# Hello, Neighbor

You fellers out on the farm—we are in a tight spot if you don't come through. Henry Stalcup said that he expects his ad in this farm machinery put in shape now to bring him at least \$300 worth of cash repair work. Well, if you don't have the cash, better have the work done on promise-to-pay so that Henry will not lose his be-lief in the value of advertising.

And that is not saying half of it And that is not saying half of it for Ramey and Harmon are urging the same thing in this issue. Sure enough, Farmers, even Uncle Sam wants to know how many parts you will need and what shape your implements are in for the coming farming season. Man, it is part of the Defense Effort—and we do not want to be caught napping as was the case at Pearl Harbor.

The correspondents sending rews with regularity each to The News deserve more credit than we have deserve more credit than we have given them. They are not paid for their services, but conscientiously try to serve their communities each week by sending in items for publication which will be of general interest. The Editor is not personally acquainted with all the companity correspendents, but last week three chanced to come this way. Mrs. Fate Shannan is serving the Bethel community, Mrs. Sid Sheffy writes the Flagg news and Mrs. Joe Warren reports the rews from Nazareth. Mrs. Ullman Hunter is reporting at Jumbo and these as well as the other correspondents are doing a splendid job of reporting. Help your local community reporter by giving the news of any out-of-town guests and out-of-town visiting, won't you?

J. C. Grimes, district by Scout executive, was principal speaker at the Tuesday meeting of the Lions Club. He gave a general summary of the beginning of Scout work in the United States, and highly complimented the local Boy Scouts on achieving a high rating reached by only three other troops in this district. The local scouts will be presented a plaque at a meeting in Lubbock Hotel next Tuesday.

Scoutmaster C. A. Farley gave Lions Club members a brief summary of the achievements of the local troop during the past year.

Supt. R. A. McCollum paid the Boy Scouts the highest compliment they have yet received at the luncheon when he stated: "The Boy Scouts are largely responsible for the noticeable lack of drinking and smoking among boys in Dimmitt and this county. And it is the Boy Scout influence, I believe, responsible for the keen interest of boys of Castro County in the various sports. Even outsiders have commented to me on these point."

The Boy Scouts of the local troop are taking up metals and paper, and will sell the same from time to time when they secure large enough quantities. Scouts have been loaned the use of Dr. Miller's building next to the Dimmitt Bak'ry in which the best happer until they have opportunity to ship it. Citizens of the county wishing to help the boys with the gathering of paper and metals may leave same at the building.

time of which is a secret, and also
a Court of Honor.

The Keynote of this year's observance is "Strong—For America." The four points of emphasis or 1942 are Strong in Leaders, Strong in Skill, Strong in Will, and Strong in Numbers.

### LUBBOCK MEETING

The 16th annual meeting of the South Plains Council of the Boy Scouts of America will be held at Lubbock, at Hotel Lubbock, Tuesday, Feb. 3, with Gerald C. Mann, Texas Attorney General, as speak-er. Mann is a former Boy Scout

and an inspiring speaker.
All of Dimmitt Scouters, Cubbers, contributors to the Boy Scout Sustaining Club and fathers of Scouts and wives of all are urged to attend. A banner is awarded to the town having the best attendance based on the number of peo-ple attending from the town, miles traveled and the population of the town. Dimmit has ranked high in

this contest in previous years.

The banquet which will be held at 7:00 p. m. is of special interest to Dimmitt this year since Troop 67 will be presented a plaque for its achievements during 1941. Banquet tickets may be secured for

The boys were considered just a shade "tought" by the village citizens—but all went to school and finished high school (except those still attending). Then came the draft and two of same family were called and are in a far-away island fighting the Japs.

One morning the commanding officer gave orders for one member of above mentioned family to go out on early guard duty. He picked a place on a lofty and rocky location overlooking a revene to watch for the "squint eyes." He set up his machine gun single-handed.

# REPAIR YOUR FARM MACHINERY NOW!

### DEPARTMENT OF AGRILCULTURE

Office of Secretary WASHINGTON, D. C.

October 23, 1941

### Repair Your Farm Machinery Now

A Message to the Farmers of America! The year 1942 will be a critical one for farmers. Prepare for it by repairing your farm machinery now. The Food for Freedom program calls for a record farm production.

At the same time defense needs will limit available farm labor. Farmers who are unable to get enough labor will have to rely more and more upon machinery, but the defense program will mean much less new farm machinery in 1942. New farm machinery requires steel and other metals, and metals are a prime need in the defense program. You can help your country and yourself by repairing your old machinery now rather than attempting to get new machinery next year.

provide as much steel and other metals as may be needed for all necessary repairs for farm machinery in 1942. To be sure of a supply of necessary parts, manufacturers need to know how much will be required. The only way to be sure of repair parts is to order them immediately. Failure to make repairs now may mean a crop loss later. Check over your old machinery.

Order necessary parts from your dealer.

If parts cannot be obtained, notify your County U. S. D. A.

Defense Board. In many areas, county agents and vocational agricultural teachers are arranging for instruction in farm machinery repair. You may wish to take advantage of such instruction or to have others in your family do so. Make your old farm machinery and equipment do another year by repairing it now.

Check over your tractor now. Repair work done now even though minor may need serious trouble from developing later. It is obvious that it will prolong the life and the effectiveness of your machinery. Remember, the Government advises you to order spare parts now and make sure that every-thing is shipshape.

## How to become A SKILLED® DRIVER

By RAY W. SHERMAN Courtesy of the FORD GOOD DRIVERS LEAGUE

HOLDING THE WHEEL Your left hand should be above the center and your right hand just the center and your right hand just below the center, or in other words, like the position of the hands on s clock at 10:20. This position gives you the best control—it enables you to put your arms, shoulders and all your strength into steering if you have to.

have to.

A hand at the bottom of the wheel has no power. Try it and see! With today's good roads, many drivers forget the importance of gripping the wheel correctly and let their hands sort of lie in their laps while the cars roll. But it's a dangerous habit. A tire can blow. In that case you've got to fight the wheel, whereas if you were in the right position, all you'd need to do would be to tighten your grip and ride it out.
