Floydada Nursing Home.

LISD releases performance report

Editors Note:
The annual performance report for the Lockney Independent School District was approved by the school board on November 8, 1990.

It is a complete report covering all aspects of LISD. It is available for public inspection on each campus.

This newspaper will publish certain sections of the report for your information.

Because of its length, the report will be divided and published when there is space available.

Part I - General Information Student Performance

Student progress is monitored each school year by administering the norm-referenced Science Research Associates achievement test and criteria-referenced tests—TEAMS.

1. SRA - The SRA was administered to students in grades K-11. The goal is to have all students performing at or above grade level in reading and math. The indicator will be the 50th percentile.

Results of the April 1990 testing with the SRA showed the district mean in reading to be 55% and the mean in math to be 64%. These scores are up 0.7% and 0.6%, respectively.

2. TEAMS - The criteria-referenced TEAMS test is administered annually to the third, fifth, seventh, ninth and eleventh grades. In the twelfth grade the EXIT test is given to those students who did not pass in the eleventh grade. The results of these tests show that students in Lockney are mastering at or above the state average in every area. In 3rd grade, 72% of the students mastered all three tests. In 5th grade, 81%; in 7th grade, 96%; in 9th grade, 77%; and in 11th grade, 92% passed the EXIT on the first attempt.

Lockney Junior High was one of

754 schools in the state to be recognized by the state board of education and TEA for EXCEPTIONAL ACHIEVEMENT and EXCEPTIONAL GAINS on the 1989-90 TEAMS test.

Based on the results of the TEAMS tests, students could show improvement in the following objectives:

- Math
- 1. Proportion
- 2. Measurement units
- 3. Geometric properties
- Reading
- 1. Main Idea
- Writing
- 1. Punctuation
- 2. Spelling
- 3. Proofreading

Student performance can best be described as a general trend toward mastery of basic skills. Teachers and students continue to reinforce basic skills in reading, writing, and math. At the same time, higher level thinking skills are being practiced and taught in these areas as well as social studies, science, and other subjects.

3. LOCALLY FUNDED SUMMER SCHOOL - A summer school program was provided in June, 1990 for all students in grades 2-8 that scored below the 49th percentile on the SRA test administered in April. Approximately 100 students attended from 8:30 - 12:00 for a two week period.

The curriculum provided a variety of activities with the major emphasis on language arts and writing in grades 2-5. Students wrote stories using a word processor after taking an educational field trip to visit a llama farm. Students also attended classes daily in listening skills and mathematics.

Students in grades 6-8 attended classes daily to work on a computer reading program that provided indi-

vidualized instruction for each one based on the diagnostic test.

4. UPWARD BOUND - Special activities in history and science were made available to gifted students during a two week summer program. Students in grades 4-8 were identified. Students were also given opportunities to go on field trips.

Teachers went through an introductory in-service on TACTICS for thinking skills. This program will be utilized in the 1990-91 school year.

Curriculum

The programs offered to LISD students meet or exceed the state requirements. Special emphasis is placed on mastery of the essential elements.

Curriculum guides are used in all subjects taught. They are updated and revised yearly. The goal is to keep the curriculum guide as current as possible.

Lockney Public Schools provide a full day of instruction. The school day begins at 8:30 a.m. and closes at 4:00 p.m. The 7 1/2 hour school day allows 7 periods for instruction and a period for in-school tutorial.

At the elementary level, the length of the school day exceeds the state requirement in regard to time. Various instructional programs exist to enrich and extend the regular classroom.

1. Special Education - Lockney is part of a cooperative with two other schools in order to provide specialized assistance to the students identified with specific needs. Our program consists of an early education program, a speech therapist, and two resource rooms.

2. Libraries - Each of the three campuses has its own library and media-resource centers. Each facility has adequate books, visual aids and other resource materials to meet the needs of students. Each campus has a full-time

paraprofessional library aide. A half-time certified librarian serves the district in cooperation with Hale Center.

3. Remedial - Students who are below the 50th %ile are eligible to participate in Chapter I Reading Programs. Compensatory funds are used to remediate those students below the 50th %ile in mathematics. Eight Apple IIGS were placed in the Chapter I programs in the elementary school.

4. Enrichment Programs - Enrichment programs are offered to challenge students beyond the basic requirements. The high school offers two years of computer courses, advanced mathematics and science. These courses are available to high achievers.

5. TI-IN Network - Courses are offered upon student request and will be expanded as the system grows.

6. Migrant and ESL (English as a Second Language) - Being an agriculture area, the school district has provided extra help with an aide at each grade level in elementary school for the identified migrant student. An aide and teacher is provided for those students having difficulty with English.

7. Music Program and Physical Education - The elementary school has a full-time music teacher and a full time physical education teacher.

8. Vocational Programs - The students are provided the opportunity to take Home Economics, Home and Family, Shop or Production Agriculture in addition to their required courses.

9. Computer Programs - Computer literacy is offered in the 8th grade. We have a network system of 16 Radio Shack TRS 80 computers. Apple II GS computers and appropriate reading and TEAMS software were purchased for the junior high and high school language arts classrooms. Apple II GS computers

were also placed in the junior high math classes.

JTPA Computer Program (Job Partner Training Act) - This program is used by At-Risk students and community adults who need extra credit in basic fields to meet graduation requirements.

10. Life Management Skills Tutorial Program - Students attended classes in stress reduction, drug/suicide prevention and refusal skills for one period a day. These classes were required for all students in grades 6 - 12 and lasted six weeks.

11. Drug Education Program (Elementary School) - This program incorporated units on emotional growth, personality and development and the use and misuse of drugs and medicines into the curriculum of each health class. Teachers use information from the Discover-Skills for Life series.

Mrs. Terrell's 8th grade class express Thanksgiving thoughts

November is coming near
Only one Thanksgiving a year...
Very heavy morning mists...
Everyone receives turkeys as gifts
Many many turkeys
Bravely are outside lurking.
Every bite is yummy!
Remember I have a big tummy.
Jarod Mosley

New year is coming soon...
October has disappeared.
Very soon Christmas will arrive.
Each day passes slowly.
Many relatives will come.
B-r-r-r-r-r! It is cold.
Even the steer's water freezes.
Remember...spring will return.
Mark Terrell

Never throw the turkey away;
Only sleep all day.
Very seldom do we hum.
Every year it comes.
My mother mails a letter
Because she wants to buy a sweater.
Every year after November, we're
Ready for December!
Jason Clark

November is not a very fun month
Outside it's cold
Violet has a red nose.
Eddie is cold.
Mom is preparing Thanksgiving dinner

Boys are eager to eat.
Eight girls are giggling.
Rays of the sun sparkle as the frost.
Michelle DeLeon

Nobody should be alone on the holidays
Only bare trees and brown grass remain.
Very many people come for Thanksgiving.
Everybody wears their jacket.
Maybe we will have turkey and dressing.
Back to wearing sweaters...
Everyone is getting fatter.
Really, I'm sick of the cold weather.
Amanda Watson

Nice and warm inside.
Only the trees are shimmering.
Very cold outside.
Everywhere people cheer.
Maybe will do my homework.
Everyone is content.
Rest of winter lingers.
Ashish Patel

Not warm anymore
October is at an end
Very sad that summer is gone
Even though it will come again
Maybe this winter I can keep my toes warm,
But at least I can watch the snow swarm.

No more warm days.
Only freezing-cold winter days.
Very, very chilly days.
Everything is tedious
Maybe summer will be here soon,
But the thought of all those presents at Christmas...
Everything will be so wonderful...
Receiving all of those neat gifts.

Justin Graham

Everybody is excited about Christmas
Really, the winter isn't that bad.
Tiffany Ellison

November comes after October
Offering the beginning of winter.
Very fun times in November...
Everyone is happy!
Must be fun in winter...
Better times...
Everyone likes Thanksgiving.
Remember the good times in November.
Victor Gonzales

November means every thing is changing.
Only the pine trees are surviving.
Very few birds find food.
Every animal wants to stay warm for winter
Mammals are all walking on splinters
Because there is no snow to walk on yet.
Every animal needs food to survive the winter.
Rarely is November different.
Jermiah Rodriguez

No more long summer days
Only cold wintry ways.
Vanishing is the 1990 year.
Every day brings the end near.
Maybe this season is almost gone.
But we still have the memories to hold

Everyone eats their share
Right after the Thanksgiving prayer.
O'Brien McDonald

November is here.
October is gone.
Very cold weather.
Everybody's gathered.
Memories of last year are returning
Everybody's leaving.
Rudolf is coming.
Amy Arjona

No more warm days,
Only chilly days and nights,
Vacuum cleaners running, getting ready for the holidays.
Everyone's busy.
Many secrets are being kept
Because Christmas is coming soon.
Everyone will be cheerful, while remembering the Pilgrims.
Mandy Hunter

Not many people like winter.
Only warm-blooded humans.
Very cold outside,
Everybody is freezing.
Mom is cooking soup.
Bed is always warm for me to sleep in.
Eating is all there is for me to do.

Social Security News

"Could I support myself on my Social Security benefits if I became disabled?"
"Would my children be able to get Social Security if something happened to me?"
These are questions that young adults need to ask themselves. Young people can bet answers to these questions with a Personal Earnings and Benefit Estimate Statement.
The benefit statements show estimates of the Social Security benefits each worker could expect. The estimate shows disability benefits for workers and their families, and survivors benefits available to family members if the worker dies.
With a realistic estimate of their Social Security benefits, people will be in

a better position to make informed decisions about their need for insurance and savings.
People can also use their statements to verify that all their earnings are shown correctly on their Social Security records. If the record is wrong, Social Security may be able to correct it. It's usually easier to make corrections if the error is found within a few years, while records are still available.
To get a benefit statement, call Social Security at 1-800-234-5554 (1-800-234-5772) and ask for a free request for Earnings and Benefit Estimate Statement. When it comes in the mail, fill it out, and send it back. You'll get your statement in a few weeks.

Employers to see tax credit

Texas employers are going to get a \$300 million TEC tax credit in 1991 according to Commissioner Mary Scott Nabers of the Texas Employment Commission.
"This is without doubt the best news we have been able to announce in the past six years," Commissioner Nabers said. "Every Texas employer will realize a tax credit of approximately 34%." This amount will not be an actual refund but will be applied to taxes owed in 1991.
"This will provide some much needed relief to business," Nabers said...and then added, "It's long overdue."
The tax credit is a result of lower unemployment and a trust fund that has reached capacity. The trust fund is the account from which benefits to unemployed workers are paid. According to Nabers the fund will total approximately \$1.3 billion by the end of No-

vember. "That is more than is needed so the average can be credited back to taxpayers," Nabers said.
When asked if this was a major indicator of a better economy, Commissioner Nabers was cautious, calling it a positive sign but describing the economy as simply stable rather than great.
The amount of credit to be received by employers will vary depending on their tax liability. For example:
* A large employer with a tax liability of \$5 million will receive a tax credit of approximately \$1.7 million.
* A mid-sized employer with a tax liability of \$29,000 could receive a tax credit of \$9,900.
* A small employer with a tax liability of \$261 might expect a tax credit of \$88.77.
Nabers also pointed out that the tax credit cannot be applied to delinquencies. All taxpayers must be current on taxes to receive credit.

How to train your child to be a minor delinquent

Parenting is one of the most important responsibilities that we have. How well we do the job as a society will determine the future of our nation and even the world. Each of us has a part in shaping the future.

Years ago, the U.S. Chamber of Commerce published a list of rules to be used by people who want to be bad parents. It comes so close to reality in many modern families it is frightening.

1. When your kid is still an infant, give him everything he wants. This way he'll think the world owes him a living when he grows up.

2. When he picks up swearing and off-color jokes, laugh at him, encourage him. As he grows up, he'll pick up "cuter" phrases that will floor you.

3. Never give him any spiritual training. Wait until he is twenty-one and let him decide for himself.

4. Avoid using the word *wrong*. It will give your child a guilt complex. You can condition him to believe later, when he is arrested for stealing a car, that society is against him and he is being persecuted.

5. Pick up after him—his books, shoes, and clothes. Do everything for

him so he will be experienced in throwing all responsibility onto others.

6. Let him read all printed matter he can get his hands on... (never think of monitoring his TV programs). Sterilize the silverware, but let him feast his mind on garbage.

7. Quarrel frequently in his presence. Then he won't be too surprised when his home is broken up later.

8. Satisfy his every craving for food, drink, and comfort. Every sensual desire must be gratified; denial may lead to harmful frustrations.

9. Give your child all the spending money he wants. Don't make him earn his own. Why should he have things as tough as you did?

10. Take his side against neighbors, teachers, and policemen. They're all against him.

11. When he gets into real trouble, make up excuses for yourself by saying, "I never could do anything with him; he's just a bad seed."

12. Prepare for a life of grief.

I hope this list will inspire you to strive to be better parents and grandparents.

MHMR funding to area residents

For the second year Central Plains MHMR Center has been granted funding to assist people who have a diagnosis of mental retardation, autism, or who are eligible for Early Childhood Intervention, and who may be at risk of being institutionalized due to the special needs caused by their disability.

This funding is limited, but available to persons living in Bailey, Briscoe, Castro, Floyd, Hale, Lamb, Motley,

Parmer or Swisher counties.

This funding has been allocated to community centers by the state legislature. Last year Central Plains MHMR assisted 26 people in meeting a variety of needs.

The funding is limited and requests must be made prior to Aug. 31, 1991. Further information is available by calling Patricia Hollingworth at 293-1391.
