

## RANDALL COUNTY SCHOOL GROWTH

### REPORT OF JUDGE HENSON HAS INTERESTING FIGURES.

#### For Eight Years Has Been Story of Steady Growth and Great Improvement in Schools.

Before leaving the office of County Judge and Superintendent of the County Schools, the News has asked Judge Henson for a summary of the work accomplished during his administration. The following report was given in part at the county teachers' institute held in Canyon during the first of September. Judge Henson has worked hard during his administration for the betterment of the county schools. He has always been awake to their needs and at every possible opportunity has made a great effort to raise the standard of the schools and to increase the efficiency of the county teachers.

In 1902, when Judge Henson first became ex-officio superintendent of the schools of the county, there were ten common school districts, with a scholastic population of 367. This year there are nineteen common school districts with twenty schools and one independent district (Canyon) with an aggregate scholastic population of 746, of which 344 are in the Canyon Independent District and 402 are in the common school districts.

In 1902 the average pay for country school teachers was \$33.33 per month. This year the average pay is \$56.25 per month.

When Judge Henson began his term of office one-half the teachers of the county held third grade certificates. This year there are no third grade certificates in the county.

Then the average length of the school term was 78 days, while last year it totalled 160 days.

Then the estimated value of all the school buildings was \$6,250, while today these values amount to \$21,300.

The amount of local taxes collected in rural districts for school purposes amounted to \$1,300. This year there is levied for the rural schools over \$8,000.

Three common school districts have issued bonds and built and furnished houses that would be a credit to any county, and quite a number of other districts have improved or enlarged their houses, or both, until today there are but few school houses in the county that are not reasonably comfortable and commodious.

The county institutes held during the term of Judge Henson have been a very successful feature of his work. They always inspired the teachers to better work and were a source of great information along pedagogic lines.

The county schools are in exceedingly good condition and under the administration of W. D. Scott promise to continue in their development.

Albert Taylor and his company were at the opera house last night and pleased their audience very much. Mr. Taylor has been all over the Southwest and is everywhere a very great favorite. Manager Thomas is to be congratulated in getting so good a company for his house.

## BAPTIST CHURCH ADDITION.

Building Will be Completed This Week Ready for Occupancy by Next Sunday.

The addition to the Baptist church will be completed this week. The work has progressed very rapidly and the Baptist people feel very well satisfied with the results. The church was in such condition that services could be held in the new part last Sunday. It was at first planned to put new seats in the addition, but chairs will be used instead. The pulpit has been moved to the north side of the building. This addition was very much needed and will be appreciated by the church and Sunday School. While of only a temporary nature the building looks very nice and when papered will be very comfortable until the new church is built.

### Infant Dies Sunday.

The month old baby of Elmer Prichard died at the parental home Sunday morning at 10 o'clock and was buried Monday. The little child had been very well until a few hours before its death. The many friends of Mr. and Mrs. Prichard extend to them their heartfelt sympathy in this sorrow.

### Ballard House Started.

Work has been started on the G. S. Ballard home on West Evelyn street. The house will be built of cement blocks. Work has been delayed the past ten days on account of a shortage of material, but it will commence again next Monday morning. The dimensions of the building will be 48x54, two full stories, have fourteen rooms with all modern conveniences. Beginning next Monday the work will be rushed to completion.

### League Officers Elected.

On last Sunday afternoon, October 16, 1910, at the Methodist church of this city the Junior Epworth League elected the following officers for the quarter:

President—Frank Shotwell.  
Vice President—Herbert Miller.  
Secretary—Zerah McReynolds.  
Treasurer—Hazel Park.  
Pianist—Zerah McReynolds.

### Mr. and Mrs. Lester Entertains.

Mr. and Mrs. L. T. Lester entertained the members of the Normal faculty and a number of the city friends at their home last Friday night. The chief entertainment of the evening was a trip abroad, led by Miss Blanche Lester. A beautiful picture was given to the winner in this contest, Miss Ransom, of the Normal faculty. The color scheme was old rose and white. Miss Mamie Conner presided at the punch bowl and Mrs. Cannon assisted in receiving and in serving the refreshments. Ice cream and cake were served as refreshments.

### The Eureka Glee Club.

The Eureka Glee Club gave an entertainment at the Shadowland Tuesday night before a very small audience. The program was very excellent and deserved better patronage than it received. The quartette was well balanced and gave some very beautiful numbers. The work on the chimes was very fine.

## GRAVEN MILL TO OPEN NEXT WEEK

### MACHINERY IS NOW PLACED READY FOR BUSINESS.

#### Delays Have Postponed Operations for Several Weeks—Much Wheat Ready for Grinding.

The Craven Milling Company will be open for business some time next week. The machinery has all arrived and is being put in place by the force. The work has been delayed several weeks on account of the machinery being lost in transit, but now that it is all here, the mill will soon be opened for business. The company has a large amount of wheat on hand ready for grinding when the machinery is placed. The engine will be in working condition by the end of this week.

James Black, who will have charge of the office work, is at the mill now opening up the books and getting the work in the office organized.

### NORMAL COLLEGE NOTES.

(Miss Grace Winkelman, Reporter)

The chapel exercises were conducted by Rev. Harder of the Baptist church Friday.

Two literary societies were organized by the girls Friday. The officers and names have not yet been chosen but the girls hope to have everything in good order by the last of this week.

Anna Lee Howren spent Friday and Sunday at her home in Amarillo.

Miss Lola Word of Canyon, was unable to be at school last week on account of sickness, but is able to be back again this week.

Rev. Hawkins of the Methodist church spoke at Chapel Saturday.

Miss Irene Franklin arrived Monday from Amarillo to enter the art department of the Normal.

The students met Saturday and selected Maroon and White for the Normal colors.

Miss May Cowling of Canyon was unable to attend school last week on account of serious illness of her sister.

Prof. Crawford spent Monday in Amarillo.

At a meeting of Girl's Athletic Association Monday it was decided to give an oyster supper for the purpose of raising funds to buy their athletic equipment. The supper will be held Saturday evening, Oct. 22, in the Thompson building just east of the First State Bank, from 5 to 8 o'clock. Everybody is cordially invited to be present to assist the girls in their undertaking.

Six new students registered Tuesday, making 181 in all up-to-date.

Al Liedtke, who had his middle finger taken off three weeks ago, was in a runaway last Saturday which injured the wounded hand quite badly. He held the lines in his good hand and was unable to hold himself in the buggy with the injured member. He was thrown out and the hand was badly injured.

An oyster supper will be given by the Girls' Athletic Association Saturday evening at the Thompson building east of the First State Bank from 5 to 8 o'clock.

## TRAINING SCHOOL SOON WILL BEGIN

### NORMAL STUDENTS WILL OBTAIN FIRST HAND KNOWLEDGE.

#### Prof. Lowry Tells of the Plans and Benefits in an Interesting Article.

The school board has decided to discontinue the use of the building near the depot, and to use instead two rooms in the Normal school building. Fearing that it would work a hardship upon many of the children in all of grades six and seven, were it required to go to the Normal building. It was decided to place half of these two grades there with Miss Edwards as the teacher, and half of the third and fourth grades with Miss Stafford as teacher. So it has been decided that all of those children in the 3rd, 4th, 6th and 7th grades who live east of the Presbyterian church may attend school in the Normal building. Now it is not the purpose of the school board nor any one concerned to force any one to the Normal building. Any child who does not want to go, or whose parents do not want him to go is at perfect liberty to go to the public school building. However the advantages at the Normal will be very strange if anyone is not anxious to place his children there. Some of the considerations are these: A new, clean, well ventilated and perfectly heated room; special instruction in drawing and in music; a good library of suitable books for children; a play room for bad weather; a model playground with modern apparatus; etc.

There is but one objection so far as I know to the arrangement: Some people are afraid that our practice teaching work will injure the children. This, of course, is due to the fact that the idea is new to them and they do not understand how the work is to be carried on. In the first place there will seldom if ever be more than one hour of practice teaching a day. The teacher will be in charge. Before anyone is allowed to teach he will be far better qualified to do the work than the average teacher; he will be specially prepared for the work he is assigned to do; he will have observed how the regular teacher handled the subject, and will prepare assignments and lessons for several days before he takes the class. When the class is ready to begin on some new division of their subject, and when the teacher and the supervisor are sure that the preparation is such as to insure successful teaching then the student is placed in charge of the class, in grammar say, every day for several weeks, just as it would be done under the departmental system. The regular teacher will always be present as will also the supervisor. Thus the child will get all the advantages of the departmental system with none of its disadvantages.

I cannot go further into detail as to how the work will be carried on, but that you may know how the work is valued in those places where people actually know about it let me give just a few facts. Miss Evans has had actual experience in three different training schools and I have had experience in one. In each of these four

## LAUNDRY WILL COME.

W. H. Clark, of Coleman, Wishes to Put in Plant—Will Form Company and Incorporate.

W. H. Clark, of Coleman, an experienced laundryman, is fixing to put in a first-class laundry in Canyon, capital stock \$4,000, provided he can get as much as \$1,500 in stock taken by Canyon citizens. The concern will be incorporated and will be of the capacity of \$800 or \$400 business per week. The plant he aims to install will be as good as any plant in West Texas and as complete, the exception possibly of Amarillo laundries.

Mr. Clark is an experienced laundryman and comes well recommended. He purposes to take the balance of the stock himself, to move here and to run the business himself. The people of Canyon ought to take the stock at once as he wishes to install the plant and begin business at once without any delay. Canyon needs a laundry very badly and the people should not pass this opportunity of getting a first-class man here. Laundries in this part of the country are paying from 20 to 30 per cent on the investment. Mr. Clark says he will employ as high as ten people, taking all but two or three from among our people.

### Randall County Lumber Co.

The F. W. Jeanes & Son lumber yard has been sold to the Randall County Lumber Company, possession being given the first of this week. J. H. Stephenson is the manager of the new firm. Mr. Stephenson is an experienced man in the lumber business.

Frank H. Leonard, C. S. B., of Brooklyn, N. Y., delivered a very interesting lecture on Christian Science at the Shadowland Friday night to a very large and attentive audience. Mr. Leonard is a very fluent speaker and pleased his hearers very much with the discourse.

schools there are many children (in two cases more than 200) on the waiting list, so anxious are the people there to get their children in the training school. In one of these where so many are anxious to get in a tuition is charged and no one is expected to send there unless he prefers doing so. Out of 81 state Normal schools examined for this purpose it was found that 73 had training schools much as we are proposing to have, and that in all but one there are more children who want to attend the training schools than can be accommodated. In a number of these schools a tuition is charged. (The Winona, Minn., Normal school charges \$6.00 per month tuition and still has more applicants than they can accommodate. These people know what a training school is. They certainly believe, and it is not mere theory, that a training school with practice teaching, four times as much as we contemplate going is not only a good thing, but that it is so desirable that they are willing to pay a high tuition rather than to send to the public schools. We believe—we know that the people of anyone are indeed fortunate if they have the opportunity of sending their children to the Normal building. The children there will have greater advantages than any other children in Texas. This is not a theory. It is not what we believe about it, nor what we hope for, but it is what we know must be true.

Ellsworth Lowry.

## BOARDING HOUSE RULES ARE MADE

### NORMAL FACULTY AND TOWN PEOPLE IN CONFERENCE.

#### Will Work Together for the Best Interests of the Student—Menu is Adopted.

At the college building last Monday afternoon a joint meeting between the faculty of the West Texas State Normal College and the citizens of the town—particularly those who were boarding the students of that institution—was held at which time various matters pertaining to the school, the students and the boarding facilities was in the nature of a mass meeting.

Mrs. M. D. Stewart was elected chairman and R. A. Terrill secretary of the meeting after which President R. B. Cousins of the college briefly outlined objects for which the meeting had been called. After some discussion, it was decided no definite set of rules could be adopted on account of various conditions but a series of suggestions were made by the citizens and a teachers committee and adopted by the meeting.

The question of meals was thoroughly discussed from most every point of view. A committee of members of the faculty submitted a tentative menu for a week which would serve as an outline as to what the faculty thought would make a desirable menu for students, the members of that committee being tendered a vote of thanks for their suggestions, by the meeting.

The suggestions made relative to general conditions, were as follows:

"Firmly believing that the general welfare of the students, the success of the institution and that, to insure satisfaction to the good people of Canyon who offer board and lodging to students, depends largely upon mutual agreement and co-operation, we the faculty offer the following suggestions:

"1. Home Life—The boarding places should, as far as possible, offer students an attractive home-life in the following sense of the word, conveniences, proper attention to the physical wants, and good ethical influences.

"2. Meals—Plain but wholesome and well prepared food should be served promptly at regular hours, breakfast not later than 7:30, noon meal not later than 1:30 and evening meal not later than 7 o'clock in the fall and winter and not later than 8 o'clock during the latter part of Spring and Summer. All students are expected to be present at the time set by the boarding house people for their meals.

"3. Screens—All openings in the house should be well screened and all precaution should be taken against the fly. The dining room and kitchen should be kept scrupulously clean and should be especially guarded against the fly.

"4. Premises—Special attention should be given to garbage and the cleanliness and disinfection of the premises.

"5. Modern conveniences.—All conveniences necessary for bodily cleanliness, such as ample supply of hot and cold water, bath tubs, sewerage, etc., should, as far as possible, be supplied.

Burns all the gases in coal which in soft coal amounts to more than half the fuel and which are wasted up the chimney with the ordinary under-draft stove. The two top drafts discharge highly heated air into the combustion chamber with a rotary motion, which mixes it with the rising gases more thoroughly than is possible with a single draft and these gases are thus oxidized and burned. The stove has a larger positive radiating surface than any other stove of the same diameter. Its handsome appearance with door surfaces milled air tight are additional points in its favor and are not found in any other hot blast. Avoid so-called air-tight having side feed doors, they never make good.

## Just a Little Conundrum

Why are burglars like our lumber?  
 Because they always go into the best of homes.

Not only do we sell the majority of lumber for the best homes all around here, but we get most of the bills for barns, granaries, and for all buildings where good, sound, dry material is required. People have learned that there is a lot of difference in the quality of lumber, and as we make quality our "long suit," particular buyers take no chances but buy what they need from us.

## ENEMIES OF DIRT

Have you ever stopped to think of the number of cases of **Typhoid fever** caused by the unsanitary condition of groceries?

### -- DIRT --

Dirt is a nice word for everything not clean, and we believe there is no better place to exercise the art of **Tidy** house keeping than in a grocery store—The very place you get everything practically that goes on your table. After the goods are delivered to your kitchen you as housewives put forth every effort possible to transform the raw material into a delicious dish ready to be served in your dining room. Is it not as essential or more so that the place from whence these goods came be sanitary and in fact so clean that when you walk in you would really have an appetite for something you see?

For these reasons we are making a special effort to keep our place of business not only appetizing but so sanitary that there will be no possible chance for unclean conditions to exist.

Call in and see us, whether you really want to buy or not. We will always be glad to see you and will make your call pleasant as well as profitable.

## Special 20 per cent. Discount Sale on Clothing

For seven days beginning Saturday, Oct 22nd., and ending Saturday, Oct. 29th., we are going to make a discount of 20 per cent. on all men's and boys' suits. This does not mean that we have a few odds and ends to sell at a reduction, but we have just secured a new shipment of Kirschbaum's suits, men's and young men's styles, these go at the same discount. This means:

All our \$25.00 suits go at <b>\$20.00</b>	All \$7.50 Boys knee suits at <b>\$6.00</b>
All our <del>\$20.00</del> suits go at <b>\$16.00</b>	All <del>\$6.00</del> Boys knee suits at <b>\$5.00</b>
All our \$15.00 suits go at <b>\$12.00</b>	All \$5.00 Boys knee suits at <b>\$4.00</b>
All our \$10.00 suits go at <b>\$ 8.00</b>	All \$4.00 Boys knee suits at <b>\$3.20</b>

We could not well afford to make this big reduction at this time, had we not bought a greater part of our clothing at a good discount, and wish to just turn them into cash. We have many bargains in other lines for our customers and we feel that our friends appreciate our efforts to give them good values at reasonable prices, as shown by the crowds that visit our store daily. We certainly appreciate your business and will try to merit your confidence by honest and courteous treatment. We cannot give premium tickets with our clothing sales during this great reduction sale, but will with all other purchases. Thanking all for this month's liberal business for the past 30 days, we are,

Yours Respectfully,

### STEAM LAUNDRY WILL OPEN.

Building to be on Electric Light Plant Lot—Steam From the Light Plant to be Used.

Tom L. Miller, of this city, and J. N. Vernon, of the Troy Laundry in Amarillo, will soon start a steam laundry in Canyon. Mr. Vernon was in the city last week when final arrangements were made regarding the enterprise. A building will be erected on the lot with the electric light plant and steam from the light plant will be used in the laundry. Mr. Miller says that most of the machinery has already been bought and that before many weeks they expect to be running. Mr. Vernon, the other man of the firm, is an experienced laundryman, having been in the business several years, and expects to put in an up-to-date, first-class laundry.

### HIGH SCHOOL NOTES.

(By Lilburn E. Thompson, Reporter.)

The Mother's Club met at the West Texas State Normal building last Monday evening. A constitution was adopted and several new members were enrolled.

The High school ball team suffered a defeat from the Normal team last Monday.

Prof. Coss made a business trip to Amarillo Wednesday. Mrs. Price had charge of the seventh grade while he was absent.

The Philomathian Literary society met in their first meeting last Friday night. Beside adopting a constitution and attending to other society business a program was rendered in which every one took part.

The High school pupils received their grade cards last Friday. Very few were satisfied with their grades which is a good sign that there will be some hard work next month.

Hudson Prichard, who has been ill for the past two weeks from typhoid fever is slowly improving and it is hoped that he will soon be in school again.

There is one new pupil in Miss Cund's room this week.

Ernest Smith an eighth grade pupil, who has been quite ill is improving.

Prof. Lowry taught the eighth and ninth grade algebra classes last Monday afternoon.

### Ralph Items.

A cold wave today, overcoats are seen on all.

Some of the farmers are sowing wheat, while others are still preparing their land and some are waiting for another rain.

A nice rain fell here the latter part of last week which was greatly appreciated by all.

SENATOR DOLLIVER DEAD.

Senator J. P. Dolliver, of Iowa, died at his home last Saturday of heart failure. With the passing of Senator Dolliver the progressive wing of the Republican party loses one of the strongest and ablest men of the nation. While Senator Dolliver was not an instigator of the progressive movement, he was early affiliated with the progressive sentiment and it was by him that some of the strongest arguments for this movement were put forth. Few men have risen faster in life than has Senator Dolliver. A few years ago, a country lawyer, he attracted attention by his eloquence in debate. Entering politics, he was sent to the United States congress where he made a brilliant record, and on the death of Senator Gear was appointed to fill the vacancy in the senate. Since that time he has steadily risen in influence. Twice he was the choice of the Republican party for vice president, but each time declining the nomination, choosing to remain in the senate. In the last session of congress, he was one of the eight Republicans who fought the tariff to a bitter end and voted against the bill. He was the acknowledged leader in debate on the floor of the senate.

The private life of Senator Dolliver was beyond reproach. But few statesmen have escaped the pen of satire of sensational magazine writers and Senator Dolliver was one of these. He was a leader in the Methodist Episcopal church and during the last General Conference at Baltimore divided his time between his duties at Washington and the sessions at the conference, where many of his suggestions were accepted.

In the death of Senator Dolliver the progressives lose one of their ablest leaders, the senate loses its most eloquent and forcible speaker, and the people of these United States loses one of their staunchest friends.

THE CHICKEN ORDINANCE.

The News was complimented last week for calling attention to the fact that there was a chicken ordinance in this town. This man stated that he had sown between \$30 and \$40 worth of blue grass on his lawn and had spent many days of hard work to get the grass to grow with a result that one of his neighbor's chickens came over and destroyed the whole lawn. Others have reported large beds of fine flowers as having been ruined by the chickens of careless neighbors.

It is time something was done with these chickens. If the citizens will not keep their chickens at home, they should be lawful prey for anybody's table. Nothing can be more vexing for a man than to spend time and money to beautify his home and then have the whole thing destroyed by his neighbor's chickens.

The ordinance provides for a \$10 fine for every person letting his chickens run at large. If he is not reported and fined, it is simply because his neighbor doesn't wish to make trouble, not because the offender does not deserve the fine. Chickens at large have been declared by the courts to be lawful prey and if everybody in Canyon who has been bothered will have chickens for dinner next Sunday, it

may do much to remedy the trouble. If you have been feeding your neighbor's chickens on good blue grass and flowers or vegetables, you are entitled to a chicken fry every day in the week and two on Sunday.

Report from the comptroller's office shows that there is on deposit in the national banks in Texas \$152,987,897.01 and \$42,650,954.78 in the state and private banks and trust companies. This makes a total deposit in Texas of \$195,638,851.77.

Postmaster General Hitchcock thinks it is probable that by the end of the fiscal year the postoffice department will be self-sustaining and that one-cent postage is now in sight as a practical business proposition.

It would be a wise thing to take a careful examination of the chimneys before cold weather comes and hot fires will be necessary. A little precaution may save many homes in our city this winter.

One business man told us the other day that for the first time in years their cash business had been greater than the credit business. Pretty good index of the prosperous condition of the country.

Bloodless auto racing is a thing of the past—that is, if there was really a time when such a thing ever did happen.

Wheat sowing time is again upon the farmers, and they are preparing a lot of land this year for that product.

Says an exchange: Colonel Bryan will remove his "bolt factory" to Texas for the winter.

Wonder what the Mexicans think of their "republic?"

NEW YORK

**T**HERE is invariably one argument which convinces. It is so strong and so timely and so truthful that nothing can prevail against it. To-day an argument founded on fact will withstand almost any rebuttal. In politics or in the general workaday life, it is only the best that finally comes out "atop."

Benjamin Clothes have maintained their standing because no argument could prevail against them. Nearly forty years ago, when the first Benjamin suit was made, every feature was as good and dependable as it possibly could be—the style was authentic, then, just as it is now. New York has ever been the starting place for men's fashions just as it is to-day—it has ever been the home of expert tailors, just as it is to-day.

Benjamin Clothes are a standing argument in favor of quality. Their style, cleverness and value interest every man who cares to dress well and dares to seek quality at a moderate price.

We have purchased the grocery store on the east side from Hampton & Armstrong and will conduct the same along the lines of the former owners. This store has always maintained a high reputation for the excellency of its stock, and we hope to always maintain this high standard. It is our plan to soon increase the stock very materially and will be able to furnish you the best groceries to be obtained in the Panhandle. We will strive to keep everything that can be expected of a first-class grocery, and above all things, we assure you that our stock will be absolutely fresh and of the finest quality on the market. Call and inspect, you will be convinced of our statements.

### Very Successful Box Social.

A very successful box social was enjoyed Saturday night at the Wilson school house, seven miles west of town, by a very large crowd. A number from Canyon were in attendance, Judge Henson and W. J. Flesher appearing on the program and W. P. Garner assisting in the music. About twenty boxes in all were sold, none selling for less than \$1.50 and many going to \$2.50 and higher.

Music was rendered by Mrs. Simms, guitar, John Turner and W. L. Garner, violins, and M. P. Garner starred at the organ. No classical music was indulged in, but those old soul-stirring pieces were played with a vim that would start any sanctified foot to shaking.

Two voting contests were

held, one for the most popular young lady in the community, which was won by Miss Edna O'Bryan, the teacher of the school, and the other for the laziest man. W. L. Garner was the winner in the latter contest.

The social was a very enjoyable affair and netted for the school, \$80 with which to buy library books.

**DON'T EXPERIMENT.**

You Will Make No Mistake if You Follow This Advice.

Never neglect your kidneys. If you have pain in the back, urinary disorders, dizziness and nervousness, it's time to act and no time to experiment. These are all symptoms of kidney trouble, and you should seek a remedy which is known to cure the kidneys.

Doan's Kidney Pills is the remedy to use. No need to experiment. It has cured many stubborn cases in this vicinity.

Can Canyon residents demand further proof than that contained in the following testimonial? "Mrs. M. Beebe, 901 S. Lincoln St., Amarillo, Texas, says: "I tried many remedies in an effort to obtain relief from kidney and bladder trouble, but to no avail. For a long time I suffered severely from pains through my loins and my back ached almost constantly. My kidneys were also disordered and my health was greatly run down. When Doan's Kidney Pills were brought to my attention, I procured a box and their use was followed by great benefit. I can recommend Doan's Kidney Pills as an excellent preparation for kidney disorders."

**Resolutions.**

Canyon Chapter No. 105, Order of Eastern Star to the Worthy Matron, officers and members:

Your committee appointed to draft resolutions on the death of Sister Lizzie Howell, respectfully submit the following:

On September 19 the spirit of Sister Howell left its tenement of clay and winged its flight to a better world.

Sister Howell was born in Bradley county, Tenn., on June 29, 1858. She was the surviving wife of one of our departed brothers, Dr. J. L. Howell, and leaves surviving her two sons, J. L. Howell of Ft. Worth and Harry Howell of this place. On Sept. 21 the body of our beloved sister, accompanied by this chapter and with its usual ceremonies was laid to rest by the side of her husband in Dreamland cemetery.

Sister Howell was one of the leading members of our chapter. As a Past Worthy Matron and in many other capacities she rendered signal services and her ever ready helps at our meetings, which she always found time to attend, will always be held in grateful remembrance. Indeed we may truly say of this our departed sister that her walk in life—in the church, in this chapter and in family and social affairs, was up to the highest and best standards. To these high ideals Sister Howell gave her best abilities, mentally, morally and physically. What more can mortal do?

"Sleep on, dear sister, such lives as thine

Have not been lived in vain,  
But shed an influence rare, divine,  
On lives that here remain."

Therefore, be it resolved by this chapter that this memoir of our departed sister be spread upon our minutes, a page of which is hereby ordered to be suitably inscribed and dedicated to her memory. That our chapter-room display its usual tributes of respect and love for this our sister who has been summoned from her labors. That a copy of this memoir be furnished the family of the deceased and that our secretary request our county paper to publish the same.

Fraternally submitted,  
KATE G. STEWART,  
BULA M. BURROW,  
L. S. CARTER.

Times are so bad it makes me sad  
To think what all I have to get.  
Sometimes it almost drives me mad  
To keep the pace that livin's set.

Seems that everything's against me;  
- Didn't raise no corn; hardly any wheat;  
And what I buy is so awful high  
It's mighty hard to make ends meet.

Coal's out of sight; hens-quit laying;  
Have to quit eatin' bacon soon:  
And beef—I heard 'em saying  
The ole cow's jumped over the moon.

Tell you, I'd be in a sorry plight,  
I mean about the things I eat,  
If I couldn't phone to thirty-one;  
Their goods and prices can't be beat.

You ought to try 'em onct.

### Well Known Man Dead.

R. L. Greer informed the News Saturday that Capt. W. Boon Major, his father-in-law, had died last week at his home in Sayre, Missouri. Captain Major had spent the summer at the Greer home and had only returned to Missouri a short time ago. Mrs. Greer had accompanied him home and was there when the end came.

Captain Major was born in Kentucky and was 85 years old at his death. He has been in two wars—the Mexican and Civil. In the Civil war he served on the Southern side, acting as captain and quartermaster. He was on the plains very early, being the first agent of Majors Waddle and Russell in the Santa Fe business. From the plains Mr. Major enlisted in the Southern army. The record that he leaves behind is a very enviable one indeed. His was a life of business and activity.

The remains were laid to rest at Oakgrove cemetery, Mo., beside the body of his wife, who preceded him some years ago.

### Officers Elected.

At the regular class exercises Sunday morning, officers for the year were elected by the members of the Young People's class of the Presbyterian church. The following were selected:

Robt. Campbell, President.  
B. R. Burrows, Secretary-Treasurer.

The class has grown so large that meetings are held at the C. R. Burrows home in order to accommodate the large numbers.

### Pleasantview Items.

A cold wave struck this place Wednesday morning and makes a person feel like getting under the stove.

Harvesting is about all over, frost staying off and letting all crops mature.

There were three more new pupils added to our school Monday.

The health of the community is very good.

Miss Grace Wilson, we are glad to report, is improving nicely.

Literary exercises will be held by the school children at Pleasantview Friday afternoon. All patrons are invited to be present if possible.

On account of bad weather, Mr. Schnelle has postponed his sale until Oct. 27, look for new sale bills of this sale. BOOSTER.

### Southwest Neighborly Notes.

Miss Gertrude Butler spent Saturday and Sunday at Amarillo.

Willie, Albert and Fred Saltzman left Friday for Kansas City.

A house party was given at the home of Mr. and Mrs. Henry Burtz Thursday evening. Everybody enjoyed themselves very much.

Misses Mable, Otto and Julia Frary did shopping in Canyon Saturday.

Mr. and Mrs. Clyde McElroy were Canyon visitors Saturday.

Several of this locality attended the dance given at the home of Mr. and Mrs. Keenan Friday evening.

Mr. and Mrs. Pete Myers spent Saturday and Sunday with Mr. and Mrs. Gamble of Canyon.

Mr. and Mrs. Leavitt were Canyon callers Saturday.

Mr. and Mrs. Cornwell and Mr. and Mrs. James Leavitt and John Turner, of Umbarger, spent Sunday evening with Mr. and Mrs. Burtz.

Mr. A. Otto was in Canyon on business one day last week.

Mrs. Thresea-Saltzman did shopping in Canyon Friday.

# The Panhandle Invites Inspection.

She leads the great Southwest in the richness of her productions. That she has created a stir in the agricultural sections of the north and middle west, is evidenced by the gathering together of the banking interests of the older states, to combat the tide of immigration which is steadily coming this way. A visit to Canyon City and surrounding territory will convince you that the loudly proclaimed stories of drought are without foundation. Our hundreds of acres of Milo Maize and Kaffir Corn, just now entering the maturing stage, are a complete refutation of the drought stories. The market quotations of Indian corn compared with the quotations on Kaffir and Maize show that the last two named command the greater price.

There is no country that is better equipped naturally for the production of broom corn, than

in the Panhandle. Professor Shaw, of the Wisconsin Agricultural College, makes the unqualified statement that any land which will successfully produce broom corn is worth two hundred dollars per acre.

As a stock raising and feeding country the Panhandle is not surpassed; the cool, pleasant summer, free from the tormenting fly, and the mild winters, full of sunshine, make it an ideal location for both the raising and finishing of all kinds of stock.

The production of all fruits peculiar to the temperate zone is bountiful and the quality is of the best. All kinds of vegetables are most successfully grown here, and melons attain prodigious size and are of the most delicious flavor.

Come and Investigate Our Statements.
