realignments for Texas high schools. Lockney, as expected dropped from district 3-3A to district 4-2A.

The redistricting was based on average yearly enrollment of the high schools. The enrollment figures came from the last two years from each school. The figures used by the UIL for classes 2A and 3A were, for 3A 275-649 and 2A 135-274 and at the present Lockney has 190 students enrolled in high school. Lockney will remain a 2A school for the next two years and superintendent W.H. Hallmark expects Lockney to remain a 2A school as the enrollment has stabilized in the high

Both Hallmark and high school principal James Poole feel that Lockney will have a more competitive chance with the drop to 2A and Hallmark stated that for the last 15 years since he became superintendent, Lockney has been pitted against schools that were larger in attendance than Lockney.

The only fear by Lockney school officials had about the redistricting was that Lockney might be put in a class where the football and basketball games might be far from Lockney, but the tentative schedule for the 1984 football season is as follows: Tulia here, Dimmitt there, Floydada there, Hale Center here, Abernathy here, and for the district games Petersburg there, Paducah here, Crosbyton there, Lorenzo, here, and Ralls there. Scrimmages for the 1984 season are Post and New Deal and both games will be in Lockney.

# Fire Department to attend advanced first aid classes

The Lockney Volunteer Fire Dept. will begin E.C.A. (Emergency Care Attendant) classes Thursday, November 3. This training is a very advanced First Aid course consisting of 40 hours of lecturing and training skills. Then a test given by the Texas Department of Health must be passed.

The ECA courses are mandatory after the Texas Legislature passed a law which reads that starting in January 1984 there must be at least one ECA in the ambulance. In 1985 there must be at least two ECA's in the ambulance. Failure to do so could lead to stiff fines and law suits.

The L.V.F.D. will be involved in the classes to meet the requirements of this law and the T.D.H. Each class will start at 6:30 p.m. each night and will end about 10:30 p.m. If all goes well, the test will be given about the middle of December. The ECA classes cost \$65 for each student and about \$20 for books.

# **Matt Williams wins last** weeks football contest

Last week's football contest apparently contained several upsets. Grading these contests I begin to wonder if we would have a winner with fewer than eight wrong. However, as the grading progressed I found two entries with only five wrong the third place winner had only seven wrong.

Matt Williams is the first place winner. Matt had only five wrong answers and the closest to the tie breaker score. Matt will receive \$10.00.

This week's second place winner is Bernice Reynolds. Bernice also missed only five of the games but was 12 points off on the tie breaker score. She will receive \$6.00.

The third place winner is Pat Stansell.

Pat missed seven of the games and was only four points off the tie breaker score. Pat will receive \$4.00.

This week there are four honorable mentions this week. All four missed seven games, but were from 7 to 29 points off the tie breaker score. These four people are Roy Saucedo, W.L. Carthel, Richard McCarty, and Debby

Missing this week from the top tree are regulars Randall Stapp and Karla Josey. Both missed eight games on

# Revival to be held at First Baptist Church

Revival services are scheduled at First Baptist Church, Lockney, November 6-13. Murle Rogers, Pastor, extends an invitation to the community to participate in the meetings. Sunday services begin with Sunday School at 9:45 a.m. and worship at 11:00 a.m. Church Training is at 6:00 p.m. and evening worship at 7:00 p.m. Weekday services are at 12 noon (lunch in fellowship hall) and 7:30 p.m. (choir practice and group prayer meetings at 7:00 p.m.).

The visiting evangelist, Rev. Clarence Branch of Anson, Texas, will be preaching each service Sunday evening (Nov. 6) through Sunday morning (Nov. 13). Bro. Branch is former pastor of Calvary Baptist Church in Brownfield (1970-1978). He has served on the associational level as Moderator, Evangelism Chairman, Clerk, Vice-Moderator, and Director of the Church Related Division. Branch served as President of the 1982 Big Country Pastor's and Laymen's Conference held at Hardin Simmons University, and has preached revival meetings in Brazil, California, Kansas, Oregon, North Dakota and over most of the state of Texas.

Buddy Wells, Church Services Director of the Caprock-Plains Area, from Plainview will be directing the music program for the services. Wells has served as Minister of Music and Education in churches at Springtown. San Antonio, Fort Worth and Littlefield. He was serving as associate pastor at Brookwood Baptist Church in Shreveport, Louisiana before accepting his present position with the Caprock-Plains Area.

□ AGAINST THE CONSTITUTIONAL AMENDMENT AUTHORIZING USE OF THE PERMANENT SCHOOL FUND TO GUARANTEE BONDS ISSUED BY SCHOOL DISTRICTS.

#### \* \* \* EXPLANATION \* \* \*

The Permanent School Fund (PSF) is a perpetual trust fund made up of income from public lands that are constitutionally set aside for the support of the state's public schools. The cost of administering the PSF is currently paid out of general revenue. Earnings from the PSF, together with certain taxes make up the Available School Fund (ASF). The ASF is distributed annually to the local and the school Fund (ASF). is distributed annually to the local school districts and is applied to their personnel, maintenance, and

ion costs. There is no state program to assist operation costs. There is no state program to assist school districts with construction costs, which are usually financed through the sale of school district

This proposition authorizes the legislature to enact laws providing for the use of the PSF and income from the PSF to guarantee bonds issued by school districts. It also would permit the legislature to appropriate money from the ASF to administer the PSF or any bond guarantee program established by

#### \* \* \* FOR \* \* \*

 A bond-guarantee program, by improving most school districts' bond ratings, would lower the interest they must pay on bonds. Because of the state's population growth, many districts face increasing needs for school construction.

A bond-guarantee program would pose virtually no financial risk to the state as records indicate that the likelihood of default is very small.

□ AGAINST (Wording on Ballot) THE CONSTITUTIONAL AMENDMENT AL-LOWING THE LEGISLATURE TO PROVIDE FOR ADDITIONAL REMEDIES TO EN-FORCE COURT-ORDERED CHILD SUP-PORT PAYMENTS.

#### \* \* \* EXPLANATION \* \* \*

Since 1876 the Texas Constitution has prohibited the garnishment of wages-that is, seizure of person's current pay to satisfy the claims of creditors. This constitutional prohibition has been interpreted as a bar to any Texas law permitting interpreted as a bar to any texas law permuting involuntary withholding of wages to satisfy court-ordered child support obligations—a mechanism used in 47 other states to enforce child support orders. Single-parent families are the fastest growing family group in the United States and the number of who have been ordered by a court to support

their children has risen sharply. Along with the rise of court-ordered child support payments has come a rise in the number of parents who do not obey those orders and fail to provide adequate support for their children. Texas law requires that parents support their unmarried minor children. #### \* \* \* EXPLANATION \* \* \*

This amendment authorizes \$300 million in additional bonds for the Veterans' Land Fund and \$500 million to create a Veterans' Housing Assistance Fund. The new Housing Assistance Fund would be managed by the Veterans' Land Board, a three-member board chaired by the State Land ner which now manages the veterans Land Fund. The amendment also authorizes the Veterans' Land

Board to use future income of the Funds (over and above amounts needed to retire outstanding bonds) to finance additional loans from either Fund. The Constitution now requires that Veterans' Land Fund income not required for bond payments be deposited in the General Revenue Fund. In addition, the proposed amendment authorizes the Board to issue revenue bonds to provide further financial assistance to veterans for either land purchases or home mortgages. No limit is placed on the amount of revenue bonds that the Board may issue. Thus, the loan programs could be continued indefinitely without further bond authorizations by the voters.

The Veterans' Land Program was created by a The Veterans' Land Program was created by a 1946 constitutional amendment with an initial bond authorization of \$25 million. Since that time Texas voters have approved six amendments adding to the Land Fund. The total amount now authorized is \$950 million; however, no loans have yet been made from the \$250 million in bonds authorized in 1981.

Over the years, more than 77,000 veterans have received assistance in purchasing more than four million acres of land through the Veterans' Land Fund. Because of a minimum acreage requirement of 10 acres, virtually all of this land has been in rural

Present legislation limits financial assistance from the Land Fund to a maximum of \$20,000 to any veteran, with a 5% down payment required. The proposed new Veterans' Housing Assistance Fund would make available 40-year \$20,000 home mortgage loans at rates similar to those for the Land Program. These loans would be handled through commercial lending institutions, which could provide any additional financing needed by

These loans would probably be offered on more favorable terms than mortgages available through the federal VA and FHA programs

Additional home purchases by veterans would stimulate the home-building industry and the state economy. Thousands of new jobs would be created.

• The proposed Housing Assistance Program would have an even broader appeal than the existing Land

Another section of the Tax Code exempts real and tangible "purely public charity" standard imposed by the personal property of certain "charitable organizations" that are organized exclusively to perform

(Wording on Ballot)
THE CONSTITUTIONAL AMENDMENT PRO-VIDING FOR ASSIGNMENT OF JUDGES OF STATUTORY PROBATE COURTS TO OTHER STATUTORY COUNTY COURTS WITH PROBATE JURISDICTION AND TO COUNTY \* \* \* EXPLANATION \* \* \*

The Texas Constitution provides that each county shall have a county court. The elected county judge who presides over commissioners court and is the chief executive officer of the county also presides over the county court. Each of the cons county courts has general jurisdiction over probate matters - registration of wills, administration of estates, appointment of guardians, and commitment of the mentally impaired. The legislature has created more than 100 statutory county courts to relieve the

county judge of some or all judicial duties. Many of these courts have some probate jurisidiction. Eleven specialize in probate matters--three in Dallas specialize in probate matters-three in Dallas County, three in Harris County, two in Bexar County, and one in Galveston County.

Under this proposal statutory probate-court judges would be allowed to substitute in any county in the state for another judge of a statutory county court with probate jurisdiction or for the judge of the constitutional county court. Implementing legislation provides that the probate judges would elect one of their number to serve as statewide vessible ruled.

of their number to serve as statewide presiding judge for four years. That judge would be empowered to assign probate judges to substitute in any county in the state where needed. Both active and retired probate judges would be eligible for such

#### \* \* \* FOR \* \* \*

• Probate cases can involve complex questions of law. Constitutional county judges are not required to be attorneys. Some statutory county judges may be unavailable or disqualified to sit on some probate

cases. Although probate cases can be transferred by cases. Although probate cases can be transferred by the constitutional county judge to the district court or a special judge may be appointed in certain cases, these options are generally unsatisfactory. Appoint-ment of a special judge is cumbersome and the appropriate district judge may have overcrowded dockets of his or her own. It would be more efficient and more effective to allow judges with special expertise in probate matters to hear cases when emergencies arise outside their home counties.

#### \* \* \* AGAINST \* \* \*

• Transferring special probate judges around the state would mean that those judges might be unavailable in their home counties. The constitutional county judges would be tempted to disqualify themselves on the slightest excuse. If a county needs a statutory court with probate jurisdiction the legislature should create that court rather than shift the load to a few overburdened probate court judges. • Constitutional authority is not required for the legislature to regulate the administration of statutory courts.

THE CONSTITUTIONAL AMENDMENT TO PERMIT A CITY OR TOWN TO EXPEND PUBLIC FUNDS AND LEVY ASSESSMENTS FOR THE RELOCATION OR REPLACEMENT OF SANITATION SEWER LATERALS ON PRIVATE PROPERTY.

#### \* \* \* EXPLANATION \* \* \*

When it is necessary for a city to relocate a sewer main, sewer laterals belonging to private property owners must also be relocated. #### THE ASSESSOR-COLLECTOR ELECTION

The Texas Constitution, Article 8, Section 16, provides that in any County n Texas having a population of less than 10,000 as determined by the last preceding United States Census, the Sheriff shall be the Assessor and Collector of Taxes, in addition to his other duties, but further provides in Section 16a of the same Article that in such a county, if a majority of the voters, in an election called for that purpose by the Commissioners Court, vote to add the office of Assessor-Collector of Taxes to the list of authorized county officials, an Assessor-Collector of Taxes shall be elected at the next general election.

The population of Floyd County having dropped below 10,000 in the 1980 United States Census, the office of Assessor-Collector of Taxes will cease to exist upon expiration of the term of office of the present incumbent in 1984. and the Sheriff will at that time become ex-officio Assessor-Collector of Taxes in addition to his other duties, unless the voters of the County on November 8, 1983 vote to add the office of Assessor-Collector of Taxes to the list of authorized county officials.

It is obviously inaccurate to say that the issue in the election is whether the Assessor-Collector of Taxes shall be elected by the people or appointed by the Sheriff; if the voters vote not to add the office of Assessor-Collector of Taxes to the list of county officials, the Sheriff, himself a duly elected official. will become the Assessor-Collector of Taxes in addition to his other duties.

It is reasonable to assume that any Sheriff having, in addition to his duties as Sheriff, the duties of the office of Assessor-Collector of Taxes, would appoint a deputy or deputies to assist in the performance of such additional duties, just as the Assessor-Collector of Taxes has always done, but, in view of the fact that the responsibilities of the Assessor-Collector of Taxes have been reduced by at least one-half by the transfer in 1982 of all duties of assessment and collection of taxes to the Floyd County Tax Appraisal District, leaving the Assessor-Collector of Taxes with only the functions of registration and transfer of motor vehicles, and voter registration, it is not reasonable to assume that the deputy or deputies appointed by the Sheriff to assist in performance of those functions would necessarily receive the same salaries as the present incumbent of the office and her deputy, whose salaries were fixed at a time when the major function of the office was the assessment and collection of taxes.

The decision is one to be made by the voters, but that decision should be

made in the light of the actual facts as they exist.

· Expansion of the Board of Pardons and Paroles and the removal of the governor's power to revoke parole are two of the recommendations designed to eliminate overcrowding of prisons which were pro-posed by the 1982 Governor's Blue Ribbon Commis-sion on Comprehensive Review of Criminal Justice

#### \* \* \* AGAINST \* \* \*

• The present gubernatorial veto power over paroles is an important safeguard to ensure that only capable and rehabilitated offenders are released from prison. The governor's staff need not investigate each case as closely as the board in order to

• The power to deny parole gives the governor the discretion to be tougher than the board.

• Additional appointment power given to the governor in the enabling legislation does not compensate for the loss of direct power to prevent selected releases from Texas prisons.

Sheila Faulkenberry, Chief Appraiser Floyd County Central Appraisal District Floyd County Courthouse, Room 107 Floydada, Texas 79235

#### Dear Ms. Faulkenberry;

Last fall, 1982 taxable property values and amounts of tax levy were finalized. The Lockney Hospital District was only one of several taxing entities in Floyd County to contract with Floyd County Central Appraisal District for the assessment and collection services.

The 1982 Lockney General Hospital District total tax levy was \$219,619.88. During the 1982-83 fiscal year, which ended on September 30, 1983, the Floyd County Central Appraisal District collected and distributed \$211,230.64 in current taxes, \$7,113.06 in delinquent taxes, and \$3,515.94 in delinquent tax penalties and interests for a total of \$221,859.64 collected.

Based on the amount of current (82) taxes collected, as compared to total current taxes levied, 97% is the collection rate. Based on the \$221,859.64 collected, which includes current and delinquent taxes, the percentage of collections is calculated at 101%, when compared with the total tax levy of \$219,619.88.

The community should know that the hospital is very pleased with the service received from the Floyd County Central Appraisal District because of its performance in the areas of current and delinquent tax collection.

To this end the Lockney General Hospital District would like to publicly express its appreciation to the Floyd County Central Appraisal District and all of its employees for a job well done.

Sincerely, /s/ Guy Hazlett, II, Administrator

October 31, 1983

Dear Editor: There seems to be confusion concerning the upcoming election FOR or

AGAINST THE ADDITION OF ASSESSOR & COLLECTOR OF TAXES. According to the County Judge's article "the only issue here is shall the office be elective by the voters as in the past, or shall the sheriff appoint a person to fill this job." According to the law "when the population of a county is below 10,000, the Tax Assessor-Collector shall be the Sheriff of the County." If the voters vote AGAINST this proposal the voters will still have the right to elect the official as in the past. The only difference being the official will be Sheriff & Assessor-Collector.

The main duties of this office now are voter registration, motor vehicle registration and titles. The Sheriff & Assessor-Collector may hire a deputy (salaried as other clerical deputies) to perform these duties, resulting in a savings to the taxpayer.

All tax assessing and collecting has been consolidated into the Central Appraisal District office. This District was created to save tax dollars; however, this has not resulted as there has been no reduction of personnel in

National Bank Region Number\_

We now have the opportunity by our vote, on November 8, to eliminate some excess personnel, save tax dollars, and still retain voter discretion.

Yours truly. /s/ C.J. Payne C.J. Payne Box 206 Floydada, Texas

# Letter to the Editor

About twelve years ago major banks in this state started to combine with each other to form bank holding companies. Then the bank holding companies began absorbing smaller banks. These big banks bragged on their ability to loan hundreds of millions of dollars at a time. I had difficulty relating to this because a few thousand for a car, or several thousands for a home will do me just fine.

Sometime thereafter, I discovered that what was being deposited in Texas, was being loaned to third world countries because banks could charge them a higher rate of interest than what was legally allowable in this state. To me, this practice was both immoral and unfair because there was less money to loan the citizens of this state for their agricultural, commercial, and personal needs. To most folks though, I guess it was just free enterprise.

As we all know, the oil boom collapsed. Many third world countries are unable to pay off their huge loans. I secretly smiled and told myself that justice had finally caught up with the greedy bankers. However, even though no payments were made, the bankers did not declare a default. Something

was wrong. The banks were keeping the loans alive when the third world countries had absolutely no ability to repay them.

Recently, I learned that Congress will give the International Monetary Fund 8.5 billion dollars to loan to third world countries so that they can repay their debts to the major banks. (This will cost every man, woman, and child in this country approximately \$34.00 a piece). I surmise that we will continue to give the IMF money to loan to third world countries until the loans to the big banks are completely repaid, then the loans to the third world countries will be forgiven, and everybody will be happy.

I imagine that next year most of the candidates who get banking industry money will win their elections. I would venture that huge sums will again be spent by banks on lobbying the state and national legislatures. I guess the joke is really on me. Who knows, some day I may be officially working for a bank. Maybe they will even make me think I like it.

Sincerely. /s/ Paul O. Primrose Route 2 Hale Center, Texas 79041

Gabriel Rivera will not play any more football. For that matter, he may not walk again. His is another in a long list of those whose lives have been permanently changed due to alcohol. When

talking about the incident a few days ago, a friend said, "Tell me one thing that alcohol is good for, just one thing.' The advertisers of the liquor industry are busy trying to convince us that alcohol is a necessary part of our

enjoyment of life. Beef commercials tell us that weekend were made for drinking; that we are to bring out our best, implying that their product is part of that somehow; that the most important thing to consider when choosing a beer is not its alcohol contest as much as its taste and caloric value. Wine advertisers present the drink-

ing of their product as part of a cultured group, which you need not spend tremendous sums of money to enter: Or they present wine as a romantic addition to our lives, and even as a kind of adult soft drink.

Purveyors of harder liquor do their advertising in less visible arenas than television, but get the same messages across. In fact, I am convinced that the purpose of the industry is to convince younger folks, through television of the benefits of drinking, and then when they are older and begin reading magazines a bit more often, the ads they see are for hard liquor, perhaps suggesting that when you grow up you should move on to the harder stuff. I wish someone would check on that.

In truth, is there any benefit to drinking alcoholic beverages? Some scientists contend that the occasional beer or glass of wine may help reduce the possibility of heart attack. Old folk remedies have employed various alcoholic beverages. A bit of whiskey in the cough medicine, a glass of wine for a troubled stomach, a glass of beer to help the insomniac and the terribly thin; all a remedies which have adherents.

The question is whether the benefits outweigh the disadvantages, hours lost in work, accidents on the highways, lives lost or ruined, etc. The question is usually avoided by those who advocate liquor use. It is, they say a question of education and moderation. One cannot bring back prohibition, they cry. Individuals must make the decision for themselves, not society.

Next week, we shall examine that line of argument, and examine the scriptures to see what we may draw upon

## Energas becomes new corp

Pioneer Corporation (NYSE) has announced that its Energas Company division has been separated from Pioneer and established as an independent corporation, chartered by the State of

Pioneer Corporation is an energy resources corporation, with operations or interests in 18 states and in offshore areas. Energas Company is a natural gas distribution company, serving about 280,000 customers in a 30,000-squaremile area of West Texas. Both companies have their headquarters in Amarillo.

To make the separation, Pioneer Corporation transferred all of its gas distribution properties and the assets of the Energas division to the newlyformed corporation, in exchange for shares of Energas Company common

Pioneer then declared a distribution of the Energas common stock to Pioneer shareholders, on the basis of one share of Energas stock for each 20 shares of Pioneer owned as of October 28, 1983.

In a letter to Pioneer stockholders announcing the separation, C.D. Culver, president and chief executive officer of Pioneer, said: "The separation of Energas from Pioneer will give the gas utility business of Energas and the diversified energy operations of Pioneer the financial, operational, manageriai and regulatory flexibility necessary for their dissimailar activities to achievie greater efficiency and

Culver also told stockholders that Pioneer's directors believe the distribution of Energas stock is "in the best interest of Pioneer and Energas and their shareholders." The distribution, he said, is expected "to permit both Energas and Pioneer to comply more

appropriately with objectives of the investing public and thereby to provide a better market for their securities."

The new Energas Company will have assets of approximately \$97 million and is expected to have revenues of more than \$275 million for year 1983. Before the separation, Pioneer's assets were more than \$1 billion, and the corporation reported total revenues of \$1.1 billion for 1982.

Charles K. Vaughan, who served for the past two years as president of the Energas division, will be chairman of the board, president and chief executive officer of the new Energas Company. Energas will employ about 900 people, substantially all of whom were previously employed by the division.

The Energas stock received by Pioneer in the separation has been delivered to Morgan Guaranty Trust Company of New York, which will be the agent for distributing shares to Pioneer be furnished an information statement regarding the stock distribution, and stock certificates will be mailed about November 2

The distribution of Energas stock will not affect the regular quarterly cash dividend paid by Pioneer, Culver said in his letter to stockholders.

Pioneer Corporation's operations include exploration for and production of natural gas and oil onshore and offshore in the Gulf of Mexico; transportation of natural gas in West Texas; extraction and sales of natural gas liquids; contract petroleum drilling; sales of oil field supplies; exploration for uranium and precious metals; and sales and servicing of heavy equipment for construction and surface mining

Who's that man and what's he doing in our alley?

It could be Cliff Hardy from Energas' Lockney office.

You are apt to find him in a lot of places. His job is to check out gas equipment and lines to assure you of a dependable, safe supply of natural gas. Like in your alley. Besides carefully reading your meter, he checks for leaks and for any needed repairs or replacement.

So, when you see an Energas man in your alley . . . or in the heart of town, you can be sure he is there for a good reason.

Energas people can do and want to.

We have had an exciting week here. Last week we had two new residents come in from Silverton. Mrs. Weta Hill and Mrs. Bessie Hunt. We are glad to have them. On Thursday, we had a Halloween Carnival and prizes were furnished by the Athena Study Club and the Woman's Bible Group from First Baptist Church, Silverton. Thanks for making our day a special event.

Sally Rodriquez is back after taking a vacation. It's good to have you back

On Saturday, the Methodist Church had a Harvest dinner at noon. Several of the residents participated in the luncheon and had plates delivered to the center. Those taking part were Ida Rose, Roxie Workman, Alma McDonald, Myrtle Howell, Jewell Miller, Edna Hunter, Mavis Barton, Jessie Harris, Nena Loudermilk, Billie Self, Mary Green, Esker Pyle, Melvin Thacker, William Poole, Richard Lanham, and Mr. and Mrs. Clyde Hutsell. The staff reports they really enjoyed their lunch and had a good time visiting while they

time last Sunday, telling you, who we saw and what I did. This weekend was better, couldn't

Monday, 24th: Well, I had a good

have been any better.

We were nearing home and Bud asked me if I wanted to go to his sister's house, Louvaine Scaff was holding a family October birthday party which we' used to do years ago. And we all looked forward to the get-togethers. Bud had already told her, we might be down but he thought about the narrow door to the bathroom and I said we will go to

Steve's. When I remembered from last week they had already gone to Muleshoe. But now Bud tells me that Ann and Bruce are at Steve and Beverly's again. They had changed weekends with one of the hands who didn't have enough money, so would have to work. We went to Steves but found them just, eating breakfast. So went in to the house and hadn't been there 30 minutes when Chris and Joy came from Rotan. I downed everything and held my brand new baby granddaughter, her name is Kristi Lea Reyes. Oh she is so little and sweet. It is a wonderful feeling and hard to believe that my own children had once been that small and helpless.

We had some hard rain in places and where it hailed I guess it ruined the cotton, it just breaks your heart. While it was good weather the strippers really got after it. But when I went home yesterday, there were strippers, cotton trailers and tractors just stuck in the mud. What a big difference in the weather since I first came to Texas in 1954. Now we get storms and thunderstorms at the wrong time and winter was mild and we would get a late snow storm. Now we had snow as early as October 28 and Thanksgiving. The whole world is changing around.

It is difficult for me to distinguish between Iraq and Iran. There has been a bloody Iran-Iraq war going on now for four years. I did learn that there are cozy ties between anti-Israel Iraq and Egypt. Iraq needs both military and economic aid from Egypt because of the stalemated war with Iran. Egypt is doing all it can to aid President Hussein. of Iraq. Some 15,000 Egyptian 'volunteers' serve with Iraqi military units.

Cairo has shipped Iraq arms and ammunition. Why all this aid to Iraq? President Mubarak hopes that Egypt can regain its leadership among the Arab states. I think President Amwar Sadat of Egypt was assassinated because of his peace terms with Israel. Sadat was honored and respected even

by his enemies. Iraq President Hussein warns that he intends to use Elendards jets (ordered from France) to bomb oil facilities in Iran. Iran's Khomeini threatens that he would close the Persian Gulf if Iraq attacked. Some analysts believe that Iran is bluffing. So the war between the two continues.

I watched the Cowboys-Giants game today. It was a beautiful game with Danny White throwing five touchdown passes. The sportscasters, Jack Madden and Pat Summerall, commented how methodical, unemotional Landry and his Cowboys were and that they seemed to play football as a job well done. I think Coach Landry relishes his team and when they are playing well, there is a quirk of a smile tugging at the corners of his mouth. He seems to be a very gracious winner. I noticed today that after the game when the Giants coach came over to congratulate him that they not only shook hands but that Landry momentarily grasped his elbow.
