BARBARA ALMON

Ladies' Day

The following is a schedule of events for the Floyd County Fair Ladies' Day Friday September 10 beginning at 9:15 a.m.

The Way To A Healthy Body

9:15-10:15 a.m.

Barbara Almon, of Plainview, has long been interested in nutrition and health. She is a graduate of Texas Tech University, the department of Home and Family Life, Home Economics Department. She is currently enrolled in graduate school in the Home Economics Department, majoring in Human Development.

She has previously taught at Wayland Baptist University relating to health and diet. Her philosophy is that a good diet and planned exercise is essential for healthy living. A combination of the two provide the body with energy while burning off the excess fat.

Habits that have been developed over a life time can easily be broken once they are defined. Successful weight loss occurs when we develop healthy habits. Lack of exercise and undisciplined eating habits are the culprit of overweight.

If a person desiring to lose weight enters a program where they only eat certain foods or take prescriptions, they have not brought their undisciplined eating habits under control. Once they finish their program or stop taking the medication, they usually gain more weight than they lose.

It would be our goal to develop eating habits without starving ourselves to death and to become involved in an exercise routine that will be used the rest of our lives.

Old habits are hard to break, but not impossible. Barbara gladly shares her information with those interested in learning to live in a more healthy way.

Doll Collecting

10:30-11:30 a.m.

Jean Aaron, owner and operator of Yesterday's Dolls Today in Lubbock, will speak on the art of making porcelain dolls and the hobby of doll collecting.

Mrs. Aaron has been president of the Lubbock Dollers of Texas, treasurer of the Greater Lubbock Antique Dealers and a member of the United Federation of Doll Clubs, Inc. She does work for many doll collectors and the Texas Tech Museum.

She has taught the art of porcelain doll making for many years and has held seminars as far away as California. She enjoys repairing, making and researching her dolls, both old and new.

Mrs. Aaron is very knowledgeable in the field of doll collecting and states that it is the second most popular hobby in the world today.

Come and see her collection of old and new dolls. This should prove to be a good program for antique lovers and doll collectors.

Looking Fashionable On A Limited Budget

1:00-2:00 p.m.

Lou Carlson, Fashion Coordinator of Dunlaps will speak on how to update your present wardrobe. Mrs. Carlson is a graduate of the University of Kentucky. She taught school for a while before retiring to have her family.

She returned to the working world in 1977 as fashion coordinator for Dunlap's. Her job includes doing style shows for clubs, civic groups and conventions and wardrobe consulting. Mrs. Carlson is very enthusiastic about her job and loves working with women and wardrobe planning. She will be bringing a couple of models for a short style show letting everyone see the newest things out for this fall.

She plans to give some pointers on how to make your present wardrobe take on a new look.

Mrs. Carlson was here a couple of years ago and was asked back because her program was so well received. Come and see the newest for fall 1982.

Letter to the Editor

To the Editor:

I would like to thank Fred Cardinal, the Floyd County Sheriff's department and Doug Brewer of the Floydada Police department for the work they have done.

They have done a super job in law enforcement. I say this not only because they have quickly solved the break in at my store, but also because they have put in a lot of hard work in keeping peace in Floydada and Floyd County.

In light of the criticism that is received on their job, I think it is time to give credit where credit is due.

Once again thank you for a job well done. I am sure I am speaking for the businesses and citizens in the entire county when I say it is deeply appreciated.

TWO TERMS IS ENOUGH

Texans have a healthy skepticism of their elected officials, a wariness of entrenched power that they have embodied in the state constitution. They have historically refused to keep top state officeholders more than a few terms.

Now my opponent comes along, having spent nearly ten years in the Lt. Governor's office, one of the top state policy-making offices. Mr. Hobby wants yet another term to make it 14 years in that crucial job. That is unprecedented. Never in Texas' history has any Lt. Governor served that long—or wanted to.

His desire, frankly, puzzles me. You would think he would have other goals, other challenges he might want to tackle. As his primary opponent this year said, "If he had anything to get done, you'd think he would have done it by now."

My opponent will tell you that experience is what counts. I think voters need

to look at the experience they have had with him. After ten years, our highways are in bad shape, the quality of education has declined, we still do not have a new, statewide water plan and he has refused to tackle the growing crime problem. We can't afford more of that kind of experience.

I have a long-held belief in what I call the citizen-politician: someone who holds a job, serves his country or state for a reasonable time, then returns to that job and private life. For that reason, the first order of business after I am elected will be to have a constitutional amendment introduced in the legislature limiting the Lt. Governor to two terms—eight years. That is enough time for anyone. Too great a concentration of power for too long is bad. That is a principle of democracy.

If you have any thoughts on this subject, please write me at 1213 W. 34th, Austin, 78705.

WHAT IS AN AMERICAN?

THIS SPEECH WAS GIVEN at the Lockney Cooperative 25th Annual meeting. Because of its content it is being reprinted for your consideration.

An American is not delineated by a particular skin color, or way of life. He is a person from many places, with many shades of skin; of different sizes and varied energies. He has a masters degree, or he may never have finished high school. He may drive an expensive automobile, or perhaps he relies on two mules to carve his living out of the earth. But regardless of what he is, facing the different physical features together is a bond of strength in tradition which exemplifies the American way. A way which opens the doors of opportunity to all people who may knock upon them. An American has a spirit which was born when the bells tolled of independence, and which has released the adrenalin of his nation time and time again when its existence was threatened by an aggressor.

An American does not view armed conflict as a means of getting what he wants, but rather as a means of protecting what he has. He is one who loves the very concept of peace for all nations, but will not hesitate to fight on the shores of others if required to protect his own. An American sees the knowledge of experience in his past, feels pride in the accomplishments of the present, and has hope for the future of all nations, even when others would view the days to come with dismay. But a realistic American finds no guarantee of freedom or security in the future solely because he has always had it in the past.

An American recognizes the faults of his system and seeks to correct them through a process unknown to many nations. A process which does not promise absolute perfection, but one which allows for peaceful change, if change is needed. That process is democracy, and an American holds that very word so dear, that he stands ready at a moment's notice to lay down his life for its perpetuation.

An American finds nothing at all unusual about getting cold chills when his flag passes in review, for his flag has always been a source of inspiration; when the smoke cleared over Fort McHenry, when its sheen was reflected on the sands of Iwo Jima, and when the colors glistened on the side of the craft which took the first man to the moon. An American sees nothing strange about getting a lump in his throat when the national anthem is played, or weeping unashamed when taps is played for one who paid the ultimate price for his freedom. He realizes that the only thing that exceeds that price is the freedom itself. An American never forgets the indebtedness he has because of that price, for without it, his freedom would only be an unreachable concept in some philosopher's mind.

A true American is the essence of pride in a way of life. What is an American, you say? He is fortunate.

Il Peneroso Club to raffle quilt

Il Peneroso Jr. Study Club held its first meeting of the new club year in the home of hostess Lisa Mosley. Co-hostesses for the evening were the yearbook committee, Linda Cunyus, Lesca Durham, Kim Lambert and Janette Workman.

After a delicious meal, yearbooks were passed out and the business

meeting was called to order by club president Brenda Mangold. Plans for this year's fair booth were discussed. Il Peneroso will be selling homemade fried pies this year and will also be selling tickets for a drawing on another beautiful quilt made by the club members.

Plans were made for the upcoming

farm sell to be held September 21-22. Club will provide a plate lunch both days and will be selling other snacks.

Before adjourning members were asked to be thinking of goals to work toward this year.

Members present were Treena Aston, Cathy Barnett, Marilyn Biggs, Charlanna Burson, Cynthia Bybee, Sandra Cummings, Linda Cunyus, Les-

ca Durham, Cindy Ford, Kelly Fortenberry, Lynda Gant, Julie Hickerson, Judy Jackson, Jesse Johnson, Kathy Kellison, Kim Lambert, Brenda Man-

gold, Linda Marr, Kay Martin, Ginger Mathis, Rhonda McCain, Cindy Means, Lisa Mosley, Reeda Cay Smith, Robin Stoerner, Karen Quebe and Janette Workman.

TREENA ASTON AND LISA MOSLEY display the quilt made by the 28 Il Peneroso Jr. Study Club members. Tickets for the quilt will be sold at their booth at the Floyd County Fair.

COMPUTERS are really an added attraction in the Lockney schools this year.

School attendance low, new courses offered

By Monday the Lockney Elementary school had 351 students in comparison to their 369 students enrolled at the same time last year.

Their number of classes have remained consistent in each grade. There are three kindergarten classes, three first grade, three second grade, two third grade, and two fourth.

The junior high attendance started Thursday with 183 students, whereas a year ago that day they had 209 students enrolled. Monday that enrollment had risen to 195.

"We are growing every day," Sandra Turley, junior high secretary remarked.

High school's attendance was 203 compared to 225 students the previous year. High school secretary Dorothy Jarrett said, "We don't expect to pick up many more."

Computers are the new thing in the school system as in a lot of other areas. The Lockney schools have 7 new TRS-80 computers made by Radio Shack. Six of them will be used by Mrs. Auffer's Gifted and Talented students and a class of 9 juniors and seniors in advanced math. They will learn pro-

gramming. The computers came equipped with printers. They will also develop more skills by reading printouts and working with discs with prepared programs designed for various uses.

Mrs. Peggy Hallmark will make use of the new equipment in three periods of business courses. Her 23 accounting students will probably learn how to do the general ledger, and possibly move on into receivables and payables later in the year. Her 21 typing students will also make good use of word processing.

The one computer designated for junior high will be used by approximately 20 students directed by Carolyn Whittington.

All three of these teachers are signed up for a 3-hour course in furthering their knowledge of computers at Texas Tech this fall.

Speech is being offered this year in Lockney High School. This is the first time it has been offered in two or three years. Coach Scott Knippa is the teacher of that class.

Food and nutrition is also being offered in the Homemaking Department as an extension of the field of learning. Miss Annette Weil will be teaching the course of study.

MRS. BILL SESSOM

Holly Thraikill, Bill Sessom marry June 12th

A candle light ceremony united Miss Holly Thraikill and Bill Sessom in Matrimony at Rolling Hills Baptist Church, Lancaster, Saturday, June 12. Officiating were Dr. F.E. Baughman, Lancaster, and W.G. Sessom of Ft. Sumner, N. M., father of the groom.

The brides parents are Mr. and Mrs. Richard Thraikill, 327 Van Rowe. The grooms parents are Mr. and Mrs. William Sessom, Ft. Sumner.

"Lace and hearts" was the theme of the ceremony. The Chapel aisle was lighted with 114 candles to lead the setting of a large candelabra in the shape of a heart with two heart shaped candelabras on either side. The rail around the piano and organ had greenery with white doves and bows to complete the setting.

The brides gown had an elegant sweetheart neckline outlined with touches of point d'applique lace enhancing the bride's delicate features. It had sheer chiffon, pearl seeded sleeves with point d'applique lace flowing to fluted ruffles cascaded into a chapel-length train. She chose a profile hat with a slightly upturned brim.

Attached was a floor-length veil trimmed in a scalloped pattern of Buckinghamshire lace.

She carried a cascade of white rosebuds, stephanotis and forget-me-nots accented with pink rosebuds. The streamers were of picot white satin.

Lynn Goodwin of Lewisville, sister of the bride was matron of honor. Bridesmaids were Shelley Sessom of Ft. Sumner, sister of the groom; Melissa Thraikill of Brand Prairie, sister-in-law of the bride; and Lisa Ford, Donna Hellebrand and Shanna Choate, all of Duncanville.

Ushers were David Foster, Lockney; Rusty Goodwin of Lewisville, brother-in-law of the bride; and Greg Hightower, Amarillo.

At the reception in fellowship hall, the 7-layered wedding cake was heart-shaped and trimmed in pink glamelias. For something old she wore diamond studded earrings in which the stones from both her grandmother's wedding rings had been mounted. Her wedding attire was new.

A reception was held inside the Holiday Inn in the holiday. Cake and punch was served to those in attendance.

A lace bandeau held her lace-edged veil of illusion that was scattered with lace motifs.

She carried a cascade arrangement of shades of blue flowers softened with gypsophila atop a white Bible belonging to her sister, which was her traditional "something old" and "something borrowed." "Something blue" was a garter and for "something new" she wore a necklace given to her by the groom.

unity candle to conclude the ceremony.

SOUTH PLAINS NEWS

BY MRS. MURRAY JULIAN
South Plains, August 30, Monday:
School began last Wednesday at South Plains Elementary School, and the enrollment this week, according to principal, Mrs. Charline Starke is 41, with pre-kindergarten of 4-5 year olds, and kindergarten of 5 year olds and over will begin in January of 1982. This Monday, even though it is hot and dry everywhere here, there is air conditioning at school, and the cool, newly painted and decorated rooms at the school are wonderful. The children and teachers are this week using and enjoying new chairs for the students, and new chairs for the teachers. The kitchen and lunchroom area is all newly painted and new formica, and new edges of cabinets in the lunchroom, with windows freshly washed, and caulked and ready for winter, makes for a pleasant and wonderful place to cook and prepare meals, for Mrs. Nina Sanders. All the school is bright and gleaming with cleanliness and freshness everywhere, and the pupils and teachers are proud of everything, as we all are. Come visit your school and if you would stay for lunch, call Mrs. Sanders to make a date for the time you would come.

Mrs. Ruth Smitherman (Ernest) will enter the Central Plains Hospital this Monday and on Tuesday will undergo major surgery on her left hip which she injured when she had a fall at home last June. She will be in the hospital about two weeks.

Labor Day in this area will be celebrated here with school children and teachers having a holiday on Monday, September 6. This will make for a nice long week-end for those who plan an out of town vacation.

Lon Colvin, manager of the Lockney Cooperatives at South Plains, will be back at work at the Co-op this Monday, after having a vacation for the past two weeks.

This Tuesday, August 31, at the noon day hour, the Lockney Cooperatives will have a meeting and dinner at the South Plains Gin with the Monsato Chemical Company as hosts for the event. Farmers and their wives are invited to the dinner and meeting.

Mr. and Mrs. Raymond Upton left last week for a visit over New Mexico way to see their eldest son and daughter, Mr. and Mrs. Ronnie and Betty Upton at Los Alamos, New Mexico, and they planned to spend a few days with them.

Esley Yeary fell last Friday a week ago, and tore ligaments in one of his knees, and he has been in the Lockney General Hospital. Others there we know of is Mrs. Frank Brown (Ora) who is there taking tests at this time. We hope they can all be home soon, and well.

Mrs. E.J. Kinslow (Navolia) will be hostess in her home to members of the

South Plains Hobby Club, Wednesday at 2 o'clock in the afternoon of September 8. The program will be on Scenic Highways of Texas—a film. Roll Call is: A Trip in Texas That I Have Enjoyed. Mrs. Juanita Teeple will bring the Thought for the Day.

The Lockney Cooperative Gin held its Twenty-Fifth Annual Stockholders Meeting, Saturday night, August 28, at the Lockney School Cafetorium, with the banquet beginning at 7:00 p.m. The dinner was delicious, and one director was elected at this meeting—Mr. Gant. Nathan Johnson of South Plains gave the welcoming address, and speaker for the evening was Michael Brown from Arlington, Texas. His speech was lively, funny and very much enjoyed. When he got down to business and gave us, What Is An American? all hearts were in tune with him. When door prizes were given, Grigsby Milton, Jr. (Doodle) of South Plains recieved a beautiful brass chest. Many from South Plains were present, and there were around twenty from our area. It was the most interesting and nicest meeting I have attended in many years.

Mr. and Mrs. Howard and Annelda Staples are taking the bus drivers positions at the South Plains School. Mrs. Staples is driving the big bus, and Howard is driving the smaller one.

On August 13th, when Mrs. Patrick Huff and Duane of Amarillo were here visiting with her parents, Mr. and Mrs. Harold Hamm, they had homemade ice cream and birthday cake and a celebration for all the members of the family around here for their grandson, Duane Huff, who was five years old that day.

Daughter of Mr. and Mrs. Leighton Teeple, Mr. and Mrs. Rhonda and Bill Parker from Boutte, Louisiana were visiting their parents, and other relatives here during the first part of August. With Mr. and Mrs. Teeple Rhonda and Bill spent about a week over in Ruidoso, New Mexico during their vacation. When they left for home August 13, on Friday, they went to Arlington to visit her cousin, Mr. and Mrs. Mike and Arlaine Berkes.

Wednesday morning of last week, Sylvan Kinnibrugh's uncle, Mr. T.J. Couch who lived at Sherman, Texas died after a long illness. His funeral services were held at Vera and he was laid to rest there. Mr. and Mrs. Sylin and Bobbie Kinnibrugh attended the services there on Thursday.

Mr. and Mrs. Cecil Osborne, Sr. from Tulia arrived here at South Plains Sunday morning in time for morning

2nd annual Sportsathon begins Sept. 18

Exciting sports action returns to Plainview, as the 2nd annual Sportsathon Relay takes place Saturday morning September 18. Sponsored by the Nichols Health-Fitness Center and radio-station KVOP, the Sportsathon invites five-person teams from communities across the South Plains and Texas panhandle to compete in a relay race that will splash through water, ride and run over city streets, and rollerskate around a gymnasium floor before it's all over.

Each five-member team will consist of a swimmer, bicyclist, rollerskater and two runners.

Boys, girls, men, women and co-ed teams will compete in nine competitive divisions. Age divisions have been set at 17 years-and-under, 18 to 29, and 30 and over.

The relay race begins at the Plainview YMCA pool with each team's initial member swimming 150 yards. Teammate #2 will leave the YMCA as the swimmer finishes, running 1 1/4 miles to the Wayland Baptist University Campus.

Team member #3 will bicycle (2 miles) from WBU to the First Baptist Family Life Center where the fourth member awaits in rollerskates to complete a 10-lap course on the gymnasium floor.

The anchor-leg will be a runner who will return across town 2 1/2 miles to the

finish line at the Health-Fitness Center.

Team entry forms and additional information are available by contacting the Health-Fitness Center, 3019 W. 10th, Plainview, TX 79072 (806-296-5412). There is a \$10 entry fee. Individuals unable to secure teammates can contact the H-F Center in order to be paired up with others to form a team.

Individual trophies will be awarded to members of each division's winning team. The silver-plated Nichols Cup will be presented to the team representing a Plainview business or industry that posts the best time. Many other awards will be presented to participating teams.

Teams from the same division will be grouped in heats beginning at 8:30 a.m. The course will be well marked with traffic control provided by the Plainview police department. The awards presentation is set for 10 a.m. at the Health-Fitness Center following the

competition.

According to Sportsathon Director Tom Siekmann, this years Sportsathon "will be more spectacular than last year" when 24 teams raced the clock and rival competitors through the five events.

"The Sportsathon Relay first of all is exciting fun for all participants and spectators, secondly it is a race," commented Siekmann. "It is a natural group activity for school clubs, church groups, co-workers and sports enthusiasts. Many enjoyed forming the team, and selecting a team name (some even put together 'uniforms') just as much as the competition itself."

(A final note: UIL officials in Austin were contacted and high school athletes can participate in the Sportsathon without jeopardizing their athletic eligibility.)

Ex-County residents enjoy 13th Annual Picnic

For 20 years, Southwestern Public Service Company has sponsored Future Farmers of America (FFA) electricity workshops. This year, 82 FFA boys and one FFA girl participated (She was Kathy Karber of Booker, Texas, the first girl ever to attend the workshop). The students learned how to wire buildings, how to install and use electric controls, or how to build electric motors. The five top students won SPS-sponsored trips to the National FFA Convention in Kansas City, Mo., in November.

Glenn Bickel, Agricultural Engineer, Plainview.

Anytime you see a downed electric power line, report it to SPS. Don't touch it. Let professional linemen — SPS employees — handle the problem. Sometimes a downed line will appear to be safe. Someone who doesn't know what he's doing may touch it or pick it up.

Ray Juarez, Lineman Journeyman, Artesia.

There is no guaranteed profit for regulated electric utilities. Investor-owned companies like Southwestern Public Service Company are allowed to seek a fair and reasonable profit, but there are no guarantees. Last year, for instance, SPS was authorized by the Public Utility Commission of Texas to earn an average 10.76% return on equity. The actual return was 8.35%. What we were able to earn for our shareholders was retained because we work hard to keep all our expenses down.

Wheels turn for children's lives

Wheels are turning to help save children's lives...St. Jude Children's Research Hospital is proud to announce that Mrs. Jo Bryant has been named to lead the 1982 Fall Bike-A-Thon in Floydada.

Clifford Damstrom, St. Jude Director of the Southwest Region, stated that "We are extremely proud to find such dedicated people for this very important job."

"St. Jude Children's Research Hospital is the largest childhood cancer

research center in the United States, and it is the first research center dedicated exclusively to the research and conquest of catastrophic diseases of children, such as cancer and other life-destroying diseases." Damstrom stated. "When St. Jude accepted its first patient in 1962, the survival rate for children diagnosed with acute lymphocytic leukemia was less than 5%. Today, the disease free survival figure for children has grown to over 50%. Cancer Treatment procedures that originated at St. Jude are now being used

to treat children throughout the United States and in other parts of the world. Such progress has brought world-wide acclaim to St. Jude."

"Children come to St. Jude for one purpose: A Chance To Live!" Damstrom stated. With the wheels turning in this Bike-A-Thon, you will be making it possible for these children to have a chance to live! You will make it possible for daily treatments to continue. You will enable basic research into the cause and cure for cancer to continue. Make your wheels turn in this bike-a-thon!

Danny Thomas, who founded St. Jude Children's Research Hospital because of a vow, stated its purpose clearly: "To wipe catastrophic diseases of children from the face of the Earth."

"Since Thomas opened the research center in 1962, his dream of conquering cancer and other diseases that destroy our children has been brought closer to reality," stated Damstrom. "Thomas is still extremely active in pursuing this goal, and he inspires all of us in this cause."

The Bike-A-Thon in Floydada is scheduled for October 9, 1982 with a rain date of October 16, 1982. Details of the bike ride will be announced later.

Operation Motorcide, September 3-6

Major C.W. Bell, Regional Commander for the Texas Department of Public Safety in Region 5, said. "The Labor Day holiday period is the time for the last trip of the summer. While the Texas driver is preparing his holiday plans, the Texas Department of Public Safety is preparing to save lives and prevent injuries on the streets and highway of Texas through Operation Motorcide."

Operation Motorcide is designed to focus attention on the increased dangers of accidents and deaths in holiday traffic. Operation Motorcide will begin at 6:00 p.m. on Friday, September 3 and conclude at 12 midnight on Monday, September 6. During this 78-hour period all available Department of Public Safety troopers will be on duty and will be especially aware of accident-causing violations—the two major vio-

lations being speed and driving while intoxicated.

Major Bell emphasized that the two phases: "Drive 55 and Stay Alive" and "If You Drink-Don't Drive And If You Drive-Don't Drink" will be of prime importance for all motorists to adhere to during the holiday period.

4-H'ers participate in exchange program

Mr. and Mrs. Kenneth Broseh and their children, Darlene and Earl, accompanied by six other members of the Lockney 4-H Club traveled by way of their suburban to arrive at the Miller County Extension Center in Tusculumbia, Missouri, Sunday, August 1.

Attending were local club members Rusty Teeter, Heather Holt, Matt Mitchell, Keith Hight, Lisa Terrell and Karyn Foster.

The exchange program which enabled the Lockney club members to visit Missouri had also made it possible for Missouri young people to visit in Floyd County in July of last year. Hosts for this year's exchange were the St. Elizabeth 4-H Club and the Barnett 4-H Club.

Monday and Thursday were family days. Host families planned activities for their guests.

The host families and their guests spent Tuesday in the Lake of the Ozarks area touring Bagnell Dam, after which a picnic at the Lake of Ozarks State Park was spread. Swimming and boating at Tom Loraine's boat dock followed in the afternoon, and the group attended Denny Hilton's Country Shindig Show in the evening.

Wednesday afternoon the group enjoyed swimming at the Eldon pool. The young people, staying at St. Elizabeth, the Brosehs and the host families had a barbecue at the Norbert Beck home Wednesday evening. Mr. Broseh showed slides depicting agricultural practices and scenes from Floyd County. Miss Beth Wheeler, from Green Hills Extension Area based at Milan, was also a guest that evening. She had accompanied the Missourians last year on their Texas exchange trip.

On their return trip the Floyd County young people and their sponsors stayed at Branson 2 days and 2 nights. They also took in the amphitheatre production of "Shepherd of the Hills", went across Suspension Bridge, and visited Silver Dollar City.

Heather Holt commented, "It was really fun getting to meet all the people. I particularly enjoyed getting to go to Branson. We had a blast."

"We learned they had a lot of hogs," Earl Broseh laughed. "Their agricultural life is a lot different (to ours). There is not much farming."

Mr. and Mrs. Broseh complimented the young people on their behavior on the trip. "We had a good bunch of kids...everyone of them. Some of them were younger than we had ever had on a trip of this kind for the that length of time, but we even had compliments on their behavior in restaurants. We were really proud of them."

The visiting group said Miller County, Missouri, was predominately a German-Catholic community with a culture all its own. They all agreed they had been well fed. Most of the Texans got to sample their first frog legs, as well as some other new dishes. "They are real cooks," Mrs. Broseh concluded.

AL HARRISON SHOWS A PUERTO RICAN SQUASH he grew in his back yard. It is about 34 inches long. The vine grew into a tree and the squash hung from one of the limbs. He said that when the squash first started growing it would grow as much as 3-4 inches overnight.

Deadline is September 15th for insurance

September 15 is the last day wheat producers can purchase All-Risk Crop Insurance protection on their 1983 wheat crops.

Crop insurance offers protection against all natural hazards. Policyholders can elect to insure up to 75% of the average wheat yield for their county.

They can select \$2.50, \$3.50 or \$4.00 as the price per bushel they want to be paid for any loss they may suffer. The USDA subsidizes premium costs up to

30%, depending on the level of insurance selected.

In many instances, producers who keep accurate acreage and production records can increase their coverage by proving wheat yields on their land, in recent years.

For complete information on how a wheat crop insurance policy can be tailored to fit your farming operation, contact your local crop insurance agent.

Farmers hold family night

A night of swimming, visiting and eating barbecue was enjoyed by all who attended the Silverton Young Farmer Family Night Thursday August 19.

Those attending were Calvin Shelton, Tobe Riddell, Clinton Dickerson, Abel Asebedo, Tommy Bullock, Jimmy Chappell, Fred Brannon, Mr. and Mrs. Fred Hill and Staci; Mr. and Mrs. Brad Ziegler and Trey; Mr. and Mrs. George Martin, Mr. and Mrs. Fred Minyard, Katrice and Anthony; Mr. and Mrs. Jerry Baird, Kerry and Kori; Mr. and Mrs. Donnie Perkins, Mr. and Mrs. Hand Baird, Russ and Carey; Mr. and Mrs. Aaron Younger, Mr. and Mrs. Rick Hester and children; Mr. and Mrs. Wayland Fitzgerald, Mr. and Mrs. Jeep Jarrett and James; Bill Reid, Mr. and Mrs. Wayne Stephens and Stephen; Mrs. Donald Perkins and Tonia; Mrs. Floyd Perkins, Scott and Stacy Chappell.

MR. AND MRS. KENNETH BROSEH took these seven Lockney 4-H Club members and their daughter Darlene on an exchange trip to Miller County, Missouri. From left to right is

Lisa Terrell, Karyn Foster, Rusty Teeter, Heather Holt, Keith Hight, Earl Broseh, and Matt Mitchell.

Agribusiness may soon qualify for loans

Garry Mauro, Democratic nominee for Texas Land Commissioner says "Many agriculture-related businesses in north and west Texas may soon qualify for low interest Small Business Administration Loans."

In order to qualify for SBA loans a county must be declared a disaster area. This declaration is made primarily to offset the effects of weather related disasters. Before low interest loans are granted in any county, a 30% reduction in cash crops must be proven. The Farmers Home Administration makes the determination that the reduction has occurred, which allows farmers to borrow money at low interest rates. Then the Small Business Administration may make loans to businesses in a disaster area.

Mauro explained that requests for a

disaster declaration for any county can be initiated at the county level by the County Judge. As of August 19th, 67 Texas counties had requested aid.

Many farmers say much of the cotton and grain that was replanted in west Texas looks good but they worry about an early frost.

Joe Cook, who lives south of Childress said recently, "My cotton would look fine if this was the middle of July, but it is the middle of August, what if we have an early frost?"

Mauro said the depression that has hit the farmer has now found its way into agriculture-related businesses. Many agribusinesses need long term, low interest loans to stay afloat.

Mauro concluded by saying that loans will help only if farmers and ranchers receive a fair price for their production in the future.

FmHA announces reorganization

The Farmers Home Administration (FmHA) in Texas has announced a reorganization of its District and County Offices. In the reorganization there will be a realignment of the counties served by the District Office in Lubbock.

Donald R. Perry, District Director, in Lubbock, said that the following FmHA

County Offices will now be under his administration: Plains, Brownfield, Tahoka, Crosbyton, Lubbock, Levelland, and Morton. Spur will be served out of the Vernon District Office, and Muleshoe, Littlefield, Plainview, Floydada, Dimmitt, Farwell, and Tulia, will be served by the new District Office scheduled to open in Plainview.

Perry said that the realignment of District lines will more equally distribute the workload of the employees of the State.

In announcing the reorganization, Mr. J. Lynn Futch, State Director, said that the aim of FmHA is to provide a sound credit program to rural people who are unable to obtain credit elsewhere, and to provide the servicing activities needed to insure that the loans are repaid. Mr. Futch also said that because of recent budget reductions and lower staff ceilings, the reorganization is necessary to reduce the number of FmHA offices in the State.

The reorganization will be effective September 5, 1982.

WANT ADS PAY!

J.W. Hodges, farmer north of Claytonville lost 15 yearlings and they were gone for over a month's time. In the meantime J.W. Advertiser in The Herald, even offered \$500 for information about where they might be.

J.W. was in The Herald last week and said a "found" advertisement in the Floydada newspaper led to his discovery of the lost cattle.

They were found about 17 miles east of Floydada, near Dougherty. Those cattle strayed some 55 miles, and we agree with J.W., he's mighty fortunate in getting them back.

When Your Freezer stops

Occasionally food freezers stop operating normally and foods may be thawed or partially thawed before the situation is discovered. What can be done when this happens?

Refreeze Food

You may safely refreeze foods that have thawed if they still contain ice crystals or if they are still cold - about 40° F. and have been held no longer than 1 or 2 days at refrigerator temperature after thawing. In general, if a food is safe to eat, it is safe to refreeze. If the odor or color of any food is poor or questionable, dispose of it. The food may be dangerous.

Foods that have been frozen and thawed require the same care as foods that have not been frozen.

Meat, including ground meat and poultry, that has any off-odor or off-color should not be refrozen and should not be eaten. The appearance of red meats is changed less than that of other foods.

Bacteria multiply rapidly in shellfish, vegetables and cooked foods. Spoilage often cannot be detected by odor. Do not refreeze any of these foods when they have completely thawed. If ice

crystals are still in the food, refreeze immediately. Even partial thawing and refreezing reduces the eating quality of these foods. If the condition is questionable, dispose of the thawed foods.

Thawed ice cream should not be refrozen.

Fruits usually ferment when they start to spoil. A little fermentation will not make fruits dangerous to eat, but it may spoil their flavor. You can refreeze thawed fruits if they still taste and smell good. Or you can use them in cooking and baking or for making jams, jellies and prepared foods.

Emergency Care

Generally, a fully loaded, non-functioning freezer will stay cold enough to keep foods frozen for two days if not opened. In a freezer with less than half a load, food will remain frozen for about one day.

If power fails or the freezer stops due to mechanical failure, keep the freezer closed except when adding dry ice. If normal operation cannot be resumed before the foods start to thaw, use dry ice or move foods to a locker plant.

If dry ice is placed in the freezer soon after the power is off, 25 pounds should keep the temperature below freezing for 2 or 3 days in a 10-cubic foot cabinet with half a load; 3 to 4 days in a loaded cabinet.

Place the dry ice on cardboard or small boards on top of packages and do not open freezer again except to put in more dry ice or to remove it when normal operation is resumed.

If it is necessary to move food to a locker plant, use insulated boxes, blankets or thick layers of paper to prevent thawing. Food which has been moved to the locker plant should be chilled to 0° F. before moving again after you food freezer is operating normally.

Clean your freezer before refilling. Freeze thawed foods quickly. Use refrozen foods as soon as possible.

To refreeze food at home, turn the adjustable temperature control, if your freezer has one, to its coolest position. When the current comes on again, the freezer will run continuously and food will refreeze quicker. Place the warmer packages against the refrigerated surface if possible, but place them so air will circulate around them.

After the food is well frozen, turn the

temperature control to its usual setting. If the freezer is too full, move some of the colder packages to the refrigerator, and return them gradually to the freezer.

When the Odor Remains

If the food spoils in the freezer, stubborn odors may result. Wash the interior surface of the freezer with soda water, using 1 teaspoon baking soda to a quart of warm water. If the odor persists try vinegar, using 1 cup vinegar to a gallon water.

If neither of these suggestions work, don't give up. Try using an electric fan for several hours to circulate air inside the freezer. Place a pan of activated charcoal into the freezer overnight to absorb odors. Then try another washing of the interior with soda water.

If traces of the odor still remain, this is not likely to affect the frozen foods which are securely wrapped in the freezer. If the odor is strong, sometimes leaving charcoal in the freezer for a long time will help.

Educational programs conducted by the Texas Agricultural Extension Service serves people of all ages regardless of socioeconomic level, race, color, sex religion or national origin.

Local & Yocal

Hi there all you folks out there in football land. My name is Local the fiercest forecaster in this fine Floyd football land.

The games I plan to forecast this year are the Lockney, Floydada high school games. The Texas Tech college games and the pro games of the Cowboys and the Oilers.

This week the Tech players are still trying to correct last years mistakes. The Cowboys and the Oilers are still playing preseason. I won't mess with them until they get down to business, if the players representatives and the owners let us view our favorite pastime this fall.

The one preseason game I will predict will be next week for the Oilers against the Cowboys.

Now that I have spread the word as I once started to do I will get down to the opponent, Yocal. As far as fancy football forecasters go, this one is not far.

This he or she or person will guarantee to mislead you throughout the season. Take my word and follow this fabulous forecaster through a season bound to find the pride of Lockney, the Longhorns, rebounding and have their best season in years.

The L.G. Whirlwinds will put together another squad of Mean Green. Now for this weeks fabulous forecasting.

Lockney takes on the lavender or purple Hornets of Tulia in Big L. This should be the first step of Coach Pursers first year as the leader of the Longhorns. Horns by 14. Come on Horns.

The south part of the county has a team of quality players that will meet and beat the Bobcats of Dimmitt. Green by 10.

Next week look forward to this column and you will not need to read Yocals column.

Greetings to all you football fans in Floyd County. I'm Yocal, the best darn football forecaster in these here parts - for sure! You catch my drift? You here me? Know where I'm coming from? Now this here Local fellow is 'bout as bright as a 25 watt bulb. Why he thinks a pigskin is something you serve with beer.

Now don't get me wrong. Local and I have been friends for quite some time, but when it comes to forecasting great sporting events, like the mighty Whirlwinds, the Lockney Longhorns, Texas Tech Red Raiders, Dallas Cowboys and those former "Bummers" (the Houston Oilers), well, all I can say is I don't really think his elevator goes all the way to the top.

If you want to come out on top in this year's gridiron, you better listen to someone who knows. Why, I've been scouting these "chere" teams for years and I got their moves down pat. Now take it from me-nothing these boys do surprises me. That comes from years of learning (education plumb to the 6th grade) and lots of experience in worldly matters. I'm a self-made fellow. Why I've been studying space for the past 10 years and all my friends have noticed too. They claim I've seen a lot of it. You know my spouse says the same thing.

As Yocal I'm a football forecaster deluxe. Guess who I am and win 10 bucks. I'm a Jack of all trades and a master of none. Most things I do, are strictly for fun. Yocal's predictions for September 3 are: Floydada by 7 over Dimmitt and Lockney walking over Tulia by 10 points. Tech has an open date. See y'all next week.

Jay Womack receives degree in Agriculture

Tarleton State University awarded degrees to 110 undergraduate and 117 graduate students at summer commencement on August 15. Two associate degrees in nursing were also awarded. Graduates included Virgil Jay Womack from Floydada who received a MST in Agriculture.

Retiring TSU president Dr. W.O. Trogon was commencement speaker. He will complete 16 years as Tarleton's chief executive officer on August 31, but will remain at Tarleton as a faculty

member on a part-time basis in department of Agriculture.

Dr. Frank W.R. Hubert, who will retire as chancellor of the TEXAS A&M University System on August 31, brought greetings to the graduates from the system. Clyde H. Wells, member of the board of regents of the Texas A&M University System and a former TSU student, was a special guest for commencement.

Summer commencement was held in Wisdom Gymnasium on the TSU campus.

Watch out for students

With the opening of schools, Texas drivers are strongly cautioned to be alert for students on their way to and from schools.

Motorists must exercise extreme care in school areas and along school bus routes. Texas law requires motorists to stop for any school bus loading or unloading passengers. To warn drivers, such buses will have alternately flashing red lights on the front and rear. Motorists must remain stopped while

these red lights are flashing. The Texas Department of Public Safety's statistics for 1981 showed there were 17 deaths and 925 injuries in 1,698 school bus-related accidents.

Safety officials say that drivers should also be alert at railroad crossings since school buses are required to stop, look and listen before crossing the tracks.

To remind drivers that special alertness is needed around schools and school buses, most cities will increase police surveillance.

In old England it was believed that a double hazelnut carried in the pocket would prevent toothache.

NEW BOOSTER SIGNS were distributed to the football players this week. The new format combined with the efforts of the team and the coaches under the influence of the new system, combined with that T-N-T power will make that winning combination.

Coop holds meeting

The Lockney Cooperatives held their 25th Annual Meeting in the Elementary School Cafeteria Saturday night, August 28.

About 175 members and guests attended the dinner meeting. Paul Schacht was master of ceremonies for the gathering. Mary Huffman provided the dinner music.

Hal Sandefur from the firm of Sandefur and Swindle gave an audit report to the membership, stating they were in good financial standing.

A manager's report was given by Gail Kring. He reported on the construction and remodeling phase of the plant. After the addition of a universal density press, he said they might be looking at only 3 to 4 thousand bales of cotton this year. He predicted that only one plant would be used this year due to the light harvest. Some upgrading of the gin stands at South Plains had also been done to increase capacity along with the moving of a ginning module.

Kring also reported the Cooperative had warehousing sufficient to take care of the corn and soybeans from this year's harvest. A contract might be forthcoming on sunflowers.

James Morris gave a report of the nominating committee. Ray Gant of Aiken and Warren Mitchell were nominated for the place-at-large.

John Lee accepted the nominations. Morris, J.R. Belt, and Jim Bert Bobbit collected counted ballots cast by the attending members. Gant was elected to the 3-year term to serve with other

board members Paul Schacht, George Taylor, Charles Huffman, and Nathan Johnson.

A nominating committee was named for next year: Johnny Lee, Tom Coffman, Duard Reeves, John Lee Carthel, and Royce Latimer.

Charles Huffman made a special presentation to his father, C.H. Huffman, upon the cooperative having paid out over \$7 million dividends in the past 25 years. Huffman was recognized as a loyal, longtime patron of the coop.

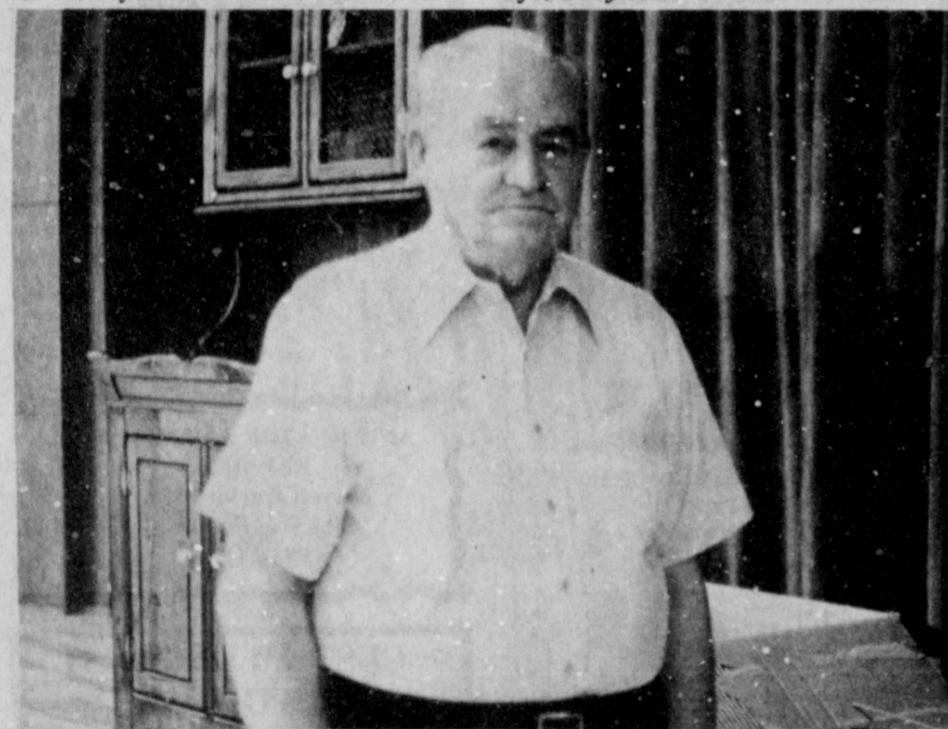

After-dinner speaker Michael Brown, a native of Hugo, Oklahoma and anchor man associated with WFAA-TV station in Dallas, spoke to the audience on prospectives and attitude.

He and his wife, a writer of paperback novels, have two children, Rachael 9 and Ryan 7.

The guest speaker kept the audience well entertained with his stories of his experiences as the husband of a writer, the father of two children, and a speaker with a hectic schedule.

The speaker concluded his talk with a speech on Americanism that will be found at another location in this issue of the paper.

Door prizes were drawn at the conclusion of the meeting. Jenny Lee, granddaughter of Mr. and Mrs. Johnny Lee, did the drawing. Orville Billington was the winner of a chainsaw; Charlie Atkins, a food processor, Duard Reeves, a clock; Vernon Gross, a color TV; Grigsby Milton, a brass chest; and J.M. Tye, a dry sink.

good character and possess poise. Entrants will model a sportswear outfit and a formal of their own choice. Deadline for filing is Saturday, September 4. Rehearsal will be held that same day at 2:30 p.m.

Lockney games to be filmed in color

The Lockney Quarterback Club met Tuesday night in the Homemaking Department of the high school.

A special meeting has been set for next Monday night. Every athlete, accompanied by both his parents, will be individually introduced that night by his coach to the Quarterback Club.

The Club agreed to hire a student from the Tech Medical School of Lubbock as trainer. He will be at Lockney every Friday at 5 p.m. to treat any Junior Varsity or Freshman injuries and will accompany the Varsity team to their game that night.

The filming of the Lockney Friday night football games will be done in color this year. It was felt that color would prove advantageous in several areas.

The club presented all of the athletes with their new booster signs this week for display in their yards. A new format for the signs was adopted this year since the same style had been used for

several years, and the new coaching staff has sparked many "firsts" with the team, supporters, and fans.

Pictures of the varsity players will appear in the windows of the downtown merchants this year also.

Raffle tickets are available at present to be purchased for chances to win a Garcia Ambassador 5500 C Reel and a Fenwick Boron 5'6" Rod to be given away at the October 1 game. Tickets are selling for \$1.50.

Later in the season tickets will be sold for chances to win a 12 gauge 870 Remington shotgun. It will be given away at the November 5 Childress-Lockney game. Those tickets will sell for \$2.00.

The Quarterback Club would like to invite all the Lockney community residents to join in the first pep rally of the new season which will be held Friday afternoon at 3:15 at LHS. Everybody come!

Farm Bureau held annual convention

More than 100 guests and members attended the Annual Floyd County Farm Bureau Annual Convention. After invocation by Larry Schriener and pledge of allegiance by members of the Floydada Boy Scout Troop, County President Delmas McCormick welcomed and introduced the guests.

The 1981 minutes were read by Kenneth Pitts and were approved. Pitts also gave the Financial report.

Seminar students LaDonna Heflin and Tracy Harrison spoke about the seminar they attended. LaDonna thanked the Farm Bureau for sending them and said "we all enjoyed it." Tracy said that even though the U.S. farmer has his problems, it is better than trying to farm in other countries.

Ricky Martin, Floydada Firefighter, was sent to the fire school at Texas A&M University by the Farm Bureau. He said that the school consisted of basic pumper operation, proper method of forcible entry, the proper use of air packs and a slight idea of how overhead sprinkler systems worked.

They also learned some public relations. He said that this was important because fire fighters in the past have had the reputation of coming in the front door and washing everything out the back door. They have better ways of fighting fires today.

James Race, agency manager gave the manager's report. He introduced the staff and gave sales statistics.

Ricky Mosley gave the membership

report stating that the membership was up from 818 to 904 members. He said that this is the first time the Farm Bureau has had over 900 members.

After the Tasco report by Dan Smith, Delmas McCormick opened the business session by the nominating committee report by A.C. Pratt. Nominees for directors were Martin Stoerner, John Quebe, Craig Gilly, W.R. (Raz) Ware, Doug Galloway, and Jerry McGuire.

Martin Stoerner, Craig Gilly and Doug Galloway were elected directors.

D.K. Jackson presented the resolutions for the Farm Bureau. The only proposition that failed was the state resolution that stated that the Texas Farm Bureau president terms be limited to three consecutive terms. Two of the national resolutions passed after being amended.

Ken Campbell drew the winners of the door prizes. Alice Mitchell and Wes Brown won two automobile tires each.

Carroll Chaloupka, president of the Texas Farm Bureau made some closing comments. He said "We don't need a tax increase, we need to stop deficit spending."

He urged the citizens to "twist the arm of their congressmen" to get results. If the congressmen do not listen, it is time to get new congressmen.

He also urged the members to be good citizens and vote and "get yourself informed."
