NEWLY ELECTED MASON OFFICERS are [front row, l-r] Herman Huffman, Richard Wiley, Grady Wiley, Kelvin Cummings, Bob Smith; [back row, l-r] Rudy Zachary, Homer Ragland, Robert Webb, Roach Perry, Dave Sechrist, and Lawson Rowell.

Masons elect officers

The Masons met Monday night to elect new officers. Those elected were: Kelvin Cummings as Worshipful Master, Grady Wiley as Senior Warden, Robert Smith, Junior Warden, Robert Webb as treasurer, David Sechrist, secretary; Richard Wiley, Chaplain; Homer Ragland,

Senior Deacon; Rudy Zachary, Junior Deacon; Roach Perry, Senior Steward; D.K. Jackson, Junior Steward; and Lawson Rowell, Tiler. Also elected were Herman Huffman, installing Marshall, and Richard Wiley as the installing officer.

Bible school well attended

The Main Street Church of Christ held its Vacation Bible School June 20-24. Friday they held an awards and recognition assembly. During the assembly all of the kitchen, office, and nursery workers were thanked for all the help to make the Bible school a success.

All of the children who had perfect attendance for the week were given certificates and the kids who brought the most visitors were recognized. The children in preschool who brought 1 or 2 visitors and those in school who brought 1-4 visitors were given pencils. They were Melissa Perales, Matilda, Raetta Starnes, Jeff Pierce, Lance Patridge, Isais Ramirez, Angie Hooten, Allison Mangold, Carlos Rendon, Pabline Gonzales, and Marc Huddleston.

The children from preschool who brought 3 visitors were given coloring books. They were Jeremy Hill, Wesley

Hunter, Anthony Pool, Tikka Smith, and Mandy Hunter. Kids from the grade school who brought 5 visitors also received books. They were Jerry Don Evans, Max Green, Amiee Green, and Regyna Van Cleve. They boy and girl who brought the most visitors for the week were Brandon Poole who brought 10 and Randi Jo Henderson who also brought 10. They were both given hard back books.

Attendance for the week was very good. On Monday there were 115; Tuesday-140, Wednesday-154, Thursday-149, and Friday-157. Also recognized were the teachers in the west hall who had to suffer the week with no air conditioning. They were Robin Boedecker and Betty Kay Cates, first grade; Kay Starnes and Bonnie Hill, second grade; Laura Wilson and Sheri Miller, third grade; and Linda Kidd and Martha Mangold, fourth and fifth grade.

Honey Bee Queen speaks to Rotary

Deon Zumwalt, the South Plains Honey Queen for 1983, spoke to the Rotary Club Friday at their regular weekly meeting. Deon is the daughter of Mr. and Mrs. Perry Zumwalt of Floydada.

In her speech to the Rotary Club, Deon discussed the many aspects of bees and honey. It takes 556 bees flying 35,584 miles, the equivalent of 1 1/2 times around the world, to make one pound of honey. A bee's life span is 38 to 42 days in the summer because their wings literally wear out. The life span is longer in the winter because they forage less. There are 40 to 70 thousand bees per hive. There is one queen and her job is to regulate the population of the hive.

The queen can lay as many as 20,000 eggs in a 24 hour period and 200,000 in a season. Workers make up most of the bees in the hive. The worker bees are all female. Drones are the only male bees in the hive and their only function is to possibly mate with the queen. In the fall the drones leave the hive.

Americans eat more than 2 million pounds of honey per year. Honey is second to nothing in taste and is the only known substance that contains everything necessary to sustain life. Honey is used in beauty aids and many pharmaceuticals. Deon also discussed the different types of honey. Each flowering plant produces a different kind of honey and honey differs from state to state because of the different types of plants. Honeys differ in color and sweetness also. Honey ranges from water clear to dark molasses color, with the darker varieties having more nutrients.

Honey is hygroscopic, which means it absorbs moisture. By adding 2 tablespoons of honey to cake and other recipes and the items will stay fresher 4 to 5 days longer. Honey can also be substituted to any recipe in place of sugar. To replace sugar with honey follow the following tips:

- 1) Substitute 2/3 to 3/4 cup of honey per cup of sugar depending on taste.

- 2) Lower the baking temperature by 25 degrees.
- 3) Add 1/4 teaspoon of baking soda per cup of honey.
- 4) Decrease the amount of liquids by 1/4 cup per cup of honey used.
- 5) Watch the time carefully as things brown quicker with honey.
- 6) Stir the mixture thoroughly.

Honey has been used in health aids for over 3000 years and has been used to treat ulcer sores. The reason this works is that no bacteria can live in honey because the honey draws the moisture out of the bacteria and kills it. Honey is a very good energy source as it is absorbed into the blood very fast.

Bees are responsible for about 5% of the cotton pollination in our area. Texas is ranked third in honey production with California first and Florida second. The U.S. follows Russia in world honey production.

Another product of bee hives is bees wax. Bees wax is used in cosmetics and many other items. Candles made from bees wax last longer and do not drip. This wax is also used in furniture polish, floor wax and is also used in phonograph records.

Other industries that gain revenue from bees are printers, advertisers, shipping companies, and postal services. The reason for this is that in the spring queen bees are ordered and shipped through the mail.

Without bees we would have a very bland diet in that bees pollinate crops that are used to feed many of the things we eat.

Deon is the primary promoter for the honey and beekeeping industry on the South Plains. She is available for interviews, personal appearances, and is prepared to present programs to all ages of school children and civic organizations. For information on setting up a program featuring Deon contact: Jamesie Colson, P.O. Box 2247, Lubbock, Texas 79408 or call 806-744-6086 or 744-0560.

DEON ZUMWALT

DPS predicts heavy holiday toll

The Texas Department of Public Safety has estimated that as many as 49 persons could die in traffic accidents across the state during the Fourth of July holiday period.

Colonel Jim Adams, DPS director, said the estimate is based on the anticipated volume of traffic and the previous holiday deaths.

"Independence Day can bring more motorists to our streets and highways compared to a regular weekend. We are estimating fewer deaths than we had during the Fourth of July holiday last year because thus far this year we have experienced a decline in traffic fatalities," Adams said.

Last year, 55 fatalities were recorded during the 78-hour period, but subsequent deaths from serious injuries brought the final count to 64 for the three-day holiday.

Adams said if drivers would stay sober, slow down and use seat belts, their chances for survival would in-

crease. "Drivers who speed or are intoxicated pose the greatest threat to law abiding motorists," Adams said.

"Some people will insist upon drinking excessively and attempting to drive during this period. We will do our best to remove these individuals from the roads," he said. "If a person drinks, that is his personal business, but if he drives drunk—that's police business."

Adams encouraged motorists who observe drunken drivers to report them to the nearest police agency or Highway Patrol.

DPS commanders throughout the state will utilize additional troopers in areas they deem appropriate. DPS will also conduct "Operation Motorcade" to inform the public of the number of traffic deaths occurring during the 78-hour holiday period. Periodic reports will be communicated statewide relating the tabulation of the number of deaths that occur during the 78-hour holiday period.

Hospital to receive new equipment

The Board of Directors of Lockney General Hospital District held their regular monthly meeting on Tuesday, June 21, at 8:00 p.m., in the Hospital Board Room. Members in attendance were Rusty Baccus, president; Kenneth Tate, vice president; George Sparkman, secretary; Hubert Frizzell, member; and Larry Golden, member. Others present were Guy Hazlett, Administrator.

The meeting was called to order by the President of the Board at 8:00 p.m. The minutes of the previous meeting were approved as printed.

Under old business and as a part of the Administrator's Monthly Report, the following items were discussed:

The Board discussed the hospital's current limits of coverage for professional liability and general liability insurance policies for the Hospital District. The Board reviewed the Administrator's recommendations for increasing the amounts of coverage for professional liability and general liability. The Board of Director's gave the Administrator the authority to request bids on the four policies which will expire on August 24, 1983.

The Administrator reported that the new pharmacy management contract service was implemented very smoothly and began its operation on June 1, 1983. The transition of operating procedures,

equipment, and supplies went very smoothly. The new contractor is Megaron Systems Incorporated, a subsidiary of Erwin Medical Supply located in Dumas, Texas. Megaron Systems Incorporated was awarded the contract in January, 1983.

The Administrator reported that the Business Office showed a total of \$100,192.10 in cash receipts for the month of May. Also, the Administrator reported that the Business Office is now sending out a letter to patients upon insurance billing as a courtesy. The Business Office reported a collections percentage of 100.7% for the month of May, based on the amount of accounts receivable collected.

The Administrator announced to the Board that a new group purchasing plan for non-profit hospitals would be available to Lockney General Hospital District on August 1, 1983. The new group purchasing arrangement is through Health Affiliated Services Incorporated, a non-profit Abilene based corporation. The H.A.S.I. group purchasing arrangement will save the hospital from \$15-20,000.00 annually on the purchase of medical and surgical supplies without any changes in brand or quality.

The Board discussed the Coulter Cell Counter, a piece of equipment utilized by the laboratory. Based upon the amount of money expended recently to

repair the piece of equipment and based upon its age, the Board approved the replacement of the piece of equipment with a comparable piece of equipment. Through the approval given by the Board of Directors, the Administrator issued a purchase order for replacement of the cell counter with a cell counter and printer from Scientific Products at an approximate price of \$13,250.00. The new cell counter is expected to be delivered to the Hospital within the next one to two weeks.

The May census of the hospital averaged 9.4 patients. The Nursing Department reported two new full-time temporary registered nurses from Seattle, Washington, Tammie Erhart and Cathy Jeney, available to the hospital through the Flying Nurse Program.

The application of Kathy Hubbard for a nursing grant to pursue a registered nurses education was approved by the Board of Directors. The loan/scholarship will provide Kathy Hubbard, who is currently an L.V.N., the opportunity to complete her registered nurses training in return for four years of service to Lockney General Hospital District.

The Board discussed the area of building and grounds. The administrator reported that the bids for the south parking lot paving were opened by the administrator and witnessed by the president of the board several weeks

ago. The bids were as follows: Fred Lipham - Floydada, \$13,855.00 and High Plains Pavers - Plainview, \$9,990.75. Through the building and grounds committee of the board the bid was awarded to High Plains Pavers. It is expected that work on the south parking lot will begin about the first full week in July. The board also discussed the bids received on the painting on the exterior of the hospital. After a brief discussion by the board, the board extended the closing of the bids until 5:00 p.m. Tuesday, July 5, 1983. Also, under building and grounds, the board authorized the administrator to proceed with remodeling of the Nursing Station work counter area.

Under new business the board reviewed the financial and statistical report for the month of May which showed a revenue of \$87,488.00, an operating expense of \$90,506.00, and operating loss for the month of May \$3,018.00, and fiscal year-to-date loss of \$86,275.00 compared with \$116,790.00 one year ago. The May 31, 1983, ending balance of accounts receivable was \$93,041.30, down from previous months due to a seasonal decrease in operating revenues and accounts receivable billings.

The meeting was adjourned by the President of the Board at approximately 11:45 p.m.

Have a happy and safe 4th!

This Week

Singles

The Singles Club will not meet in Lockney this week, but will meet on July 9.

Library

The summer reading program at the Lockney Library will start Friday, July 1 and will run through July 31.

The person reading the most books at the end of July will be given a prize.

Workshop

A workshop for substance abuse counselors will be presented July 7 and 8 beginning at 9:00 a.m. in the Holiday Inn, Plainview. Jacquelyn Small, M.S.S.W., nationally known author and lecturer, will conduct the workshop on "The Essentials of People Helping: Counseling from the Heart," through the Cooperation of LaHacienda Treatment Center, Serenity Center Halfway House, MHMR, and the Nine County Council on Alcoholism and Substance Abuse.

Registration fee of \$35.00 may be mailed to Jay Mills, 510 Wayland, Plainview, Texas 79072 before July 1 or \$40.00 at the door. More information may be obtained by calling 296-6271.

Season Football Tickets On Sale

Reserved seating tickets for the 1983 football season are on sale now. Purchases can be made at the superintendent's office. Starting this year the tickets will be sold on a yearly basis. This year's tickets will be \$20.00, which includes a reserved seat and a season gate pass. This is the first year that the price of the gate pass has been included in the price of the seats. The tickets will be good for all five home varsity games, one of which is Floydada.

Also on sale are the reserved parking spaces inside the fence on the south side of the field. Parking inside the fence will be \$15.00 per car per year.

If you wish to retain the option on your reserved seats and in-fence parking, tickets will be available at the superintendent's office until the August 1 deadline.

If you wish to retain the option on your reserved seats and in-fence parking, tickets will be available at the superintendent's office until the August 1 deadline.

THE MASON installing officers are (l-r) Herman Huffman, Kelvin Cummings and Richard Wiley.

Hearings to be held on school curriculum

Area citizens will have an opportunity to present their opinions and concerns regarding proposed essential elements and related requirements for the revised public school curriculum at public hearings to be held July 25-26, 1983.

Public hearings will be held at the Education Service Center, Region XVII, Monday, July 25 from 1:30 to 5 p.m. and from 6:30 to 10 p.m.; Tuesday, July 26 from 8:30-11:30 a.m.

State Board of Education chairman Joe Kelly Butler said, "The Board encourages everyone—parents, educators, interested persons—who has a concern about public school curriculum to attend one of the hearing sessions." Texas Education Agency administrators will conduct the hearings; the Service Center serves as host. State Board members may attend.

The essential elements and related proposals were drafted to implement House Bill 246, passed by the 67th Texas Legislature, which mandated revision of the public school curriculum. The law requires the following 12 subject areas be included in each school district's curriculum: English language arts; other languages, to extent possible; mathematics; science; health; physical education; fine arts; social studies; economics, with emphasis on the free enterprise system and its benefits; business education; and Texas and United States history as individual subjects and in reading classes.

The State Board of Education was charged with designating the essential elements of each subject area. After the essential elements are adopted by the Board, each school district will be required to provide instruction in those elements at the designated grade levels in order to be accredited.

State Board Chairman noted that the curriculum documents which contain the proposed essential elements have been distributed to school districts, professional organizations, teacher preparation institutions, all 20 Education Service Centers and will be available to the public. Copies of the documents may be obtained from or reviewed at the Service Center or the Texas Education

Agency, 201 E. 11th Street, Austin, Texas 78701 after June 10, 1983.

Individuals planning to testify at the public hearings are requested to pre-register by writing or calling Dr. Woodie Coleman, Education Service Center, 4000 22nd Place, Lubbock, Texas 79410, telephone 792-4000 (area code 806). Registration will also be allowed at the public hearing sessions.

Written testimony will also be accepted but it must be submitted on special forms that may be obtained from the Service Center or the Texas Education Agency. The deadline for the receipt of written testimony by the Texas Education Agency is Monday, August 8, 1983.

Lone Star

Homemakers Club meets

The Lone Star Extension Homemakers Club met in their regular meeting in the home of Syble Teeple.

After a brief business meeting, a demonstration was given on candy making in a microwave oven.

A special treat was a tour of Lake Mackenzie, where we saw many beautiful lake-side homes. Everyone enjoyed the trip very much.

Upon the return to Mrs. Teeple's home, delicious refreshments were served. The program, "Show and Tell" beautiful quilts and other handmade articles were shown.

Present were Ruth Reeves, Elvira Stewart, Vera King, Helen Hoffman, and Syble Teeple. A meeting is not planned until September.

Dottie's Doodlings...

Mrs. Patsy Holland Musser and two sons, Jim and Joe of Marengo, Illinois arrived Friday, June 17, to visit with her mother, Mrs. Nita Holland and sister and brother-in-law, Nancy and Don Marble, of South Plains.

They also visited with Mrs. Cleo Musser of Groom, and Jim who is enrolled at West Texas University attended orientation there and visited with his uncle Tom Musser and family in Canyon. They also visited with Bob Musser, who is attending the Baptist Seminary in Ft. Worth.

They left Monday morning to return home.

Geneva Stansell entered the Methodist Hospital June 8th and had surgery on her right foot, to correct the damage she had done when she stepped in a hole and injured the achilles tendon. She was able to return home June 18th, but is still confined part time to a wheelchair.

Nora and Archie Bybee visited with their children, Debbie (Bybee) and Gary Stinnett and children, Brandy and Tucker, in Liberal, Kansas from Friday

till Sunday.

They also visited with Nora's sister, Ann (Griffith) and Lonnie Loter and children, Shannon and Trent at Pampa, on their way home.

Weekend guest of Raz and Georgia Ford were Jack and Vickie (Cook) Ford and son, Chuck of Leoti, Kansas, Mr. and Mrs. Kevin Ford and son, Shannon of Garden City, Kansas; their daughters, Peggy (Ford) Bickel and daughter, Gina of Houston; Kitty (Ford) Owens and children Kay, Ray and Kristie of Dell City, and their children, Jerry and Buck Ford and Dixie (Ford) Johnson, all of Lockney, also Mike and Risa Ford, and the Ray and Randy Fords.

The children of Pat and Dottie Stansell, Sue (Stansell) and Rodney Rigby, and grandsons Jon and Josh, Steve Stansell, and Scott and Jody (Nance) Stansell, all of Lubbock and Tim Stansell of Dallas, surprised their parents with a "40th" Wedding Celebration Saturday, at their home in Lockney. Also joining in the celebration was Cindy Read of Lubbock and Joe Young of Dallas.

How will PIK affect your Social Security checks?

By Terry J. Clements

It was a rainy day in Vernon, Texas several years ago when I was in a hamburger place ordering a double cheese chili hamburger for lunch. An elderly gentleman sitting next to me, who knew I worked for Social Security, turned to me and asked, "is this rain going to affect my Social Security checks?" Although, the gentleman was making a joke, he still demonstrated the concern that beneficiaries have about what might affect their Social Security checks. So it is with the new PIK program. Farmers are wondering how it will be counted in determining eligibility for checks. Like other federal agricultural programs, PIK payments are considered part of the farmer's gross income. They are in the form of certificates of ownership and are not includable for taxation or for determining entitlement to Social Security checks until they are converted to cash.

Income under the PIK program received after the initial year of retirement will not affect eligibility for Social Security checks. This is because the income is not considered attributable to significant services performed after the first month of retirement.

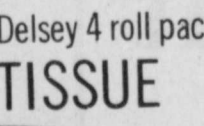

PIK payments received during the

first year of entitlement do count as earnings. Therefore, they can be considered in determining the amount of benefits due for the year. However, the farmer can still receive benefits for any month in that year that substantial services are not performed. In general, the farmer is not performing substantial services if he or she work less than 45 hours a month in the farming operation.

In summary, PIK payments are taxable for Social Security in that they are considered part of the farmer's gross income. However, they would be considered as income for the annual earnings test only if converted to cash during the first year of entitlement. Even so, the beneficiary still could get checks for certain months if he or she is not performing substantial services.

Last week we made mention of a publication on the new Social Security law. In case you missed that article we still have plenty copies of "Social Security Strengthened", a pamphlet explaining the 1983 amendments. If you would like a free copy, call, write or visit our office. The address is 1401-B West 5th Street in Plainview and our telephone number is 293-4371.

Care Center Capers

By Mavis Barton & Mary Jo Fielding

Monday: My husband, Blake Barton, picked me up yesterday and went via Cedar Hill to Flomot and gave his father a "Father's Day" card. Everytime I go home, I can see something different everywhere. The wheat harvest is in full swing and yet the cotton fields at Flomot and whiteflat are washed away with the last thunderstorm. It will be a short and smaller harvest this year. You can't keep a farmer down; he keeps on trying and has to be satisfied at harvest time; whatever, the turn-out.

Mary Jo and six other residents went on a bus ride this afternoon. Those going were Nona Loudermilk, Dawn Jasper, Myrtle Payne, Alma McDonald, Euna Bradshaw, Hassie Arnold and Mary Jo.

Tuesday: Today started out as usual with visiting, church, then, lunch time. We all like church time, singing hymns, and the preacher getting you to see the point. The mornings just seem to fly by. We had bingo this afternoon with everyone winning fruit. I feel a little guilty to write about myself, but I won the blackout too. It was a lovely pin, lacey old gold, green and amethyst stones in it.

Mary Jo had a nice surprise this morning. Her husband came to visit her. It was such beautiful weather they drove around the fair city of Lockney and went to the Dairy Queen for a coke.

Wednesday: We played ball this morning and we included some of the less active residents and do you know they are playing ball a little better. We all like to see that.

"Grannie" Billie Self was feeling a little under the weather this morning, but I am glad to say she felt a little better and came to the dining room for lunch. This morning Mary Green and Ester Pyle went on the weekly trip to the

senior citizen's recreational building in Plainview. They always have lots of fun there and Mary Green just has a lot to tell me all about it. They make cookies or candies, pet rocks and necklaces are just a few of the things they do before returning in time for lunch. Any resident that wants to attend these sessions are welcome to go.

Kim Sherman came for her bi-monthly visit for music therapy. She plays the guitar and sings old-time songs and gets all of us to sing and she remembers everybody's name. We enjoy this very much. Thanks Kim.

Thursday: Today has been a "quiet" day, not much going on. Some watched TV and others visited. Ada Hopper's youngest son and daughter-in-law, Roy and Linda Hopper from Lubbock came for a visit. Donie Hanson went out for the day and came back around 8:00 p.m. Joe Gilmore was not feeling good last night, but was up and around today. His sister was up from Roaring Springs to visit with him this week. She always brings him a sack of "goodies!"

Friday: Today we did not have a church group, but we sang, had a time of devotion and had a discussion among ourselves with Laverne and Jean joining and leading us.

This was enjoyed by all. Of course, today was bingo again and the blackout prize was won by Alma McDonald. The prize was a nice cameo pin.

We welcome a new resident, Mrs. Edna Hunter. She is Mrs. Melvin Thacker's mother. She is very quiet, but I think she will be an active participant in our activities before long.

Our special thanks to all families, volunteers, and friends who came this past week to visit, share, and talk with us. We do enjoy all of these people.

Tate receives highest peace time award

Editor's Note: G.D. Tate, Tate's father, was principal at South Plains four years and at Sandhill [Mickey post office] for two years before taking the principalship of the grade school and the high school at Lockney before they left the area in 1940. Tate was in the sixth grade when his family moved to Denver City.

Major General Grayson D. Tate Jr., son of Mr. and Mrs. G.D. Tate of Denver City and a Denver City High School graduate, received the Army's highest peacetime award May 19 as he neared the end of four years at the helm of the Ballistic Missile Defense (BMD) program—the Army's only strategic weapons development effort.

Tate was presented the Distinguished Service Medal by Gen. John A. Wickham Jr., Army Vice Chief of Staff, in a ceremony at the Pentagon.

Award of the medal was based on Tate's outstanding service as BMD Program Manager since June 1979.

The BMD program is designed to: — Keep the United States ahead of any adversary in the technologies for defending against a ballistic missile attack; and

— To give the nation the option of developing and deploying a ballistic missile defense system, if so directed.

Tate was cited for being a "persistent champion" of the need for expanded efforts in the area of ballistic missile defense. One of his major accomplishments, the award noted, was to establish a vigorous new research and development program to make possible nonnuclear intercept and "kill" of attacking missile warheads.

Wickham, in presenting the medal, said the nation owed Tate and all members of the BMD organization a "debt of gratitude" for tenaciously pursuing and preserving the technologies necessary to keep ballistic missile defense a vital element of the national defense.

The award also cited Tate's effectiveness in building a BMD program that garnered support in Congress and the White House, "as evidenced by a five-fold increase in its budget at a time when other Army programs were...at best, staying even."

During more than three years of his tour as BMD Program Manager, he also served as Commanding General of the BMD Systems Command, a major element of the larger BMD Organization he headed. Among his duties in

MAJOR GENERAL GRAYSON D. TATE JR.

that post was serving as National Range Commander, Kwajalein Missile Range, a national defense test facility in the Marshall Islands of the Central Pacific.

As National Range Commander for the Kwajalein facility, Tate kept vital experiments and test flights on schedule despite periods of political turbulence as the Marshall Islands moved toward a new status of free association with the United States.

Tate, a veteran of 33 years' Army service, moves to the Defense Nuclear Agency in Washington for his next assignment. He will serve as deputy director of the agency for operations and administration.

Born in Mickey, Texas, Tate graduated from the U.S. Military Academy in 1950. He holds a master's degree in aeronautical engineering from Georgia Institute of Technology and also graduated from the Army Command and General Staff College and the Industrial College of the Armed Forces.

"A man ought to read just as inclination leads him, for what he reads as a task will do him little good." Samuel Johnson

SOUTH PLAINS NEWS

By Mrs. Murray Julian

There was hot weather and sunshine most of the past week, but no rain occurring here, although there were reports of showers up in the Perryton area almost every evening of the week before. Hot winds have dust scurrying around the fields this Sunday afternoon, and farmers have been busy cultivating the past week. Meanwhile, the wheat combining is going on, and in some areas where there was lots of rain earlier, the wheat has yielded as much as 60 bushels an acre. We hear the area down near Seymour and Gilliland has fine wheat this year.

Reverend and Mrs. Cecil and Joyce Osborne went Monday to Muleshoe and spent that afternoon and Tuesday with her mother, Mrs. Corda Taylor. They reported the crops looked good over that way, even though north of Muleshoe they had hail storms earlier in the season.

Most of us got to see the landing of the space shuttle Challenger which landed at Edwards Air Force Base in California Friday morning, June 24, after the six day flight, with Robert Crippin as commander and this was declared the best flight yet. With Sally Ride, the first woman astronaut aboard, it was a great thrill to see and hear about the magic of the flight in space.

We offer our sympathy to Mrs. Edith Guggenheim of Amarillo and to Mrs. Ruby Higginbotham on the death of Mrs. Guggenheim's husband, Dick Guggenheim at St. Anthony's Hospital where he had been a patient for several days. He passed away on Wednesday morning, June 22, with his funeral services on Friday afternoon at Boxwell Bros. in Amarillo. Mr. Guggenheim had been in failing health for several

months. Mrs. Higginbotham has been in Amarillo to be with her sister Edith for the past two weeks and just returned home Sunday night.

Mr. and Mrs. Nathan Mulder, Cindy Penny, Jimmy and Cory went to Clovis Saturday afternoon where they were to be involved in the 60th wedding anniversary of Kathy's grandparents, Mr. and Mrs. W.B. Blalock, with the celebration held on Sunday afternoon, June 26, at the First Baptist Church of Clovis in the fellowship hall from 2-4 Sunday afternoon. Kathy's aunt, Mrs. Dale Blalock was in charge of the celebration. Twenty-nine family members registered at the anniversary party and 95 guests were registered in the guest book. Cindy and Penny Mulder were helping serve guests, and presided at the guest register. The weather was perfect, and it was a wonderful occasion. The family returned home Sunday evening from New Mexico.

The South Plains Baptist Church will hold Sunday services at 3:00 p.m. Sunday, July 3rd, in Lockney at the Lockney Convalescent Home. There will be singing, and a service later by Rev. Cecil Osborne. Try and be among those who can be present as they sing and minister to the aged at the Lockney Home.

Jamie and Shelle Bethel, children of Mr. and Mrs. Royce Bethel, got back last Wednesday from Farwell, Texas, as they had spent the weekend visiting their aunt and uncle and children, Mr. and Mrs. Jerry Monk, Leslie, Cody and Kelsey. Two-year-old Kelsey came home to spend a couple of days here with them.

Mr. and Mrs. Harold Hamm, who lives some what near the canyons that slope down to Quitaque and Flomot, found and killed two small rattle snakes in their yard this weekend. This is the first ones we have heard of lately that came up from the canyons.

Mr. and Mrs. Sylvin Kinnibrugh spent last Saturday and Sunday down at Vera and Truscott with Sylvin's father, J.A. Kinnibrugh, and visited her sister, Mr. and Mrs. W.S. Simmons, at Gilliland.

The Beacon will be closed July 4
All deadline will be Friday at 5:00 p.m.

Public Notice

Southwestern Bell, in accordance with the rules of the Public Utility Commission of Texas, hereby gives notice of the company's intent to implement a new schedule of telephone rates in Texas, effective August 1, 1983, unless otherwise determined by the Commission.

A complete copy of the new rate schedule is on file with the Texas Public Utility Commission (PUC) at Austin, Texas, and with each affected municipality served by Southwestern Bell, and is available for inspection in each of the company's public business offices in Texas. The Commission staff has contended in the past that all rates are subject to change as a result of Southwestern Bell's rate application.

As a result of the settlement of a lawsuit brought by the U.S. Department of Justice against AT&T, Southwestern Bell, on January 1, 1984, (or as otherwise ordered by the United States District Court) will no longer be a part of the Bell System, but will be owned by public shareholders. Under the terms of the settlement, Southwestern Bell has identified 15 areas in the state within which it may provide service, and the federal court with jurisdiction of the settlement has tentatively approved these areas, called LATAs (Local Access and Transport Area). On or about January 1, 1984, Southwestern Bell can not provide service between these LATAs, and in addition, must transfer to AT&T customer premises equipment that it leases to customers.

Southwestern Bell has filed a proposed revised rate schedule with the PUC reflecting these changes. These rates would become effective August 1, 1983, if they are not suspended by the PUC; however, it is expected that they will be suspended and that the rates ultimately set by the PUC will become effective on or about January 1, 1984. If the rates were to become effective as filed, they would produce a 48.2% increase in Southwestern Bell's unadjusted test year revenues (or a 76.36% increase in Southwestern Bell's test year revenues adjusted to reflect the effect of Southwestern Bell's divestiture from AT&T). Any change in the rates for any interLATA services offered by AT&T or a subsidiary after January 1, 1984, could affect customers of Southwestern Bell Telephone Company.

Notice to Customers of Other Telephone Companies

While Southwestern Bell has proposed no increase in rates for intraLATA interexchange toll services, any change in those rates could also affect customers of other telephone companies. Southwestern Bell is proposing changes in the structure of the present private line and foreign exchange services. Changes in these rates may affect customers of other telephone companies. Any change in the rates for any interLATA services offered by AT&T or a subsidiary after January 1, 1984, could affect customers of other telephone companies.

Aviso Público

Southwestern Bell, en conformidad a las reglas del Public Utility Commission (Comisión de Servicios Públicos) de Texas, por la presente hace saber su intención de establecer un nuevo arancel de tarifas para servicio de teléfono en Texas, con vigencia a partir del 1o de agosto de 1983, a menos que la Comisión haga otra determinación.

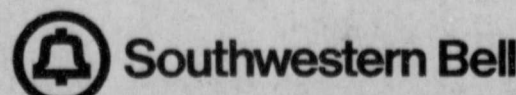

Una copia completa del nuevo arancel de tarifas se ha archivado en las oficinas del Public Utility Commission (PUC, ó Comisión de Servicios Públicos) de Texas en Austin, Texas, al igual que en cada municipalidad afectada y que es servida por Southwestern Bell, y dicho arancel está disponible para inspección pública en todas las oficinas de Southwestern Bell en Texas. En el pasado, la Comisión ha sostenido que toda tarifa está sujeta a cambios cada vez que Southwestern Bell solicite un cambio en dichas tarifas.

Como resultado del arreglo judicial al cual se llegó tras el proceso legal entablado en contra de AT&T por el U.S. Department of Justice (Departamento de Justicia), Southwestern Bell dejará de formar parte del Bell System (Sistema Bell) a partir del 1o de enero de 1984 (ó en la fecha que disponga el United States District Court — Tribunal Federal de Distrito), y llegará a ser posesión de accionistas públicos. Bajo las condiciones de dicho arreglo, Southwestern Bell ha identificado 15 regiones dentro del Estado de Texas en las cuales puede proporcionar servicio, y el tribunal federal con jurisdicción en el arreglo ha dado su aprobación provisoria a éstas regiones, que se denominan "LATAs" (Local Access and Transport Area, ó Regiones Locales de Acceso y Transporte). A partir de fecha 1o de enero de 1984 aproximadamente, Southwestern Bell no podrá proporcionar servicio entre dichas LATAs, y además deberá ceder a AT&T todo equipo ubicado en premisas de clientes y alquilado a los mismos.

Estos cambios se han incluido en el propuesto arancel de tarifas de servicio revisado que Southwestern Bell ha archivado con la PUC. Dichas tarifas tendrán vigencia a partir del 1o de agosto de 1983, a menos que fueran suspendidas por la PUC; sin embargo, se espera que si seran suspendidas, y que las tarifas que en último caso establezca la PUC entrarán en vigor a partir de fecha 1o de enero de 1984 aproximadamente. Si las tarifas entrarán en vigor tal y como se han archivadas, aumentarían en un 48.2% los ingresos no-ajustados de Southwestern Bell para año de prueba (unadjusted test year revenues), ó sea un aumento de 76.36% en los ingresos de Southwestern Bell para año de prueba, ajustados para reflejar el efecto del desposamiento entre Southwestern Bell y AT&T. Cualquier cambio en las tarifas para cualquier servicio tipo-interLATA que proporcione AT&T ó una compañía subsidiaria después del 1o de enero de 1984 podría afectar a los clientes de Southwestern Bell Telephone Company.

Aviso a los Clientes de Otras Compañías de Teléfono

Aunque Southwestern Bell no ha propuesto un aumento en las tarifas para servicios tipo "intraLATA interexchange toll", cualquier cambio en dichas tarifas también podría afectar a los clientes de otras compañías de servicio telefónico. Southwestern Bell está proponiendo cambios en la estructura de los servicios actuales de línea privada (private line) y de intercambio extranjero (foreign exchange). Cambios en las tarifas para dichos servicios podrían afectar a los clientes de otras compañías de servicio telefónico. Cualquier cambio en las tarifas para cualquier servicio tipo-interLATA que proporcione AT&T ó una compañía subsidiaria después del 1o de enero de 1984 podría afectar a los clientes de otras compañías de servicio telefónico.

Fishing can be hazardous!

By Felicia Applewhite

The Ruby and Shorty Hartman annual fish fry June 18th included a savory plate of white bass fresh from Lake Falcon, of course, but also featured colorful accounts of experiences in and around this big lake near the little town of San Ygnacio.

These veteran fishermen are at home there. They stay at Rancho Hawaii, San Ygnacio's Camp built strictly for fishing.

This time, as usual, they met friends who had been there for the winter, as well as friends who were just returning for the season.

Too, when they first parked, they met some new friends who took great care to look after the "Old Couple" even to standing at the dock looking for their return from the lake following fishing.

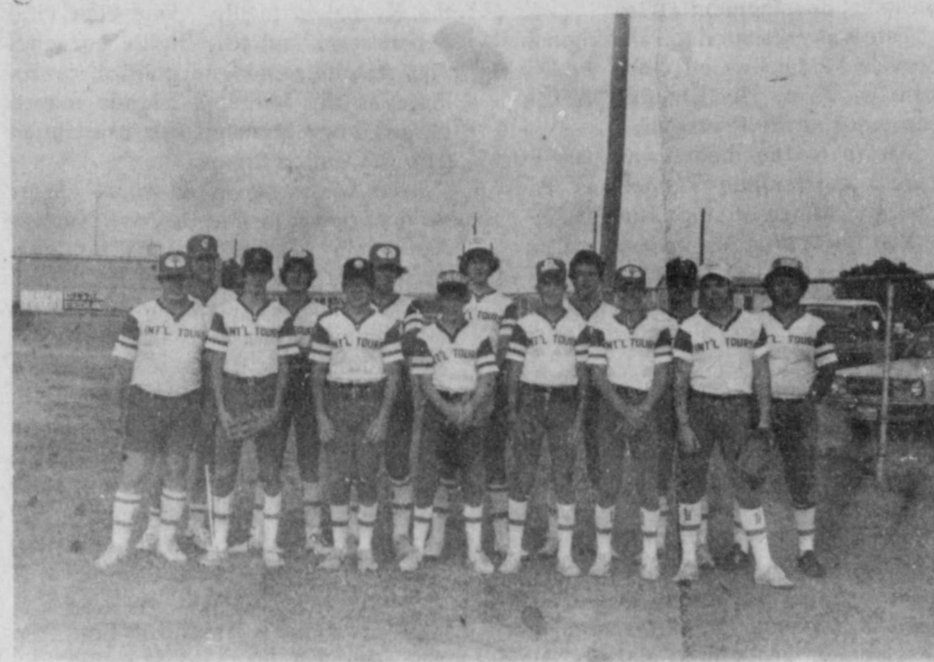

Any good fisherman knows that finding a good fishing hole is not always easy. It takes "quite a scramble" to get one. Once you get a hole, it's yours.

Two men ignored this fisherman fraternal understanding and "horned in" on Hartman territory.

Shouts of protest from the Hartmans did no good. When these shouts were ignored, Shorty used his own special method of eviction.

What is his method? Ask Shorty. Ruby won't tell.

Attending this year's fish fry were: Norman and Margurite Caldwell, Grace Foster, David and Frankie Hartman, Dr. Fred Howard and Sarah, Bud and Lorraine Nance, Goree and Felicia Applewhite, Darivin and Susan Barnett, David Lewis, Maudie and Reed Lawson, Vera and C.L. King, Weldon and Modina Cumbie and granddaughter, Tamatha Barker.

Cedar Hill News

By Grace Lemons

It is cloudy today and very hot and dry. Wheat harvesting is in full swing hoping to get it out before it rains. Wheat is turning out better than first thought.

Sandra Mitchell left Monday to be a counselor at the Assembly of God camp at Roaring Springs this week.

Peat Kelley visited Imogene Fortenberry and daughter, Nelda Jarnigan of Dallas Monday.

Happy Birthday to Mattie Davis on Thursday the 2nd!

Happy Birthday to Martha Taylor on Sunday the 26th! Her husband, Junior, helped her celebrate the event by eating out.

Holly and Robin Conner of Amarillo spent the week with their grandparents, Mr. and Mrs. Jim Conner, Mr. and Mrs. Billie Fourn, Sarah and Marty of Arizona arrived Saturday to visit with his grandparents, the Connors. Robert and Gween Conner of Amarillo had dinner with them and took the little girls home.

Mr. and Mrs. Billie Fourn and girls, Holly and Robin Conner were visitors at the Cedar Hill Baptist Church Sunday.

Mr. and Mrs. Jim Conner and granddaughters, Holly and Robin Conner visited Norma Welch Friday evening.

Pauline VanHoose and sisters, Eula Mae Wilson, and Louise William of Missouri visited Belle Lemons, Tom and Gladys Fortenberry, Mr. and Mrs.

Cephus Fortenberry, Peat Kelley and Norma Welch Wednesday. Cedar Hill was home for the girls while they were growing up and they spent the day seeing places that were dear to them. They ate a picnic lunch at the Fortenberry home where they once lived and had cake and ice cream later in the home of Mr. and Mrs. J.A. Welch.

Mr. and Mrs. W.N. Anderson visited Mr. and Mrs. A.S. Mize Friday evening.

Bud Henderson had lunch with Mr. and Mrs. A.S. Mize Wednesday.

Grace Lemons visited Sylvia Yeary in Lockney Monday afternoon.

Nelda and Wayne Jarnigan left Thursday for their home in Dallas after spending a week with her parents, Mr. and Mrs. Cephus Fortenberry.

Gladys Fortenberry went home with her granddaughter Paula Vick to Arlington to spend several days. She is expected home this week.

Edna Gilly met her daughter, Delise Harrison in Ralls and Casandra returned home with her to drive the truck during wheat harvest. Delise Harrison came Saturday and took Casandra home to Lubbock and Christy is staying this week with her grandmother, Ruthie Clark of Plainview also visited them Saturday.

The best way to forget your own problem is to help someone solve his.

Twyla Lemons entered the Caprock Hospital Sunday night with a bad kidney infection. We trust that she will improve rapidly.

Meat producer fined for supplementing income

Thomas J. Burke, president of Great American Veal, Inc., Newark, New Jersey, has been found guilty of 23 counts of supplementing the income of a U.S. Department of Agriculture official.

Burke was fined \$500 and sentenced to three years probation on each of the 23 counts, by the United States District Court, Newark, New Jersey.

In late 1978, Michael Gabriel - a veterinarian with USDA's Food Safety and Inspection Service - reported to USDA's Office of Inspector General that Burke was offering him funds to relax

the enforcement of USDA requirements. After reporting the incident, the Office of the Inspector General instructed Gabriel to accept payment so that evidence could be gathered to support a criminal action.

The payments amounted to over \$5,000 during a year and half period. However, Gabriel ensured that no unwholesome meat ever entered the food supply. Gabriel recently received USDA's Special Achievement Award for his role in aiding the investigation.

DEMENCIO GOMEZ

ANTHONY HENEGAR

Automotive mechanics at Wayland's I.O.C.

The Automotive Mechanics program at Wayland's Vocational-Technical Division, is designed to open doors to career opportunities for those interested in helping keep the motoring public on the move.

The automotive industry is very diversified, thus offering a wide range of employment opportunities for students who acquire the basic skills and knowledge taught in the International Occupational Center's automotive program.

The instructor for the Automotive Mechanics program is Mr. Anthony Henegar and his assistant is Mr. Demencio Gomez. Mrs. Henegar's impressive experience includes 8 years of Automotive Mechanic instruction with South Plains College, where he was instrumental in starting the program. He also has 14 years diversified experience with several General Motors dealers as an auto mechanic and service manager.

Mr. Gomez gained his experience as a mechanic in both a Chrysler and Ford dealership in the Dallas and Houston area. He also taught auto mechanics at the high school level.

The Automotive Mechanics Program, of 4 semesters duration, is designed to train the student to service gasoline-powered automobiles, light trucks, and other gasoline-powered small equipment. Specific areas of training include:

- (1) Major engine service (2) Manual and automatic transmission service (3) Rear axle and drive line service (4) Air conditioning equipment service (5) Service anti-pollution devices (6) Front wheel alignment and wheel balancing (7) Brake systems service (8) Tune-up

and carburetion service (9) Steering/gear and linkage service (10) Service or replacement of auxiliary equipment (11) Fuel injection pump and injector service (12) Trouble-shooting procedures (13) Shop management procedures.

Men and women who are interested in pursuing a career that requires a knowledge of automotive service skills, or any person wishing to become more economically independent through automotive service skill development is welcome to enroll in the program at an attractive cost of \$30.00 per semester hour plus equipment and lab fees.

For more information and and Application for the Fall Semester, contact international Occupational Center, Wayland Baptist University, Plainview, Texas 79072. Telephone: (806) 296-5521.
