Dr. William W. Rosser and Jim Johnston of the Texas State Department

All members were present Monday of Health met with the commissioners to rabies in the state of Texas. The

RESOLUTION H.B. 1323

WHEREAS, current statistics from the Texas Animal Morbidity Report reflect an increase more than double the number of cases of rabies over a similar period of one year ago;

WHEREAS, the Legislature of the State of Texas in recognition of this danger, passed House Bill 1323 designed to strengthen the authority of county officials in the control of this disease in their areas of responsibility; and

WHEREAS, the commissioners' Court shall designate County Sheriff to act as the local Health Authority; and WHEREAS, any person who has knowledge of or suspects an

animal to be rabid shall report the incident to the local health authority or shall submit the animal in question for quarantine; WHEREAS, the local Health Authority shall quarantine for at

least ten days any animal that is believed to be rabid or has attacked an individual; and WHEREAS, the owner of each dog or cat shall have the animal vaccinated against rabies by the time it is four (4) months of age and within each subsequent twelve (12) month interals

WHEREAS, the licensing authority shall issue a metal tag to be worn by the dog or cat on a collar or a harness for one year;

WHEREAS, official rabies vaccination certificates issued by the vaccinating Veterinarian shall contain standard information as designated by the Texas Department of Health; and

WHEREAS, no county, city or town may register or license an animal that has not been vaccinated in accordance with this law WHEREAS, the following animals, because they have a high probability of carrying rabies and constitute a danger to public

health if brought into Texas, will be excluded from importation as domestic pets: skunk, fox, ringtail, raccoon, bobcat, coyote, WHEREAS, the owner of an animal shall pay any reasonable

costs to the local Health Authority incurred by quarantine or other required expense; and

WHEREAS, a person commits an offense if the person knowingly fails to vaccinate his dog or cat against rabies. This offense is a Class C Misdemeanor with a fine not to exceed

NOW, THEREFORE, BE IT RESOLVED that in the best interest of the health and well being of Floyd County, this Resolution be approved by the Commissioners' Court and that House Bill No. 1323 be adopted in its entirety as the governing law in this area of responsibility

BE IT FURTHER RESOLVED that a copy of this Resolution be spread upon the minutes of this Court and that the original hereof be furnished the Texas Department of Health.'

The State Board of Education will call for new textbooks in three elementary and eight high schools subjects for use in Texas Public Schools beginning

September 1, 1981.

The 1980 textbook proclamation approved Saturday (March 8) by the Board will carry a price tag of \$29.7 million.

Additional cost, including readoption of current textbooks in 24 elementary and secondary subjects, additional purchases on books now in use, Braille and large type books, and freight will boost the estimated 1981-82 costs to \$45,505, 961 or \$15.13 per student.

The new text materials will include basal readers through grade 8, bilingual (Spanish) readers through grade 3, and earth science in the elementary grades.

High school subjects to receive the new textbooks include psychology, sociology, business management and ownership, business communication, business law, drafting trades, graphic arts trades, and electrical trades.

Materials to be submitted by national publishers will be reviewed by the new State Textbook Committee throughout the summer. The 15-member committee, all professional educators now serving in the public schools, will be appointed by the Board at its May 10

All books submitted for the Texas adoption will be reviewed by members of the State Textbook Committee and their advisors from a number of school districts throughout the summer. At the same time, sample copies of the state's 20 regional education service centers.

Alton O. Bowen, Texas Commissioner of Education, and the State Textbook Committee will hold a joint public hearing on the proposed materials August 11-15 in Austin.

The State Textbook Committee will meet September 8 in Austin to select the books it will recommend for adoption. This balloting process may last several days.

State Board Of Education Calls For New Textbooks

added once the State Textbook Committee has made its selection.

Bowen may remove materials from this State Textbook Committee list before sending his final recommendation to the State Board of Education. The Board may also remove titles from the list. However, no books may be

The State Board of Education will hold a final public hearing on the 1980 adoption November 6 in Austin. The Board will adopt books at its regular

meeting on November 8.

UIL Regional Spring Meet

The 1980 University Interscholastic League (UIL) Region I Spring Meet for AAAA and AA conferences will be held April 16-19 and April 23-26 at Texas Tech University. Most events will be conducted Friday and Saturday of those

school homestead exemption, and cer-

April 1 Deadline For Applications

According to Jack Samford, tax assessor-collector for the Lockney Independent School District, April 1 is the deadline for applications for school tax exemptions for homesteads, age 65 and disabled persons. April 1 is also the last day to apply for

tain disabled persons and those aged 65 or older may qualify for additional exemptions from the value of their gricultura! production valuation on

Farmers and ranchers have the option of having their agricultural land taxed at its productive rather than its market Sen. Lloyd Bentsen

future prosperity.

IF EVER THERE WERE A SYMBOL of American ingenuity, it would have to be Hank — the protagonist of Mark Twain's "A Connecticut Yankee in King Arthur's Court.

Hank is whisked back in time to the Knights of the Round Table era in England. Relying on that unique American talent for inventiveness, coupled with common sense, Hank shows the medievel natives a thing or two about better living through American gad-

Late 19th century America - when Twain wrote his book - spawned famous inventors like Thomas Edison. one wonders, though, about the staying power of Edison's recipe for genius: "1 percent inspiration and 99 percent perspiration." Would it persist in our contemporary labyrinth of federal regulations? Probably not. In this modern age inventiveness — and the research and development leading to it - seem to have been stifled.

Recently, Dr. Philip Handler, head of the National Academy of Sciences, reported to Congress that the United States no longer dominates research science as it did 20 years ago. In 1955, Americans contributed to three-fourths of the world's scientific endeavor; today

the U.S. accounts for only one-third. Dr. Handler estimated that 40 percent of the funds going into research are eaten up by the costs of complying with federal regulations.

As a percentage of our Gross National Product, R&D has decreased for more than a decade — from a high of 3 percent in 1964 to 2.2 percent in 1978.

IN OTHER COUNTRIES, the reverse is happening. Figures compiled by the Academy show that while R&D fell 20 percent in the U.S. between 1968 and 1978 as a portion of economic output, it rose in the Soviet Union by 15 percent, in West Germany by 16 percent and in Japan by 20 percent

Likewise, the number of R&D scientists and engineers has declined 13 percent here, but their ranks have increased by over 50 percent in the Soviet Union, West Germany and

Japan.
While spending for R&D in this country has fallen dramatically, R&D costs are up sharply. The average scientific researcher needs around

USDA's Soil Conservation Service is currently making a study of alternative ways in which a National Plant Mater-

ials Centers Program can be conducted that responds to resource conservation needs Jon J. LaBaume, SCS district \$100,000 to be outfitted with the latest conservationist at Floydada, says his in complex laboratory instruments. The Japanese and West Germans agency is asking the public for their views on alternatives under consideraprovide many incentives for private irms to engage in R&D. Our governtion and for other proposals.

LaBaume says SCS, in cooperation ment must do the same. At the least,

the U.S. government must stop putting with other Federal and State agencies roadblocks in the way of companies and and through other arrangements, preindividuals who want to do research and sently operates and maintains 2? plant materials centers in the United States. This is critically important to our Each center develops new plants for As Chairman of the Joint Economic Committee, I think government planners offer the wrong cure when they focus on a planned recession as the only way to fight inflation. They could fight it

The range of alternatives being studied for conducting a National Plant

On Plant Materials Program Materials Centers Program vary from continuation of the program as is to transferring complete operations and management of the centers over to nonfederal entities," LaBaume said. "First, we need to know what the public needs and wants — and possible alternative ways national conservation plant materials needs might be met."

Additional information concerning the plant materials program may be obtained at the SCS office in Floydada at 208 So. Wall. LaBaume said that SCS would welcome concerned citizens inquiries and expressions of views.

Interested persons wishing to comment about the direction they think the future plant materials program should take are being encouraged to write letters by April 1 to George C. Marks, State Conservationist, Soil Conservation Service, P.O. Box 648, Temple, Texas

CAPITOL UPDATE

John Tower

An Administration looking for "quick-fix" solutions to inflation - and with a dangerous law at its disposal could institute controls which would force your bank to withhold a car loan or set an artificial limit on the amount you can charge on your credit cards.

The law is the Credit Control Act of 1969. It gives the President the power to give the Federal Reserve sweeping credit-restricting authority. The controls could take a variety of forms: high minimum down payments for auto loans or home mortgages, limitations on credit card accounts, requirements for major appliance loans or mandatory ratios of business and consumer loans.

These controls would be grossly unwarranted federal interference, and they would accomplish little or nothing. Our financial markets are simply too complex to be controlled by government fiat. If selective controls are placed on credit card purchases, the home owner can enlarge his mortgage to get money for consumer purchases. Additional controls would then have to be imposed to plug loopholes, leading ultimately to comprehensive controls.

Credit controls merely treat the symptoms, rather than the causes, of inflation. And, credit controls distort economic activity and direct business away from the best uses of money and credit.

In February of last year, I introduced legislation (S. 389) to require the President to get prior congressional approval before using the authority of the Credit Control Act. I also co-sponsored legislation to repeal the law outright.

When hearings were held on these bills, I warned that the mere existence of standby credit control authority could cause interest rates to be higher than they otherwise would be in anticipation of future controls. The Congress failed to heed my warnings, and that prediction now has become a reality in home mortgage rates soaring to more than 15

It is imperative that the Congress act immediately to repeal or modify the law. Failure to do so may well result in a politically expedient but ultimately disastrous decision by the President to exercise the authority given him in this ill-

The Administration has been saying it does not plan to exercise that authority, but I for one take little comfort in that assurance in the wake of a series of fits of fiscal and economic irresponsibility. Rash and ill-conceived actions interspersed with a strange paralysis of leadership — on the part of the administration already have brought us to the edge of economic catastrophe.

We are saddled with the worst inflation record and higher interest rates in more than 30 years. Some are predicting that the rate of inflation will go as high as 20 percent. Obviously, the problem is a critical one. But controls - whether they be on wages, prices or credits are not very useful.

In dealing with credit controls, we merely redistribute the flow of credit from one sector of the economy to another. The rate of inflation cannot be reduced unless government spending is reduced and the nation's productivity increased.

Around the Co By Jett Major Floyd County Extension

GREEN UP YOUR LAWN About this time of the year home lawns need a boost to get them in shape for the spring season just round the corner and there are three operations that can get a lawn off to a good start scalping, fertilizing and applying a weed killer. Scalping a lawn in late winter serves to revitalize it and promote spring and summer plant growth. Begin the operation by lower-ing the blade of your lawnmower one-half inch below the normal setting. Then mow the lawn in two directions that are right angles to each other. Remove the clippings after each mow-

After scalping the lawn, apply a complete fertilizer (one containing nitrogen, phosphorus and potassium) to promote leaf and root growth. Use one pound of nitrogen per 1,000 square feet of lawn area. This is equal to 12 pounds of an 8-8-8 fertilizer or 8 pounds of a 12-4-8 fertilizer. Repeat the application

conservation purposes in the geographic area it serves that are released jointly with the State's agricultural experiment station and other State and Federal agencies to commercial growers

producing more goods and services more cheaply, not by lengthening the PRODUCTIVITY GROWTH WOULD HELP hold the line on inflation by boosting our output of goods and services. One of the three primary reasons our productivity has been going at a downhill rate — along with inadequate investment capital and ex-

more effectively by concentrating on

cessive government regulation — is the decline in research and development. On a "nuts and bolts" level, research and development are crucial to create new products and improve the tools and

machinery needed to make those new products. I've introduced a set of productivity bills before Congress. They're designed to encourage, not frustrate, businesses

The Bentsen productivity bills package includes three acts intended to spur R&D in private industry. The Patent Depreciation Act, the Research Promotion Act and the Research Investment Tax Incentive Act would provide a system of tax credits and other needed

incentives to beleagured firms. For example, we'd lift some of the tax burden from smaller businesses. Historically small companies contribute greatly to American Innovation and we need to offer them every possible stimulant to restore this enviable

This country was once was the envy of the world for our ability to find newer and cheaper ways to make things. I'm confident that, with the help of these proposed changes, we can lead the pack

Congressman

Charles W. **Stenholm**

Congressional Comment

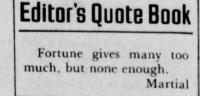

WASHINGTON, D.C. -This may well be the first year in memory that the Stars and Stripes do not fly during the opening ceremonies of the Olympics — if Russian aggression in Afghanistan goes unchecked.

An overwhelming number of my colleagues and I recently joined the President in calling for a boycott of U.S. participation in the Olympics, a difficult sacrifice to ask of our young athletes who have trained long and hard for their "shot at the gold," and for competitionloving Americans as a whole. It was difficult, but necessary in light of the gravity of the situation which has been thrust upon us in recent days.

Quite simply, the Soviet Union has spent an estimated \$375 million in constructing facilities for the 1980 Olympics. Millions of tourist dollars have been anticipated as they have turned Moscow into a showplace for their system of government and way of life. But, perhaps most important, the televised games could cast a favorable light on their Capitol city and their government and take that message into millions of homes around the world. The Russians have counted on the 1980 Olympics as a political star in their communistic crown that would dull the impact of the hostilities they have initiated on their neighboring Afghanistan.

We must remember that this is not an isolated attack by terrorists, such as we witnessed in Munich in 1972 - as tragic as that incident was - but a carefully planned military operation. The rightful president of Afghanistan, put into power by the Russians themselves, and his family were assassinated. Afghan citizens have been killed by Russian troops. It is and should be recognized as a war. Nor can we ignore the threat the move makes clear. Russian troops are, at this minute, perfectly poised for a possible takeover of other oil-rich Middle Eastern countries. This presents a clear danger to the

security of the United States. I would agree with those that say the Olympics should not, idealistically, be a political arena. Realistically, however, we must recognize that those dreams were shattered in 1936 in Hitler's Berlin. The games held that year could only be called a charade of the very meaning of the word "sports-

The glamorous French cradlephone has been reborn in America, where it's known as Antique Gold*. Its carved gold-colored figures and rich ivory trim make it the last word in period-style decor.

And, because it's genuine Bell, you know you're getting top quality. You never have to worry about repairs, either, because the Bell System retains ownership of your phone's working components and repairs them without additional charge anytime there's a problem.

Make your French Connection at your nearest PhoneCenter Store, where you can also choose from a variety of other colorful and attractive styles. Or call your local Southwestern Bell business office. Choose a phone that's genuinely you and genuine Bell.

The Antique Gold. \$24 a month for five months or a one-time charge of \$120. Prices do not include taxes or, if applicable, installation and recurring charges. If necessary, hearing aid adapters are available from your telephone company.

*Registered trademark of American Telecommunications Corporation

Floydada Rebekah Lodge Meets

Floydada Rebekah lodge enjoyed a St. Patrick's day program on Tuesday night March 11.

Those reported ill were Alma Dunn, who is recovering from surgery in Methodist Hospital.

Those reported not feeling well were Amanda Hart, Mr. Faulkenberry (Pauline Faulkenberry's husband) and Barbara Landreth's father. Barbara Gilliland brought a good program on St. Patrick and how St. Patrick's day started.

The group enjoyed a cake with green frosting, plus coffee and spiced tea furnished by Eula Parrack.

All the group were dressed in green and enjoyed an evening of fun.

-Ceiling Fans

Ceiling fans offer more than nostalgic touch to today's interiors.

By circulating warmed or cooled air, they can enhance comfort and stretch heating or cooling dollars, says Dr. Jane Berry, housing and home furnishings specialist with the Texas Agricultural Extension Service, The Texas A&M University System

MISS LAURA LYNN McCULLEY MR. KENNETH NEIL MITCHELL

Miss McCulley, Mr. Mitchell Engagement Announced

Dr. and Mrs. Andrew G. McCulley announce the engagement and approaching marriage of their daughter, Laura Lynn, to Mr. Kenneth Neil Mitchell of El Paso, son of Mr. and Mrs. John Kuykendall of Lubbock and Mr. Taft Mitchell of Amarillo.

Miss McCulley is a graduate of Floydada High School and attended Texas Tech University and Methodist School of Nursing in Lub-Mr. Mitchell graduated

from Levelland High School and from Texas Tech University with a Business Administration degree in Finance. He is associated with Desert American Insurance Company, El Paso, Texas.

The wedding is planned for April 26, 1980 in the chapel of First Baptist

Bridal Shower Honors Linda Moss

Linda Moss, bride-elect of David Reece, was honored with a wedding shower Sat-urday March 8 from 10:30 to 11:30 a.m. in the home of Mrs. Pauline McCormick in Floydada. Other hostesses were Mmes. Sue Hardy, Eleanor Hendrix, Pauline Nash, Jackie Gregory, Janet Milam, Joy Assiter, Barbara Hatley, Barbara Jackson, Fern Hartsell, Fern Ande: son, Alene Evans, Gail Daniel, Clara Bradshaw, Darlyn

Hambright and Kay Hale. Darlyn Hambright presided at the serving table which was laid with a lace cloth and apricot underlay. Silver appointments were used to serve bread, punch and coffee.

Special guests at the event were Mrs. Bill Reece of Lubbock, mother of the prospective groom, and Renee Jolly of Dallas, friend of the bride-elect. The hostess gifts were

completer pieces for Miss Moss's dishes and a 4-slice

Social Events

1950 Study Club Meets In Payne Home

Members of the 1950 Study Club were entertained with pictures and reports of trips abroad by a guest and a member at the regular meeting Tuesday evening, March 11. Wanda Williams showed slides and reported on a trip to England and Scotland that she and her husband, Aldine, participated in last summer with a Rotary group. Jean Kendricks and her husband, Bobby, along with two other couples from Floydada, were part of a group of Scottish Rite members who toured Switzerland last year. Jean showed slides and snapshots and told the group of their experiences on the trip. Both reports were interesting and enjoyable.

At the business meeting President Shirley Morton presided and welcomed a new member to the club, Juandell Gray. Plans were discussed for the club's trip

to the Country Squire Theater. They will have as their guests the senior girls from Girlstown at Whiteface along with Mr. and Mrs. Cooper, their sponsors. Shirley announced the Caprock District Convention to be held in Lubbock March 27 and 28. She also appointed a nominating committee of Doris McLain, Nettie Ruth Whittle and Virginia Pyle to present a slate of officers for the new club year at the next meet-

The meeting was held at the home of Jo Payne with Margie Fowler assisting with refreshments. Those present were members Nell Abram, Charlotte Campbell, Nina Copeland, Margie Fowler, Jean Kendrick, Doris Mc-Lain, Lovene Moore, Sue Moore, Shirley Morton, Jo Payne, Virginia Pyle, Nettie Ruth Whittle, Shirley Meredith, Juandell Gray and guest Wanda Williams.

Faye Holmes, Pauline Sams,

Sams, Ann Brock, Hazel

Johnson, Junaita Jenkins,

Bobbie Kellison, Faye Fer-

guson, Kathrine Ball and

Cornelia Johnson. Two visi-

tors, Carrie Apple and Vir-

ginia Taylor, attended the

club meeting.

El Progreso Members **Hear Beauty Hints**

El Progreso Study Club met recently in the home of Mrs. Josie Taylor. Virginia Taylor gave the program on 'beauty" and some pointers. All the club members enjoyed the beauty hints. Delicious refreshments of

cake and ice cream were served to these members:

Virginia Mangum, George Davis Wed In Littlefield

Miss Virginia Mangum of Lockney became the bride of George Davis of Littlefield Saturday, March 8, in a double-ring ceremony in the Littlefield First Baptist Church. The Rev. Charles Broadhurst, pastor, officiated at the 7:30-p.m. cere-

The bride's sister, Anjella Mangum, was maid of honor. She wore a mid-length dress of blue flowered gauze and carried a bouquet of blue carnation and white daisies. Best man was Stan Jackson of Lubbock, a friend of

The bride, given in mar-

riage by her father, Rocky Mangum, wore a highwaisted gown of Qiana. The lace yoke and sleeves were dotted with seed pearls. She wore a lace veil with a headband of white roses and carried a bouquet of blue and white carnations and daisies. The antique necklace worn by the bride has been in the family for five generations.

Mrs. Davis is the daughter of Rocky and Judy Mangum Lockney. The groom's parents are Carl and Hazel Davis of Littlefield. The newlyweds will reside in Little-

Layette Shower Honors

Mrs. Bill Bigham and infant daughter Stacy Anika of Lockney were honored Monday afternoon at a layette shower. The event was in the white and topped with tiny pink booties of icing, finger home of Mrs. Ray Gant.

Mrs. Bigham

A special guest was Stacy Anika's maternal grandmother, Mrs. W.T. Cooper. Mrs. Bigham and Mrs. Cooper wore corsages of cornhusk dolls with fabric and lace background and baby's breath.

The serving table was laid

with a pink cloth. Centerpiece was a handmade stuffed stork. Refreshments included cake squares iced in

sandwiches and fruit punch. The hostess gift was an umbrella stroller. Sharing hostess duties were Mmes. Tom Johnson, Louie Bybee, Martin Stoerner, Gant, Mike Mathis, Donnie Jackson, Keith Jackson and Ricky

Flippin of Edmonson.

LIPHAM

Mr. and Mrs. Julian Lipham would like to announce the arrival of a new grandson, Richard Dean II, son of Mr. and Mrs. Richard (Ricky) Nelson of Aiken. The baby was born March 3 at Lockney General Hospital. He weighed 6 pounds 13 ounces and was 20½ inches

Richard Dean II has two sisters, Autumn, age 6, and Crystal, age 21/2.

The father is plant superintendent at Paymaster Seed Company in Aiken.

Maternal grandparents are Mr. and Mrs. Nathan Wil-

son, Lubbock, and greatgrandparent is Mrs. Lee Wilson of Abilene.

Paternal great-grandmothers are Mrs. Dean Myrick of Floydada and Mrs. Tom Nelson of Lubbock.

GALVAN

Mr. and Mrs. Tommy Gal-van of Floydada are the proud parents of a baby girl, Monica. Monica was born at Central Plains General Hospital in Plainview weighing 6 pounds, 12½ ounces. She was 18 inches long.

Maternal grandparents are

Mr. and Mrs. Enrique Gonzalez of Floydada.

Paternal grandparents are Mr. and Mrs. Jose Galvan of

Floydada. Great-grandparents are Mrs. Elena Castillo of Floydada, Mr. and Mrs. Tilo Hinojosa of San Angelo, and Mr. and Mrs. Willie Galvan of Raymondville.

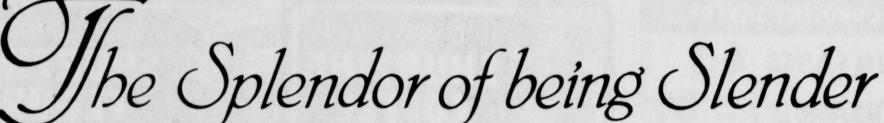

FLOYD DATA Mr. and Mrs. Ron Pinkleton and family have been in Floydada visiting friends. Pinkleton was formerly pastor of the First Christian Church in Floydada.

Paul Becton, director of the national brucellosis eradication program for the USDA's Animal and Plant Health Inspection Service, said the published changes in the program's "uniform methods and rules" went into effect February 24. He said cooperating state agencies will have time to adjust state brucellosis regulations accordingly.

Changed are standards for quarantined pastures and feedlots, dealer registration and record-keeping, identification of adult- and calfhood-vaccinated cattle, quarantine release procedures for adult-vaccinated and brucellosis-affected herds, and state classifica-

Alternate Energy Sources Topic Of Irrigation Conference Avenue. It begins at 9:30 a.m. Dr. Kurt J. Irgolic, associate director The potentials for alternate sources of energy for High Plains agriculture will be examined in detail at the annual High Plains Irrigation Conference here Tuesday, March 18. energy for irrigation. With the energy supply becoming more and more critical, and with Other speakers for the conference will irrigation demanding high energy use,

FROM PLAINS COTTON GROWERS, INC.

Plains Cotton Growers, Inc., Lubbock, March 4 filed

a statement with the U.S. Department of Agriculture

reaffirming the organization's vigorous opposition to

any plan whereby penalties would be imposed on pro-

ducers and landowners for failure to follow

The statement was submitted at a public meeting in

Lubbock on objectives and strategies developed by

USDA under the Soil and Water Resources Conserva-

tion Act of 1977. The Act calls on the Department to

appraise on a continuing basis the soil, water and

related resources on non-Federal land in the U.S. and

to develop a program for furthering the conservation

The magnitude of the undertaking is illustrated by

the fact that an estimated \$223 billion is proposed for

seven major resource conservation programs exten-

ding over a 50-year period. The total, presumably,

would include both government and producer cost-

One of the alternative means under consideration to

achieve conservation objectives, labeled "cross com-

pliance," would require performance of conservation

activities as a condition for eligibility to participate in

Aware that this possibility was drawing favorable

comment in Washington circles, the PCG Board of

Directors last October adopted and conveyed to the

Department a policy recommending that farm pro-

gram eligibility in no way be made dependent on soil

That recommendation was repeated in PCG's March

4 statement, making the point that program benefits

already are inadequate without USDA mandating ad-

ditional costs for conservation practices as a program

The PCG presentation made it clear that the

organization is a strong believer in conservation prac-

tices, but believes they should be done on a voluntary.

not mandatory, basis. The solution to conservation

problems, PCG says, should come through the provi-

sion of "incentives to conserve, not penalties for failure

Seven resource areas and seven alternative

strategies for their conservation have been identified

by USDA and are summarized in a review draft

available at Soil Conservation Service and

Agricultural Stabilization and Conservation Service

offices. USDA is asking for additional comment from

Fuel From Farms Available

"Fuel from Farms", a guide for persons interested in producing ethanol from farm crops has been published by the U.S. Department of Energy's Solar Energy Research Institute (SERI).

The 170-page publication provides an overview of the technical and economic factors involving ethanol production and use. Planning worksheets, a sample business plan, and practical information on where to obtain financial and technical assistance are also included.

The guide is available free to the first 100,000 requestors and can be obtained by writing DOE's Technical Information Center, P.O. Box 62, Oak Ridge, Tennessee 37830.

The Senate Agriculture Committee's fiscal 1981 budget recommendation earmarks \$1 billion for CCC short-term and intermediate export credit programs. The action, which followed proposals by Sen. Jepsen (R-Iowa) and Sen. Cochran (R-Miss), would enable CCC to establish a revolving fund with GSM-5 export loan repayments reverting to the CCC budget, rather than to the general treasury. This would mean export credit funds would no longer be dependent on annual appropriations or subject to budget cuts. National Cotton Council delegates passed a resolution

urging the revolving fund at their 1980 Meanwhile, the House Agriculture Committee has gone along with the President's budget proposal to eliminate funding for GMS-5 loans in favor of the GSM-101 guaranteed loan program. Recommendations now go to the House and Senate budget committees currently preparing the first concurrent budget

resolution which must be approved by both houses by May 15. The National Cotton Council's Joint Industry Committee on Bale Packaging met in Greenville, S.C., and recommended an increase in the width of woven polyporpylene patterns to 491/2" on modified flat bales. The committee also recommended full approval of closely

Cotton Council International cooperators from Japan, Korea, the Philippines, Thailand, and Hong Kong participated in a seminar sponsored by CCI in Hong Kong March 6-7. CCI's Far Eastern Director John Maguire welcomed representatives. Emmett Robinson, National Cotton Council public relations director, Memphis, and Allen Beach, CCI fiscal director, Washington, led discussions aimed at improving promotion techniques for U.S. cotton in these important importing countries. Robinson and Beach also will go to Indonesia to discuss establishment of a cooperative promotion program with the Indonesian Spinners Association and to

Thailand for consultations with the Thai Textile Manufacturers Association. New sales of 51,400 running bales of upland cotton for the week ended Feb. 24 brought this season's total to 8,617,900, compared with 5,900,400 a year ago. Major buyers were Korea and Taiwan. The week's shipments of 189,800 running bales brought the total

to 4,170,900. It has been proven that immersion in sea water for up to three years does not harm cottonseed, which may account for the mix of Old and New World strains since the seeds could have floated across the Atlantic to cross with South American varieties.
