Going To State... Davis, Burt Win State Trip

The Lockney High School debate team of Randy Davis and Jim Burt went undefeated through five rounds of competition at the regional UIL debate tournament last Saturday in Lubbock,

Austin May 4-5.

Davis and Burt were the only unbeaten pair at the regional contest and added a regional first-place medal to their District 4-AA first-place award.

Lockney Judging Team To Compete At State

Three Lockney High School FFA Texas A&M University this weekend. The Lockney team qualified for state competition by placing seventh at the Area I contest last Saturday at Texas

I THINK THAT I SHALL NEVER SEE...a mess like someone made of this tree. The miniature pine tree had been growing in front of Barker Insurance in downtown Lockney for "about eight or ten years," according to Barry Barker, pictured as he picked up the branches which someone removed from the tree. Barker watered the tree Saturday morning, discovered the damage Sunday morning. The tree was the only one left of several planted years ago as a Lockney businessmen's

downtown beautification project.

CANCER CONTROL — Lockney Mayor Claude Brown signs a proclamation designating "Cancer Control Week" Lockney. Present at the signing were [from left] Virginia Owens, local Cancer Crusade chairman; Cindy Turbeville and Donnie Meriwether, Crusader workers. The Lockney Crusade starts today and continues through May 10.

Count The Cost! What's My Share?

THE STORY OF SCHOOL TAXES

Personal opinion of Jack Samford How often have you heard these, or similar words with the same meaning? (Cost of food and shelter, and etc.

divided by the number of people on the trip). Things like this are very common so we can easily understand that if someone cheats, everyone else has to pay more, sO-OO a cheater don't go. (Everyone on the trip by the way, paid

Now let's try something a little more complicated, something like running a school for about a thousand children. Let's say the total budget comes to \$1,500,000 to pay the teachers and other people, operate the buses, buy supplies, gas, electricity, repairs, etc. Let's say the Federal Government will pay about \$100,000 and the State will pay about \$800,000, that would leave about \$600,000 in the **Pot** to be paid with local

Let's make a few rules about how to get this money so everyone can pay his fair share. First, let's agree on some principles that should be apparent so we

can see how to divide the cost. O.K., #1 since we say public education and call it free education, let's state rule one to be that everyone should pay according to their ability regardless of the number of children or lack of children. (Educated people create better living conditions and apparently upgrade the entire society.)

is to establish the amount of wealth for One of our clubs recently took a fishing each person, and let's use total wealth trip, the bills were paid and each person on all but specified exceptions which exemptions right here: #1 Government or subdivision of

#2. The best measure of ability to pay

government. (Only get taxes, so could only pass tax money along.)

#2 Churches (get support from tax-#3 Homestead (to stabilize housing

market and help make home ownership more attractive.) Less -%5,000 value. #4 Retired and disabled people so they don't lose their homes and become a bigger expense—Less \$10,000 value

#5 Veterans, if disabled in War —Less up to \$3,000 value extra. #6 Automobiles two per family (overtaxed at other places). #7 Family personal items and intan-

#8 Tax farms on production instead of

market value. There are probably a few other minor items, but let's assume these are the major ones. Now we have a few values to go by let's put everyone's name in a big book and list everything they own and what it's worth, add them all

together and see what we get. Let's say they all add up to about \$100,000,000 value, but we know there are probably some things charged out to the Mr. and also the Mrs. so let's allow some for that, we know some people we listed weren't here except during spring planting time, etc, so they don't owe anything. We need most of the money when school starts to get things rolling, but not all of it, so let's give a 3% discount for October payment, 2% for November, 1% for December, it's all due in January and put a penalty on after that with interest to offset the cost of collecting. Let's say to be safe we have \$93,000,000 value left, now, let's see how to divide out the \$600,000 we need giving each person an equal share in the cost. Let's break up the \$93,000,000 into shares of \$100.00 each and divide that 930,000 shares into \$600,000 to see how much per share we will need (rounded up to the next penny). $$600,00 \div 930,000 = 0.646 or 65 cents per \$100 share. Let's call that 65 cents the tax rate. Now let's take each person's value as we have it listed in the big book, let's call that book the Tax Roll, find how many \$100 shares each has after adjusting for any exemptions, multiply each one's number of shares by the 65 cents tax rate and send them a bill, let's call that bill a Tax Statement, this procedure will as near as humanly possible fairly establish each person's share of operating the school and pro rating the shares of responsibility equally based on each person's ability to pay.

Unfortunately anyone who cheats' cannot be left behind, their friends and neighbors listening to them brag about how they beat the tax collector or how they hid some property at listing time (rendering) will remember how that apparantly fine neighbor was not so fine after all and caused them to dig for

extra money they could not afford. Believe it or not, that is the entire story of School Taxes.

Floydada Senior Citizens

Luncheon Held

Floydada Senior Citizens enjoyed their regular monthy luncheon at the Senior Center Thurs, ay, April 19. There were 71 members, 9 new members, and 5 visitors present. Since the last meeting there have been 11 new members. Some who are shut-ins have asked to be on the membership roll.

There was much visiting, getting acquainted with new members, and renewing of old acquaintances. Some of our membership who have either been away or unable to attend the meetings were welcomed back. These monthly meetings are very happy and joyful get-togethers for the Senior Citizens.

Mr. Field gave a progress report on the paving project and the nutrition program. The paving of the parking lot is to begin soon. The nutrition program is at a standstill at the present time

awaiting further word from

The Senior Citizen Roundup at the Lubbock Fair Park Coliseum is to be held May 15 and 16. Mary Pearl Cowand was chosen to represent Floydada Senior Citizens, Inc. at the Round-up. A large delegation from here plan to attend and enter the various contests.

Mr. Field appointed a committee to investigate the buying of Title VII project. He also appointed a nominaing committee to present a slate of nominees for new

officers for another year. Mr. and Mrs. Fay Hart presented a musical program and led the group in singing

Mary Wilson reported that Rev. Floyd Bradley would be our speaker for the meeting on May 17. Mr. and Mrs. Kay Crabtree will present the musical program.

BLOOD DONOR QUALIFICATIONS

AGE: 17 through 65 years old.

If state law requires written consent of parent or guardian for 17-year-olds, the acceptable minor donor permit form will be provided by your community blood

People 66 and over may donate if they obtain a doctor's written consent within 2 weeks of donation

WEIGHT: Minimum of 110 pounds (50 kg.)

DONATION FREQUENCY: At least 8 weeks between donations

MEDICAL HISTORY:

YOU MAY NOT DONATE BLOOD IF YOU HAVE OR HAD:

Hepatitis (yellow jaundice)

- Active disease of heart, lung, kidney, liver, stomach Internal malignancy (cancer)

Diabetes requiring medication

 Addiction to injectable drugs Epilepsy, convulsions, frequent fainting spells

YOU MAY BE TEMPORARILY DEFERRED IF YOU HAVE OR HAD: Acute symptomatic flu, cold, or upper respiratory infection

 Close contact with hepatitis in last 6 months - Ears pierced, tattoos, or acupuncture in last 6 months Active infection or disease presently requiring medication

 Vaccinations in last 24 hours; some vaccinations have longer deferral periods Major surgery or blood transfusion in last 6 months

 Dental surgery in last 3 days Pregnancy in last 6 weeks

Currently active allergies (symptomatic) requiring prescribed daily medication Traveled to malaria area in last 6 months

FOR YOUR INFORMATION

OBITUARY

John L. Pearson

John L. Pearson, a longtime resident of the South Plains community, died about 4 a.m. Wednesday at Temple. At press time Wednesday, funeral services were pending at Moore-Rose Funeral Home in Lockney. Friends said services were tentatively set at 10:30 a.m. Friday at the First Baptist Church in Lockney.

A. G. Cardinal

Alphonse George (Punch) Cardinal of Kenefic, Oklahoma, died Sunday in a Tishomingo hospital. Services were at 10 a.m. Wednesday in the Coffey chapel with Father Jim King and the Rev. Cecil McIntyre officiating. Burial was in County Line Cemetery at Dangerfield, Texas.

Cardinal, formerly of Floydada, was born in 1903 at Maysville, was a farmer and rancher and of the Catholic faith. He married Gladys Marie Pollan in 1930 at Plainview.

Survivors include his wife, Gladys; a son, George of Okmulgee; brothers Louis of Durant and Armand of Boling, Texas; a sister, Irene Maxwell of California and two granddaughters, Sheryl of Tulsa, Oklahoma, and Carla of the home.

Ervin E. Glass

Services for Ervin E. Glass, 72, of Sweetwater were at 2 p.m. Wednesday in Bell-Seale Chapel with the Rev. Melvin Fields, pastor of Trinity Baptist Church in Sweetwater, officiating.

Burial was in Pyron Cemetery in Scurry County under direction of Bell-Seale Funeral Home.

Glass died at 5:33 p.m. Monday in Rolling Plains Hospital in Sweetwater after a lengthy illness.

REMEMBER your loved ones with a living memorial to the Caprock Hospital Auxiliary Memorial Fund. Mrs. Ben Whitaker, Treasurer.

The Farmersville native was married to Bernice Pennington on March 19, 1927 in Roby. He was Baptist.

Survivors include his wife: three daughters, Mrs. Ray Wright of Hermleigh, Mrs. Dub Wright of Andrews and Mrs. Joe Falls of Snyder; two sons, Bill of Amarillo and Rex of Hermleigh; five sisters, Geneva Smith of Floydada; Mrs. Howard Borland of Midland, Mrs. Darwin Bollinger of Roscoe, and Merle and Mable Glass, both of Hermleigh; three brothers, W.F. of Roscoe, E.B. of Snyder and Joe of Slaton; 13 grandchildren; and 10 great-grandchildren.

Older **Texans** Month

Gov. William P. Clements has designated May as Older Texans Month.

The Governor signed a memorandum urging Texas communities to pay special tribute to senior citizens during the month of May.

"So that we may continue to benefit from the wisdom and experience of our matured Texas citizens, of whom there are more than 1.6 million, it is important that we provide opportunities for them to remain active," Governor Clements said.

"By acknowledging their contributions of the past, we can encourage their continued service," he added.

Ceremonies honoring outstanding older Texans are being planned by area agencies on Aging and nutrition projects for the elderly throughout the state.

Remember your loved ones and friends with a memorial to Lockney General Hospital Memorial Fund. These memorials go toward equipment to help serve our community in the best way possible.

son arrived home Saturday

night, April 21, from a 21/2

week trip to the east. They

left home April 5 for Vine-

grove, Kentucky, and arrived

at the home of Walton's

daughter and family, Mr.

and Mrs. Jim Mollard, John,

Tim, Jamie, and Dannie, on

April 7. They also visited

Abe Lincoln's birth place and

boy hood home and the

plantation where Steven Fos-

ter composed the historical

song, "My Old Kentucky

Home." They found the blue

grass in Kentucky beautiful,

also the mountains, Valleys,

On April 16 they went

through the heart of the coal

mining area in Kentucky on

their way to Virginia. In New

Port News, Virginia, they

visited with Veda's grand-

tham and her husband Doug

and children, Chris, Denise,

Brian and Micheal. While

there they visited the fort

and moat surrounding where

Jefferson Davis was impriso-

ned. They also visited across

the street at the house where

Gen. Robert E. Lee lived

while he was there and the

house where Abe Lincoln

stayed while President. All of

this was very impressive.

They also went to Virginia

Beach, Virginia, where they

walked on the Atlantic Ocean

beach front. While at the

home of Veda's granddau-

ghter and family, Walton,

Doug and Christopher went

fishing in Chesepeake Bay.

They found the water too

choppy to go out in a boat so

they just fished the pier that

was several miles long. They

report no luck with catching

fish but they had lots of fun.

That evening Walton and

Veda dined with Dixie and

Doug Higginbotham at the

famous Fisherman's Wharf

and had fresh sea food that

was very delicious. While in

Kentucky at the home of

Mary Ann and Jim Mallard

and family they all attended

church together on Easter

Sunday. Veda reports this

was a very happy and me-

morable trip they will never forget. They did not run into

daughter Dixie Higginbo-

streams and farm lands.

JAIL FROM PAGE ONE

revamp and remodel the existing jail rather than construct an addition, as orginally outlined

Judge Smith says the latest plans call for adding an outside stairs to the second and third floors and a new entrance to the present building.

"What I like about this plan is that the bulk of the money spent will be downstairs" to provide better working conditions for the sheriff's department, Judge Smith related Tuesday.

A "drunk tank" would be installed on the first floor.

Existing cells would be utilized "with alterations" on the second floor. The third floor is envisioned to have a large exercise room, as well as deten-

tion facilities for females and juveniles.

COST COMPARISON

The new plan is estimated to cost \$183,679, plus architect fees. This compares with \$501,000 (including architect fees) on the first proposal.

"I feel this (new plan) could fit into our budget," Judge Smith states. He believes that "the savings on detention cells and air conditioning would amount to quite a bit of money.

Latest plans call for refrigerated air and central heating on the first floor. Evaporative cooling would be utilzed on the second and third floors.

Judge Smith anticipates that the commissioners court would seek bids on the latest proposal if it is approved by the Texas Commissions on Jail Stan-

State Capitol Highlights **Teacher Pay Raises**

Now that legislators know how Clements feels about interest rates, they can get on to other more pressing matters such as teacher pay raises. The governor has kept no one in the dark about how he feels on this subject.

From the outset, Clements made clear that he favored only a 5.1 percent pay boos: for all state employees, including teachers.

This week, seven of the state's largest school districts sent representatives to an half-hour meeting with the governor, and Linus Wright, Dallas school superintendent, said Clements made clear "he was not going to change his position" on teacher pay

All of the superintendents said the governor's proposal of a 5.1 percent increase was unacceptable. "That is not going to be sufficient to meet the needs of our teachers," Austin superintendent Jack Davidson told reporters

FROM THE FILES THE LOCKNEY BEACON

Thursday, April 26, 1979

April 25, 1968 -After lengthy discussion, representatives from Lockney, Floydada, Silverton and Tulia voted to attempt to resolve differences and progress with the Macken-

zie Water Authority. Mrs. W.H. Counts took the oath of office as Justice of the Peace. She succeeded her late husband and was to fill the vacated office until the next general election.

Billy Joe Turner was elected president of the Lockney Lions Club. Paul Reecer was elected first vice president, Bryan Smith second vice president, Doug Meriwether third vice president, Jim Reynolds secre-

tary, Alvin Hayes treasurer. The Lockney High School student body elected cheerleaders for the 1968-69 school year. They were Kathy Thornton, Debbie Miller, Diane Ford, Susan Mosley, Mary Ann Byrd and Sara Ball.

May 3, 1956 -

Mr. and Mrs. Buck Kellison of Lockney announced the engagement of their daughter Gail to Mack Hickerson, son of Mr. and Mrs. Buck Hickerson of Floydada.

Mrs. Barry Barker was named honoree at a pink and blue shower held in the home of Mrs. Kelton Shaw.

Earl Minter was to begin working at Brown's Cleaners and Clothiers

Jerry Irons, son of Mr. and Mrs. W.C. Irons of Lockney, was elected to teach high school mathematics and serve as assistant basketball coach at Mesquite.

May 3, 1928 —

"Floyd County went wheat wild last year and practically every acre available in the county was sown to wheat and a great many tenants were forced to leave the county in order to find land they could rent to plant cotton and feed.'

The Father-Son meeting held at the weekly luncheon of the Chamber of Commerce was a success, there being 52 fathers and sons in attendance.

"Anderson-Clayton Company, Houston, purchased a 60-acre tract from the Texas Land & Development Company of Plainview on which will be operated a model farm. The farm will be given over to all crops usually grown in the Plains area. The farm is on the Lockney-Plainview Highway, nine miles from Lockney and nine miles

So They S

DEBATING THE ISSUE

We really can't blame the Avalanche-Journal for opposing the lative bills which would pro-rate of taxes according to population which have voted such a tax, returning them to the city where the made, as now is done by the state, strongly disagree with the label put on the senate and proposals.

For the same reason they opposed bills, we are much in favor of the enacted, the big cities would lose, and the smaller ones, like Slaton, get quite a bit each year. Of course the smaller communities feel that we make better use of the money than the in Lubbock (it would have mean

\$150,000 more for Slaton last year The A-J editorial said passage of bills would divert money needed for projects to "the affluent suburbs," Most of us didn't realize we we well off.

SEASON ENDS TO TOURNEY STARTS The girls

morning, Mo

The top 2 sorghum hybrids on the High Plains are both from Pioneer.

Even in a rough sorghum year like 1978, farmers all over the High Plains brought in good yields with 8501 and 8451 from Pioneer. Both of these hybrids have outstanding qualities that make them ideal for High Plains growing conditions. Talk to your Pioneer dealer soon about one . . . or both of these hybrids for your place.

Greenbug tolerance without sacrificing yield! Even in marginal conditions this outstanding hybrid makes a good stand. Extremely good earlyseason vigor coupled with outstanding stress tolerance makes 8451 the kind of sorghum you'd choose even if it weren't tolerant to greenbugs. In side-by-side yield comparisons over a three-year period, 8451 has proven its performance potential by out-yielding later maturing hybrids by almost 350 lbs. per acre. If you need greenbug tolerance, but don't want to give up yield, plant 8451 from

8501

Drouth tolerance with high yield potential. In 56 tests over the last three years 8501 has shown a yield advantage of 339 pounds per acre over competitive varieties. A strong stalk and root system give 8501 excellent standability and add to its exceptional drouth tolerance. 8501 has good tolerance to smut and MDMV. Very uniform head height, excellent head exsertion and beautiful, bronze grain help make its field appearance outstanding.

See your Pioneer dealer NOW!

Outdoor Education Workshop Slated For 4-H Leaders

County Extension Agent

4-H Leaders in Floyd County who are interested in receiving training in several new and exciting outdoor subjects and activities will want to mark May 5-6 on their calendars.

That's when special training sessions will be held at the Texas 4-H Center at Brownwood to prepare leaders for county 4-H camps to Matador and later trans- and other outdoor projects and activities, points out

cultural Extension Service.

Leaders attending will be able to choose training in 4-H shooting sports or in such county camp activities as outdoor cookery, hiking and backpacking, planning day camps, bicycle rodeos and other events designed to make county camps better for 4-H members. There will also be a special training

agent with the Texas Agri- end that will provide learning opportunities and practical skills to use in county programs, Lobban encourages interested 4-H leaders to attend the workshop.

> Additional details, including registration forms, are available at the County Ex-

QUICK VICTORY shown winning again. Linda Morris' filly has recorded four victories and one second in five lifetime starts.

New Bill Proposes Simpler Tax Payment

If you are one of thousands of Texans driving clean machines-vehicles running on high-octane LPG engine fuel, you'll be interested to know a new bill has been introduced in the current session of the State Legislature which, if passed, will greatly simplify your payment of LP-Gas state highway user

For several years, persons engaged in agricultural pursuits have been able to buy a Special Farm User Decal, thus pre-paying the tax on 1200 gallons of LP-Gas—enough fuel to go about 15,000

All other LPG-powered vehicles (including those on dual-fuel) have had to secure a Comptroller permit and keep extensive records. Some vehicle owners have had to purchase bonds. The new law, House Bill 1431 (in the Senate, SB 810), proposed by the Texas

LP-Gas Association, will, if passed, enable all users to pay their state road use tax via the decal approach. Once you purchase the decal from the State Comptroller, you may drive unlimited mileage without additional state tax liability. No more recordkeeping for LPG engine fuel users; no ermits, no bonds, no audits. If the

See the table, lower right, for the payment schedule proposed, based on registered gross weight.

bill passes, you'll just buy a decal and

To assure that each owner of an LPG fueled vehicle purchases the required decal, the law will be tied to the Motor Vehicle Inspection Law. You won't be able to get an inspection sticker for your vehicle unless it displays the LPG tax If the bill becomes law, you will be

notified by both the State Comptroller's office and your local LPG dealer in ample time to purchase your decal. If you have any questions about this proposed law, contact your local LPG

OFFER

ALL GENUINE JOHN DEERE SWEEPS 12% OFF

Regular wheatland sweeps (1) are available in seven sizes from 8 to 20 inches wide. They take land polish quickly, are bottom-beveled to hold sharpness; kill weeds with minimum ridging. High-crown types

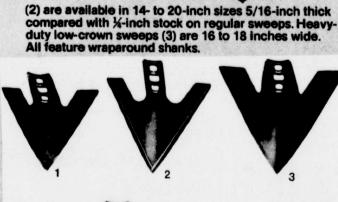

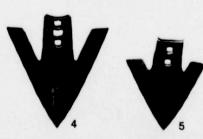

These 6-inch chisel sweeps (4) do a good job of breaking up soil for water absorption, and tack in stubble to retard wind erosion. Wraparound shanks ensure positive fit. Ribbing beneath points provides added strength. Heavy-duty sweeps (5) are designed for maximum strength and durability. Choose from five sizes, 6 to 14 inches wide.

OFFER GOOD UNTIL MAY 19

Perry Implement Co., Inc.

120 North Main St., Lockney 652-3306

Universal sweeps (1) are available in eight widths, 5 to 24 inches. Low crown, narrow shank, low wing angle, and quick scouring produce high-speed work. Peanut sweeps (2) offer eight sizes, 6 to 20 inches, of special design for high-speed cultivation with only slight soil movement. Mixed-land sweeps (3) have eight sizes, 4 to 16 inches; throw soil and leave a mulched surface due to high, broad crown, high wing angle, and broad shank. Blackland sweeps (4) are for areas where scouring is difficult; nine sizes from 4 to 20 inches with high crown and high wing angle. General-purpose sweeps (5) have 41/2 - and 6-inch sizes with low-pitched wings for good soil flow.

'Texas Conserve' Free Service

The Texas Agricultural Extension Service in cooperation with the Governor's Office of Energy Resources offers a free home energy payback analysis. County Extension Agents and other groups in the county working with the Governor's Office of Energy Resources

will be pleased to assist you. "You are encouraged to take this opportunity to identify cost-effective ways to save energy and money in your home. Information you provide and results of the survey are strictly confidential," agents note.

Texas Conserve is a computer program that calculates potential savings, or payback, from specific home energy saving actions. It estimates how quickly

measures...like insulation, caulking and storm windows....will pay for themselves in lower home utility costs. Local climate, utility rates and mater-

ials and labor costs are considered in

the calculations. The State of Texas offers this program. To receive the form for having an analysis of your home made, call the County Extension Office at 983-2806. or

The questionnaire takes about 15 minutes to complete. Within 10 days after you mail the form, you will receive a computer printout. If you have any

questions about the form or the printout, please call the County Extension

Office or the toll free number.
