New LEC facilities tour planned Saturday

The public and members of Lighthouse Electric Cooperative, Inc. are invited to attend open house and dedication ceremonies at the Cooperative's new headquarters facility Saturday, January 23, 1981, at 1:30 p.m.

A modern meeting room for use by civic and community organizations and Cooperative functions is an outstanding feature of the building and is already being reserved.

Activities for the open house will feature Congressman Charles Stenholm and Jack Hightower whose districts extend into the Lighthouse service area.

A flag ceremony and ribbon cutting will follow remarks by the Congressmen, after which the public may tour the building and visit with Mr. Stenholm and Mr. Hightower.

Lighthouse Electric Cooperative, Inc. was formally organized as Floyd County Rural Electric Cooperative in December, 1937, by a group of people who realized the need and desire for a higher standard of living in rural areas. From that beginning the first meter was energized in March, 1939, and the system began expansion into a seven county area.

In 1951, the name of the Cooperative was changed to Lighthouse Electric Cooperative. Inc. following a contest among the membership to rename the organization, to more adequately reflect the broad area served.

Another milestone was reached in 1978, with the consolidation of Lighthouse Electric Cooperative and Hall County Electric Cooperative in Memphis. The service area now includes all or portions of twelve counties, and makes Lighthouse one of the larger rural electric systems in Texas with 3,348 miles of line and 7,500 consumers. The Cooperative presently employs 51 people in Floydada and Memphis.

Planning for the new, modern office and warehouse complex was begun several years ago, with the aim toward bringing the headquarters operation to one location. The new facility has, in addition to expanded and larger office and warehouse areas, a transformer, line breaker and recloser shop, an automotive maintenance shop, and an expanded meter repair area.

The Lighthouse Electric Board of Directors are: J.W. Jackson, District I. McAdoo; Louis Lloyd, District II, Floydada: Cecil Baxter, District III, Floydada; Wayne Hunter, District IV. Flomot: L.B. Brandes, District V. Lockney: Henry Scarborough, District VI. Petersburg: Tom Porter. District VII. McCov; Harold Burk, District VIII, Estelline; and James Richburg, District IX, Lakeview. Mr. Baxter is president of the board, Mr. Porter, vice-president, and Mr. Scarborough, the secretary.

The General Manager of Lighthouse is Alton Higginbotham.

JIM WILSON, Indiana, was principal speaker at the Producers Coop Dealer meeting Friday night. The dinner was catered by Southern Seas in Lubbock, and was served to over 200 members and customers.

Wilson is a Financial Advisor, tax expert, author, and C.P.A. He spoke on estate

Fire engulfs Coop Gin Saturday in Lockney

A fire alarm was sounded at 4:15 a.m. Saturday morning. Fire trucks were quickly dispensed to the Lockney Coop Gin where burrs had ignited.

Firemen fought the fire all through the day despite the 40-45 mph winds. the blowing snow, and the chilling 5 and 6 degree weather until it was brought under control about 2:00 p.m. Fire chief, Jerry Johnson, reported the damage to be extensive to a boxcar that was being used as storage for parts. He stated that the entire gin vard seemed

to be on fire.

Gail Kring, gin manager, reported that they were very fortunate to have not suffered any more damage considering the weather and the wind.

The fire department wished to express their thanks to the Spudnut Shop in Plainview who sent two cases of doughnuts to the scene of the fire for the firemen and to the wives of the firemen who kept the coffee coming.

Over Coffee

BY SHELLY HARRIS

I woke up this morning, coughing. again! Nose running, again! Throat sore, headache, the works, again! For the third or fourth time this winter. Every time I get over it someone at home or the office, or around somewhere gives it back. And in between someone is clutching their stomach and sure enough in a few days I've got "that" kind of flu.

I asked Jerry about it at Thompson's Pharmacy, "Jerry, isn't this the sickest winter vou've seen?"

He agreed.

I've decided it's time the newspaper did something about it. You know, I don't come out editorially for or against things often, but I am on this.

I believe the whole thing is caused by kissing and I propose a 30 day ban on all kissing in Floyd County.

I got the idea at the Floydada Football Banquet Saturday from something Norman Allen said.

When it was time to present the Football Sweetheart award, the team of Allen and Todd Beedy, were to do the

Todd slipped backstage for the traditional bouquet of long-stem, red roses. Norman was left to approach the microphone.

"Guess vou know who's going to do the talking and who gets to do the kissing." Norman said indicating Todd, arms full of flowers, who was approach-

ing the center aisle. Then I recalled that afternoon at Warnie Hilton's birthday party with relatives gathered for the first time in years. Nothing like a family reunion to have alot of kissing going on.

When I realized that in just three short weeks it's going to be Valentine's Day. Well. I could see a real epidemic

I imagine that the worse group of offenders will be the classes of 1982, 83 and to an extend '84.

Probably the safest group will be Jr High boys. They're not really into kissing girls vet. and wouldn't be caught DEAD kissing parents or rela

Another danger, as I see it, is that we will have two U.S. Congressman in Floydada this weekend for the Light. house Electric Open House. You know what they say about politicians and babies

And speaking of babies. The heros of this ban on kissing is going to be grandparents. There's just something about soft, tiny fingers and fat rosy cheeks that makes kissing irresistible. Much restraint is going to have to be used here.

Cousins will have to quit visiting each other. Elderly ladies who haven't seen each other for a long time will have to settle for a handshake. like the men do.

And for heavens sake, don't tell anyone to "kiss and make up."

I'm sure if we make this a community effort we'll have the cold and flu bugs

ENGAGEMENT ANNOUNCED-Renee Denise Cummings and Ricky Hrbacek announce their engagement and approaching marriage on April 3, 1982 at the First Baptist Church in Hale Center. They are the children of Mary Kay and Jimmy Cummings of Hale Center and Mr. and Mrs. Paul Hrbacek of Lockney. The bride-elect is a Hale Center High School graduate. The prospective groom is a Lockney High School graduate and attended Tarleton State University. He is presently engaged in farming in the Lockney area.

Dobbins, Fleming united during ceremony

Carole Dobbins became the bride of Randy E. Fleming January 9th at 4:00 p.m. in the home of her mother. Pat

Flute selections of Endless Love and the Wedding Prayer were presented by Tammy Booth, as she was accompanied on the piano by Dell Gray.

Candlelighters were Misses Melissa and Rebecca Quisenberry of Plainview. They were dressed in identical floor length dresses of ivory chemise with bodice tucks.

Attending the bride as maid of honor. was her sister Tammy Cochran and the bridesmaid Melinda Morton of Lubbock. They were attired identically in floor length dresses of nectarine imported lace and Qiana cloth. The bodice was accented with the same features of the brides gown. The long skirts were of accordian pleats. They carried silk cascade bouquets of nectarine daisies

Flower girl was Kimber Williams. She wore a full length dress of ivory lace over satin with fingertip sleeves of the lace. The ruffle hem was gathered at intervals and accented with tiny satin bows of nectarine. She carried a lace basket of rose petals.

The grooms best men were Gayland Fleming Jr. and Danny Fleming, both brothers of the groom. The groom was attired in an ivory and brown tuxedo and the groomsmen wore brown tuxe-

The bride descended the stairway adorned in lily of the valley flowers accented with palm leaves and greenery at the base. Escorted by her father. Truman Dobbins of Houston, the bride wore a formal length gown of ivory chantilly lace fashioned with a high victorian neckline edged in Brussells lace. The fitted bodice had a deep "V" yoke of English net with a deep ruffle

skirt had a detachable train that cascaded in cathedral length. The headpiece was a picture hat of matching Chantilly lace adorned with an ivory silk flower and a bow of imported illusion.

For her something old, the bride carried in her bouquet her great-grandmother's gold wedding band. Something new was her gown, something borrowed were her shoes which also contained a token penny with her birthdate. Something blue was the traditional garter.

They exchanged marriage vows before an arched candelabra adorned with nectarine gladiolas, pom pon chrysanthemums and bronze daisies. The Rev. Flovd C. Bradlev directed the recitation

Despite low grade cotton, highquality seed available

Although low grades of cotton were harvested over much of Texas in 1981, agronomists with the Southwestern Division of Pioneer Hi-Bred International. Inc., indicate that ample supplies of high-quality seed will likely be available to farmers this year.

"In reviewing tests by our quality control people, the quality of our 1981-produced seed looks excellent. And we should have good supplies available for farmers planning their 1982 crop," said Jim Schrib, an agronomist who specializes in cotton production for the Southwestern Division, headquartered in Plainview.

"The maturity of our seed was excellent at harvest, germination counts are high, and free-fatty acid content is extremely low - all indications of great

Schrib said virtually all of the Pioneer cotton planting seed was grown in the Rolling Plains region of Texas, where growing conditions were excellent for seed production.

Micronaire ratings for much of the cotton grown on the South Plains were below normal in 1981, indicating that the quality of seed produced there could be low. Schrib pointed out.

"Conditions on the majority of the South Plains and lower Panhandle were not good for seed production because of so much cool, damp weather in the latter part of the growing season." he said. "But the quality of the seed Pioneer produced on the Rolling Plains looks excellent.

"There are real advantages to good quality seed...faster germination. better stand establishment, more uniform populations and better resistance to seedling diseases.

"All of those have an effect on higher vields and grades - which are the ultimate goals of cotton production." he

Schrib noted that even though late summer cool weather and heavy rains on the South Plains hampered seed production and lowered lint grades. yields in the huge cotton-producing area were higher than expected.

"In visiting with farmers in that area. we have found that yields were somewhat surprising, considering the weather conditions there during the summer." he said.

According to statistics from the Texas Crop and Livestock Reporting Service in Austin, the South Plains had cotton vields that averaged about 380 pounds per acre, far better than the low average vield of 216 pounds in 1980. The South Plains produced more than 2.7 million bales from 3.6 million acres, half the state's entire 1981 production.

Other Texas vield ranged from about 315 pounds on the Rolling Plains and 290 pounds in the Blacklands of North Texas, to about 425 pounds in the lower South Plains and 375 pounds in the lower Panhandle.

sorghum and corn.

The economist states that acquiring a herd bull has short- and long-term consequences, and these must be weighed and individually considered before deciding whether to rent or own.

Long-term satisfaction to cow-calf producers from choosing bulls is measured by the performance of the progeny through future generations, he says. Bull costs per calf and pounds of beef weaned per cow are the short-term consequences from the bull selection that may determine if the producer can stay in business long enough to realize any long-term benefits.

"To achieve the economic advantage of lower annual feeding and maintenance costs, producers might need to keep a bull only three to four months a vear, which is where renting would be the ideal answer." Lovell says. "For herds that calve all year, six-month to one-year leases are necessary."

In comparing figures for a three- to four-month bull leasing program. the economist notes that leasing a \$2,125 bull is projected as less expensive per calf than owning a \$750 bull.

In many cases, renting a high-performing bull for periods up to one year will be more economical than owning an average bull when rental costs. bull ownership costs and performance of offspring of the two bulls are observed and compared. Lovell adds.

woes of growers is the fact that the bottom has dropped out of the soybean

In the wake of this bleak outlook, growers must plan their marketing strategy, says Johnny Feagan, economist with the Texas Agricultural Extension Service, Texas A&M University System. Putting this year's crop of soybeans into storage might be the best move and would give growers an opportunity to capitalize on a possible market upswing in a few months. However, Feagan cautions that sovbean prices would have to move up 10 to 12 cents a month to cover storage and interest costs.

Currently, soybeans are bringing \$5.25 to \$6 a bushel, down sharply from the \$9 to \$10 range two years ago, notes the economist.

Texas' 1981 crop stands at about 650,000 acres with an average vield of 23 bushels per acre. This total of almost 15 million bushels is above last year's drought-plagued crop, but that's little solace to growers because of the sluggish market.

U.S. production is estimated at 2.1 billion bushels, 18 percent above last year's crop due mainly to average yields of 31.5 bushels per acre, 19 percent higher than in 1980.

Since sovbeans are a major oilseed crop, they are affected by world oilseed production which is currently at record levels and 9 percent higher than last vear, notes Feagan. U.S. oilseed production, which includes cottonseed, peanuts, sunflowers and flax in addition to soybeans, is up almost 20 percent.

Although domestic use of soybeans is expected to increase about 10 percent due to record supplies and low prices, a flat livestock sector, high interest rates and a continued weak economy will likely have a dampening effect on net income of growers, says Feagan.

THE THE PARTY OF T

Floydada **Nursing Home Happenings**

BY LYNN DANIEL

Warm hearts are hard to come by. when it's so cold outside. The residents of the Floydada Nursing Home would like to thank everyone who warmed their home, with love the past two weeks. We've had a great time despite the weather and the bug that keeps nagging at everyone

Last Wednesday, the bus ride took us to Ralls. Cecil Griggs, one of our new residents, served as narrator on the

Our Bingo winners the last two weeks were, Clara Williamson, Iris Colston, Nora McKnight. Emmit Lawrence and Vera Duke.

Tuesday at 6:00 the Floydada Whirlers danced their way into the hearts of our residents bringing back memories of the past. Some of the residents had never seen a square dance and were delighted.

Wednesday the choir of St. Mary Magdalen sang and played guitars. We all loved it, and hope they return soon. Thursday, the lobby filled with love,

hugs and singing, all the necessary ingredients for a lovely visit from the City Park Church of Christ girls group.

With all our love and appreciation, we offer our thanks to the ladies of the City Park Church of Christ for a beautiful birthday party. The guests of honor were: Florence Simpson, 84, Juanita Bailey, 63, W.C. Cates, 93, and Francis Childs, 90

A special thank you to Worth Howard for a wall hanging. Mr. and Mrs. Cecil Baxter, for quilt scraps, and flowers from the Reeves family.

Visitors included: Corene and Murry Stewart, Lindsey and Billie Lackey, Marie Baxter, Harvey Tardy, Merlene Breeding, Beady Owens, Deeota Odam, Ethel Barker, Nealey Richardson, St. Mary Magdalen Church Choir, Sophie Garza, Carmen Quilantan, Irma Briones. Esmer DeLeon, Belinda Vallejo, Emma Martinez, and Diana Vallejo; Wesley Day, Sallye Day, Charley L. Care Center Capers

As the days and months go by, my job becomes more and more enjoyable. The residents have become very important to me and have a special place in my heart. They have given my life a whole new meaning. I feel God has guided me in my work and made me realize I need these special people very much.

I received a very special letter from Chervl Bradlev this week. She told me how much she enjoyed reading about the residents and the memories they brought back about the residents she knew. Thanks Chervl for your letter and please keep in touch.

Our lucky bingo winners this week were Myrtle Burke and Richard Lanham. Our games are filled with a lot of excitement and fun.

We really love this activity. Thanks to our wonderful volunteers DeLinda Glasson, Almeda Phillips, and Linda Holley.

Our bus trips this week were cancelled because of bad weather. We are hoping the weather is warmer next week so we can tour the country-side and see the many changes that are made season after season.

The first resident council meeting of the new year was held Wednesday morning. New officers were elected: Mamie Wofford, president; Albert Poole, vice president; and Richard Lanhan, secretary. The residents meet every second Wednesday of the month. They discuss the activities planned and the activities they would like to have planned such as picnics, special parties. etc. If they have any complaints, they air these and we try to work it out. This gives the residents a chance to voice their opinions and express their feelings. After being elected president. Mamie Wofford told everyone she was really going to keep them in line.

We welcome our ceramic teacher. Chuck Shakley back from vacation. We sure missed him. Our ceramic classes

are truly enjoyable. Until next time, have a nice week

Rest Home Birthday Party

January 14, 1982 The new year brings us birthdays... A time to celebrate... A time to count our blessings

We welcome Mrs. Simpson ...Her years are 84... We wish her Happy Birthday And many, many more!!

Whether soon, or late.

Mrs. Childs is with us ... She counts from '92. And though she's slowed a little She still likes things to do.

Mr. Cates we honor... ... He dates from '89... A very kindly gentleman For now, or any time!

And our Juanita Bailey ...She's ONLY 63... Just wouldn't miss a party... She still likes fun, you see!

Let's sing the same old greeting... The "birthday" song, you know... To cheer these lovely people As on through life they go.

SPS is investigating numerous ways of producing electricity in the future. Supplemental energy studies are being conducted in generating electricity through solar, wind, nuclear fusion, burning waste products for fuel, and the liquefaction and gasification of

Jack Payne, Working Foreman, Artesia.

Standard-life lightbulbs conserve more electric energy than longlife bulbs and give the most light for your dollar. Higher wattage incandescent bulbs are usually more efficient than smaller wattage bulbs. For instance, you get more light from one 100-watt bulb than from two 50-watt bulbs. Additional energy and money-saving tips are available from your SPS office.

Doris Jones, Senior Clerk, Canyon.

SPS builds coal-fired power plants for less than half the average utility industry cost. Coal-fired Harrington Station was designed and engineered by SPS employees and built at a cost of about \$300 per kilowatt, substantially less than the nearly \$1,000 per kilowatt that other utilities spend for construction of coal-fired facilities.
