A SPECIAL ANNOUNCEMENT TO OUR FRIENDS AND CUSTOMERS!

We take pleasure in announcing to our friends and customers that we have engaged the services of W. R. BRANDON, well known to our people, who will call each morning at your home and take your order for anything you may need from our store during the day, and give you such other store news as will benefit those wishing to keep in touch with the very best of everything to eat and to wear which the market affords. This custom, as you know, is an old one, and has proven very satisfactory to both buyer and seller, in view of the fact that it enables the seller to better acquaint himself with the needs and wants of his customers and to anticipate them as to prepare in advance for their better accommodation; besides, it is a method which at once appeals to the busy housewife, as she can get just the information she wants right at her door without bothering with a phone. And above all, we want to show our appreciation for your past favors by this practical demonstration that we think enough of your patronage to go after it. Give us a fair trial for this month, and if we can't prove that superior quality, low prices, polite service and prompt deliveries are some of the arguments upon which we base a claim to a share of your business, we are content to let the other fellow have it. RESPECTFULLY,

CANYON MERCANTILE CO.

THIS APPLIES TO US.

Conditions about Plainview—Country in hand of speculators—Its effects and the remedy.

The following excellent article is taken from the Plainview News of last week and applies with equal force to our conditions as well as to theirs. That paper says:

Are we, the people of Plainview, Hale county and vicinity satisfied with the present conditions of things? Are we content to drift along as we are doing, with our lands owned by a few individuals who hold them in large tracts, with not enough real farms in all the country to raise the potatoes, cabbage and other vegetables which the community consumes, with not enough real stockmen, dairymen, etc., to produce the beef, pork, butter, eggs, and other farm products required to supply the needs of the people who live here now, to say nothing of those whom we are expecting to come to populate the city we are plan-

ing to build?

These are plain questions, but the conditions existing here today warrant the asking of them. If a real farmer, an actual cultivator of the soil, comes here and wants to buy forty, eighty, or one hundred and sixty acres of land to develop into a genuine farm, can he buy it? He will be button-holed by a dozen of land agents who will have sections and multiples of sections of wild prairie to sell him, but he doesn't want such a great tract of earth. He can not till so much. He wants a farm of suitable size to cultivate and make every acre produce something better and more profitable than the wild curly mesquite grass which nature planted on these broad plains. He wants to raise stock on these cultivated products of his farm which can be shipped direct to Kansas City without first going to Eastern Texas or Oklahoma or Kansas to be fattened for market. And in the great majority of cases he expects with the aid of his family to do the most of the work of the farm himself.

But little thought is needed to see that what is required to change the condition of things is to give real farmers from the older settled States a chance to settle here and put these fertile lands under genuine cultivation. They will raise vegetables for us in prodigal abundance; they will produce meats and other farm products in lavish quantities, while the manifold needs which this great increase in our population will bring into our midst will make business for our merchants and professional men and enable us to build a city here on these beautiful plains that we will have reason to be proud of.

Think of the absurdity, yea worse, of the merchants of Plainview having to send to places in Colorado, five or six hundred miles away, for the potatoes and cabbage necessary to supply this small community. Farmers can obtain from \$1.00 to \$1.50 per bushel for potatoes here in the local market, but even at these prices which are from two to four times what these vegetables sell for in Eastern and Northern

States, there are not enough raised to half supply the demand for them here.

Now do not think for a moment that we are provoking a controversy with the old residents and present owners of these broad and fertile prairies. These people came here when these plains were a veritable wilderness, when it required strong courage and ardent hope to brave the perils and hardships of the pioneer life which these people have lived, and we are glad to see them reaping a liberal reward for their foresight in coming here when they did. But the days of the cowboy on these plains have gone, and these fertile sun-kissed acres are awaiting the coming of the husbandmen. What kind of a welcome will we give them? What inducements will we hold out to them to entice them into our midst?

It has been the opinion of the writer for several months, and the conviction is steadily deepening, that the practice of selling lands in large bodies, sections and multiples of sections, and obstinately refusing to divide a section except at an exorbitant advance over the price asked for the whole tract, is the reason why all this attractive agricultural country is in the hands of speculators today, and actual farmers can find no place among us.

The greatest need of this Plainview country now is farmers, genuine tillers of the soil to transform these smooth rich acres into productive farms. And the way for us to get the farmers here is to sell this land in small and suitable quantities at reasonable prices. It is a well recognized fact that unless these lands ultimately pass into the hands of actual farmers who will develop them, the prices at which they are even now held

cannot be maintained. The only way the present owners can realize present values on these lands is by selling them to the only class of people who can and will put them into cultivation and make them productive.

Now we have a suggestion to make to the fortunate present holders of the titles of the lands in this region. We want you to take a course that will make you the most money, that will enable you to realize the greatest profit from your lands. Do not seek for a speculator to whom you can sell the whole body of land that you own, who will buy it to make a profit on it by selling it to someone else at an advanced price. Do not sell the whole of any section to any one man. Divide every section into four or more parts and sell one quarter out of each section to some man who will make a farm of it. It will immediately be put into cultivation, and as soon as it is broken up and producing good crops which will make a showing of what it is capable of raising. The remainder portion of the section will be worth more than all that you now have is, and you will have in the bank the additional money realized by the sale of the first quarter section. Then sell the remaining quarters one at a time, as each quarter section of the block that is developed will greatly enhance the value of the remaining ones.

The City Election.

146 votes were polled which is about three-fourths of the total voting strength of the two sections within the incorporate limits.

There was no strictly "announced" candidates for any of the offices, but gradually public sentiment had gathered around two "made-up" tickets—one published in last week's News and the other published in The Daily Panhandle of recent date and known as the "Walker ticket."

The only ballots printed in this office were those headed "official ballot" and ordered by the county judge. These ballots had no printed names on them. The other ballots used at the polls had on them the printed "Walker ticket." This last ticket was elected. The official count stands as follows:

| | |
|-----------------|-----|
| For Mayor | |
| Jasper N. Haney | 75 |
| Geo. A. Brandon | 70 |
| For Marshal | |
| Brent Taylor | 88 |
| S. V. Gentry | 58 |
| For Aldermen | |
| D. A. Park | 141 |
| J. F. Smith | 137 |
| Geo. L. Abbott | 83 |
| T. H. Rowan | 83 |
| J. T. Service | 81 |
| R. W. O'Keefe | 75 |
| J. M. Black | 61 |
| R. G. Oldham | 59 |

The "scattering" vote is omitted.

In giving this account of the election The News does not desire to be understood as indicating any factions in town, for such, in so far as its knowledge goes, is not the case. Some of the aldermen elect were on both tickets. Not a single man of them wanted the office, or, if he did he failed to speak loud enough to be heard far. It was the natural ranging of public sentiment without any well defined issues unless, perhaps, it means that a majority of the voters fail to coincide with The News on what one citizen remarked was its "too conservative policy." At any rate the contest was conducted in a most friendly manner and The News man, although his "too much conservatism" is turned down for the time being, personally is glad of it, for there is a rough and rocky road for the mayor of any town to travel over if he does his full duty.

In an address last week at Ardmore, Gov. Jeff Davis of Arkansas declared that Bailey's usefulness in the Senate was impaired by reason of his services to corporations. There was confusion following the statement, and when it had quieted down he continued his speech with a discussion of trusts.—Clarendon Chronicle.

Gov. Davis is liable to get himself into trouble over this.

Election returns indicate the defeat of Hearst by a small plurality.

County Election Returns.

A total of 231 votes were polled in the county with two boxes, Park and Carter, to hear from. The different party votes are shown in the vote for Governor, as follows:

| | |
|------------------------------|-----|
| Thomas M. Campbell, (Dem.) | 191 |
| Carey A. Gray, (Rep.) | 14 |
| J. W. Pearson, (Pro.) | 4 |
| Geo. C. Edwards, (Socialist) | 2 |

COUNTY OFFICERS

| | |
|--------------------------------|-----|
| For County Judge— | |
| A. N. Henson. | 211 |
| For County Attorney— | |
| A. S. Rollins. | 214 |
| For County and District Clerk— | |
| J. A. Tate. | 215 |
| For Sheriff and Tax Collector— | |
| M. F. Slover. | 195 |
| For Tax Assessor— | |
| Joe Foster. | 212 |
| For County Treasurer— | |
| S. V. Wirt. | 207 |
| For Animal and Hide Inspector— | |
| U. S. Gober. | 146 |

These were the Democratic nominees and all were elected. There was no opposition except that Geo. L. Abbott, who was not a candidate, received 29 votes for sheriff. Mr. Gober ran behind the ticket for the reason that through an oversight his name was not printed on the ticket.

PRECINCT OFFICERS

The County Commissioners elect are as follows:

| | |

| M. S. Park | No. 4 |

A. E. Brown was elected Justice of the Peace in this precinct and John Knight and S. V. Gentry "tied" for Constable.

The esteemed Hereford Brand in its last week's number dips into politics deep enough to remark that the "Daily Panhandle and a few other lesser lights are wasting much valuable space" etc. "in their endeavors to place some blurs on the fair name of Senator Bailey." On the same line of reasoning if William J. Bryan is an honest man, this same Senator Bailey is wasting much valuable space and time in standing with Republican Secretary Root and his old time friend, Judge A. B. Parker, late Democratic nominee for President, in their very recent uncalled for, unwarranted and cowardly slanderous attacks on the Democratic nominee for Governor of New York.

"The King of the Cattle Ring" met with a cordial reception here on the night of Nov. 1. Almost everybody went. The Eiler company is composed of nice people and they give good value for the money. Another good thing about this company that is admired by the newspaper men and other folks too; for that matter, it sends a man round to pay its bills before the show begins.

Plains cotton this year according to reports so far with average of a bale to the acre and every 1500 pounds in the seed will make more than a 500-pound bale, which we consider a good showing. Cotton never sheds in this country, never quits growing until frosts stops it in October or November. The lint is fine and long, and the seed small and light. We need cotton growers to develop this industry. The stockfarmer—won't do it—he is not built that way.—Plainview Herald.

This ticket received indorsement at the polls, Saturday and until the general election in April next will constitute the government of Canyon City.

Personally the men are alright and in addition they have the capacity for the work before them.

It is no little thing or easy matter to put the incorporation harness on a people unused to it and to hold it there. If put on all at once they generally, as did Hereford, San Angelo and several other good Texas towns, buck out of it. To succeed you must lay on one strap at a time and be right easy about that.

There are also many other pitfalls to be guarded against in the new organization of a town such as the granting of electric lights, water franchises, telephone privileges etc. etc. There is a set of franchise grafters who make a speciality of newly organized towns—to take advantages of inexperience in city ways. These gentry manage to get in, generally on spacious promises, which they have no real intention of performing and then to be rid of them the town must buy their cinch on a franchise which they, upon these promises, have secured for naught.

The present Town Council, however, with Judge Haney, an old and experienced lawyer at its head, is, in the opinion of The News, fully capable of handling the situation in all of its details and to the town's advantage and the general welfare of all concerned. The News has faith in the council along these lines and desires to see its course such that it will find favor in the eyes of all the people so that when the election next April comes every member of it will be re-elected unanimously.

J. W. McClain has purchased a new buggy.

We think it would be advisable for the hardware dealers of Canyon to furnish a man to go out over the country with every stove they sell, to build fires in them the first time. An airtight heater was purchased last Saturday by one of our young men, carried home and set up but as he failed to get the fire to burn he sent immediately for a neighbor to come and build a fire in it. The name will not be given as he is on the matrimonial list—it would never do for the girls to know this, therefore we are trying to keep it a secret, tho' it sounds like "a bird in a gilded cage."

L. A. Pierce and C. A. Hitchcock have returned from Kansas City with good results from cattle shipments.

TASSIE.

I never took a newspaper that did not pay me more than I paid for it. One time an old friend of mine started a paper way down south and sent a copy to me, and I subscribed just to encourage him and after a while it published an order to sell a lot at public auction. So I inquired about the lot, and told a friend to run it up to \$50. He bid the lot off at \$38, and it sold in less than a month for \$100, so I made \$62 clear by taking the paper. My father told me that when he was a young man he saw a notice in a paper that a school teacher was wanted away off in a distant country, and he went and got the situation, and a little girl was sent to him, and after a while she grew up sweet and beautiful, and he married her. Now, if he had not taken that paper, what do you suppose would have become of me? I would have been some other fellow, or maybe I wouldn't have been at all.—Bill Arp.

If The Standard were to tell half the truth concerning the fine vegetables produced in Swisher County, there are lots of people who are not used to great things who would want to be shown. Last Monday Jno. T. Timmons brought to our office some very fine specimens for eye openers on the productiveness of the South Plains soil, among which were a turnip measuring 23 inches in circumference and weighing 4 lbs., and 4 ozs., a beet of the round variety measuring 27 inches in circumference and weighing 7 lbs., a beet of the long variety measuring 19 inches in circumference, 2 ft. long and weighing 7 lbs., and a compact cabbage head measuring 35 inches in circumference which we did not weigh. If you are not convinced of these facts, brother, just step around to The Standard office and see for yourself that we are not laboring under an optical illusion.—Tulia Standard

Senator Gorman.

(Published by Request.)

Now Gorman is dead and the newspapers have published the inventory of his estate. He went into the senate a poor man; he lived in a very expensive style; he had no visible income besides his salary; yet he died a millionaire. The schedule of his assets reveals the fact that he was financially interested in the tobacco trust, the national banking trust, the railroad system, the coal trust, the gas trust, the West Virginia branch of the oil trust and in a dozen other corporations. He also had on deposit with the Morton Trust company of New York City the neat sum of \$135,000, besides \$7,500 in a Washington bank. A life devoted to denouncing the Republican party, while aiding in the establishment of trusts and corporations, seems to have resulted in a financial success. What St. Peter remarked to him, when Gorman knocked at the golden gate has not, as yet, been published.—The Investigator.

The public has more interest in the punishment of an injury than he who suffers it.—Cato.

Canyon City—the place for a great city. Abundance of running water; natural drainage; located on the Santa Fe, now being made the trans-continental line from Chicago to California. The Santa Fe (Gulf line), is now building South from Canyon City. Randall, is the best county in the Panhandle. The general price of land is from \$7 to \$10 per acre. Property in town a specialty. Don't fail to see me.

Texas Farmers

Located in the Panhandle Country constitute a vast proportion of those who are out of debt, possess an abundance of all that is necessary to comfort and and easy hours, and own

BANK ACCOUNTS.

Those who are not so fortunate should profit by past experiences and recognize that these conditions are possible in

THE PANHANDLE

as to where else for the reason that no other section now offers REALLY HIGH CLASS LANDS AT LOW PRICES and that the Agricultural and Stock-farming possibilities of this section are the equal of, and in some respects better than three to five times higher priced property located elsewhere. In a word: Many Magnificent Opportunities are still open to those possessing but little money but prompt investigation and

QUICK ACTION

are advisable, as speculators have investigated and are fast purchasing with a knowledge of quickly developing opportunities to sell to others at greatly increased prices.
