Longhorns lose to 'Lopes, 34-24

The Abernathy Antelopes handed the Lockney Longhorns their second district loss of the season here Friday night. The 34-24 loss practically eliminates the 'Horns from the running in the District 4-AA title race.

The Longhorns scored first and last, but in between there was just too much Antelope power. Much of the Abernathy punch was provided by the passing-receiving combination of Tony Heath and Dean McGuire. Quarterback Heath connected with tight end Mc-Guire on five passes for 108 yards and two touchdowns.

The Longhorns scored on their first offensive series. They took over on the Abernathy 47 following a short (12yard) Abernathy punt into a stiff south wind. Four carries by Curtis Ford (including a 23-yard burst on a fourthdown play) put the 'Horns on the Antelope 12. The Longhorns lost four yards on a third-down effort, and quarterback Steve Warren put on his kicking show and hit a 33-yard line drive through the uprights.

John Fortenberry claimed the ball for Lockney when Abernathy fumbled on the first play after the kickoff. Two quick handoffs to fullback Roel Rodriguez netted the Longhorns 32 yards and six points. Rodriguez burst through the line for 19 yards on his first effort and scored on his second carry, from 13

Kevin Evans, with the wind at his back, kicked into the end zone. The Antelopes drove the 80 yards to paydirt in seven plays, the last of which was a 41-yard pass from Heath to McGuire with only 52 seconds remaining in the opening period. Willie Betts kicked the

Junior McDonald gave the 'Horns good field position with a kickoff return to the Lockney 42-yard line, and the Big Red offense drove to the Abernathy 23 before losing possession on downs, just a yard shy of a first. Warren completed

He has conducted one revival prior to this date and may not be famous or nationally known, but this man of God, who might be considered ordinary by some, has a moving message for all of

SBA disaster loan program explained in meeting at Floydada Hodges noted that Floyd was among

45 counties in the Texas Panhandle that

were declared eligible for disaster loans

because of bad weather in June and

Th maximum limit for loans, Hodges

said, was generally \$500,000, but even

that amount could be stretched in

To get a loan, he said, a farmer must

first be located in a disaster-declared

county or an adjacent county. Then he

must submit to the SBA office a form

declaring the number of acres that he

extreme cases.

Approximately 100 Floyd County and other agribusinessmen gathered in the auditorium of the Floydada high School Thursday night to hear members of the Small Business Administration's disaster loan team explain the benefits of the SBA program.

Fred Hodges, the disaster loan supervisor for the Lubbock area, led off the meeting by explaining to the farmers why the SBA was making agricultural loans.

'The SBA was always in the business of administering disaster programs to businesses," Hodges told the farmers. 'About three years ago, someone determined that farmers were smallbusiness men and therefore came under the SBA program.'

planted. Finally, the Agricultural Stabilization and Conservation Service office must establish the average yield. The SBA will then determine by formula the extent of the eligible loss, Hodges said. If a farmer was unable to obtain credit

from conventional sources, he said, loans would be made available at five percent interest. Those farmers and businessmen who were eligible for conventional credit would receive their disaster loans at seven and threeeighths percent interest.

Each individual farmer's terms would depend on his individual ability to repay the loan, Hodges said. Most loans are on terms from five to 10 years duration but some could be stretched out to 15 or

On what collateral the agency would need. Hodges said they would "take the best collateral available."

He added that the loan money could be used for 100 percent crop production or as much as 50 percent could be used to pay back debts and living expenses, "but under no circumstances could the money be used for capital improvements." Capital improvements would be tractors, equipment or livestock, he

"We've tried to make the forms simple enough for the individual farmer to complete by himself with an acceptable degree of accuracy," Hodges

After Hodges finished his remarks,

Charles Jackson, a loan specialist from Idalou, answered questions from the audience on the loan program.

"We've been instructed by the government to adopt a policy of reasonableness," he said, indicating that such a directive would give the agency a great deal of flexibility in granting loans.

He noted that the SBA could, on a case-by-case basis, defer payments from farmers and businessmen who had

already suffered earlier losses. The SBA would also recognize first liens by other agencies or lenders on

equipment used for collateral. The disaster funds would be available to the stricken farmers within about 90 days, Hodges added. "There is no definite time because there are too

many factors to be considered, but it will be as quick as possible." The price structure for commodities had not yet been established by the Farmers Home Administration (FmHa), Hodges said, but determination for

loans would be based on the prices in effect immediately prior to the disaster. "A farmer is eligible if he suffered any weather-related loss at all," he said. "There is no minimum loss required for eligibility." He added that farm-related business could also file if

the agricultural situation had hurt their businesses. Responding to farmer anxiety that the recent "60 Minutes" television show

that resulted in Congressional action limiting FmHA capabilities would affect the SBA loan program, Hodges assured the audience that such was not the case. He suggested that farmers already

working with the FmHA should stay with that agency to avoid possible future problems with borrowing. "Any recovery, like other disaster

payments, insurance, low-yield checks and such," Hodges cautioned the farmers, "will be deducted from the SBA loan eligibility. You should estimate the amount of those items in

Lockney **Junior High** honor roll

There are 13 students on the Lockney Junior High School first six weeks' honor roll, according to information released last week by the school. Another 20 students were listed on the 'A and B" honor roll.

Students on the "A" honor roll made all "A" grades (93 to 100 percent) during the first six weeks of school this year. The "A and B" list includes students whose grade averages are from 85 to 100 percent.

Students on the "A" honor roll are Crissy Carthel, Jessie Castro, Betty Kay Cates, Jacob Charles, James Christy, Karen Ford, Ronnie Ford, Linda Gayl Greenfield, Coy Holley, Amy Mize, Dan-iel Ramirez, Monica Torrez and Libby Williams.

The "A and B" honor roll students are Shanwda Brock. Shandra Bybee, Kim Car-thel, Russell Carthel, Paul Castro, Judy Davis, Pedro Del Toro III, Rachelle Ford, Karyn Foster, Aurora Garcia, Angie Gaskins, Sonya Greenfield, Brent Hallmark, Heather Holt, Amy Koons-man, David Martinez, Monty Means, Andy Murdock, Chris Rodriguez and Glen

Jolly Stitchers meet with Mrs. Stewart

This beautiful harvest hymn by the German poet, Matthias Claudius, is still sung today by millions:

"We plough the fields and scatter The good seed on the land, But it is fed and watered By God's almighty hand."

How simply the words remind us of the partnership between man and God which sustains and enriches life on this earth. That partnership can extend to every need and challenge we face. In all things there are tasks we can fulfill by human effort, and undertakings which

Abernathy

penalty wiped out the gain. The Antelopes took over after four plays netted the 'Horns a yard.

The 'Lopes couldn't move and punted. McDonald returned to the Abernathy 43, but a clipping call moved the 'Horns back to their own 33, where they fumbled. Heath lost twoon a keeper, then faked a handoff into the line and kept again — only this time it worked for a 35-yard touchdown. The conversion was no good, leaving it 20-10.

The Longhorns battled back, driving 65 yards in seven plays. Big gainers were Warren passes to Arnold Alaniz (a 38-yarder) and Kevin Evans (a 12-yard touchdown toss). A Warren-to-Alaniz conversion pass fell incomplete, and the count was 20-16.

It didn't stay that way long -Abernathy made their position more comfortable with another Heath-to-McGuire touchdown pass, a 35-yard play immediately following another Longhorn fumble.

Late in the game, still another Lockney miscue led to seven more Abernathy points. The Antelopes claimed a fumble at the Longhorns 18-yard line and sent Sanders into the line twice — 14 yards on the first try and four on the second — for their final TD of the night.

The Longhorns put together a scoring drive. It was too late to win, but the final score wasn't as lopsided as it could have

Warren clicked with a couple of passes to Evans and one to Ford,

Kyle Brock blocked two Tulia punts in the contest. Others receiving coaches' praises for good play Thursday were Davis, Hight, Victor Rodriguez, Marcus Schacht, Michael Carthel, Greg Gonzales, Mario Arellano and Mario Mar-

JV LOSES TO TULIA Tulia won the junior varsity encounter by a score of 20-12. The Lockney scoring plays were a four-yard run by Domingo Gonzales and a five-yard pass from Jeff Reecer to Gonzales.

Coach Ed Koester said Reecer played well, especially since it was his first time this year at quarterback. And Gonzales played exceptionally hard, Koester said.

Karl Race and Joe Luna led the Lockney defense, and Mario Gonzales and David Balderas played well on both offense and defense. The freshman and JV teams are idle

next Thursday. They travel to Idalou the

Shorthorns lose to Dobbers **EIGHTH GRADE**

Both Shorthorn football teams lost at Tulia Thursday. The Dobbers won the seventh-grade game 12-0 and outscored the Shorthorns 18-6 in the eighth-grade in the eighth-grade contest.

SEVENTH GRADE

The seventh-grade 'Horns worked well on defense, Coach Greg Fuiten said, holding the Tulia crew in some key spots, but the Dobbers managed to break a couple of long runs and post 12 points on the scoreboard.

Quarterback Doug Warren completed a pass to Brent Hallmark. Top Lockney rushers were David McDonald and

Lockney's score in the eighth-grade game came on a seven-yard sweep by Robert Rendon. Rendon was the top rusher for Lockney with about 80 yards; Mike Hernandez also ran well for the

Quarterback Jackie Cunyus completed two passes to Cookie Vasquez. Again in the eighth-grade contest, the Shorthorns played some good defensive ball, but the big Tulia runners overpowered them at times.

The Shorthorn teams have open dates next Thursday and wind up the season the following week playing Idalou here.

egg Taylor Helps Wyoming At Center

note: Gregg Taylor is the and Mrs. Joe Taylor of dagrandson of Josie Taylor, nd Mr. and Mrs. J.P. Taylor. ins. The former Longhorn ys center for the University ng Cowboys. He was recently both the Laramie Daily g and the school paper, The lron. Here's what The Boomto say about Taylor on Page pecial football section October

the headline "Answer to Problem at Center From Lockomerang Sports Editor
Sity of Wyoming center Gregg nits his introduction to major

tootball was an eye-opening went to Washington I dad and told him this old was in tall cotton," Taylor We just got through flying all ntry (to Seattle) and we got go to the hotel. Then what get a police escort. Let me thing. Where I'm from,

ee things like that." a 6-foot-1, 240-pound junior ansfer, is from Lockney, Tex. explain his reaction. is a farming and ranching with a population of 2,000 miles south of Amarillo. It's a lot to do with Taylor's

stination — Wyoming. both ways (on offense and two years of high the says. "And I got some go to small schools. But I lay major college football so college would be my

fact that our town and our small had something to

school and unless you made it to the state championships nobody paid much

So Taylor opted for New Mexico Military, where he lettered twice in football and began to get noticed by more college recruiters. "I'm glad I went there," Taylor says. "Military school wasn't all that great,

but I enjoyed playing football there. I got a lot of experience instead of sitting on the bench somewhere else." A number of Division II and NAIA schools talked to Taylor following his

junior college career, and so did West Texas State, Kansas and Wyoming. "Like I said before, I always wanted

to try major college football," he said. "So I didn't really consider most of the smaller schools. And I wasn't crazy about West Texas State because it's only 90 miles from Lockney and I never

did like it that much. "So I talked with Coach Lewis and visited here and really like it. I thought the program was good and I liked the facilities and I just thought it would be a good place to go to school and try football. So far, things are turning our real well.'

He admits, however, there was one disappointment.

"Well all along I felt like I would have liked to try Texas Tech," Taylor says. "But they never did offer any scholarship. They looked at some film last year, and I thought they were going to offer something. But I guess they decided I wasn't what they needed. Anyway, that's history now. I couldn't be happier the way things have worked out.'

Neither could Lewis or the rest of the Wyoming coaching staff. Taylor has stepped in and played well at center a position that has caused considerable worry at Wyoming since standout Ray Davies graduated following the 1976

TEXAS PRESS

MEMBER 1979 ASSOCIATION

THE LOCKNEY BEACON [USPS 317-220]
BOX 187
LOCKNEY, TEXAS 79241

per year. Postmaster: Send address changes to the

In Lewis' first season, defensive end Dave Clements was forced to move to center midway through the year. Clements had never played the position before, but he was the best the

Cowboys' had at the time. Last year, nose guard Greg Chytka became the emergency center. He moved into the position early in the season and eventually became an All-Western Athletic Conference selection while playing both ways.
While Lewis couldn't argue with the

results, the flip-flopping at center had to be worrisome. And the Cowboy recruiting efforts las year were directed at solving the two-year old problem. Taylor and another junior college transfer - Jeff Pace - were brought in to try and fill the void once-and-for-all.

To give the position depth, freshman recruit Rick Farnsworth was switched from guard to center, where he figures to step in after Taylor and Pace "They (the Wyoming coaches) told me center had been a problem," Taylor

says. "I guess they hadn't really recruited a center and they had to move guys in there the last couple of years. Sure it got me thinking. It was something I considered because it looked like I would get a pretty good

"I know a lot of other schools I talked with had two or three centers sitting on the bench. Fortunately, things have worked out for me and I'm playing here. I like center. I always have. I played guard and tackle for a year at junior college before switching to center, and it is different. But it's also fun."

Taylor came to Wyoming last Christmas - like most jaycee transfers - and participated in spring practice. It was an important time for the center candidates, although both he and Pace were injured and missed much of the session.

'I stretched some ligaments in my knee," Taylor said. "And they decided I shouldn't try and play on it. I was down for awhile, but then I decided to get my head up and come back this summer. It's worked out, and I haven't had any trouble with the knee since.

Since Taylor has moved into the starting role at center, his image as a leader of the offensive line has become more defined. With it, comes more and more kidding from his teammates as Wyoming's Texas country boy.

'I get it for both," he says, laughing. "They tease me about being from the country and they tease me about being from Texas. I don't mind though. I'm proud of being from a small town and I've been teased since I was a little kid about being from Texas. I think it does everyone some good. The kidding helps everyone get along.

Talk is cheaper than you think.

How to save up to 60% on Long Distance.

If you're one of those who thinks a Long Distance call is a luxury, read on.

The trick to saving money while keeping in touch with family or friends is knowing when to call, and calling One-Plus.

Call between 11pm and 8am.

Before you groan about how you can't stay up late or see straight in the morning, think about it.

You'll be saving up to 60%! If you're a night person, you probably don't start counting

sheep until after 11 pm anyway. And if you've got friends and family to call out west, it'll be a perfectly civilized 9 or 10 pm when their phone rings. If you like to see the sun rise, and you know folks back east, it'll be an hour later on their end.

Call out of state anytime before 8 am and you can talk all day if you want and still save 60%. In-state calls, are also greatly reduced. Just remember to dial One-Plus.

Reach out on the weekend and save up to 60%.

Now this is a stroke of good luck: a really cheap Long Distance phone call just when you may want it most. Call any time between 11 pm Friday and 5 pm Sunday and really save. For instance, dial One-Plus and you can

\$1.55. That's almost worth making a new friend in Atlanta

Even on weeknights, save up to 35%.

Sometimes you can't wait for the weekend. Or you don't want to. But you can still save plenty Sunday through Friday from 5 pm to 11 pm. Think about what a bargain it is to call someone 1900 miles

away, talk it up for ten minutes, and only run a tab of about \$2.00. There's just no other way to get close to a faraway friend or relative so quickly, so cheaply.

On weekdays it's still a bargain.

Here's a surprise. From 8 am to 5 pm. a Long Distance chat still doesn't cost very much. A five minute

call out of state, to anywhere in the continental U.S. is only about \$2.50 when you dial One-Plus. Think of how good the sound of your voice would be to a friend (not to mention your mother!) right in the middle of the day.

Reach out and touch someone.

Talk is cheaper than you think.

How to save up to 60% on Long Distance.

If you're one of those who thinks a Long Distance call is a luxury, read on.

The trick to saving money while keeping in touch with family or friends is knowing when to call, and calling One-Plus.

Call between 11pm and 8am.

Before you groan about how you can't stay up late or see straight in the morning, think about it.

You'll be saving up to 60%! If you're a night person, you probably don't start counting

sheep until after 11 pm anyway. And if you've got friends and family to call out west, it'll be a perfectly civilized 9 or 10 pm when their phone rings. If you like to see the sun rise, and you know folks back east, it'll be an hour later on their end.

Call out of state anytime before 8 am and you can talk all day if you want and still save 60%. In-state calls are also greatly reduced. Just remember to dial One-Plus.

Reach out on the weekend and save up to 60%.

Now this is a stroke of good luck: a really cheap Long Distance phone call just when you may want it most. Call any time between 11 pm Friday and 5 pm Sunday and really save. For instance, dial One Plus and you can

\$1.55. That's almost worth making a new friend in Atlanta

Even on weeknights, save up to 35%.

Sometimes you can't wait for the weekend. Or you don't want to. But you can still save plenty Sunday through Friday from 5 pm to 11 pm. Think about what a bargain it is to call someone 1900 miles

away, talk it up for ten minutes, and only run a tab of about \$2.00. There's just no other way to get close to a faraway friend or relative so quickly, so cheaply.

On weekdays it's still a bargain.

Here's a surprise. From 8 am to 5 pm, a Long Distance chat still doesn't cost very much. A five minute call out of state, to anywhere in the continental U.S. is only about \$2.50 when you dial One-Plus. Think of how good the sound of your voice would be to a friend (not to mention your mother!) right in the middle of the day.

Reach out and touch someone.

of public libraries is not in providing information and books for the popular major-ity, but rather in opening doors for the individual user, and for citizens who have special needs-such as literacy, self-education, inspiration, freedom to dissent.

Public libraries are no longer a privilege of the many. In an age where the ability to read and have access to information of all kinds is a necessity, public libraries have become an essential right. In what may prove to be

the most important legisla-tive initiative for libraries in recent Congressional history, Senators Jacob K.
Javits and Edward M. Kennedy have proposed a new National Library Act to insure a minimum standard of public library sevices throughout the country. What makes this proposal significant is that it marks a shift away from the view that public libraries are primarily a local responsibility.

The bill corrects an accident of history, when public from being primarily a local pressly intended to be a

concern into a matter of concern into a matter of national priority. The need to protect public libraries was not yet apparent at the time several years ago, when parents, teachers and community leaders traveled to Washington and their state capitals by the busload demanding more dollars to educate their children.

educate their children. Now, with budget cuts hurting those same children in their independent research projects, continuing selfeducation, career information search, and other taken-for-granted library services, citizens have suddenly aw-akened to the fact that public libraries are every bit as important a national ed-

of spreading risk.

In regard to energy, Knutson emphasized that Texas farmers producing on irrigated land find themselves at a serious disadvantage.

While energy averages 7.9 percent of U.S. farm production costs, energy for irrigated farming in Texas runs as high as 15 percent of production expenditures, Knutson said. Thus, developments in new crop production systems that use short season, drought resistant varieties, lower rates of irrigation, fertilizer and chemicals - as well as reduced pressure irrigation - are likely to be increasingly important in allowing Texas irrigated areas to compete, Knutson predicted.

He cautioned farmers to use care in making decisions on gasohol production in Texas. Independent studies by universities and U.S. Department of Agriculture economists show gasohol production from grain sources to be of questionable feasibility without large subsidies, he explained.

"Texas lacks a comparative advantage in producing gasohol from grain because of the attractiveness of export markets and costs of shipping grain into the state. The greatest economic feasibility is in agricultural and product

ghum," Knutson said.

The economist warned that gasohol will have to compete in the general market for energy. "In a showdown between energy and food, grain for food will take precedence over grain for

Stressing that exports are the single most critical factor affecting U.S. grain, oilseed and cotton prices, Knutson said that our nation's commitment to exports has vacilated. He cited how the administration has allowed port facilities to be tied up by strikes and Congressional

debates to license exports.

Knutson defined the structure issue as being one of "family farm survival." 'There are concerns that control of agricultural land and production re-

sources are increasingly becoming concentrated in the hands of large farms, corporate agri-business and nonfarm domestic and foreign interests.

"States most affected by structure modification proposals are Texas, California, and Florida. Various structure proposals include stringent limits on farm program benefits, tax changes to discourage nonfarm investment in agriculture, antitrust policy changes restricting vertical integration, and limiting the benefits of government services such as credit, research and extension activities to small and middle size farmers," Knutson explained.

He said agribusiness firms concerned with future growth in agricultural production areas cannot afford to ignore

This Year's Seed Crucial For Next Year's Cotton

LUBBOCK - Seed for next year's cotton crop on the South Plains will have _ to come largely from this year's yield, and handling of this seed will be crucial, area cotton specialists say. Since much of this crop will be moduled, particular attention should be given to moduling only dry cotton, the area cotton agronomist with the Texas Agricultural Extension Service cautioned.

components - lint, seed, burs, stems and other - going into the module

exceeds 10 to 12 percent, excessive heating could occur, damaging the seed and even the lint, explained Dr. James

R. Supak, the Extension specialist. Similar damage can occur to "wet" cotton that is stored in ricks or trailers for two to three days before ginning, he

"The last good cotton seed crop we had was 1977," Supak said. Some good seed was produced in 1978, but with 4.6 million acres of cotton planted on the South Plains this year, the seed supply has been nearly depleted.

FROM PLAINS COTTON GROWERS, INC.

Agriculture Secretary Bob Bergland October 16 indicated that the controversy created by a critical report from USDA's Office of the Inspector General

is near to being resolved.

Bergland made his statement following an October 12 meeting of the 40-man Cotton Incorporated Board of Directors at which changes in CI operations, almost identical to those recommended by the Cotton Board and

USDA, were adopted.

Joe D. Unfred of New Home,
President of Plains Cotton Growers, Inc., Lubbock, also voiced approval of the CI Board's actions, saying "Coming on the heels of our own Board's vote of confidence in CI operations is being answered and is being answered effec-

The PCG Board of Directors on October 10 discussed CI and the Inspector General's report and resolved to urge continued support of CI by all individuals and organizations with an interest in cotton's future. "Considering CI's record of accomplishments and ist potential to serve cotton interests in the future," Unfred said, "to withdraw support from the organization would be 'throwing the baby out

with the bath water'." The CI Board unanimously adopted the following statement at its eight-

hour meeting. "The Board of Directors of Cotton Incorporated affirms its responsibility for the policies and overall guidance of CI's program and operations and its support of management and staff.
"In this respect it has responded to

all seven points raised for consideration by Assistant Secretary of Agriculture P.R. Smith and to the recommendations for revision of reporting and administrative procedures suggested by the Cotton Board.

"Furthermore the CI Board accepts the principle that the operating budget committees of the Board will function aggressively with management in preparing priorities for planning and budgeting the most effective reserarch and promotion program possible for

America's cotton producers." Cotton Incorporated is the fiber company of American cotton producers, per-bale assessments. Its 40member Board of Directors is composed of cotton producers elected from each state where cotton is grown.

Farm Bureau News Summary

DISASTER ASSISTANCE

Uncle Sam funneled out nearly \$6 billion in disaster assistance loans last year, much of it going to farmers and usinessmen who could easily have obtained credit in the private sector. The watchdog General Accounting Office reports that one all-too-typical loan of \$408,000 went to a wealthy businessman with an annual gross income of \$950,000, \$42 million in total assets and a net worth of \$38 million. Cost to the taxpayers for subsidizing this particular loan: \$33,000.

OIL PRODUCTION TEXAS

Crude oil production in the state of Texas during 1978 totaled 1,040,965,995 barrels. Production during 1978 decreased 5.46 percent when compared to the 1,101,137,171 barrels of crude oil produced during 1977. The latest increase in Texas crude oil production was recorded in 1972 at 6.56 percent. From 1972 through 1978, production has been decreasing each year.

There were 17,642 oil well completions including dry holes in Texas during 1978, an increase of 443 from the 17,199 registered in 1977. These 17,642 completions included 3,765 wildcat wells of which 464 were oil; 1,059 were gas; and 2,242 were dry (59 percent of total). The 13,877 remaining completions, were divided as follows: 7,668, oil; 4,324, gas; 1,432, dry; and 453, service completions. Included in the oil and/or gas completions were 843 dual

MEETING

The United States Department of Agriculture has announced ten public meetings during the months of November and December 1979 designed to collect comments and suggestions on the economic and social issues affecting the structure of American agriculture and rural life. The Secretary's announcement listed the following locations and dates. The time for all meetings will be 9 a.m. to 5 p.m. local

-Montpelier, Vt., Nov. 27; Tavern Motor Inn. 100 State St. -Fayetteville, N.C., Nov. 28; deaux Motor Inn, 1707 Owen Dr. -Huntsville, Ala., Nov. 29; Hunts-

ville Hilton Inn, 401 Williams St. -South Sioux City, Neb. (across the river from Sioux City, Iowa), Dec. 4; Marina Inn, 4th and B Streets.

Sedalia, Mo., Dec. 5; Liberty Park Convention Hall. -Wichita Falls, Texas, Dec. 6; Wichita Falls Activities Center, 10th and Indiana Streets.

-Denver, Colo., Dec. 11; Regency Inn, 3900 Elati St. -Spokane, Wash., Dec. 12; Ridpath Motor Inn, 515 W. First St. -Fresno, Calif., Dec. 18; Sheraton

Inn, I-99 at West Clinton. -Lafayette, Ind., Dec. 18; Howard ohnson's East, 4343 State Rd. 26 East. Each speaker will be limited to five minutes and anyone interested in making a statement should contact Project Coordinator Structure of Agriculture, USDA, Washington, D.C.

20250. The request should give name,

address, telephone number, organiza-

tion represented, if any, and a brief

identification of the issues to be discussed. Structure of agriculture can and will mean many things to different people. The Secretary lists the following areas

tenancy, barriers to entering and leaving farming, production efficiency, size of farms and the role of technology, government programs, tax and credit policies, farm input supply system, farm product marketing system, present and future energy supplies, environmental concerns, including conservation and use of soils and water, returns to farmers, cost to consumers and quality of life in the rural area. All reas of concern can be discussed with the thought of government providing or protecting the individual's right to

U.S. STANDARD MEAT GRADES USDA has announced the withdrawal of proposed rules designed to revise certain official U.S. standards and grades of meat. The proposed changes earlier this year provided that meat would be graded only in the form of carcasses or sides and in the plant in which the animals are slaughtered. The department expects to issue new

ANHYDROUS AMMONIA IMPORTS

proposals in the near future.

The U.S. International Trade Commission has reported to the president that imports of anhydrous ammonia from the Soviet Union are disrupting domestic markets. The trade commission recommended to the President of the United States that a three year quota be imposed on anhydrous ammonia coming to U. S. from Russia. The recommendation calls for: 1980 quota of one million short tons; 1,100,000 short tons for 1981; 1,300,000 for 1982. The President may either accept or reject or modify the recommendations.

FOREIGN MEAT TRADE

Total U.S. red meats trade for the January-July 1979 period at 93,277 metric tons (a metric tons exorted during the same period of 1978. Total red meats include beef and veal, pork, lamb and mutton, sausage, meat specialities and other canned red meats. Based on pieces of U.S. hides and skins exported during the January-July 1979 period compared to the previous year, cattle were down 2%; calves 3%; sheep and lamb were up 107% and goats and kids up 11%.

Live cattle and calves exported during the January-July 1979 period were up 22%, compared to a similar period last year; sheep, lambs and goats were down 2%; hogs were up 21%; horses, asses, mules and hinnies were down

Total imports of red meats during January-July 1979 at 616,985 metric tons is 15% above imports for the 1978 similar period. Beef and veal imports were up 18% for the January-July 1979 period, compared to a similar period last year; pork was up 4%; mutton and goats were up 50%; lambs up 21%. Variety meat imports for the January-July 1979 period at 2,397 metric tons up 109%, compared to a similar period last year. Live cattle imported during January-July 1979 period at 322,529 head was down 54%, compared to a similar period last year.

Cotton Today

WHAT'S HAPPENING

COTTON MISSION ENDS: Cotton Council International President Fred Deans and National Cotton Council President Hoke Leggett report a successful Far Estern trade mission just concluded. Some 150 top Hong Kong and other Far Eastern spinners, trade bankers, and ship-line representatives attended the official opening of CCI's Far Eastern office in Hong Kong.

Sessions included top mill representatives, cotton merchants, and other key officials in Hong Kong, People's Republic of China, Japan, and Korea. Among topics discussed were foreign market development programs, means of expediting shipment of the large U.S. crop, quality protection, and export credit. Markets involved in the mission accounted for some 3.7 million bales of U.S. exports last season. HOUSTON MAY BE DROPPED:

Public comments are being sought on the U.S. Department of Agriculture's

proposal to remove Houston from the list of bona fide spot cotton markets. Under the U.S. Cotton Futures Act, USDA designates a bona fide spot cotton market as one where cotton is traded in enough volume and under certain conditions to establish spot price quotations.

EXPORTS RUNNING HIGHER: Sales of 141,200 running bales of upland cotton during the week ended October 7 raised the current season's total commitments to 4,982,600, compared with 3,925,800 at the same time last season. The principal buyers were Hong Kong, 54,400 bales; Japan, 21,600; Korea, 12,100; and Bangledesh, 10,000. The week's shipments of 125,500 running bales brought total exports to 978,600 bales.

AND COTTON YESTERDAY: the oldest hank of cotton yarn found in the United States was excavated in Utah in

Louis Rukeyser the host of Wall Street Week," examines the causes and effects of that fateful day in stock market trading history.

The program will include Breakfast: ½ cup fruit juice, cinnamon Roll, ½ pt old motion picture newsreel

Rukeyser talks with Arnold Bernhard, now Chairman of Value Line Investment Services, who was a railroad stock analyst for Moody's in

> Given today's economic problems, some experts be-

lieve that "The Crash of '29" was only a rehearsal for what lies ahead.

Can it happen again? That question and many more will be posed by Louis Rukeyser to a panel of three noted economists: Beryl Sprinkel, chief economist for Chicago's Harris Bank, Charles Kindleberger, professor of Economic Panics, and Peter Bernstein, one of Wall Street's leading private economists.

Baptist General Convention to meet

The 94th annual session of the Baptist General Convention of Texas will meet in Lubbock Oct. 30 - Nov. 1 to deal with matters of major concern to 2 million Texas Baptist and other Texans.

Messengers from amny of the 4,000 Texas Baptist churches will take action on plans for helping achieve a Southern Baptist goal to reach every person on earth with the gospel of Jesus Christ by the year 2000, said BGCT president Milton Cunningham of Houston.

A major facet of the ambitious mission goal will be consideration of a proposed \$34 million Cooperative Program budget for Texas Baptists' share of the worldwide mission efforts of 13 million Southern Baptist. Other major business will

include the election of a new president to succeed Dr. Cunningham who has served the maximum two terms. More than 6,000 people are expected to pack the Lubbock Civic Center to hear

"Bold Mission" challenges to help share Christ in Texas and around the world. Speakers include Cunningham, Dr. Harold C. Bennett, Nashville, Tenn., executive secretary-treasurer of the Southern Baptist Executive Committee; Dr. James H. Landes, Dallas, executive director of the BGCT; Dr. Russell H. Dilday, president of Southwestern Baptist Theo-

TechSports To Be Aired

Saturday November 3

TechSports, a locally produced half hour magazine television program, highlighting lessor known sports activities on the Texas Tech University campus, will air Saturday, November 3rd at

7:30 p.m. on KTXT-TV. The debut program will feature cross country running, men's and women's swimming, and a close-up view of the Texas Tech University marching band.

TechSports explores many areas associated with sporting activities including, interviews with coaches, profiles of individual atheletes who are completely devoted to their sport, and a behind the scene look at the people who make major sporting events possible.

The program is hosted by Keith Samples, Texas Tech sports information director.

Rev. Casteel Texas, on the North Plains, to present

seminar

Modern day events cause many to question, what will happen next? Bible Prophecy reveals many answers and beginning Oct. 28 through Nov. 1, Rev. Hobart Casteel of Montclair, Ca. will be conducting a prophetic seminar at First Assembly of God where Rev. G.A. VanHoose is pastor. The church is located at 701 W. Missouri.

Rev. Casteel will be sharing with the people of First Assembly some of the amazing prophecies of the Word of God, which are being fulfilled now, and other prophecies of the Word of God, which are being fulfilled now, and other prophecies which will soon take place.

Rev. Casteel teaches from a 5 1/2 feet by 30 feet artistic chart which depicts the dispensational truths of the Bible. Every service will be alloted for asking of questions. Everyone is invited to attend. There is no registration or tuition fee for this

Rev. Casteel is an ordained minister of the Assemblies of God. He received his Bible training at the Shiloh Bible Institute in Zion, Illinois. He is well known in several Pentecostal organizations. He has ministered throughout the United States. His teaching is simple yet profound. The ardent student of the Bible and the youngster equally receives instruction and edification from his teaching. Service time is Sunday 6:00 p.m. and all other nights 7:30 p.m.

FLOYD COUNTY

the High Octane Unleaded TRY IT YOURSELF

Floydada Travel Center

Gasohol is a motor fuel blended of 9 parts gasoline, 1 part distilled alcohol. The alcohol is made from corn and other grains which are RENEWABLE energy sour-

Gasolhol offers an exciting potential for extending our limited and costly petroleum

BETTER FOR YOUR CAR

Extensive tests, laboratory and "on the road," show that the gasohol blend provides...

- ... a higher octane fuel ... increased mileage per gallon ... better engine performance, with less
- "knock" and "ping"
 ...reduced engine deposits ... less gas-line freeze-ups
- ... cleaner exhaust emissions

A no-lead product, a gasohol blend will work in your vehicle without engine or carburetor modification...and work better!

BENEFITS FOR FARMERS

Because grain alcohol uses corn and other farm-grown products, its use for automotive fuel offers a new and sizeable market for surplus farm products.

Even limited use of gasohol would provide enough demand for America's corn to utilize the current grain surplus and allow farmers to continue to profitably produce grain at capacity.

BENEFITS FOR ECONOMY

Our domestic supply of oil is limited. We're paying \$22 a barrel for imported oil . . . at a volume which is creating a huge trade deficit and undermining the dollar. By using gasohol, using alcohol from re-newable, domestic sources, we can....

... reduce costly oil imports protect against another embargo on foreign

... boost the farm economy give Department of Energy a viable answer to its search for "alternative" fuel sources.

GASOHOL

Makes your car run better Increases M.P.G., cuts pollution Helps agriculture Creates jobs Extends fuel supplies

Deserves Everybody's Support

If gasohol makes sense to you, here's how you can help make it widely available:

Buy and use gasohol in your car, and let your friends know about gasohol. Urge the gas stations you deal with to carry gasohol, and let those gasohol dealers know you appreciate their services.

WHOZITS.

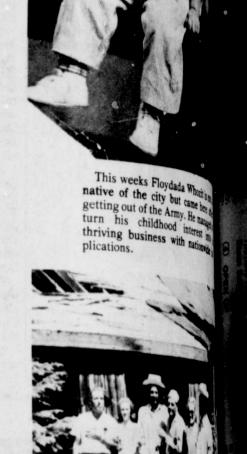

LAST WEEK'S FLOYDADA WHOZIT

Last week's Floydada Whozit must have been too easy. Mrs. Elmer Warren, Sue Higgenbotham, E.A. Noland of Lockney, Tommy McIntosh and Sam Spence all correctly guessed Marion Carpenter.

LAST WEEK - Just about everybody knew Kenneth and Juanita Broseh were the Lockney Whozits last week. Correctly identifying the Brosehs were Debra Webb, Beth Kropp, Clara Beedy, Mary Reves, Dovie Davis, Billie Huggins, Joyce Wilson, E.J. Colvin, Georgia Galloway, Junior Taylor and Roy Kin-

1979 Texas pecan crop excellent

This years Texas Pecan harvest will reach a record high. One million trees are currently producing 10 lbs. of nuts each and Texas producers are anticipating a harvest of over 80 million pounds. Much of this crop will be marketed and consumed in the lone star state. This large crop means the price for Texas pecans will be very good in 1979. Our 1979 weather conditions plus freedom of pests indicate that the quality should also be good. Local producers in many counties can supply you high quality, improve pecans or natives straight from the

Shoppers should be aware of poor pecans coming into Texas from other states. Last years pecan crop in the Southeastern states was very large and their annual rainfall was very low which resulted in poor quality nuts. These nuts have been held over in refrigeration and will be sold in November. If you purchase pecans directly from your Texas producers, you know you will be getting better quality pecans.

Floyd County 4-H'ers will be selling pecans for one of their fund raising projects this year. The pecans they will be selling are native Floyd County pecans, pur-chased from Bill Sherman at Lone Star.

There are many reasons for an exceptionally good crop in Texas this year. The cold, wet winter was excellent preparation for this spring's growing season. The fact that Texas had a low crop in 1978 means the trees were not in a stressed condition when growth began this past spring. Cool weather and frequent rain in April and May encouraged a large crop. By the middle of May, horticulturists the contract of the co horticulturists throughout state had recognized that 1979 was going to be a good

Rains have been way above average in most sections of the state and have come on a three-week interval which is almost perfect for setting a good crop of pecans. The low spring temperatures also sup--ressed pecan scab which is a ly, many growers are follow- and deeper major disease in many sea-
