## Chamber of Commerce Banquet to feature humorist

Hartsell (H.H.) Haws, a humorist, will be the keynote speaker at the Chamber of Commerce Banquet. The annual banquet will be held Thursday March 10, at 7:00 p.m. in the Lockney Elementary Cafeterium.

Haws is a speaker who uses humor somewhat as a positive tool of motivation to inspire people to become all they were created to be -- a complete person who is helping others prepare for the twenty-first century.

The humorist, motivator, teacher, and author is one speaker who can take research and communicate the important facts in a practical humorous way.

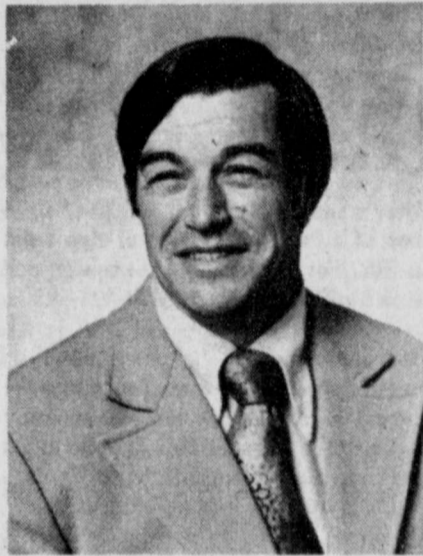

A graduate of Southwestern State University in Oklahoma, Haws received his master of counseling degree from the Southeastern State University in Oklahoma and has done graduate studies in supervision and personnel management at East Texas State University.

Haws was born in Altus, Oklahoma. He and his wife have two children. He is active in church and various professional organizations. He enjoys horseback

riding, exercise, reading and youth activities.

As an All-State football player in high school, Haws went on to coach a regional winning team.

He has been a member of Interna-

HARTSELL (H.H.) HAWS

tional Platform Speakers Association and the National Speakers Association. He has won the Keynote Speaker's Award at the National Conference. In addition, he has owned and operated a consulting firm for the past eight years.

Haws is the author of three books: "Evolution of a Texas Redneck," "An Approach to Drug Education," and "Systematic Discipline."

As a person who is making a positive contribution to education and business in America, he has appeared at graduations, student assemblies, business conventions, and civic clubs to laugh his way into the hearts of people, to challenge them to be "a part of the solution, not part of the problem."

Approximately 30,000 students, 10,000 school staff personnel and

thousands of business and community leaders have listened and laughed at the lectures and workshops given by this individual. He has stood before groups from Chicago to Dallas and from Phoenix to the Bahamas.

Most anyone who has heard him will tell you there is no way to remain the same once you have listened to this dynamic motivator with "a vital mes-

sage with a sense of humor...and more."

Other highlights of the banquet will include the naming of the Outstanding Man and Woman of the Year.

Make your plans to enjoy this impressive speaker at the Chamber of Commerce Banquet March 10. You will be glad you did.

## Hospital received three sizeable donations

Thursday night, January 27, the regular monthly meeting of the Lockney General Hospital board was held in the hospital boardroom. In attendance were Rusty Baccus, president; Chester Carthel, vice president; Kenneth Tate, secretary; and Hubert Frizzell, member. Others in attendance were Dr. Gary Mangold and Guy Hazlett, administrator.

The board approved the December minutes as printed.

In the administrator's report, a new pharmacy contract was announced and agreed upon by the board effective June 5, 1983. Megaron Systems, Inc. will be the new pharmacy management contractor. The contract will provide a savings to the hospital of more than \$30,000 per year over the previous 12-month period for the term of the three-year contract.

A budget progress report was given by department. All of the departments were within, and most were under, their budget figures. Bad weather has kept revenues below budget.

The board was given the goals and objectives for each department. Each department director had written from 10 to 12 goals to accomplish during the 1982-83 fiscal year, ending September

30. The department heads will be evaluated according to the realization of these objectives.

Among miscellaneous items discussed was the hospital parking areas. The topic was tabled for a month until estimates could be obtained for paving and graveling. First estimates obtained set graveling cost at some \$1700.

The board approved a bid from Pat's Electric in Plainview of \$1381 to install low sodium lighting on the west side and southwest corners of the clinic. Initial work was to have begun last Friday with two additional days required to complete the work, but inclement weather has slowed the progress on that work. The lights will be connected to an emergency generator for a backup when there is a power failure.

Looking forward to the April 2 election, the board discussed recommending candidates who would be qualified representatives of the community. Chester Carthel has served his third full term. Rusty Baccus and Kenneth Tate are serving the second of their second term.

The board is pleased that they have received three sizeable donations in the past 4 or 5 weeks.

The Il Penseroso Junior Study Club has pledged \$2400 toward a new incubator to be used in the delivery room and the nursery. The incubator was ordered from the Ohio Medical Products Co. and delivery is expected in 6-8 weeks.

\$2500 has been pledged by the Hospital Auxiliary for a Lifepak 4 defibrillator/monitor. It was ordered about 4 weeks ago from the Physio-Controls Manufacturing Company in Arlington, Texas. The sophisticated piece of equipment will be portable enough to be carried like a suitcase. An EKG can be run with a tape print out. In case of a cardiac failure, it will be simple to operate. The demonstrator model with a full guarantee had an original price of \$6500. The hospital was able to obtain it for a purchase price of \$2500.

These two donations came on the heels of the donation of the screen and the Bell and Howell 16 mm projector donated by the Lockney Rotary Club the later part of December. Films are on order to be shown in the coming months for the extensive education of the employees.

Upon reviewing the financial statement the board approved it as printed. The December financial statement showed revenues from patient collections alone to be \$79,000 with the month's expenses at \$86,000. With the hospital operating at a break even status for the month of November and near that point for December (revenues exceeding expenses by only \$7,000) Administrator Hazlett points out that they are pleased their operation is in a "stable financial condition." We have had considerable success in controlling expenses."

Two reasons were given for the economical management of the hospital in recent months: Expenses have been reduced significantly by about \$85,000 a month due in part to savings in personnel time and significant discounts from major vendors on their account. The hospital belongs to the Hubbard-Lake Hospital Group Purchasing agreement, which, by a semi-annual contract, affords the hospital 100 discount contracts on supplies. Hazlett was quick to add that every \$1 the hospital can spend wisely is spent locally with local merchants.

Collections have remained good. \$140,478 taxes have been collected year-to-date of the \$210,000 total. Hazlett said the Central Appraisal District office had "done an extremely

outstanding job and that the hospital board had nothing but praise for the office and Sheila Fortenberry and their efficiency in getting tax rolls out, etc."

The board's delinquent office in Amarillo has also been successful.

The next meeting time will be Thursday, February 24 at 7:00.

MARY L. McCRACKEN

## Lucky lady shows off inauguration invitation

Mary L. McCracken, aunt of Mary Polk, successful candidate for representative from the 73rd District in El Paso, is holding her engraved invitation to the inauguration held in Austin January 18:

It read: "The Inaugural Committee requests the honor of your presence to attend and participate in the Inauguration of Mark Wells White as Governor of the State of Texas and William P. Hobby as Lt. Governor of the State of Texas on Tuesday the 18th of January, 1983 in the City of Austin." with the impressive Seal of the State of Texas at the top.

Mrs. McCracken's parents received an invitation to the inauguration in 1912 when Governor Colquitt was inaugurated. Since Mary was born within a few short months of that time, she would have been named for the governor if she had been a boy. It was not until her brother was born a few years later that they were able to make use of the name "Colquitt."

ALL-REGION BAND members of the Lockney High School Band included Paul Castro, junior, 4th chair - baritone; Jason Hill, junior, 1st chair - trombone; Coy Holly, freshman, 6th chair - alto saxophone; Terra Mangum, senior, 15th chair - clarinet; and Betty Kay Cates, sophomore, 13th chair - clarinet. Their competition was held in Lubbock the early part of the month. They played in the All-Region AAA band Saturday night at Monterrey High School in Lubbock.

## Tournament proceeds to go for hospital equipment

A bridge tournament and luncheon will be held Friday, February 25 from 9:30 a.m. to 3:00 p.m. in the American Legion Hall in Lockney. The event will be sponsored by Il Penseroso Junior Study Club.

Tickets will cost \$7.50, with all proceeds going to purchase an incubator for Lockney General Hospital.

This incubator has a sealed heating unit with controlled humidity. It will be

used to transport newborn infants from the delivery room to the nursery where they will be kept for the first few hours of life.

Prizes will be given to the winning partnership, and drawings for door prizes will be held.

Anyone wishing to enter or request more information may call Lisa Mosley at 652-2569.

In case of inclement weather, the tournament will be held at a later date.

# CRIME STOPPERS

Drug traffickers are robbing our kids of their future. Over 17,000 Texas high school seniors are daily drug users . . . an alarming statistic that merely scratches the surface.

Kids from age twelve to seventeen are the victims. Their innocence earns these criminals easy money. Now is the time to shut down this business in Texas. It won't be easy. Dealers are just the bottom of the drug dealing pyramid. These pushers get their drugs from the kingpins . . . those at the top of the network . . . the drug traffickers.

Drug dealing to minors is a hideous crime and those criminals must be stopped. A joint effort by law enforcement and concerned citizens is necessary in declaring war on drug traffickers.

There are no absolute answers but a major step has been taken. A statewide anti-

crime hotline is answered 24-hours a day. This hotline is designed to aid law enforcement in a crackdown on drug traffickers.

For the month of February, the Crime Stoppers Advisory Council is focusing its statewide "Crime of the Month" on drug trafficking. Any citizen having information about major drug trafficking is asked to call Texas Crime Stoppers at 1-800-252-TIPS. Cash rewards are available for information leading to the arrest and indictment of criminals. Citizens do not have to reveal their names, just their information, and they will be given a unique code number for identification purposes.

Call 1-800-252-TIPS today with any information on major drug trafficking in Texas. Help stop this growing menace to young people of our state.

# Taxes to be withheld from savings

The United States Congress recently passed a law that will affect most savers in the nation.

Under this law all banks, savings and loans, money market mutual funds, credit unions, mutual savings banks and other payers of interest or dividends will be required to automatically withhold ten percent of the interest and dividends earned by their customers and transmit this amount to the IRS.

Savers already have to pay income taxes on earnings, but the IRS wants to take ten percent of the total interest in-

advance.

Banking officials say this rule is wrong because of the following reasons:

- 1) Withholding will cut the amount of cash the saver will have available during the year from interest income.
- 2) The amount withheld may not be correct for your tax bracket. If over withholding occurs, savers will have to file for a tax refund to get back their own money.
- 3) Total interest earnings will be reduced because of less income from reinvestment and compounding.

4) Elderly persons and low income individuals (including children) will have to file an exemption certificate for each and every account they have in order to avoid withholding. If the exemption is not filed in time, a tax return must be filed the next year, or the withheld money will be forfeited to the government.

Unless Congress acts to stop the withholding rule, it will go into effect on July 1, 1983. Area banks are working to do away with the rule. They are asking for help from the citizens saying "it's

your money."

Citizens are asked to call or write their Congressman and U.S. Senators, urging them to repeal this law. The local banks have more information.

WARREN MITCHELL, James Race, Sheriff Fred Cardinal and Dan Smith watch as Judge Choise Smith signs Farm Bureau Week proclamation.

# TFB proclamation signed

The Texas Farm Bureau is 50 years old this year, and County Judge Choise Smith has signed a proclamation designating February 7-12, 1983, as FARM BUREAU WEEK in Floyd County in recognition of the observance. "For the first time in its history, the TFB is now the largest state Farm Bureau in the nation with more than 300,000 member families enrolled," the proclamation reads.

"The Farm Bureau is a grass-roots organization, and its foundation is the county Farm Bureau. There are 216 organized county Farm Bureaus in the state, including the Floyd County Farm Bureau," the proclamation states.

The local county Farm Bureau has over 900 member families and is seeking to exceed that figure in 1983.

The week is part of a state-wide observance during which county Farm Bureaus will make a special effort to enroll new members according to Dan Smith of Lockney, president of the Floyd County Farm Bureau. As part of the local promotion, the Texas Farm Bureau in conjunction with the Floyd County office is donating carpet and padding (acquired in a recent insurance adjustment) for installation in the Floyd County Sheriff's offices.

The Farm Bureau is a general farm organization that seeks to improve income and living conditions of farm and ranch families. It represents the farmer and rancher at the local county courthouse, at the State Capitol in Austin, and in the nation's capital, Washington, D.C.

# Form 1040 Tax Kits offered

The Floyd County Library has available for distribution to the public the 1982 Form 1040 Tax Kit. This kit contains a selection of tax forms, instructions and publications that deal with a few of the most common reasons why a taxpayer must switch from filing a short form to filing a Form 1040.

The Library also has instructions on how to obtain forms or publications which are not included in this kit. For more information, call or drop by the Library.

The Floyd County Library is displaying a new collection of paperback books in Spanish for immediate check-out to the residents of Floydada and Floyd County. The collection features popular

novels, mysteries and westerns as well as child care manuals and "how to" books for help in the home and the workshop.

Sandra Crawford, librarian at the Floyd County Library, hopes that these Spanish language paperback books will serve adult residents and students in the community who cannot find reading materials in Spanish, locally. A new assortment of Spanish paperbacks will be featured every two months, so that patrons will always have fresh material to choose from.

The Floyd County Library is open Monday through Friday, 8:00 a.m. to 5:00 p.m. Tuesday hours remain from 10:00 a.m. to 7:00 p.m.

## By Mrs. J.E. Green

Jan. 31, 1983:

We are having another foggy morning. But Sunday morning church was well attended and dinner at Calvary was served by the young people.

Unpaved streets and roads are still awful.

The Henry Brewers are staying in and no visitors over the weekend.

The Mayfields are staying in. Her broken arm has been in the cast since the day after Christmas, slowly healing.

Hal Thomas' family, Sue and Milton Mensch and boys of Lubbock visited him Friday and Saturday.

Betty Jo Sims Horton of Alvin reports that her eyes which have been bothering her lately are reported improving.

Mrs. Clarence Ashton, Lockney Rest Home, is about the same.

# 4H - FFA News

The Floydada FFA sent four students Sunday, for this show. Those participating are Marty Covington, Shannon Shubert, and Kevin Helms with lambs. Garland Easter will be showing pigs. Rodney Purswell, ag teacher of Floydada High School, went as supervisor.

Those showing steers from the Floyd County 4-H are Mitch Ross and Dusty Burleson. Richie Crow, Floyd Co. Extension Agent, went as their supervisor.

Sheep and steers can be brought back (if so desired) to Floydada to be shown in the Floyd County Jr. Livestock Show. Pigs are not allowed to return, due to the health factor of these animals.

# IRS information

Editor's note: The following is part three of a four-part series of tips from the IRS. For additional information call the IRS office toll free 1-800-492-4830.

If you choose to have someone do your federal tax return for you, the Internal Revenue Service advises that you take the same pains in making a wise choice as you would in choosing a doctor, lawyer, or any other professional, since the only person who is ultimately responsible for your tax return is you.

The IRS offers these suggestions on

how to select and what to expect from a preparer.

\*Taxpayers should not sign a blank return, nor one which is partially completed, nor one prepared in pencil.

\*Preparers should be asked to sign the return in the taxpayer's presence and to give his or her identification number, as required by law.

\*The taxpayer must be given a copy of the completed return.

\*Preparers who promise a refund, claim a special relationship with the IRS, or boast of ways to beat the tax system should be avoided.

# Slaton victorious over Lady Horns

Lady Horns met their first district defeat Monday when Slaton came to battle for the first win in the district play off between the two top teams.

Lockney's Coach Haynes states "The girls played well and hustled, but couldn't get the shots going. Against a team like Slaton you have to have everything going for you, not just a few things." Final score was Slaton 38 Lady Horns 35. High pointer was Connie Coffman with 15, followed closely by Karen Mathis.

Thursday's game with Idalou was overpowered by the Lady Horns to win 72 to 46. High point girl was Connie Coffman with 20 and running a close second was Shawnda Brock with 17.

Friday's game with Childress looked like it would be a peaceful game for the Horns with a 20 point lead at the half. Childress came back fighting, for every score, but ran out of time with a final score of 52 to 46. High point was

Shawnda Brock with 15 points. The Horns are on the second round of district games and are holding a second only to Slaton, who they will face again in the last district game.

The last week was busy with some made up games and with those games

Coach Haynes picked overall player of the week. Karen Mathis on offense with a total of 39 points for the 4 games and alot of work. Defensively for the past week's games was Karyn Foster, who came up with 20 rebounds and some outstanding plays.

CONGRESS WANTS A PIECE OF YOUR SAVINGS.

# WHAT THEY NEED IS A PIECE OF YOUR MIND.

Recently, Congress quietly passed a withholding law that will cost American savers and investors the use of 10% of their interest and dividends.

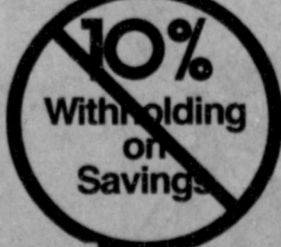

In simple terms, effective July 1st, 1983, this new law requires banks and other financial institutions to deduct 10% of the interest or dividends you earn on your savings and investments. That money then goes to the Internal Revenue Service in much the same way as payroll deductions are now handled.

The sponsors of this law have told us it was designed to catch a small minority of Americans who evade taxes on their interest and dividends. But the truth is the law penalizes the great majority of America's savers and investors who pay their taxes faithfully. What's more, the federal government is now receiving all the necessary information to curtail tax cheating.

Though the law does include exemptions for some low income and elderly Americans, if they go through the red tape of filing an application, most savers and investors will forfeit some of the money they could earn in compounded interest.

We urge you to join our efforts by writing letters to your representative in Congress and to the two senators from this state. Tell them you want the 10% withholding tax repealed, because it would impose an unfair penalty on savers like yourself.

For assistance in contacting your representative and senators please ask any of our bankers. If we all act now, Congress will get a clear message from the voters back home, and they will work to repeal this needless law.

Help Repeal A Bad Law.

Its easy with our new IBM computer. Stroud Crop Insurance has programmed this machine so that we can help you understand more about your crop insurance options in a half-hour than you could in a week using pencil and scratch pad.

In a few minutes you can compare any level of multi-peril insurance with pure hail insurance, using any combination of losses, and then you can see how Stroud's new "35/70" supplemental hail insurance endorsement may be used to eliminate many of the objections of the multi-peril policy. This "35/70" endorsement isn't available from any other agent in the area and is especially attractive where a low guarantee has prevented you from carrying Multi-Peril in the past.

After we answer your questions we will print out the examples for you so that you can refer to them later instead of having to rely on memory.

## By Joyce Williams

Mrs. Joe Thurston returned home Tuesday after staying in Lubbock for a week with her daughter Johnnie Ward and son-in-law, Jack Ward and their little baby daughter, Leah Marie, born January 18.

Mrs. Roy Fawver and Mr. and Mrs. Bill Anderson drove out Sunday afternoon for a visit with their niece, Mrs. Grady Dunavant. Melvin Dunavant and sons, Dahl and Shane had arrived for lunch. Miss Rebecca Redding came over to visit them all in the afternoon, uncles, aunts, cousins and grandparents.

Mrs. Smoky Quilantan and children took Smoky to Plainview for a birthday dinner Saturday.

Mr. and Mrs. Odell Breed were hosts to the Breed family during Christmas. All met at Janell and Odells for supper. Guests included Ray and Ella Lloyd; Melvin, Janet, Terri and Karen and Mary Lloyd; Frank and Helen Breed; Rex and Joy Breed, all of Floydada. Also Don, Jeanie, Tammy, Cheryl, Tracy and Bruce Lloyd of Abernathy, Beverly Knight and Lori of Pineland, Texas; Pam Rogers and Kallie of Crosbyton; Jodi Breed of Tullia; Bobby, Dorothy and Delwin Britton of Earh; Mitchell Britton of Ropesville; Jerry, Shirley and Brody Towler of Lubbock; and Mike, Carole, Linda and Ryon Breed of Portland, Texas.

Mr. and Mrs. Dean Watson and children visited in Childress recently with Brenda's grandmother, Mrs. Vida Bumpass.

Mr. and Mrs. James McGaugh and daughter Marlis enjoyed a respite from the snow and muddy country roads. They stayed at the Koko Inn in Lubbock from Thursday through Saturday while Marlis and other Floydada Junior High Band students participated in the All Regional Band contests.

Judge and Mrs. Choise Smith and children, Jody, Dean and Hunter stayed Friday night in Lubbock with Mr. and Mrs. Flukie Smith. On Sunday Choise helped Jodie prepare her 4-H steer for the El Paso Livestock Show. Jodie had the misfortune to get her foot stepped on by her animal, and had to be taken to the emergency room at Caprock Hospital for treatment Sunday afternoon.

Mr. and Mrs. Wayne McHam and sons visited her mother, Mrs. Alvin McHam, in Floydada after church Sunday evening.

Relatives who came out to watch the Superbowl football game on t.v. Sunday with Fred and Joyce Lloyd included Mr. and Mrs. Greg Williams, Nathan and Shelly, who spent Saturday night, and Mr. and Mrs. Lee Keesee all of Lubbock. Nancy and David Barker of Floydada came out Sunday afternoon.

Mr. and Mrs. Connie Reed, Darlene and Kelly, came from Panhandle for Sunday lunch with their daughter and family, Connie Lou and Randy Bertrand, Angie and Misty. They left early enough to get back home in time to watch the Superbowl game.

Mr. and Mrs. Mike Bishop came out Sunday evening to visit Nancy and Howard Bishop.

Greg Bishop and Gary Nixon visited Mr. and Mrs. Odell Breed and played 84 last Friday evening.

Mrs. Viola Brown visited her daughter, Mrs. Billy Joe Hambricht, Saturday afternoon. Mrs. Kathy Green and little daughter Heather, were there from Lubbock.

The snow has melted, but, oh, these muddy roads! Twenty-four inches of moisture from back to back snow storms in January all soaked into the ground. Four wheel drive vehicles are an absolute necessity to negotiate these country roads. Repair shops and garages are busy working on pick-ups that have been strained by all this mud-pulling, to get school children to the payment to catch the school buses to get the working women to the pavement to get to their jobs in town; and to haul hay to cattle. All cattlemen are hoping the cotton gins in surrounding towns will continue to supply them with cotton seed pellets to feed their cattle, in spite of the short supply this year due to a small cotton harvest.

Pete Barbosa, Jr., sixteen year old son of Pedro Barbosa, was rushed to Plainview Tuesday for emergency, eye treatment for glaucoma at Central Plains Hospital. Pete's vision failed in the classroom and the school notified his father who took him for treatment.

About bus time that evening Smoky Quilantan noticed all the other Barbosa children waiting in the snow by the Lakeview Gin office. Knowing Pedro was in Plainview and the bus was unable to travel the muddy road to their home on Hilary Polvador's farm, Smoky took the boys to Odell Breed's. Odell's was the only 4-wheel drive vehicle on the pavement that wasn't in the repair shop, and he kindly took the boys home.

Thursday evening, Andy Goodwin of Idabel, Oklahoma, came by to visit his parent-in-laws, Mr. and Mrs. Q.D. Williams. He was on his way home from Carlsbad, New Mexico. Andy raises cattle and also broilers on their ranch between Idabel and Broken Bow. Every eight weeks he sells off four chicken houses of broilers, cleans the premises and gets ready for the next batch. The three week interval is his only time to get away for a look at the rest of the world. Something like running a hog operation, twenty-four hours sometimes. Andy was driving a new one ton pick-up, but left it at the Lakeview store in respect to the muddy four miles to the Canyon. Just as he and Q.D. arrived at the house, the phone rang and the Plainview hospital said Pete Barbosa, Jr., had taken a turn for the worse and the doctor wanted to operate that night. So they went back through the mud to get Pedro, Sr., and take him to Plainview to be with his son. The boy will remain there for some time to recover. His mother, Margarita, of Post, Texas, is also with him. Mr. Barbosa does day work for local farmers in good weather and works at the Lakeview gin. It did not open for ginning last fall.

Carlos Riojas, who live where the Roy Fawvers formerly lived, and who took his tractor and blade and scraped the snow off the road all the way to the store last week. The dirt road was clean, soon got dried out, and the mailman and people of the area were able to get in and out over that part of the road.

Mr. and Mrs. Odell Breed visited last Sunday in Paducah with his aunt, Mrs. Linnie Willis. On Thursday they were in Lubbock to see their daughter, Shirley and family. And this past Sunday they went to Levelland to help Odell's aunt, Mrs. Ruth Breed, celebrate her 75th birthday. Mr. and Mrs. Bobby Britton of Earh, were also there. The honoree son, Joe Rosser, had flown from Seattle, Washington, to be here for his mother's birthday. Her husband, Joe, took everyone out for Sunday dinner.

Little Master Jason Harrison has had the flu, reports his mother, Mrs. Rex Harrison.

Mr. and Mrs. Howard Bishop shopped in Lubbock Saturday and met Mrs. Elton Brian at the Mall. She told the Bishops she planned to go to Ft. Sill, Oklahoma this week to stay with her little granddaughter, Amanda, daughter of Monte and Kellie Williams. The little girl has been ill, with ear infection and Kellie is finishing her work at Cameron University in preparation for student teaching, so Kay will look after the baby for awhile.

Mr. and Mrs. Dean Watson visited at Methodist Hospital over the week-end with Mrs. Dee Moses and new son, Daniel Justin, born Friday, January 28. He weighed nine pounds. They have another son, Jeremy, in Duncan school. Miss Amanda Watson and other Brownies are selling Girl Scout cookies this week. Give her a call if you want a box of the treats.

Mr. and Mrs. Q.D. Williams and grandchildren, Ashleigh and Austin, visited in Truscott with Mrs. Williams father, Edgar Jones, Saturday and Sunday. The children spent lots of time and energy on a new experience-pumping water out of the cistern on the back porch at their great-grandfather's ranch house. Ashleigh held the bucket while Austin applied the elbow bending, heaving and pumping to get the water up and out the iron pipe. He now agreed that people should never waste water. The community enjoys a new water cooperative, but all the old timers have

kept their cisterns, too; in case the new convenience goes out on them and they have to fall back on the old stand by. In the years before the coop was brought in, the family used water from a dirt tank to supply the kitchen and both rooms. In rainy season the water turned as red as the clay it ran over. Drinking water came from the cistern, and the bucket and dipper were standard equipment in the completely modern kitchen, as they were on other ranches and in town homes. On one ranch, the hired hand raised a beautiful garden last summer and drained three storage tanks for the coop. He heard about it.

## Floydada Nursing Home Happening

### By Dartha Westbrook

What a busy week we had at the Nursing Home. Monday I did manicures, and helped Mr. Lawrence make an owl. We have several of our owls for sale, if you need a lovely gift made by a loving person, come on out and take a look at the selection available. Mr. Lawrence enjoys this more than eating.

Tuesday was our Bible Study, there is an increased interest in this activity from week to week.

On Wednesday our Bingo was exciting. Mr. Lawrence won 7 games, Una Clark won 3, Susie Thompson 2, Vera Duke 1, and Bessie Griffin 1.

Thursday was a school day for me, but our Residents enjoyed Kim Sherman and her Music Therapy. They

really look forward to seeing Kim.

On Friday we saw 2 movies, one on skating and another on wildlife. They enjoyed these movies and what's a movie without popcorn!

We are looking for some group to help us out on Tuesday at 10:30 to bring our devotion. I have called several churches, and have been unable to get anyone who will come. If you or your group would be interested in this rewarding experience, please contact me at the Nursing Home.

We are also in need of an Activity Director at the Home. If you know of anyone who would be able to do this worth-while job, please contact me.

Until next week, thanks to all our visitors: Rita Thompson, J.T., Dot, and Sharon Roberts, Edd and Dorothy Neff, Tonia Marley, Tracy Parvin, Jody Parvin, Jimmy Marley, Charley L. Berry Sr.

Sniffing and sneezing

# Cold complicates communications

Which is faster? Heat or cold? Heat is faster because you can catch cold. I know because I did. It wasn't much. Just enough to make me talk funny, which made telephone conversations difficult.

"What is the matter with your voice?" one caller asked. "I've got a small code," I sniffed. "That's too bad. Is it serious?" "Nuh, my node id a little stumped up. I think this weather gabe it to me." "Well, I hope you will get better." "Thangs."

With all of our modern day technology we still haven't found a cure for the common cold. But the manufacturers of cold remedies would like you to believe differently. Although their advertisements do not come out and say that they will cure your cold, they do leave little hints.

One such television commercial deals with a supposedly miraculous cold remedy. The man of the house comes home early, looking like five miles of bad road. His wife asks why he is home early. He only has enough strength to say "Cold. Severe cold." He then falls face first on the bed.

He is still too weak to reach into his pocket and pull out the wonder drug. He tells his wife to get it for him. Later he is up and smiling and looking well. He says, "I really was sick."

All those cold remedies do is relieve the symptoms of the cold. This makes the cold victim feel better so he can go back to work. Thus, more cold germs are spread, getting more people sick, therefore more cold remedies are sold. Another cold remedy company gives examples of the worst colds. New York, Chicago, or Washington colds are supposed to be the worst colds in the world. The commercials show cold sufferers out in blizzards.

A Chicago cold doesn't compare with the West Texas cold. In Chicago the winter weather is pretty consistent -- always cold. In West Texas, the winter weather takes you by surprise. It may be warm and clear when you leave for work that morning, but it may be snowing by evening.

Of course no one dresses for the weather changes and they are literally out in the cold. The next day you dress for the snow and by the time you leave for work the sun is back in business scorching everything in sight. The

alternating cold and hot is a sure formula for a cold.

One of the first symptoms of a cold is sneezing. This is one of the more pesky symptoms for me. It seems I need to sneeze at the most inopportune times. Usually in church when the preacher pauses to let the effects of his words sink in or in class when I don't have a handkerchief.

When I sneeze, I believe in letting it all out at once. I try to be polite and let the sneeze out in little spurts, "ah-choo, ah-choo, ah-choo." But the urge to sneeze isn't satisfied until I let out a healthy "WAH-CHOO", which usually brings trickles of dust from the rafters of the building.

When I get the urge to sneeze, it usually starts somewhere deep in my chest. I try to suppress it, but it keeps building until it reaches my nose. My face starts to contort, my breathing gets irregular. Just when I am about to release this monster of a sneeze, someone asks me a question. I am stuck with this stupid look on my face and all of that energy stored up and no place to put it.

I am usually the hearty type that can withstand a cold and keep up with my

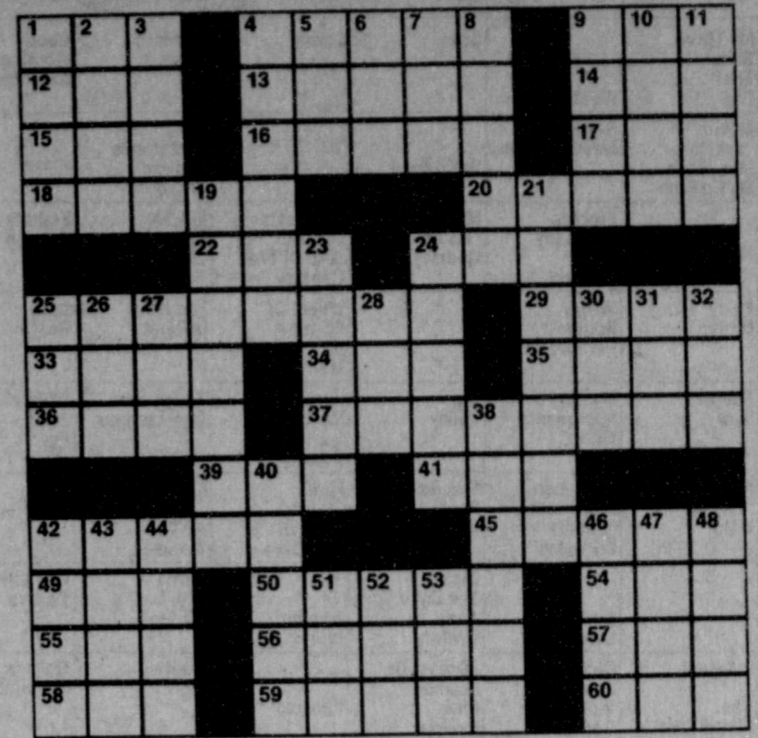

usual daily routine. One cold really hit me hard. My supervisor at work saw me and said, "You look bad why don't you go home and get some rest?"

After a good night's rest I felt good enough to go back to work. The company policy was if you leave sick you can't come back without a release from a doctor. This was designed to prevent an outbreak of something contagious like malaria.

The doctor looked me over and said I was O.K. He asked why I missed work. I told him I had a cold. "You were out of work with just a cold," he asked as though I only had a broken fingernail. Although many people have their own remedies for a cold, about the only thing you can do for one is rest and drink plenty of fluids and watch for a fever. The cold will run its course in about ten days to two weeks.

When I got this last cold I got a guaranteed cure from a friend who had this cure in his family for generations. It included a cup of hot lemon juice, a tablespoon of honey, and a shot of whiskey. Drink this hourly and get lots of rest. Drink plenty of fluids and watch for a fever. The cold will be cured in about ten days to two weeks.

**Jerry ('Y&R') Douglas reflects on acting**

By Nancy M. Reichardt

"It's the first time I've played a character that's so bloody close to myself," says Jerry Douglas, of his role as John Abbott on "The Young and the Restless."

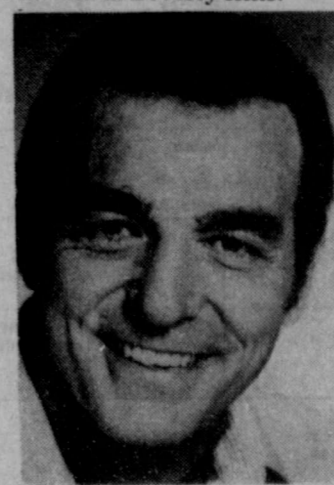

The youngest of three children, Jerry had already gone into business with his brother after graduating Brandeis University, but he later became interested in a singing career while attending Boston University Law School.

With a repertoire of songs under his belt, Douglas made his professional debut in Worcester, Mass., did some off-Broadway stage work and soon began to study acting. When his marriage, to an actress, began to fail, Douglas gave up acting and went into the insurance business.

But his reconciliation attempt with business failed and Douglas returned to acting, landing parts on several nighttime series, including "Mission Impossible," "The F.B.I." and "Rockford Files." He appeared in the movie-of-the-week "Crash," and the feature films "Looker," "Avalanche" and "Mommie Dearest."

He enjoys his popularity on "Y & R," but, he says: "Acting is what I do, it's not what I am. The only actor image I can accept is that of a fine craftsman. Only the audience has the right to call us artists."

Three years ago, Jerry gained custody of his two children and they both now live with him in Beverly Hills.

Jerry Douglas

Popular "As the World Turns" actress Colleen Zenk (Barbara Stenbeck) returned to her hometown of Barrington, Ill., to host and perform in a special variety show at her old alma mater, Barrington High School. Proceeds from the show went to benefit the school's art department.

Alda produces for TV; Dahl gets betrothed

By Cindy Adams
NEW YORK — Alan Alda is producing his movie "The Four Seasons" as a TV series. It begins shooting in April starring Jack Weston, who's spending a month at Florida's Palm Aire spa trying to lose weight... Arlene Dahl is getting married. Again. I don't know when long-time beau, Marc Rosen, popped the question but I know he popped that Oriental pearl and diamond engagement ring in the silver Cartier box at Regine's on New Year's Eve.

Arlene Dahl

Astrologer Frederick Davies phoned from London with his '83 predictions. The Brit swears that "Prince Andrew will announce his engagement to Koo Stark"; and a car, "The Greatest," will be named for Muhammad Ali.

The Miss Universe Pageant 1983 will come out of Cartagena, Colombia... Lillian Gish called old chum Eddie Davis. Having recently seen Mrs. Davis' kid, Nancy Reagan, octogenarian Lillian told octogenarian Eddie: "Don't worry about your daughter. She's doing fine... The longtime customer stopped into a favorite store and the owner said: "Haven't seen you in awhile. What have you been doing?" The blonde blinked, then said, "Oh... it must be my new short hair. You don't recognize me." She hadn't been around lately, she said, because she'd been filming "Still of the Night," "French Lieutenant's Woman" and "Sophie's Choice." The face the owner couldn't place belonged to Meryl Streep.

## Block announces greater FCIC coverage for farmers

USDA Secretary John R. Block has announced that the Federal Crop Insurance Corporation will increase the yield guarantees on wheat, corn, grain sorghum, cotton and rice for insured producers who participate in the 1983 Payment In Kind (PIK) program according to Laverne McCarty of the Goen Crop Ins. Agency in Floydada.

Laverne said FCIC is able to offer the higher crop insurance yield guarantees to PIK participants at no additional cost because the risk of loss is reduced. Premium rates remain the same as

those set earlier for standard coverage. Those farmers who already have insurance against the natural disasters that can occur between planting and harvest will automatically qualify for the higher yield guarantee if they sign up for PIK. They do not need to do anything additional at this time. Laverne pointed out.

The higher yield guarantee will range anywhere from 6% to 10% depending on the level of PIK participation. Laverne added.

To qualify for the additional FCIC coverage during 1983, producers must sign up for the PIK program by the March 11, 1983 closing date.

Farmers interested in more information on the Federal Crop Insurance program and the higher yield guarantees available to those who participate in PIK can contact Laverne or Dace Goen at Floydada. They are Federally Certified Agents and members of the National Association of Crop Insurance Agents.

## Monty Lyons receives \$1,000 scholarship

Three Texas Tech University students have been awarded \$1,000 scholarships from Farmland Industries.

From the College of Agricultural Sciences, recipients are agricultural economics junior Monty Lyons, son of Mr. and Mrs. Dick Lyons of South Plains; and agricultural economics major Tommy Wheeler, son of Mr. and Mrs. George Wheeler of Route 2, Muleshoe.

Within the College of Business

Administration, accounting junior Lori Harper was the scholarship recipient. Harper is the daughter of Mr. and Mrs. Raymond Harper of Route 1, Sudan.

On hand for the luncheon honoring the scholarship recipients were Farmland Industries personnel Michael Goolsby, member relations consultant for the southern region, and John Barstow, personnel consultant for Farmland Industries in Amarillo.

From Texas Tech, administrators

present for the scholarship awards were Dr. John R. Bradford, vice president for Development; Dr. Samuel E. Curl, dean of the College of Agricultural Sciences; and Dr. William P. Dukes, associate dean of the undergraduate program, College of Business Administration.

Farmland Industries, one of the country's major farm supply companies, has been giving scholarships to Texas Tech students for 21 years.

## Participation in PIK brings farmers increase in FCIC guarantees

Farmers who participate in the Payment-in-Kind (PIK) program are eligible for increased insurance guarantees on insured wheat, corn, grain sorghum, rice, and upland cotton at no extra cost, says F.W. "Ted" Crouch, Jr., Director for the College Station Field Operations Office of the Federal Crop Insurance Corporation (FCIC), College Station.

To encourage the widest participation possible in the PIK program, FCIC will accept downward revisions of previously reported acres and increase the per acre guarantee on the remaining acreage. Downward revisions of acreage reports may be made until March 11, 1983.

For the 1983 crop year only, insurance guarantees on the eligible crops

will be increased by the following proportions: a 6 percent increase for acreage reductions of 10 to 19 percent; an 8 percent increase for reductions of 20-29 percent; and a 10 percent increase in acreage reduced by 30 percent. "Percentage reductions are calculated for acreage reductions above the regular farm program set aside," Crouch says.

Farmers may participate in the PIK acreage reduction on one farm and not another. "Any increase in coverage," says Crouch, "will be in effect for the farm selected for PIK participation, without affecting the guarantee or premium on the other insured farm(s)."

"Upon acceptance of the revised acreage report, the premium will be

recomputed on the reduced acreage and the per acre guarantee will be increased for the remaining acreage," Crouch states.

Under a bid arrangement, farmers may reduce the entire acreage to zero. In that case, a zero acreage report may be made to the agent by March 11. Farmers should verify acceptance of the bid with their agent by March 18. If the bid is not accepted, the farmer remains insured for the acreage intended for harvest.

"Insured farmers should contact the local agent authorized to service their FCIC policy before March 11 to report any downward revisions on insured acreage and to gain the advantage of the increased protection," Crouch says.

## Hats Off to Farmwives

By Julie Jenner  
PCA Farming & Ranching  
Jan.-Feb. 83

Ever wonder what makes a go-getter type of farmer tick? Most highly successful farmers rank their wife as the No. 1 reason for success.

So says Hiram Drache, a farmer, author and professor of economic history at Concordia College, Moorhead, Minnesota. Drache has interviewed hundreds of highly successful farmers in researching his books. Those interviews reveal six qualities — he calls them the six Ms — that set the high achievers apart from the average farmer. In order of importance, those six Ms are mate, motivation, management, money, marketing and mechanization.

"A farmwife motivates and sustains her husband during the bad times," says Drache. "She's a stabilizing influence during the good times. And daily, she helps him manage the farm. "The higher level of input the wife has on the farm the more progressive that farm is."

That's not to say unmarried farmers

can't be successful. "You don't have the household expenses or the responsibility of a married man," Drache continues. "But, it's harder in the long run, because you don't have the moral support and encouragement a partner provides."

Motivation—The secret to motivation is a positive mental attitude. A good mental attitude gives you the determination to hold on during hard times and to take advantage of opportunities.

It's tough to be positive when prices are rotten. So stay away from negative thinking people. "One of the most depressing places I've ever been," says Drache, "is the grain elevator line. It's a wonder elevator managers can keep their sanity through all the gloom and doom they hear each day. Don't listen the next time someone starts complaining about the government or the low markets."

Read books dealing with positive thinking. "These are just as important as farming journals," Drache says, "because positive thoughts open your mind to new innovations." (Editor's note: We'd suggest Drache's book **Tomorrow's Harvest**.)

Management—Adversity is often mentioned as a turning point for many successful farmers. "In adversity, farmers learn their own strength," Drache says. "They reevaluate old procedures and adopt new ones in order to become more efficient."

## SYF attend convention and ready for banquet

The 29th Annual Texas Young Farmers Convention was held on January 21-22 at snow covered Abilene at the Civic Center.

On Friday at the morning session, Former Secretary of Agriculture Bob Bergland addressed the convention members. His highlights were mostly on the PIK and other possible programs to assist the farmer.

At noon the Young Farmer luncheon honored the exhibition and presented awards to long-time exhibitors.

The afternoon session mainly concerned the National Young Farmer Educational Institute and the nominations for state president.

Concluding the day was the annual awards banquet. Area 1 winners vying for state were Hale Center, Hereford, Silverton and Muleshoe. Silverton captured the state chapter Public Relations Plaque.

The third and final session was held Saturday morning. The address was

"I see the current economic situation revolutionizing farming. It is forcing farmers to take a new look at their management and the technology available and put it to better use."

Use consultants. "No one can be an expert in everything. Buying other people's knowledge makes good use of your time and money," Drache adds.

Money—How you handle credit is what's important, not how much money you start out with, says Drache. "There will never be a shortage of money for good managers."

He advises couples to go to their lender with a tight budget that illustrates their management skills. "Show your motivation with your positive mental outlook," he says. "And, always go in as a couple. This shows your determinations."

Marketing—Avoid need and greed selling, advises Drache. Have a plan to market regularly if you don't hedge or forward contract. Avoid the temptation to sell at the peak—you won't succeed.

Mechanization—"The first farmers to trade-in their horses for tractors had the jump on everybody else," Drache explains.

"Today's tractors are computers. A lot of folks don't like them, but computers can do in a minute what it takes one man or woman hour to do," he says. "I've tried outguessing my computer a few times, too. But, every time I've been wrong."

delivered by the Honorable Charles W. Stenholm of Stamford.

Steve Ehrig Gonzalez Area VII was elected to serve as president of TYF for the coming year. Teddy Smithson, Dimmitt, Area I will serve as first vice president.

Representing Area I Young Farmers were chapters from Dimmitt, Hale Center, Hereford, Lubbock County, Muleshoe and Silverton. Jay Eudy, Plainview, is the Area I Consultant Advisor.

Silverton Young Farmers Annual Awards Banquet will be held on Saturday February 5 at the school cafeteria.

Awards to be presented are Outstanding Young Farmer; Outstanding Young Agribusinessman; and Outstanding Associate Member. The Gold Star 4-H winners will receive a plaque as will the Outstanding FFA member.

Following the awards the club will host a casino fun night.

## Soil moisture not as good as expected

Southern High Plains farmers looking at the recent heavy snows and planning this year's farm operation or deciding whether or not to join the PIK program assuming good soil moisture conditions, better take a second look.

Mike Risinger, a soil scientist with the SCS in Lubbock, is working with the High Plains Water District to establish a large network of soil moisture monitoring sites over the 15 county area. At each site, aluminum tubes are set to a 7 foot depth and moisture readings are made with a neutron source. The data is used to compile annual pre-plant soil moisture deficit maps for the area.

Measurements made in Bailey, Cochran, Hale, Lamb, Lubbock and Lynn Counties during the first three weeks in December before the heavy snowfalls indicated subsoil moisture is again below average due to the shortage of fall rains. National Weather Service records at Lubbock show only 3.6 inches of total precipitation were received for August, September and October of 1982, as compared to the 72 year average of 6.6 inches for the same period.

## Conservation Tillage Seminar to be held February 9-10

High Plains farmers who are interested in learning more about cutting operating expenses, increasing profits, and reducing soil and water erosion are invited to attend a Conservation Tillage Seminar at Hereford, Texas, February 9-10, 1983.

Jon J. LaBaume, district conservationist for the USDA Soil Conservation Service at Floydada, said the meeting will be held at the Bull Barn in Hereford starting at 9:00 a.m. both days. Attendance is free.

"The meeting will feature farmers who are using conservation tillage farming systems as well as speakers who will discuss the use of herbicides,

But a re-check of eight typical sites in Lubbock County made on January 17 after the holiday snowstorms, to identify any change in soil moisture due to the heavy snow, showed NO significant increase. Preliminary indications are that the area's subsoil moisture is still below average.

Ken Wigner, National Weather Service meteorologist at Lubbock explained the conditions. "The 10.7 inches of snow that fell at Lubbock airport between December 26 and January 1 contained a precipitation equivalent of only 1.12 inches. In addition, adverse conditions of low humidity, low temperatures and surface winds extended the time of snow thawing and allowed most of it to evaporate from the top surface and be lost into the atmosphere rather than melt into the ground." These conditions set a 14 day record for snow on the ground in Lubbock.

Ken reports that the January 20-21 snowstorm dumped a total of 16.7 inches, but this contained a precipitation equivalent of only 1.64 inches of moisture. He observed there are cur-

rently no rapid losses of moisture to the atmosphere, therefore a larger portion of this snow's moisture may filter into the surface. But he cautioned, "Traditionally, these kinds of snows do not add much to the soil moisture even though they are at record levels. We just don't see much improvement in deep soil moisture from any kind of precipitation during the winter."

Mike recommends that growers dig in their fields to check their own soil moisture before making major decisions.

Mike expects to again re-check enough typical soil moisture sites in the area to re-determine if there has been any significant change in moisture. These findings will be reflected in the 1983 pre-plant soil moisture deficit map which is now projected to be published by early March, perhaps before the deadline for making a decision on PIK.

computers, and other related technology," said La Baume. "Several kinds of conservation tillage equipment, including planters, sweeps, and chisels, will also be on display."

On the afternoon of February 10, there will be a demonstration of conservation tillage equipment on a farm near Hereford.

The seminar is sponsored by the Tierra Blanca Soil and Water Conservation District, the Golden Spread Chapter of the Soil Conservation Society of America, the USDA Agricultural Research Service, and the Soil Conservation Service.

## Conservation Awards program entire deadline is February 7th

The Texas Conservation Awards Program entry deadline is fast approaching, according to the Herman R. King, chairman of the Floyd County Soil and Water Conservation Board. The deadline for the essays are February 7th. Please turn the essays into your school or at the Soil Conservation Service office at 208 S. Wall Street in Floydada.

The title for this year's contest is "Soil and Water Conservation". The essay must be 300 words or less.

The essay contest is divided into two separate divisions, a Senior division and

a Junior division. The Senior division is for high school age students and the Junior division is for junior high age students, this is an open contest available to students and non-students and does not jeopardize Texas Interscholastic League eligibility.

As in the past the Floyd County SWCD will provide cash awards for the first three place winners in each contest, after the essays are judged by out-of-county personnel, one essay will be sent to the state contest for regional and state judging.
