Castro County to Build Housing Unit at Local Boys Ranch

WHEAT HARVEST SHIFTED INTO HIGH GEAR IN CASTO CO. THIS WEEK

Car Shortage Causing Hardship In Wheat Harvest

Wheat harvest, which gradually got under way in Castro county last week, shifted into high gear Monday, and with the exception of small areas where harvesting operations have been interrupted by rain, all available harvesting crews and equipment have been operating at capacity during the week. Dimmitt grain men estimate that approximately ten percent of Castro county wheat acreage has been harvested to date.

As the job of harvesting Castro county's bumper wheat crop progresses reports from various farmers indicate that pre-harvest estimates of the county wheat yield were low. Most farmers report harvesting from twenty to forty bushels per acre with very few reporting less than a twenty bushels yield.

Trucks of all types and sizes have lined the highways and streets leading to the elevators, with the largest number being counted late Wednesday afternoon when 250 were in the process of unloading or waiting to be unloaded. According to Mr. Joe Bruce, local freight agent, 135 cars of wheat had been shipped from Dimmitt up to Tuesday afternoon. Only a few cars have been received here since that date.

Elevators closed down today, Thursday for the first time due to the fact that all storage space had been used up, and no cars were available to relieve the situation. Despite the fact that marketing facilities are overtaxed farmers are continuing harvesting at top speed and storing grain in all types of storage space and as a last resort piling it on the ground.

Farmers and grain men are of the opinion that marketing of wheat will be a long drawn out process requiring several weeks or possibly months before all of the crop finds its way into the terminals.

Have Wiring Done Correctly

"Amateur wiring or overloading of electrical equipment may cause a disastrous fire on your farm," County Agent R. L. King said today, urging farmers to get competent electricians to make any changes desired for the summer months.

"Most farmers think they are good electricians but the fact remains that faulty installations and 'handy-man' repairs are causing a constantly growing number of farm fires," the county agent declared.

King particularly warned against overloading circuit with temporary wiring for power tools and other machines. "Don't put in homemade extensions to the barn or other buildings. A faulty installation can easily set your barn on fire," he warned. "Be careful with portable lights, too. Don't let them touch flammable material. Hay or grain dust is particularly explosive."

"If you do have an electrical fire, use an Underwriter's approved carbon dioxide or vaporizing liquid fire extinguisher to put it out. Every farmer should have one of these types of extinguishers hanging near electrical installations." "Don't use water," he emphasized. Water can conduct the electricity into your body with very unpleasant or even fatal results."

Putting pennies in blown out fuses can also cause a bad fire, King said. "Failing to replace a blown fuse properly is just like tying down the safety-valve on a boiler. It's a bad risk."

"The best way to play safe with electricity is to have a responsible electrician inspect all wiring, motors, incubators and brooders for possible fire hazards, and install any temporary wiring necessary for the growing season," King said.

Chamber of C. to Investigate Ped'r's

At an Executive Committee meeting of the Castro County Chamber of Commerce Wednesday it was pointed out that numerous peddlers and solicitors of all kinds are constantly approaching our merchants for donations or the sale of relatively worthless items. This practice is proving expensive and often embarrassing to the merchants involved. A large percentage of these itinerant salesmen are actually engaged in a rather lucrative racket.

Aside from this they are also escaping the payment of a peddler's license, which is provided for by city ordinance, and the city is consequently losing tax revenue. All merchants are hereafter urged to refer such solicitors to the Chamber of Commerce office where their credentials will be investigated. If their business is considered legitimate and they have paid the necessary license, then the Chamber of Commerce will furnish them with a proper letter of identification.

City Marshal Assumes Duties

Mr. Woodie Sullivan, a veteran peace officer of Borger assumed his duties as City Marshal in Dimmitt Monday. Sullivan, who has had six years experience in the city police department at Borger, has also served as deputy sheriff and special officer on various occasions. Mr. and Mrs. Sullivan and baby will move to Dimmitt as soon as living quarters are available.

CHAMBER OF COMMERCE VOTES FOR STREET LIGHTING SURVEY

Wayland to Be Four Year College

Wayland College at Plainview received the go-ahead signal this week for accreditation as a four-year college.

A unanimous vote by the executive board of the Baptist General Convention of Texas at a meeting in Dallas Tuesday approved the Wayland board's application to make the school a full-fledged senior college, according to word received from Dr. J. W. (Bill) Marshall, president-elect. This makes Wayland one of three full colleges on the plains.

The board's decision will make it possible for Wayland students to attend two more years and receive standard college degrees. Castro County students who went to Wayland last year and may continue training there for three more years are Dorothy Beardon, Bonnie Hill and Geneve Hackler of Hart.

With the third year offered this fall, Wayland officials expect many of those who graduated from the junior college to enroll in September to continue their work. The fourth year will be available the next year, and the students who last got diplomas at Wayland will possibly be among the first to receive degrees there.

Dr. Marshall said the next step at Wayland will be completing the faculty for the enlarged program. He expects the faculty to number about 25 when the three-year program is set up. Expansion of the laboratory facilities and enlargement of the library are on the immediate improvement program, Dr. Marshall said.

Mr. N. L. Eischen of Moree, Ill., is here looking after his farming interests in the Nazareth community. Mr. Eischen is a former Castro county resident.

Crops Are Damaged By Hail In Small Area

Hail struck twice this week, Tuesday afternoon and Wednesday afternoon, to destroy small areas of wheat that within a few short days would have been harvested and stored away safe from weather damage. The first hail struck late Tuesday afternoon, north of Dimmitt, destroying crops on the Troy Maxwell farm and on the east side of the Spot Stone farm and moving eastward damaging crops in a small area. The hail was accompanied by a severe wind storm that splintered trees and some utility poles.

The hail Wednesday afternoon fell south of Dimmitt and again damaged crops in a small area. Losses were reported by Jack Cartwright, Frank Cone, Ross Summers, Vernon Simmons and possibly others.

Harvesting of wheat was delayed by showers and rains over a large portion of the eastern part of the county Tuesday afternoon.

Local Troop Attends Scout Camp at Ceta Glen

Seven girl scouts from Dimmitt, accompanied by Mrs. M. B. Benton, enjoyed a week-end troop camp of the South Plains area at Ceta Glen June 20-22. Approximately 140 girls with their leaders attended the camp. Girls from Dimmitt attending the camp were Ruth Ann Benton, Carolyn Bagwell, Jaqueline Cartwright, Martha Rose Noble, Carolyn Rothwell, Katy Coke, and Nancy Thomas.

Mary Killgore left Monday for her home in Roscoe. She has been visiting her grandparents, Mr. and Mrs. Mark Cowsett.

CHAMBER OF COMMERCE VOTES FOR STREET LIGHTING SURVEY

Mr. Don Jones Castle, Public Relations representative of the Southwestern Public Service Company of Plainview, spoke at the Chamber of Commerce meeting on Thursday, June 19, 1947. He is an expert on modern street lighting and one of his chief duties is to advise city governments in this area concerning the installation of more efficient and economical lighting systems.

He pointed out that one of the new type street lights, which he recommends, is constructed on a twenty-five foot high standard and employs a mercury vapor bulb. With this type of light the rays are all reflected down to the street where they are needed, whereas the old fashioned kind now in use reflect mostly upward and do not throw much light onto the street. The mercury vapor bulbs give an almost day-light effect and are very instrumental in reducing traffic hazards at night.

Mr. Castle explained, that when his company is invited to do so, it is equipped to make lighting surveys of any town and to make a recommendation concerning its lighting needs. If the town elects to install a new system his company furnishes all the equipment, installs it, and thereafter maintains it. The city then buys the company's service at a certain sum per light. A new system for Dimmitt would not cost much more per light than it is now paying. The cost of the survey is born by the company and there is no expense involved even though the city does not accept the proposed lighting plan after it is worked out.

The Chamber of Commerce voted to have such a survey made and Mr. Castle stated his company would begin at once. The survey and preparation of plans will take about three weeks. If accepted by the city the actual improvement would not be started for about eight months, due to shortage of the necessary equipment.

Womack-Stephens Wedding Vows Exchanged in Impressive Ceremony

Candlelight and soft music fused to form an impressive background for the marriage of Miss Shirley Womack, daughter of Mrs. Ethel Womack of Dimmitt, Texas, to Mr. Harold Stephens, son of Mr. and Mrs. Ozro Stephens, 922-Crockett, Amarillo, Texas, on Saturday, June 21st at 8:30 a. m.

Vows were exchanged in the Dimmitt First Baptist Church with Rev. Ural S. Sherrill, Methodist pastor of Sudan, reading the double ring ceremony.

While the guests assembled, Mrs. Carlos Reynolds of Lubbock, pianist, played "Clair De Lune," "Always," and "Because." Mrs. Harvey Youts, aunt of the bride, sang "I Love You Truly," by Bond and "At Dawning" by Cadman. "Loreng-rin" was played for the procession and recessional. "Indian Love Call," Traditional Ko Shari Club Song formed musical accompaniment for the exchange of vows. Miss Kathryn Easter and Mrs. Jack Rodgers lighted the candles.

The altar was banked with fern and baskets of white gladiolas, flanked by seven-branched candelabra bearing lighted white cathedral tapers. Also a daisy chain with pastel sweet peas and marguerite daisies.

The brides aile was covered in the traditional white and the alternate pews leading to the altar were tied with white satin bows and white gladiolas. An arrangement of white tapers and daisies decorated the windows of the church.

Mrs. Tommie Fowlkes, of Fort Worth, Matron-of-Honor, and Miss Mary Jean Webb, bridesmaid, wore identical gowns in Chartreuse faille and net, fashioned with tight fitting bodices, full skirts and net draping around the shoulders. Their matching half hats had shoulder-length veils and matching mitts completed their costumes. They carried Colonial bouquets of pastel asters, snap dragons, and gladiolas.

Miss Carole Cowsett of Dimmitt, 5-year old cousin of the bride, who served as flower girl, was attired in a gown of orchid net over taffeta styled similar to the bride's gown. She carried a white basket tied with pastel ribbons.

Kent Birdwell was best man and Tyson Eubanks was groomsman. Buster Byrnes and Herschel Kenmore were ushers.

The bride, given in marriage by her uncle, Mr. Harvey Youts of Shawnee, Okla., was attired in a gown of white satin and net, fashioned with a moulded bodice fastened with satin buttons at the back, long fitted sleeves which tapered to points over the hands. A soft fold of satin extended off the

Citizens Urged to Make Preparations For County Fair

With an abundance of wheat being harvested and prospects for other crops good County Agent R. L. King urges farmers and 4-H Club boys to start saving wheat and other crops to exhibit at the County Fair in September.

It is important now that harvest is here that those who have a good sample of wheat save this to exhibit this fall. In order to know what to save King pointed out that a gallon of grain and a small bundle not over five inches or under three inches at the middle band is the right amount to save. Since winning products exhibited at the local Fair will be exhibited at Amarillo and Lubbock, the County Agent urges all those who possible can save samples to be exhibited.

Also a community exhibit is planned for this fall and the representatives of the various communities are urged to start saving products for the fair which will probably include about 10 products grown in the community.

Mrs. Horace Brooks and children returned home Saturday from Stephenville where they had been from a visit with relatives.

shoulders outlining the net yoke, and full skirt which terminated in a court train.

Her lace edged full length veil was attached to a halo of orange blossoms. She carried a white Bible topped with a shower arrangement of two cattleya orchids forming the center and a shower of white satin and meline.

Mrs. Womack, mother of the bride, wore a black crepe dress with black and white accessories. Mrs. Stephens, mother of the groom, wore a grey dress with black accessories. Both wore corsages of white gardenias.

The bridal party, relatives, and intimate friends were guests at a wedding breakfast, following the ceremony, in the home of Mr. and Mrs. Glenn Youts. The attractive serving table was laid with an imported Maderia linen cloth. The center piece was pastel flowers of snap dragons, gladiolas, rainbow asters, and peruvian lillies. The three-tiered wedding cake was on a mirror reflector with maiden hair fern and pastel roses. Arrangements of gladiolas, marguerite daisies and pastel sweet peas were featured throughout the entertaining rooms. Mrs. Jack Rogers and Miss Jeanette Graham presided at the silver coffee service, and Miss Mary Jean Webb served the wedding cake. Mrs. Ted Sheffy secured names for the guest registry. Assisting in the house party were Mrs. Glenn Youts, Mrs. Jack Cowsett, and Mrs. Harvey Youts.

After a wedding trip to Colorado, the couple will be at home in Dimmitt. For travelling, the bride wore a salmon tropical wool suit with brown accessories and an orchid corsage.

Mrs. Stephens was graduated from the Dimmitt High School and attended Texas Technological College of Lubbock for three and one half years. She was a member of Ko Shari Social Club, Home Economics Club, and Tau Beta Sigma, honorary band sorority.

Mr. Stephens graduated from Dimmitt High School and attended Baylor University two years before entering the armed services in which he served three years. He is now Secretary-Treasurer of the Dimmitt National Farm Loan Association.

Mrs. Ozro Stephens honored the couple and bridal party with a rehearsal dinner Friday evening in the home of Mr. and Mrs. Elmer Youts.

Out-of-town guests were Mrs. Minnie Evans of Ennis, Texas, Mrs. Cecil Montgomery and Jo Ann, Mr. and Mrs. J. R. Clananah of Lubbock and Mrs. Bill Hudnall of Amarillo.

Methodist Church

"Peter, fastening his eyes upon him with John, said, Look on us." Acts 3:4.

Here was a man living a religion that would stand the scrutiny of the passerby. He was not afraid to issue the challenge to look into his life. That was sufficient in the day of the Apostle Paul. It was sufficient in the day of Moses, a serpent was lifted up that the people might look and be healed. Christ was lifted up on the cross that the world might look and be saved. The need is still dire in our own day that men would hold a consecrated life up before the world and say, look on us. Would your life stand the test? Go to church somewhere next Sunday. The Methodist Church welcomes you.

Horace Brooks, pastor

ENTERTAIN

Mrs. Nettie Graham, assisted by Mrs. W. E. Kirkpatrick entertained in the Graham yard Saturday evening with a chicken fry, honoring Bill Kirkpatrick and Miss Jeanette Graham of Waco.

Guests included Mr. and Mrs. Thomas Stovall of Lubbock, Mr. and Mrs. Buster Byrnes, Miss Mary Jean Webb of Lubbock, Sue Sheffy, Jeanette Graham, Bill Kirkpatrick, A. J. Kemp and Herschel Kenmore.

HOSPITAL MOVED TO ITS NEW LOCATION WED.

The Plains Memorial Hospital was moved to its new location in north Dimmitt Wednesday after waiting many weeks on necessary equipment. The new hospital building is one of the finest in West Texas and will accommodate approximately thirty patients without crowding.

The original equipment of the hospital is being augmented by new equipment, ordered several months ago and just now arriving. After months of effort on the part of the staff and the management of the Plains Memorial Hospital this area has available in the institution one of the finest health centers in the Plains area.

Certified Wheat Makes Good Yield

With final inspection made this week 1449 acres of wheat in Castro County was approved by Mr. W. A. Goeth, State Inspector for Certification. Of this amount 624 acres was No. 1 wheat and 825 was No. 2 wheat. This acreage included Wichita, Comanche, Westar, and Tenmarq.

Yields on this Certified wheat according to County Agent R. L. King are from 25 to 45 bushels per acre. All these wheats are good milling quality and recommended varieties. Farmers in the county interested in certified wheat to plant this fall are urged to make arrangements for their seed now as the demand is very good.

A complete list of growers and acreages will be published in the News next week or information about these varieties, may be secured at the County Agent's office.

1947 Wheat Loan Program Given

The county rate for wheat loans under the 1947 program is \$1.77 per bushel. Producers who desire wheat loans may contact the AAA office for information pertaining to loans.

There are two kinds of wheat loans available to farmers under the 1947 program, namely: warehouse storage loans and farm storage loans.

Producers desiring a warehouse storage loan must obtain a warehouse receipt from the elevator for the number of pounds stored and bring to the AAA office.

For farm storage loans, wheat must be stored in a building which will keep the wheat in good condition at all times, and must be stored in such building at least thirty days before a loan can be made.

The maturity date for loans has been set on April 30, 1948, and producers have until December 31, 1947, to obtain loans on the 1947 wheat crop.

NORTLEDGE CLUB

ENJOY PICNIC

Members of the Northedge Club met at the home of Mrs. Raymond Chism then went to Roadside park for a picnic for the regular club meeting on May 19. Covered dishes were brought and ice cream, cake and lemonade were served to a large number of the members and their children.

There will be no meeting in July. Reporter.

Mr. and Mrs. Roy W. Tolliver, of Los Vegas New Mexico, flew to Dimmitt in their Luscom plane Wednesday afternoon. They visited in the home of Mrs. Tollivers' school mate Mrs. Velma Gunnels. Then spent the night in the home of Mrs. Tollivers aunt and uncle Mr. and Mrs. M. H. Fowls.

Mrs. Guy Holmes and Mrs. Jewel McLarty and son, Lynn, of Seymour visited in the homes of their sisters, Mesdames John Blaine and George Webb last week. They were accompanied by a cousin, Mrs. Gladys Adkinson, of Little Rock, Arkansas.

Unit to House Twenty Boys

The Castro County Chamber of Commerce announced today that it will sponsor a county-wide campaign to erect and equip the second unit of Boys Ranch, which has been established on the D. G. Axtell farm. This unit will cost \$20,000 and that is the goal the Chamber has established. The building will be constructed to conform architecturally with the first unit which was provided by the citizens of Plainview. The first unit will house twelve boys, but the unit to be developed by Castro County will accommodate twenty boys. Eventually it is hoped that the Ranch will take care of about fifty boys.

The campaign is now on and all contributions may be left either with Mr. Bob McLean at the First State Bank of Dimmitt, or Mr. Robert B. Hershey, Secretary of the Chamber of Commerce. All communities in the county will be asked to participate and each will receive a quota. Those contributing before the various money raising teams are announced will receive credit toward their communities' goals.

On Monday evening, July 7, 1947, a general meeting will be held in the courthouse to officially open the campaign. Mr. Tom Wingate of Amarillo and Mr. Robert Lindsey of Borger, both Directors of Boys Ranch, will be present to discuss the work done at Boys Ranch in Amarillo and the plans for ours in Castro County. Mr. and Mrs. D. G. Axtell who donated 1400 acres of land to make this Ranch possible will also participate in the program. A full announcement will be made in next week's paper.

A Worthy Campaign

(By Bob Hershey)

We have all heard of Boys Ranch in Amarillo, for its good work is nationally known and commended. During the past twelve years over 270 boys have been developed into solid, upstanding citizens because of the far seeing vision and assistance of many men and women of good will. But unfortunately many other boys have been unable to enjoy the benefits of Boys Ranch because the facilities were lacking to care for more.

Today, however, due to the tireless and unselfish efforts of Mr. and Mrs. D. G. Axtell that situation is about to be relieved. Sometime ago these two people, long time residents of Castro County, decided they wanted to do something with their land which would not only benefit the boys of today, but also generations of boys yet to be born. And so, after due negotiation, they have deeded 1400 acres of fine farm and grazing land to Boys Ranch. This means that very soon fewer boys will be denied the opportunities of this great organization.

But boys like everyone else must have proper accommodations. It is necessary to build housing units and auxiliary buildings to care for more and more boys. Plainview has generously made an early opening possible by erecting a building for twelve boys. Castro County must never neglect its own responsibilities toward furthering the work of this nationally famous program. Our first step is to provide living quarters for twenty more boys.

Our campaign toward that end is now underway. Each of us can give time, money or effort to make this campaign a success.

Wheat farmers—a load of grain will be gladly accepted for Boys Ranch by any elevator in the county.

Castro County must show the nation it has taken Boys Ranch to its heart.

Mr. and Mrs. Clifton Davenport and family of Welasco visited in the home of his sister, Mrs. Walter Griffith and family.

Mr. and Mrs. Jack Womack of Lamesa, Texas, were visitors in L. A. Womack's home last the week last week-end.

Mrs. Hez Wright and daughters, June and Bobbie of Lamesa are visiting in the home of Mr. and Mrs. A. O. Gregory.

NAZARETH

Mr. Bernard Kisman returned to Nazareth Saturday, June 14, where he will spend the next several weeks, Bernard has had employment in Fort Worth.

Nazareth American Legion Post No. 528 held a social meeting in Nazareth on June 16. A box lunch followed the meeting.

A party was held in the home of Mr. and Mrs. Florence Schacker on Sunday, June 15th. A host of friends attended and enjoyed the evening.

(Delayed from last week)

Among the Sisters who are away for the summer are Sister M. De Chantal and Sister M. Victoria who left Wednesday, June 11, for Fort Smith; Sister M. Germaine and Sister M. Isabel left Sunday, June 19, for Fort Smith, Ark. All four Sisters will spend the summer there.

S-Sgt. George T. Bowers, son of Mr. and Mrs. Tom Bowers of Nazareth, returned home this past week where he is now on terminal leave. George entered the service on November 2, 1944. He spent part of his training time in Camp Chafee and Camp Robinson, Ark. In 1945 he was moved to Fort Ord, California. He went overseas in April, and was in the Philippines, Okinawa, and Japan. In March of 1946, he re-listed and spent a 90-day furlough in Nazareth. He went overseas in October of 1946, where he was stationed in Korea and Japan. He will receive his discharge on July 27.

Mr. and Mrs. Jack Womack of Lamesa Texas were visitors in Mrs. L.A. Womack's home over the week end.

Kenneth Simmons of Roff, Oklahoma is visiting in the home of Mr. and Mrs. M. E. Simmons.

Elsie Mae Cooper is visiting her grandmother, Mrs. Ezra Akin, of Perryton.

Norma Hunter spent the week-end in the Markham home at Tulla.

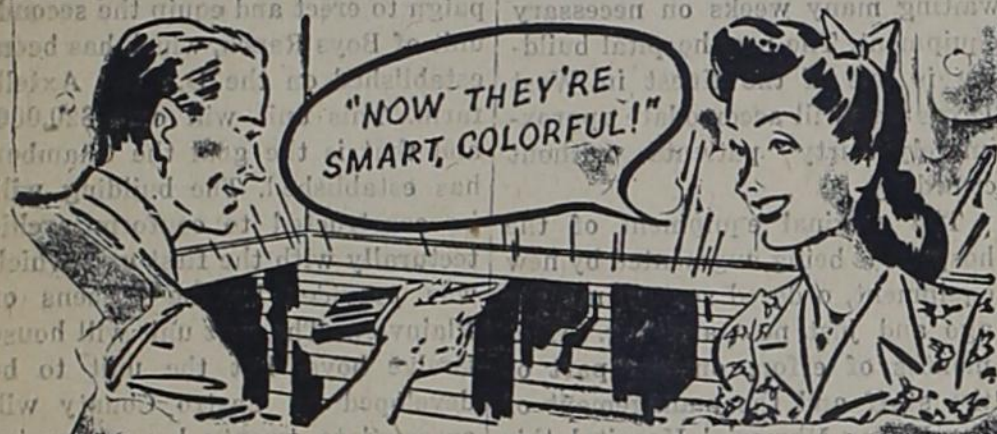

Nancy and Harold Squires of Houston and Marilyn Cox of Azotex, N. M., are visiting their grandmother, Mrs. James Cox, Sr.

Tiny Hunter left Sunday night for Dallas where she will attend the Grand Assembly of the Order of the Rainbow Girls.

House guests of Anne Sheffy over the week-end were Bette Brown of Amarillo and Joan Byars of Canyon.

Boice House Gives You Texas

Nothing which has been touched upon in this column in months has attracted as much comment at the recent criticism of the incident in Pawtucket, Rhode Island, where a man was arrested and fined for laughing. Nearly all of the reaction from our readers has been favorable but several letters were received from Rhode Island, or former Rhode Island, citizens and they took your columnist over the coals.

Their letters criticized Texas. In other words, the writers denied that I had the right to criticize their state but that they had the right to criticize mine.

If Texans have faults—and of course we do have—that would be no excuse for the Pawtucket outrage. Our forefathers wrote into the Bill of Rights the assurance of freedom of speech, freedom of press and freedom of worship; they did not provide for freedom of laughter for the reason they never dreamed that anyone would question that right.

I have before me a letter from the mayor of Pawtucket who admits the man was arrested and fined for laughing but the fine was paid back, so that ought to make everything just ducky. The reason it was paid back was because editorial writers and columnists by the scores all over the nation protested. Was the chief of police fired for making the arrest? Was the judge who levied the fine kicked out of office?

When the letters protesting against the criticism made in this column came from men, I replied by mailing them a timetable showing the trains that leave Texas, northbound.

Those who don't like Texas ought to go back to the place they do like, then both they and we will be happy.

The first edition of "Cub Reporter", your columnist's new book, is 1001 copies, numbered and signed by the author. Hightower Press, 610 E. 10th, Dallas, is the publisher.

WHERE THOUSANDS DIE!

91 killed—3,150 injured! If that were the report of an explosion, wreck or other disaster, it would be front page news. People would be horrified! But worse—it's just *one day's* automobile casualty list in the United States. It happens every day, week in, week out. *Four deaths, 131 injured—every hour.* At year's end 33,500 lives snuffed out, over a million injured or maimed for life. That's what happened last year. This year's record threatens to be even higher.

Speed—reckless, wanton speed—drunken driving—defiance of safety rules and regulations—and careless, jaywalking pedestrians, top the list of causes for this grim toll.

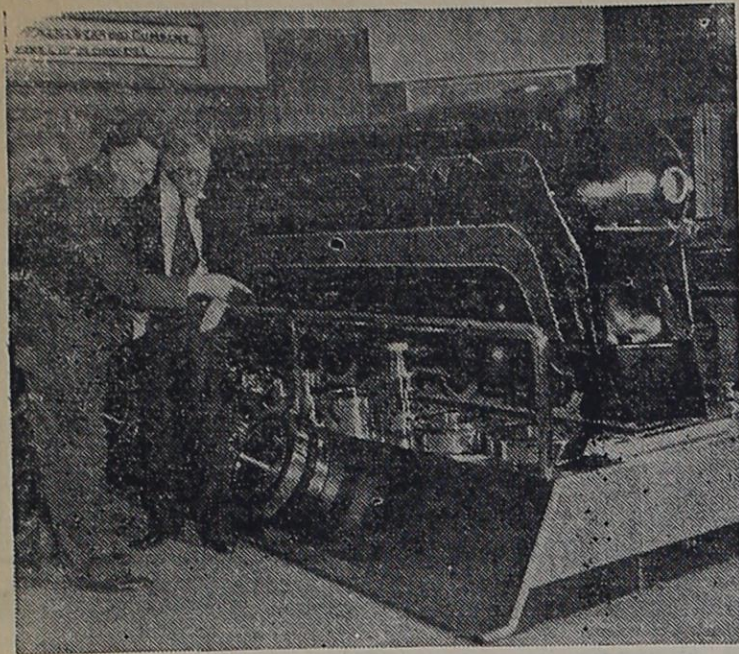

What can you do about it? Will the speeding wheels of your car add one death to this mass murder of the highways? Not if you, the driver—and you, the pedestrian—take your individual responsibilities seriously. Drive carefully at all times, under all conditions, and be alert when walking.

Don't be one of the thousands to kill, or be killed. Drive safely—and live!

This advertisement is presented in the public interest by the President's Highway Safety Conference and the daily and weekly newspapers of the nation through their Press and Publisher Associations.

Model Locomotive Tours U. S.

Guaranteed to attract the eyes of model train builders the world over, is this \$50,000, quarter-size model of a modern type 4-8-4 Timken Roller Bearing equipped steam locomotive.

The locomotive model was built, not as a toy, but rather as a graphic presentation of the rapid strides made in the railway applications of roller bearings.

Shown examining the model and the regular bearings used in full-sized locomotives, pictured along the sides of the exhibit, are Walter C. Sanders, left, General Manager, Railway Division, of the Timken Roller Bearing Company, and Lawford H. Fry, Director of the Steam Locomotive Research Institute.

ADVANCE DESIGN OF CHEVROLETS ANNOUNCED

Featuring the cab that 'breathes' the new Advance line of Chevrolet commercial cars and trucks is on display at the Dimmitt Motor Company in Dimmitt, Texas.

"Chevrolet is the largest producer of trucks in the world" Mr. Carl E. Kemp of the Dimmitt Motor Company declared, and its new line is undoubtedly the finest in the history of the company. Mr. Kemp cordially invites truck owners, fleet operators and others interested in trucks to view the exhibit in his show rooms.

Produced in a wide variety of models to accommodate practically every hauling job, the Advance Design line of vehicles is manufactured in nine wheel bases with gross weights, (combined weight of the chassis, body and load) ranging from 4000 to 16000 lbs.

Each model in the diversified line has been precision engineered for a specific load rating, with all component parts designed for the work load and to provide the utmost in safe, comfortable, low cost transportation.

Re-styled, the Advance Design series are unusually attractive in appearance and provide more room, more comfortable seats and other

improvements for the comfort and convenience of the "man behind the wheel."

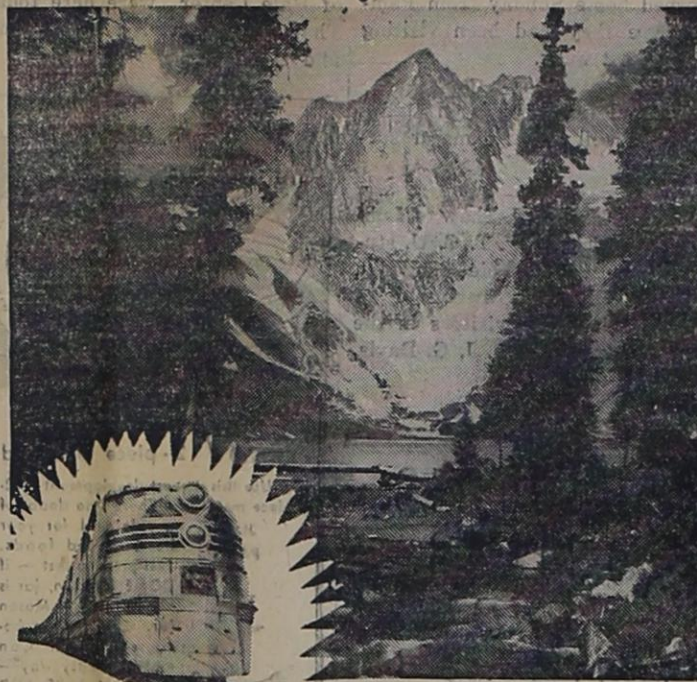

Chief of these is the cab that "breathes", in which a new ventilating system circulates fresh air in the cab and keeps windshield and window free from fog.

Completely welded instead of bolted, the new cab is much stronger and its doors have an inner and outer seal. Increased driver comfort is also accomplished through the new three point type of cab mounting—two body tension and shear mounting in the front and one shackle mounting in the rear center.

Windshield and side rear windows in the cab provide greater vision and instrument controls are re-styled and rearranged for improved driver convenience, Mr. Kemp said. A new dome light is another cab feature. Bodies are wider and load space has been increased 13 percent in the panel model trucks. Pickup bodies are now 50 inches wide. Light and medium trucks with gross weights ranging from 4000 to 8800 lbs. are powered by dependable Chevrolet Thrift Master Engines, while the equally high regarded Chevrolet Load Master engine is used in the heavy duty units with gross weights up to the 16000 lb. classification.

Mr. Kemp predicts that the new trucks will be enthusiastically welcomed and endorsed by the truck drivers and truck owners, of this vicinity, and he is confident that the new line establishes new standards for the trucking industry.

Mr. and Mrs. Dwight Ballard of Houston are visiting Mr. and Mrs. Gene Kenmore.

Land Of Milk

-AND MONEY!

There's no "three-cornered stool" in the dairy business today. Families used to "keep a cow" for the babies, but cows bring in BIG money today for many folks in our area. It's truly a "land of milk and money." Butter, cheese, evaporated milk—and all of the other dairy products that come out of our territory are making money for thousands of farmers.

We have so much confidence in the dairy industry—and all other industries we serve—that we are investing 35 million dollars in a building program. This expansion program in our territory will bring more dependable electric service to home, farm and industry and better living—electrically—to everyone!

FLAGG NEWS

Sunday guests of the Andy Thompsons were Mrs. Jewel Sylvester and Mr. Carl Crisp of Vernon, Mr. and Mrs. Calvin Leverett of Lubbock, Mrs. Bob Roberts of Albuquerque, N. M., Mrs. L. D. Rundell of Muelshoe, Mr. and Mrs. L. C. Cole of Meno, Arkansas, Mr. and Mrs. Irvin Ott and children of Big Square, Mr. and Mrs. John Davis, Mrs. Clyde Damron, and Mr. and Mrs. George Carpenter.

Sunday guests of the Cecil Ginn were Mr. and Mrs. J. M. Anthony and O. B. Ginn and daughters of Amarillo.

Gerald Sylvester of Vernon is visiting indefinitely in the home of his uncle, Mr. Andy Thompson.

Mr. and Mrs. Ira Wimberly of Portales, New Mexico, visited the Alvin Fraziers last week.

Mr. and Mrs. Ben Smithson and children visited her father, Mr. McCoy, in Portales, last week. Little Howard Smithson had the misfortune of breaking his arm Sunday.

Joe Harrison has been appointed by Bro. Landreth, District Superintendent, to be our pastor each fourth Sunday, until a circuit pastor can be obtained. There will be preaching services every Sunday. All are invited to attend.

Troy Stewart, who has been visiting his mother, Mrs. C. C. Chance, left Wednesday for San Francisco where he will visit his brother, Burl, before going back to active duty with the Merchant Marine.

Miss June Nolan of Detroit, Mich., is here visiting her sister, Mrs. Wilbur Johnson, and family.

Mrs. Arthur Doshier of Littlefield is visiting Mr. and Mrs. J. B. Blackwell and family.

Woodrow Barton of Oklahoma City is visiting Mr. and Mrs. J. B. Blackwell this week.

WHEAT HARVEST

IS A

Rush Season

in this section every year, and it will be an especially busy season this year as one of the largest wheat crops in the history of this area is about to be harvested.

It is with that thought in mind that we have made every effort in preparing for the handling of your wheat during the harvest rush.

We have a large capacity for the handling of grain and as in past years we will pay the highest market price or store your wheat in our Federally Bonded Warehouse.

INSURANCE COUNSELOR

One afternoon last week, while browsing in the library, I ran across an article which shocked me greatly. An editorial in a 1900 New York paper described a dirty delivery boy taking a loaf of bread from his wagon . . . beating his horse with it . . . and then throwing the loaf back into the wagon to deliver later to some unsuspecting family!

Today, such a situation is practically impossible, for when we buy bread now we buy the freshest, tastiest, cleanest bread that was ever made . . . and the waxed paper it is wrapped in is our assurance that it will stay fresh and sanitary until we use it.

Not long ago, I went through one of the bakeries in our city and watched the wrapping process. Did you know that our bread is automatically sliced and wrapped without being touched by human hands? It was certainly interesting to watch the wrapper form around the bread, automatically pass through heated plates which temporarily melted the wax and sealed the ends of the wrapper to form a perfect enclosure. I was surprised to learn that the waxed paper wrapper is made with pure, tasteless, odorless paraffin—such as we use to preserve jellies—so no dust, dirt or insects could possibly penetrate it—and furthermore, it prevents outside odors from contaminating it.

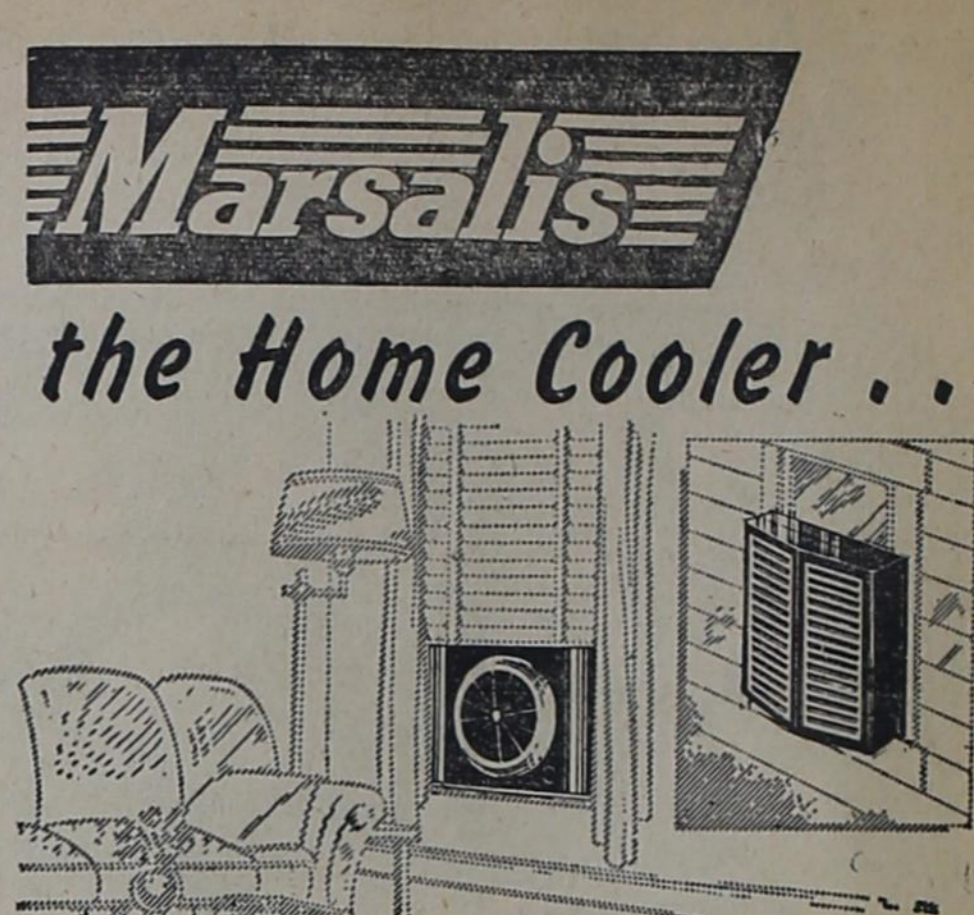

You know, it's amazing that such protection can cost so little. The baker told me that the waxed paper used to keep our bread fresh and sanitary costs but a fraction of a cent per loaf. We housewives are certainly fortunate, aren't we—to be able to get maximum protection and minimum cost in these days of inflated prices!

Mrs. W. H. White of Wichita Falls is visiting her daughter, Mrs. C. W. Walker and family.

Betty Ann Sherrill and Betty Salem of Sudan were Dimmitt visitors Sunday.

Mr. and Mrs. Claude Forson and Mr. and Mrs. B. M. Nelson and Mary visited in Lubbock Sunday.

GRAIN INSECT PREVENTIVE
Clean all bins, stop all leaks, make water proof. Use the following mixture on floors and walls: Two cans lye, three pounds soda, five pounds of sulphur. Moisture contents of grain not to exceed twelve and one half per cent.
The above has proven successful.
Boothes Elevator

Look! **QUICK-ON QUICK-OFF**
If you pride yourself on having all the up to date answers on modern farming you should be familiar with the many advantages of MM Quick-On—Quick-Off cultivator and planting attachments.
Built to fit MM Universal tractors, MM cultivators are made in two, four and six row sizes. To convert from two to four row the outside frames and gangs are simply bolted on. Adjustment up to 44 inches for wide row spacing is made by merely loosening the clamp and sliding the gangs along the square frame bars. The Quick-On—Quick-Off cultivators have high clearance and are available with hand or power lift and a choice of sweeps, shovels or spring tooth attachments, for both front and rear gangs. With the cultivator mounted near the front wheels, and Visionlined Design of MM tractors the operator has full operating visibility and is seated comfortably low to the rear of drive wheels for added SAFETY.
For precision planting the cultivator may be changed over to a drill planter by the removal of the cultivator shanks and mounting the planting attachments on the cultivator frame.
When the job is finished, the tractor can at once be used for other jobs, since Quick-On—Quick-Off tools are easily removed. MM offers a complete line of these tools for more profitable farming in any territory. Many parts of MM Quick-On—Quick-Off units are interchangeable, saving you money because you buy less equipment to handle all the jobs.
MM Dealers everywhere are now embarked on a new program of specialized sales and Service of MM Modern Machinery.
*Special four and six row cultivators for "Z" and "R" Tractors available for narrow row crops such as beets and beans.
