## Awards bestowed on cheerleaders

**SUPER STAR SQUAD**, 3 superiors, and an award of excellence is some of the awards won by the 1982-83 Lockney High School Cheerleaders at Eastern New Mexico University cheerleading school held July 6-9. The girls were judged on cheerleading techniques, unity, friendliness, cooperation, enthusiasm, attitude, communication, appearance, ability to learn, leadership, and sportsmanship to other squads attending. They were taught cheers, chants, jumps, stunts, pom-pom routines, and a boogie class. Lectures were held on attitude, the position of cheerleader and the people they ought to be. The award of excellence was bestowed on the best squad attending, Libby Williams was named All American Cheerleader. From top is Libby Williams, Latona Belt, [left] Shawnda Brock, Connie Coffman, [right] Kay Reay, and Barbara Moore.

Volume 81 Number 29 Thursday ©The Lockney Beacon July 22, 1982 24 Pages In Two Sections

## This Week

### Subscribers

Beginning this month we will no longer be sending out renewal notices. All subscribers are asked to look for the list of people whose papers are expiring somewhere in the paper every 1st and 3rd week of each month. A list of people's names whose subscriptions are up for renewal is located on page 3 of this edition.

### Genealogical Workshop

A free, two-day Genealogical Research Workshop and sale of genealogical-historical magazines and books will be presented by the South Plains Genealogical Society, August 6 and 7 in the Municipal Garden & Arts Center, 4215 University Avenue, Lubbock.

### Crop Reporting

A reminder to producers who have had a program crop loss and are going to make other use of the land. Be sure you have reported your acres to ASCS office and make application to make other use of this acreage before destroying the crop residue.

### Picnic

The 13th annual California Floyd County Picnic will take place August 21, 1982, 10:00 a.m. at the Balboa Park, Pine grove picnic area (West of 163), San Diego, California. Everyone is invited to bring a picnic lunch and a folding table and chairs if possible.

### School Reunion

Lakeview, Mt. Blanco and Pleasant Hill school reunion will be held July 25 at the Massie Activity Center, 513 W. Georgia, Floydada. Registration will begin at 10 a.m. and a basket lunch will be served at 1:00 p.m.

### Farmers

South Plains farmers will get federal emergency aid to partially offset losses due to heavy rains and hail. Cotton farmers will receive payments of 20.5 cents per pound for up to 75% of their crop loss; wheat farmers will receive \$1.75 per bushel; corn farmers, 15 cents per bushel; and sorghum farmers, 18 cents per bushel. (All grain payments are figured on 60% crop loss.)

### School board

The school board budget meeting for Dougherty Independent School District will be Wednesday August 4, 8 p.m. at the Dougherty school.

### Artists

Are you interested in promoting art and culture? If so consider supporting the Arts Department at the 1982 Floyd County Fair in September. Get busy now and paint or draw something to enter.

## Wilson awarded highest honor

Chuck Wilson, of Wilson Photography, Lockney, was recently awarded the Photographic Craftsman degree by the Professional Photographers of America, Inc. (PP of A).

The degree, one of the highest honors given to professional photographers, was conferred at a special Awards Banquet ceremony held in conjunction with the association's annual convention and photographic exposition at the Las Vegas Convention Center in Nevada July 11-14, 1982.

Almost 5,000 professional photographers from around the world attended the event to view several thousand award-winning photographs; to keep abreast of the latest in photographic equipment, supplies, and services from the photographic industry; and to learn informative tips and techniques from experts in the field.

The Photographic Craftsman degree is earned for exceptional service to the profession - for teaching, lecturing, and service to photographic associations. A photographer must be a member of the association for a minimum of three years to be eligible for the degree.

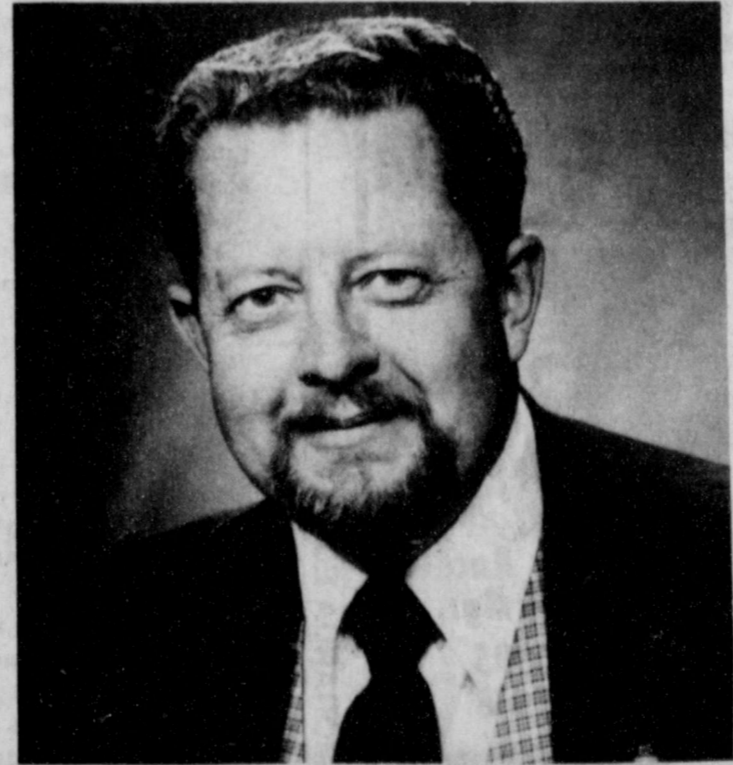

Photographers earn merits that can be applied toward the Photographic Craftsman degree. Chuck earned his merits by lecturing at state conventions of professional photographers in California, Nevada, Kansas, New Mexico,

Arkansas, Texas, Oklahoma, and Illinois and judging photographic print competitions at state and area conventions. Most of the merits applied toward the degree must be earned by teaching, lecturing or participating in any photographic demonstration. A photographer may earn the remaining merits by participating in association activities such as, serving as an elected official, exhibit juror, or as a program chairman. Written articles accepted by The Professional Photographer, official journal of PP of A, is yet another way of acquiring these merits.

The degree entitles the holder to add the initials "Cr. Photog." after his/her name and to wear the blue ribbon and medallion symbolic of the award.

Chuck earned his Master of Photography degree in July, 1977 by submitting superior photographs to the Professional Photographers of American annual conventions and by attending seminars and the School of Photography at Winona Lake, Indiana.

PP of A, founded in 1880, is the oldest and largest association of professional photographers in the world, with headquarters in Des Plaines, Illinois. The organization provides educational services and establishes professional standards for its more than 14,000 members and 200 local, state, regional and international affiliates.

CHUCK WILSON

**GRAVEL TAKEN FROM THE TOPS OF THE BUILDINGS** being reroofed on the school campus is being transferred to the parking around the Longhorn Stadium to help provide an all-weather surface. The stadium seats have been repainted and the coaches have done some remodeling in the field house. The entire coaching staff left for a coaching school Tuesday in Houston. Monday all should be on the job for the start of the new season.

## School works toward adoption of budget

A regular meeting of the Lockney School Board was held Tuesday, July 13 at 8:00 p.m. in the board room.

The school district reports approximately 92% of the year's taxes have been collected.

Superintendent W.H. Hallmark gave a general overview in his report to the board, including repairs that have been made to buildings receiving hail and other damage. He said he is awaiting assessment by the insurance adjuster on a leak in the hall that allowed rains to run into the main gym, causing the floor to buckle.

Resignations of Rita Burleson, third grade; Lehman Ragan, junior high math; Lana Jarry, junior high math and reading; Charlanne Burson, kindergarten; and Lynda Callaway, third grade were accepted.

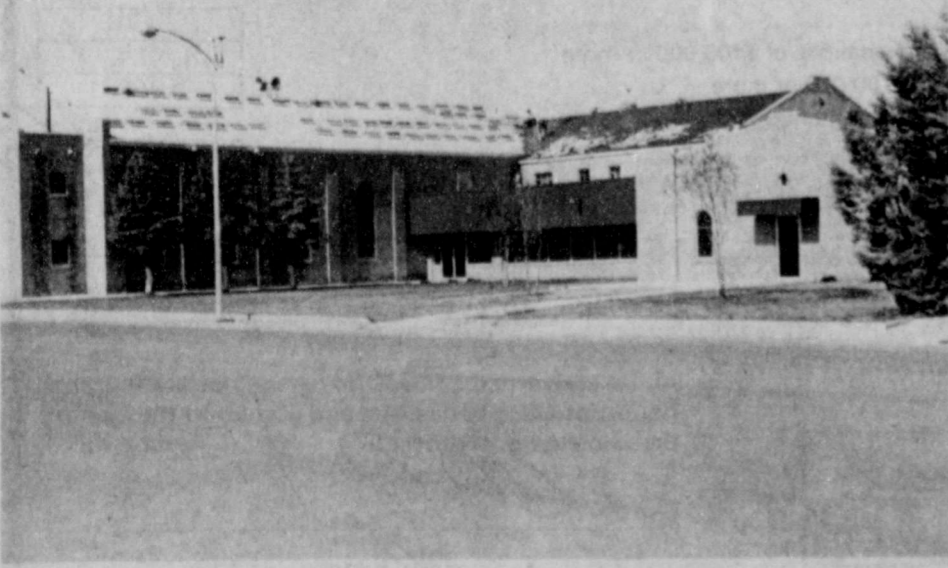

Margie Rexrode was hired in the first grade and Jamie Moerbe in the third

grade. Aides hired at this meeting were Yolanda Garcia in junior high state compensatory and Liz Butler in elementary special education.

Holley Construction of Hale Center submitted the bid accepted by the board for repair on the old gym.

The board conducted a budget work session, but completion of that task has not been completed. A special board meeting has been called for tonight at 8:00 p.m. The work session is necessary for additional work on the '82-'83 budget. Adoption of the new year's budget and the tax rate must be set by August 20.

The August board meeting was postponed a week and changed to August 17 in order that amendments to the '81-'82 budget can also be made at that time to meet that August 31 deadline.

**EVEN HOLEY...no, wholly...no, holy places need new roofs** after the various hail storms experienced this year.

## MHMR opens Floyd County office

A newly opened office of the Central Plains Mental Health and Mental Retardation office is offering services to Floyd County.

Synda Voyles is a psychologist with a master's degree from Texas Tech University. She will be offering individual counseling, family therapy, marri-

age therapy, group therapy and psychiatric testing. Her office is located in the south end of the Floyd County court house. She will be in the office every Thursday for counseling.

The Floydada office is a result of the Central Plains MHMR expanding its service area. Synda is one of three new

counselors in this area. The counseling services are funded through local donations and through fees collected for the services. The fees are based on a sliding scale depending on the client's income.

Although counseling is available here only on Thursday, the office is open all

week during business hours. Also counseling is not limited to business hours on Thursday.

Synda said that she hopes to organize a workshop in parent training and a juvenile probation this fall.

Synda is from Perryton, Texas and she says that she is familiar with the attitudes of the farmers.

# CRIME CALL

After about a three month absence, a daytime residential burglary has once again hit Floydada. Between the hours of 1:30 p.m. and 4:20 p.m. on Wednesday, July 14, a residence at 1110 South 4th Street, Floydada, was entered by forcing open the rear door. Authorities state that a residence at 127 J.B. Avenue had similar marks on its rear door (indicating the same type of tool was used in an attempt to gain entry at that location.)

The burglary and the attempted break-in are the Crime Call Spotlight Crime of the Week, for which a \$200.00 reward is offered for information leading authorities to the person or persons responsible. Anyone with such information is urged to call Crime Call at 983-5200. In the Lockney area, the number to call is 652-2416. Callers do not have to reveal their identity, but if they do identify themselves and are willing to testify in connection with the case, an additional reward will be made.

Stolen in the 4th Street burglary included the following: 5-inch "Pana-

sonic" black and white portable television; a Federal Land Bank "tote bag"; one set of power stereo headphones; Minolta Series E 35-mm camera; and several "Atari" game tapes. Total loss was estimated at \$506.00. A witness in the neighborhood observed a stranger knocking on the front door of the 4th Street address at about the time the burglary occurred, and was able to furnish the following brief description: Hispanic male, 17 to 23 years of age, 5'7" in height, and approximately 135-140 lbs.

Anyone with information concerning the burglary or the attempted break-in is urged to call Crime Call at once. Crime Call is supported entirely by private funding and tax-deductible contributions may be made at the 1st National Bank of Floydada, the 1st National Bank of Lockney, or may be mailed to Crime Call of Floyd County, Inc., 122 E. California, Floydada, TX 79235. Citizens are advised that Crime Call offers rewards for information on all unsolved major crimes occurring in Floyd County.

**TYE COMPANY EMPLOYEE HONORED ON RETIREMENT** — Ervie Muse (center) is presented a plaque by assembly foreman Cosme Gonzales in appreciation of his years of loyalty and dedicated service, as Mrs. Muse (right) looks on. Muse retired recently after having been employed at The Tye Company since April of 1977.

## Editorial

BY DAVID CATES

Apathy — absence or lack of interest or concern indifference.

Applied definition — lack of public attendance at County Commissioners meetings, City Council meetings, school board meetings, voting turnout for local, state and national elections, no attendance for community betterment meetings.

If we as citizens would not think our job was over when we have an election and someone else votes for one of the candidates we could improve these elected bodies.

I doubt that any one of our local governing bodies would mind and probably would appreciate seeing more of us attend their monthly meetings. Many of us only attend when our pet peeve is being discussed. Actually these men and women conduct business each month that effect each of us directly.

Our, the people of the community, input given directly to these boards and councils will do more good if given during the meetings than if we discuss or cuss them in the coffee shops.

Enough of this. It all boils down to the point of doing our share. Vote for who you think is the most capable. Encourage your candidate to do the best he or she can. Inform them of your feelings on matters that you are aware of. Attend meetings to be informed. Help when

you are asked. One of the meetings that should be of interest to you is the Neighborhood Watch. This is one group that will not exist if we do not help. This is something we should all take an active interest in.

In order to keep you aware of what is going on in our community a reminder will be published monthly of all the meeting times and agendas if possible.

Take an interest, it could be rewarding.

### Brock sustains broken leg

Byron Brock, Lockney area farmer, sustained a broken leg Monday afternoon about 5:30 p.m. He and his son Byron were attempting to hook the tractor onto a plow. The details were sketchy at presstime, but evidently the plow slipped back, breaking both bones in his right leg below the knee. They were working on the Josie Taylor farm about a mile north of town at the time of the accident.

Brock was transferred to Amarillo's St. Anthony's Hospital immediately from Lockney General. Robert Webb and Craig Ellison were in charge of the emergency transfer.

[Editor's Note: The following article was copied from the Austin American-Statesman, Sunday, June 27, 1982 edition.]

### PRO:

By SEN. WALTER MENGDEN

The "not guilty by reason of insanity" verdict that John Hinckley received has been widely denounced as a severe miscarriage of justice. However, the fault does not rest with the jury, but with the law.

Under federal law, the jury was required to render the "not guilty" verdict if there was any reasonable doubt about the defendant's sanity. Since psychiatry is not an exact science — and it is rare to find any two psychiatrists who agree on the same diagnosis — it was easy for a parade of "expert" witnesses to confuse a jury of lay persons.

What happens now is that Hinckley will undergo a civil hearing to see if he should be committed to a mental institution. His family will probably not try to spring him until the heat dies down, but, if they wanted to, he might be able to be freed right away. Utilizing the same psychiatric witnesses

### CON:

By GEORGE E. DIX

Insanity as a defense to crime serves an important function. Proposed "revisions" of the area would accomplish little and sacrifice much.

Conviction of a serious crime reflects society's judgment that the accused has behaved not only dangerously but also in a morally reprehensible manner. Moral responsibility, as we think of it, exists only if the decision to act is the result of a relatively free choice to engage in conduct known to be contrary to society's demands. Under existing insanity law, a defendant is entitled to acquittal only if the existence of serious psychological abnormality at the time of the conduct shows the absence of these prerequisites to morally reprehensible behavior. By acquitting such defendants, we preserve criminal liability for those who are both "bad" and dangerous. Further, we reaffirm and reinforce the responsibility of the vast majority of actual or potential offenders for their conduct.

# Should insanity defense be abolished?

that testified in his criminal trial, it is possible that Hinckley could be found not to possess any mental illness severe enough to require involuntary commitment. Even if a criminal who successfully employs the insanity defense is sent to a mental institution, he or she is frequently released a short time later.

I believe that insanity should be abolished as an affirmative defense in criminal cases on both a state and federal level. Whether or not a defendant committed a crime has nothing to do with that person's mental condition. To say that a person is "not guilty" — that he or she did not commit the crime — because of "insanity" is in itself insane. Instead, evidence of mental illness of a defendant would be introduced at the punishment stage of a trial.

Under the proposal that I introduced in the 1981 legislative session, if a defendant was found guilty, a judge or jury, whichever is assessing the sentence, would then determine if the person was mentally ill and required psychiatric treatment in

confinement or, if probation is granted, as an out-patient. A criminal sentenced to psychiatric treatment, either at a treatment center within a prison or at a mental hospital, would be credited with time toward his or her sentence. However, a criminal in a mental hospital who recovered from the illness before the expiration of their sentence would be transferred back to prison to serve the remainder of the sentence.

It is clear that the present system is absolutely intolerable. The proper place for considering the possibility of mental illness of a defendant is in the punishment phase of a trial when the judge or jury can look at all mitigating circumstances. If a criminal is in need of treatment for mental problems, he or she should receive it as part of their sentence.

Sen. Mengden, a Republican from Harris County, has introduced bills in the Legislature to abolish the insanity defense.

Society is, of course, entitled to protection against persons who act dangerously but in a fashion inconsistent with moral reprehensibility. This can be accomplished by procedures for committing a person acquitted on insanity grounds. There is simply no basis for believing that conviction and criminal sentencing provides more protection for society than insanity acquittal and subsequent commitment.

Some are disturbed at the conflicting psychiatric testimony generated by insanity cases. Yet battles among experts in other areas of litigation seldom stimulate demands that we abandon litigation in those areas. It is unfortunately true that psychiatrists are often of little help in addressing ultimate insanity questions. But this is because these ultimate questions are not ones of scientific fact but rather of moral or ethical judgement. No one is better equipped than 12 jurors to decide whether a defendant was so affected by serious psychological abnormality that he should not be regarded as having acted in a manner that justifies personal condemnation. Little would be accomplished by making evi-

dence of insanity relevant only to sentencing. There would still be dispute concerning whether the defendant acted in such a manner as makes him "deserving of" imprisonment.

Insanity cases are so infrequent that they constitute an almost insignificant aspect of criminal justice administration. In 1980, only 16 persons were committed to Texas mental hospitals following acquittal by reason of insanity. (Only eight were committed in 1981.) But in 1980, Texas district courts disposed of nearly 80,000 cases. It is not unreasonable to conclude that insanity acquittals accounted for no more than .02 percent of the cases processed, or about 1 in 5,000.

Given the numerous important problems that undoubtedly exist in the criminal justice system, it would be most unfortunate for attention and effort to be sidetracked into this area. It would be even more unfortunate to abandon a basic principle of criminal law in the course of such misplaced efforts.

George E. Dix is Vincent & Elkins professor of law at the University of Texas School of Law.

## Proposed constitutional amendments

The Texas Legislature has proposed six amendments to the Texas Constitution. They will be voted on at the general election on November 2, 1982.

(1) Proposition 1: "The constitutional amendment repealing the state property tax."

(2) Proposition 2: "The constitutional amendment to authorize the legislature to provide assistance through the appropriations process to needy persons and to place a ceiling on payments for needy dependent children at one percent of the state budget."

(3) Proposition 3: "The constitutional amendment exempting implements of husbandry (agricultural machinery and equipment) from ad valorem taxation."

(4) Proposition 4: "The constitutional amendment authorizing the legislature to provide terms not to exceed four years for members of governing boards of certain water districts and conservation and reclamation districts."

(5) Proposition 5: "The constitutional amendment to abolish the office of county treasurer in Tarrant and Bee Counties."

(6) Proposition 6: "The constitutional amendment increasing the maximum interest rate allowed on state general

obligation bonds to a weighted average annual interest rate of 12%."

One-sentence descriptions of proposed constitutional amendments are by necessity incomplete, and may be misleading.

# Can't Beat

## Bobo, Churchwell nuptials exchanged

Dee Ann Bobo and Paul Ray Churchwell exchanged vows in a wedding ceremony held in the First United Methodist Church Chapel Saturday evening. Don Norwood, minister of the Garland Street Church of Christ, officiated at the ceremony.

The bride is the daughter of Mr. and Mrs. Ira Bobo, Jr. of Seminole. She is a 1977 graduate of Seminole High School and a 1982 West Texas State University graduate, having attended Angelo State University. She received a B.S. degree in elementary education, and plans to teach at Ash Elementary School in Plainview in the fall.

Parents of the groom are Mr. and Mrs. W.R. Churchwell of Plainview. He is a 1977 Plainview High School graduate and is employed by Cable TV of Plainview.

Vows were exchanged at an altar decorated with formal brass baskets of pale pink roses, dusty orchids, lilies, fern, baby's breath and miniature burgundy carnations. A pair of 15-branch spiral candelabra flanked the altar, and a 7-branch candelabra trimmed with dusty rose orchids, stephanotis and baby's breath enhanced the altar scene. A unity completed the scene.

Sister of the groom, Karen Churchwell, registered the wedding guests at a register laid on a table with the couple's picture and a flower arrangement.

Music for the ceremony was provided by Bill Webb, organist. Keith Longbottom, guitarist and Tami Hindman and Ronnie Arnes, soloists.

Ushers seating the guests were Kelly Bain and Jackie Churchwell, brother of the groom.

The bride, given in marriage by her father, wore a formal gown of ivory satin designed with a high sheer Victorian collar. The fitted princess-styled bodice with petal-point fitted sheer sleeves was accented with Alencon lace encrusted with seed pearls. The lace and pearls also accentuated the entire hemline of the cathedral train. The two tiers of silk illusion with a rolled edge of the finger-tip length veil the bride chose fell from an Alencon lace

Juliet cap with seed pearls. She carried a cascade of silk dusty rose orchids, candlelight stephanotis, pale pink roses, burgundy phalenopsis, burgundy star flowers, pink daisies, candlelight baby's breath, and touches of pale yellow apple blossoms. Dainty flower cluster attached to lacy ivory picot ribbon, tied in love knots, fell gracefully to the floor from the bouquet.

She wore a gold wedding band belonging to her grandmother for something old, a pair of pearl earrings belonging to the groom's sister for something borrowed and the traditional garter for something blue.

Carrie Bobo of Seminole, sister of the bride, served as maid of honor. Mrs. Bruce Lehberg of Mason, also a sister of the bride, was the matron of honor and Mrs. Cary Cuba of San Angelo was the bridesmaid. The bridal attendants all wore floor length dusty rose gowns and matching Juliet caps accented with Alencon lace. They carried identical nosegays of silk flowers in the bride's chosen colors.

Jamie Adams of Dallas was the groom's best man. Groomsman were Jerry Wardlow of Artesia, New Mexico and Mark Churchwell of San Angelo, brother of the groom.

A reception immediately followed in the parlor of the church. Reception assistants were Mrs. Jimmy Houston of Seminole, Mrs. Jay Dolloff of Seminole; Phyllis Edwards of Fayetteville, Arkansas, cousin of the bride; Mrs. Brian Painter of Edmonson, sister of the groom; Mrs. Jackie Churchwell, sister-in-law of the groom; and Amy Wright of Atkins, Arkansas, cousin of the bride.

Special guests attending the wedding and reception were Mrs. Voy Dillahunt of Lockney, grandmother of the groom and Mrs. Jackie Erwin of Seminole, grandmother of the bride.

The couple will reside in Plainview following a wedding trip to Dallas. A rehearsal dinner party was hosted by the groom's parents at their home. The wedding party and relatives were honored with a backyard barbecue.

MR. AND MRS. DAVID THOMAS

## Judy Hart, David Thomas married July 16th

Mary and A.W. Ferguson of Floydada would like to announce the marriage of their son, David Thomas, to Judy Hart, daughter of Will and Ruth Weddel of Odessa.

The double ring ceremony was held Friday, July 16 in the garden of the bride's home.

Honor attendants were Nikki Thomas

of Plainview, daughter of the groom, and Shane Hart of Odessa, son of the bride.

A reception was held at the couples home following the ceremony.

After a short honeymoon, the couple will be at home at 2119 Neptune in Odessa where the groom is employed at Ignition Sales and Service Inc. and the bride at Burk Well Service, Inc.

**ANNOUNCE ENGAGEMENT** — Mr. and Mrs. Gene Collins of Lockney announce the engagement of their children, Nancy Ellen and Kirby Lane. Miss Pearson was graduated from Maine Medical Center, School of Radiologic Technology and is employed by Lutheran Medical Center of North Texas. Mr. Collins is a graduate of Princeton University. He is a systems analyst for Gould-S.E.L. in Dallas. An October wedding in Maine is planned.

## S.B. McCleskeys gather after 17 years

Descendants of the late Mr. and Mrs. S.B. McCleskey gathered recently for the first time in seventeen years. The reunion was held at the Idalou Community Center for a catered barbeque meal. The meeting inadvertently happened to be on the 127th anniversary of Mr. McCleskey's birth.

Those who attended were: Mrs. Sam (Dack) McCleskey of Lubbock and her descendants:

Barbara, James, Beverly and Michell Jones of Abilene; Marvin and Betty Jo Young; Janis, Rickey and Kelley Leaverton; R.T., Sammie, and Lisa Furrrow; Tricia, Steve, Nathan and Crystal Young of Lubbock; Orby Tye McCleskey Jr., of Lubbock; Scott, Lorlei and Lorilyn McCleskey of Garland; Tim McCleskey of Carrollton; D'Andrea and Mindy McCleskey of Garland.

The descendants of the late Roe and Bonnie McCleskey were:

Greer and Anna of Bartlesville, Oklahoma; Henry and Venita Butler of

Lubbock; David, Princess, Nicki, Chris and Tina Butler of Idalou; Deanna, Shawn and Shannon Jordan of Haskell; Kelly, Teresa, Dustin and Katie Gaskins of Knott; Bonnie Roe Du Laney of Lubbock; Vicki, Mac, Mac Jr., and Daina Sugart of Plainview.

Descendants of the late Orb and Betty McCleskey Tye who attended included: Bill and Edna Beth Tye; Jane, Weldon, Greg and Christy Pruitt of Floydada; Jim, Marsha, Britta and Joshua Tye of Lubbock; Betty Lou and Rusty Simpson of Floydada; Fred, Carolyn, Kelly and Cindy Marble of South Plains.

Descendants of the late John and Hazel McCleskey present were: Johnny Fred, Kay, John Robert, David, and Bill Brown of Denton; John E., Eva, Sue, and Pete McCleskey of Seminole; Bill, Diane and Daniel McCleskey of Amarillo.

The group will meet again in Idalou the last Sunday in June 1984.

## Deon Zumwalt finalist in Miss Texas TEEN

Deon Zumwalt, daughter of Mr. and Mrs. Perry Zumwalt, was selected as one of fifteen top finalists in the Miss Texas T.E.E.N. State Finals Pageant held July 2, 3 and 4. The pageant was conducted in the Loews Anatole Hotel, Dallas, Texas and hosted 109 contestants from all areas of the state of Texas.

Miss TEEN Pageant is the abbreviation of Texas Encouraging Excellence Nationally. The quality pageant for quality young women. The judging was based on scholastic achievement, community volunteer service, interviews with judges, talent or speech, evening gown and charm/personality.

Deon had maintained an A average during her high school years which she terminated as she graduated from Floydada High School this past May.

Deon is still very active in 4-H where she has been a junior leader for the past four years. This service was also added to her church work and many hours she devoted to visiting the elderly at the Floydada Rest Home.

Deon chose to perform a choral piano selection for the talent portion of the pageant. This selection was adapted for a solo performance as were the words and piano accompaniment.

Deon is now attending Abilene Christian University where she is majoring in

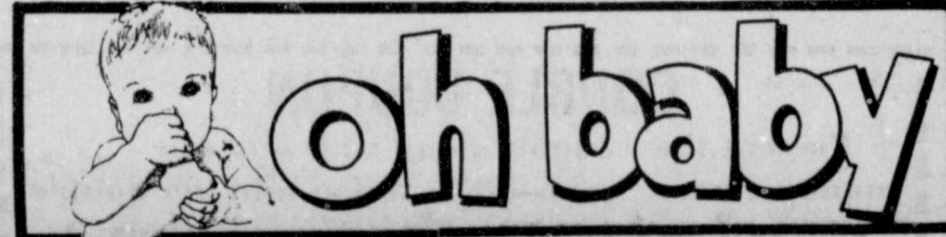

DEON ZUMWALT

Public Relations.

Jill Foote of Corpus Christi was selected by the panel of eight judges as the Texas Miss TEEN of 1982. She will go on to compete in the national pageant which will be held in December at Albuquerque, New Mexico.

Miss Zumwalt was sponsored by Baker Insurance, Thompson Pharmacy, Lawson Farm Supply, Inc., Leon Crump and City Auto, Inc.

### McGUIRE

Jamie Renee' McGuire, 2½, is proud to announce the arrival of her new baby brother, Justin Wayne. The proud parents of the children are Jerry and Jodie McGuire of the Dougherty community.

Little Justin was born July 12 in Lockney General Hospital. He weighed in at 8 lbs., 7 ozs. and was 22 inches long.

Grandparents are Mr. and Mrs. Carmel Eastham of Dougherty and the Rev. and Mrs. Jimmy McGuire of New Deal.

### LOCKNEY LOCAL

Freddie and Nova Ivy came Friday to spend the weekend with her parents, Johns and Vera Cox and sister, Marjorie and Mel Holcomb. They all went to Hart Saturday to visit another sister, Wanda and Keith Brock. Also visiting was Wanda's sons, Marlin Marble of Hart and Larry and Julie Marble from Lubbock. The Ivy's returned to their home in Mansfield Sunday.

### FLOYD DATA

Orville and Doris Harris have recently moved from Pratt, Kansas to Fredonia, Kansas.

Orville has joined the Farmer's Home Administration (FHA) for a two year training period before receiving his appointment to his own county for FHA. Orville was a high school ag teacher.

Their current address is Box 25, Fredonia and they would welcome hearing from their old friends.

### WISDOM

Johnny and Janice Wisdom at 1614 Park Lane in Georgetown, Texas, wish to announce the adoption of their first son William Landen. He was born June 22, weighing 6 lbs., 9 ozs. and was 18½ inches long.

Landen has an older sister, Lauren, who is 2½ years old.

The proud grandparents are Roy and Evelyn Roberts of Amarillo and Billy Wisdom of Lockney and Valmeta Crandall of Odessa.

## Constance R. Baker honored with shower

Constance Regina Baker, bride-elect of Lewis Bennett Stigers Jr. of Dallas was honored with a bridal shower in the home of Mrs. Billy Stringer, Saturday, July 10th.

Guest calling between the hours of 4 p.m. and 5:30 p.m. were served tropical punch and cakes from a table centered with an arrangement of varied spring flowers in a straw basket. The table was laid with an imported lace cloth. White flowered appointments and silver completed the table setting.

Special guests included Mrs. Ira Baker Jr., mother of the honoree; Mrs. T.J. Coleman Sr., grandmother of the honoree; and Miss Dorcas Baker, sister

# Procter & Gamble calls halt to rumormongering

Several nationally prominent religious leaders called for an end to the spread of "malicious and totally false" rumors about The Procter & Gamble Company. The release of the statements is the latest action by P&G to stop the spread of the unfounded rumors that its corporate "moon and stars" trademark is a satanic symbol signifying a company connection with satanism or devil worship.

The stories, which have been around for more than two years, typically report that a P&G executive discussed satanism on a nationally televised talk show. Producers of each of the programs mentioned in the stories have confirmed that no one from P&G has appeared on their program. In recent months the problem has escalated and P&G now is receiving more than 12,000 calls each month about the rumor. P&G said it has not been able to track down how the rumor got started, but it has received reports of the story from all 50 states. The company said it is taking the problem seriously and is prepared to take legal action if necessary to stop the spread of the stories.

Most people are satisfied that the rumor is false after they get more information, and especially if that information comes from someone they know and trust, the company said. P&G hopes that people will believe the facts coming from religious leaders.

Reverend Jerry Falwell, host of the national television and radio program, "Old Time Gospel Hour," said, "It is unfortunate that such false accusations are made in the first place, but even more concerning that they can be spread as rumor by people who call themselves Christians. I have discussed these rumors with the Chairman of the Board of Procter & Gamble, who happens to be from my hometown in Virginia, and I am certain neither he nor his company is associated in any way with satanism or devil worship. Christians have a responsibility to know the truth before spreading stories and, in this case, the truth is there is no story to tell. I urge Christians everywhere to help put an end to these unfortunate rumors."

Reverend Jimmy Draper, President of the Southern Baptist Convention, said, "Southern Baptist always have stood for openness and integrity. We are a people who believe in and rely on truth. The rumors about the Procter & Gamble Company are not based on truth. This kind of reckless accusation on the part of alleged Christians is damaging to the cause of Christ, as well as the business of an excellent company. I implore all our Christian community to stand up and put an end to the unfounded and untrue rumors."

The Reverend Donald E. Wildmon, a Methodist minister and Executive Director of the National Federation for Decency, said, "The facts are that this is a vicious, unfounded rumor, and I hope we can help stop it. I ask my fellow ministers and others in position of influence to inform their people that the rumor is untrue and for those people to continue using P&G's fine products as they have in the past."

United Methodist Church Bishop Emerson Colaw said, "When I heard this rumor, I was amazed that anyone could even consider such a story about a company as responsible as Procter & Gamble. I spent many years in Cincinnati and came to know Procter & Gamble and its employees. These stories are totally false and unfortunate."

Reverend William G. Black, Bishop of the Episcopal Diocese of Southern Ohio said, "I know The Procter & Gamble Company very well. Many P&G employees are active in our church and have been generous church supporters, going all the way back to the founding fathers in the 1800's. I can assure those who do not know this fine company, that these rumors are ludicrous."

Procter & Gamble Company later announced that it is taking legal action to stop the spread of rumors associating the company with satanism or devil worship. The company filed suits in Atlanta, Georgia and Pensacola, Florida against several individuals who are charged with "libeling the character" of Procter & Gamble by circulating "false and malicious" statements about the company and by calling for a boycott of its products.

Suits were filed against Mike Campbell in Atlanta, and against Mr. and Mrs. William J. Moore, Jr. in Pensacola. In the suits, P&G charges that each individual made statements or

distributed literature which stated that P&G supports satan and that its trademark was a satanic symbol. They also encouraged others to stop buying P&G products, the company claimed. P&G is asking the courts to stop the individuals from further activity and for compensatory and punitive damages.

Griffin Bell, former U.S. Attorney General, will represent Procter & Gamble in the Atlanta suit. Patrick G. Emmanuel will represent the company in the Pensacola suit.

P&G said it has picked up copies of materials being handed out at stores and churches encouraging a boycott of P&G products. The high number of calls and the use of the reproduced handout materials suggests this is more

than rumor mongering by individuals, the company said. P&G said it is investigating the possibility of additional lawsuits and that it will follow up aggressively on leads of organizations or individuals spreading the rumors.

The trademarks is a circular design featuring a man-in-the-moon figure looking out over a field of thirteen stars. It has been used since 1850 and was officially registered in 1882. The symbol started as simple markings on crates of Star Candles, an early Procter & Gamble product, and evolved over the years to a formal design showing a man-in-the-moon, a popular figure of the 1800's, and thirteen stars representing the original colonies.

## "Laugh Lines"

BY DON AND SARA PROBASCO

Bits of Humor, Trivia, and an occasional Word of Wisdom

The best way to win an argument is to start by being in the right.

Travel broadens people. It also flattens them.

A stockbroker is a fellow who's always ready to back his judgment with your money.

All work and no play makes jack for your psychiatrist.

Give a pessimist an inch, and he'll measure it.

A marriage proposal: a hitch pitch.

If you tell the truth, you don't have to have a good memory.

A man was speaking to Mark Twain about a mutual friend. "He's a good man. Too bad his money is tainted." In fact, it's tainted twice," volunteered Twain. "T'aint yours and t'aint mine."

Money: the poor man's credit card.

At Probasco's we accept either kind of credit card, and guarantee your total satisfaction in our products and services. Call today.

## WB offers "foundation of college life"

A personal improvement course entitled "Foundations of College Life" will be offered during the fourth summer microterm at Wayland Baptist University, according to Dr. Don Cook, Dean of the School of Arts and Sciences.

The three-week course, which begins August 2, includes emphasis on strengthening study skills, improving concentration and memory, managing time effectively, improving reading comprehension and speed, research and writing techniques and handling stress in the classroom. Numbered Psychology 1300, the course is designed to aid students in making the transition from high school to college.

Students have thoroughly enjoyed this course because much of the learning is couched in fun activities such as outdoor sports, overnight campouts and trips, outdoor classes, swimming parties, horseback riding, and cookouts.

While many students report to college each fall prepared to deal with the problems they will face while adjusting to a new environment, research indicates that a significant number of college freshmen are not equipped with the necessary skills to adapt to college life. As a result, many eventually find themselves on academic probation or suspended from college.

This negative experience takes a tremendous toll on students in terms of time, money and especially self-esteem. It is not unusual for students who find themselves in academic trouble to

simply give up their dreams and plans for higher education.

In response to this problem, Wayland offers a course designed to enhance both academic and social abilities and generally enrich the student's life. Cost for the three-hour elective credit course is \$510, which includes room, board, tuition and fees. Scholarships to help defray this expense are available to students who pre-register for the course before 5 p.m. July 24. Those interested in registration or wanting additional information should call the office of the registrar, 296-5521, ext. 23.

### FLOYD DATA

Larry Jones and Dwayne Weise, both students at Angelo State University, arrived Saturday night for a visit with Mr. and Mrs. Babe Jones, Sharri and Kerri. Sunday night Dwayne and Larry, Sharri and Kerri Jones attended the Cheap Trick concert in Lubbock. Afterwards the boys returned to San Angelo.

### FLOYD DATA

Mrs. Quimby Kizziar (nee Mildred Carter) of Abilene, Texas recently spent several days in this area visiting with long-time friends. She reported the March death in Abilene of her mother-in-law, Mrs. Ann Kizziar. Mrs. Kizziar was more than 101 years old at the time of her death.

"Always be ready to speak your mind and a base man will avoid you."

## SPC adds electronics technology

A full time electronics technology program will be added to the curriculum at South Plains College-Lubbock, beginning this fall, according to Dr. Ronnie Glasscock, dean of the Lubbock campus.

Offered for both day and evening students, the two-year associate degree program will include studies in digital processors, an advanced study of computer systems with emphasis on micro-processor principles and applications, video systems and data communications, microwaves, electronics in communication and others, noted Glasscock. The curriculum also will include courses in mathematics, human relations, engineering and physics.

Facilities for the updated program include two electronics labs with specialized equipment and several classrooms at the SPC Lubbock campus, 1302 Main.

Originally written in 1973, the program has been completely revised to accommodate the rapidly changing electronics industry, Dr. Glasscock said. "We now feel that we have a state-of-the-art program attuned to the industry and the needs of our students," said Dr. Glasscock.

Experts from Texas Instruments, Litton, education and other industries in Lubbock and the surrounding area make up an advisory board which oversees the project to keep it abreast of industry changes and needs, he added.

The two-year associate in applied science degree in electronics technology is designed to provide basic preparation as technicians in the electrical and electronics fields of engineering, maintenance, service assembly, troubleshooting and manufacturing of electronic items for local manufacturers.

Freshman courses for the two-year curriculum include basic electrical measurements, principles of electricity, business and industrial English, intro-

duction to electronic calculation, applied technical math I, applied physics I, electronic devices, computer technology I, basic technical writing, fabrication techniques, applied technical math II and human relations in management. Courses for the second year include electronic measurements and instrumentation, electronic circuit theory,

communication systems I, engineering analysis I, applied physics II, industrial control systems, computer technology II, communication systems II, engineering graphics, and shop techniques.

Persons needing more information should contact SPC-Lubbock counseling office, 1302 Main, Lubbock, Texas 79401 at (806) 747-0576 or 747-8111.

## Duckworths enjoy visit with children

Mr. and Mrs. Elgin Conner and girls visited with Mrs. Conner's parents, Mr. and Mrs. Frank Duckworth, enroute to their Silverton home Sunday evening.

They had gone to Petersburg early that morning where he spoke at both

services at the Church of Christ. They traveled with the Larry Adrians, the Don Adrians, the Larry Lydes and Mike Adrian to Floydada for pizza at lunch-time. In the afternoon they enjoyed a game of baseball at the Larry Adrian home.

Many of baseball's most fabled players will step onto the field once more

this summer at an Old Timer's Baseball Classic game in Washington, D.C.

#### PUBLIC NOTICE CITY OF LOCKNEY, TEXAS HOUSING AND COMMUNITY DEVELOPMENT PROGRAM

The City of Lockney has submitted an application to the U.S. Department of Housing and Urban Development for \$455,000 in 1982 Community Development Block Grant funds. These funds, if awarded by HUD, will be used to benefit low and moderate income citizens in our community.

A copy of this application is available for review in the office of the City Secretary, 215 Locust Street, between the hours of 8:00 A.M. and 5:00 P.M., Monday through Friday.

Citizens may submit comments and objections on the City's CDBG application directly to the Dallas Area Office of the U.S. Department of Housing and Urban Development, P.O. Box 10050, Dallas, Texas 75207. HUD will consider objections based only on the following grounds:

- (A) The City has described its housing and community development needs in a manner clearly inconsistent with available facts and data;
- (B) The activities proposed by the City are clearly inappropriate to meeting the City's needs and objectives;
- (C) The City has not complied with CDBG program requirements; or
- (D) The proposed activities are not eligible for CDBG program assistance.

In submitting any comments and objections to HUD, citizens must plainly identify the source of their complaints and cite alternative data, if applicable, in correspondence addressed to the HUD Dallas Area Office.

Handicapped individuals who need special assistance in reviewing the City's application should contact the Lockney City Hall at 652-2355 to arrange for such assistance. For further information, contact Erma Lee Duckworth, City Secretary, at the Lockney City Hall.

### Trade Excursion... (Cont'd from Pg. 3)

those splendid people. Silvertown and Lockney are linked close together in many ways, commercially, socially, and otherwise. From Silvertown has come some of our very best businessmen. Silvertown and Lockney have always been on the best of terms, having many things in common in the matter of town and community building.

merchandise; N.W. Morgan & Company, farm machinery; Lockney Auto Company, Ford dealers; Lockney Produce Company; Crager Furniture Co. McAdams Lumber Company; Dyer Oil Company; Pierce Oil Corporation; W.W. Angel; Lockney Mutual Aid Association.

From Silvertown the Lockney excursionists returned home, arriving here about six o'clock p.m. The trip was successful in every respect, the day was an ideal one, good crowds were met at each town and stop. The businessmen of Lockney got acquainted with the businessmen of these five towns and formed acquaintance with the citizenry of these communities.

Those composing the excursion were representatives from the following business concerns:

G.A. Morris, groceries and hardware; E.L. Ayres, drygoods; City Grocery; Cowart & Miller, hardware and furniture; Floyd Huff, men's and boy's outfitter; Russell's Variety Store; Theo Griffith, groceries; Jno. W. Matthews, confectionery; Wise Grocery, groceries and men's and boy's shoes; Olympic theatre; Ozark Filling Station; R.C. Ramsey, the Progressive Shoe Shop; C.A. Wofford, automobiles and lands; Harve Pennington, Pennington Motor Company; Woodridge Lumber Company;

Page Dry Goods Company; Lockney State Bank; E.P. Thompson & Son, hardware and furniture; Lockney Drug Company; Pruitt's Barber Shop; Stewart Drug Company; Jno. W. Sams, tailor shop and haberdashery; Ozark Cafe; Rigdon's Barber Shop; Norton Baker, furniture dealer; First National Bank; C.R. Hatcher, insurance; E.H. Rankin, insurance; F.M. Kester, jewelry;

Baker Mercantile Company, general

## Landscape & Gardening

BY BENNY J. BUTLER

### TOMATO PROBLEMS

#### What Causes Cracked Fruit?

Many home vegetable gardeners have seen tomatoes crack open mysteriously. These cracks may extend deep into the fruit, or they may be just on the surface. If cracks extend from the stem and toward the bottom of the fruit, they are called radial cracks; if they circle the stem end, they are called concentric cracks.

Tomatoes crack for many reasons, but you need to be concerned only with soil moisture because cracking is caused primarily by fluctuations in the soil's moisture content. When the tomato reaches the mature green state, which is just before it begins to show color, movement of water and nutrients into the fruit decreases and the tomato begins the ripening process. At this time a cellophane-like wrapper around the outer surface of the tomato becomes thicker and more rigid to protect the fruit during and after harvest. If, due to watering practices or weather conditions, the soil becomes dry and then wet again, the plant resumes movement of moisture and nutrients into the fruit. This causes the fruit to swell, splitting the wrapper around the fruit and cracking.

The best way to prevent cracking is to maintain a constant water supply. Don't allow the soil to become overly dry and then too wet. It may be helpful to mulch around the base of your tomato plants. This helps prevent soil from drying out quickly. Be prepared to water your plants thoroughly if conditions warrant. This is especially important as fruit start to mature. Plant breeders in Texas and across the U.S. are looking for crack-resistant varieties. Some are currently available, but unfortunately their yield and quality generally are lower than many of the recommended varieties such as Spring Giant, Bigset and Bonus.

Remember, maintaining a constant and uniform moisture level is the best method for preventing cracking.

Blossom-End-Rot Turns Bottoms Black  
Nearly every year gardeners become very concerned when they notice the bottoms of their tomatoes turning dark. This is a condition called "Blossom-end-rot". Blossom-end-rot is also a problem on other crops such as peppers and watermelons. Although it can occur anywhere on the fruit, it generally

appears at the blossom end or bottom at almost any time during the fruit's development. It generally begins with small, irregular, water-soaked areas near the base of the fruit which darken and eventually look leathery. When severe it appears to wrinkle and deteriorate as the fruit matures.

Why does blossom-end-rot occur? Researchers are not sure of the exact cause, but most agree it is associated with a calcium deficiency and excessive water loss. No pathogens are associated with it. Disease may infect the fruit after blossom-end-rot occurs, but these are secondary in nature.

Blossom-end-rot is a "physiological" disorder of tomato fruit probably caused by water stress in the plant. This could result from overly wet soils, overly dry soils or drying winds which increase water loss from the foliage. Whenever these conditions occur, plants lose more water through their foliage than is absorbed through their roots. This

results in water loss from the plant and the fruit and a slight desiccation of the blossom-end or bottom of the tomato. These cells die and the blackened area appears.

Blossom-end-rot damage often isn't visible until several days or even weeks after the water loss occurs.

What can be done about blossom-end-rot? Anything that maintains uniform soil moisture helps. Locating the garden in a well-drained soil, mulching and maintaining a uniform and consistent watering program are important.

Gardeners may wonder about removing affected fruit from the plant. Most Texas horticulturists suggest removing the affected fruit to allow for the development of other top quality fruit. Educational programs conducted by the Texas Agricultural Extension Service serve people of all ages regardless of socioeconomic level, race, color, sex, religion or national origin.

## Leathercraft workshop to be offered July 30th

All Floyd County youth ages 9-19 are invited to attend a Leathercraft workshop. This workshop will be Friday, July 30 at the Ag. Bldg. in Floydada beginning at 10:00 a.m. and concluding around 4:00 p.m. Everyone should bring a sack lunch.

In order to prepare for the workshop, we need to know what item each of you would like to make. Approximate cost are as follows:

- Boy's Billfold \$9.25
- Girl's Billfold 9.25
- Initial Belt Buckle 5.25
- Snuff Can Caddy 5.25
- Cosmetic Bag 5.75
- Knife Sheath 3.00
- Coaster Set 5.25

A beginners kit, which includes a complete set of tools and supplies to make a billfold, a keycase, and a set of

coasters will be available for \$25. This is a good buy for anyone who thinks that they will want to make more leathercraft items on their own, but you do NOT have to have this kit to participate in the workshop.

Harold Arnett of Lubbock will be the instructor for this session. Weldon Fannon of Floydada has agreed to follow-up by teaching a class later for those who attend this workshop and want to do a more advanced leathercraft project.

If you want to attend the Leathercraft Workshop, please call the Extension Office (983-2806) and preregister for what you want to make.

Educational programs conducted by the Texas Agricultural Extension Service serves all people regardless of socioeconomic level, race, color, sex, religion or national origin.

"LOOK MOM NO EARS!" Look again, a portion of this calf like so many other calves are the victims of "playfull" dogs that roam from home. Luckily this calf only lost her ears, many

others like her lose their lives either through strauation due to rejection of the mother after the attack or to being slowly thrown to pieces. As this calf lost his ears bit by bit over a period of days. PHOTO BY NANCY BARKER

## FLOYD CO. AG. UPDATE

BY JETT MAJOR COUNTY EXTENSION AGENT

This week I received my first copy of the Floyd-Crosby Pest Management Newsletter written by our new county entomologist, Dale Spurgeon. Dale will be sending out this weekly newsletter to all interested producers and agribusinesses in the county. All those that would like to get on Dale's newsletter mailing list should leave their name and address at the Floyd County Extension Office (983-2806).

The Floyd-Crosby Pest Management Newsletter will be written in the same format as Jim Leser and Pat Morrison's weekly newsletter, "Focus on Entomology", which many Floyd County producers already receive. However, Dale's newsletter should be much more specific about Floyd County conditions since he is actively checking acreage in the county at least 2-3 days each week. Dale is always available to answer any questions or make any visits concerning insect problems that producers or homeowners might have. His office number in Crosbyton is 675-2426.

The following information concerning insect activity in corn and sunflowers was written by Pat Morrison and Dale Spurgeon, respectively.

### CORN

Some first generation **Southwestern corn borers** are beginning to pupate in the stalk. The pupal stage normally lasts about ten days. The initial second generation adults should begin emerging in 18-20th, but don't use this as a calendar spray date! The moths still have to mate, lay eggs, and the eggs hatch. All of this will take an additional 4-6 days. Scout fields and make management decisions based on thresholds in the enclosed Southwestern corn borer information sheet. Last year, Ambush, Pounce, and Pydrin received a Section 18 registration for use in field corn for corn borer control. However, this registration has not presently been

granted by the Texas Department of Agriculture for 1982. Pydrin is federal-labeled for use in corn in 1982, but has a 60 day pre-harvest interval.

The wet weather (or something) is keeping the **spider mite** populations down. No real problems at this time. **Western corn root worm** adults are the insects of primary concern in corn at this time. These beetles emerge from the soil where the larvae fed on corn roots in May and June. Adults feed on leaves, pollen, and silks. If adults number about 5-8 per plant, silk feeding and pruning can result in significant reduction of pollination. When adults keep the silks chewed back to within 1/2 inch of the shuck, the application of an insecticide may be warranted. Suggested insecticides include diazinon, malathion, methyl parathion, and Sevin.

The life cycle of this pest is unusual in that it has only one generation per year and feeds only on corn. Western corn root worms overwinter as eggs in the soil and larvae hatching in the spring must find a corn root to feed upon or they die. Fields with corn following corn, therefore, are the ones which develop rootworm problems. If corn is followed by any other crop, the larvae hatching in the spring are "suicidal". Rotation affords the best control. Corn fields which average one or more adult beetles per plant this summer should be rotated next spring. If rotation is not possible, the application of an insecticide at planting next spring is suggested when this level of adult beetles is reached.

### SUNFLOWER

Any fields of sunflowers which are blooming should be checked for sunflower head moth. Many fields have already been treated, and moth numbers still seem to be high.

The moth is small (about 3/4 inch

long) and light brown to silvery in color.

Early in the morning and when the air is calm they may be observed on the heads of sunflowers. Later in the day they will be lower in the plant canopy and will usually fly when approached. They are most easily detected when on the head, but with some practice they can be detected when they are lower on the plants.

Sunflower fields should be treated when 20% of the heads are open and moths are present in the field. Several (2 or 3) treatments may be needed at 5 to 7 day intervals if moths continue to be found before 80% or more of the heads have pollinated to a point where a quarter sized circle in the center of the head is left unpollinated.

If you are forced to treat for sunflower head moth, be sure to time your insecticide application so as to minimize the impact of the treatment on your pollinators (bees, etc.)

Educational programs conducted by the Texas Agricultural Extension Service serves people of all ages regardless of socio-economic level, race, color, sex, religion or national origin. Reference to commercial products or trade names is made with the understanding that no discrimination is intended and no endorsement by the Cooperative Extension Service is implied.

## CAPITOL FACTS

SO FAR THIS YEAR, CONGRESS HAS INTRODUCED 22 MAJOR BILLS TO HELP THE SMALL FARMER WHO IS RAPIDLY BECOMING AN ENDANGERED SPECIES.

THE REASON?...  
ENDANGERED SPECIES HALL OF FAME

50 YEARS AGO, AS MANY AS 65 MILLION FARMS DOTTED THE MAP--EACH ONE AVERAGING 145 ACRES. TODAY THAT NUMBER HAS DWINDLED TO 2.3 MILLION FARMS, EACH AVERAGING AS MUCH AS 450 ACRES.

THE NATIONAL FIGURE FOR FARM INCOME WAS AS HIGH AS \$33.3 BILLION IN 1973. TODAY THAT FIGURE HAS BEEN ESTIMATED TO BE LESS THAN \$15 BILLION.

IN FISCAL YEAR 1982 ALONE, A TOTAL OF 351 FARMERS HAD TO FORECLOSE, 323 FILED FOR BANKRUPTCY, AND 1,814 FARMERS HAD TO LIQUIDATE THEIR ASSETS IN ORDER TO PAY OFF THEIR LOANS.

# QUICK QUIZ

If you're driven about good economy, here's a quick quiz about cars that may help.

1. Last year how many diesel cars were sold in the United States? (a) 5,000 (b) 50,000 (c) more than 500,000
  2. Some diesel half-ton pick-up trucks have a range between fill ups of (a) 840 miles (b) 540 miles (c) 340 miles?
  3. Japan's first diesel powered passenger car was produced in (a) 1951 (b) 1961 (c) 1971?
- ANSWERS: 1. (c) In 1981 a record 520,788 diesel cars were sold in this country. 2. (a) One diesel, over 840 miles between fill ups. It's made by Japan's number one truck company, Isuzu. 3. (b) In the May Reader's Digest which tells you can get more information at an Isuzu dealer.

## Public Notice

### NOTICE OF CALCULATION OF EFFECTIVE TAX RATE AND PUBLICATION OF ESTIMATED UNENCUMBERED FUND BALANCES

I, Jimmie Lou Stewart, Tax Assessor-Collector for the City of Floydada, Texas in accordance with the provisions of Sec. 26.04 of the Property Tax Code, have calculated the tax rate which may not be exceeded by more than three percent by the governing body of the City of Floydada without holding a public hearing as required by the code. That rate is as follows:

\$ .38529 per \$100 of value.  
The estimated unencumbered balances for Maintenance & Operation fund: \$ -0-

# South Plains News

BY MRS. MURRY JULIAN  
South Plains, July 19:

Farmers are busy in fields irrigating these days. From all the rains we have had, it does not seem possible that it is time to water, buy soybeans, seed maize and other crops are beginning to suffer. The gardens are not as good as in former years, but there are green beans, and other vegetables ready.

Mrs. Fanny Bell McClure, came out and spent from Wednesday through Saturday here at the McClure home, and her granddaughter, Mrs. D. Ann Cypert and her girls, Jennifer and Lindsey from Kress were here with Mrs. McClure.

Johnny Powell from Perryton who has been in the Methodist Hospital in Lubbock following surgery last week, was dismissed Thursday, and is able to go back to his home in Perryton, and getting along well.

We are glad to hear that Mrs. Ernest Smitherman (Ruth) is feeling better since she fell and hurt her hip on June 21.

Mrs. Letha Mulder went to Amarillo on Friday and stayed until Sunday

afternoon with Mr. and Mrs. Jerry Taylor and children, and accompanying her to Amarillo were her other grand daughters, Cindy and Penny Mulder from here. The girls had a great time with their cousins enjoying swimming and other activities.

Mr. and Mrs. Raymond Upton have another great grandson born to their granddaughter, Shelli and Buddy Camp of Lubbock. The baby boy was born June 21, he weighed 6 lbs. 9 oz. was 20 inches long, and has been named Marshall Ryan. Shelli and husband have a little girl, Mandy, who is two years old. Congratulations to them and to the Uptons.

Mrs. Robby Lutrick and her little twin daughters, Tobi and Tessa, from Hereford, are here staying several weeks with her parents, Mr. and Mrs. Dean Stewart while her husband Robby is employed in Oklahoma at this time.

Mrs. Louzilla Nichols went to Sweetwater with her children, Mr. and Mrs. Glen Whitfill on Saturday. They had come up on a business trip, and Mrs. Nichols accompanied them back home.

She will be home on Tuesday or Wednesday of this week.

The grandchildren of Mrs. Ruby Higginbotham, Shea and Brent Higginbotham visited here with their grandmother week before last week, and attended church services at the Baptist Church with her.

Keith Marricle of Floydada was a visitor at the South Plains Baptist Church in the Sunday morning services.

Pony Banda of South Plains has had back trouble and is in traction at the Methodist Hospital in Lubbock, and probably is able to be home this week.

We saw that Victoria Cummings, three year old daughter of Mr. and Mrs. Kelvin and Jolene Cummings was the lucky recipient of the afghan given at Old Settlers Day in Floydada, and this was donated by the American Cancer Society. Ken also won a prize at Old Settlers Day for his Wild Flower selection at Old Settlers Day.

Mrs. Mildred Hamm and her daughter, Mrs. Annelda Staples and children Bill, Stacey and Kevin went to Amarillo last Sunday to take a picnic and have dinner and supper at Thompson

Park in Amarillo. They were joined by Mrs. Jeaneva Huff and Duane. The children enjoyed the animals, and the park, while Mrs. Hamm and her daughters visited.

Three sisters, Mrs. W.S. Simmons of Vera, Mrs. Sylvain Kinnibrugh of South Plains, and Mrs. Ray Dillard of Lockney left early Friday morning for Odessa, to spend the weekend with another sister and family, Mrs. W.S. Smith of Odessa. Mrs. Ted Horna (Marilyn) and Latham Dickens of Plainview accompanied them to Odessa where they all visited together until Sunday afternoon.

The home of Mrs. Harold Hamm (Mildred) was the setting for a baby shower honoring Mrs. Katy Taylor Pierce and baby Hillary Suzanne on Saturday morning, July 17, from 10-11:30 a.m. Mrs. Pierce lives in Lubbock and they came for the event Saturday morning. Hostesses for the shower were Mmes. Ruby Higginbotham, Kendall Cummings, E.J. Kinslow, Fred Marble, L.N. Johnson, Imogene Stansell, Leighton Teeple, Dwight Teeple, E.P. Pritchett, Mamie Wood, Shelby Calahan, Letha Mulder, Nathan Mulder, John Wilson, Grigsby Milton, I.H. Parks, Sterling Cummings, and hostess Harold Hamm. Their gift was a car seat.

The serving table was laid with a white linen cloth, and centered with a pink and blue carnation arrangement. Pink and blue candles were used, and coffee, spiced tea and cookies were served the guests. Many relatives and friends attended.

Services for Mrs. Ernestine Craig, 81, of Hale Center, was held at 2:00 p.m. this Monday at the Hale Center First Baptist Church with the Rev. Ron Mooney officiating. Plainview Memorial Park was the place for the burial. Mrs. Craig had died Saturday in Hale Center at the High Plains Hospital after a long illness. We extend our sympathy especially to her son, Karl Craig and Bonnie of Lubbock and all the family, and to Mr. and Mrs. Raymond Upton here. Karl Craig is their son-in-law.

The wedding reception for Miss Atha Blake and Sheldon Sue, of Floydada, will be held on Saturday, the thirty-first of July at the South Plains Baptist Church in South Plains, at three-thirty in the afternoon. A reception follows the wedding.

Mr. and Mrs. Kendis Julian, Mitzi and Tim spent the weekend in Roscoe with his brother and family, Leona and Terry Julian and Dickie, Mitzi remained to spend a few days in Roscoe with her aunt and family.

COMMANDER WALTER S. SIMMONS

## Simmons named commanding officer

Commander Walter S. Simmons of Rockville, Maryland, has been named commanding officer of the hydrographic survey ship Peirce, the National Oceanic and Atmospheric Administration has announced.

The 163-foot Peirce, designed and outfitted for hydrographic surveys involving nautical charting, operates off the U.S. Atlantic coast, in the Gulf of Mexico, the Great Lakes, and the U.S. Caribbean island territorial waters. She carries 41 officers and crew, and is currently working on a 4-month hydrography survey of Lake Superior.

Simmons joined the commissioned corps of the U.S. Coast and Geodetic Survey, predecessor to NOAA's National Ocean Survey, in 1964. Prior to his new assignment as commanding officer, Simmons served as chief of the National Ocean Survey's Photogrammetry Division in Rockville, Maryland. He also served as operations officer on the NOAA ship Researcher; as Chief, Special Geodetic Party at the Pacific

Missile Range; and on the U.S. Coast and Geodetic Survey ship Pathfinder.

Awards granted Simmons for his government service include the Department of Commerce bronze medal; three Karo awards for the U.S./Mexico Seaward Boundary Survey, the Boston Harbor Estuarine Environmental Investigation, and the GARP/Atlantic Tropical Experiment (GATE); and a NOAA unit citation for response to the Campeche Bay oil spill.

Simmons, a native of Floydada, received a bachelor of science degree in civil engineering at Texas Tech University in 1964, and a master of engineering administration degree at George Washington University in 1978.

Simmons is married to the former Barbara J. Huckabay of Floydada. The couple and their son and daughter reside in Rockville, Maryland. Cmdr. Simmons' mother, Curtis M. Simmons, resides in New Braunfels, Texas, and his mother-in-law, Doris Huckabay Preston, resides in Lamesa, Texas.

## "My Dog Has Fleas?!"

The summer of 1982 may be the worst year yet for fleas in Texas - and dog and cat owners need to be aware of some safe, effective steps that can be taken to help control these irksome parasites.

"Dipping or spraying your pet is not enough. Treating the premises, your house and yard, and keeping your pet within the area that has been treated, are just as important," said Dr. Fred Soifer, president of the Texas Veterinary Medical Association (TVMA).

While dogs and cats are the main hosts for these parasites, fleas actually spend most of their lifespan off of the pet. So treatment of the premises is necessary, advises Soifer, a companion animal practitioner from Houston.

Three major reasons for the especially heavy infestation of fleas this year are the weather, a mild winter followed by a rainy spring and hot, humid summer. Products that had been safe and effective for killing fleas no longer seem to do the job - the fleas develop a resistance to some formerly effective pesticides. Population increases have added to the problem.

Scratching is the first obvious signal your pet has fleas. Pet owners should also watch for skin inflammation or bald spots. The fleas' saliva can cause a severe allergic reaction, resulting in extreme itching, scratching and chewing of the skin that may persist for up to two weeks after the death of the fleas. Fleas are carriers of tapeworms, and many animals with flea infestations will have tapeworms.

Kittens, puppies and small dogs are more easily made anemic because of their size. These small animals may become so anemic that they require a blood transfusion when the heavy flea infestation is coupled with hookworm disease.

Flea collars are not enough, and in some cases if not used properly are more harmful to pets than helpful. "Don't forget the improper use of flea and tick products can kill animals, so read the product label carefully," Soifer said.

The best method for controlling fleas varies from one part of the state to the other, and proper flea control measures differ from animal to animal. It is advisable to contact your veterinarian for individual flea control measures for your pet and premises.

In the home, foggers that kill not only the adult but the larvae as well are available. Yards must be treated with a pesticide, preferably the granular form. A commercial pest control individual may also be consulted.

Veterinarians in some parts of Texas are prescribing a systemic insecticide - a liquid or tablet that is given by mouth and absorbed by the system. This is no panacea, said Soifer. The systemic insecticide is not effective unless the premises are controlled and is not effective on animals that are flea-bite sensitive.

"The key to flea control is still regular treatment of the pet and premises," reminds Soifer.

AIRMAN EDUARDO MUNIZ JR.

## Muniz completes training

Airman Eduardo Muniz Jr., son of Eduardo and Mary L. Muniz of Floydada, has completed Air Force basic training at Lackland Air Force Base, Texas.

The airman, who is remaining at Lackland for specialized training in the security police field, studied the Air Force mission, organization and customs and received special instruction in human relations.

Completion of this training earned the individual credits toward an associate degree in applied science through the Community College of the Air Force.

He is a 1976 graduate of Floydada High School.

## Lp-gas emergency rules adopted

The Railroad Commission adopted emergency rules to insure that vehicles converted to use lp-gas as fuel are safe. Existing rules regulating conversions were repealed. The new rules go into effect immediately.

The popularity of lp-gas vehicles has increased the number of conversions taking place in Texas. Technological advances in the lp-gas industry made

existing rules inadequate to protect the public, according to Hugh Keepers, director of the Liquefied Petroleum Gas Division. Twenty-four independent school districts, for instance, converted their school buses to lp-gas before the emergency rules were adopted. Existing rules did not take school bus conversions into consideration.

According to Keepers, the new rules

equal or exceed standards set by the National Fire Protection Association. In many cases the new minimum standards for equipment are higher than standards under the old rules.

Emergency rules are effective for 120 days. During that time, the Commission will publish the rules in the Texas Register for public comment so that they can be considered for permanent adoption.

## VA Benefits

The Veterans Administration is seeking seriously disabled veterans in the Texas-Gulf states area and elsewhere to participate in a new program of independent-living services.

Special outreach efforts are under way in Texas, Louisiana and Mississippi to explain the new benefit program. Independent living is designed to increase a severely disabled veteran's ability to function more independently in the family or community environment with a reduced level of services from others.

The pilot program will continue through fiscal 1985. For up to two years an eligible service-disabled veteran may receive a wide range of independent living services.

Veterans needing more information about independent living services should contact the Vocational Rehabilitation and Counseling Office at the Waco, Houston, New Orleans or Jackson VA Regional Office.
