Public School Notes.

Dr. Ingham has kindly consented to take charge of music for the commencement sermon.

Misses Anita Garrett and Sadie Winkelman visited classes Friday evening. The reporter requests that they make their visits more frequent as their assistance is a great aid in getting out the report.

Miss Wanda McClure was unable to attend school the first of the week on account of sickness.

Lilburn Thompson took the examination for a teacher's certificate last Friday and Saturday. Archie Key taught his classes during his absence.

Rev. Blankenship from Ken-

tucky conducted the chapel exercises Monday. He gave us a very good talk on the importance of physical culture.

Bro. Hawkins of Canadian visited the school Monday.

The Seniors and Juniors were entertained at the hospitable home of Mr. and Mrs. W. J. Flesher last Friday evening. The chief feature of the entertainment were the games such as drawing contests, find the bird's eye blindfolded, and many others. Cream and cake were served. After spending a very pleasant evening, the guests departed at a late hour.

Miss Jessie Kreger closed a very successful term of school at Fairview Friday. Dinner was served on the grounds and the afternoon was spent in baseball and other amusements.

W. B. Walters was a business caller in Canyon Monday.

J. T. Wesley is attending court at Canyon this week.

The farmers are all busy planting row crops. Some of the wheat is beginning to head. Most of it is a good stand which promises a good crop as some of it has already formed heads 4 or 5 inches long. Oats also promises a bountiful crop as some of it is heading.

A large number of young folks enjoyed themselves at a croquet party at Jim Wesley's Saturday night.

J. A. Curry made a trip to Canyon Monday.

Pleasantview Notes.

Such fine weather as we are having is just what we want, so we can get caught up with the weeds and our work.

Planting is progressing nicely and the first planting is coming up and is a good stand.

Everyone is harrowing their oats thinking it will thin out the weeds and help to hold the moisture.

Like a bad dollar they will come back. Frank Crowley returned home from Iowa last Friday where he recently went. He got a school and began teaching at once but the longing for Ma and the Panhandle was more than he could stand.

A social party was given at Elmar Crowleys Saturday night which was well attended and all enjoyed a good time.

Mr. Wagone complains of his seed oats not being good. One sack would be good and the next bad consequently his field is streaked. He will farm the old land and John Langmans also.

There is the largest crop of colts here that I ever saw in one neighborhood and not one has been lost. Booster.

Wayside Items.

We regret to hear of the illness of Mrs. Susie McGehee. She is confined to her room with rheumatism in back and hips. Mrs. Levina McGehee has had something like the same trouble.

Born—To W. H. Hamblen and wife, a daughter on May 9. Both mother and babe are doing well.

Preparations are being made this week for an interesting program at Beula Sunday commemorating Mother's Day. Rev. I. A. Smith will fill his appointment that day.

Considerable complaint is being heard of the prevalence of weeds in the wheat and oats, Russian thistle especially being plentiful. Some farmers are pulling them out by hand, others are chopping them out with a hoe, either of which is a tedious undertaking.

Farm work is progressing nicely, the different crops are being planted which will make the Panhandle a very inviting place to look upon.

Quite a number of our citizens have been called to Canyon as witnesses in court this week.

Among them are W. T. Helms and wife, Mrs. G. W. Mayo, D. Hamblen and wife, Mrs. M. B. Wilson and son, Enoch, I. A. Holabough, wife and daughter. Grace Sluder accompanied Mr. Helm's party and will be with Mrs. I. C. Jenkins a few weeks.

THOMSON'S GLOVE-FITTING

is a name that MEANS SOMETHING. It means something because every section and every gore of every corset we have made for more than half a century has been carefully designed and as carefully designed and as carefully put together to FIT THE FIGURE LIKE A GLOVE.

When these first American made corsets were introduced to the public in the late fifties, they were given the name of "GLOVE-FITTING," because of the original glove-making ideas embodied in their designing. The name fitted the corset because the corset fitted the figure, and both achieved immediate success because the object of perfect style and PERFECT COMFORT TO THE WEARER were accomplished.

Those of you whose memory can hark back twenty, thirty, forty or fifty years, will note that THOMSON'S "GLOVE-FITTING" is the only corset name that has lived through three generations, gaining popularity with its years. It is

A NAME THAT HAS BEEN FIRST SINCE THE FIRST

because it is a name with meaning—a name that tells its own story—a name that every woman can understand.

This season's models excel all previous successes—the workmanship is the same that has stood pre-eminent for more than 50 years.

We shall be pleased to answer inquiries and supply any information that will assist in the selection of the model best suited to the figure.

Peanuts Profitable Crop.

Plainview, Tex., Apr. 20.—Sam Howard, who lives seven miles southwest of Plainview planted one acre in peanuts last year and after properly cultivating, raised 55 bushels of peanuts. He sold every bushel for \$1.25 per bushel, which brought \$68.75. He also planted three acres and gathered 30 bushels of beans off the three acres. He sold the beans at \$3.00 per bushel, thus bringing him \$90. Off of the four acres of peanuts and beans he made \$158.75. And Mr. Howard found both peanuts and beans very easy to sell for this good price.

Any farmer can make money on the plains with peanuts, whether dry or wet year. Twenty acres bringing in \$68.75 per acre would look good to anyone.

Peanuts are fast gaining in favor as a commercial product and the small expense and amount of trouble that the growing of this vegetable entails is causing it to gain favor with the truck growers of this year. It is estimated that for each \$1000 worth of nuts, there is at least \$1000 worth of hay, and one county alone in South Texas this year produced and shipped \$35,000 worth of nuts, which of course did not include the portion held out for seed, hay, etc.

Broom Corn in Panhandle.

The big broom corn brokers of Illinois are looking to Kansas, Oklahoma and the Panhandle of Texas for the future supply of broom corn.

They declare that the days of Illinois supremacy in this product is at an end. For the past twenty years Mattoon, Ill., has been the broom corn center, and Coles county, Ill. has raised more broom corn than any similar area in the world. But the farmers have banded together and agreed not to raise broom corn for less than \$120 per ton guaranteed in advance. W. M. Checkley, a prominent broker of Mattoon, replied to their threat as follows: "If you cannot raise broom corn for less than \$120 a ton, you had better quit because the farmers in Kansas, Oklahoma and Texas can raise it for less than \$100 a ton. The land in those states can be bought for about one-fourth of the value of Illinois land. Labor is cheaper and market conditions are becoming equally good. In my opinion, Illinois must cease to raise broom corn, for it will no longer pay."—Dalhart Texan.

COMPOUND CALLOUSES

Tells Splendid Cure for Them and All Foot Troubles.

A compound callous is the secondary stage when it grows inward and presses on the nerves, causing intense pain. Callouses never cure themselves but always get worse, sometimes irritating the whole nervous system. The following is a most effective and speedy cure "Dissolve two tablespoonsful of Calocide in a basin of hot water. Soak the feet in this for full fifteen minutes, gently massaging the sore parts. (Less time will not give the desired results.) The soreness will disappear immediately and the callous can be easily peeled off. Repeat this for several nights. A little olive oil rubbed into skin is very beneficial."

This Calocide is a very remarkable preparation for all foot ailments. Bunions, corns and ingrowing nails get instant relief and are soon cured. Bad smelling and sore feet need but a few treatments. Calocide is no longer confined to doctors' use. Any druggist has it in stock or will quickly get it from his wholesale house. A twenty-five cent package is usually enough to put the worst feet in fine condition. It will prove a blessing to persons who have been vainly trying ineffectual tablets and foot powders.

NEW PROCESS GASOLINE STOVES

It is time that you were now looking after a gasoline stove for your summer's cooking. A gasoline stove, will not only save you the price of itself in fuel during the summer, but you are also always assured of a quick, hot fire in a few seconds at any time of the day or night, and your house is not heated as in case of a range.

The New Process is the acknowledged leader of gasoline stoves on the market today. Here are its points of superiority over other stoves sold:

Tank: The tank is solid brass, making it absolutely safe. In addition to this the tank must be removed in order to fill it with gasoline, and thus there is no danger from explosion.

Overflow Pan: This pan catches all overflow from letting vessels boil over. It is easily removed, and quickly cleaned. You don't have to scrub for hours to clean up an overflow.

Oven: In the oven there is an extra large adjustable burner which makes it exceptionally adapted for baking, roasting and baking biscuits. Besides there is a good warming oven on the large stoves.

Burner: This burner is absolutely safe. The oil drips in plain sight from the tank into a wire gauze and passes to the burner in form of gas.

Sub-Burner: If the wind blows the fire out, there is no danger of explosion, as the sub-burner starts at once, and consumes all the gas. In addition to this, there is a tube which catches all water that may be in the gasoline, and makes your gas absolutely pure, insuring good service.

Come and See these Stoves before
Buying. The Price is Right.

Short Gap Remains.

We are reliably informed that up to Wednesday night, four miles of steel was to be laid before the Santa Fe will have completed laying the steel between Coleman and Lubbock. The gap yet to be connected up will be completed by or before the end of next week. The big bridge across the Brazos has been completed, and ere long train service will be inaugurated. It has been stated in these columns before, through train service will be started from Coleman to Sweetwater and thence to Lubbock, Plainview and Canyon City and on to Clovis, N. M. This route will be made until the completion of the line from Lubbock to Texico direct.—Sweetwater Reporter.

THE PARAGRAPHER.

Have you tried flour from Eagle Mill? It is the best.

May is getting along pretty well now without the hot water bottle.

It doesn't seem as if Diaz is as tired of the job as the job is tired of him.

Those Chicago boosters found out there was some place besides Chicago.

Under the new administration Canyon is going to have a very efficient city government.

Have you seen the second number of the Panhandle Magazine? There are only a few left in town.

Canyon's new city council is doing things. They are a good bunch of men, and are doing good work for the city.

Some day Andy Carnegie may see the advisability of establishing a hero fund for legislators who refuse to be bribed.

Senator W. A. Johnson's paper, the Hall County Herald, was twenty years old last week. The Herald is one of the best newspapers on our exchange.

The school election Saturday was very quiet. More interest should be taken in such elections where the good of the community is so greatly involved.

Canyon has never been much of a city to brag, but has worked quietly and usually lands big game. Some of our neighbors do less work, and more bragging than ought to be found in forty towns.

The Panhandle will soon be the greatest dairying country in the United States. The grass is

always good, it takes little roughness, and kafir and maize are the best feed for dairy cows that can be obtained.

An Iowa editor was asked "Do hogs pay?" He replied, "A good many do not; they take the paper several years and then have the postmaster send it back marked 'refused' or 'gone West.'"

A merchant says that times are too hard to advertise. Now is just the time for advertising. The merchant who doesn't go after his share of the business will not get it. What business there is will go to the merchants who carry on effective newspaper advertising.

The anti-prohibition league is trying to get advertisements in every newspaper in the state. The News has received a request for rates, and if we were willing to set a price, it would no doubt be accepted no matter how high we placed it. This faction has money and is using it lavishly.

The harem skirt may look somewhat odd, but it is the most sanitary wearing apparel woman ever invented. Skirts sweep the sidewalks picking up all the filth and germs they touch. The women should be encouraged rather than discouraged in wearing this kind of skirt.

Labor leaders are doing very wrong in defending the McNamarias and McManigal in the way they are. Labor must not place judgment before the just trial, and claim that it is a put-up job. In the whole history of unions this has been the most objectionable feature, and the leaders of today must respect the rights of law and order even if their men are implicated.

Will Get Sheep.

M. A. Bingaman, four miles west of the city, made the News office a pleasant call Monday and ordered the News to come to him during the next year. Mr. Bingaman came here from Nebraska and says he likes it fine. He is planting a large amount of millet, sorghum, kafir this spring, and will ship in a large number of sheep this fall. Mr. Bingaman believes that sheep will do fine in this country and that more farmers should handle them.

CHICAGOANS SHOUT PRAISES OF TEXAS

LONE STAR STATE "BEATS ALL" SAY WINDY CITY BOOSTERS

Enthusiastic Descriptions of Fertility of Soil, Balmy Climate Makes Good Impression.

Chicago, May 8.—Going South to boost Chicago, thirty-two members of the Chicago Association of Commerce returned to boost Texas, and at a luncheon, at the hotel LaSalle, turned missionaries to 600 fellow-members of the association, who gathered at the regular mid-week luncheon to hear the report of the trade extension committee.

"Texas knows more about Chicago than Chicago knows about Texas," said John P. Mann, chairman of the delegation. "Texas has been trading with New York because of her low water freight rates; but Texas is so big that Chicago can compete with New York successfully for business in the northern parts, and we propose to get right after that business."

"We left the Texas trip for the last," said Business Manager, Hubert F. Miller, "Partly by accident and partly by design. We had been in every state west of the Alleghenies on trade extension trips, and each one was the most successful in the history of the association. But now that we have seen Texas, the whole of Texas, we are willing to wager that no state in the galaxy of stars on the flag can compare with the Lone Star state in wealth, now and forever."

If Mr. Miller got his peroration mixed with a Fourth of July speech, none who had been with him on the tour was disposed to quibble.

Professor Nathaniel Butler of the University of Chicago had much to say in praise of the Texas system of education.

"No state has a more thorough system of public schools," he declared, "and colleges and universities are being built on right lines and amply financed all over the state. The state university is a wonder."

In fact, so enthusiastic were the descriptions of the fertility of the soil, the high prices paid for products and the balmy climate that a Texas land agent could have sold any number of little tracts of 60,000 or so, had he been on the ground. The meeting was so largely attended that not only the main dining room and palm room were filled, but the blue fountain room were invaded by boosters, who talked Chicago and Texas in the same breath.

Self Government in Public Schools.

To the News:—Having read a great deal about self-government in schools and heard it talked about many times, I decided at the beginning of this school term to try self-government in my room, and have been requested to tell the result of my experiment.

I have found that it works well with sixth and seventh grade pupils. Out of forty pupils, over two-thirds governed themselves with only a very little restraint, and most of the others were self-governed at least five-sixths of the time.

I find that most pupils take a delight in being self-governed, and am satisfied with the experiment to the extent that I shall hereafter practice self-government in my school. C. E. Coss.

You will enjoy "Reaping the Harvest."

There will be special Mother's Day exercises at the Presbyterian church next Sunday.

LISTEN TO EXPERT BAKERS

T. H. Baker, proprietor of the Home Bakery, Amarillo, made a test of the Elk Horn Flour, manufactured by the Eagle Milling Co., of this city and obtained the following results.

"I obtained the best results with this flour than with any other I have ever tried. Out of 25 pounds of flour I got 48 pounds of dough. This is an exceptional test, being much higher than any other flour on the market.

"I am thoroughly convinced that when this flour is used in large quantities the same result will be obtained. I have used many car loads of every high grade flour manufactured west of the Mississippi river and this test was far superior to any of these leading brands of flour.

"As to the quality of the bread, I am convinced that it is as good as any flour can make. I use bread from this flour at my own home, and am highly pleased with the quality."

T. H. BAKER, Amarillo, Texas.

Joe Huffman, proprietor of the City Bakery, adds his testimonial to the long list of praises of Canyon people in the following words:

"I am using Elk Horn flour now for all of my baking. It is absolutely the first flour that I have ever been able to procure that you could make good bread of so soon after it has been ground at the mill.

"Elk Horn flour is as good a flour as I have ever been able to procure, and I have used all of the highest patent flour on the market today. I am using this flour in all my baking now, not only because I believe in patronizing home industry, but more because I have never been able to find a better flour."

Schuberts Highly Pleased.

The best entertainment that has been heard in Canyon for years was given by the Schubert company last night at the auditorium. Every member of the company is a star, and every performance was heartily greeted by the large audience. It was a magnificent treat for all lovers of good music, and to miss the Schuberts was to have missed a great musical festival.

Missionary Meeting.

The M. E. Mission Society held their regular business meeting at the church Tuesday afternoon. The reports of the officers were very gratifying. We are out of debt and have a surplus in the treasury.

The meeting hour has been changed from three to four o'clock. Mrs. D. A. Park was elected to fill the unexpired term of Mrs. Fairbanks as Recording secretary.

We were sorry to lose Mrs. Fairbanks who was a faithful and valuable member of this organization.

The social meeting Friday afternoon at the beautiful S. S. Coffee home was a decided success. Cake and ices were served by the hostess. The

members who were present are telling those who were not what they missed. Mr. Coffee and wife are very hospitable, and have opened their home for many of the church social affairs.

Drs. Griffin, Wilson, Stewart and Reeves attended the medical convention at the Palo Duro club grounds Tuesday and Wednesday.

Dr. and Mrs. W. L. Austin, of Rockwell, arrived in the city Monday for a few days' visit with Mrs. Austin's sister, Miss Lena Wade.

L. P. Floyd, of Whitesboro, was in the city Monday to look over the Normal. He will return in three weeks to attend the summer session.

G. A. Hancock went to Happy Sunday to the meeting in progress there. He reported a good meeting and a fine dinner served on the grounds.

Mrs. E. B. Bradford spent Friday night in the city at the McGehee home. She was on her way to her home in N. M. after a visit at Tulia.

C. H. Stratton was so unfortunate as to get his hand hurt last week, blood poison setting in. Physicians have it well under control and think there is no danger.

F. E. Wheelock, of Lubbock, was in the city Sunday visiting at the I. L. Hunt home. Mr. Wheelock had with him nine girls, and they were returning from the ball games Lubbock played at Amarillo on Friday and Saturday.

Bates cleans and presses your clothes right. He does more than that, he gives you satisfactory work. If for any cause you get work from him that is not what it should be, you can send it right back and it will be done over and no extra charges. Opposite postoffice. 7tf

Chas. McDade was a caller at the News office Tuesday to pay his subscription. Mr. McDade is engaged in the well business together with his brother, and has just completed a well for E. A. Brown on the old re-union grounds. Mr. Brown contracted for a 350 foot well, but owing to having obtained such good water at 78 feet decided to stop there.

DIAMONDS

THE TIME TO BUY

If bought now you can save a year's good interest on your money for the South African Syndicate, who who control the world's Diamond mines have decided to increase their prices 15 to 20 per cent immediately.

We can sell you any grade Diamond at the OLD PRICE for we have an arrangement with a large Diamond importer to supply us at the OLD PRICES and our agreement does not expire for several months.

Diamonds are not like other jewelry, for they are steadily increasing in value. If you are interested, call on us, and let us tell you our plan for selling Diamonds. We have just received a shipment of Diamond Rings for Graduating presents—price from \$10.00 to \$200.00. You can save money by buying now.

Ordinance Number—
An ordinance creating the office of Fire Marshal, prescribing the duties thereof, providing for its maintenance, and prescribing penalties for violations.

Be it ordained by the City Council of the city of Canyon City, Texas.

Section 1. The office of Fire Marshal is hereby created. Such office shall be independent of other city departments, the Fire Marshal reporting directly to the Mayor and City Council. Such office shall be filled by appointment by the Mayor, by and with the consent of the City Council within 15 days after this ordinance shall take effect. The said Fire Marshal shall be properly qualified for the duties of his office and shall be removed only for cause.

Section 2. The Fire Marshal shall investigate the cause, origin and circumstances of every fire occurring within the city of Canyon City by which property has been destroyed or damaged, and shall especially make investigation as to whether such fire was the result of carelessness or design. Such investigation shall be begun within twenty-four hours, not including Sunday, of the occurrence of such fire. The Fire Marshal shall keep in his office a record of all fires occurring within the city, together with all facts, statistics and circumstances, including the origin of the fires and the amount of the loss, which may be determined by the investigation required by this ordinance. Such record shall at all times be open to public inspection.

Section 3. The Fire Marshal, when in his opinion further investigation is necessary, shall take or cause to be taken the testimony on oath of all persons supposed to be cognizant of any facts or to have means of knowledge in relation to the matter as to which an examination is herein required to be made, and shall cause the same to be reduced to writing; and if he shall be of the opinion that there is evidence sufficient to charge any person with the crime of arson, or with the attempt to commit the crime of arson, or of conspiracy to defraud, or criminal conduct in connection with such fire, he shall cause such person to be arrested and charged with such offense or either of them, and shall furnish to the proper prosecuting attorney all such evidence, together with the names of witnesses and all of the information obtained by him, including a copy of all pertinent and material testimony taken in the case.

Section 4. The Fire Marshal shall have the power to summon and compel the attendance of witnesses before him to testify in relation to any matter which is by the provisions of this ordinance a subject of inquiry and investigation, and may require the production of any book, paper or document deemed pertinent thereto. The said Fire Marshal is hereby authorized and empowered to administer oaths and affirmations to any persons appearing as witnesses before him, and false swearing in any matter or proceeding aforesaid shall be perjury and shall be punished as such. Any witness who refuses to be sworn, or who refuses to testify, or who disobeys any lawful order of said Fire Marshal, or who fails or refuses to produce any book, paper or document touching any matter under examination, or who is guilty of any contemptuous conduct after being summoned to give testimony in relation to any matter under investigation as aforesaid, shall be deemed guilty of a misdemeanor and it shall be the duty of the Fire Marshal to make complaint against said person or persons so refusing to comply with the summons or order of said Fire Marshal before any justice of the peace, police magistrate, or any court of record within the city, and upon the filing of such complaint, such cause shall proceed in the same manner as other criminal cases, and upon conviction, any such person guilty of a violation of the provisions of this ordinance shall be fined in a sum not exceeding twenty-five dollars (\$25.00); Provided, however, that any person so convicted shall have the right to appeal. All investigations held by or under the direction of the Fire Marshal may, in his discretion, be private, and persons other than those required to be present may be excluded from the place where such investigation is held, and witnesses may be kept separate and apart from each other and not allowed to communicate with each other until they have been examined.

Section 5.—The Fire Marshal shall have the authority at all times of day or night, in the performance of the duties imposed upon him by the provisions of this ordinance, to enter upon and examine any building or premises where any fire has occurred, and other buildings and premises adjoining or near the same.

Section 6. The Fire Marshal, upon complaint of any person having an interest in any building or property adjacent, and without any complaint, shall have a right at all reasonable hours, for the purpose of examination, to enter into and upon all buildings and premises within the city, and it shall be his duty, quarterly or more

often, to enter upon and make, or cause to be entered upon and made, a thorough examination of all mercantile, manufacturing and public buildings, together with the premises belonging thereto. Whenever he shall find any building or other structure which, for want of repair, or by reason of age or dilapidated condition, or for any cause, is especially liable to fire, and which is so situated as to endanger other buildings or property, or so occupied that fire would endanger persons or property therein, and whenever he shall find an improper or dangerous arrangement of stoves, ranges, furnaces or other heating appliances of any kind whatever, including chimneys, flues and pipes, with which the same may be connected, or a dangerous arrangement of lighting devices or systems, or a dangerous or unlawful storage of explosives, compounds, petroleum, gasoline, kerosene, dangerous chemicals, vegetable products, ashes, combustible, inflammable and refuse materials, or other conditions which, in his opinion, may be dangerous in character or liable to cause or promote fire or create conditions dangerous to firemen or occupants, he shall order the same to be removed or remedied, and such order shall be forthwith complied with by the owner or occupant of said building or premises: Provided, however, that if the said owner or occupant deems himself aggrieved by such order, he may, within five (5) days, appeal to the Mayor who shall investigate the cause of the complaint and unless by his authority the order is revoked, such order shall remain in force and be forthwith complied with by said owner or occupant. Any owner or occupant of buildings or premises failing to comply with the orders of the authorities above specified shall be punished by a fine of not less than ten (\$10.00) or more than fifty dollars (\$50.00) for each day's neglect; such penalty to be sued for in the name of the city, upon the complaint of the Fire Marshal, before any justice of the peace or court of record within the city, with right of appeal, and such penalty when recovered shall be paid into the general fund of the city.

All ordinances or parts of ordinances inconsistent herewith are hereby repealed.

Ratified and done in Council assembled this 2nd day of May in the year of our Lord, one thousand nine hundred and eleven.

A. N. HENSON, Mayor,
C. R. FLESHER, Clerk.
I, C. R. Flesher, city secretary of Canyon City do hereby certify that this is a true copy of the ordinance passed by the city council on May 2nd 1911.

Witness my hand this the 9th day of May, 1911. M-12-713

ROSWELL SEED CO., Roswell, N. N.

THE LAND OF VARIETY

IN NO OTHER agricultural district between the Great Lakes and the Gulf, from the Atlantic to the Pacific, can a farmer have a greater variety of crops from which to choose, than here in the Panhandle! Winter wheat, spring wheat, oats, millet, cane, Kaffir corn, Milo maize, and even King Cotton, are proven successful producers in this region where altitude and latitude, soil and rainfall are combined to make a gigantic farm, the possibilities of which have only been partially revealed. "Diversification," the slogan of the modern farmer, can nowhere be practiced to a greater extent, nowhere will it yield greater benefits than in Randall and adjoining counties.

Apples, peaches, plums, pears, every variety of berry, any kind of vegetable, melons of the most delicious flavor, are easily produced here, and yield in wonderful quantities.

For stock raising there is no better country or climate. Horses,

cattle, hogs and sheep are brought to maturity at much less expense, than they can be raised in the East or North, where the severity of the winters entails a heavy feed bill and much confinement---while here our mild winters require only occasional shelter. The young can come at any month in the year without danger of loss. Poultry and dairying are sure to become great revenue producers, for we have here all the natural advantages which the hen and the cow require in order to give best results.

Pure, sparkling, water, obtained in inexhaustible quantity at a reasonable depth is another of our big assets. Our rich soil, capable of enormous production, of a depth which insures its wearing quality, needs only the plow and planter to convert it into a vast factory of food products which can be kept in operation the year round.

Our people here are from the best classes of citizenship---they are coming from every section of the Union, and "Old-timer" and "New-comer" alike are imbued with that spirit of progress which is fast pushing the Panhandle into the front rank of agriculture.

With the establishment of the West Texas State Normal, controlled by a faculty graduated from the best colleges and universities of the United States, our education facilities are ample.

As a place to make a home, as a place for investments which will yield big dividends and steadily increase in value, there is no section of the country which today can offer the opportunities awaiting you here in the Panhandle. Come and investigate.

We have a choice collection of farms, improved and unimproved, all nicely situated in regard to markets and railroads, which we can offer at prices sure to please you.

GAVE MANY ADDRESSES.

Pres. R. B. Cousins, of the Normal, is Now in Great Demand by High Schools.

Pres. R. B. Cousins, of the West Texas State Normal, is filling many engagements now in the neighboring towns, both in high school commencement programs and in educational rallies.

Last Friday night he gave an address at Hereford at the educational rally of the Hereford College. The address is highly spoken of by Hereford people.

Wednesday night Mr. Cousins spoke at the commencement exercises of the Shamrock high school.

Next Wednesday he will deliver an address at the commencement exercises at Ochiltree.

On the 19th, one week from today, he will be at Channing for the commencement program.

Mr. Cousins always has something of interest for his hearers, and the high schools obtaining his services feel highly honored.

Attended Convention.

Drs. Stewart, Wilson, Griffin and Reeves attended the Texas State Medical Association at Amarillo Tuesday and Wednesday. They report a good time, and in many ways it was the greatest association the state has had for years. Amarillo did herself proud in entertaining the visitors. There were about four hundred doctors present, and not one thing was left undone that could add to their pleasure. The auto trip across the country and the barbecue in the Palo Duro canyons deserve special mention.

1200 Head of Cattle.

Another large shipment of cattle was received in the county last week by Walsh & Collinson. There were 25 cars in all, making 1200 head of cattle. These cattle will be placed in the Block pasture east of the city during the summer.

Baptist Church Notes.

Rev. Morgan of Memphis, Texas preached a most excellent sermon on last Thursday evening and Rev. Blankenship of Kentucky gave us two sermons on Sunday which did our hearts good. We were glad to have these two worthy gentlemen with us.

One hundred seventy-one were present in our Sunday School on last Sunday. A large per cent of this number were grown people. The Baracas and Philatheas are doing faithful work as well as the Bible class. Miss

Ritchie and Miss Hudspeth each presented their classes with white carnations in honor of Mother's Day.

The Ladies' Aid was pleasantly entertained last week in the home of Mrs. Reid and this week in the home of Mrs. B. T. Johnson. A great deal of interest is being taken in the Bible study.

The "Evening with the Old Timers" was much enjoyed by all. The Ballard home was overflowing with a crowd of old and young. The program was full of fun and the old time costumes of the partici-

ipants created much merriment. While the singing led by the older people was amusing to the younger ones, it was pathetic and brought tears to many eyes. God bless our fathers and mothers and may their voices mingle in songs of joy and gladness when they are called to the other shore. Among our visitors were Rev. Harder, Rev. I. E. Gates and Rev. Blankenship. The Aid netted the nice little sum of \$20 for which they thank all the good people who were present. REPORTER.

"EVERY LITTLE BIT HELPS"

The shrewd buyer is that man who buys when he can buy the best material at the best price for top notch quality.

That is why you will always observe the most particular buyers getting their lumber and building material from us.

We believe it is better to let a man go elsewhere than to sell him trash. Sooner or later he will learn to appreciate the difference in quality and then he'll come to us as naturally as a duck takes to water.
