.

Costumes from the old west designed for a prairie party

"at least 20 years ago" will be brought out of storage for a parade of historic fashions at the prairie party. Representatives of various ranches are to serve as models.

This will be only one of numerous "throwbacks to our early days." Historic ranch music will come from "at least one pump organ and harmonicas."

This is designed as "an informal fun party" with semi-formal dress. Women are to

wear long dresses and men will be attired in suits and boots. Texas Rangers will be on duty to guard men's western hats.

Quilts are to form backdrops behind the speakers' platform. The quilts also will blend with the fashions from yesteryear.

The menu, tentatively, calls for prairie chicken, wild asparagus, square how cakes, buttermilk pie, Idaho potatoes, wild plum jelly and perhaps mesquite honey. Slices of watermelon surrounded by grapes are to form the centerpieces.

Music will begin from a harmonica wired into the audience. The program is scheduled to conclude with gospel songs. The evening "will be finished off with dancing and visiting."

"The entire evening will be unique in that we will touch on what ranch people really did," according to Florence Masterson the prairie party coordinator.

The program is not to include professional entertainers.

"We're not having widely known people, just folks," Mrs. Masterson says.

The Livestock and Money Symposium begins at 10 a.m. Friday, Sept. 22. The symposium, expected to attract participants of national prominence, will feature discussions on government regulations as they affect the livestock industry during the morning session. The afternoon agenda is to be devoted to production problems including economic factors as well as the end product. The symposium is scheduled to end at 2:30 p.m.

The Saturday luncheon will feature a circle of chuckwagons.

SYMBOLIC of ranching, past and present, is this photo which features a spur. A member of the ranching industry will be recipient of National Golden Spur Award activities Sept. 22 in Lubbock.

## 1979 Wheat Program Provisions To Be Studied

Texas wheat farmers reeling from the harvest of less than half of a 1978 crop but faced with declining prices due to the addition of 200 million bushels of the previous 1.1 billion bushel carry over stocks because of good

yields throughout the rest of the Nation, will meet to map strategy for next year in two area meetings. Otis Harman, Tulsa, President of the Amarillo based Texas Wheat Producers Association said that High Plains area county

Association directors will meet in Amarillo Wednesday, August 2 at the Texas A&M Research and Extension Center. A similar session will be held for the Rolling Plains area leadership Thursday, August 3 at the Research and Extension Center, Southwest of Vernon.

Harman said that on June 27, Secretary of Agriculture Bob Bergland indicated that he would, by August 15, announce government program provisions for the 1979 wheat crop. At that time he invited individual farmers and their organizations to make recommendations for his consideration on such matters as the level of set-aside acres, if any, the desired level of price support loan rates, the National Program acreage, whether to graze set-aside and/or crop acreage and more. Harman said, "We will be asking the county directors to help

draft a position statement on these and other items."

The Association officer indicated that Texas A&M Research & Extension personnel will outline current programs progress on wheat research and education activities and seek direction from the producer-leaders for priorities for future endeavors.

Jerry Rees, Executive Vice President of the National Association of Wheat Growers, Washington, D.C. will participate in both sessions which begin at 10:00 a.m.

The Texas Wheat Producers Association is supported by voluntary individual memberships of producers from throughout the commercial wheat producing area of the state.

**BEEF CATTLE PRICE OUTLOOK**--Beef cattle prices have dropped the past several weeks due to consumer resistance to high retail beef prices, weakness

The Rev. Dr. Mohr, retiring after 20 years as pastor of the American Lutheran Church in Copenhagen, was elected as pastor of the American Lutheran Church in Copenhagen, Denmark, on July 23, 1978.

Mohr was elected as the Southern District's President and Bishop, and was subsequently reelected for three consecutive six-year terms, giving a total of twenty-two years over all as chief administrator and executive of the District.

At the District's convention in Odessa early in May, 1978, the Rev. Dr. August Wenzel, director of LIFRS (Lutheran Institute for Religious Studies) based at Texas Lutheran College, was elected as successor to Mohr. Details as to the informal commissioning ceremony and the more elaborate and formal Installation Service for Dr. Wenzel will be worked out later this year.

(All official correspondence and telephone calls are to be directed to the District's offices in Austin. Wenzel plans to assume office no later than November 1.)

While Mohr was president of the Southern District he also served the ALC in various important capacities, including a trip to Africa in September and October of 1973 at which

time he represented the president of the ALC, Dr. David W. Preus of Minneapolis, in the Inaugural Service of the first Black Lutheran Bishop in Nigeria, the

## Mrs. Taylor civic leader

By MARIE HARRIS  
Herald Regional Editor

Virginia Taylor of Lockney just kept on naming the same as usual after she married — Mrs. J.P. Taylor of South Plains.

She graduated from Floydada High School and Joe Taylor served in the U.S. Army in Korea when they were married Oct. 12, 1957.

Since the years since their marriage, Virginia has been active in many activities that her husband sometimes doesn't understand why you want to do all this free time and adds, "If you were organized you'd be

football on a scholarship at New Mexico Military Institute at Roswell, N.M. and will be a captain this fall. Rise, 17, a senior in Lockney High School will be school mascot for the coming year. She plays guard on the girls basketball team and has been named to "Who's Who of American High School Students."

Mr. and Mrs. Taylor, members of the Band Parents Association, often work in the concession stands at ball games. They serve as reporters in the Girls Athletic Boosters. She is a past vice president and parliamentarian of Lockney Parent-Teacher Association when it functioned.

WHEN THE family lived on the farm east of town, Rise and Gregg raised and exhibited livestock. Recently Rise participated in the 4-H Share the Fun Skit at Texas A&M University, and Mrs. Taylor, a Mary Kay cosmetic consultant, accompanied the youths as makeup artist for the skit.

Past president of the board of Floyd County Historical Museum Association, Mrs. Taylor is chairman of the Floyd

County history book being compiled. "I have had super help," praised Mrs. Taylor, "or we would never have gotten it done."

Joe and Virginia were born in Lockney in the old Greer Clinic, but her folks lived 25 miles in the country. She grew up in South Plains. "We lived so far out I was terribly shy when I went to Floydada High School," Mrs. Taylor remembered.

EXPRESSION lessons from Mrs. Robert Lee Smith and high school speech and drama under Mrs. I.T. Graves, now of Lubbock, helped her develop poise and a speaking ability. "I give Mrs. Graves credit for helping me overcome my shyness," she said.

Mrs. Taylor went to state UIL contest twice with the high school one-act play and was named regional best actress. In later years, she won a Farm Bureau talent contest and represented Texas with a reading, "I Speak for Democracy", at the national meeting in Chicago. She gives recitations on special occasions.

The Taylors are members of First United Methodist Church where she has been on the official board and her husband now serves on the board. She was president of United Methodist Women the year it was organized and was a circle chairman of the old Women's Society of Christian Service. Mrs. Taylor, former Sunday School superintendent and teacher, is on the church historical committee.

EVERY MORNING at 10:25 listeners of KVOP Plainview radio station hear Mrs. Taylor giving the Lockney news. In the past she worked with the Floyd County American Heart Association and had a part in the American Field Service Unit. Mrs. Taylor, who assisted with Girl Scouts when Rise was a member, was herself a Rainbow girl.

"In becoming a member of the Daughters of the American Revolution, I became interested in genealogy and now am a buff," Mrs. Taylor explained. She also is interested in antiques, has done tile painting and enjoys reading. For pure relaxation, Mrs. Taylor hunts Indian artifacts with her father. She joined the Texas Archeology Society so she could attend the dig at Floydada Country Club in 1975.

For her accomplishments, Mrs. Taylor was selected for "Outstanding Women of America" and was named "Woman of the Year" by Lockney Chamber of Commerce.

Mrs. Taylor has one sister, Katie Taylor, who will teach kindergarten in Lockney this year. Taylor is a brother of James Taylor of Plainview and Charlotte Brock of Lockney. He is the son of Josie Taylor of Lockney and the late Jack Taylor. (Plainview Daily Herald)

Rev. Dr. Akila Todi.

Presently Mohr is serving on the Executive Committee of the Lutheran Council in

In 1967 Mohr was on study leave in Europe after which he introduced the Deaneries for pastors in the Southern District, a non-structured entity unique in the eighteen Districts of The ALC.

### As It Looks From Here

Omar Burselson, M.C. 17th District, Texas WASHINGTON, D.C. — WE AMERICANS ARE PRONE TO GIVE our special attention to about anything outside the norm. We seem to thirst for the unusual and for short periods our admiration for a celebrity can turn a rutabaga into a Rembrandt.

IN A WAY, IT IS FORTUNATE THAT THE SPAN OF OUR ATTENTION, as a rule, is short in this regard. In most instances, persons transformed into celebrity for whatever reason quickly fade into anonymity. Of course, some like movie stars, issue pronouncements on all sorts of subjects, the idea being that their fame qualifies him or her for giving weighty opinions.

MORRIS WAS DIFFERENT. Really, he is our kind of celebrity. He never flew to Hanoi during Vietnam; never espoused causes or signed petitions on issues on the left or the right. He did not appear on television in behalf of the League for Bean Curd Protection or the Alliance for Stomach Relief. The well-known cat took no position on nuclear power

generation or human rights in Bellaschransky. He issued no press statements on the condition of the world or its cures and never made the gossip columns.

MORRIS SIMPLY SOLD CAT FOOD and was a premier salesman for more than a decade. Perhaps his greatest success was to inspire imitators to have cats dancing and prancing in ballerina style.

ACCORDING TO HIS BIOGRAPHY, his earlier life was spent slinking around the seamy areas of Chicago as an alley cat. The story goes that he was rescued by an animal handler who recognized his potential. Probably, he said to Morris, "I can make you a star, kid."

He made him a star by putting him on the boards of television in commercials for cat food. He came up like a veteran trooper and will be remembered by a lot of kids who by now are not such little kids.

MORRIS PASSED ON A WEEK OR SO AGO AT AN AGE ESTIMATED TO BE 17 which is said to be 90 or more in human years. He had notched up more than 40 television commercials highly recommending his particular cat food.

MORRIS DIDN'T BECOME A CELEBRITY BY DASHING INTO BURNING HOMES to drag infants to safety with his teeth, or

awaking the occupants of a mountain village at four o'clock in the morning before an avalanche struck.

IT IS SAID THAT NO ONE OWNS A CAT but probably most everyone who saw Morris for a number of times in the commercial felt they owned him and he must have represented all cats for people who like cats.

MORRIS WAS A CELEBRITY AND MAY SURVIVE HIS POPULARITY about as long as a lot of people we think important. More so, his popularity may survive longer than people who think of themselves as being important.

WASHINGTON NEWS-PAPERS HAVE EDITORIALIZED ON MORRIS, citing his unusual proclivities as an actor and salesman extraordinary. It is reported that a replacement has been found and is being trained. Perhaps he should be warned that he will have a hard act to follow. Not particularly true with human celebrities — there's always a replacement who is as good or better — records are made to be broken.

"There are men who are happy without knowing it." Vauvenargues

IMPROVED EGG PRODUCTION—Most egg producers can improve efficiency and cash flow in the weeks ahead by paying close attention to certain production practices, notes a poultry specialist with the Texas Agricultural Extension Service. These include better supervision of employees, reducing feed waste, controlling rodents, insects and diseases, culling non-layers, and minimizing heat stress problems.

### NOTICE OF INTENT TO ABANDON

AB-109 (Sub-No. 1F)

Quannah, Acme and Pacific Railway Company hereby gives notice that on or about August 2, 1978, it intends to file with the Interstate Commerce Commission, Washington, D. C. 20423, an application for a Certificate of Public Convenience and Necessity, permitting the abandonment of a line of railroad extending from Railroad Mile Post G-728, plus 10 poles plus 700 feet, near Acme, Texas, to Railroad Mile Post G-833.2 near Floydada, Texas, a distance of approximately 104 miles, in Hardeman, Cottle, Motley, and Floyd Counties, Texas. The line for which the abandonment application will be filed includes the stations of Paducah, Texas at Mile Post G-766.1 and Floydada, Texas at Mile Post G-833.2.

The reasons for the proposed abandonment are the public convenience and necessity no longer require the continued operation of the line and the continued operation of the line would be a burden upon applicant.

The line of railroad has appeared on the System Diagram Map in Category 1 (§ 1121.20) (b) (1) since February 28, 1978.

The interests of railroad employees will be protected by appropriate conditions as set forth in Chicago, B. & Q. R. Co., Abandonment, 257 I.C.C. 700 and the applicable provisions of the Rail Passenger Service Act.

Any interested person, in response to this notice, is entitled to take either of the following actions:

1. File with the Interstate Commerce Commission written comments containing:
  - (a) exact name and address of the commenting party;
  - (b) brief statement of interest in the abandonment or discontinuance proceeding;
  - (c) specific statement of position and summary of evidence with regard to any or all of the following:
    - (1) intent to offer financial assistance;
    - (2) environmental impact;
    - (3) impact on rural and community development;
    - (4) suitability of the properties for other public purposes; and
    - (5) recommended provisions for protection of the interests of employees.

Written comments will be considered by the Commission in all proceedings in developing conditions and in determining whether to conduct an investigation on its own motion. In the event an investigation is conducted, then the commenting party may participate in the proceeding as its interests may appear.

2. File with the Interstate Commerce Commission a petition requesting that the application and proposed abandonment be investigated.

The petition to investigate shall be in the form of a verified statement, and at minimum, contain:

- (a) identification of petitioner including its name, address and business;
- (b) statement of petitioner's interest in the abandonment or discontinuance proceeding; whether petitioner uses the involved service; and if it does not, information with respect to the group or public interest it represents;
- (c) specific reason(s) for requesting the institution of an investigation, including information with respect to petitioner's reliance on the involved service, with allegations of fact supported by an affidavit of personal knowledge of the facts;
- (d) any rebuttal of information or material submitted by applicant; and
- (e) request for oral hearing and reasons therefor if desired.

Upon receipt of a petition to investigate, the Commission shall determine the extent of the investigation to be instituted. Those parties filing petitions to investigate should be prepared to participate actively in either oral hearings or via the submission of additional material in the form of verified statements. Parties seeking information concerning the filing of petitions should refer to 49 CFR 1121.36.

Petitions to investigate and written comments should indicate the proceeding designation No. AB-109 (Sub-No. 1F) and should be filed with the Interstate Commerce Commission, Washington, D. C. 20423 no later than Sept. 6, 1978. Interested persons may file either a written comment or a petition to investigate with the Commission to become a party to this abandonment proceeding. A copy of each petition to investigate or written comment shall be served upon the representative of the applicant, D. E. Engle, Vice-President-General Counsel, St. Louis-San Francisco Railway Company, 906 Olive Street - Suite 1023, St. Louis, Missouri 63101. Replies to comments or petitions, the latter shall be in the form of a verified statement, shall be filed with the Commission no later than Sept. 16, 1978 and shall be served on all commenting parties and petitioners. The original and two copies of all petitions, comments and replies shall be filed with the Commission together with a certificate of service.

In the event a petition to investigate prepared in accordance with the above instructions is filed, then the Commission will conduct an investigation of the abandonment. Written comments filed with the Commission will be considered by the Commission in all proceedings in developing conditions and in determining whether the Commission should conduct an investigation on its own motion in the event no petition to investigate is filed. Additionally, if an investigation is conducted then parties filing comments may participate in the investigation as their interests may appear.

Persons desiring further information concerning abandonment procedures may contact the Interstate Commerce Commission's Section of Finance, Office of Proceedings or refer to the full abandonment and discontinuance regulations at 49 CFR Part 1121. Persons desiring information concerning financial assistance for the continued operation or acquisition of the involved line should contact the Commission's Rail Services Planning Office. The carrier's representative to whom inquiries may be made is D. E. Engle, Vice-President-General Counsel, St. Louis-San Francisco Railway Company, 906 Olive Street - Suite 1023, St. Louis, Missouri 63101. A copy of the application will be available for public inspection on or after August 2, 1978 at each agency station, or terminal on the line proposed to be abandoned or discontinued. The addresses of those agencies are: QA&P Depot, Box 517, Floydada, Texas 79235 and QA&P Depot, Box 476, Paducah, Texas 79248. The Floydada station is open 8:00 A.M. to 5:00 P.M., Tuesday through Saturday, and the Paducah station is open 9:00 A.M. to 6:00 P.M., Monday through Friday. ### The Floyd Philosopher Claims Novelist Solzhenitsyn Missing The Boat On Our Love Of Gossip

Editor's note: The Floyd Philosopher on his Johnson grass farm gets around to reacting to a certain commencement address at Harvard.

Dear editor:

Somebody driving a tractor near my place yesterday had his radio going, the music drifted over to where I was sitting under a shade tree, and I got to thinking about Alexander Solzhenitsyn's commencement address at Harvard a few weeks ago. According to that prize-winning Russian novelist who's now living on his private estate in Vermont, American music is intolerable. Also, Americans like gossip too much.

I don't know what piece of music was coming over that tractor radio, rock songs all sound alike to me, but I know this: any time you're going up one row and down another all day long on a tractor, nearly any kind of music is tolerable. It's true you can't understand the words in lots of popular music these days, but I had a teen-ager decipher a song for me once and I'd just as soon she hadn't. You're no better off after you find out.

I can appreciate part of Solzhenitsyn's view of some American music, but given time he'll find out there's a knob on his radio that allows you to switch to a better station, and another knob which, if you turn it in the right direction, shuts off the music altogether. This doesn't work in public places with juke boxes, but it's better than Siberia.

As for Americans liking gossip, as a novelist Solzhenitsyn should be more specific. If he's talking about idle gossip, that's one thing, but if he's talking about juicy gossip, that's going too far. You mean to tell me a student of human nature as astute as he is doesn't think Russian women sitting under dryers in a Moscow beauty shop don't stick their heads out to hear better when an operator starts telling about what she heard just last night about so-and-so? You mean he doesn't think some member of the Politburo with his eye on the top spot doesn't smack his lips over the latest rumor about Chairman Brezhnev's health?

The Russians have outlived a lot of things but they'll never succeed in outlawing human nature.

Yours faithfully,  
J.A.

### Farmer Might Bring Fuel Back From Cotton

LUBBOCK - The farmer of the future may find the energy needed for production on top of the soil rather than in underground hydrocarbons.

Texas Tech University engineers are working on a process that would allow a cotton farmer to haul his crop to the gin and bring the trailer home loaded with fuel.

Dr. Harry W. Parker of the chemical engineering faculty, working with mechanical and agricultural engineers, has devised a scheme whereby cotton gin trash could be transformed by an individual farmer into enough fuel to run an irrigation pump.

Grain stubble or any other coarse organic waste might be used, Parker said.

The same system, made portable, might eventually run tractors or supply energy for feed preparation at feedlots, cotton gins, or the operation of small municipal electric generating facilities.

The cost of natural gas at \$1.80 per 1,000 cubic feet is still cheaper than the gas his laboratory model can produce at an equivalent price of \$3 per 1,000 cu. ft., including the investment and labor, but Parker is developing the process for possible use when the cost picture changes or when natural gas is unavailable at any price.

"With the cost of natural gas going up," Parker said, "we are looking for useful alternatives, particularly to pump irrigation water. The three that are getting particular attention are solar, wind and biomass energy."

"Biomass is a particularly effective alternate energy source for irrigation wells because it can be gathered from the same land which is to be irrigated."

Parker's idea is not new, he emphasizes. It is the same principal that Europeans used during World War II when charcoal produced the energy for driving

NOT EXACTLY look-alikes are Edmund's Brown's sorrel mare and her first foal, a paint jack colt.

### Paint Jack Colt Surprises Brown

## 'Why Is That Goat Under The Mare?'

Julio Sorpresa in Spanish means "July Surprise." It isn't surprising that Edmund Brown chose that name for his new paint jack.

Brown had bred his quarter-thoroughbred mare to "a small paint jack owned by a man up in Floyd County" last August. However, the mare had been a problem breeder and her owner did not believe she was in foal.

He peered out a window July 7 to a pasture where the mare was grazing with a Billy and nannie goat. His eyes must have been deceiving him, he decided.

"What's that goat doing that close under the mare?" he stated, half wondering aloud and half addressing his wife, Pat, and son, Scott.

He was even more amazed when he walked to the pasture and realized that the white with liver color spots creature under the mare was not really a goat . . . but the mare's paint jack colt.

Actually, Brown had noticed the mare "getting a little fat" but her size did not indicate pregnancy. He

though she had been overweight on "some real good hay."

The colt's size, however, somewhat surprising. Even though the mare is large, the little colt sire "is not much larger than the colt."

The little fellow's unique appearance has brought more than a few visitors to the Brown farm on the north side of the canyon in the Blanco community. "Edmund says he runs more like a horse than a jack," Mrs. Brown states. The colt is "extremely active."

Although Edmund hopes to raise a full brother or sister to the colt next summer, this year's colt apparently has a permanent home on the Brown farm.

One person offered \$500 for a young jack. Scott Brown, who developed a strong attachment to the foal, was having none of it. His remark was something like "\$10,000 probably wouldn't buy him."

Right now, the Edmund Brown family could lay strong claim to having the most unusual animal Crosby County.

Advisory Council. Working with Parker are Dr. Elbert B. Reynolds Jr. of the Department of Mechanical Engineering and Dr. Willie L. Ulich, professor of Agricultural Engineering. Among the students working on the project are two in Chemical Engineering, graduate student Lyndell H. Holmes and senior Richard Mergenhagen. Holmes is the son of William H. Holmes, Rt. 5, Amarillo. Mergenhagen's parents are Mr. and Mrs. Walter F. Mergenhagen.

Douglas Conner also from Houston and Bruce Conner of Lubbock joined them Sunday afternoon. They will visit the Connors a few days before going to Amarillo to visit relatives before returning to their home in Houston.

The funeral of Lillie Mae Luttrell, grandmother of Edna Gilly was held in the Assembly of God Church in Floydada Monday afternoon with Rev. H.E. Smithie, former pastor here, officiating. Mrs. Luttrell died from a long illness at the age of 95. She has a twin sister, Minnie Martin of Duran, Oklahoma. She is also survived by five daughters, Ruth Hill, Virgie Flowers, Edith Marrs of Floydada and Juanita Teeple of South Plains.

Elwauna Taylor is improving after undergoing major surgery in the Nichols Hospital in Plainview Friday morning.

### MARTIN & COMPANY SERVICEMEN LEARN ABOUT AXIAL FLOW COMBINE

When a farmer buys new equipment today, he is making a sizable investment in his business of efficient food production.

His confidence in his machinery must relate to how quickly his equipment dealer can get him going again after a field stoppage or breakdown. And this partnership with the dealer is becoming a primary reason affecting where he buys his machinery.

Mark Martin, local International Harvester agricultural equipment dealer, is convinced of this theory as it affects farmers and big equipment supply. His new IH Axial-Flow Combine is typical of a big investment for big equipment. His service team recently met with IH service specialists for a second schooling in Axial-Flow maintenance. "Uptime Service" he calls it.

"Although this new harvesting concept has been so simplified compared to what we had, we must keep learning how to cut equipment stoppage time to a minimum during the critical harvest period."

relatives here.

Last Saturday Edna Gilly's brother and family, Mr. and Mrs. Luchius Hill and three daughters from Springfield, Missouri, arrived to visit relatives here. Monday evening, Edna Gilly gave a cook-out in their honor. Those present were Mr. and Mrs. Dwight Teeple and boys of South Plains, and Juanita Teeple, Ruth Hill, Clara Redd, Christy and Casendra Harrison, Craig and Trudie Gilly and Amy, Mark and Lori Gilly.

Robin and Ruth Fortenberry went to Van Horn to visit Roger and Stephanie Sanders and Monica. While in Lubbock, they visited with Nancy and Harry Morckel and reported they are both doing fine.

Bryan and John Fortenberry are visiting with their mother, Marica Fortenberry, in Amarillo this week.

Durrel and Latricia Fortenberry and girls went fishing last week and brought back some large fish. They had a fish fry at their home Sunday evening. Others present were Mr. and Mrs. Robin Fortenberry and Mr. and Mrs. Cephus Fortenberry.

Mrs. Carl F. Lemons visited Temp Phillips Friday afternoon. Mr. and Mrs. C.W. Leonard of Amarillo were also present. Later Mrs. Lemons visited Mrs. Mildred Wells, also of Lockney.

The Fortenberry reunion will meet August 12th in Lockney at the American Legion Hall beginning at 10:30 a.m. Bread, drinks, meat, plates and silverware will be furnished. Bring a covered dish and enjoy the day. You are all invited. Let this be an old fashioned get together and visit your neighbors, relatives and friends.

Mrs. Norma Welch visited Grace Lemons and Gladys and Tom Fortenberry Thursday evening, and with Mattie Davis Friday morning.

Norma Welch and Connie Welch attended the wedding of Kelli Sue Parson and Donnie Joe Jackson at the First Baptist Church in Floydada Saturday.

Guests in the J.A. Welch home Sunday were Mr. and Mrs. J.R. Kelley, Connie Welch of Amarillo and Mrs. Ailene Welch of Flomot.

## THE HOT DOG VENDOR

There was a man who lived by the side of the road and sold hot dogs.

He sold very good hot dogs.

He put up signs along the highway and advertised in the newspaper telling how good they were.

He stood on the side of the road and cried:

"Buy a hot dog, Mister?"

And people bought.

He increased his meat and bun orders.

He bought a bigger stove to take care of his trade.

He finally got his son home from college to help him out.

But then something happened.

His son said, "Father, haven't you been listening to the radio and watching TV?"

There's a big depression.

The foreign situation is terrible.

The domestic situation is worse."

Whereupon the father thought, "Well, my son's been to college, he listens to the radio and watches TV and he ought to know."

So the father cut down on his meat and bun orders, took down his signs and cancelled his newspaper ads and no longer bothered to stand out on the highway to sell his hot dogs.

And his hot dog sales fell almost overnight.

"You're right, son" the father said to the boy.

"We certainly are in the middle of a great depression."

# South Plains News

By Mrs. Murray Julian

By Mrs. Murray Julian South Plains, July 30th. It was 60 degrees here Friday morning after the wonderful rain we received Wednesday night. South Plains and most of our community received about 70, with more at the L.T. Woods, Billy Staniforths and Don Beans' farm, where over an inch of rain fell. Farther south on the Busbee vegetable farm, only a small rain shower fell, but we are so very glad for all the rain that did come, and we will hope for more.

Mrs. Raymond Upton has been in the Central Plains Hospital for a week taking tests and receiving therapy. Friday all her children visited her: the Jimmy Uptons, the Karl Craigs and the Ronnie Uptons, from Bartlesville, Okla. from Lubbock and from Los Alamos, New Mexico. She got to come home this Saturday, and is doing just fine.

The children of Mr. and Mrs. Nathan Mulder, Cindy and Penny, spent the past week at Wellington visiting their aunt.

Kristi, Mitzi and Tim Julian spent a week with their aunt and uncle, Mr. and Mrs. Bruce Julian, Cindy and Wade in Perryton. Their parents, Mr. and Mrs. Kendis Julian brought them home Thursday, two weeks ago.

Mr. and Mrs. Harold Hamm are home, after about seven weeks, which Harold spent in Lockney and Methodist Hospitals following severe burns received in an accident at his home. Harold had therapy and skin graft last week. He came home Tuesday and is doing just fine after so many weeks in the hospitals.

Rev. and Mrs. Fred Blake went to the Youth Meeting held at the Baptist Encampment last Tuesday night. Their son, C.V. was there with a group from Levelland, and the Blakes enjoyed preaching at the evening meeting.

Mr. and Mrs. Tommy Scaff and boys, Blake and Scotty arrived home Friday evening from a vacation to Denton, Dallas, and Six Flags over Texas. They also saw three ball games and visited with relatives during the week they were gone. They had left on Saturday.

Mr. and Mrs. Frank McClure spent Wednesday night in Plainview with their daughter, Mrs. Jean McClure, and Thursday they visited with Rev. and Mrs. Jeff Messer at Quail. Mrs. McClure is doing much better since her long illness.

Mr. and Mrs. Sylvan Kinnibrough kept their grand son, Latham Dickens while his parents, Beth and Hank, were in Colorado on vacation last week. The Dickens family returned Wednesday and took Latham home. Sylvan and Bobbie spent a couple of days in Lubbock attending a show and enjoying Mrs. Kinnibrough's birthday celebration July 25. This Saturday evening they will have another celebration in Plainview at the home of a daughter, Marilyn and Teddy Horne. Others who will help them celebrate at the fish fry are Mr. and Mrs. Ray Dillard of Lockney, Mr. and Mrs. Hank Dickens, and the Horne family.

Mrs. Sue Shelton and daughter La Sandra who have lived in Center the past few years have moved back to South Plains and are living next to the home of Mr. and Mrs. Dean Stewart.

Mr. and Mrs. Jesse Evans went to the Methodist Hospital last Monday with their year old son, Weston where he received tests for a couple of days, and returned for a check up on Thursday. We are so happy to report he is doing fine.

L.N. Johnson returned from the Central Plains Hospital on Tuesday having gone there Friday July 14th and undergone gall bladder surgery. We are glad he is up and around and doing fine again.

Other Sanders underwent hip surgery in Methodist Hospital two weeks ago July 12, and is still in the hospital, but doing well. He intends to have surgery on the other hip before coming home, and we extend our best wishes and prayers for a complete recovery from both surgeries.

We offer our sincere sympathy to Mrs. Sterling Cummings and her family in the death of her mother, Mrs. Earl Norman of Hereford, on July 14th. Services were held on Sunday, July 16th, at 4:00 p.m. in the Womack

Funeral Home Chapel, at Crowell.

Friday morning Mrs. Royce Bethel (Kay) was in a car wreck in Lockney. Although her car received nearly total damage, she and the two little girls were not seriously hurt, although Kay received a gash on the chin

which required many stitches. We are so grateful no one was hurt worse.

Many in our area received hail during the Wednesday night rain. The farms that were hit include those of Hansel Sanders, L.N. Johnson, Carlton Johnson, and the Marble Brothers. There are probably others, but these are the ones we have known about. Prayer meeting has cancelled because of the heavy wind and rain.

Mr. and Mrs. Shelby Calahan and their son, Johnny Calahan, are currently touring Canada in their trailer

motor home. They have been gone for several weeks and are thoroughly enjoying the beautiful states up in the northern part of our country. Jerry is taking care of the farm while they are gone.

Mrs. Mamie Wood and Glen Wood got their onions to the market last week, and we hope they did well with their onion patch.

Descendants of Rev. and Mrs. Robt. King and their friends and families gathered at the Massie Activity Center on July 15 for the annual King Reunion. All

the Marble families from this vicinity were present for the reunion. Don Marble was elected president for 1979, and Nancy Marble was elected as secretary-treasurer. Mrs. Rubie Burgett of Weatherford and Mrs. Anna Byars, sisters of the former Lillian Marble, stayed here in South Plains with Mrs. Fred Marble and family.

In the Seventh Annual Tennis Tournament, Donette Marble received a first place award, and with Yvonne Berryhill of Amarillo won the women's open doubles division. Monty Ly-

ons, also from here, and Bobby Green received second place awards in the boy's high school doubles. We are proud for all their accomplishments.

Murray Julian was in Methodist Hospital and West Texas Hospital for three weeks, returning home on July 23rd. He had a ruptured ulcer July 9th, and has been in critical condition. Bruce and Janet Julian brought him home on Sunday and the other children, the Terry Julians and the Kendis Julians, spent many days and nights with them.

Murray's sister, Mrs. B.F. Harper and Mrs. Ruth Burnett were also there at the hospital with them.

Miss Kelli Lyons will be honored with a bridal shower on Saturday, August 5th, from 4-6 p.m. at the home of Mrs. Fred Marble in South Plains. Miss Lyons is the bride-elect of Rick Reddy. The couple plan a summer wedding.

FLOYD DATA Mr. and Mrs. Woodrow Wilson have had their child.
