

Stage Set for County Fair Starting Thursday

After a year's absence, the Castro County Fair will get underway late Thursday afternoon, September 13 when contestants place all exhibits on the stands for judging and the first entertainment begins. A regular carnival will be operated the three nights of the fair

along with concession stands and other entertainment. From present indications this will be one of the best prepared fairs yet since local participation in pre-fair preparations has been outstanding. While details were not fully complete by press time, it is planned

that the quarter horse show, a popular event every year, will get under way at 1 p.m. Saturday.

A complete cataloging of fair activities and showings will be found in the second section of this

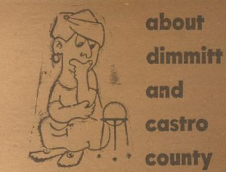

issue of the News. Starting the fair will be the opening of exhibits to the public at 7:30 Thurs-

day evening. A fireworks display, along with carnival and concession activities, will supply enter-

tainment for the first evening. While Thursday is the big work day, when booths, concessions and

exhibits are made ready, the judging will not start until later. Judging begins at 9 a.m. Friday morning.

Included in the exhibits at the fair building are home cooking, canning exhibits, poultry, rabbits, livestock, farm produce, handwork and almost anything else in which a competitive spirit can be involved.

about dimmitt and castro county

by bascom nelson

This is our fair issue of the Castro County News. With every Castro County Fair we publish a special issue so we may do as much as possible to stir up maximum interest in the occasion.

One reason we are throwing our feet out a week ahead of the actual fair is so we may get people to thinking about it in advance. A county fair is successful or unsuccessful, depending on the amount of advance planning that goes into it. While time is running out, it's better to start working on an exhibit a week, rather than one day in advance.

We hope this will be a successful fair. Counties all around are having trouble maintaining their fairs due to a lack of interest on both farmers and city dwellers.

Considerable difficulty in arousing public interest has always been apparent in the Castro County Fair, but it has been easier than in other counties. Percentage-wise, farmer participation in the Castro County Fair is probably higher than any other county in the area, and we'd like to keep it that way.

Naturally, yield per acre is a big part of the criteria on which a good farmer is judged and so, in slight degree, is his wife judged on the amount of canning she can accomplish in a given time. Virtually everyone is judged by the amount of work or goods he or she can produce. However, all the quantity in the world is no good if the quality is unacceptable. A really outstanding farmer is required to produce a better quality product than his peers, the same way his wife must have deep understanding, knowledge, and the elusive quality of perfection seeking before she can produce fine embroidery, canned goods, homemade clothes and the like.

This quality will be the basis of judgement next week end. Most types of production businesses have some way or the other of having their product judged. It is a necessary part of the free enterprise system. At the County Fair, our farmers can judge for themselves the advantages and disadvantages of cotton, maize and wheat varieties and at the same time can see how their endeavors stack up against other farmers. County fairs are really week end schools where everyone who wants to learn need only come and look.

County fairs are also good places to come and talk and argue, to cuss the government or to praise it, to brag on equipment and to tell jokes. We've never heard of anyone who came who wasn't glad he did.

★ Let's see if you've heard this on: It seems a farmer was going to enter his mule in the pulling contest at the county fair, but about a week before the fair the brute turned lazy and indifferent and wouldn't do a thing. So the farmer rushed to the local vet and asked him what to do.

"Just give him one of these capsules," the vet said.

"But what if he won't take it," the farmer asked.

"Just put in this tube and blow it into his mouth and down his throat," the veterinarian instructed.

Just before the fair the farmer returned to the vet's office, sickly and with a green tint to his face.

"How'd the pill work?" the vet asked.

"It didn't," replied the farmer, "The darned mule blew first."

★ Attendance at the Bobcats' first game of the season at Springlake Friday night was good and we hope it keeps up this way—or better—all year.

It may be a while though, before years, even decades, of mental score-keeping can become accustomed to the 2point extra points when the ball is carried over. We think this is a good rule, but football is becoming loaded with "good" rules and we sometime wonder if everything shouldn't be scrapped and the game start over with 1890 rules.

But if this happened remainising papas couldn't tell junior how tough the game used to be when they played and how soft the players have it now.

★ Memo to the people who have asked: Under Texas law, a year must pass before a hospital bond election can be called again after failing to pass. This doesn't hold true with other types of county endeavor, but does in the case of hospitals.

Farm Bureau Open House Set Saturday

Castro County Farm Bureau, with E. T. Cummings, public accountant, will hold open house in their new offices at 304-306 North Broadway Saturday afternoon, September 13, at 1 p.m.

Purchase of their present site by the Farm Bureau came after several years of planning. Five years ago the Farm Bureau Board of Directors voted to set aside fifty cents per member toward the purchase of a building for the Farm Bureau. Also the money obtained from the making of Cotton Loans has gone into the building fund. On May 29th this year, the decision was made to purchase a building belonging to P. L. Cunningham, at that time the site of the Holiday Food Mart.

After purchasing the building, the Farm Bureau remodeled and partitioned the interior and have now rented one-half of the building to Mr. E. T. Cummings, a certified public accountant from Canyon. Mr. Cummings sent his assistant, Mr. Boyd D. Prather to Dimmitt to manage the office and do accounting, audits and income tax returns.

Farm Bureau officials have extended an invitation to everyone in this area to attend the open house Saturday.

Clovis Man Is Seriously Injured In Accident Here

Mr. Claude Looney of Rt. 2, Clovis, was seriously injured early Sunday morning in an accident on the H. C. Nelson farm.

Mr. Looney, 57, had gone to the Nelson farm to seek employment. The two men talked for a while and when Mr. Looney started to leave he thought he heard something wrong with his car engine, which he had left running during the conversation. He raised the hood and told his wife to race the motor. The car is equipped with an automatic drive and the selector had been left in the drive position. When Mrs. Looney pushed down on the accelerator the car jumped forward, knocking him down and rolling him, in summer-sault fashion under the chassis. He was dragged for some distance before Mrs. Looney could get the car stopped, and it was necessary to jack the car up to remove him.

Rushed to Castro County Hospital by a Dennis Funeral Home Ambulance, Mr. Looney was treated for cuts and abrasions and other injuries, including a broken pelvis. He was transferred Monday to a hospital in Portales, N. M., so he could be near relatives for further treatment.

First Bobcat Home Game Here Friday

The Dimmitt Bobcats' first home game of the season is slated for the local stadium Friday night, when traditionally powerful Lockney comes calling.

The Lockney team, last year's all-regional power-house, has five starters back and Dimmitt coach J. D. Covington is expecting a rough struggle.

This will be the first varsity game to be played before the newly expanded stadium at Bobcat Field. According to a report Wednesday, some 145 tickets have been sold with 102 remaining in the reserved seat section between the 40-yard lines. Other seats, in the ends of the stadium, will be sold as general admission. Seating capacity of the new stadium is about 2,100 and is expected to accommodate the largest game this season. Tickets are on sale at Dimmitt High School for \$6.00 each for the season.

The season's opener Friday night developed into an easy 42-0 victory by the Bobcats over the

Springlake Wolverines. Springlake never threatened and Dimmitt was able to score almost at will when the A-team was on the field. The first real indication of Bobcat strength during the coming season will be against the Lockney team here beginning at 8 p.m. Friday.

Coach Covington said this week that football films of each game during the season will be shown to the general public at 8 p.m. the following Monday night at the Grade School cafeteria. Admission is free and the filming by J. O. Ayers, is made possible by funds from townspeople.

Lockney, running the game pretty well as they pleased, defeated usually tough Hale Center 14-0 last week. According to scouting reports, an all-out effort by Lockney would have resulted in a much more lopsided score. Lockney works from the T-formation and has five starters back. (Dimmitt has one starting letterman from last season). They have a working passing attack, having tossed 12 against Hale Center.

The Bobcats are without the services of a quarterback Stanley Nelson, who sprained his ankle last week.

According to coach Covington, "The boys are showing good spirit and attitude, and in some places there is a definite improvement over this time last year. But we're still watching some of our other boys because how they play we have a successful season."

★ Dennis Wins Talent Find

Edgar Dennis won first place Thursday night in the first Talent Find show to be sponsored by the Women's Committee of the Castro County Farm Bureau.

In the junior division, first place went to pantomime artist Jerry Morris and second went to the flute quartet of Tommy Allen, Mary Behrens, Keitha Davis and Ka Estes.

Dennis has appeared before audiences before with his senior division prize-winning whipl act. From the local show he will go to state contests. Second place in the senior division went to Magician and Mrs. James Richardson.

Others entered in the senior division were Charles Davis, guitar and solo and Morris Westberry, pantomimist. Others in the junior division were Anabel Taylor, acrobat solo; Lanellie Blanton, accordion, and Laurel Ivey, twirling.

Emcee for the occasion was Hub King, district 2 director of the Texas Farm Bureau from Brownfield. Judges for the event were John I. Bowling of Hale Center; Mrs. Grant Hanna of Hereford and Dave Sherrill of Lubbock.

Dennis will appear in the Farm Bureau State Convention in Corpus Christi in November.

Jim Gillespie, Night Policeman Hired By City

For the first time in its history, the City of Dimmitt will have a full-time night policeman.

Mr. Jim Gillespie, 39, began his duties Monday night, with City Marshal W. W. Jones, Mr. Gillespie will form an almost 24-hour police department here.

This new post has been considered for some time. City of Dimmitt officials began looking for someone to assume these duties last spring on the recommendation of a grand jury, which had become concerned with the need for more late hour law enforcement here. Mr. Gillespie's work as night policeman will not overlap in any way the night watchman duties of Mr. Irving Johns.

Anyone needing the services of the night policeman should call the telephone office at any time and leave their message. Personnel there will then contact Mr. Gillespie.

The new policeman has had eight years of law enforcement work, which includes three years with the Potter County Sheriff's Department and 2 years with the Randall County Department.

Gillespie is married and is the father of three children. He will act as patrolman each night in a fully-equipped police car.

★ Darrell Beavers Accident Victim

The condition of eight-year-old Darrell Beavers was considered critical but improving Thursday, after riding his bicycle into the path of an automobile about 6:15 p.m. Monday.

Darrell is the son of Mr. and Mrs. Clifford Beavers of 303 NW 4th. His physician said Thursday that although the boy's condition is critical now, he will probably have a complete recovery. Darrell suffered a mild brain concussion and severe bruises and abrasions over his body.

Driver of the car was Miss Nell Dowty, 17, daughter of Mr. and Mrs. J. L. Dowty of 109 NW 5th. She was placed under sedation for shock following the accident.

According to a report of the accident, Darrell rode his bicycle out of the driveway of his home and into the path of the automobile when the incident occurred.

★ First PTA Meeting Set for Tuesday

The first P-TA meeting for the 1958-59 school year will be held Tuesday in the High School Auditorium.

Mr. Carlos Calvert president of the organization, has issued an invitation to all parents to attend the meeting.

Subject of the first program will be "Work of the School Trustee," by Charlie Hays.

A main feature of the evening will be the introduction of teachers for the coming year in Dimmitt Public Schools by Superintendent R. S. Vestal.

★ Leaves for A&M

Paul Hilburn left Saturday for A&M College at Bryan. He is the son of Dimmitt High School principal Paul Hilburn, Sr.

★ Billie Kay Vaughn Seriously Injured By Coffee Truck

Little Billie Kay Vaughn, 2½-year old daughter of Mr. and Mrs. Don Vaughn of Dimmitt, was seriously injured shortly after noon Wednesday when a wholesale coffee distributor's truck backed over her.

Her condition was considered critical by doctors Thursday. The child had been playing around her father's place of business, the Dimmitt Drive-Inn, when she got behind a rear wheel of the truck. Although the driver looked behind the truck, he failed to see the child and when he backed up the truck passed over her body downwards from the left arm to her right leg.

She was taken to High Plains Clinic for emergency treatment and was later transferred to Deaf Smith County Hospital by Dennis Funeral Home ambulance. Billie Kay suffered multiple abrasions and bruises all over her body, a fractured pelvis, and internal chest and abdominal injuries.

★ Fair Parade Plans Complete

The Castro County Fair parade will get underway at 10 a.m. Saturday morning, September 20. The parade will line up either on South-west Third or Southwest Fourth and will start either at Fourth and Bedford or Third and Bedford and will go East on Bedford and Second, and then circle the Square for the floats and marchers to enter.

Everything to be judged will be around the Square where judges will have a chance to see all the floats and to do the judging.

The Parade Committee of the Fair Association met Tuesday of last week and decided that float entries must be in by September 17. There will be two divisions in the parade, consisting of the Commercial, which is communities, clubs, civic and commercial floats; and the Education which is schools, churches, FFA, FFH and 4-H floats. There will be a first, second, and third for ponies. Trophies have been ordered and as they are received they will be placed on display at the First State Bank in Dimmitt and the Farmers State Bank in Hart.

Letters and schedules of the parade and other features of the Castro County Fair are being mailed out by the parade committee in visiting the communities and clubs to participate in this year's parade.

★ DIMMITT CLASS OF '48 ASKED TO WRITE MRS. AUTRY

The Dimmitt High School graduating class of 1948 has been asked to write Mrs. Joyce Autry at Route 1, Dimmitt, giving their present address, occupation, and other general information about themselves so a newsletter may be published in the future. Mrs. Autry may also be contacted by phoning 382-J3 Dimmitt.

Halfway Station Field Day Set For Wednesday

Wednesday, September 17, promises to be a big day for people interested in Agriculture on the High Plains. Preparations are in high gear for the second Annual Field Day at the High Plains Station of the Texas Research Foundation at Halfway.

The first tour will start at 1 p.m. and continue until the barbecue at 6 p.m. Explanations of the projects at each of the eight stops will be made by members of the staff at the Station, from the Texas Research Foundation and others. Twenty tractor drawn wagons will carry the visitors over the mile and a quarter tour, the guides who accompany each wagon will be professional Agricultural personnel from the Soil Conservation Districts, County Agents and Vocational Agricultural Instructors in the High Plains Area.

Signs designating the crop varieties, fertilizer tests, soil and water conservation projects will be placed throughout the tour route.

Chambers of Commerce, Civio Clubs and Farm organizations have offered to assist in conducting the Field Day by assisting as greeters, registrars, hosts, in parking cars and serving the barbeque.

★ Paving Program Suffers Setback

The new Dimmitt paving program ground to a halt, backed up and prepared to start all over this week due to legal technicalities and an unexpected enthusiasm on the part of Dimmitt citizens to have their streets paved.

What started out to be a small routine paving project of three or four streets has developed into almost a dozen. The latest request for participation to reach the City Manager's office this week was for Tenth Street between Stinson and Lee.

The hearing, originally set for early next week will be held at a later date on the paving issue. A legal notice will be carried in the Castro County News as soon as it is prepared.

City Manager E. B. Noble urged all people interested in securing paving in front of or alongside of their property, to contact his office as soon as possible.

All Kinds of Dogs In Fair Show

There will be all kinds of judging at the County Fair this weekend, but one of the most unique will be the dog show. In fact, there are several places in the show that most dogs would rather not win.

The show, beginning at 11:30 Saturday, will have Glenn Maples as Superintendent. The show will be held at the fair grounds and prizes will be awarded as follows: 1st Prize, \$4, to dog doing most or best tricks; 2nd prize, \$2.50, to dog of least known ancestry; 3rd, \$1.50, to ugliest dog; 5th, \$1, to dog with longest tail; and 5th prize to best behaved dog.

The dogs will have a place in the parade and all dogs are eligible to enter.

★ Fair Queen To Be Picked Saturday

The Castro County Fair will pick a queen at 10 p.m., Sept. 20, according to Queen Committee Chairman, James W. (Rosy) Bates.

Each organization in the county is asked to select their own candidate and be responsible for her float. The girls will be judged from a float in the Saturday parade. Later judging will be held on a truck at the fair grounds beginning at 8:30 Saturday. "Three out-of-town and completely impartial judges will select the fair queen," Bates said. She will be selected on the basis of beauty, personality, poise and talent. The winner will be announced at 10 p.m. and she will be crowned by Noble C. Howard, president of the Castro County Fair Association.

Should be between the ages of 15 and 20 and be unmarried and she must be a resident of Castro County. Each candidate will select her own escort and she will be expected to appear in the parade at 10 a.m. Saturday.

Firms and organizations wishing to enter a candidate in the queen contest should contact Bates by next Tuesday.

Betty Lois Daniel and Ronald Curtis Wed In Methodist Church Ceremony

The Rev. N. S. Daniel officiated Friday, August 22, for the marriage of his niece, Miss Bettie Lois Daniel, and Ronald Perry Curtis. The Methodist Church was decorated with an arch of foliage, baskets of white gladioli and white candles for the 7:30 o'clock service.

Parents of the couple are Mr. and Mrs. R. R. Daniel of Olton and Mr. and Mrs. W. H. Curtis.

Proceeding the double ring ceremony the bride's cousin, Mrs. J. E. Waller of Floydada, played traditional wedding marches. She also accompanied the soloist, Miss Deveryl Dougherty of Olton.

The bride's full length gown of white lace and tulle featured a boat neckline edged with seed pearls. A peace crown secured her veil and she carried a white orchid over a Rainbow Bible with white streamers.

Wearing full-skirted dresses of powder blue polished cotton, Mrs. Richard Snell of Albuquerque, New Mexico attended her sister as matron of honor and Mrs. Rayphard Daniel, Jr. of Clovis, New Mexico as brides matron for her sister-in-law. They added short white veils and cascade bouquets of blue carnations.

Candles were lighted by Lindy Ray, cousin of the bridegroom, and Kent Clark of Floydada, cousin of the bride. The bride's nephew, Snookie Daniel of Clovis, New Mexico and the bridegroom's cousin, Vicky Ray, were ring bearers.

Jimmy Curtis served as his brother's best man. DeWayne Brown, groomsman, while ushering duties were assumed by John Barbie of Lubbock, John Gilbreath, Joe Ben Mitchell and Lewis Crowder III of Lubbock.

Mrs. Edward Featherengill of Olton, Miss Cherie Crook of Vega, Miss Yvonne Pinkerton and Mrs. Kruger Johnson of Olton assisted in hospitalities at a reception which followed in the church parlor. Covered with a blue cloth, the serving table held a three tiered cake and blue tapers.

After a wedding trip to New Mexico, the couple will be at home in Lubbock where Curtis is employed by Bill Barnett's Real Estate Agency. A graduate of Dimmitt

Use of Corsages Subject of Talk At Garden Club Meeting Tuesday

"Corsages may be thought of as costume jewelry, the flowers must do something for the person who wears it. They are like pearls on the neck or bracelets on the arms. You know they are there, but you can't feel them," Mrs. Joe Benson told the Dimmitt Garden Club Tuesday afternoon in the home of Mrs. Gene Gray.

Mrs. Benson and Mrs. Robert Singer told the group to consider the flowers available, your costume and the occasion for wearing flowers. Mrs. Gene Gray, assisted by Mrs. Brad Fuller, demonstrated the art of corsage making, using roses, asters, and small dahlias and one gardenia grown in Dimmitt.

Mrs. Sam Gilbreath showed the easy and proper way to make the ribbon bows and fluffs.

Mrs. Sid Sheffy presided at the business session. She told the group

of the plans for the coming year work. The main theme being, "Be kind to the soil you live on," stressing water and soil conservation.

Mrs. George Bradford gave the outline plan for the flower show to be held at the West Fair Building September 19 and appointed the different committees to work.

Mrs. Eurl Robinson, science teacher, gave her plan for the wild flower exhibit her class will present at the fair.

A standing vote of thanks was given Mrs. Joe Cowen for the art work on the new year book, and to Mrs. W. H. Curtis and Mr. Bob Stovall of the Castro County News, for their contribution to the book. Mrs. Sam Gilbreath and Mrs. W. H. Curtis assisted Mrs. Gray

as hostess.

Mrs. Rogers Speaks To Jr. Gardeners

Mr. R. D. Rogers was guest speaker for the Jr. Garden Club Saturday afternoon in the yard of Ginger Kemp. Mr. Rogers in his talk on planting the roadside told the girls the problems of planting and keeping up the little Hi-way islands. He is letting the girls use a flower bed west of the Hi-Way building to plant iris and bulbs, Pat Moran,

president, called for business and the girls decided to have a float in the Fair parade. They will have a table for arrangements at the Flower Show at the Fair grounds September 19. Each girl will make

her own arrangement to be in place between the hours of 9 a.m. and 11 a.m. Refreshments were served to eighteen members and three guests, Mrs. Russell Moran, Mrs. Ted Sheffy and Mrs. Carl Kemp.

Mrs. Sid Sheffy gave the lesson on the first principles of flower arrangement.

The next meeting will be with LaJuana McGuire Saturday, September 13 at 4 p.m.

Payne-DeLozier Engagement Told

Mr. and Mrs. Cecil N. Payne of Seagraves, Texas, announce the engagement and approaching marriage of their daughter, LaRae Payne, to Willis DeLozier, son of Mr. and Mrs. George H. DeLozier of Summerfield.

The couple plan to exchange wedding vows October 4 at 8:00 p.m. in the First Baptist Church, Seminole, Texas.

Miss Payne is a 1954 graduate of Seagraves High School and is now employed in the Gaines County Clerk's Office. DeLozier is a graduate of Dimmitt High School and received a Bachelor of Science Degree from Texas Tech. He is now employed by the U.S. Department of Agriculture.

Mrs. Snider Is Shower Honoree

Mrs. Don Snider, the former Miss Linda Mae Griffin, was honored Thursday, September 4, with a post-nuptial shower in the home of Mrs. W. Killingsworth. Assisting the honoree with receiving guests were her mother, Mrs. Bud Griffin and the mother of the bridegroom, Mrs. W. C. Snider.

The bride's table was centered with an arrangement of pink roses, and throughout the house colors of pink and white were carried out.

Hostesses were Mesdames: Loyd Blanton, Jimmy Clark, Woodrow Nelson, Woody George, Ester Noble, W. Killingsworth, Giles Tate, Paul Howell, Raymond Chism, L. H. Stevens, Buck Crum, Ira Page, Fred Dumm, Cisco Cathy, Lowell Richberg, Bill King, W. E. Kirkpatrick.

NEWS FROM BETHEL

Quite a bit of excitement prevailed in the Howell residence last week when Mr. Rand, Quarter-Horse Stallion, belonging to the Howell Brothers, won two ribbons and two trophies at the Quarter Horse Show held in Sweetwater.

Mr. Rand won first in the Quarter Horse Show and Cutting Contest and won Grand Champion in the Quarter Horse Stallion Division.

The trophies are on display in the First State Bank as, according to the brothers, they feel the Bank might have part interest in him. Himmnn.

While the horse won trophies, Jimmy Howell didn't show so much horse-sense and his only trophy to show for his deed is seven stitches in his head.

The way I heard it, he was having a bit of point trouble with his well motor and was using a crowbar some way on the shaft. After finishing what ever he was doing, he punched on the starter and "Whammo" he received quite a lick on the head by the crowbar as a not-so-gentle reminder that he should have removed the crow-bar before starting the motor. Oh, well, bet he remembers next time.

Mr. and Mrs. Ivan Earl Sinclair spent most of last week with his parents, Mr. and Mrs. B. E. Sinclair, before leaving Saturday for Abilene to enroll again in Hardin-Simmons University.

Mr. and Mrs. Jack Howell and Gaines spent Sunday visiting with relatives in Sumnerfield.

Mr. and Mrs. T. B. England of Houston visited with his sister and brother-in-law, Mr. and Mrs. B. E. Sinclair, from Wednesday until Friday. While they were here, they made a trip to Amarillo and came back through Palo Duro State Park.

Mr. and Mrs. Bert Sinclair of Amarillo spent Sunday with Mr. and Mrs. B. E. Sinclair.

Mr. Laverne Bryant of Amherst spent Tuesday with the Moss Howells.

Mr. and Mrs. Gaines Neill, Mr. Spicer Gripp and son and Jack Stroun visited in the Moss Howell home Sunday.

Miss Linda Shepherd spent Wednesday night with Miss Gayle Howell.

Mr. and Mrs. George Bagwell returned Monday evening from Austin where they had taken their daughter, Miss Sue Bagwell, back to the University of Texas for the fall semester. Miss Bagwell is a sophomore there, this year.

Miss Bagwell returned to Austin two weeks early as she was elected Dormitory Advisor of the Andrews Dorm. for the coming year.

She was also elected secretary of the dormitory.

Mr. and Mrs. Alva Finck and family of Tullia were Sunday afternoon visitors in the Houston Lust home.

Mr. and Mrs. Houston Lust, Ann and Flo, made a business trip to Tullia Tuesday. Ann and Flo stayed over for a visit with their grandparents, Mr. and Mrs. Joe Finck.

Mr. and Mrs. Fate Shannon and family visited relatives in Quitaque and Plainview, Sunday.

Mr. and Mrs. Ivor Bagwell and Nelda returned Tuesday from Houston where they attended the wedding of Mr. and Mrs. Douglas Dennis.

Mr. and Mrs. Leland Smith visited with the David Funcks of Amarillo, Friday.

Mr. and Mrs. J. C. Underwood and Miss Kathryn Underwood of Lubbock, Mr. S. B. Underwood of California, Mr. and Mrs. E. G. Underwood, Mr. and Mrs. Roy Dale Underwood and Roger were all Sunday dinner guests of the Doyl Underwoods.

Mrs. J. C. Coughran and daughter, Sandy, of Brownville, spent Monday afternoon with the Doyl Underwoods. Mrs. Coughran is the sister-in-law of Mrs. Underwood.

Mr. and Mrs. Floyd Scott of Panhandle and Mrs. F. C. Land of Lubbock were visitors in the J. L. Givan home Friday. Mrs. Scott is a niece of Mrs. Givans and Mrs. Land is a sister.

Mr. and Mrs. Embry Finley of Happy visited their daughter and her family, the Jack Flynts, overnight Monday.

Tuesday afternoon guests of the E. D. Underwoods included Mrs. Jimmy Jackson, a niece of Mrs. Underwoods, and her daughter, Mickie Lynn, of Brownville, Mrs. Don Wells, Mrs. Ira Brown, Mrs. Jack Howell and Gaines, and Mrs. Shirley Underwood and son, Reger.

Mr. and Mrs. R. L. Harvick and boys of Tahoka arrived Wednesday for a short visit with her sister and family, the E. D. Underwoods.

We are happy to report that little Miss Debbie Underwood is doing fine, now. However, young Teresa Underwood is still under medical care.

Mrs. Houston Lust and Mrs. Don Wells went to Hub and Bovina after vegetables, Wednesday, for the Farmer Merchant dinner to be served at Bethel Thursday night.

Picking and shelling blackeyed peas at the Moss Howell home, Wednesday, for the dinner were Mesdames: George Sides, Oran Howell, O.R. Moore, J. C. Williams, Ira Brown, Gaines Neill, J. L. Givan, Don Wells, Jackie Edwards, Carl Bruegel, B. E. Sin-

clair, Curtis Beavers and Jack Howell.

The Bethel Circle of the W.S.C.S. met with Mrs. Earl Lust Monday afternoon. A study on North American Neighbors was started. Mrs. J. C. Williams and Mrs. Vern Lust brought the program. Lovely refreshments were served to members Mesdames; C. W. Anthony, Ira Brown, Jack Flynt, Vern Lust, J. C. Williams, Kay Roberts and the hostess, Mrs. Lust, and to the guests, Mrs. J. G. Davis, Sr., and Mrs. Jinks of Amarillo, a sister of Mrs. Kay Roberts.

3 Children Are Needed for Class

Three more children are needed to make up a group of five to be enrolled from Dimmitt in a private school for pre-school children in Plainview.

An appeal was made by two mothers for the additional children so an accredited first grade

class will be opened and their own children, who turn six in September and November, can take first grade work and be in the second grade next year with children more near their own age. Children entering the private school must be six years of age before January 1st, 1959. Public schools require six years before September 1 for enrollment.

One parent must be willing to drive the group over, stay three hours, and drive them back one day each week. Tuition is \$30 per month and each child must be ready to enroll by Monday, September 15th.

Anyone interested in entering their child in the school under these arrangements has been urged by the mothers to call 414 or 587 immediately.

Legion Auxiliary Met Monday

The American Legion Auxiliary 27th. No definite location for the No. 445 met in regular session Monday evening, September 8th, in the reception room of the High Plains Clinic.

The Unit decided to hold a rummage sale on Saturday, September 13th. Quite a bit of excitement pre-sale has been decided upon.

Gold Star Mothers that have been turned in, to date, are: Mrs.

Lenna Estes, Mrs. Ethal Anderson, Mrs. Andy Nelson and Mrs. Ola Murphy. Eligible Gold Star Members include: Mrs. Helen Richardson, Mrs. Elsie Johns, and Mrs. La Verne Bates. The Unit is in hopes that, with the help of the Public, a complete list will be had in the near future. Anyone knowing of other eligible Gold Star Mothers and Members, please call 540, 258-W, or 475-J.

The next meeting will be held on the evening of October 13th.

SCD NEWS

The farm meeting and tour sponsored by the First State Bank, Extension Service and the Running Water SCD was well attended again this year. The meeting was held in the Arme Community Center and the tour was made in that area. About sixty farmers attended the meeting and tour.

One of the tour stops was the Woodrow Nelson farm where a good field of Soybeans was observed. Mr. Robertson, with Paymaster Farms, said he thought they would yield fifty bushels per acre. At fifty bushels per acre, soybeans can be a good cash crop, and of course the good thing about soybeans is their role in soil improvement. It appears that they are a natural in a conservation crop rotation. Is it good to know that we have about six thousand acres in the District this year.

GREAT PLAINS CONSERVATION PROGRAM

We have had several inquiries lately from irrigation farmers as to their status for assistance under the Great Plains Program. As of now cash crop irrigated farms are still in low priority and we cannot contract these farms at present.

There is a possibility of getting an irrigated place under medium priority where a major portion of the crops raised will be fed to livestock on that place, especially where a good part of the place is native grassland. Those of you who think your place might qualify should contact the SCS or other agricultural agencies for more information.

DIMMITT GIN CO. & ELEVATOR

JOHN E. McCLESKY, Manager

I'm glad to report that Mr. Att Webb's peanuts or goobers, I can't remember which, turned out really good inspite of the recent hail which knocked off so many blooms, causing Mr. Webb so much concern. From the looks of things, I guess the blooms don't have too much to do with the peanuts or goobers under the ground.

Ladies, I have a bit of advice to give on the subject of buying some of the styled dresses of today. If you are in the market for a "sitting-down" dress, beware to "sitdown" in it before buying it. Some of these "latest" are made for STANDING only. If you don't believe me, just ask some of the women who have purchased such dresses . . . from what I hear, there are a number of such women in town.

From what I hear, the American Legion fellows have really been putting in some late hours at the Legion Hall replacing broken window panes, putting up lights, working on the ceiling, etc.

They are trying to get the Hall fixed up so that it can be rented to various organizations as a sort of Community Hall. They have plans to finish it in such a way that the different groups might rent it with pride and pleasure and have it so complete that any type party might be held with no inconvenience to the hosts.

However, the Legionaires get quite a few kinks in their enthusiasm when, upon replacing window panes, for instance, only to return the following evening to find some of these broken out by somebody's target practice in throwing rocks. The men had just replaced practically all the panes for the second time the other night and it took them into the late hours to do so. The following night when they returned to do other work, they found some of the new panes broken out.

The men have a pretty good idea who the parties are that have been doing this sort of damage and feel obligated, if something is not done to stop this by responsible parties, to take necessary action themselves.

But the Legion is to be commended on what they have done and are doing. They have certainly helped in the work of the Teen-Can-Teen. They have given the Hall to the Can-Teen every other Saturday night during the summer months and, through the winter, they will let them use it every other Saturday night and every Friday night after home football games. They have charged a fee less than the actual operating expenses incurred and, by letting the Can-Teen use the hall, have the same as donated the monies they would have made by renting the hall to other parties.

I am looking forward to the football game tomorrow night. From what I can hear, Lockney has a good team and will be hard to beat. However, I have the greatest faith in our Dimmitt boys, and, win or lose, I am sure they'll do their best.

I was talking to Coach Etheridge, today, and he remarked that the boys were going into the game with great enthusiasm. They have been working hard and long in their practice periods.

The Dimmitt team is strongest in their defense but have been and will continue working on the offensive playing. Dimmitt will have only one starter back to Lockney's five and Dimmitt will weigh a little lighter than Lockney in the back-field but will Italy about even on the line.

Stanley Nelson, quarterback, will not play tomorrow night as he is still nursing his sprained ankle, however, he should be back in good shape in the near future.

Even though Dimmitt doesn't have such a strong second-team due to inexperience, they support a good, strong first team. I am expecting a good showing throughout this season from the Bobcats.

Tomorrow night's game should be a god one and one that is a "must" to see.

From the showers we had last night, Fall is either here, or just around the corner . . . about time to dig out those sweaters and jackets . . . just hope that when you open that "Fibber McGee" closet door, you survive the "out-come". nuff said, Mary

"TOO BUSY FOR THE LORD'S BUSINESS"

I Kings 20:40

None of the great characters of the Bible were too busy to do the will of God. Abraham was not too busy, Gen. 12; Heb. 11:8-10. When Joseph was ruler in Egypt, he was not too busy with the affairs of state that he did not have time to deal in the right way with his aged father and his brethren. When God called Moses he was not too busy that he could not go, Ex. 3. Paul was a very busy man. He worked for a living, but he had plenty of time to serve God. 2 Cor. 11:22-28. The servant of God today who is too busy to serve the Lord is too busy. Nowhere has God commanded a thing to be done and then added: "Now, do this if you have time, if you are not too busy." If we have been too busy for the Lord's business, we have condemned ourselves, I Kings 20:40.

- Too busy to read the Bible;
- Too busy to wait and pray
- Too busy to speak out kindly,
- To someone along the way.
- Too busy with cares and struggles
- To think of the life to come.
- Too busy building a mansion here—
- To plan for the heavenly home.
- Too busy to help a brother,
- Who faces the winter's blast.
- Too busy to share the burdens
- When self in the balance is cast.
- Too busy for all that is holy—
- On earth beneath the sky—
- Too busy to serve the master—
- But not too busy to die.

September 1 Was First Day of Car Inspection

September 1 marked the beginning of a new motor vehicle inspection period for more than four million vehicle owners in Texas, according to the Texas Department of Public Safety.

Inspection stations throughout the state will open their doors for

the inspection period that runs through April 15, 1959. There are more than 4300 stations in the state which have been authorized to check automobiles and trucks.

In announcing the opening date, Col. Homer Garrison, Jr., director of the Texas Department of Public Safety, suggested that Texas residents have their trucks and automobiles inspected at the beginning of the period. This, he said, would save motorists considerable time and inconvenience annually accompanying long waiting lines at the inspection deadline.

REDDY KILOWATT EXTENDS BEST WISHES FOR A SUCCESSFUL CASTRO COUNTY FAIR

"We have cut our food bill by 1/3 since we bought our ELECTRIC Home Freezer!"

says **MR. RAY MAY,**
1505 South Kentucky,
Roswell, New Mexico

"As an average, working couple, we didn't realize how easy it is to buy a freezer until we got ours," says Mr. May. The Mays grow food for their freezer, too, and Mr. May adds, "We fill our freezer from our small garden space every year." How wonderful to pick garden-fresh vegetables out of your home freezer all year 'long. The delightful experience can be yours just as soon as you get your home freezer — whether you 'grow your own' or 'buy 'em on special' at the market.

Spraying Stops Grasshoppers

The late spring of 1958 will be remembered by many midwestern farmers as the "year the grasshoppers came." It was the worst invasion for Texas in 40 years and the heaviest in many neighboring states since 1949.

Spraying of nearly 5 million acres against the hoppers in 10 states apparently prevented any significant damage to wheat and other small grain crops. Rangeland, idle lands and roadsides were sprayed by planes and ground equipment in the cooperative federal-state-rancher program in all these states.

Migratory grasshoppers caused the major outbreaks this year. Weather conditions last fall and spring were ideal for their development, producing some freakish events over the west.

In April, one large migration converged on Las Vegas, Nev. The accumulated dead grasshopper bodies made a special city cleanup campaign necessary, but there was little damage to vegetation.

In May, swarms of flying hoppers descended on Tucson and other Arizona cities. Attracted by the lights, they flew into Phoenix en masse during the early morning hours, blanketing the city. Some were observed by commercial airline pilots at elevations as high as 5,000 feet.

Texas highway right-of-ways and rangeland erupted with new hatched hoppers beginning in May. Quick action by the Texas Department of Agriculture, the federal government and local authorities resulted in some 924,000 acres of land being sprayed to prevent damages. In addition, many more thousands of acres were sprayed by individual land owners.

It is hoped that the spraying will keep down a possible heavy outbreak this fall and next spring. Department inspectors are keeping a close check of fall hoppers and an egg-count survey will be made early in 1959.

If another heavy infestation appears likely, preventive measures can be planned in advance and once again prevent a truly disastrous condition which grasshoppers are capable of creating.

Sesame Growers Field Day Set At Muleshoe

Texas Sesame Growers, Inc. will play host for a Field Day and Barbecue for the farmers of the area in Muleshoe September 22. Purpose of the event will be to report the results on the U.S. Department of Agriculture's Regional Sesame yield tests conducted here in cooperation with Texas Sesame Growers and to mark the opening of a new milo storage warehouse and elevator which will add 200,000 bushels of grain storage capacity to the organization's High Plains plant.

Robert L. Parker, executive vice president of Texas Sesame Growers, announced that the field day will begin at 11 a.m. with an inspection of yield test plots consisting of 16 plantings of USDA's best or most promising varieties of Sesame for the High Plains. Dr. Murray Kinman and Dr. George W. Rivers of the Experiment Station of Texas A&M College will be on hand to explain how the experiments are being conducted. Parker pointed out that these tests and those being made at Blossom, Texas, also in cooperation with Texas Sesame Growers, Inc., are the only tests of their kind in the United States not being conducted on an Experiment Station.

In addition to comparative yield, the scientists also are testing fertilizer, row spacing and plant spacing on the Texas Sesame Growers' Muleshoe plot. Also 272 individual strains of sesame have been planted for observation to determine their adaptability to High Plains growing conditions.

Among those who will have a part in the program will be J. K. Adams, County Agent of Bailey County, Albert Roach of Paris, Texas, president of Texas Sesame Growers, Inc., and Parker.

Parker said that an outstanding speaker from the U.S. Department of Agriculture will be chosen as guest speaker for the event.

The field day and barbecue will also give farmers an opportunity to inspect Texas Sesame Growers' second milo storage warehouse and elevator. The new unit has a capacity of 200,000 bushels. It was built as an addition to the organization's complete modern seed processing plant and 195,000 bushel grain elevator.

This seed processing plant will be used to process a large part of the High Plains crop this year, as well as other seed and grain produced in the area, Parker said.

County Agent Takes Applications For Seedlings

Some 90,000 tree seedlings will be available to West Texas landowners for windbreak plantings in early 1959, Don Young, head, Forest Management Department of the Texas Forest Service announced this week.

"The supply for next year's planting is limited, so those desiring seedlings should get their applications in early," Young said.

Application blanks for ordering the trees are now available, upon request, from the Director, Texas

Forest Service, College Station. In addition, these order forms can be secured from county agents, Soil Conservation Districts, and ASC offices in the West Texas area.

About 50,000 red cedar, 25,000 ponderosa pine, and 15,000 Austrian pine seedlings will be procured for distribution by the Texas Forest Service and will be sold for \$1.25 per hundred prepaid. Landowners in critical areas should establish farmstead or field windbreaks to prevent wind erosion of their valuable top soil," Young reported.

The deadline for ordering seedlings will be March 1, 1959. Seedlings will be shipped about the first week of March, 1959, to locations specified on the application blanks. Information on how to store and plant the seedlings is

available upon request. "The orders will be filled on a 'first come-first served' basis," Young added.

Hoyt R. Kenmore of Willcox, Arizona visited his mother, Mrs. Faye Kenmore and other relatives here recently.

FHA Begins New Year

Our Future Homemakers Chapter has a good start for the coming year. Thanks to the hard work of the Executive Council and Mrs. Snider, the programs and year-book are already planned.

Heading all the activities will be our president, Linda Hance, who is a senior. Assisting her as vice president is Norma Battles, a junior.

Mary Lynn Hendrix and Sandra Leeth, both seniors, are the secretaries. Mona Dell Hunter, a junior, will be our treasurer for the year. The following officers are all sophomores. Ka Estes, the historian, will compile the FHA scrapbook, consisting of all the activities of the year. Kay Carpenter is parliamentarian, and it is her duty to keep order during the meetings. Tommie Allen is the reporter. Responsible for our music will be the songleader, Mary Behrends and pianist, Charleen Vaughn.

Mrs. Joann Snider is our adviser.

Pep Rally Gets Good Start

Dimmitt High School had its first Pep Rally of the year, Friday, September 5. It started out the year with a lot of enthusiasm and school spirit.

Coaches Covington, Ethridge, Fuquay, and Mills, were introduced to the Student Body. Coach Covington introduced the players for this year. New yellows were introduced by the cheerleaders.

Corsages of white mums were presented to the coaches wives, Mesdames Fuquay, Covington, Ethridge, and Mills by the cheerleaders.

The new officers for the Pep Club this year are President, Karen Gray, Vice President, Mickey Pelley, Sec-Treasurer, Pat Cowell, Reporters, Brenda Ramsey and Joyce Messenger. There are 54 girls enrolled in the Pep Squad this year.

Bobcats Skin Wolverines

In the Bobcats' first scrap of the season, a non-conference game with Springlake, Jimmy Curtis and Norman Nelson led Dimmitt to a 42-0 victory.

Curtis scored on seven and two-yard runs and also intercepted a pass and sped 75 yards behind a wave of blockers for a third touchdown.

Nelson, who was a standout on both offense and defense, scored on runs of 11 and two yards. He ran over an extra point also.

The other score was tallied by James Collins on a one-yard plunge. The extra point was made by him also.

Jerry Hyatt, on an extra point try, ran for two points.

The full team played at one time or another. The reserves were able to hold the Wolverines, but were not able to score.

Coach Covington commented that the players made many mistakes, but that he expected them to be improved for the Lockney game here this week.

Army Pvt. Edwin J. Huseman, son of Mrs. Alphonsa Huseman, Nazareth, Texas, recently completed eight weeks of basic combat training under the Reserve Forces Act program at Fort Chaffee, Ark. Huseman, a 1958 graduate of Nazareth Independent High School, was a farmer in civilian life.

Dove Crop Is Best In Years

Dove hunters opened the season in the North Zone of Texas Monday, Sept. 1, with one of the best crops of doves in years, according to the director of law enforcement of the Game and Fish Commission. The South Zone will open one month later, except in the Rio Grande Valley counties where white-winged and mourning doves may be shot on Sept. 14 and 16, from 2 p.m. until sunset.

The director gave a few warnings for shooters:

Be sure you have your 1958-59 hunting license, on sale with wardens, sporting goods stores and county clerks.

Shooting starts at 12 noon and ends at sunset. Be sure to check your time and don't shoot by moonlight.

The limit is 10 doves per day. After the first day you may have 20 mourning doves in your posses-

put 20 in the deep freeze and go sion. This doesn't mean you can out and kill another daily limit.

Be sure to get permission from landowners for hunting on their property. You can be arrested for trespassing.

Don't shoot across roads, highways or public property. Stay off of wildlife refuges.

Your gun must be plugged to hold not more than two shells in the magazine and one in the chamber—three shots in all.

Look before you shoot. A charge of bird shot in a man's face has a way of irritating him.

Don't shoot from an automobile. Wardens will get you in a hurry. If you are inclined to be careless, check your life insurance policy.

County Citizens Well Covered By Insurance

Residents of Castro County are better covered than they ever were before by life insurance. The amount of protection in force, per family, is at an all-time high.

For the nation as a whole, the average holdings per family are equivalent in size to the amount of disposable income per family for 18 months.

Applying this average to Castro County, where the net family income reported for the 12 months of 1957 was \$9,166 and, for the previous 6 months, \$4,630, the indicated life insurance per family is \$13,796.

The expansion in the number of policy holders and in the total amount in force is reported on a national and state basis in the 1958

Life Insurance Fact Book.

It reveals that the total amount in being in the United States has passed the amazing sum of \$485 billion, of which some \$22 billion is in the State of Texas. This is exclusive of such additional insurance as has been issued by the government and by fraternal and similar groups to veterans and others.

This compares favorably with the average for the United States as a whole, estimated as \$8,300 per family, and with that for the State of Texas, \$8,109.

For all the Castro County families it adds up to a total of \$19,314,000 in force locally.

Although the rising cost of living during 1957 put additional burdens on the consumer's dollar, American families put 3.9 percent of their after-tax income, slightly more than in the year before, into life insurance. A continuation of this trend—to put more money into savings, insurance and other forms of protection—has been

noted during the first half of this year.

Most of the life insurance was bought by men, on their lives. They continue to hold a major share of such insurance, although women are adding to their own coverage. At the end of last year, women had a grand total of \$65 billion in force.

The breakdown shows that 80 percent of the men of the nation and 62 percent of the women now have some form of life insurance.

Nazareth Opens School to 188

Nazareth Schools opened on September 2nd with an enrollment of 188 in the grades and 55 in High school, a substantial increase over last year.

The First State Bank of Dimmitt

WE ARE PROUD OF OUR cultural and agricultural heritage in Castro County and commend County farmers, homemakers and youth groups for continuing the development and potential productivity of our fine area. The First State Bank of Dimmitt is proud to be a part of a growing agricultural empire. Through diversified farming, irrigation, scientific agricultural practices and continuing improvement of farming methods, Castro County will surely become, more than ever, "The Garden Spot of Texas." The County Fair of 1958 will bear this out.

AS A FINANCIAL INSTITUTION it gives us pleasure to feel that we have had part in the progress and development of our town and county. We have seen Castro County grow in the last decade at a rate unparalleled in the history of the Plains Country. The population of Castro County has exceeded all expectations of the founders of the First State Bank. The agricultural produce has reached heights we never expected. The First State Bank has come a long way with Castro County and its citizens. And we hope this is only the threshold of an even finer future. Visit the fair, see the exhibits, and you'll know why Castro County is one of the best farm and ranch areas of the High Plains.

Cotton Loan Basis Set At 31.23 By USDA

The U.S. Department of Agriculture announced August 8 that the average loan rate for 158-crop upland cotton, basis Middling 7-8 inch, will be 31.23 cents per pound, gross weight, an increase of 0.48 of a cent per pound above the advance "minimum" rate announced last winter. This final rate reflects 81 per cent of parity price of 38.55 cents per pound for upland cotton as of August 1, 1958.

The Department announced February 7, 1958 that the minimum support level for 1958 upland cotton would be 30.75 cents per pound, gross weight, basis Middling 7-8 inch cotton at average location. It also announced that the level of support would be increased in the event the minimum level of support required by law on the basis of the supply percentage as of the beginning of the next marketing year (August 1, 1958) and the applicable parity price was higher than the advance minimum support level. On the basis of the recalculated supply percentage and the parity price as of August 1, a higher level of support is required. Therefore, the higher effective rate is being announced at this time.

The recalculated upland cotton supply percentage is based on an estimated July 31, 1958, carry-over of 8,440,000 bales; a 1958 crop of 11,333,000 running bales; and imports of 60,000 bales—for an estimated total supply of 19,833,000 bales for the 1958-59 marketing year. The "normal supply" determination for the year is based on an estimated domestic consumption of 7,800,000 bales and estimated exports of 4,500,000 bales during the 1958-59 marketing year.

The average rate of Middling 1-inch cotton, the base quality, will be 355 points (3.55 cents per pound) above the average rate for Middling 7-8 inch cotton or 35.08 cents per pound, gross weight. Loan rates for the various other grade and staple length combinations of upland cotton under the 1958 loan program will be calculated in relation to the price support rate for Middling 1-inch cotton (the Schedule of Premiums and Discounts.)

Loan rates for upland cotton will vary according to location. The rate for Middling 1-inch cotton, gross weight, will vary from a high of 36.07 cents per pound in the mill area of the Carolinas to a low of 34.27 cents per pound in California and Arizona. Location differentials for each warehouse point will be based on the freight rate to the mill area of the Carolinas, except in eastern Tennessee, Virginia, North Carolina, South Carolina, Georgia, Florida, and Alabama where a zone system will be in effect.

CONTROL JOHNSON GRASS

(AND OTHER GRASSES)

CHEMICALLY . . .

WITH

DOWPON

Unwanted grasses are usually the toughest problem where farming is best. They thrive on the very climate and soils that should produce top crops.

Now you can control grasses, without cutting, cultivating, or oiling. Dowpon, is the new chemical way to keep grasses from invading your fields, throttling irrigation and drainage ditches. Hoeing, chopping, cultivating, and oiling only get grass out of sight temporarily. Dowpon gets rid of it.

How DOWPON works

Dowpon is a systemic grass killer—meaning that it kills by working through the plant's system. You simply spray the foliage. Dowpon is absorbed through the leaves and works down through the plant, right into the roots, usually killing the entire plant.

Because it works inside the plant, a Dowpon spray is less likely to be affected by weather conditions. Rain can't wash it off after it has been absorbed.

You can use Dowpon with safety on your farm—foliage sprayed with Dowpon is non-hazardous to grazing livestock.

Highlights From the State Capital:

Legislature Hears Statewide Reports On Hale-Aikin Work Last Year

How best to educate Texas children—and how to pay for it—will be a key issue in the upcoming legislative session.

Problems were spotlighted when the Hale-Aikin Committee made its first report: Included were 12 recommendations for improvement or expansion of public education.

Several proposals reflect the concerns of the times. In an age of mounting traffic death tolls and almost universal availability of high-speed cars to teenagers, state-

teaching of children unable to speak English, (4) larger allowances for maintenance, (5) replacing school buses and paying drivers (6) buses for city children living more than two miles from school, and (7) state and local guidance services.

It also suggested basing teacher-pupil ratios on current attendance rather than figures for the year before and urged the setting aside of TV channels for future educational use.

Final decision on other recommendations was postponed until September 15. These include raising the minimum pay for teachers \$595 a year from (from \$3205 to \$3800) and releasing state property taxes to allow for more local

district collections.

Hale-Aikin Committee is a 24-member study group of lawmakers and private citizens set up by the last legislature to study public schools and make recommendations to the 1959 session. Grass-roots discussion has been going on for nearly a year in cities and counties over the state. Proposals being made now result from sifting and weighing of hundreds of ideas urged by educators and interested citizens.

Committee members are not blind to the likelihood of stiff legislative resistance to the additional money-spending called for by most of the proposals. Cost of the state minimum foundation program for the present school year is estimated at \$349,416,000. H-A Committee's "enrichment" suggestions could add from \$50,000,000 to \$150,000,000 to that figure.

Most lawmakers already are feeling financially gloomy because of a predicted \$140,000,000 gap between state revenue and cost of present programs—without any kind of improvement anywhere.

One committee member suggested that, while all the proposals might not be put into effect right away, they could serve as "a pattern for years to come."

ization of the Social Security Act during the last session of Congress.

Under the new formula, maximum monthly checks to the aged will be \$65, for the disabled, \$63.

WATER WELLS IN REVERSE

State Highway Department will try out a plan of digging wells to put water into the ground, rather than take it out.

Purpose is to drain the "wet weather lakes" which sometimes block highways for days or weeks at a time. Such lakes are not uncommon in the Plains area after a rainy spell has filled low places.

A side benefit of the plan, noted Highway Commission Chairman Marshall Formby, would be the re-charging of underground reservoirs.

the work of centuries with which we were blessed.

The tools of science can tell those blessed with sub-surface moisture just how they can both use it now and keep it available for the use of future generations. It is not only practical that they do so; it is their moral obligation.

The use of underground water is divided for several purposes—municipal, industrial, domestic and agriculture. By and far the largest percentage of underground water use in Texas is that directed to agriculture irrigation. This may or

may not be surprising, but it is a paradox since agriculture is probably the only single section of our society which could reasonably survive unaided by underground water.

Therefore, underground water is more a blessing to the farmers who have it than to the cities and industries which require it. And blessings must be safeguarded, not abused.

WHAT, NOT HOW

Greater emphasis on what to teach, rather than how to teach will be reflected by this year's college graduates majoring in education.

A law passed in 1955 requires future teachers, beginning with the 1959 grads, to have 40 per cent of their credits in subjects they will teach, 40 per cent in "cultural subjects," 20 per cent in education courses.

State Board of Education called attention to this change at its September meeting.

Board also hit a lick in its unrelenting battle against all plans to dip into principal of the permanent school fund for current expenses. Its resolution warned of possible "tragic consequences."

Education Commissioner J. W. Edgar was authorized to prepare recommendations for Texas participation in the newly passed federal aid to education program. Texas would be eligible for some \$9,000,000 to bolster the training of teachers, scientists, mathematicians and other kindred purposes.

Underground Water Supply Great Mystery

The amazing existence of great quantities of tappable water below certain areas of the Earth's surface was for centuries one of nature's greatest mysteries.

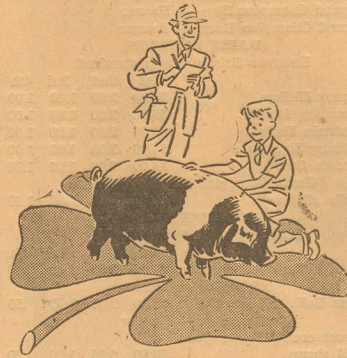

The search for such unseen wealths of water was, in past years, sometimes considered a venture requiring supernatural insight by persons whose best guide might be the fabled "witching stick" or an acute physical sensitivity to the imagined presence of water.

However, underground water obeys the laws of physics, and advancements of this generation have shown us that a great deal can be and has been learned about it.

Through scientific calculation, for example, the depth to which a well in a certain locality should be drilled in order to tap the best available water supply can be determined with reasonable accuracy. The areas in which water sinks underground can be identified, and the rate at which it sinks into underground reservoirs can be computed in some areas. Also, the areas in which no important water supplies exist can, in many instances, be accurately mapped.

Thus, the mystery of underground water has been invaded. But, although the vital presence of water is perhaps now somewhat less of a mystery to us, it is certainly no less a wonder. It is a gift which, like the soil we till, is provided for our perpetual use so long as we care for it. If we abuse it, then we may destroy and ravage

Bracerio Users Fight Wage Raise

A somewhat bitter controversy between Mexican National Users and the U.S. Department of Labor over proposed changes in wage formulas and policies for Braceros has resulted in a compromise agreement, Joe Sooter, Muleshoe, and Charles Jackson, O'Donnell, Bracerio Committee representatives of the Plains Cotton Growers, Inc., have reported.

The two West Texans met with Department of Labor officials in Washington, D.C. recently.

"Previous meetings ended on a discordant note with the Users group charging the Department of Labor of intentionally devising new wage formulas that would set a minimum wage in agriculture, destroy the incentive piece rate system and promote a continuous rise or 'escalation' of farm wages," Sooter said.

At the recent meeting, Sooter said, the two groups again reviewed the controversial proposals and it was evident that Department officials had changed.

Three controversial wage formulas were discussed and later agreed on. They were: 1. 90-10 percent formula in regard to the 50 cents per hour minimum on piece rate work. 2. The 115 percent formula on piece rates averaging above 50 cents. 3. The 40-51 percent formula defining "prevailing wage".

Sooter explained that the first formula provides that if more than 10 percent of a crew, working on piece rates failed to make 50 cents per hour, it would be an indication of 'adverse effect' and would require an upward revision in rates.

The Users group agreed to this when Department officials pointed out the formula would not apply where there was evidence of indolence or incompetence and that achievements of other crews working in the area under similar conditions could be used as a guide to determining the diligence or competence of a crew.

The second formula, 115 percent, provides that in areas where the 'prevailing wage' is higher than 50 cents per hour, the crew average per hour on piece rates should be 115 percent of the prevailing wage.

Sooter said the Users contended that application of such an across-the-board formula would promote a slowdown of crew production since they would know that it would force a raise in piece rates if they did not achieve the 115 percent goal; that the crew average on piece rates need not be

more than the hourly 'prevailing wage' to be fair; and that sub-standard piece rate problems should be corrected on an individual employer or specified area basis and not by the application of a general formula that would penalize all Users.

Agreement was reached on this as the Department of Labor officials concurred in these views.

The 40-51 percent formula provides a new method for determining the 'prevailing wage' in an area or activity. It stipulates that if no single rate covers at least 40 percent of the workers, additional wage rates will be added, starting at the top of the array of rates until 51 percent of the workers in the lowest rate in this accumulation shall be the bottom of the prevailing wage range. The

top of the prevailing wage range shall be the highest rate found in the sample.

Sooter explained the Users contended application of this formula would result in a continuous rise. Department officials contended there would be no rise other than a small initial rise that would not effect more than 15 percent of the farm wages.

A compromise was reached as the Users agreed to a trial run of the formula and the Department agreeing that if any escalation developed, they would call the Users in to reconsider the problem. Jackson and Sooter both agreed

these compromises indicated a sizable retreat by the Department of Labor from previous stands. They added that during the interval between meetings, numerous Congressmen, Republican Party officials and the Governors of Texas, New Mexico and Arizona rallied to support the Users. Also, Congressional irritation over the Department's attitude jeopardized the extension of public law 78 (The Bracerio Program) which expires in June 1959.

"All these factors contributed toward a more compromising attitude by labor officials," Sooter concluded.

The Horn of Plenty is spilling all over Castro County. Another good year is slowly slipping by with crop and livestock conditions as good or better than they've been in a long

time. It took a lot of skill to grow the fine crops we've had this year. Samples from these crops will be on display this week-end at the Fair — don't miss them!

About Your HEALTH

A weekly public service feature from the Texas State Department of Health. HENRY A. HOLLE, M. D., Commissioner of Health.

Many mothers have misgivings this time of year, but just as many fathers begin to feel a little proud, because it is football time again. Worrying mothers have a justification for their feelings as well as Dad who likes to see Junior

plunge through for a touchdown. A study of 4,000 football players at 62 colleges showed that three out of four players during a season sustained injuries severe enough to make it necessary to suspend sports activity for at least

four days. In 601 football games played by these 4,000 athletes, 753 teeth were chipped or knocked out, 578 ankles sprained, and 53 knees strained. This seems like a staggering total, but on the most part these injuries are not permanently disabling and serve only to harden a youth for the rigors of life ahead. However, there are measures that parents can undertake to hold injuries to a minimum for their sons if they are inclined towards heavy contact sports such as football.

Panhandle Old Settlers Meet September 24

The Panhandle Old Settlers Association will have its regular annual meeting in Elwood Park in Amarillo on Wednesday of Fair Week which will be the 24th of this month. The session will convene at ten o'clock a.m. and remain in session until two o'clock p.m. and as much longer as the members desire to visit informally. In the event of inclement weather the meeting will be held in the Y.W.C.A. building adjoining the park. Judge Stokes, of Amarillo, president of the Association, states that Rev. Leon Hill will be the speaker and a square dance of at least one set will be staged for the amusement of the members and guests.

A new feature of this year's meeting will be the manner in which the food will be provided. All of the members and others who attend are asked to bring basket lunches, if it is convenient for them to do so. All of the lunches will be assembled and spread on the table together in a kind of picnic style so that everyone present will feel free to partake whether he has brought a basket or not. This innovation is made necessary because of the uncertainty as to the number of people who will attend. A musical program has been prepared and free drinks, such as Coca Cola, soda pop, Dr. Pepper, will be served.

Every person who has lived in the panhandle territory, generally known as the West Texas area, and more recently referred to as the Golden Spread, for twenty-five years or more is eligible for membership, the fee for which is one dollar. All are invited to attend whether they are members or not.

Every year about this time county farmers start looking over their fields for the best grain, vegetable and cotton samples, and their wives and youngsters start looking over their livestock and households for possible exhibits. Every year these people come up with about the best farm produce in the United States . . . and we're proud of their efforts. We wish them all luck and a good fair.

BEST WISHES TO THE COUNTY FAIR PARTICIPANTS

M & K CLEANERS

Ideally, every athletic team, especially a football team, should have a team physician assigned to it. He should preferably be a man who has had some personal experience with athletics. Thorough and repeated medical examinations and evaluations of the athlete's physical fitness should be mandatory.

The team physician, the trainer, and the coach in any athletic program should be equally interested in the prevention of injury and in the supervision of the smallest detail, such as the proper fitting of athletic shoes or the design of protective uniforms and pads.

In communities unable to afford a team physician, parents should seek out a doctor for examinations, at least to be present at football games, and to make suggestions which might prevent an athletic injury.

Pre-teenagers are especially vulnerable to dislocations and resultant deformities from athletic injuries. They should be matched carefully in any competitive athletic program not only in regard to size, age, and body build, but also in regard to stage of development, emotional maturity, and judgment.

If properly supervised, touch football in this age group is far less dangerous than tackle football. Approximately 60 per cent of football injuries occur when the player is being tackled.

Perhaps the greatest aid in preventing sports injuries is the maintenance of a state of physical fitness. Insist that your son keeps in the best condition and don't allow him to play if he is fatigued or suffering from a chronic injury.

Egger and Coats Attend Workshop

The four-day session of the 11th annual audio-visual workshop came to a close at Southwestern university September 5 with a summation of problems and suggestions for solutions.

From Dimmitt came George Coats, and Darris L. Egger of the Dimmitt Methodist Church.

The audio-visual workshop is sponsored by the Television, Radio and Film Commission of the Methodist Church, the General Board of Education of the Methodist Church, the annual conferences in Texas, the Fair Foundation of Tyler, and Southwestern university.

Open to all denominations, the workshop's agenda included addresses, previews of outstanding film productions, commission meetings, discussion groups, previews of materials, projectionist instruction, worship and recreation.
