

LISD trustees approve start of baseball program

Lockney ISD school board members discussed a variety of issues, long into the early morning hours, June 14. Meeting, at 7:30 p.m., for the regular monthly meeting, the trustees were kept busy with a long agenda until 1:30 a.m. the following morning.

An in depth discussion was held over the possibility of starting a baseball program at Lockney High School. Coach Jim Clark met with the trustees and gave them an itemized list of the approximate cost of starting a program and maintaining it yearly.

Coach Clark said, "There seems to be an interest in a baseball program. We will have the same participants as we do in football and track, and I think we may pick up 5 or 6 additional kids. The season will not interfere with track. The district play of baseball starts two days

after district track competition is over. Baseball games are played twice a week for three weeks. We would not have to add any coaching staff, we would reassign duties."

The cost of purchasing new equipment was estimated by Clark at \$5,610.35. Other estimated costs were: \$4,479.00 for preparing the field for play; \$1,500 for yearly field maintenance; \$3,000 per year for program; umpires, \$2,000; coaching salary, \$300.00; travel and meals, \$3,000 and awards, \$400.00. The yearly budget increase after the program was implemented was estimated at \$8,500.00. These figures were estimated at a higher rate than the board members expect it to cost.

Concerns voiced by school board members were those of security at the games, interference with other activities

and the possibility of not being able to have home games in Lockney.

The trustees were informed that the baseball district includes Ralls, Idalou, Tahoka and Morton. "All these teams play their home games in Lubbock," said Superintendent Hallmark. Idalou and Morton are the only schools that positively said they would come here to play Lockney for our home games."

Paul Glasson expressed concern that the school would spend the money to fix up the field and then not be able to use it for games. "We want the parents to come out and watch their kids and this would make it very difficult for them."

Dr. Gary Mangold stated that he felt that maybe this was too much activity all grouped together and was concerned that students might suffer academically with so many things going on at once.

After much discussion and with the understanding that Hallmark would stress to the district how important it was to Lockney to have their home games at home, the trustees voted unanimously to start a baseball program at Lockney High School.

Hallmark called the newspaper before press time and gave an update on where the games would be played. He stated, "After talking to representatives of the schools that are involved the concern that we will not be able to play at home is not a problem. We will be playing on a home and home basis except for possibly Tahoka. We will be playing home games on our field here in Lockney."

Hallmark presented his superintendents report to the trustees and brought them up to date on the new Senate Bill 1

which awards extra dollars to the poor school districts.

"I hesitate at this time to quote figures on all the money that is available and how we have to go about getting it, but one thing is for sure at this time - as stands now, our basic allotment increase is \$245,000 in 'new dollars'."

No one was present for the mandatory public hearing on the use of Chapter II funds. Hallmark explained to the board, "Because we receive more than \$5,000 from Chapter II funds we were required to hold a hearing so that the public could voice their opinion on how the money is to be spent."

"We will use it with the Service Center in Lubbock, on programs to benefit at risk students. It will also be used for AAT (advanced academic training) that are offered teachers during the summer. The hours the teacher earns at these classes will enable them to move up the career ladder."

"Funds will also go to math measurement workshops, discipline management training and junior grade book training."

The officers on the 1990-91 school board were all elected by acclamation. They were: Jim Bob Martin, president; Eddie Teeter, vice president; Lisa Mosley, secretary; Paul Glasson, vice secretary.

Paul Lyle, the attorney for the school district, was present for a short time to explain the duties and responsibilities of trustees to the new school board members. "I read all your minutes and your agendas," said Lyle. "The superintendent

Everyone must have new cards. Applicants will need to bring a current city of Lockney utility bill and social security cards for the entire family. Only one person per family will be issued a card.

Floyd County CRP acreage, program crop reductions evaluated by PCG

The 10 year conservation reserve program since 1986 has idled 95,675 acres in Floyd County. Of these acres 36,191 have been base cotton acres.

Floyd County has a total of 475,378 acres of cropland and 245,041 of these were total cotton base acres.

The conservation reserve program (CRP) has set aside 1.84 million highly erodible acres, or 20.2 percent, of the 9.1 million cropland acres in the 25 High Plains counties represented by Plains Cotton Growers, Inc., Lubbock.

Recently the figures from USDA's Soil Conservation Service were evaluated by Plains Cotton Growers (PCG) along with CRP reductions in program crop bases supplied by the Agricultural Stabilization and Conservation Service (ASCS). Farmers who signed land into the reserve program have agreed to devote the idled acreage to conservation uses such as permanent grasses for a period of ten years. In return, USDA pays a share of the cost of establishing grasses or other cover crops and will pay yearly rental of up to \$40 per acre.

CRP crop base reported by ASCS total only about 1.5 million acres. Although land bid into the program had to be used for program crop production from 1981 to 1985, SCS figures reflect total cropland area while ASCS numbers represent only crop base assigned to the same area. Thus a 100 acre cotton

farm planted two-in, one-out would appear as 100 acres in SCS records but only 66.6 acres at the ASCS office.

The CRP has reduced base cotton acreage in PCG territory by 774,720 acres, 16.7 percent of the area's 4.64 million acre total base. The remaining 724,634 acres of base reduction s cover corn, grain sorghum, wheat, barley and oats. Bases are not lost, however. They will be restored to individual farms at the conclusion of their respective CRP contracts, beginning in 1995.

Most High Plains cotton acreage in the CRP is found on whole-farm CRP entries, PCG notes, citing ASCS figures showing less than 122,000 CRP acres on farms participating in the 1990 farm program.

With certain exceptions, the farm law limits acreage accepted into the CRP in any county to 25 percent of the county's total cropland. Eleven PCG counties have reached or slightly exceeded the limit, including Bailey, Briscoe, Cochran, Deaf Smith, Dickens, Gaines, Martin, Motley, Swisher, Terry and Yoakum Counties.

Nationwide about 34 million acres have gone the CRP route through the nine sign-up periods from 1986 through 1989, and USDA has no plans to accept additional acreage unless the program is extended in the pending 1990 farm bill.

 “When your dealing with faculty and students,” the best guideline to use is the golden rule. If you follow due-process and be fair, everything will work out all right.
 “Your job is to make policy and then to expect the administration to see that the policy is carried out. The board does not tend to day to day affairs. You need to be all ears and listen to your constituents.”
 Lyle also explained the rules and procedures of the open meetings rules and the rules of executive sessions.
 A preliminary work budget was also presented for the trustees to study. Each member was asked to study the budget worksheets and bring any questions and suggestions to the budget workshop.
 In other business the board approved the purchase of 50 new classroom chairs for band; accepted the resignation of Donita Keltz (who will be taking a teaching job in Plainview); agreed to

repair the dressing rooms in the gym; and approved for the calling of bids in August for a 15 passenger van.
 The board also approved the hiring of Ted Young as the new ag teacher.
 Young has five years of experience. Two years were spent teaching in Hereford, after which Young quit teaching to pursue a farming and ranching business in Pecos. Young got back into teaching three years ago when he went to work for Pecos as an ag teacher.
 Young’s wife, Cathy, is a teacher of home economics. She intends to go back to school when the couple moves here, and get her kindergarten certificate.
 They have two children, a daughter, six years old, and a son, age 3.
 Young grew up in Lorenzo and Cathy grew up in White Deer. Hallmark stated that the couple is excited to get back home and are looking forward to living and working in Lockney.
 The Young’s should be moving to Lockney in the middle of July.
 All board members were present at the meeting. They include: Eddie Teeter, Lisa Mosley, Mike Mathis, Paul Glasson, Jim Bob Martin, Dr. Gary Mangold and Dickie Lambert. Also present were Superintendent W.H. Hallmark, Paul Lyle, Coach Jim Clark and the Beacon reporter.

Church group leaves for retreat

Fourteen young people from the Iglesia de Jesus Pentacostal Church of Lockney are attending a youth retreat at Junction.

They left Lockney at one o'clock on Tuesday accompanied by Lupe Banda, pastor of the church. They plan to be gone until Sunday afternoon.

studying Bible passages and ways to make their faith stronger.

The church has regular services planned for Sunday.

Backyard barbecuing battles stress

Age-old theories about healing the human psyche may be going up in smoke. According to a recent survey of what's cooking on the backyard barbecue this summer, it appears that grilling may be to the 90s what therapy was to the 80s.

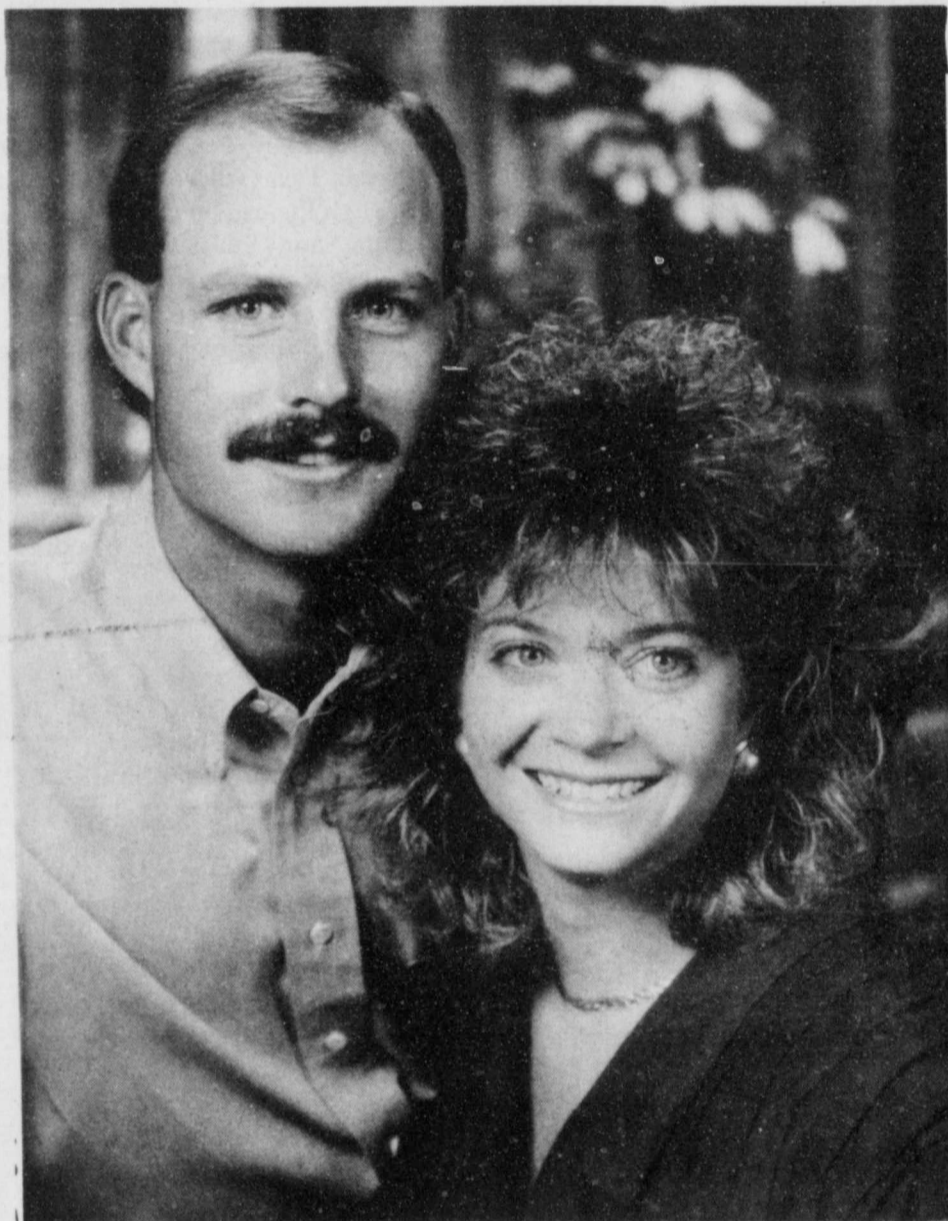

This recent discovery of the stress-reducing health benefits of barbecuing arrives at an opportune time, as consumers in the 90s want more time to relax, less stress in their lives and more opportunities to get together with families and friends.

Barbecuing has a positive effect on personal well-being in part because it is an outdoor activity. Ninety-four percent of the survey respondents cited being outside as a major advantage to grilling.

Barbecuing takes meal preparation out of the kitchen and into the great outdoors, offering time-saving advantages, minimal hassle and a rewarding end result.

Barbecuing, it seems, is inherently a social activity — a time to gather friends and family for an enjoyable, stress-free get-together. Eighty-eight percent of those surveyed cited casual entertaining as the most frequent occasion to cook on the grill, followed by ordinary weekends at 86 percent. Topping the list of holiday barbecuing occasions is the Fourth of July at 80 percent, followed by Labor Day and Memorial Day, both at 73 percent. More than half the respondents cited graduations and birthdays as additional group grilling opportunities.

Whether flipping burgers, searing fish or grilling chicken, eighty-eight percent of the survey respondents said they enjoy the act of barbecuing as much as they enjoy eating barbecued foods. Over 50 percent also said they find barbecuing to be a creative outlet, providing them with an easy way to express themselves.

tradition of playing gospel, by bringing his guitar to the Grace Fellowship Church, where he is a member, and playing toe-tapping, hand clapping gospel for the congregation there.

Joe and his wife, Wanda, have five children. He has worked at EXCEL for 10 years.

This will be the first time Joe has performed for the Country Jamboree. He will be the first artist to kick off the entertainment, starting at 6:30 p.m. "I'll be on the stage from 6:30-6:40 p.m. I'm not going to tell what I'm going to sing. It's going to be a surprise." He said.

DPS to conduct "Operation Motorcide"

Major V.J. Cawthon, Regional commander of the Texas Department of Public Safety said, "Everyone looks forward to happy holidays, especially the 4th of July; but the sad thing about all holidays is that a number of people will lose their lives in traffic accidents."

He stated that as in years past, the Department of Public Safety will conduct "Operation Motorcide", whereby, all available state troopers will be on the streets and highways attempting to make them a safe place for the Texas traffic to travel.

Cawthon stated, "Our troopers will be especially watchful for those hazardous drivers who refuse to slow down, run stop signs, pass in no passing zones, and who drink and drive."

He encouraged all drivers and passengers to buckle up and to reduce the chances of death or injury in case of an accident. He stated that this practice should go hand in hand with the voluntary compliance of the traffic laws.

"If you, as a motorist, would drive and treat your fellow motorist as you would like to be treated on the roadway, you can help in making this a safe holiday. Remember to slow down and 'Drive Friendly, The Texas Way'", stated Major Cawthon.

Keep in mind to slow down a little and

live a lot, Don't Drink and Drive and Buckle Up at all times.
