

Lockney Senior Citizens organized

PLANNING SESSION—A portion of the gathering attending a Thursday organizational meeting of Lockney Senior Citizens is pictured. Another session is

planned this Thursday.

Staff Photo

Lockney Senior Citizens organization got off the ground and airborne last Thursday.

During a second meeting today (Thursday), additional discussion about a permanent center, ideas concerning activities and formal organization will be presented. The gathering is scheduled for 3 p.m. at the Community Center (former Legion Hall, near the swimming pool).

Forty-two persons, primarily senior citizens and a few guests, registered for the initial meeting, also held at the Community Center. Others may not have signed the register.

Named to the board of directors were Laverne and Clementine Carthel, Claude Brown, Merle Wofford, O.C. and Wynona Allison, C.L. Henderson, Harley and Edna Workman, Earl Minter, Elmer Swafford, Helen Hodel, Willis Reynolds and Velma Harrison.

Officers are to be elected from the board, which will possibly be enlarged.

Brown has agreed to serve as finance chairman. Henderson and others are investigating a specific building.

Teams headed by Mrs. Hodel and the

Allisons have visited neighboring centers this week. They will present ideas and observations gained from the visits during today's meeting.

ORGANIZATION OUTLINED

Robert Work of Crosbyton, longtime Crosby County judge prior to his retirement on Jan. 1, told the group that "not over a third this many people" attended the initial senior citizens meeting in Crosbyton.

Ten years later that town has one of the more active senior groups on the South Plains, an ultra-modern center and averages 53 persons per meal.

The Crosbyton center serves noon meals three days a week. Most centers, but not all, also serve noon meals, ranging from one to five days weekly.

"I wouldn't worry a minute" about assuming a major indebtedness for a building," said Judge Work, who was an original board member in his home town, "even \$30,000 to \$40,000." He added that communities are especially receptive to and generous with activities of senior citizens and youngsters.

After completing a new \$40,000 structure, plus the cost of equipment, the Crosbyton group owed \$11,000. This indebtedness was quickly retired. The organization presently is "almost self sustaining" financially.

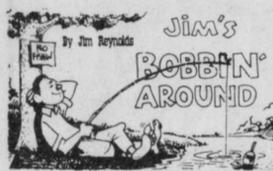

Dickens senior citizens recently occupied a new building, which was financed by a federal grant. "Grants are not easy" to acquire, Work emphasized.

By contrast with the new buildings at Crosbyton and Dickens, Ralls' group was given an existing building and Lorenzo renovated a former "scout hut."

FORMALITIES

Judge Work told the Lockneyites that formal organization — charter, by-laws, incorporation, etc. — "is not a complicated procedure." He explained that

'GRANDPARENTS BRAG PAGES' -- OUR FAVORITE

"Grandparents Brag Pages" has been one of our favorite features for years. The Valentine special event enables grandparents to show off their own youngsters.

Nothing is as warming as seeing P-R-I-D-E written all over the faces of the grandparents when they come in with the pictures, often with more than one photo and we decide together which will reproduce best.

Oftentimes, we have not had an opportunity to actually see the children -- most of whom live in other places -- but we remember when most of their parents were about that age.

The last year we operated the Crosbyton newspaper, an entire section was devoted to Valentine hearts. That was about 160!

Thanks to all the grandparents -- and parents -- who share pictures of their youngsters with us and with readers.

I AM A CUSTOMER

I am a customer. I think that word has been lost from the English language.

Big business talks about market shares, or bottom lines, or products. They seem to forget that without me there is no market to share, no bottom line to mark, and no product has value.

They call me a consumer, as if I were a goat who eats everything in sight willy-nilly. Airlines call me a passenger or a seat. Hospitals call me a patient. Sporting events call me a ticket holder or a fan.

They must think by naming me they change the role I play. A patient is someone to be worked on. A fan is

REWARD OFFERED

A \$250 reward is being offered by Crime Call for information leading to the arrest and conviction of the person or persons responsible for the burglary of Charlie Boedeker's residence, about 4:30 p.m. January 9.

Mr. Boedeker's home is located 6 1/2 miles south and 3 miles west of Lockney.

Anyone wishing to call Crime Call with information should phone 983-5200. Callers will remain anonymous.

Judging begins Saturday morning in Lockney Junior Livestock Show

Judging in the annual Lockney Junior Livestock Show begins at 10 a.m. Saturday at the livestock barn on Floyd County Fair grounds.

Judge John Davidson is to open the show by selecting top barrows, then

singling out winners in sheep and steer divisions. Davidson is the vocational agricultural teacher at Valley High School.

Weighing of swine and lambs begins at 5 p.m. Friday. Steers are to be

weighed at 8:30 a.m. Saturday. The show barn will open at 4 o'clock Friday afternoon.

Lockney Chamber of Commerce annually furnishes prize money, ribbons, rosettes and the judge's fee for the local

show. The chamber also assists with the Floyd County Junior Livestock Show and sale, with David Foster and Johnny Dorman serving as CoC representatives at the sale.

FFA and 4-H students who attend Lockney schools are eligible to exhibit animals Saturday. Parents, other relatives and interested individuals are encouraged to support the youngsters with their presence at the judging.

John Quebe will serve as superintendent of the lamb division, Herb Dudley is in charge of the swine division and David Foster is to be superintendent of the steer division. Billy Bob Sherman will assist Foster.

Lockney stock show sweethearts chosen

Two Lockney High School students — Gwen Lane and Sundai Workman — have been selected to represent Lockney at the annual Floyd County Livestock Show.

Both of these young ladies will be assisting with the distribution of ribbons and awards at the annual county-wide event.

Gwen will be representing the Lockney 4-H organization, and Sundai has been selected to represent the Lockney FFA program.

In addition to distributing ribbons and awards at the county show the girls will also be providing the same service at the Lockney Stock Show this weekend. Details on the Lockney show may be found in a separate article in this week's paper.

These two young Lockneyites will be competing with two young ladies from Floydada for the honor of Floyd County Stock Show Sweetheart. The winner will be chosen on the basis of the greatest number of memberships sold to the Floyd County Livestock Show.

Memberships are priced at \$5 each for individuals and \$10 for businesses. Membership sales were scheduled to begin on Monday of this week and will continue through February 15.

Purchase of a membership entitles the bearer to help with the planning of the next year's stock show and also to vote on any issues which come before the stock show organization.

Money raised from the membership sales is deposited into the stock show account to pay for the cost of facility upkeep, to pay judges' fees and to aid with the other expenses incurred by presenting the stock show each year.

SUNDAI WORKMAN

Sundai Workman, 15-year-old daughter of Mr. and Mrs. David Workman,

will be representing the Lockney FFA program as its sweetheart at the upcoming stock shows.

Sundai is a sophomore at Lockney High School and she has been a member of the Lockney FFA program

for the past two years. As a member of that organization she has participated in parliamentary procedure contests and shows pigs in the local and county stock shows.

FAILING STUDENTS MAY NOT EXHIBIT

In response to questions from the public, The Beacon checked with Superintendent of Schools W.H. (Dub) Hallmark to determine whether students who have failing grades -- or who had failing grades last six weeks -- will be eligible to exhibit animals.

Supt. Hallmark says neither FFA nor 4-H students attending Lockney schools will be eligible to show their animals in either the local or county livestock shows. This policy was established by the school board in April 1986.

According to this policy, if a student is scholastically ineligible, his or her animals are also considered "ineligible" for either show.

Youngsters were informed of this standard prior to purchasing animals to prepare for shows, Hallmark says.

Examining Lockney schools

(Editors note: This is the first in a series of three articles that The Lockney Beacon will feature in the next few weeks on the performance report of the Lockney Independent School District for the 1985-86 school year. Make note of the fact that this report is for the past school year, not the current year.

In the first of a series of three articles The Lockney Beacon will try to bring readers a comprehensive report on the performance of the Lockney Independent School District for 1985-86. These articles will discuss faculty, facilities, financial status, and the student performance throughout the year.

This first article will delve into the faculty and facilities of the Lockney I.S.D.

FACULTY

Lockney area parents can take pride in the quality of teachers that were employed by the Lockney I.S.D. during the 1985-86 school year.

Of the 55 teachers, 43 had bachelor degrees and 12 had masters degrees. Also the four administrators have

masters degrees in the teaching field.

The teachers for the past school year had combined years of experience that total 765 years in the teaching profession. The average years of teaching experience was 13.90 and in actual years of experience ranged from first year teachers to those who had 44 years as teachers.

Quoting from the report "having the desire to attract top-quality personnel, the board has attempted to keep us competitive with schools our size, by paying \$1,100 above base salary for teachers with masters degrees and \$900.00 above base for those with bachelors degrees. Also all employees have a portion of their health insurance paid by the school system."

Also from the report, "The community has always supported the school and shown its appreciation to the staff by selecting, over the years, the Man, Woman, or Family of the Year from the teaching staff. Because of the contribution made by our young people, some of our staff have been recognized by the

South Plains of Texas."

Breakdown of the teaching staff by facilities includes elementary school teachers Dorothy Bradley, (retired) Virginia Byrd (retired), Edythe Clark (retired), Wanda Rogers, Glenda Jones, Bettie Knox (retired), Billie Lam, Sharon Redden (moved), Linda Marr, Jontha Mercer, Jamie Moerbe, Shelia Poole, Marva Rasco, Margie Rexrode, Cindy Ford, Amy Thornton, Bettie and Waverly Washington (both retired).

Junior high teachers for last year included Janet Bek, Phil Cotham, Karla Josey, Charlotte Mitchell, Zeldia Ellison, Robin King, Kevin Meyer, Linda Terrell and Carolyn Whittington.

High school teachers included LaDora Afill, Denise Blanchard (moved), Dayna Owen (moved), Mickey Crowe, Douglas Degge, Treena Aston, Peggy Hallmark, Jeanette Marr, Randy Josey, Malcom Moerbe, June Clements, Bob Purser, Patti Purser, Robert Redden (moved), Cindy Smith, John Lewis, Kay Williams, and Randall Robbins.

There were also eight teachers who

spend time on multicampus classes or are teachers in the special education and Chapter I Reading programs. They include Karen Evans, Leslie Patterson, Karen Quebe, Vicky Schaeffer, Raul Vera, Ethelyn Vernon, Jody Baccus and Mary Louise McCarter.

Administrators for Lockney in the 1985-86 school year included R.L. Knox, elementary school principal (retired); Terry Ellison, junior high principal; and James Poole, high school principal. W.H. Hallmark is the superintendent of schools.

FACILITIES

Lockney Independent School District teaching facilities consist of four buildings: The elementary school building, high school and junior high which are connected, and the vocational building, located just north of the junior high building.

Quoting from the performance report, "Several years ago the Lockney School Board put in force a plan for the

This Week . . .

COMMODITY DISTRIBUTION

Caprock Community Action will distribute commodities in Lockney on Tuesday, Feb. 17, at the Community Center from 8:00 a.m. until 11:00 a.m. Please bring yellow commodity cards and sacks. No new applications will be accepted after 10:30 a.m. Please do not arrive before 8:00 a.m.

Have a good week.

NOMINATIONS ACCEPTED

The Lockney Chamber of Commerce is now ready to accept nominations for the Man, Woman, and Family of the Year for the upcoming Chamber of Commerce banquet. Clubs, churches, civic organizations and individuals are asked to begin preparing their nominations for these awards. Complete details on the banquet and

Mangold home showcases Floyd County Arts Association quilt show

ARLA COPELAND shows a counter-pane made by her great-grandmother, Mary George, before the Civil War. The decorative pattern was called laid-work.

By Neta Marble

The home of Dr. Gary and Brenda Mangold was a showcase for a quilt show held by the Floyd County Arts Association Sunday afternoon. Seventy-two quilts, ranging from quilts made in the 1800's to present day quilts, were on display.

Women showing quilts, names of quilts, and the year they were made are as follows:

Myrl Wofford, Lockney, Snowball - 1936, Log Cabin, Crazy quilt, this quilt has their family history embroidered on the squares, and Tree quilt, this quilt won 2nd place at the Plainview Sesquicentennial Quilt Show; Ina Darnell Phillips, Lockney, Flower Garden - 1936 and Friendship - 1932; Wynona Allison, Lockney, Old Fashioned Girl, Education-Friendship, and Bear Claw; Frances Staniforth, South Plains, Carpenters Wheel, Wild Geese Flying, Fleur de lis with Crescent Moon, Flower Basket, Texas Independence Star, and Ribbons and Flowers; applied in 1917 by Gertrude Staniforth. This quilt top was sent to the Appalachias for quilting. This was the custom in those days as this beautiful quilting was done for such a small fee;

Leona Watson, Lockney, Floral machine applique, child's painted quilt, and original Handkerchief quilt made from handkerchiefs given to Mrs. Watson as gifts from her school students; Kay Hale, Floydada, Baby quilt, 1951, 1930 quilt, and Depression Quilt made by Mrs. Hale's mother and grandmother for warmth, not beauty; Virginia Pyle, Floydada, Basket Applique over 100 years old, and blue and white Sailboat quilt; Jane Archer, Lockney, Log Cabin Star, Trip Around The World;

Edith Patterson, Crazy quilt, silk Friendship quilt made about 1890 by the young ladies of Pilot Grove, Texas for Mrs. Edith Patterson's father who was the young bachelor doctor of the town at that time. Each square was made by a different young lady with her particular fancy embroidery stitches using silk thread. You will note on the quilt that some have monogrammed their names. Mrs. Patterson thinks that her mother never did complete the quilt because she was jealous of the fact that it was made by the pretty young ladies, some of whom they knew after they were married.

Nancy Graham, Floydada, Friendship quilt, each block was made by a member of the Creative Quilters Guild, of which Nancy is a member; Mary Lou Bollman, Lockney, appliqued Pomgranate - 1937, Star quilt - 1935, Black and white quilt pieced by Emily Whitmire material bought in 1912 and quilted by Mary Lou Bollman, pink and beige quilt made at Staunton, Illinois by Ellen Sawyer Jarman for her grandson Henry Bollman, Red, White and Blue set together with yellow, made by Mattie Brown Farnsworth for her step-daughter Nannie Farnsworth, before 1908;

Sally Shaw, Lockney, Dutch Doll made by R.E. Patterson in 1928, Double

Trip Around The World - 1986-87; Johnnie Mac Quisenberry, Kaleidoscope of Texas patterns - 1986, this quilt was made by the Creative Quilters Guild and entered in the Texas Sesquicentennial Quilt contest and selected as one of the top one hundred quilts which qualified it to make the state tour. Over two thousand quilts were entered in the contest. When the quilt was returned the ladies who had worked on it put their names in the pot and Johnnie Mac was the lucky lady; Arla Copeland, Lockney, Baby quilt - 1944, Star Flower pieced in the early 1900's, and Laid Work Counterpane, this quilt was made by Mary George, great-grandmother of Mrs. Copeland, before the Civil War. The muslin was woven on a hand loom and the decoration was called laid-work. For fear that it would be taken by the soldiers during the war it was hidden in the chimney of the slave quarters. It rained down the chimney thus making the circles and discolorations;

Clara Reece, Lockney, Butterfly - 1970's, made for Ann McCormick, Tulip - 1970's, made for Ann Foster, along with a matching pillow, Dresden Plate - 1983, made for Mavis Reece, and Bridal Wreath - 1970's; Kathleen Thornton, Lockney, Methodist Church Sampler - 1986, The blocks on this quilt were made by members of the church in their own designs, put together by Mrs. Thornton and quilted by Ike Johnson, Lockney. The quilt was then auctioned off at the annual Thanksgiving dinner, Cathedral Window - 1980-84. This quilt took three years to make at an average of 5 squares per day. It took two bolts of domestic; Mavis Reece, Lockney, The Lone Star, 1986; and Melba Tate, Lockney, the Lone Star.

Quilting is an age old tradition that has been practiced for thousands of years. Quilted coats and hoods were worn under the armor of the soldiers in the middle ages. Quilts were brought to America by the Dutch and English as a protection against cold winters. Many petticoats worn under long dresses were quilted to ward off the cold.

Quilts and their designs have been passed down from generation to generation.

Handmade quilts are one of the treasured heirlooms that can be left from a mother to a daughter or son. Passed down with the quilts are the stories about how it came to be made, who made it, and who it was made for along with stories about the times.

Many quilts were made by young ladies for her dowry or hope-chest.

Nancy Graham relates that "young ladies were expected to have thirteen quilts made by the time she married. Some for show but most for use."

They were made as gifts for young couples, new babies, the preacher and his wife, or for the needy in the community.

Some of the most popular designs are Log Cabin, Double Wedding Ring, Flower Garden, Dresden Plate, Jacobs Ladder, Lone Star, Bow Tie, Nine

Patch, Dutch Girl, Dutch Boy, Star of Bethlehem, Fan, Friendship.

The names of these quilt patterns were often changed to fit a new situation or a different location in the country. Quilts have been made to signify celebrations, Centennials, Bicentennial, Sesquicentennials, and Statehoods.

In towns and communities the quilting bee has been a popular pastime. A group of ladies will gather in the

afternoon around a quilting frame to which a quilt top, layer of batting and bottom is attached.

Children enjoyed the quilting bee as a time to get together and play. Mischievous children were often cautioned about their antics while playing under the quilt the ladies were working on.

In quilting, the stitches follow a design marked on the top layer. Small stitches are used so the batting will not slip. Many a lady has been envied for her tiny neat stitches.

MRS. KELTON SHAW displays a silk friendship quilt made about 1890 by the young ladies of Pilot Grove, Texas for Mrs. Edith Patterson's father.

"Our pleasure is to serve you."

SENIOR CITIZENS ADDRESSED—Retired Judge Robert Work of Crosbyton attended the first organizational meeting of the Lockney Senior Citizens organization held last Thursday afternoon. Work, who helped organize the Crosby

county senior citizens organizations, told the group of the steps that must be followed to begin a center in Lockney. Among the ideas presented were a building and parking, storage within the building, and applying for a state charter.

OVER 40 INTERESTED LOCKNEYITES were present for the first organizational meeting of the Lockney Senior Citizens organization. In addition to hearing ideas presented by Judge Work of Crosbyton, those present selected several to serve on

a board of directors. The second of the meetings will be held today [Thursday] at 3:00 p.m. at the Lockney Community Center. Everyone interested is invited to attend and express their views.

Lockney Senior Citizens schedule second meeting for Thursday

Continued from Page One
incorporation serves two purposes: removes the liability responsibility and makes the group eligible for a tax exempt status.

He suggested that the board of directors could number up to 25 persons. A budget is another necessity.

Yet another among the "first steps" is a building or center. Work stressed that "adequate (space) and good parking" are necessities.

If the Lockney group desires to serve meals, Work mentioned that food is available "cheap" from an area food bank. Either of two approaches is possible: a nutrition program available through South Plains Association of Governments (SPAG) or a commodity program.

Judge Work suggested that the local group contact SPAG for assistance. SPAG pays the salary of the director or administrator.

Green Thumb pays the salary of a worker(s) for senior citizens. Both the book and caretaker of the Crosbyton

center are Green Thumbs. "Certain types of equipment" obviously are necessary if the center serves food.

ACTIVITIES MENTIONED
One guest mentioned that various health checkups and programs are available.

Another guest, wife of the new pastor of Trinity Lutheran Church at Providence, told the group that "pot luck" meals, with members bringing food, are possible in lieu of cooking facilities.

Various ideas for crafts and other activities were discussed.

Carthel and Jim Reynolds, editor of The Lockney Beacon, conducted the meeting.

Refreshments of coffee and doughnuts were served. Doughnuts were courtesy of The Lockney Beacon.

Several persons remained to discuss ideas and/or play games.

Additional citizens are invited to attend today's meeting. Ideas from individuals are welcomed.

Show sweethearts chosen

Continued from Page One
In addition to her FFA participation she is also a varsity cheerleader and is active in both basketball and track at LHS.

GWEN LANE
Gwen Lane is the 16-year-old daughter of Mr. and Mrs. Bob Lane, and she will be representing the Lockney 4-H organization in the stock shows.

Gwen has been an active member of the 4-H organization for the past eight years. She shows lambs and has been to the State 4-H Roundup the past three years as a member of the "Share the

Fun" skit group from Floyd County.

Gwen serves as a delegate to the county 4-H council and has received the 4-H "I Dare You" award.

She is also active in school. Gwen is on the Lady Horn varsity basketball team and has served as a varsity cheerleader for the past two years. She participates in the one-act play and has been named to the all-star cast at both regional and district in the past. She is also presently serving as the Lions Club Sweetheart in Lockney.

In addition to her 4-H and school activities, Gwen is also a member of the Lubbock Ballet Company.

Test dates announced

The state testing program, T.E.A.M.S. (Texas Educational Assessment of Minimum Skills), for Grades 3, 5, 7 and 9 will be given at Lockney I.S.D. during the weeks of February 9-20. Good attendance by each student

is vital in order to facilitate proper administration of the tests at each grade level.

There is No School, February 16. It is an Inservice Comp day.

CASH BACK ... A GOOD WAY TO START THE NEW YEAR

Proper weed control ensures crop safety

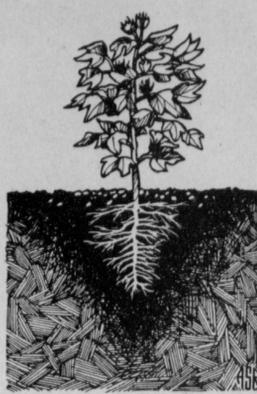

When herbicides are applied properly, Texas High Plains cotton growers should have little concern about these chemicals slowing early season plant development, according to Texas Agricultural Extension Service cotton agronomist Dr. James Supak. Herbicides represent only one of many potential factors that may slow plant and root development. The effect of properly applied herbicides on plant development is not significant and there is no yield reduction at harvest time.

Dr. John Abernathy, Professor of Weed Science and now Resident Director of the Texas A&M Research and Extension Center at Lubbock, conducted approximately 125 field tests during the last 10 years to study the effects of dinitroaniline (DNA) herbicides on yield. In these trials, he was never able to show that a properly-used herbicide reduced yields.

"In these tests, Dr. Abernathy compared test plots where various herbicides were applied versus plots where no herbicide was applied but the weeds were controlled through tillage, and found no significant difference in yields," says Supak.

Dr. Supak stresses that efficient use of any appropriate herbicide will ensure proper weed control without damaging cotton yields.

"If the herbicide is applied at the proper rate and incorporated correctly, it may affect the root system to some degree but not

enough to affect cotton yields."

Growers need to calibrate equipment accurately, use the correct herbicide rate for their individual soil type and apply the herbicide uniformly, Dr. Supak reminds.

Misapplication of a herbicide can be detrimental to a cotton crop through plant injury or poor weed control.

Dr. Supak concludes growers should examine all the other factors that may cause stunted growth or a slow start early in the growing season. These factors include weather, soil compaction, wind and sand damage plus poor seed quality.

Next CRP sign-up February 9-27

Farmers interested in putting cropland in the government's Conservation Reserve Program will get another opportunity to do so during the Feb. 9-27 sign-up period.

Three sign-up periods were held during 1986, and almost nine million acres of highly erodible cropland across the nation were committed to the program, points out Dr. Bill Harris, soils specialist with the Texas Agricultural Extension Service.

"Last year Texas farmers put more than a million acres in the program, which is aimed at curbing soil erosion while at the same time improving water

quality and wildlife habitats," Harris explains.

Land accepted into the CRP must be kept out of production for 10 years and prescribed conservation practices must be followed, he points out. This includes planting the land to grass or trees to prevent wind and water erosion, with costs shared by the government.

Landowners must submit a bid on eligible land to their local Agricultural Stabilization and Conservation Service office during the sign-up period. Land eligibility is determined by the Soil Conservation Service.

If the bid is accepted, landowners will be paid that price annually over the 10-year period provided they follow the prescribed conservation plan. The average acceptable bid in Texas was just under \$30 an acre during the last sign-up period.

"Essentially, program provisions are the same as last year although there has been a slight revision in land eligibility classifications," says Harris. "That may allow additional land to qualify for the program, so landowners need to check with their local SCS office."

Also, a maximum of 25 percent of any

cropland in a county can be put in the CRP unless a special exemption is obtained, notes the specialist.

Because several new phases of the CRP are being enacted this year, including sodbuster, swampbuster and conservation compliance, interest in the CRP should increase, contends Harris. Details on the total program are available at any local ASCS office.

The CRP is part of the 1985 farm bill and was initiated last spring as a five-year effort to take some 45 million acres of erodible cropland out of production across the U.S.

Terra International current firm name

Effective February 1, 81 Riverside/Terra business locations will officially change their name to Terra International, Inc.

Purpose of the name change is to reflect a unified image for Terra throughout the company's marketing area. All locations will continue to sell Riverside brand products and no changes in service or product line are anticipated.

Riverside/Terra Corporation is a wholly owned subsidiary of Terra International, Inc., headquartered in Sioux City, IA. Terra is one of the largest distributors of crop protection products, seed and fertilizer in the U.S. and operates in 23 states.

IPM concept outlined

By C. Mark Brown
Extension Agent-Entomology (PM)
Crosby/Floyd Counties

[Part Two]

Integrated Pest Management involves the integrated use of all available control methods to maintain pest populations below economically damaging levels. Many control methods are available and effective for use in pest management. These can be grouped into several general categories. A brief explanation of each of these categories follows:

BIOLOGICAL CONTROL

Biological control is the natural process which maintains pest populations in balance in the natural environment. However, when the environment is disrupted, the balance is upset. This is exactly the reason for pest outbreaks in an intensive cropping system.

The problem with biological control is that a lag phase is involved for beneficial insect populations to catch up to pest population numbers, and economic crop losses will occur before the balance is made.

In a few isolated cases, beneficial insects have been reared and released to successfully bring pest populations under control. However, in most cases, beneficial insect release is either uneconomical or unreliable. This includes the release of ladybeetles and Trichogramma wasps.

Producers in this area can follow practices to help conserve or attract naturally occurring beneficial populations. Beneficials are conserved primarily through the selective use of insecticides. They can be attracted either by shelter management or by provision of a food source.

For example, corn leaf aphids, which are not economic pests of commercial grain sorghum, will attract beneficials to a field, which later may serve to hold a greenbug population check.

Pathogens, or disease causing agents, are also an important part of biological control. Fungi, bacteria, protozoa, and viruses are the main types of pathogens which cause disease in insects. *Bacillus thuringiensis* is a bacterial pathogen which is used as the active ingredient in many of the microbial insecticides on the market today.

HOST PLANT RESISTANCE

The use of pest-resistance varieties is usually the easiest, most effective, and most economical means for controlling

insect pests. There are several types of plant resistance. Some plants produce chemicals that are detrimental to insects feeding upon them.

Some plants have physical characteristics, such as very hairy leaves, that help prevent insect feeding or egg-laying. Some plants exhibit tolerability, or are able to withstand more insect pressure without a reduction in yield. Insect resistance should be an important factor in a producer's variety selections.

CULTURAL CONTROL

Cultural control involves the manipulation of the pest's environment to either disrupt the pest's life cycle, or make conditions more favorable for the pest's natural enemies. Cultural control methods often fit conveniently into the scheme of overall farm management.

Some methods of cultural control include: destruction of breeding refuges or overwintering sites, such as plowing corn stubble to reduce overwintering corn borer populations; destruction of alternate hosts and volunteer plants; crop rotation, such as rotation to reduce corn rootworm populations or disease organisms; trap crops, which attract pests to a small planting of crops where they can be killed; and habitat diversification, such as strip-cropping to increase the number of natural enemies present in an area.

Another promising control method involves the use of synthetically produced insect growth regulators. A few of these are currently on the market for specific insects and specific uses. For example, growth regulators are available to control fire ants in lawns and golf courses.

These growth regulators cause the worker ant immatures in the colony to become sterile reproductives. With reduced worker ants to forage for food, the colony will eventually starve out.

Producers should be aware of all these control methods, and should implement as many as possible into their regular farming practices.

LEGAL CONTROL

Legal or regulatory control is implemented through state and federal government, and has saved producers untold millions in pest damage losses. This type of control includes quarantine, suppression, and eradication programs. Regulatory control practices include uniform planting dates and mandatory plowdown dates.

OTHER CONTROL METHODS

In a few specific cases, Autocidal insect control can be used. This includes control techniques such as the sterile-male release program which was used to control screwworm flies. This program was a classic example of the virtual eradication of a pest from a given

Light colored 'food' sorghum opens new markets for growers

By Marilyn Brown
TAES Science Writer

Sorghum and maize (or corn) are important dietary staples for millions of people in the world. In Latin cultures, much of that corn is consumed in the form of tortillas, prepared by cooking the grain with lime.

In Central America, sorghum is used as an alternative to maize for tortillas, and recent reports have shown that sorghum tortillas are well-accepted if they are prepared from newly developed white sorghum varieties and by using improved processing methods such as decortication, or dehulling.

While lime-cooking is a deeply-embedded cultural preference, a recent study on nutrient digestibility of maize and sorghum found that the process, overall, decreases the nutritional qualities of the two grains.

S.O. Serna-Saldivar, of the Centro de Investigacion en Alimento, University of Sonora, in Mexico; Lloyd W. Rooney, of the Cereal Quality Laboratory at Texas A&M University; and D.A. Knabe and T.D. Tanksley, Jr., of the Swine Nutrition Center at Texas A&M, undertook the study.

They used swine with cannula surgically inserted at the end of their small intestine to allow removal of digested foods to determine energy utilization and nitrogen utilization. Maize and whole sorghum cooked with and without lime and pearled (dehulled sorghum) were used.

Pigs are good models for human nutrition research because they have

digestive and physiological systems similar to humans, the researchers say.

While the digestibility and nutritional value of sorghum are about 5 percent less than corn, Rooney says that sorghum remains an important supplement to the world's corn supply. Already, Mexico has a deficit in corn production and Rooney says he can foresee further shortages in the supply of maize.

The research found that lime treatment and cooking did not greatly affect total crude protein or total amino acid content of the different grains. Sorghum decortication decreased the concentration of crude protein, most amino acids, and dietary insoluble fiber.

Lime-cooked products did, however, have higher ash and calcium contents than non-lime-cooked grains. The calcium content of whole sorghum and maize were lower because of washing after cooking, and dietary fiber values were lower because of removal of the pericarp during both cooking and washing.

While the available energy was increased by lime-cooking, the protein digestibility was decreased in whole sorghum and maize, and utilization of the protein was also lower. The lower utilization probably was due to a decrease in the digestibility of lysine, an essential amino acid. Amino acids must be absorbed in a certain ratio, and lysine may have become the limiting amino acid, according to Rooney.

The differences in nitrogen and amino acid digestibility largely disap-

peared when measured over the total digestive tract, the scientists say.

"This suggests that the compounds formed during lime-cooking, although indigestible in the small intestine, can be degraded by the microflora of the large intestine," the research team writes.

The researchers also found that the detrimental effect of lime cooking on protein utilization was greater for maize than for sorghum. They also found that digestible and metabolizable energy values were also higher for pearled sorghum than for the whole grain.

"Apparently, some component present in the outer part of the sorghum kernel causes a decrease in nitrogen digestibility," the researchers say. "The component apparently is reduced when the sorghum is pearled."

Based on these data, pearled sorghum has certain advantages in comparison to maize: it requires a tenth of the cooking time and lower lime concentration, and it has equal or better nutrient digestibility and similar nitrogen retention.

But because lime-cooked whole sorghum has about 5 to 6 percent lower protein digestibility than lime-cooked maize, it might not be desirable for certain populations that already have marginal levels of protein in the diet.

Rooney says that the new, white sorghum varieties will go a long way to win acceptance as a corn supplement.

"The brown-red dirty looking varieties will be considered feed forevermore," he says.

Farm News

Corn growers set February 9 meet

Exposition Building, three blocks southeast of the courthouse in Dimmitt, will be the site Monday, Feb. 9, for the 14th annual meeting of Texas Corn Growers. The business session starts at 9:30 a.m. and a free lunch is planned.

Guest speakers are Jim Hightower, Texas commissioner of agriculture; John Ford, formerly USDA deputy secretary; and Greg Boggs of the Texas Department of Agriculture, who is to report on grit plant.

IRRIGATION EQUIPMENT

New methods and equipment are making irrigation systems one of the farmer's more versatile tools, speakers at the annual High Plains Irrigation Conference in Amarillo emphasized.

In addition to applying water, irrigation systems also can provide effective and efficient ways to apply pesticides, herbicides, fertilizers and other chemicals, speakers told the more than 100 producers and agribusiness representatives.

Successful farming with irrigation is more than applying water to crops, several speakers stressed. It is knowing when and how to best apply the water, in combination with other cultural practices, to assure maximum profit, not just maximum yield, they said.

"We're looking for a point of profit maximization," said Dr. Steve Amoson, agricultural economist

Farmers are just getting into the serious business of making farm program decisions for the coming crop year. And they need all the help they can get, say officials of Plains Cotton Growers, Inc.

The complexities of the major crop programs are such, and the need for wise choices so great, that making decisions based on a superficial analysis of the options this year could be disastrous for farmers already in financial straits, comments PCG Executive Vice President Donald Johnson. And help is available for the asking, he adds.

The Texas Agricultural Extension Service has prepared full program explanations and detailed worksheets for step-by-step projections on cotton, feed grains, wheat and rice. Copies are available at all county extension agents' offices and from PCG.

As pointed out in the TAEX literature, the hard decision this year is not "to participate or not to participate" but "at what level to participate."

The latter option revolves around what's called the 50-92 option under which producers can participate in the program by planting anywhere from 50 percent to 92 percent of the maximum permitted acreage and retain eligibility for 92 percent of deficiency payments. Actual planted acreage is used to calculate payments if less than 50 percent or more than 92 percent of permitted acreage is planted.

LOCKNEY CO-OP

Your New Purina Dealer

Carrying a full line of Purina Chow brand of feeds for livestock, poultry, and pets.

We are proud to represent the Purina Checkerboard. It has been a symbol of quality, performance and service for over 80 years.

Examining Lockney school system

Continued from Page One
continuous up-grading and renovation of all our buildings."

Lockney High School is a two story structure which was completed in 1929. This building can comfortably serve 350 students and for the 1985-86 school year the average enrollment was 201 students.

The high school building is centrally heated and cooled and over the last two years has undergone a complete face-lift. A new roof has been installed, all the brick exterior has been cleaned and tuck-pointed and the windows have been closed in.

The building is able to comfortably serve 300 students and the average enrollment for the 1985-86 school year was 142 students. Continuous upgrading and renovations are planned for the classrooms in junior high during the 1986-87 school year.

Lockney Elementary School, newest of the Lockney school buildings, was completed in 1964. This building was constructed to serve 400 students and the average enrollment for 1985-86 was 365 students.

The elementary building houses classrooms, a cafeteria and just completed is a gymnasium/music room building. The new building is connected to the existing building through a hallway. Central heating and cooling are also utilized in the elementary school building.

To keep the facilities in top condition, the Lockney School Board will spend from \$40,000 to \$100,000 each summer for major improvements. Building upkeep and appearance is a top priority of the school board.

School Lunch Menu

February 9-13

Monday:
Breakfast—Hashbrown potatoes, toast, and milk
Lunch—Salmon patties, sweetpotatoes, mixed vegetables, hot rolls, milk, white cake with frosting

Tuesday:
Breakfast—Pancakes with syrup, milk, and pineapple
Lunch—Salisbury steak, buttered corn, pears, spinach, hot rolls, milk and peanuts

Wednesday:
Breakfast—Cinnamon biscuit, milk, and peaches

Lunch—Tuna salad, sliced bread, pineapple, cookies, milk, peas, peanut butter and crackers

Thursday:
Breakfast—Toast with cheese, milk, potatoes
Lunch—Tossed salad, pinto beans, milk, fruit cocktail, sopapillas with honey

Friday:
Breakfast—Pancakes with syrup, milk, pineapple
Lunch—Hamburger, veg. soup, cracker, peanut butter, milk, peach cobbler.

Basketball Reports

Lady Horns basketballers continue down the district basketball trail as they have passed the mid-way point.

Box scores of recent games, reported by Coach Ratliff, include:

Lockney 9 15 20 21
Abernathy 23 38 61 79
R. Arjona 6, G. Lane 4, V. Blanco 4, C. Vasquez 3, R.E. Wilson 2, S. Workman 2

Lockney 4 13 18 23
Hart 10 24 34 51
Blanco 8, Workman 4, Lane 3, Vasquez 2, R. Brotherton 2, C. Gonzales 2

Lockney 4 17 22 31
Springlake-Earth 14 19 42 58
Vasquez 11, Blanco 5, Wilson 4, Workman 4, Lane 3, Arjona 3, L. Terrell 1

EIGHTH BOYS WIN
"The second half may have been the best we played all year," coaches believe of the eighth grade boys 42-27

win over Hart on Jan. 26. "We came out pressing and they couldn't handle it. Everyone played well. Hart had beaten us 43-35 early this year."

The Shorthorns "got in foul trouble early and never recovered" in a 49-29 setback at the hands of Olton.

Lockney 8 16 32 42
Hart 7 20 22 27
Steven Vasquez 16, Carlos Rendon 8, Kip Holt 4, Jerry Don Evans 4, Orlando Mondragon 4, Gilbert Ruiz 2, Jason Bybee 2, Roland Raissez 2

Lockney 0 7 11 29
Olton 14 25 38 49
Holt 10, Ruiz 7, Bybee 4, Jeffrey Sutterfield 3, Vasquez 2, Evans 2, Rendon 1

CLOSE GAME
Seventh grade girls dropped a close 22-16 decision to Hart. The box score:
Lockney 4 10 16 16
Hart 3 8 19 22
Michelle Delgado 8, Daisy Blanco 6, Becky Rodriguez 2

Special Valentine

Parents, Grandparents, Sweethearts:

Remember your Special Valentine with a heart encircled photo in the Hesperian Valentine Edition.

Photos will be published in the February 12 issue. Photos and names must be submitted by Friday, February 6 at 3:00 p.m. to be included. The cost will be \$10.00 per photo. Happy Valentine's Day!!!

THURSDAY FEBRUARY 5

Grid for Thursday, February 5, 1987, listing TV channels (4, 5, 9, 11, 13, 28, 34, HBO, SHOW, ESPN) and programs (7:00-12:00 AM) such as 'I Dream of Jeannie', 'Down To Earth', 'Movie: "Green Fire"', etc.

MORNING 9:05 (4) ★★½ "GREEN FIRE" (1955, Adventure) Stewart Granger, Grace Kelly. A man sacrifices his newfound wealth in a South American emerald mine for the sake of the woman he loves.
EVENING 7:00 (9) ★★ "SWAMP THING" (1982, Fantasy) Adrienne Barbeau, Louis Jourdan. A brilliant research scientist concocts a remarkable potion that turns him into a heroic monster.

SATURDAY FEBRUARY 7

Grid for Saturday, February 7, 1987, listing TV channels (4, 5, 9, 11, 13, 28, 34, HBO, SHOW, ESPN) and programs (7:00-12:00 AM) such as 'Wrestling', 'National Geographic Explorer', 'Movie: "Sinbad The Sailor"', etc.

MORNING 9:00 (4) "CRONICA ROJA" (No Date)
10:00 (4) ★★ "SINBAD THE SAILOR" (1947, Adventure) Douglas Fairbanks Jr., Maureen O'Hara. After landing on an island, Sinbad discovers treasure and a beautiful princess.
11:30 (9) ★★ "IN OLD CALIFORNIA" (1942, Western) John Wayne, Binnie Barnes. When a young Boston pharmacist attempts to open a shop in California during the Gold Rush, he encounters some big headaches from the town's lawless leader.

FRIDAY FEBRUARY 6

Grid for Friday, February 6, 1987, listing TV channels (4, 5, 9, 11, 13, 28, 34, HBO, SHOW, ESPN) and programs (7:00-12:00 AM) such as 'I Dream of Jeannie Bewitched', 'Down To Earth', 'Movie: "Tomorrow Is Forever"', etc.

MORNING 9:05 (4) ★★ "TOMORROW IS FOREVER" (1946, Drama) Claudette Colbert, Orson Welles. A woman is reunited with her husband 20 years after she believed him dead.
EVENING 7:00 (9) ★★ "D.C. CAB" (1983, Comedy) Mr. T, Adam Baldwin. Drivers of a nearly bankrupt Washington taxicab operation become heroes when they rescue two kidnapped children.
7:05 (4) ★★ "FORT APACHE" (1948, Western) John Wayne, Henry Fonda. A stubborn cavalry officer is held responsible for rampant Indian attacks against a military outpost.

SUNDAY FEBRUARY 8

Grid for Sunday, February 8, 1987, listing TV channels (4, 5, 9, 11, 13, 28, 34, HBO, SHOW, ESPN) and programs (7:00-12:00 AM) such as 'Tom & Jerry And Friends Cont'd', 'Sesame Street', 'Good News', etc.

MORNING 9:30 (4) ★★ "KING OF KINGS" (1962, Drama) Jeffrey Hunter, Robert Ryan. The coming of Jesus and the events of his life gave birth to a new religion.
AFTERNOON 12:00 (9) ★★ "DANGEROUS MONIE" (1946, Mystery) Sidney Toler, Gloria Warren.
1:00 (4) ★★ "KNIGHTS OF THE ROUNDTABLE" (1954, Adventure) Robert Taylor, Ava Gardner.

28 ★★ "THE POPE OF GREENWICH VILLAGE" (1984, Drama) Eric Roberts, Mickey Rourke. Dreams of escape from humdrum Manhattan jobs harbored by distantly related buddies are jeopardized by an ill-conceived safe-cracking job that gets them into hot water with a local crime kingpin.

7:05 (2) ★★ "MARLOWE" (1969, Mystery) James Garner, Gayle Hunnicutt. After being hired by an alluring blonde to locate her missing brother, a private eye sets off in pursuit of a stripper he feels is connected with the disappearance.

8:00 (1) "STILLWATCH" (Premiere, Drama) Lynda Carter, Angie Dickinson. While in Washington to profile a prominent senator, a TV news reporter is drawn into the mystery surrounding her subject's connection to a house with a disturbing history. □

11:20 (4) ★★ "CHAIN LIGHTNING" (1950, Drama) Humphrey Bogart, Eleanor Parker. Greed almost costs a jet pilot his honor and his girl.

11:30 (3) ★★ "FLOOD!" (1976, Drama) Robert Culp, Martin Milner. Two helicopter pilots rush to a small town devastated by a flood following the collapse of an aging dam.

College News

The fall 1986 Dean's Honor Roll at Wayland Baptist University includes Jill Golden, Penelope Poole and Allison Robertson of Floydada.

Mrs. Golden, a junior, posted a 3.76 grade point average for the recently completed term. She is the daughter of Mr. and Mrs. Leonard Matsler of Floydada.

Mrs. Poole, a freshman, posted a 3.75 grade point average for the fall semester. She is the daughter of Mr. and Mrs. Nathan Mulder of Floydada.

Mrs. Robertson, a sophomore, posted a 4.00 grade point average for the recently completed semester. She is the daughter of Wilma Manning of Lubbock.

The Dean's Honor Roll is announced at the end of each semester by Dr. Fred A. Teague, academic vice president and dean of the university, and lists the names of students who posted a 3.50 GPA or above on a 4.00 scale while carrying at least 12 semester hours.

A total of 129 students from nine states and two foreign countries were named to the Dean's Honor Roll at Wayland for the fall term.

JODY NANCE received a Bachelor of Science degree in Education on December 20, from Texas Tech University in Lubbock. Dr. Lauro Cavazos presented the graduate with her degree in the commencement exercises. Mrs. Stansell is presently teaching fifth grade at Lubbock Cooper. She is the daughter of Joe and Peggy Nance and the daughter-in-law of Pat and Dottie Stansell, all of Lockney.

LAVONA PITCHFORD, a student at Wayland Baptist College, recently received a Nursing Home Administrators license. She is currently studying health administration. Mrs. Pitchford's husband, Bill, is employed by Applan Corp. Except for a two year absence, she has lived in Lockney all of her life. She has four children: Becky Holladay of Denton; Margaret Holladay of Lubbock; Theresa Pitchford who is nine; and six year old Brandy Pitchford.

Lockney B & PW meets

The Lockney BPW Club met Tuesday, January 27, at First National Bank. Bank employee Terry Keltz presented the program, demonstrating and discussing the process of creating, casting and finishing bronze sculptures. Members also enjoyed his scrapbook of photos of his paintings and sculptures.

Members present were Jinna Turner, June McDonald, Vera Jo Bybee, Belle Daniles, Gladys Ragle, Dorothy Shipp and May Pearl Burns.

HOMESTYLE "Full Meal Deal" only \$2.59

Monday, Jan. 19 thru Sunday, Feb. 15

The sweetest deal in town is the Dairy Queen Full Meal Deal. With a juicy quarter pound Homestyle Hungry-buster. Golden french fries. Your favorite ice-cold soft drink. And a creamy 5-ounce Dairy Queen sundae with your choice of topping. The \$2.59 Full Meal Deal. It's a steal!

MORNING 9:05 (4) ★★ "A PATCH OF BLUE" (1965, Drama) Sidney Poitier, Shelley Winters. A sympathetic black man tries to convince a young blind girl that she can better her life by breaking free of her shrewish guardian.

AFTERNOON 12:05 (4) ★★ "ALL THE BROTHERS WERE VALIANT" (1953, Adventure) Robert Taylor, Stewart Granger. Two New England whaling captains, who are brothers, part ways when they disagree over searching for a treasure.

EVENING 7:00 (3) ★★ "THE MALTESE FALCON" (1941, Mystery) Humphrey Bogart, Mary Astor. Colorized version of John Huston's adaptation of the Dashiell Hammett novel concerning San Francisco private eye Sam Spade's search for a priceless, jewel-encrusted statue.

7:05 (4) ★★ "NETWORK" (1976, Drama) Faye Dunaway, William Holden. An aging television newsmen, whose ratings are steadily slipping, is turned into a ranting prophet of the airwaves by a crafty female programming executive.

9:35 (4) ★★ "NED KELLY" (1970, Adventure) Mick Jagger, Clarrisa Kaye. An outlaw refuses to submit to authority as he carves out his legend on the Australian frontier.

11:30 (3) ★★ "THE ANDROMEDA STRAIN" (1971, Science-Fiction) Arthur Hill, David Wayne. Three scientists work to identify a deadly strain of bacteria in time to save everyone from extinction.

93 ★ "SWAMP THING" (1982, Fantasy) Adrienne Barbeau, Louis Jourdan. A brilliant research scientist concocts a remarkable potion that turns him into a heroic monster.

Cranes on long distance flights

The Panhandle and South Plains of Texas are favorite haunts for the sandhill crane, basically because of the available habitat.

First and foremost, the countryside is — during most years — dotted with small, shallow lakes where the birds like to roost at night, standing on one leg in several inches of water.

The terrain is flat, which allows the eagle-eyed birds to watch for coyotes and other predators. And, too, an abundance of grain is produced, providing ample food for the cranes.

Why does the sandhill crane have the strange — at least to humans — habit of roosting in a lake, standing on a single leg.

Ron George, the sandhill crane program leader for the Texas Parks and Wildlife Commission produces a logical explanation.

"They can hear any ground creature approaching in plenty of time to escape," George says.

The countryside is so well suited for cranes that an estimated half million of them winter on the plains of eastern New Mexico and the western half of the Panhandle. Another 70,000 overwinter farther to the south, in the San Antonio area near Kingsville, on into Mexico.

The birds stay in the wintering grounds until late February or early March, when they migrate north to the spring nesting grounds. They land on the Platte River in Nebraska each year to rest and wait for the north country to thaw.

When the time is right, they fly north to the prairies of western Canada, Alaska and even Siberia.

With the arrival of late October, as the days shorten and the chill settles over the land, the cranes gather for their trip south. Once again, they make a pit stop on the Platte before pushing into their wintering grounds.

Once they head south for Texas, however, "They don't waste time," George says. "Our studies show they make that 1,000 mile flight to the

Panhandle, non-stop, usually in one 24-hour period."

These migrations are led by "boss birds," who live up to 20 years in the wild. Juveniles who have yet to develop the red patch on the top of their heads "just tag along, learning the countryside."

How quickly the younger birds learn! Disturb the birds on the roost and they are likely to leave the area for good. A shot over a lake can cause the birds to depart from that site for days.

Given this skittish nature, their distinctive habits and the fact the bird is quite good on the table, the crane is the most underrated gamebird in North America.

Remarkably, only 7,000 to 9,000 Texans annually request U.S. Fish and Wildlife permits (issued free on request from the TP&W). Only "about half that number" actually hunt the season which extends through Feb. 8, according to George.

COOKING THE CRANE

A Dallas woman offers their recipe for dressing and cooking cranes:

*With a sharp knife, trace the breast bone. This yields two fillets of dark brown meat.

*Slice the fillets into strips about one-half inch thick.

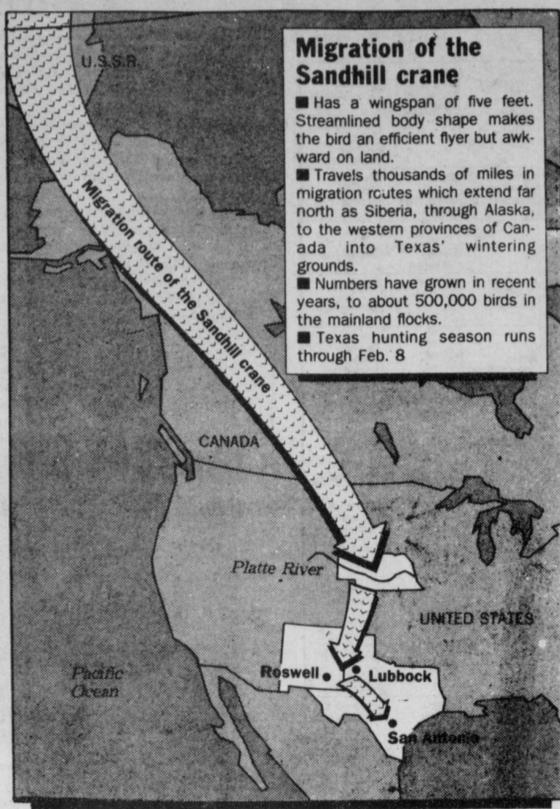

*Salt and pepper to taste. Add just a splash of liquid meat tenderizer and roll lightly in flour.

*Fry briefly on both sides.

Do not overcook the meat, she cautions, and be prepared for rave reviews. The flavor is of a rich beef. One bird serves three to four adults.

Tongue-in-cheek, a veteran crane hunter warns: "Don't eat too much of it. It'll make you want to sleep standing on one leg in a bathtub full of water."

(Editor's note: This newspaper expresses its appreciation to Joe Cunyus for submitting an article from a Dallas newspaper which contains a portion of this data about cranes.)

Migration of the Sandhill crane

- Has a wingspan of five feet. Streamlined body shape makes the bird an efficient flyer but awkward on land.
- Travels thousands of miles in migration routes which extend far north as Siberia, through Alaska, to the western provinces of Canada into Texas' wintering grounds.
- Numbers have grown in recent years, to about 500,000 birds in the mainland flocks.
- Texas hunting season runs through Feb. 8

Dianne's Diary

By Dianne Galvan

As our story begins, we find ourselves saying, "Gee, that was a great garage sale we had on Saturday. It was so nice of all of those folks to donate their clothing and miscellaneous items and also all of those baked goods." Thank you Irene Cruz, Soila Reyes, Hope Blanco, Joe Munoz, Cinde Clark, Virginia Torres, Vickie Wederski, and Mrs. Jack Yeary for the items and the time you donated to us. We would also like to thank all of the folks who were our customers and our residents who helped with sale, Bessie Jackson, Dominga Morales and Nellie Stephens. Our deepest appreciation also goes out to Mr. Joe Cunyus for his donation. All proceeds went to the activity fund.

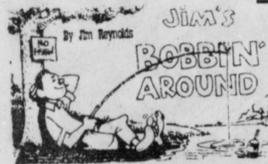

In the other corner of our little home, we find our residents hard at work — exercising. Exercising faithfully every day. They have commented that exer-

cising every day has made them stronger and has helped them to feel so good. Our friends make it fun by joining in. It is not unusual to find our family members like Mr. Jack Yeary, Mr. Kendis Julian, Mr. Joe Cunyus and even our administrator, Laverne Munoz, coming out and trying to keep up with us. They keep us in stitches.

Mrs. Rose Pyle and Mr. C.D. Tanner are both in the hospital here in Lockney. We would like to wish them a quick recovery so that they may be back with us soon.

Thank you West Side Church of Christ for coming out to be with us every Sunday and thank you Wendy's restaurant in Plainview for having treated us to ice cream on Monday.

Stay tuned next week for the continuing story of Lockney Care Center Capers.

Continued from Page One

someone who needs the sport more than the sport needs them.

But I am a customer.

Sometimes I am impossible to deal with. I come in all sizes and shapes. I come in all forms and fashions. Sometimes I am demanding. Sometimes I am unreasonable. Sometimes I am rude. Sometimes I am not well dressed. Sometimes I do not have much couch.

But, I am a customer.

Sometimes I can be concerned and loyal. Sometimes I can be the best friend in the world. Sometimes I can brighten the darkest day.

Sometimes I am shy and do not know how to say what I want. Sometimes I am reluctant and say I am just looking, or say nothing at all.

But I am a customer. Being a customer means I have some basic needs. I need dignity. I do not want to be insulted. I do not want to be pressured. I do not want to be manipulated. I do not want to be used.

I have the need of being wanted instead of just tolerated. I have the need of being important. Most of all I need to be listened to. Before I hear your speech or feel your pressure I want to be heard. You may think you know what I want before I speak, but you don't.

So, before you jump to conclusions about who I am and what I want...before you decide whether I am going to buy or just waste your time, before all of this just grant me the dignity of being heard.

I am a customer. I am not an intrusion. I am not an interruption. I am not a bother.

I am a customer. Roll that word around in your mind for awhile and let its implications sink in.

Customer...The one word that feeds the world.

Warm Fuzzies,
 Doug Manning

TIRED OF HEARING ABOUT JAPANESE

I'm tired of hearing about the Japanese.

I've heard about the Japanese education system.

I've heard about the Japanese business system.

I've heard about Japanese training schools for businessmen and salesmen.

I'm tired of it.

The Japanese may well be the success story of our time and I can't fault that.

I can't fault this country's interest in how the Japanese became the success story of our time.

But still I'm tired of hearing about the Japanese.

I'm tired of hearing about them because trying to find ways to improve ourselves in the way of Japanese do things is ridiculous.

It is ridiculous because we aren't capable of comprehending, much less adopting the oriental thought processes that make what the Japanese do so successful.

It is even more ridiculous because casting aside those differences between oriental and western thought processes, there are two essentials to Japanese success that are so obvious that they don't need to be studied.

One is dedication. The other is a concern for how and why things are done that transcends the concern for how much money will be made.

One doesn't have to have been raised to an oriental philosophy to be dedicated. One doesn't have to have been raised to an oriental philosophy to be able to look beyond personal gain to the quality of what one produces.

However, for we westerners, raised as we are to philosophy of individualism and self-importance, dedication and care for the quality of what we do would seem to require a conscious effort.

And, in many cases, it would appear that we've stopped making the conscious effort.

We're famous for our pursuit of the "easy buck". We're becoming more and more famous for our pursuit of the bottom line regardless of what it does to the quality of what we produce. And, if we aren't famous for our view of everything from education to work is nothing more than something that gets in the way of our fun times, then we ought to be.

We don't have to study some oriental methodology to rediscover success here.

All we've got to do is rediscover what made us a success to start with.

All we've got to do is rediscover the work ethic.

-Jim Davis, Slaton Slatonite

BRAGGING RIGHTS

Boss, we are really looking forward to our traditional "Brag Page" for Valentine's Day. You know the one where mamas and papas and especially grandmas brag about their children and grandchildren with pictures and a small ad.

Last year we published the best in the area, but this year Joe Harrison at The Texas Spur, and Wendell Tooley at The Tulla Herald, both say they are going to "Beat the socks off us" on this edition.

Don't believe either one of them, boss. There is no way those two areas will come close to claiming the "bragging rights on Brag Pages." The people of Crosby County just won't let them do

it. Now you just wait and see, boss, if our February 12 issue doesn't out brag them so far they won't even have anything to brag about. —Bernis Lawrence, Crosby County News:

DALLAS COWBOYS SCHEDULE 1987

Sept. 7, North Dallas Jr. High, Away; Sept. 14, Cub Scout Troop 101, Home; Sept. 21, Texas Blind Academy, Home; Oct. 5, Spanish-American War Vets, Away; Oct. 12, Crippled Children's Home, Home; Oct. 19, Girl Scout Troop 679, Away; Nov. 2, Van Horn Boy's Choir, Away; Nov. 9, Korean War Amputees, Home; Nov. 16, Polio Patients Assn., Away.

 *When playing Polio Patients, the Cowboys must not disconnect their leg braces.

*When playing the Blind Academy the Cowboys must not hide the ball under their jerseys.

*All Cowboy touchdowns will count 21 points.

*The Cowboys will be allowed 14 men on the field at all times.

*The Cowboys will be allowed 20 time-outs each half.

*The Cowboys will be awarded a first down with each gain of 3 yards.

"It's Not Whether You Win Or Lose, It's How You Play The Game." —Author Unknown

THERE IS A CHOICE

The W-4 form allows the employee to tell his/her boss to hold out extra

dollars each week, so those who want to do things just like they always have can do so.

Meanwhile, the law says you must file a W-4 form if you work for wages, and it must be filed by next October. If you don't, you then have a choice of either giving the government all the money you make, being executed by hanging or being locked in a little room for six months with all four walls

papered with the government forms. —Dalton Wood, The Lynn County News

NOT MUCH TROUBLE

The little boy returning home from school, was asked by his mother if he had been a good boy that day. "Sure", he said. "How much trouble can you get into standing in the corner?"

Have a good week!
