The first rumblings of a political
year can be heard as each side
begins feinting for early positions.
Tragically, it's not between the
states' Republicans and Democ
rats, but between two segments
of the Democratic party.

To start the ball rolling, the Mr.
Milquetoast of Texas politics, Gov
ernor Price Daniel, has set forth
a plan to abolish precinct conven
tions. He figures this may take a
year or two to accomplish, but that
it definitely should be done.

To do away with precinct conven
tions would remove the last
vestige of government by the peo
ple in this state. Whether or not
the precinct convention is effec
tive is more or less debatable—
but it is a symbol of the implied
power of the people to have a
voice in their own government.

Governor Daniel would like to
do away with all conventions other
than those he can almost criminally
control like the Conservatives did
in late summer of 1956.

The American people have given
up too many fundamental democ
ratic principles already—it must
stop somewhere.

High Plains history becomes
our pet plaything. When we dig up
some information that pertains to
the geological, physical or cultural
history of this area, we write what
is known in the trade as a "feature
story" about it. It's not news, but
it makes good reading, anyway.

Several weeks ago we saw where
the University of Texas Bureau of
Economic Geology had put out a
publication named "Studies of
Cenozoic Geology Along Eastern
Margin of Texas High Plains."
This was supposed to be the
reasoning of learned scientists
on how come we've got a "cap
rock," the rough country most
of us have seen which forms the
southern border of the High Plains.
You've seen it between Crosbyton
and Matador, Lubbock and Post,
Silverton and Roaring Springs,
Palo Duro Canyon is actually part
of the Cap Rock.

So we ordered the book, thinking
here was the information for a
fine feature story.
Here is a random sampling of
one of the more simplified para
graphs:
"It has been generally assumed
that the caprock bed with its char
acteristic upper zone of 'pisolitic
limestone' marks the top of the
late Tertiary depositional sequence
and that this deposit formed, to ap
proximately its present character,

THIS STUDEBAKER AUTOMOBILE was
considered a total loss after an accident Sunday night
that sent Miss Virginia Ann Smith to Castro
County Hospital with severe facial lacerations.
Her condition is reported good and improving.
With Miss Smith were Sandra Simms and Char
lotte McElroy. The accident occurred when the
car went out of control about 9 p.m., Sunday at
the intersection of Highway 86 and Cemetery
road. Both Miss Simms and Miss McElroy re
ceived slight cuts and bruises.

ATTEND SOILS FERTILITY DAY PROGRAM HERE

Farmers have been invited to attend a one-day program Wednesday in this area. It is the Soils Fertility Day and will be held in the High School Auditorium beginning at 10 a.m.

Farmers will have the opportunity to hear experts tell about their particular phases of farm industry. It has been well attended in the past and this year's slate of speakers is expected to be better than average.

Soils Fertility Day is sponsored by the Castro County Chamber of Commerce, Extension Service, and Burlington Railroad. It was set up to bring to this area top authorities in all aspects of farming as a means of keeping farm operators informed on the latest in techniques.

The program will be centered around talks by five men. "Agricultural Outlook for 1958" will be the topic of Mr. John McHaney, Agricultural Economist, Extension Service, Texas A&M College. Mr. C. G. Scruggs, Associate Editor, Progressive Farmer of Dallas, will talk on "Agriculture's Future." Mr. D. W. Sherrill will speak on "Irrigation Practices." He is irrigation agent, Extension Service, at Lubbock. "Vegetable Production Possibilities" will be the subject of a talk by Mr. Joe Cole, Associate Agricultural Agent of the Horticultural Extension Service. Mr. Reagan Brown, Rural Sociologist for the Extension Service at College Station will talk on "Working Together for a Better Agriculture."

The speeches will last for about 45 minutes.

JOHN G. McHANEY
John G. McHaney will present "Agricultural Outlook for 1958." He had wide experience in the field of agricultural economics which included farm management, record keeping, planning and outlook. He has authored many popular paper stories and articles for newspaper and farm magazine use on outlook and other economic subjects of the day.

In April 1946 he was appointed county agricultural agent-at-large with headquarters at College Station working in the field of farm management. In March 1953 his position was changed to assistant economist and to extension economist January 1, 1955.

McHaney entered the U.S. Army Engineers in November 1942 and was discharged in February, 1945. He served in Europe as a construction foreman for a bridge building unit.

at the present time runs sheep and goats on a ranch in Mills County. He is a graduate of Texas A&M College and holds a degree in Agricultural Economics.

He is past president of the Texas Association of Future Farmers of America and while a member of this youth organization, received the American Farmer degree. He is also a past president of the Texas Commercial Agriculturist Council and the Dallas Agricultural Club, of which he was the youngest president ever to hold office.

REAGAN BROWN
Reagan Brown will discuss "Working Together for a Better Agriculture." His major love is community improvement. While county agent in Kaufman and Caldwell Counties, he had on three different occasions rural communities judged the state's most progressive.

Lockhart and Luling civic interest combined and awarded Brown the county's first certificate of award for outstanding community service.

The "Luling Watermelon Thump" was organized by Brown and Luling and its watermelon industry became the state's largest shipper of melons.

He did outstanding work in promoting the certified seed program and Caldwell County became known as the "Seed Bin of Texas," selling more certified seed than any other county in the state.

As a result of his work in community improvement, he is now leading the community improvement work for the Texas A&M College Extension Service.

D. W. (Dave) Sherrill, who will talk on "Irrigation Practices," is a native of Navarro County and graduate of Texas A&M College. In June, 1933, he was appointed Assistant for Coryell County on September 1, 1933 was named County Agricultural Agent the same county. In August, 1935 he was transferred to the position in Hookley County. He was on military leave from 1945 as a member of the U.S. Army and was discharged as a Captain. He returned to Hookley County in 1947.

Dale Russell, who formerly attended Dimmitt Schools, has received an appointment as first alternate to the United States Military Academy at Annapolis for admission in July of this year.

Young Russell, the son of Mrs. Prebble Russell of Abilene, was notified of the appointment by Omar Burleson, representative from the Abilene district. Russell was in Dimmitt schools from the seventh grade through his sophomore year.

Mr. and Mrs. Joe Nelson visited her parents, Mr. and Mrs. M. L. Simpson in Hereford Sunday.

County and on March 1, 1947 was transferred to Lubbock County as County Agent. On February 1, 1957 he was transferred to the position of Irrigation Agent for Extension Districts one and two with headquarters in Lubbock.

Sherrill is widely known over West Texas for his leadership in conducting agricultural programs which have aided the progress of agriculture in the area.

A biographical outline of Mr. Joe Cole, Associate Agricultural Agent of Horticulture from Lubbock was not available at press time.

Feeding farmers who attend the meeting will be the Dimmitt Lions Club. Food will be provided by the Castro County Chamber of Commerce.

All farmers in Castro County have been invited to attend the program and noon meal. No charge will be made.

Bobcats and Bobbies Brace For Crucial Game With Tulia

Dimmitt's Bobcats and Bobbies will journey to Tulia Friday night for a basketball showdown. Winner of these two bouts will have a better than even chance of becoming champions of District 1-A-A.

Tulia has lost one game in its 7-1 season and needs to hand Dimmitt a defeat to tie the Bobcats. Dimmitt has a 7-0 undefeated record in conference play.

The Bobbies' situation is virtually a carbon copy of the Bobcats. They also are undefeated in district play and face a vengeful Tulia girls team who see the Bobbies as their only stumbling block to a district championship.

The two Dimmitt teams continued their winning ways Tuesday night against Muleshoe when the Bobcats dropped the Mules 67-40, and the Bobbies won 76-58.

The final home game for Dimmitt will be against Canyon here Tuesday night.

During the season some outstanding records have been made by individual Dimmitt athletes. Keith Lowe has continued his burning scoring pace, averaging 22.4 points per game with a 517 total thus far. He is followed by Hal Ratcliff

Dr. Bischoff Invites Radio Enthusiasts To Scout Meeting

Dr. Harold W. Bischoff this week extended an invitation to all adults in the area who are interested in individual radio communications to attend the session he will present on ham radio operation to Dimmitt's Explorer Scouts Thursday night at the Fellowship Hall of First Baptist Church.

Time of the meeting will be 7:30 p.m. Dr. Bischoff said it might be possible to work out a ham radio club or organization if as many as five interested people appear. He and Mr. John Earl have amateur radio licenses. Both of these men and Mr. Sam Killough will be on hand at the meeting to explain the work of ham radio operators.

The explorer scouts are made up of boys in the older age group and interest divisions will be supervised by local authorities on each subject. J. B. Moore will handle auto mechanics; H. B. Thomas will teach basics of airplane mechanics; J. O. Ayers will be the photography leader, and sports advisor will be R. V. McMahon.

Ownership of Steak House Cafe changed hands last week. It will now be owned and operated by Mr. and Mrs. L. N. Raney, formerly of Friona.

The Steak House is one of the oldest cafes in Dimmitt, although it has been in new quarters on the east side of the square for several years. Originally started by Mr. and Mrs. J. R. Rothwell, it had been owned and operated during recent years by Mrs. Faye Wilkinson.

Mr. and Mrs. Raney have been in the restaurant business for 30 years and will specialize in steaks and Mexican foods.

The cafe is now closed for extensive remodeling. "We hope to reopen next week if we can finish remodeling," Mr. Raney said. The Jaycees will be notified whether the cafe will be ready or not for its regular Thursday meeting.

County Cancer Unit Officers Are Named Here

The Castro County Unit of the American Cancer Society, Texas Division was organized last month by a large number of interested men and women from all over the county who have seen the need for such an organization.

One of the chief purposes of this Society is to educate the public in the seven danger signs of cancer and to encourage periodical check-ups with their physicians.

The 1958 officers elected to head this Society are: M. E. Clevinger, President; Rev. Darris Egger, 1st. Vice-President; Minister D. C. Lawrence, 2nd. Vice-President; Mrs. Jack Flynn, Secretary; and Edd C. McLeroy, Treasurer. Committee Chairman were appointed to be as follows: Educational, Dr. Carl Page; Crusader, Frank Latimer; Service, Mrs. Sam Gilbreath; and Publicity, Mrs. Elvis Burch.

The 1957 Castro County Cancer Drive, successfully led by Frank Latimer, met the County quota even though the Drive was about three months late in getting started. Plans are now for the 1958 Drive to start sometime in May.

FIRST CONTRACT—Castro County's first contract for participation in the Great Plains Conservation Program was signed this week by Mr. Gip Hudson for his farm about five miles south of Dimmitt. The new program is just underway and permits a farmer to plan an entire conservation program and carry it out as one project. Mr. Hudson will receive \$4,020 in government assistance in conservation measures of field leveling, concrete irrigation pipe, and windbreaks for his 105 acre farm. His part in this program will come to about \$2,000. A total of \$28,000 has been allowed Castro County until July 1, although more will probably become available if needed. Shown above is Mr. Hudson (seated) and Virgil Henson, manager of the Castro County Soil Conservation Service. Mr. Henson made arrangements for the conservation work on the Hurson farm.

High Plains History Program That Is Vital To Rural Resources

When Castro County gathered in the District at 7:30 Friday night to decide who will receive the award for the best feature story on the trade as a "feature story" about it. It's not news, but it makes good reading, anyway.

Soil Tax Sales Less Than Usual
Castro County citizens showed least interest in years in poll taxes as receipts were issued to only 1,800.

This figure is about 400 less than the median of the past few years and automatically means that voting will be light in this county election year.

Persons falling to buy their poll taxes will not be exempt from duty according to Sheriff Jack Cartwright.

Dale Russell, who formerly attended Dimmitt Schools, has received an appointment as first alternate to the United States Military Academy at Annapolis for admission in July of this year.

LIVESTOCK MARKET REPORT

Receipts of about 3,600 cattle and calves at the Amarillo Livestock Auction were slightly less than last week and around 500 head smaller than a year ago. Stocker and feeder steers comprised the bulk of the offerings with an increased showing of fleshy stocker and feeder steers on sale. Stock calves arrived in very limited numbers however the quality was attractive with a large percentage falling in the Choice grade. Cows also were on the increase and accounted for fully 20 percent of the run. Buyers were aggressive on the stocker and feeder classes and substantial gains were recorded on the following session and part of the advance was lost. When compared with last week's close: Prices are steady for cows except for Commercial grade which moved on a weak basis. Bulls also held steady. Stocker and feeder steers and heifers are 25c higher after being as much as 50c up at one time. Upturns of mostly 50c higher were registered on stock calves with some lightweight kinds showing a little more advance. Slaughter yearlings and calves arrived in limited volume to test the market.

DAY DREAMING

Do students minds ever wonder away from their studies? On Wednesday, January 29, this is what a bookkeeping student wrote:
Dear Tarzan,

It just came to me (right after I finished my Wednesday's bookkeeping) what I was called to do. My heart's desire in life is to be a lion tamer and care for monkeys in my spare time. I will need some one big and strong to help little ole me so if it would be agreeable would you please write back and let me know if you would be able to help me.

Love,
Bookkeeping Student

P.S. My very best friend wants to tame Cobras.

The envelope was addressed to Tarzan, African Jungle, Box Tree On One, Africa.

Smile Week Begins

February 10
Smile Week will follow Courtesy Week, beginning February 10. The highlight of the week will be the election of Smile King and Queen, which will be held Thursday, February 13.

This is the last of the special weeks and school-wide elections which have been sponsored by the Student Senate of Dimmitt High School.

OUR SENIORS

On December 23, 1939, born to Mr. and Mrs. Arlon Ewing, was a bouncing baby boy, whom they named H. N. He has lived in Castro County all his life. In school subjects are journalism, civics, chemistry, and English IV. His hobby is watching the Cleveland Indians beat Johnson's Yankees. His pastime is trying to convince Zay that the "Sooners" are better than the "Aggies." The clubs he belongs to are Annual Staff and Agriculture. His colors are purple and white. His favorite food is fried chicken, and favorite movie "Picnic." His favorite actor and actress are Tab Hunter and Natalie Wood.

LOCAL STARS APPEARS ON TV

The Dimmitt High School Senior play cast of "Mr. Angel" appeared Wednesday, January 29, on KVII Channel 7 television in Amarillo.
The group appeared on the "Living Theatre," a weekly presentation by the West Texas State College drama department. The entire cast and stage crew were interviewed.

Bobcats and Bobbies

Roll on in District 1-AA
The Dimmitt Bobcats and Bobbies continued to stay at the top of the District 1-AA conference by defeating the Dalhart and the Olton boys and girls last Thursday and Friday nights. Thursday night the Bobcats came out on top with the Dalhart boys by a score of 53 to 38, while the Bobbies took their game 60 to 38. Top scorers in the Dalhart games were Edvena Boozer with 29 for the Bobbies and Keith Lowe with 19 for the Bobcats. In the Olton games Mickey Pelley burned the nets for 32 points, and Lowe was high again for the Cats as he sank 30 points. Both teams will meet Tulia there Friday in conference games.

District standings February 2 follow for both boys and girls.

Senior Play Postponed

The senior play, "Mister Angel," has been postponed until cast members recover from injuries received in an automobile accident last Sunday. As soon as the date is determined, the "Bobcat Tales" will carry that announcement.

A backwoodsman discovered a mirror which had been lost by a Tourist.

"Well, if it ain't old pappy, I never knowed he had his picture took."
He sneaked it home and went up to the attic to hide it. But his wife spied him and that night, while he slept she slipped up to the attic and found the mirror.
"Aha!" she exclaimed, looking into the glass. "He's off his rocker if he runs around with an old biddy like that."

Television certainly helps you get acquainted with a lot of new people. Mostly repairmen.

Boss: "Have you ever done any public speaking?"
Applicant: "Yes, I once proposed to a girl over a rural telephone line."

Description of a father by a youngster: "We have such good fun with my daddy I wish I had known him sooner."

THE NATIONAL HONOR SOCIETY

The National Honor Society met January 29. This meeting was called for the purpose of electing our new officers for this semester. The election resulted in the selection of the following members to the stated offices: Larry Allen, President; Lee DeLozier, Vice-president; Mary Lynn Hendrix, Secretary; Myles Sadler, Reporter.

At this meeting, the members who did not have pins were allowed to order them.

The National Honor Society was also invited to the home of one of its members, Ronald Fortner, the third Wednesday night in February, for supper. —Reporter

Basketball The World Over

If you think basketball is crazy in the U.S., take a gander at this: ITALY: In Italy the referee may arrest any spectator who hisses or boos at his decisions.

ALGERIA: The Algerians play without shirts.
INDIA: In Calcutta they also play without shirts, or shoes and socks.

JAPAN: Until 1913 the Japanese athletes refused to play basketball because they believed it was only for the weaker sex.

FRANCE: When France first laid out their open air court in was exactly 100 yards long.

RUSSIA: Baskets in Soviet Russia consist of hoops without backboards.

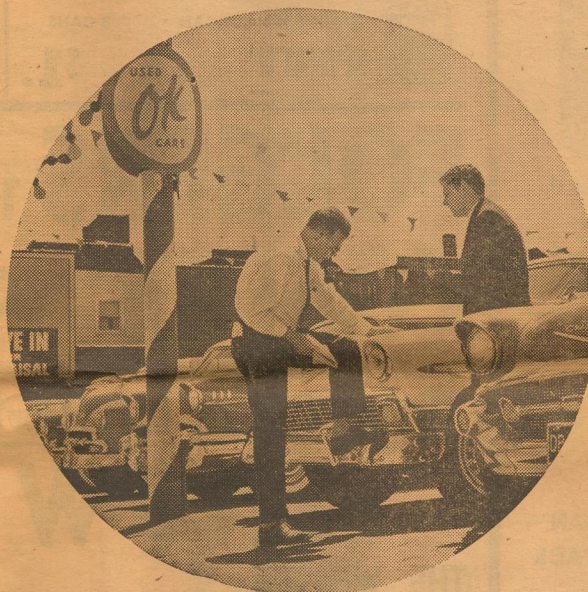

HOLLAND: The Holland basketball court is twice the size of our regulation courts. They also have 24 players.

NEWS FROM HART

Hart Lions Club heard Dr. Charles Vandiver speak Friday night at the organization's banquet. He was introduced by Hart Lion Ed Harris to about 75 persons in attendance. The meal was served by the Home Demonstration Club. Wives of the Lions were guests.

W.M.S. of the Hart Baptist Church met in the home of Mrs. Edgar Vauner last Wednesday for their regularly scheduled social and business meeting. The program chairman, Mrs. Claude Ray, presented the program entitled "The Golden Door." On the program were Mrs. Jack Johnston, Mrs. Shirley Rennels, Mrs. Edgar Vauner, Mrs. H. E. Loman, Mrs. Howard Mitchell, Mrs. Jimmie Davis,

Mrs. Leota Smith Is Honored by Miscellaneous Shower

Mrs. Leota Smith was honored with a miscellaneous shower Friday, January 31, in the home of Mrs. Mattie Scoggin.

The serving table was laid with a chartreuse linen cloth and centered with an arrangement of red carnations surrounding a red satin heart. Coffee was served from a silver service by Mrs. Fern Kirk and Mrs. Jack Flynt. Mrs. Cletha George presided at the Guest Book. Mrs. Scoggin greeted the guests as they arrived.

The honoree was presented with many beautiful gifts from friends wishing her much happiness in her new home. Mrs. Smith recently moved from Dimmitt to Lake

Ogletree gave the book on "Don't Eat the Daisies." Refreshments were served keeping in time with St. Valentine's Day. Twenty-three members and two guests were present.

Mr. and Mrs. Claud Duran of Brownstown, Washington visited in the George Burch home Friday. The Kester Duran family of White Swan, Washington also visited in the Burch home during the Christmas holidays.

... about dimmitt

(Continued from Page One)
cene time. This conclusion is given strong support by the local presence of abraded cobbles of this distinctive rock in the basal part of the unconformably overlying Blanco formation (Evans and Moade, 1945, p. 492), and our observations throughout the region give it general support. The "Caprock zone," however, is not a simple phenomenon, and it is our opinion that materials of more than one age have been loosely grouped under this heading.

This is one of the more clearer paragraphs, actually, and any geologist would know what it meant. To us it just doesn't say anything, or if it does, a sentence should have been quite adequate.

This is one reason science seems so strange to most of us—the people who call themselves scientists cover everything up with a gobbledegook language and it takes ten years of college to understand what they're talking about.

So it will probably be some time before we can write a feature story on the geological history of the caprock—in case anyone's interested.

SALVATION

The day of salvation is the period of one's life; a short, uncertain period which terminates in the night of death. John 9:4; Eccl. 9:10; Jas. 4:13-15.

Salvation implies misery, danger; it includes deliverance. Man is a rebel, under sentence of death. He is wretched, poor, diseased. Rom. 7:24.

The gospel provides deliverance and announces pardon for man. Heb. 8:12.

Salvation is the product of Divine Love. Perfect in nature, Matt. 10:28; Present in application—revealed now, offered now, must be accepted now. 2 Cor. 6:1,2. It is universal in extent. Christ died for all. Jno. 3:16.

It should have a claim upon our examination, Acts 17:11. Upon our faith and obedience. Heb. 11:6; Matt. 7:21.

Many will see their opportunity to be saved too late. "Backward, turn backward, O Time in your flight, And make me a child again just for tonight." The devil teaches there is "Time enough yet." God says "Today is the day of salvation."

Walter Rogers' WASHINGTON NEWSLETTER

And ye shall know the truth, and the Truth shall make you free
St. John 8:32

The present heated controversy over pay or subscription television has brought me many letters. Some of these would indicate that the writers are under the impression that there is a present danger of people losing the rights they now enjoy in receiving television programs unless they are willing to pay a price for these programs.

Others indicate an understanding that there is a move afoot to charge for all of the good programs and only permit the bad ones and the commercials to come over the set without charge. These and other misunderstandings caused me to call to mind the above quotation. I have always subscribed to the policy that the best and quickest solution to any problem in this country is for the people to have the truth, the whole truth and nothing but the truth concerning it. Armed with such weapons, we can always depend upon the people of our country to come up with the right answer. It is for that and other reasons that I will try to give you a brief but straight forward story about the pay television controversy.

In the first place, you are not going to be required to pay for

the television programs that you are now receiving. Please do not worry about that any longer.

The question of whether or not to allow pay television has been before the Federal Communications Commission for 6 years. 73 volumes of testimony were taken, and on October 17, 1957, the Commission issued a report. This report, in effect, invited applicants to apply for subscription or pay television licenses on a trial basis. The trial would be for a period of not more than three years, beginning after March 1, 1958. The trial or test could be tried only in cities having four or more first class channels. This means that the test could not be operated in the Panhandle of Texas or in that general area, unless additional channels were authorized. Other stringent regulations and restric-

tions would be affected, according to the Federal Communications Commission release, are Dallas, Fort Worth and San Antonio. I would think that Houston would be in this category.

The real issue with which the Interstate and Foreign Commerce Committee of the Congress is presently concerned has to do with whether or not the Federal Communications Commission has the power, the authority or the jurisdiction to authorize these limited tests. There is no proposal before the Congress at this time to take away the television rights and privileges which you now enjoy. Should such a proposal ever be made, it would fall utterly.

I am a member of the Interstate and Foreign Commerce Committee and a member of the Trans-Subcommittee, both of which are engaged in interstate commerce. Our Committee has heard much evidence on the question concerning the jurisdiction of the Federal Communications Commission to allow these trial tests. Among the witnesses were the top leaders in the television business of today. The members of the Federal Communications Commission appeared in a body before our Committee.

We also heard such men as Dr. Frank Stanton, President of the Columbia Broadcasting System; Mr. Robert W. Saroff, President of the National Broadcasting Company; Mr. Leonard H. Goldenson, President of the American Broadcasting Company-Paramount Theaters, Inc.; and Mr. W. Theodore Pierson, appearing for Zenith Radio Corporation. Although there was much conflict between the testimony, all the witnesses agreed on one proposition without exception. That proposition is that the people of this country own the spectrum. During the Committee hearings I asked Dr. Stanton the following question: "You do subscribe to the philosophy that the spectrum is owned by the people as a whole; that is, owned by the public?" To this, Dr. Stanton replied: "Yes Sir, I do." He gave some very good reasons for his answer.

The spectrum could be described as that area in space through which the radio and television waves and beams must travel between the broadcasting stations and the receiving sets. Licenses are granted by the public, who own this spectrum, to the broadcasting companies permitting them to use this public property. The public receives no pay whatever for permitting the broadcasting stations to use this public property which we call the spectrum; therefore, when these broadcasting companies are given these licenses, they, in effect, become trustees of this property. When, as, and if they should violate this trust, the right to continue to use the public spectrum could be, and should be, denied to them.

The reason that the people of this country will never be denied the right to use their television sets as they see fit is because they own the airways through which these radio and television waves and beams must travel. Whether or not any portion of that spectrum can or should be used for pay or subscription television is a question that can and should be answered by the people of this country who own it, after they have all of the facts and circumstances involved. Should pay television be permitted at any time, it should be under rigid restrictions and limitations which would guarantee to the American public that their property was not being misused or abused and that their rights and privileges to receive television and radio broadcasts were not en-

Bushland, Tex., Man Reports—

"I Cut 2,190 Tons of Ensilage From 104 Acres of Maize"

Leo Bezner, Bushland, Tex., says: "I put down 80 pounds of Phillips 66 Agricultural Ammonia pre-plant on 104 acres of irrigated maize land. I cut 2,190 tons of ensilage, or slightly more than 21 tons per acre. I use Phillips 66 Ammonia to help increase yields on all my cash crops."

Other Southwestern farmers have discovered that the 82% nitrogen in top quality Phillips 66 Agricultural Ammonia helps them to get more profit per acre, through higher

yields and lower production costs.

They have found that, by using Phillips 66 Agricultural Ammonia, they get more cotton that grades out higher at the gin; yields of sorghum grain and ensilage are increased; more marketable vegetables are harvested, and profits on wheat are increased through better forage, and higher yields of grain.

Certified Seed Growing Rules Are Explained

Producers of certified seed must obtain permission from State Seed and Plant Board before labeling as substandard cotton seed produced in 1957 for the 1958 marketing. Dr. A. W. Young, chairman of the board, declared here.

Misinterpretation of the board's January ruling that 1957 substandard cotton seed may be labeled "Germination below 80 percent" has been reported with the result that some seed growers may be failing to secure approval from the Seed and Plant Board. An emergency must be considered to exist before approval is given, he said.

"The permission granted to label cotton seed with a certification or registration tags with the statement 'Germination Below 80 percent' does not relieve certified seed producers from any of the general requirements, rules or regulations pertaining to cotton seed or any other class of seed," he pointed out.

"In other words," said Young, "producers in the certified seed program in Texas must make written application to the State Seed and Plant Board for permission to use this method of labeling their substandard seed and receive their permission."

"The request should indicate the germination of each seed lot which is to be so tagged," he added.

He said the regulations are spelled out in Section 11a of General Requirements of all Applicants in the state agriculture department's "Seed Certification Standards—1956."

Earlier this month Dr. Young announced the board's decision to maintain germination standards for certified and registered cotton seed in Texas. The board has been asked to lower minimum germination requirements by many producers.

"There seems to be insufficient justification," he said, "to lower the standards because of the general unfavorable climate conditions in 1957 which resulted in lower than average germination of cotton seed in Texas."

He added that "if the standards were lowered now they would undoubtedly need to be raised again next year."

Young, who is also agronomy department head at Texas Tech's Agriculture School, cautioned cotton growers not to purchase just any high germinating cotton seed for the 1958 planting.

"Some of these seed lots may come from areas where varieties of cotton are grown which are not adapted to the areas in Texas where they are offered for sale," he said.

Several cotton seed producing states have lowered minimum germination standards for certified and registered cotton seed, Young noted.

"The result has been that the high-germinating seed lots have sold up to \$400 a ton while lower-germinating seed stocks are being offered at varying price levels which are based largely on the percentage of germination of seed," he added.

Hart F.H.A. Chapter Contributes To March of Dimes

The Hart F.H.A. Chapter had a meeting Tuesday, January 7. One of the main points was to decide on the activity for providing some money for the March of Dimes.

The F.H.A. had a bake sale, which guaranteed \$25. The officers of the Hart F.H.A. Chapter are: President, Kay Nell Popejoy; Secretary, Phyllis Bass; Vice-president, Jean Huggins; Treasurer, Janice Bass; Parliamentarian, Edna Davis; Historian, La Wanda Brooks; Sergeant-at-arms, Sandy Johnson; Song Leader, Marianne Huggins; Pianist, Janis Sharp; and Reporter, Wyona Myrick.

Garden Club to Meet Tuesday

The Dimmitt Garden Club will meet in the home of Mrs. Homer Newton Tuesday, February 11 at 3 p.m. Mrs. Raymond Wilson and Mrs. Earl Morgan are co-hostesses. All members are urged to attend.

Maple Girls to Exhibit at Show in San Antonio

Youthful exhibitors from this area at the San Antonio Stock Show and Rodeo, February 7-16 at Bexar County Coliseum, include Dimmitt 4-H Club members Glenn Ann Maples and Mary Helen Maples, who will show two turkeys in the Ready-to-Cook Junior Poultry Show.

Their entries are among more than 5,000 head of livestock and horses which will be at the February 7-16 Show. Over \$55,000 in Livestock and Horse Show premiums are offered, according to president E. W. Bickett, who also announced Friday, February 8 will be "Rural Youth Day" with some 35,000 to 50,000 rural youngsters expected to attend if good weather prevails.

The 1958 edition of the Stock Show will feature 15 performances of Everett Colborn's World Championship Rodeo, starring "Mr. American Cowboy" Gene Autry, and television's sensational sharpshooter, Annie Oakley.

Also at the Stock Show and Rodeo are a multitude of exciting exhibits, including the famous "Atoms for Peace" exhibit, \$1 million Farm-Ranch Machinery Show, Wild Life Exhibit, new Ready-to-Cook Junior Poultry Show, Armed Forces Display and Bill Hames Carnival.

Tickets for the rodeo, which include front gate admission, are priced at \$3.60 for box seats and \$3, \$2, and \$1.50 for balcony. For tickets, write to Harold Freeman, Ticket Chairman, 1015 Transit Tower, San Antonio 5, Texas.

COMPARE and you'll go GAS everytime!

GAS IS THE FAST FUEL...THE CLEAN FUEL...THE FLEXIBLE FUEL...THE DEPENDABLE FUEL!

Where food is finest, it's cooked with Gas! Why? Because Gas lends itself to complete control! Remember, completely "automatic" does not mean completely "controlled". Only the oven thermostat on an automatic gas range permits you to set-and-forget the time and temperature, confident in the fact that the temperature setting will be held within a margin of only five degrees! This is just one of the many advantages of Gas cooking! Let us give you the rest of the facts, then visit your gas appliance dealer.

A. Pot Watching is ended when the Burner-With-A-Brain makes every pan an automatic utensil. A hypersensitive thermostat prevents scorching and boil-overs.

B. Perfect baking results are the rule in a self-starting, self-stopping GAS oven with the most accurate thermostat yet devised by mechanical science.

C. Closed door broiling—with no odors escaping into your kitchen—is advisable only with Gas, because only a live flame can CONSUME cooking vapors.

D. A meat thermometer operating the control of your automatic gas oven assures finer flavor and texture, with much less shrinkage and drying in the meats you serve.

Through a hard-hitting, consciencious ADVERTISING PROGRAM

Competition is a demanding taskmaster—but it can also be the greatest rewarding factor in merchandising or servicing. It is a taskmaster when competition defeats, when it sets the rut that engulfs the businessman. Competition is rewarding when the merchant forces it to become his tool, when he knows he has a thriving, growing business that will never want for customers. Business goes where it is invited—and competitive prices, outstanding courteous service with a good selection, and promotional advertising will do the most inviting.

Do yourself, your customer, and your community a favor by using the pages of the Castro County News to sell your goods and services. It is not only good business but it will help you gear your operation to today's quickly changing trends and increasing competition.

Success stories of large businesses almost always hinge around concentrated advertising and other sound business practices. Start a campaign now—you'll be amazed at how quickly you will feel the difference. Just telephone 88 and a salesman will call on you at your convenience.

Mrs. B. E. Sinclair visited Mrs. Frank Henderson, Wednesday

morning. We wish to welcome the Homer Johnsons and the Pat Baileys to our community. They have recently moved to their new homes on the Miller Estate.

We have at least three more cases of the Chicken-pox out this way. Little Misses Debbie and Thresa Underwood and Karron Flynt are the victims this time.

The "White Shower" for the hospital is catching on. At least two more organizations have adopted the idea. The Wesleyan Service Guild of the Methodist Church and the Bethel Home Demonstration Club have voted to participate. The Christian Mothers Society of the Holy Family Church, Nazareth have already given their gifts to the hospital. From all reports, it was a very nice shower and greatly appreciated. Congratulations to them on their thoughtfulness and their speed with which they conducted their shower.

Purchased a Farm in Mt. Vernon Mr. and Mrs. Harry Rothwell will move this week to Mt. Vernon, Missouri where they have purchased a farm. Mr. and Mrs. Rothwell have lived in Plainview since leaving Dimmitt.

REMEMBER TO ATTEND SOIL CONSERVATION DAY

High School Auditorium
WEDNESDAY,
FEBRUARY 12
10:00 A.M.

THIS IS AN ANNUAL PROGRAM THAT IS VITAL TO THE
CONSERVATION OF OUR NATURAL RESOURCES

**YOUR LAND...
OUR LAND..**

Our future is in our land. Let's keep the land
in our future productive. Soil conservation
is an all-year, every-year job.

Keep the greedy hand of erosion from robbing your land of its valuable top soil. Terrace and contour-plow to provide adequate drainage and prevent torrents of water from gouging sterile valleys in your acreage.

Plan your crop rotation to avoid soil depletion and maintain the productivity of your land for yourself and future generations. Investigate, study and apply this tested-and-proved method of soil conservation.

Years of patient experimentation and exhaustive reasearch have developed and perfected today's successful techniques of scientific soil conservation. Put these techniques to work on your farm . . . and do it NOW!

THIS BROWN SWISS COW was one of two owned by Vincent Braddock of Nazareth which classed excellent in a state contest. One of these cows' offspring, Brad-Louis Tamrind's Charmer, a Brown Swiss bull, sold for the top price of \$500 in the first Texas State Registered Brown Swiss Sale ever held. The sale was in Stephenville on January 15th. The bull was a yearling and according to Braddock, the two cows were the only ones in the state to be classified as excellent.

High Plains Not To Expect Cotton Acre Increase

High Plains farmers, along with other cotton producers across the U.S. cotton belt, face 1958 with little or no hope of increased cotton acreage, according to information from Washington, D.C.

W. O. Fortenberry, President of the Plains Cotton Growers, Inc. today said that Agriculture Secretary Benson told Congress last week he does not have the power to boost acreage allotments for the 1958 cotton crop.

The Plains Cotton Growers recently sent Wilmer Smith, New Home, vice president, and George W. Pfeifferberger, Executive Vice President, to Washington to attend a conference with Secretary Benson. This conference was arranged by the National Cotton Council and representatives asked Benson for increased acreage in 1958.

Allotments for the 1958 crop have been set at 17,600,000 acres. The National Cotton Council asked an increase to this allotment to help overcome an impending shortage of high quality fiber.

The Farm Chief made his decision last week in a letter to Rep. Cooley, D. (N.C.) Chairman of the House Agriculture Committee. The decision was based on a legal opinion by R. L. Farrington, the Agriculture Department General Counsel.

Ferrington told the Secretary

LIVESTOCK MARKET REPORT

Receipts of about 3,600 cattle and calves at the Amarillo Livestock Auction were slightly less than last week and around 500 head smaller than a year ago. Stocker and feeder steers comprised the bulk of the offerings with an increased showing of fleshy stocker and feeder steers on sale. Stock calves arrived in very limited numbers however the quality was attractive with a large percentage falling in the Choice grade. Cows also were on the increase and accounted for fully 20 percent of the run. Buyers were aggressive on the stocker and feeder classes and substantial gains were recorded on Monday. The demand narrowed on the following session and part of the advance was lost. When compared with last week's close: Prices are steady for cows except for Commercial grade which moved on a weak basis. Bulls also held steady. Stocker and feeder steers and heifers are 25c higher after being as much as 50c up at one time. Upturns of mostly 50c higher were registered on stock calves with some lightweight kinds showing a little more advance. Slaughter yearlings and calves arrived in limited volume to test the market.

The Counsel contended there is no certain method of growing a particular grade of cotton because of the unpredictable effects of weather, insects and other factors. He said the desired grades under normal conditions would probably range somewhere between 60 percent to 75 percent of the total production, with the balance made up of the "trash" cotton which is already too abundant.

Fortenberry said that while the PCG was interested in obtaining acreage increases for this year, the primary interest of this organization in connection with a cotton program is to secure a long-range program that will work toward the benefit not only of the producer, but will benefit other segments of the cotton industry, and which will put cotton back on a sound economic basis through the national and world.
