LOCKNEY HIGH SCHOOL BAND MEMBERS are pictured with both the first place marching trophy and their sweepstakes trophy. Also pictured are 11 Junior high students who played with the band at the contest.

Longhorn Band wins Sweepstakes

The 1984-85 school year has proven to be a successful one for the Lockney High School Band. It all began in the fall. On October 20 the band traveled to Jones Stadium in Lubbock to compete in the Class 2A Marching Contest. They came away winners, receiving a first division and being chosen as an alternate to the regional marching contest held in Odessa. The Division I rating made the band eligible for a

"Sweepstakes" award if they could attain a first division in the spring in both concert and sight reading contest.

Sweepstakes became a reality last Wednesday, March 27, in competition at Littlefield. The Longhorn Band came home with the only Sweepstakes winning band in Class 2A.

Pictured in the photograph are the Lockney Band members who participated in the recent contest. The two

trophies include Division I Marching and Sweepstakes trophies.

All of the Longhorn Bands (grades 5-12) will be featured in concert on April 14 at the elementary cafeteria. This will be the annual spring salad luncheon. The students and the Lockney Band program would appreciate your support and pride displayed by attending the luncheon and concert.

Lockney General Hospital opens new health agency for homebound patients

Services at Lockney General Hospital have been expanded through the opening on February 4, 1985, of the Lockney General Hospital Home Health Agency.

The agency is directed by Janice Hatcliff, R.N., whose office is in Lockney General Hospital. The agency utilizes hospital referrals from physicians in Lockney and neighboring towns, and provides services in a multi-county area, including Floyd, Motley, Briscoe, Hale, Hall and Swisher counties. The agency is licensed by the Texas Department of Health.

Lockney General Hospital Home Health Agency is a non-profit organization governed by the hospital's board of directors. The program is under the supervision of hospital administrator, Terry Keltz. The agency is guided by a professional advisory committee made up of physicians and registered nurses who advise on medical and nursing policies. This system will assist the

agency to maintain maximum standards of service.

With orders from a patient's attending physician, the agency will provide health care to homebound patients. Services are available 24 hours a day, seven days a week. Payment for the agency's services are made through the following sources with approval: medicare, Medicaid, private insurance and private pay. Some other sources may also be available.

Services are available on a per-visit basis and only by physician's orders. Visits from the staff are available on a scheduled basis as well as for emergencies. Examples of service include catheterizations, cardiac management and instructions, teaching and training self-care, rehabilitation, intravenous, injections, medication evaluation, drawing blood for laboratory tests, monitoring blood pressure and vital signs,

nutritional guidance, feeding tubes, inhalation treatments and instructions, enemas, bed baths and other personal care. Also, home health aides are available to assist in providing personal and environmental care.

When ordered by a physician, physical therapy will be provided by a registered physical therapist. Physical therapy will be given by or under the supervision of the registered physical therapist, who may be assisted when needed by a registered nurse, licensed vocational nurse or home health aide.

Clients with special problems such as speech, hearing or handicaps may be serviced by the agency when possible, or proper referral to other resources will be made.

Sometimes supplies, such as linen savers, sterile dressings, syringes, needles and enema supplies, are furnished. If needed, clients will be assisted to make arrangements for other needed equipment and/or supplies from the dealer of their choice. When physicians order items such as hospital beds, wheelchairs, walkers, canes, crutches, bedpans and urinals, trapeze bars and many other items, these may be made available to the homebound patient.

Agency director Hatcliff emphasizes that all clients are treated without regard to race, color, creed, sex, national origin or handicap. The requirements for admission are the same for all. There will be no distinction made in eligibility or services provided to patients.

Furthermore, Hatcliff says, "When services are rendered in a patient's home, we at Lockney General Hospital Home Health Agency realize that we have been invited into one's life in a very personal way. It is the policy of Lockney General Home Health Agency to show respect, to allow the patient his/her rights to dignity, and to keep all matters confidential."

In times like these... By Mary Jo Fielding

President Hosni Mubarak is Egypt's cautious man with a mission. He is as solid as the Sphinx and is a chunky man who runs Egypt with the same methodical way he once used as a pilot of Soviet-made jets. On his visit to Washington March 9-13 the Egyptian hoped to persuade President Reagan to receive a delegation of Jordanians and Palestinians as a prelude to joint peace talks with Israel.

Mubarak is brisk in manner and well-read. He caught Sadat's eye in the early 1970s. The Moscow-trained Air

Force officer master-minded the surprise air attack on Israeli troops in the Sinai. That sparked the 1973 Arab-Israeli war. Within two years Sadat had named Mubarak as Vice President. Mubarak was so loyal to his chief that some called him "Sadat's Sadat."

Mubarak was at Sadat's side on the receiving stand that bloody day in 1981 when Moslem fundamentalists gunned down the Egyptian President. Mubarak's steadiness healed the trauma of Sadat's assassination and may now lay the foundation for restoring Egypt's international prestige.

Main Street Church of Christ has slated meeting

The Main Street Church of Christ of Lockney, located at 501 South Main has planned a gospel meeting for April 10-14. Lynn Hixon of Willow Springs Missouri will be the guest speaker.

preacher training school and also a preaching school in Ava Missouri where he was instructed by Cliff Stewart.

Hixon obeyed the gospel in 1947 and preached his first sermon in 1949. He began Sunday morning preaching in 1956 and has preached and taught training schools in several states. He has done radio work for over 25 years, and has also done some television and writing.

A series of sermons entitled "Our Heavenly Father" is planned for the meeting. April 10-13 services will begin at 7:30 p.m. and on Sunday April 14 services are planned for 10:30 a.m. and 6:00 p.m. Early morning services are also planned for April 11-13.

Hi everyone!
It has been a very busy week around here. I would like to remind everyone Friday, April 5, is our Easter Egg Hunt. Come by and share the day with us helping the residents find their eggs.

Monday was arts and crafts day. We cut out paper to make Easter rabbits.

Tuesday eight of the residents and I went on the bus ride to Floydada and

were treated at the Dairy Queen with ice cream cones. The home welcomes in Mrs. Rosa Lee Lackey. She is making new friends.

Wednesday was exceptionally quiet. Thursday a class of elementary students came to visit the residents. They shared their Easter eggs with the residents. The residents really enjoyed their visitation.

Friday we played bingo. We had several winners. We all enjoyed punch and bananas during the game. Later there was a council meeting with the residents. They made no changes.

Our hearts go out to the Barton family and Mrs. Myrtle Payne's family. Both ladies passed away over the weekend. Saturday we welcomed Mrs. Hernandez into our family.

We will be looking forward to seeing you for the Easter hunt Friday, April 5.

Are drugs a problem in county?

This guest editorial was written by a mother and civic servant to the community in many capacities for the benefit of our readers who are concerned with the welfare of our community.

Drug abuse is a problem in Floyd County, among adults and teenagers and even down into the elementary school. All parts of the county are dealing with this problem, and parent groups in various places have discovered guidelines that can help the parents of Floyd County to both detect and prevent drug and alcohol abuse.

A group called Parents Who Care in Palo Alto, California, gives the following suggestions about preventing drug and alcohol abuse:

1. Teenagers should be required to stay home on school nights except for school or community events. (No running the streets or driving around aimlessly.)

2. Weekend curfews should be determined, preferably by several parents working together. Suggested curfews are: 11 p.m. for 9th graders; 11:30 p.m. for 10th graders; 12 midnight for 11th graders; between midnight and 1 a.m. for 12th graders

3. Contact parents who are hosting parties to find out if there will be adult supervision and whether drugs and

alcohol will be permitted.

4. Parents who host a party should be visible and feel free to ask anyone using drugs or alcohol to leave.

5. Parents should get to know their children's friends and parents.

6. When your child is to spend the night away from home, contact the parents or adults in charge to make sure that there will be adult supervision.

It may be difficult to face the fact that your child may be experimenting with drugs, and it is not always easy to get real evidence, but Parents for Drug-Free Youth suggest that parents look twice anytime that they see the following:

1. Sudden changes in behavior, such as coming in late, avoiding family gatherings, or extreme hostility;

2. Secrecy, and more time spent alone in their room;

3. A drop in school performance, an increase in lateness or absenteeism, a loss in interest in sports or extra-curricular activities;

4. A change in friends, especially association with known drug users;

5. An increase in requests for money, unexplained disappearance of valuables, suspicion of shoplifting or theft;

6. Disappearance of pills or liquor from your cabinets;

7. Repeated lying. Many teenagers exhibit some of these characteristics on occasion, so the thing to look for is a change in behavior.

What do you do if you suspect that your child is abusing drugs?

1. If you are very sure, snoop. This is the one case where you are justified in violating your child's privacy in order to protect him or her from serious harm.

2. Take a firm stand against drug and alcohol abuse, but try to stay as calm as possible.

3. Educate yourself about the harmful effects of drug abuse and present the facts to your child.

4. There are medical tests that can usually determine if your child is using drugs, especially marijuana.

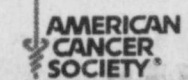

5. Realize that you cannot reason with your child unless he or she is drug-free! It takes a marijuana user a minimum of 3 weeks to become drug-free.

6. If you need advice, call 1-800-554-KIDS. (Parents for Drug-Free Youth).

Teenagers make a lot of noise about parental guidelines, but down deep inside, they secretly want guidance and are relieved when they get it.

These people and 3 million others have something to celebrate. They beat cancer. We are winning.

Colt Golden receives extra premium from Houston

This past week Colt Golden was notified that he would be receiving an additional \$4000.00 premium on his lightweight crossbred steer which he showed in Houston. This additional premium is for exhibiting the grand champion beef carcass at the show.

Colt's steer had won the lightweight cross division at the show and sold for \$8.00 per pound, weighing in at 1010 pounds. After the sale, the carcasses were judged by Dr. R.G. Kaufman, carcass evaluator of the University of Wisconsin.

He chose the Golden steer as the grand champion carcass. The 1010 pound steer yielded a 685 pound carcass

and had a dressing percentage of 67.8. The carcass graded high choice, and was the only carcass to receive this grade. The carcass has an adjusted fat thickness of .30 inches, a 14.3 square inch rib eye and 2 percent kidney, heart, and pelvic fat. Maturity was rated "A" and the marbling evaluated at Moderate O; yield grade was 1.7.

The reserve grand champion carcass was a Maine-Anjou and was exhibited on the hoof by Buddie Latham of Breckenridge, and earned an extra premium of \$2000.00. This steer was the first place heavyweight Maine-Anjou.

High Yields & Good Fiber Are In The Bag!

The seed is the most important investment you make in a crop...

*GP 3774

"A WINNER"—Early, high yielding, used by cotton producers from the Valley to Western Oklahoma. Can be picked or stripped.

GP 3755

Larger bolls, more glabrous (less hairy) than GP 3774. In some areas, generally the lighter sandy soils, may out produce 74 Plant and compare. It may be the cotton for you.

GP 5479

"THE FAST ONE"—Very early, excellent seedling disease resistance and very good seedling vigor. Compared to GP 3774 and GP 3755, it is more compact with a shorter stalk. Added storm resistance is another plus. GP 5479 is well adapted to irrigated and dryland production.

GP 1005

Early, semi-determinate with maturity comparable to GP 3774. It has a shorter stalk, larger bolls, and added storm resistance. Lint percentage turnouts have been excellent. This variety has shined the brightest when temperatures were high and rainfall was short.

- HIGHER GERMINATION
- MORE VIGOROUS PLANTS THAT CAN BETTER RESIST SEEDLING DISEASES
- HIGHER LINT YIELDS
- MORE UNIFORM EMERGENCE UNDER ADVERSE CONDITIONS
- FASTER DEVELOPMENT OF HEALTHY ROOT SYSTEMS

All GP varieties adapt well to both conventional and narrow row production. Call or write for specific information regarding competition yield and field performance test for your area.
