Ma Bell To Ask Increase

Inflation and the continuing need to pour billions of dollars into Texas telephone growth are prime factors in Southwestern Bell's request for \$326.3 million in new rates filed recently with the Texas Public Utility Commission.

Rogers said Southwestern Bell has spent about \$3 billion in construction in Texas during the past three years, and will add more than another billion this year.

"It is imperative that we earn a reasonable level on that investment in order to secure the additional huge sums necessary to continue growing with Texas."

I did have an enjoyable fourth. Shelly Harris and I, along with two of our eight children, went to Uvalde. We took a pickup and trailer down and moved her mother to Floydada. Yes, it was hot, but no worse than it was here.

And, yes, we are still speaking. Moving, at it's best, is not the most fun thing to do, but we managed to have a good time. My thanks to Dan Teuton for getting the pickup out in time and for having it in good running condition.

Convention Delegates Return

Delegates from the county attended the Democratic State Convention in San Antonio.

Hollums said that the San Antonio Convention favored Jimmy Carter with a majority and that about one-third of the delegates were split between Ted Kennedy and the uncommitted vote.

Texas now has a class C misdemeanor law against homosexual activity that is punishable by fine only. Both resolutions were defeated in roll call votes.

The most heated items dealt with two resolutions on gay rights. The first resolution was that there would be no discrimination because of sexual preference. The second was to remove any kind of criminal penalty because of homosexual conduct.

Floyd County Farm Report

BY NANCY CARTEL

The main thing I hear throughout the county is "When is it going to rain. If we don't get some moisture soon, this crop isn't going to make it." The corn and milo are being affected most adversely. Cotton, except in some dryland fields, is still holding it's own but is beginning to hurt. The column by Jett Major gives a much more in depth report on the county crop situation.

On the local onion market, yellows are selling for \$3.00-5.00 depending on size. The whites are selling for \$3.50-\$7.00, again depending on size.

At the Floydada Livestock Sale on Wednesday, 900 head were sold. The market was generally steady.

Steers:
300-400 lbs. brought 80-85
400-500 lbs. brought 75-80
500-600 lbs. brought 70-76
600-700 lbs. brought 67-70
700-800 lbs. brought 65-67.50

Heifers:
300-400 lbs. brought 70-80
400-500 lbs. brought 64-70
500-600 lbs. brought 62-64
600-800 lbs. brought 58-61

Springer Cows brought 45-54
Pairs brought 550-700
Butcher bulls brought 52-58.50
Canner and Cutters brought 43-46.50
Breakers and Boners brought 41-43.

The value per acre of farm real estate shot up 16 percent nationally last year. That followed a 12-percent boost in 1978 and a nine-percent hike in 1979, reports the U.S. Department of Agriculture.

April estimates show U.S. farmers will plant 82 million acres of corn this year. That's three percent more than in 1979, according to Sperry New Holland.

In addition to the dry weather, the farmers in the northern part of the county had to contend with another problem this week. An overload on the electric lines caused low voltage and power failures. The electric flow was reversed causing the electric well motors to reverse their direction and many of them burned up. The power company had engineers here to try to find the cause of the problem and think that they have the problem solved.

The local markets on Wednesday afternoon were:

Wheat/bu. — 3.50-3.51
Milo/cwt. — 4.85
Soybeans/bu. — 5.80-5.95
Corn/cwt. — 5.55

On the Lubbock spot market, cotton prices were: 3.0-3.2 mikes were 1875-2075 points over the 1980 loan; 2.7-2.9 mikes were 1725-1925 points over and 2.6 and below mikes were 1600-1800 points over.

Wheat harvest in Floyd County was all but completed this past week with over 98 percent of the crop in to date. Yields have been very favorable on both irrigated and dryland acreage, especially in the southwestern part of the county where the most rainfall was received.

Sunflowers and cotton, like wheat, have fared well under the recent record-high temperatures and hot, dry winds, but even these desert crops have begun to show signs of heat stress. Some late sunflowers have already had the heads turn back down. Cotton stands are excellent throughout the county and the recent heat wave has forced roots deeper into the soil profile where they should be for optimum utilization of soil moisture; however, if there were ever a critical time of need for rainfall on cotton, it would be now. Many producers gave up on the possibility of receiving rainfall in the near future and as a result began watering cotton almost two weeks ago. Insect activity in cotton has been light all across the area with some minor problems being reported with thrips, fleahoppers, leafhoppers as well as grasshoppers.

High temperatures and hot dry winds have sapped both moisture and vigour out of all of the corn and sorghum as well as some of the soybean

acreage. Most of the corn is in the pre-tassel to tassel stage and in the earlier planted corn has begun; however, the hot weather in the corn out so much that most producers are reporting poor yields. This is occurring in much of the corn. This could mean a tremendous drop in yields for many farmers if the temperatures don't stay below 90 degrees for the next few weeks. A high humidity is also needed for optimum corn.

Corn earworm and corn borer problems are present on most of the fields, but the largest threat to the corn at the present time is spider mite infestations which are unusually high this year as well as hot weather.

There are numerous miticides that can be used, but the most effective is Azodrin.

We received notification from David Ivie of the Texas Department of Agriculture that Azodrin has been cleared for use on the Blackland Prairie in the High Plains. But, there are restrictions: (a) 3 applications maximum, (b) 3 pounds of active ingredients total, (c) 60 days from last application and grazing of stubble, (d) Azodrin is cleared for use on sorghum and corn but not for silage.

Some fields of grain sorghum are already beginning to show signs of insect damage.

It appears that damage resulting from insect problems in soybeans and sorghum will be minor this year compared to the adverse effects of the high temperatures and lack of rainfall if some relief is not received soon.

Producers across the county have their crops in as good a position as could be in at this time of year, but to keep them in good condition, soaking rain within the next week to week and a half is desperately

Heat Wave Affects Texas Crops And Stock

Crops, animals and people all wilted in one of the longest recorded heat waves in Texas' history.

But it's no reason for farmers and ranchers to reach for the panic button, agree two Texas Tech University professors and a meteorologist at the National Weather Service office in Lubbock.

"The quality of the rangeland is going down, but there's nothing critical yet," Dr. Donald F. Burzloff, chairman of the Department of Range and Wildlife Management, said Monday as temperatures again soared to the century mark.

Most rangeland "got a reasonably good start" this year and matured early, he said. But continued dry weather created low-quality forage. This caused declining weight gains for cattle, down from a normal 1 1/2 pounds per day to about three-quarters of a pound, he said.

If the heat wave were to continue for a couple more weeks, Burzloff said, cattle would require supplemental feed or would be marketed early. An early break in the heat wave would produce "no noticeable loss" in weight gain, he said.

Crops held their own, although cotton is better able to withstand a continued heat wave than either corn or sorghum, said Dr. Dwane G. Miller, chairman of the Department of Plant and Soil Science.

"So far, crops are not hurting too much," he said. Irrigated crops would fare better than dryland crops during a prolonged dry spell, he said. But "the dry spell is definitely going to have an effect on yields."

Corn, with its broad leaf area, would be first to be hurt during a prolonged heat wave, Miller said. Next to be hurt would be sorghum.

Cotton, with its smaller leaf surface now, was in better shape to withstand June's dry spell, he said. "With a prolonged dry spell, cotton's deeper rooting system will help it better survive dry stress than corn or sorghum."

When the mercury zipped past 100 degrees Monday for the eighth straight day, Lubbock tied the record for the second longest heat wave on record. The record was in 1924, when the temperature reached 100 degrees 10 days in a row. In 1928, the mercury also reached three figures for eight straight days.

Last month was either the hottest June on record or one of the hottest across the state, said Ken Wigner, special programs meteorologist for agriculture at the National Weather Service. High daily records were recorded throughout West Texas and in North Central Texas. Dallas-Fort Worth recorded the all-time high — 113 degrees — two days in a row. Wichita Falls set an all-time record of 117 degrees. El Paso had more than 20 days of 100 degree or higher temperatures — a new

record of consecutive 100 degree days. Lubbock missed its all-time record during the heat spell by only one degree — the record high is 109 degrees. But nearby towns did set new daily records: the temperature peaked at 111 degrees in Matador, Spur and Paducah, Wigner said.

Although many farmers and ranchers claim Texas and a large adjacent area of the Southwest are suffering another cyclical drought, similar to those of the 1930's and 1950's, Wigner is hesitant to call the present dry spell a major drought. The weather service only has data going back 70 years, he said, not a long enough time to indicate whether drought cycles exist.

Reason for the heat wave, Wigner said, was a high pressure system "in all levels of the atmosphere except for the surface." This high pressure forces air toward the surface and the air warms as it descends, he said.

The high pressure settled over Texas because the jet stream shifted to the upper Midwest. "As a result, we can't get any moving systems" such as a cold front or an upper level impulse that could bring rain.

Wigner said he does not expect any widespread rain for at least two weeks. This is reflected by the National Weather Service's extended July forecast, which calls for below normal rainfall and higher than normal temperatures.

Through June Lubbock recorded 7.48 inches of rain for the year, compared to a normal 8.97 inches.

Those looking for relief from the hot, dry spell can take comfort from the fact that, on the average, the last two weeks of June and the first two weeks of July are the warmest of the year.

Many people believe August is the hottest month, but Wigner said that is not so. The greater average humidity during August just makes the month seem hotter.

Soybean Contest

Soybean producers have an opportunity to win top honors in the Soybean Yield Contest.

The 1980 contest is sponsored by the Texas Soybean Producers Association and Elanco in conjunction with the Texas Agricultural Extension Service and A&M University Extension Service R.J. Hodges, Extension Specialist.

"The contest is an educational tool to help rest in soybean production," Hodges said. "Benefits include development of working information, cooperation in industry to increase efficiency, and recognition of individuals who achieve yields."

Interested producers contact their county Extension agent for contest rules and points out the agencies entries must be in by.

Each entrant must have at least 5 acres of soybeans. There may be only one entire farm operation in the contest. The soybeans will be harvested by a three-man Contest Committee.

According to Hodges, a producer in the Northeast Texas area selected from among winners. Proprietary plaques and various amounts of prize money depending on their state championship will be awarded to Acaapulco.

Soybean producers have an opportunity to win top honors in the Texas Yield Contest.

The 1980 contest is sponsored by the Texas Soybean Association and Elanco Production in conjunction with the Texas Agricultural Extension Service, A&M University System, and R.J. Hodges, Extensionist.

"The contest is designed as an educational tool to stimulate interest in soybean production," Hodges said. "Benefits include development of worthwhile information, cooperation in the industry to increase efficiency, and recognition of individuals who achieve yields."

Interested producers should contact their county Extension agent for contest rules and entry points on the agribusiness map. Entries must be in by August 15.

Each entrant must grow at least 5 acres to be eligible. There may be only one entry per acre. The entire farm operation, from planting to harvest, must be under the control of the entrant. The contest is open to all soybean growers in Texas.

According to Hodges, the contest is a valuable educational tool for soybean producers. It provides an opportunity for growers to compare yields and learn from each other's experiences. The contest also promotes the use of soybeans in a variety of ways, from food to industrial uses.

son told officers as he mentally relived events of that ill-fated night. The lad ran to his home to inform his mother and other family members after the shooting.

The youngster told how his father had sat outside in the hot night when he entered the house and told his son he was "going to Trinidad's (Aguilar) house for a while." The lad went along.

The two men talked about events of the previous night's disturbance as they and the lad were seated in Aguilar's auto in front of his barracks residence. Aguilar was under the steering wheel, and Zuniga was seated beside him on the passenger side of the front seat. The youngster was in the back seat.

The time was between 10:30 and 10:45. It was now dark.

A 1978 Chevrolet pickup drove up near the car. The driver allegedly said, "You all sell any beer?" Zuniga answered, "No, we don't sell beer here."

A man who had been sitting on the passenger side of the pickup walked to the driver's side of the auto. Crouched beside the window, he confronted Aguilar about being involved in a confrontation with his brother Tuesday night. The men argued.

"You all can fix things up in the morning. We'll arrange something with the law," Zuniga, who was not believed to have been associated with the Tuesday fracas, reportedly told the man, Fidel Mata Espinosa.

The lad related how Espinosa "then got up and started shooting" with a pistol which apparently had been stuck in his pants.

The eye witnesses recalled that after his father was struck by the gunfire, Aguilar then suffered facial wounds. The boy said he ducked down in the back seat.

Aguilar then reportedly reached for a pistol in the auto and opened fire on his assailant. Additional shots came from the pickup, which was being driven by Marcelino Borjon, 25, also of Cone.

One of the bullets struck Espinosa. He stumbled back to the pickup and the vehicle sped away.

Espinosa was taken to Caprock Hospital in Floydada by his companion.

SUSPECT APPREHENDED

Borjon was discovered hiding in a barn about 12:45 a.m. Thursday — some two hours after the shooting — by Deputy Sheriffs Red Riley and Paul Stone. Now armed with a loaded .20 gauge shotgun, the suspect offered no resistance.

The barn is located "about 15 or 20 yards" from Borjon's residence on the Bob Kimbrough farm near Cone. Espinosa lives on the same farm. Both men reportedly are employees on the Kimbrough farm.

Investigating officers said Borjon took Espinosa to the hospital in Floydada, then returned to his home "on the back roads." He presumably hid the two weapons about three-fourths of a mile west of his house in irrigation pipe and other equipment before deserting the pickup in a field on the farm.

Espinosa was believed to have been armed with a .25 calibre automatic pistol and Borjon with an automatic .22 rifle.

Both men reportedly are citizens of Mexico.

Aguilar, who walked into his residence despite his critical condition, was taken to Methodist Hospital by Ralls Ambulance Service.

Justice of the Peace Jim Scott Travis pronounced Zuniga dead at the scene. His body was taken to Carter-Adams Funeral Home in Ralls. His body was taken Thursday morning to Lubbock for an autopsy.

A crowd of other barracks residents and other neighbors gathered at the scene shortly after the shooting.

Sheriff Fred Owen led the investigation. He dispatched Deputy Sheriff Beaver Wallace to Floydada in search of the suspects. Wallace was assisted by members of the Floyd County Sheriff's Department.

Sheriff Owen worked on the case around the clock. Thursday morning, Borjon, now a prisoner in Crosby County Jail, led officers to a point where the weapons had been hidden before his apprehension.

MURDER CHARGES FILED

Murder charges have been filed against Borjon and Espinosa. Both men were said to have been "drinking" at the time of the incident.

Funeral rites for Zuniga were at 3 p.m. Saturday in St. Michael Catholic Church in Ralls. Father Matthew D'Souza officiated.

Interment was made in Ralls Cemetery, under direction of Carter-Adams Funeral Home.

Survivors include his wife, Juanita; eight sons, Gilbert, Ernest and Jose, all of the home; Selestino, Arcadiom, Jose Jr., Cecilio, Ventura; seven daughters, Oliva of the home, Amelia, Gloria, Loretta, Ramona, Josefa, Margarita; two brothers, Demetrio Zuniga of Cone and Carlos Zuniga of Wasco, Calif.; two sisters, Vicenta Zuniga of Los Fresnos and Mrs. Tetra Ramirez of San Benito; and a number of grandchildren.

Aguilar reportedly still was listed in "critical condition" early this week.

SPINOSA RECAPTURED

Espinosa was erroneously dismissed from Lubbock General Hospital about 6:30 p.m. Monday. About 30 minutes later, hospital personnel realized that the man had been a prisoner and notified the Crosby County Sheriff's Department.

Deputies Wallace and Stone apprehended the suspect at 10:49 p.m. that day at a residence in the Caprock Community. He was brought to the county jail.

Espinosa was arraigned Tuesday morning on a murder charge, and bond was set at \$25,000. He remained in jail at press time.

JULIANNE LIPHAM

Lipham Selected Sweetheart

Julianne Lipham, 16 year-old daughter of Mr. and Mrs. Julian Lipham, has been selected as Rotary Sweetheart for 1980-81.

Julianne will be a senior this fall in Floydada High School.

She is a member of the FHS band, has served on the flag corp three years, and was named Outstanding Junior Band Member. She has also received honors in the speech and drama department and is currently serving as president of the Drama Club.

Other honors include the Miss Floyd County title, runner-up in the Miss Mackenzie Pageant, and a selected finalist in the Miss Texas National Teenager Pageant held recently in Fort Worth.

Julianne is a senior representative on the FHS Student Council, plays on the varsity basketball team, and is a photographer for the annual staff.

Double-Ring Ceremony Unites Carlen Young, Randy Beedy

The First United Methodist Church in Floydada was the setting for the wedding of Carlen Young and Randy Beedy on Saturday evening, July 5.

Tom Pauley, minister of the City Park Church of Christ, officiated at the double-ring ceremony.

Mr. and Mrs. Deral Young are the parents of the bride and the groom is the son of Mrs. Ron Durmon of Amarillo and Charles Beedy of Claude.

Guests were registered by Mrs. Rex Rose. A single pink rosebud accented the bride's book and plumed pen.

An arch of candlelight formed by several candelabra decorated in spring flowers of daisies, pom mums and raspberry gladioli and graduated sizes of palms formed the background of the wedding scene. Floor baskets holding arrangements of raspberry gladioli, killian daisies and brass hurricane candelabra completed the wedding scene.

The bridal aisle was lit by brass candelabra decorated in garlands of silk lily of the valley.

Given in marriage by her father, the bride wore a formal length gown of white organza fashioned with a high Victorian neckline of ruffled chantilly lace. The sleeveless bodice had a sheer V-yoke and was edged with a deep ruffle of scalloped lace.

The full A-line skirt flowed into a chapel length train. A deep band of lace formed the hemline of the skirt and train. The headpiece was a picture hat of Brussels lace.

The bride carried a cascade bouquet of white sweetheart rosebuds, white starburst pom mums and stephanotis showered with double white baby's breath.

Something old and something borrowed was a pin fastened in the bride's bouquet. The pin had belonged to the bride's maternal great-grandmother, Mrs. A.R. Hanna. Something new was her bridal attire. She wore the traditional blue

garter and a six-pence in her shoe.

The groom was dressed in a white tuxedo while the groomsmen and ushers wore black tuxedos.

Mrs. Mark Gilly was maid of honor. Other attendants were Mrs. Fred Parsons and Mrs. Rance Young. Their gowns were of raspberry-colored voile fashioned with a deep scooped neckline edged with a flare ruffle. The full A-line skirt flowed from the empire bodice. The skirt was accented with a ruffle that extended up the back giving an apron silhouette.

They each carried old fashioned colonial-type bouquets in all silk flow-

ers of mixed shades of pink with raspberry trim.

Cheree and Chris Monden, niece and nephew of the groom, were flower girl and ring-bearer.

Best man was Rex Rose. Groomsmen were Mark Gilly and Rick Reddy. Guests were seated by Rance Young, brother of the bride, and Mark and Todd Beedy, cousins of the groom.

Mrs. David Battey sang "You Decorated My Life" accompanied by Mrs. Mike Giesecke at the piano.

Other traditional wedding selections were presented by Mrs. Bill Hardin, organist and Mrs. Giesecke.

MRS. RANDY BEEDY

RECEPTION

Following the ceremony a reception was held in the fellowship hall.

The bride's table was covered in bridal satin with an organdy overskirt. Tulle puffs around the top edge of the table were tied with pink satin ribbons. A silver candelabra, circled by the attendants' bouquets, formed the centerpiece.

The four tiered wedding cake, topped with pink satin bells, was served by Mrs. Don Shurbet and Mrs. Douglas Meriwether, aunts of the bride. Mrs. Rick Reddy served punch from crystal appointments.

Lori and Shandra Young, cousins of the bride, attended the groom's table. Chocolate cake and coffee were served from a pewter service.

Guests at the reception were presented with rice bags by Ange Shurbet, cousin of the bride.

After a wedding trip to Colorado, the couple will be at home near Amarillo.

BRIDAL COURTESIES

The bride was honored with showers in the homes of Mrs. Sam Baker, Floydada and Mrs. Fred Marble, South Plains. Other pre-nuptial activities included a rice and spice party given in the home of Mrs. Rance Young.

A rehearsal dinner was hosted by the groom's family at the Elks Lodge in Plainview. Later in the evening, after-dinner refreshments were served in the home of Mr. and Mrs. Eugene Beedy, aunt and uncle of the groom.

Turner Honored Bridal Shower

Miss Angie Turner, bride-elect of Rick Covington, was honored Saturday, June 28 with a gift shower in the home of Mr. and Mrs. Wayne Rainwater, Dougherty.

Angie is the daughter of Mr. and Mrs. Nolan Turner of Floydada, and Rick is the son of Mr. and Mrs. Kent Covington of Dougherty.

Receiving guests with the honoree were her mother, Mrs. Nolan Turner, and the groom's mother, Mrs. Kent Covington.

Mrs. Rainwater also registered guests. The serving table was covered with a white lace tablecloth centered with

an arrangement of flowers chosen by the bride. Refreshments consisted of assorted punch. Guests were Mrs. Henry Mmes. Wm. Kenneth Kishie Penell, Robert Ward, Roy Craswell and H. The bride-elect, Miss Angie Turner, was showered in the Baptist Church.

At Age 69, Agnes Bond Felt She Had Gone 'The Last Mile Of The Way' Then She Discovered Pat Walker's.

She Has Lost 40 Pounds And 57 1/2 Inches And Feels Great!

MRS. BOND, PLAINVIEW, TEXAS

AGNES BOND STATES:
"I can't thank Pat Walker's enough. At age 69, I weighed 182 pounds and still gaining rapidly. It seemed as though I had gone the 'last mile of the way'. My circulation was very poor and arthritis had made my joints so stiff that I couldn't take any exercise. I also had kidney and bladder trouble and had broken ribs on both sides. With the encouragement of my sister-in-law, I decided to visit Pat Walker's for my courtesy treatment and figure analysis. After the one treatment, I was convinced this was what I needed and wanted.

It was hard for me to get on the machines at first due to arthritis in my joints, but after a few treatments, it was no task. The Pat Walker food program is simple and easy to follow, and with the help and encouragement from the counselors; it was indeed wonderful.

After 8 months, I have lost from 182 to 140 pounds with an inch loss of 57 1/2 inches. My dress size has gone from 20 1/2 to 14 and I feel better than I have in years."

Mrs Clyde Bagwell

We continue to have dry weather but the past three days we have had a small break in the heat wave. It was several degrees cooler Saturday, Sunday and Monday, but the weather report says the temperature will climb back up before the week is out.

Mr. and Mrs. Clyde Bagwell received a phone call Monday night, June 30, from their niece, Mrs. Bill Pierce of Everett, Washington. She reports they had not been bothered by any of the ash from the St. Helen's volcano. We also had a call Saturday night from our nephew, Preston Lee Joiner Jr. who lives in Eugene, Oregon and he reported they had only seen a bit of dust-like ash. There not enough to worry about.

Mona Dell Wise of Amarillo came down Wednesday and spent the night in the home of her parents, Mr. and Mrs. C.H. Wise. Dean Walls of Plainview visited Saturday afternoon with his parents, Mr. and Mrs. E.W. Walls.

Sunday afternoon Mrs. E.W. Wall's two nieces visit-

ed in the Walls home. They were Mrs. Don Reecer of Lockney and Mrs. Virginia Gann of Mesa, Arizona.

Mr. and Mrs. Richard Abel of Amarillo spent Saturday and Sunday here with her grandparents, Mr. and Mrs. L.H. Blum.

Wayland Bagwell of Los Angeles called his brother and sister-in-law, Mr. and Mrs. Clyde Bagwell Saturday afternoon. Wayland said he was not feeling very well—he has been in failing health for sometime.

One thing in his favor was that they were getting an apartment on the ground floor and then he could get outside more. For a number of years they have lived in an upstairs apartment in the same building.

Mrs. Ethel Graham visited Sunday afternoon with Mr. and Mrs. Joe Dunn.

Mr. and Mrs. Walton Wilson spent Saturday and Sunday at Brownwood attending the Horton family reunion. They returned home Sunday night.

Mr. and Mrs. Woodrow Wilson attended the wedding

of Randy Beedy and Carlen Young, Saturday evening at the First United Methodist Church. Saturday night after the wedding, Woodrow and Bessie visited Mr. and Mrs. Son Jackson.

Ones that were in and out at different times during the July 4 holiday in the home of Anne Swepton were, Mr. and Mrs. Danny Swepton and children of Alpine, Mr. and Mrs. Bob Burns of Amarillo, Doyle Ray Burns of Carrollton and Mr. and Mrs. Vance Campbell.

Mrs. Bill Beedy and Mrs. Bill Tye were in Plainview June 30 and visited Mrs. George Beedy.

Sunday was the birthday of Mrs. A.S. Mize. Mr. and Mrs. Bill Tye, Mrs. Bill Beedy and Charles Beedy went out to visit Clara and Albert and to help her celebrate her birthday.

Wednesday Mr. and Mrs. J.W. Sullivan of Borger and their grandson, Perry Sullivan of Phillips, spent the day in the home of Mr. and Mrs. Ray Cook. J.W. Sullivan is Mrs. Cooks brother.

On Thursday Ray Cook Jr. of Austin came and stayed until Saturday in the home of his father, Ray Cook and Mrs. Cook.

Sunday Mr. and Mrs. Frank Cook of Sentinel, Oklahoma spent the day in the home of his brother, Mr. and Mrs. Ray Cook.

Mr. and Mrs. David Wise spent Friday night with his grandparents, Mr. and Mrs. C.H. Wise and his uncle, Charles Denton Wise. David and his wife were through Amarillo and spent Thursday night with his aunt Mona Dell Wise. They were on the move from Los Angeles back to Ft. Worth.

Mr. and Mrs. T.C. Goodman of Lubbock visited Sunday afternoon with Mr. and Mrs. T.L. Perry and Mr. and Mrs. Eugene Watts and family. Mrs. Goodman is the former Clara Cozby.

Mr. and Mrs. Eugene Watts and family visited Sunday morning with Mrs. J.W. Gilbreath who had just returned from Central Plains Hospital in Plainview, where she had surgery.

Mr. and Mrs. Bradford Beedy and Kyle of Spearman, Charles Beedy from near Claude, Mr. and Mrs. Jeff Beedy and Blake of Spearman, Mr. and Mrs. Scott Beedy of Amarillo and Mr. and Mrs. Mike Monden and family of Stinnett were all here to attend the wedding of Randy Beedy and Carlen Young Saturday evening.

They all spent the weekend here with Mr. and Mrs. Bill Beedy and other relatives.

Our sympathy goes out to the family of Mrs. Homer Steen whose funeral was held Monday afternoon, July 7. Her late husband was editor of the Hesperian for many years.

INSUR-MATION
 Floyd County
 Insurance Agency
 Jerry Cooper

I know I need better health insurance. A friend suggested a Major Medical policy but I don't know what areas to consider in comparing different policies. Investigate the current rates for hospital, surgery and physicians. Use these figures to compare policies. What will each policy cover? Do benefits consist of a flat amount or a percentage of the actual cost? Are both illness and accident covered? What miscellaneous costs are covered? How does the deductible apply... per family, per person, per condition or per year? Which expenses may be applied towards the deductible? How long does the benefit period run? What is the maximum benefit payable? In all these considerations, a qualified insurance agent can be your greatest asset.

Carthel Tours Holy Land

Living "many miles from nowhere" in this part of the country, many of us West Texans have yet to see the other side of the Caprock, much less another state or country.

But Rick Carthel, son of Mr. and Mrs. Ray Gene Carthel of Floydada, has seen the other side of the world. He recently returned from a tour of the Holy Land with the Trinity Fellowship in Amarillo.

The group left on June 7. They reached Cairo 29 hours later by plane. It was a different atmosphere from the beginning. The sun rose at 3:30 a.m. and didn't set until 10 p.m. "Desolation," said Rick, "is the only word for that area."

Two days were spent in Egypt. There the group toured the Museum of Artifacts in Cairo, and also got a look at King Tut's tomb.

Other tours included viewing the pyramids, camel riders, and "fights with peddlers." Rick said the nerve of the peddlers was unbelievable. "They would just nearly mug you trying to sell you something."

Boat rides on the Nile were taken, and the ancient city of Memphis, where paper is still made from papyrus, was toured. The group spent a night in Ammon, Jordan. According to Rick, the area was also very sandy and desolate, "sort of like Midland-Odessa."

They took a bus into Israel. Rick stated that Customs was very strict, as there was a tremendous risk of bomb threats and smuggling bombs.

As soon as they arrived in Israel, "we could just feel the peace of the Lord. We felt like we were really in God's country."

Jericho was the first city visited. The mountain where Jesus was tempted by Satan was viewed, and Rick said temperatures there reached as high as 135 degrees. "It is a rich land, full of fruits and fruit trees, but no grass."

Caesarea, the ruins of an ancient civilization, was toured. The group visited the Roman Theatre, which Rick described as a "half dish." He said it has almost perfect acoustics, and concerts are still being performed there.

The next day, a tour was conducted of Mount Carmel, the highest point in Israel. The neighboring valley, Armageddon, stretches for over 230 miles. "Israeli fighter planes were visible over the valley, practicing," he related.

Nazareth was another city visited. Rick was amazed at the hatred displayed between the Jews and the Arabs. "One Arab built a house shaped like a pistol. It is aimed directly at the Jewish Government headquarters."

The land of Canaan impressed Rick as having "very smart people. It's all they can do to make a living, but they stick together. They have been through so much, they have a special bond between themselves."

A boat ride on the Sea of Galilee was the next excursion. This is the site where Peter and Jesus walked on the water. Rick stated, "I can see how Peter would have become frightened. Waves of 20-25 feet in height are not unusual."

A tour was taken of the Golan Heights mountain range. They went to the border of Lebanon, and "joked around with the guards on the border. They were really friendly and we had a good time." All the water in this region is furnished by the mountains.

The tomb where Jesus was believed to have been buried was visited. Rick stated that he believes it is the place of the resurrection. The Shrine of Books, where the Dead Sea Scrolls are kept, was an object of their tour. The scrolls, Rick said, are enclosed in glass, which is surrounded by water to prevent the documents from burning in the event of a fire.

A memorial to the six million Jews killed in World War II was seen. It boasts a model city of Jerusalem built on a scale of 50' = 1". It looked exactly like the city, and took nine years to build."

While visiting the Dead Sea, the group decided to take a swim. As Rick said, "There was no way anyone could sink in that water. It is so full of salt and deposits that I read a newspaper while floating on my back. I'll bet the world's loneliest job is being lifeguard at the Dead Sea."

Other sites of interest included the tomb of Lazarus at Bethany, the Garden of Gethsemany in Jerusalem, and the Upper Room (site of the Last Supper), where a church service and communion were held.

If there was one bad aspect of the trip, Rick said it was the food. "They offered us camel meat in Egypt. I think everyone in our group went on a fast that day. Other than that, the cities were fantastic. There were always about eight people ready to do something for us."

"Everyone works there. It doesn't matter if all they do is sweep the streets, they work. There are a lot of street sweepers in that part of the world. Poverty is everywhere, but the people are happy. They would break into a dance anywhere at anytime."

With the descriptions of their living conditions versus their love of life, maybe there's a lesson hidden inside which tells us where the most important things in life are. Rick is a disc jockey with radio station KFLP in Floydada and invited listeners to tune in from 6-9 p.m.

Los Lingos Creek Bridge To Be Rebuilt

The State Department of Highways and Public Transportation is planning to proceed with the development of the proposed reconstruction of Los Lingos Creek Bridge, 6.1 miles north of F.M. 97 and Quitaque Creek Bridge, 5.1 miles north of F.M. 97, both on F.M. 1065 in Floyd County.

Since the Administration of the State Department of Highways and Public Transportation approved the location and design proposed for this project, the State Department of Highways and Public Transportation will begin work on the next phase of engineering necessary for the development of this project.

This proposed bridge reconstruction will consist of replacement of the total structures between present abutments. The proposed bridge widths will be 34 foot clear roadway.

Maps, drawings showing geometric design, environmental studies and all other available data concerning the development of this project may be inspected and copied at the Resident Engineer's Office in Post.

Today's Lifestyles

By Marilyn Tate
County Extension Agent

The human foot is one of the strongest, and most intricate and sensitive parts of the body. Many of us devote much time to grooming, but give little attention to routine foot care. Think about how many steps you take each day. Don't your feet deserve some pampering?

Foot problems can affect the entire body system, causing pain in the legs, undue fatigue and irritability.

Today's awareness of the body and the popularity of sports focus even more attention on the feet.

Although almost everyone is born with perfect feet, more than 70 percent of American adults suffer from foot problems. Most of these ailments can be prevented by following good foot-care programs at an early age. The tips below are based on the idea that feet play a part in both looking good and feeling well.

Selecting Shoes—It takes only one pair of ill-fitting shoes, worn long enough, to develop a foot problem that will last a painful lifetime.

A well-fitting shoe should be 1/2" longer than the foot, and should fit snugly at the heel and instep. The sole should be as wide as the foot, and with the widest part at the second joint of the big toe. Allow room for the toes to move freely when walking.

Exercise—Proper exercise, done in moderation, can help to relax feet and build stronger muscles. Here are some simple foot exercises:

While sitting, rotate each foot to stretch cramped muscles. Walk on the outside of the feet for a few seconds.

Pick up marbles, one by one, with the toes of each foot. Indoors, walk tiptoe in bare feet, stretching upward.

For longer wear and more comfort, alternate shoes so that they can dry out between wearings.

Exercise—Proper exercise, done in moderation, can help to relax feet and build stronger muscles. Here are some simple foot exercises:

Foot Hygiene—An important rule to follow in a general footcare program is to keep feet as clean as possible. The feet get less air than most other parts of the body, and they pick up dust, dirt and odor more easily. To keep feet groomed and cleaned follow these steps:

Wash your feet at least once a day in warm, soapy water. Just showering is not enough. Scrub vigorously between toes and heels.

At least once a week, treat the feet to a long soak. If desired, use a foot bath formula.

Dry feet thoroughly after wash. To keep feet dry, spray or dust on foot powder, or use powder in shoes.

Change footwear daily.

Judge Smith Attends Meeting On The Of The MX Missile

County Judge Choise Smith is attending a meeting in Lubbock at the request of Congressman Charles W. Stenholm. The meeting is for informational purposes only and will concern the location of the MX Missile site in West Texas or Eastern New Mexico.

General Forrest McCarty, Air Force, will explain in detail the MX system, its development, deployment and its possible ramifications for the surrounding community.

Nevada-Utah is still the preferable site location for the full MX System. They are, however, considering

Judge Smith Attends Meeting On The Site Of The MX Missile

County Judge Choise Smith is attending a meeting in Lubbock at the request of Congressman Charles W. Stenholm. The meeting is for informational purposes only and will concern the location of the MX Missile site in West Texas or Eastern New Mexico.

General Forrest McCarty, Air Force, will explain in detail the MX system, its development, deployment and its possible ramifications for the surrounding community.

Nevada-Utah is still the preferable site location for the full MX System. They are, however, considering

ARE YOU ALIVE?

There is an "oughtness" about life that troubles the honest man. He senses he ought to be happier than he is, better than he is, wiser, more alive. He ought to be thinner, nicer, more peaceful, more controlled. And he even has occasional, late-at-night presentiments that he ought to consider his definable limits. It has been said that death stalks everything living and catches it, eventually.

Last week we cut a branch off a dogwood tree. It was a beautiful sight, seeing the carpet of freshly exploded blossoms lying on the grass. But when I walked by the branch two days later, the blossoms were ugly and brown-edged. They were dead — a vivid reminder why so many people today are the walking dead.

How can a man, created in the image of God, be truly alive when he is cut off from his Creator? Attend the church of your choice, and learn about God, who will not only put life into today and tomorrow, but forever.

percent on its Texas operations. "We need to earn in the range of 12.5 percent in Texas to provide the incentive for investors to pour in the dollars necessary to provide continuing good phone service for the state," Rogers said.

Rogers pointed out that telephone rates have gone up at a much slower pace than other goods and services. "In the last decade, the Consumer Price Index has increased almost three times as rapidly as telephone rates," he said.

Rogers said that the Bell System continues to be committed to compliance with President Carter's anti-inflation program. "The present guidelines expire on September 30, 1980, and guidelines for the following year will not be issued for some time. Therefore, no guideline amount is cited in the 1980 filing.

However, we have assured the Commission that we intend to comply with the principles of any new guidelines which may be issued before a decision is reached on our rate request," Rogers said.

Southwestern Bell proposes across-the-board increases in access line charges for flat rate services in all 10 Texas rate groups. As approved by the PUC in the company's 1979 rate request, basic local exchange rates new specify only the charge for an exchange access line for connection to the telephone network. Every customer pays an access line charge.

A telephone instrument is not now included in the rate quoted to a customer. The customer has the option of using a Southwestern Bell instrument, or providing his or her own instrument. If the customer chooses a Bell-provided instrument, the appropriate monthly equipment charge would be added to the monthly access charge.

The proposed flat rate access line increases include:
-One Party Residence: \$1.25 per month
-Two Party Residence: 80 cents per month

-One Party Business: \$3.75 per month.

The proposed monthly access line increases for measured service include:

- Residence, a range from 65 cents per month in the smallest city where it is now offered to 95 cents in the largest city.
-Business, either \$2.40 or \$2.45 per month, depending on the location.
Proposed increases in telephone instruments include:
-Standard Rotary Dial Set: 50 cents per month
-Standard TouchTone Set: 60 cents per month
-Rotary Dial Princess: 40 cents per month
-TouchTone Princess: 75 cents per month
-Rotary and TouchTone Trilines: No charge

In addition, TouchTone line charges would increase 20 cents per month for residence service and 25 cents per month for business service.

TORIAL

is asking for a raise. If the telephone rates what they are asking for it is going to hit us in every area of phone use except long distance.

Lubbock and Floydada are in rate group one. The proposed increase would make a residence phone, cost go from \$4.90 a month to \$6.15. The two-party residence rate would go from \$12.20 to \$15.20 per month.

charge for a standard rotary dial phone would go from \$1.00 to \$1.50. The two-party residence rate would go from \$2.10 to \$2.50 per month.

assistance calls would go from 20 cents per minute to 25 cents per minute. Also, only 5 calls be allowed per month instead of the 10 now allotted.

The biggest rate increases will be on long distance charges. The service ordering charge on long distance calls will go from a present \$11.75 up to \$21.35. A \$10 increase also applies to business calls.

or not Southwestern Bell will get the rate they are asking for remains to be seen. In the past, they have not been approved for the total amount they say that if they get the increase they would remain to be seen.

But then it's a well known fact that you can't have your cake and eat it too. If the figures show almost anything you want to do, it goes, one thing is for sure, we will be asking for phone service next year.

Cowboys Headline Floydada Rodeo

Another rodeo highlight will be the kids' calf scramble each night. Three calves will be turned out with blue ribbons tied to their tails. The youngster that can chase the calf down and get the ribbon will win \$5.00 prize money.

Charley Thompson, Lubbock, will be the announcer for the three night event sponsored by the Floydada Rodeo Association. Performance will begin at 8:30 p.m. each night July 17, 18 and 19.

The association will be serving barbecue sandwiches at the concession stand each evening. "We sure hope everyone comes out," McCandless said. "The proceeds from the rodeo go back to the association to keep up the grounds and to pay for the next year rodeo."

Rodeo queen entrants are Carrie Woody of Floydada, Darla Dempsey of Cedar Hill, and Tiffani Duvall of Lockney. The girls are selling chances on a handmade saddle by Alvin Durham. Drawing for the saddle will be during the rodeo.

"If anybody wins the saddle and doesn't want to keep it, I have a standing offer to buy it back for \$1000," McCandless said.

There will be an open air dance after the performance Friday and Saturday nights on the slab at the rodeo grounds.

Rodeo admission is \$3.00 for adults and \$2.00 for children. Books open for the cowboys at 12 noon and close at 6:00 p.m. July 16.

Events include: bareback riding, saddle bronc riding, bull riding, calf roping, team roping, and bull dogging. There will be a girls' barrel race jackpot each night. Club roping finals will also be held each night.

"Nearly all businesses have supported this rodeo, and we would like to thank them for their support," McCandless said.

Awards Program Honors Schacht

The Board of Advisors for the Outstanding Young Men of America Awards Program announced recently that Otto Byron Schacht has been selected for inclusion in the 1980 edition of OUTSTANDING YOUNG MEN IN AMERICA.

These men are selected from nominations received from Senators, Congressmen, Governors, Mayors, State Legislators, University and College Presidents and Deans as well as various civic groups - including the United States Jaycees which also endorses the Outstanding Young Men of America program.

In every community there are young men working diligently to make their cities, as well as their country, better places in which to live. These men, having distinguished themselves in one or more fields of endeavor, are outstanding and deserve to be recognized for their achievements. The criteria for selection include a man's voluntary service to community, professional leadership, academic achievement, business advancement, cultural accomplishments and civic and political participation.

Schacht, along with fellow Outstanding Young Men throughout North America will be featured in this prestigious annual awards publication.

Floyd Philosopher Comes Up With A Suggestion

Philosopher on his grass farm is more concerned about bugs.

Let's bug off and change the subject. The Republican party is arguing for a 20-billion-dollar tax cut right now, the Democrats are suggesting maybe a 25-billion-dollar cut sometime next year.

This is the best argument I know of for a two-party system. What could be nicer than a 20-billion-dollar cut now and a 25-billion cut next year? If a third party develops it'd have to wait its turn but surely could be allotted a 15 billion-dollar tax cut sometime next spring.

The trouble with most tax cuts however is they almost invariably come in a party's platform, not on Form 1040.

To sum it up, I guess it's important that a scientist has invented and patented a bug that eats oil but now that he's done it you reckon we could get him to turn his endeavors toward inventing a bug that'll knock out all those bugs that are eating taxes in Washington? They're worse than an oil slick.

Yours faithfully, J.A.
