GARNER HAS NARROW ESCAPE.

County Clerk Loses Necktie and Lapel of his Coat When Gun is Accidentally Fired.

M. P. Garner very narrowly escaped death on the Fourth by having his gun accidentally discharged, the load of which cut his necktie in two and bored a clean hole through the right lapel of his coat, missing his head not over three inches. Mr. Garner was in the phaeton with his son, Welton, and brother-in-law, Chell Cochell, of Hereford. They were on their way to hunt and saw an owl sitting on a fence post. They had almost driven past when Mr. Garner decided to stop and take a shot at the bird. He turned in the seat and threw one leg over the side of the seat and in so doing unconsciously kicked the loaded gun with the other causing it to fall over the side of the phaeton. The hammer struck hard as it fell and the gun was fired leaning against Mr. Garner's breast and only a few inches below his chin. The shot did not have time to scatter, but cut his necktie in two and cut a hole through the right lapel of his coat. The powder burned his breast considerably, but otherwise Mr. Garner escaped uninjured. It is the greatest of wonders that Mr. Garner escaped death.

Several years ago Mr. Garner lost his leg through a gun accident. He was hunting with a friend and this friend accidentally fired his gun just behind Mr. Garner, tearing off the limb. Mr. Garner says he has hunted all his life, but last week was the only time he ever remembers of letting a gun go off accidentally.

Caught Four Swifts.

W. J. Nichols last week captured four swifts at the Canyon club grounds and now has three alive. The swift is smaller than the red fox and much harder to catch. On the morning of the Fourth a number went out from Canyon to watch the dogs chase two that were turned loose. The first one was easily handled and killed by the dogs but the second one held the entire pack at bay and put up a fierce fight. C. C. Doniphan proved to be the hero of the day by defying the teeth of the swift by rushing in with a robe and capturing the animal alive. Those who were out for the chase were W. B. Campbell, J. R. Cullum, C. C. Doniphan, Harry Hord, L. S. Maloney, Taylor Meyer and W. J. Nichols.

Congressional Meeting.

The members of the Presbyterian Church of Canyon are hereby called to meet in congressional meeting next Sunday July 14, at the close of the morning service. Important matters are to be considered. It is earnestly desired that every member of the church be present.

By order of the Session.

Paying Expenses in Normal.

Prof. J. A. Hill took a census of the 442 students at the Normal and finds that 66 men and 196 women are paying their own way through the school, making a total of 262. He finds that 8 men and 21 women pay no part of their way while 151 did not report.

MONEY RETURNS OF THE SUMMER NORMAL

189 STUDENTS SPEND \$10,050.45 IN 4 WEEKS.

First Series of State Examinations are Given This Week.—Attendance 442.

"How much money have you spent at this school?" is one of the questions on the state examination blanks which caused a large number of students to scratch their heads and engage in desperate thought for several minutes. With many it wasn't at all hard, their reasoning being something after this order: "I just had \$47.39 and a round trip ticket when I left home. After a close inventory I find just 30 cents and half of a round trip ticket, and my meal ticket runs out tonight."

The most spent by any student was \$110 and the least amount was \$14.25. The average of the 189 who are taking this examination was \$53.17. The total amount spent by these being \$10,050.45. The larger part of this number has been here only four weeks.

The attendance at the school at the present time is 442. If the 253 students not taking this examination are spending the same average, it means that the students are turning loose in Canyon \$22,502.46 every month. It is thought that this amount is very reasonable for the size of the student body.

A large number of those who took this series of examinations has gone home. Quite a number are staying over for the next series which begins July 29.

Baptist Classes Meet.

On last Monday evening the Baptist Baracas and Philatheas met at the home of Mr. and Mrs. B. T. Johnson. They began to arrive at 8:30 and were served to red orangeade then escorted to the parlor which was decorated with the class colors, blue and white. The rooms were soon full and they were then entertained with music by the young ladies. After the crowd had gathered the Philatheas were invited to their special room, the Baracas to theirs and entered into their business meeting. Both rooms were filled to the utmost there being 85 present.

Immediately after the business meeting as the Baracas were entertaining, they were invited to go out to the lawn and be seated. A very interesting program was rendered on the porch as follows:

Song, Eight male voices.
Reading, Miss Holland.
Reading, Miss Davis.
Male quartet, "Poor Brudder Jonah."
Vocal solo, Miss McNeil.
Special music.

Mrs. Johnson invited the Baracas to the kitchen to serve refreshments and delicious punch and cake were soon brought to the anxious waiting Philatheas.

We want to tip our hat to the Baracas for their nice way of entertaining. Philatheas reporter.

Notice!

Notice is hereby given that my land in Survey No. 1, Block B-5, has been posted. No fishing or hunting is allowed on same. I hope that no parties will persist in giving me trouble so that prosecution will be necessary.

GREG COUSINS MEMORIAL FUND

MONEY LOANED TO STUDENTS ATTENDING NORMAL.

Incorporated and Work of Raising Funds is Now Progressing Rapidly in School.

The first public announcement of the Gregg Cousins Loan Fund was made at the chapel exercises of the Normal last Saturday morning by Prof. J. A. Hill. Mr. Hill first conceived the idea of such a fund nearly a year ago and the matter has been discussed in more or less detail by the faculty every since. Mr. Hill says many worthy students are compelled to leave the Normal because of sufficient funds to meet their actual expenses and took up the matter with his co-workers. No actual plans were drawn up until early in the winter when it was decided to push the matter and raise as large a fund as possible in order to have the money available by the opening of the fall quarter this year.

About the time of the completion of the plans the untimely death of Gregg Cousins occurred. No more fitting name for the fund nor a more tender monument could be raised to the bright son of President and Mrs. Cousins than to call this fund the "Gregg Cousins Memorial Loan Fund," which name was unanimously selected by the faculty.

The working principle of the funds stated briefly is this: The faculty proposes to raise as much money as possible for the fund and when a worthy and needy student applies for money to make him a loan at 6 per cent interest. Through experience of other schools it is found that these loans will be paid back to the fund in one to four years and the interest slightly increased the fund each year. The fund is incorporated under the laws of Texas. It is controlled by a regularly elected board of directors from the faculty. The treasurer is under bond.

At the chapel period Saturday Mr. Hill announced that the faculty had subscribed \$422 to the fund. Cards were given out among the students and those who felt interested in the work were given a chance to subscribe. The payments are either cash, or at the convenience of the subscriber. Those in charge of working up the fund will appeal to the citizens of Canyon and other cities of the Plains and friends in other sections of the state. The fund will enable many worthy young men and women to secure an education who otherwise would be unable so to do.

The following members of the faculty have the matter in charge:

President of the Fund—R. B. Cousins.
Directors—R. B. Cousins, B. A. Stafford, L. G. Allen, J. A. Hill and J. W. Reid.

Treasurer—J. W. Reid.
Committee to raise fund—J. A. Hill, J. W. Reid, H. W. Morelock, Misses Hudspeth and Ritchie.

Committee on organization—L. G. Allen, R. A. Terrill, T. S. Minter, Misses Rambo and Cofer.

Committee on distribution—B. A. Stafford, chairman, and the remainder of the faculty not on other committees.

BAD AUTO ACCIDENT.

One Killed and Five Injured.—Canyon People Hurt at Plainview on the Fourth.

One of the saddest auto accidents ever seen on the Plains occurred on the evening of the Fourth at Plainview, when the big "30" Hudson belonging to Buck Sams, of Plainview, turned turtle, killing his wife instantly and badly injuring Mr. Sams, Mrs. Flake Garner, formerly of this city, Miss Artie Moreland, Max Garner and Roy Moreland, all of this city. The party were going about 30 miles per hour when they struck a sandy and muddy place. Whether the machine became unmanageable or whether the breaking of the right hind wheel caused the accident is unknown. The machine was thrown around to the right and then turned again over and was found laying on its side. Flake Garner was the only person in the car uninjured.

Mrs. Sams' neck was broken in two places, Mrs. Flake Garner received injuries in the head and bled for several hours. Miss Moreland's neck was badly injured and for several days she was unable to move from her bed. Mr. Sams was badly bruised all over. Max Garner received two dislocated fingers and he and Roy Moreland were both badly bruised all over their bodies.

Mrs. Sams was a close friend of Miss Moreland and has visited here frequently. She has been married two years, and leaves a little baby. The funeral was held Saturday and was largely attended.

All of the Canyon people are home and recovering from their injuries.

The Panhandle Magazine.

Notices were received in the city this week that the subscription list of the Panhandle Magazine had been sold to Campbell's Scientific Farm, of Lincoln, Nebr. The notice states that all subscriptions begin with the June number. The News makes this notice as several subscriptions were taken by us for the Panhandle Magazine and some of the subscribers seemed to want us to be responsible for the same. If you do not get the Scientific Farmer we are not to blame as all the subscriptions we received were turned to the company.

State Lecturer Here.

Prof. A. S. Blankenship, from the University of Texas, was in the city last week and gave a number of very interesting lectures at the Normal on rural school life in Texas. Mr. Blankenship is in the extension department of the university and has for his work the study of rural school and making suggestions for their improvement. His lectures were illustrated.

He is an old classmate of Prof. J. A. Hill, and was entertained at the Hill residence during his stay in the city.

County Scholastics.

The canvass of Canyon and Randall county to ascertain the number of children of scholastic age has just been completed showing that there are in Canyon 308 and in the county outside of Canyon 374, making a total for the county of 682. This number is practically the same as last year, there being a few more in the county generally. The scholastic age is from 7 to 17.

Come to Canyon to LIVE.

SKELETON FOUND IN PALO DURO CANYON

YALE PROFESSORS AT WORK SOUTH OF CITY.

Life of 2000 B. C. Unearthed.—Elephant Bones are Found in Side of the Canyon.

The following is taken from Sunday's issue of the Daily Panhandle:

W. P. Rascoe, the hustling life insurance man of Tulsa reports to The Daily Panhandle of the unearthing of the bones of some mammoth animals twenty miles east of Tulsa.

Mr. Rascoe informs us that a party from Yale University of New Haven, Conn., arrived in Tulsa and went to the Palo Duro canyon about ten days ago, and at the time their intentions were unknown.

Mr. Rascoe came upon their camp in the canyon a few days ago and learned of the object and success of their exploration.

It seems that thirteen years ago a Professor of Geology made some field notes of this section and from these old field notes the location of the bones of an ancient period were learned.

When Mr. Rascoe came upon the party they had already unearthed nearly a wagon load of bones of great size.

Among those found are the bones of elephants, mastodons, etc. One pelvic bone found measured nearly five feet across each way and was estimated to weigh three or four hundred pounds. From this it can be seen that the animal of which this bone was a part was of an enormous size. These bones were found in a hill side of the canyon and at a depth of only two to five feet. The earth in which they were found was said by the professors to resemble a silica formation.

In the party are Professors R. S. Lull and F. W. Darby, and Edward Traxwell all of Yale. They have a cook and excellent camp equipment and expressed their intentions of remaining possibly ninety days in the Palo Duro.

Delicate instruments and great care are used in removing the soil from the bones. The bones are immediately treated to a coat of shellac and then wrapped with burlap and a thin coat of flour paste and plaster of Paris given to protect them from the air and from breakage.

They will be boxed on the ground and shipped to Yale.

It is the opinion of the professors that they are in a rich field of the remains of animals. They say the indications are that the life of these animals were something like 2000 years B. C.

The Panhandle of Texas today attracts the eyes of the world for her big crops. Only a few years ago we were the home of the cattle of big horns, and now it seems that we maintain our bigness by yielding from our soil the bones of big animals. What ever the Panhandle produces is of an abnormal size and you can never tell what we will find next.

Ohio Parties Buy Land.

A deal was made this week by Travis Shaw and C. D. Cleveland whereby the Newt Reeves section northwest of the city was sold to partied from Ohio for \$37 per acre. Two families are planning on moving to the place this fall.

FLY CONTEST

We want the men and women and boys and girls of Randall county to help us kill every fly in Randall county. We are going to start a Fly Killing Contest to cover a period of two weeks, beginning

MONDAY, JULY 22nd.

The following cash prizes will be given for the person killing the most flies:

- 1st. prize---\$5 Cash.
- 2nd, 3rd, 4th and 5th prizes--\$1 Cash

The only rule for the contest is to kill every fly you see. As many people can work together as care to. A number of families or a number of boys and girls can kill flies and bring them in together to compete for the \$5 prize. The contest is open to every person in Randall county. The flies must be brought to our lumber yard at any time to suit your convenience, where they will be weighed by Prof. R. L. Marquis, of the Normal.

It is to be hoped that the Gregg Cousins Memorial Loan Fund will increase very rapidly until it shall amount to several thousand dollars. The cause is very deserving. There are hundreds and hundreds of capable young men and women in our state who never receive the benefits of a good education and hence are not fitted for their greatest capacity as a worker for the good of society, who if the proper means were laid before them would become among the leaders of the land. This fund has in view the reaching of these young people and helping to educate them. They will repay the money with interest within a short time and the courtesy can then be extended to another capable young person. The people of Canyon should assist all they can with this work.

The Lubbock Avalanche is 12 years old. The people of Lubbock support their paper the best of any town on the Plains. Every doctor, lawyer and professional man in the city carries a card in the paper. Practically every real estate man advertises. Every store of any size has from a half to a full page ad every week. The smaller stores have from an eighth to a quarter page. Every business man in town has some kind of an ad in the Avalanche. Every business man knows that the Avalanche goes out as an index to the kind of a town Lubbock is, and as a result every fellow sees to it that the Avalanche is the best newspaper in West Texas. Editor Dow is a live wire and gives the people a fine newsy paper with twelve to twenty pages every week. Long live the Avalanche.

The board of trustees of the Canyon Independent school district has seen fit to offer a reward of \$5 for any person giving information leading to the conviction of any party found guilty of breaking windows or otherwise damaging the public school property. Just recently the screen in a few windows were cut and later the windows were broken in. The work was possibly done by thoughtless boys. The offense is serious in the eyes of the law and the trustees are determined that all such matters of misconduct shall cease. The public school property belongs to every tax payer in the district and it is his duty to inform the trustees of any mistreatment. It is to be hoped that there will be no complaint regarding this subject.

Those who do not like Wilson can find plenty of satisfaction in the knock-out blow which his nomination administers to third term aspirations.

The stationery printed in this office is giving the best of satisfaction. Last week we printed one hundred statements for a man and by their aid he collected a small fortune. Two months ago a man bought of us some note paper, and now he is married. Another young man stole some of our paper to make cigarettes, and now he is dead. A young lady got some of our paper to curl her hair on, and now she has a beau. We have only a few packages of this kind in stock. By using our stationery every person can collect old accounts, tell fortunes, make rain, change the color of the hair, extract teeth without pain, if you are married, keep tab on your husband, find out if he is really detained from home on business; if you are unmarried, find out the name of your future husband or wife, be successful in business, be elected to office. Give us a call.—Exchange.

Letter to C. Eakman.

The report having been circulated that the assessor was late turning over the rolls to the tax collector, the following letter from the State Comptroller's Department is offered to show that it was not the fault of the assessor:

Austin, Texas, July 6th, 1912.
Mr. Cyrus Eakman,
Canyon, Texas.

Dear Sir:
In reply to your favor of July 2nd I beg to say that I am enclosing a copy of the letter written to you by me last October.

Ordinarily the tax rate should be fixed about July 20th but it was not fixed last year until some time in September. This as a matter of course delayed the assessors at least forty days in getting their rolls finished and was chargeable to the legislature. They made no appropriation at the regular session and the Tax Board could not fix a rate without knowing the amount necessary to run the government for 1912.

If you will refer to Articles 5162 and 5164 Revised Statutes of 1895 you will note that it says in substance that: Tax Collectors may begin collecting taxes as soon as the rolls have been received by them and they have receipted for same, so Collectors do not have to wait until the rolls are approved by this department but can proceed with the collecting when the rolls have been turned over to them by the assessor. If I can serve you further don't hesitate to call on me.

Very truly,
Chas. B. White,
Acting Comptroller.

REQUIREMENTS FOR ENTRANCE.

Continued from page 1
FOURTH YEAR CLASS

1. Completion of third year in a Texas State Normal School.
2. A permanent state certificate, holder to be placed in appropriate course.
3. Certificates or credits from reputable colleges, the value of such credits to be determined by the President of the Normal School.
4. By examination in the work of the third year.

GENERAL

Any student entering September, 1912 or 1913, shall be placed on the basis of the freshman class of 1912, provided he is placed above first year.

Students of the freshman class of 1911-12 pass regularly into second year work in 1912-13 and third year work in 1913-14 as formerly, and during this time any person who can enter the second or third year class in the method prescribed, may complete the course in 1914. It was also agreed that a student may enter the summer school of 1912 and begin on new four course to graduate in three or more summers. No three year diplomas will be issued in 1914 and no four year diplomas will be issued before the close of the summer session of 1914. Persons holding first and second grade State Normal School certificates may be admitted to the course and class for which previous training best fits him.

FEES

Tuition—No tuition fee is charged residents of Texas for the regular session. A tuition of five dollars per month payable quarterly in advance is charged non-residents of Texas. The residence of a student is considered to be that of the person who is furnishing the money that enables him to attend school. Incidental—An incidental fee of fifteen dollars per year payable at entrance, is collected.

Books—Students are not required to buy any books, these being furnished by the school for the use of the students. They are required to return the books at the close of the Quarter or when courses are finished. When books are returned in good condition the student is entitled to a rebate of one dollar book fee at the close of the year or the termination of his connection with the institution.

BOARD

Board in Canyon costs from seventeen to twenty dollars per month. A committee from the faculty meets the trains during the first days of the session and assists the students to find suitable boarding places.

Artistic Effects FOR HOME BUILDING

Can be secured by the use of Lumber, usually at a great saving over substitutes and with much greater stability. Shingles and novelty siding properly used is one example of exterior effect, and for interior purposes there are dozens of patterns and a variety of woods that, with comparatively little extra cost, furnish those pleasing touches that mean so much for comfort and coziness. It would surprise you what really can be done with the superior lumber we handle these days and how perfectly substantial a frame house can be built. We want to talk with you about this lumber question before you build and give you the benefit of our observation. We carry a large line of Building Material and can furnish you anything you want.

CALOMEL GIVES ONLY TEMPORARY RELIEF

So Powerful it Shocks Liver and Leaves it Weaker than Before. Dodson's Liver-Tone a Perfect Substitute.

Nearly everybody who has ever tried calomel for constipation or a sluggish liver has found that it gives only a temporary relief. For calomel is such a powerful drug that it shocks and weakens the liver and makes it less able afterward to do its duty than in the first place.

This is one of the reasons why City Pharmacy drug store would rather sell Dodson's Liver-Tone to you than calomel. We know that Dodson's Liver-Tone is a pure vegetable liquid tonic that will cure constipation quickly and gently without any danger of bad after-effects. We guarantee it to do this with a guarantee that is simple and fair. If you buy a bottle of Dodson's Liver-Tone for yourself or your children, and do not find that it is a perfect substitute for calomel, then come back to the store and get your money. If you don't get value for your money out of this tonic, it's your right to expect your money back, and we will gladly give it to you.

ENTERPRISE BUGGIES BEST ON THE MARKET

You may be offered by a traveling agent a buggy which is claimed to be better and upon which the price is said to be lower than we can give you. The agent will take your notes and then sell them to some banking institution which has no interest in your financial welfare. We are pointing out to you these practices of traveling salesmen, not because we are unable to meet all kinds of competition, but because even our best friends often patronize these agents without first asking our prices or examining our goods to see their high quality.

WE GUARANTEE YOU

FIRST: A buggy with no better quality on the market. We are here to make good our guarantee, and if anything goes wrong with any buggy we sell, you will not be compelled to carry on correspondence for six months with an out-of-the-state firm, ending the same with no compensation for the damaged buggy.

SECOND: We guarantee to sell you a buggy at a better price than any traveling agent. All we ask is that you come in and ask our prices. If you will investigate, you will find that the traveling agents, and not the home firm is the one who asks the big price.

In addition to this, we will give you better terms than any foreign concern will do and are here to look after your interests.

Base Ball at Canyon.

A charity game of baseball was played at Canyon one day last week by the fats vs. the leans, the former winning by the modest score of 25 to 21. Five pitchers were used on each side, which probably accounts for the low score. The most exciting feature of the game was that Mr. Lair, the lean catcher, secured six hits out of five times at bat. Some have expressed the opinion that Lair got the middle letters of his name transposed just at the time he handed a record of his achievements to the score keeper, but we do not hold to this view.

Another feature, and probably the one which had most to do with the leanscore acquired by the leans, was the appearance of Sheriff Jennings on the firing line for the heavies. People in this country know better than to resist an officer, and from this distance it looks like the feather weights got the worst of the deal. -Clarendon News.

MAN has acquired a hunger for land which he can call his own. The supply is limited---the demand unlimited! Land values have risen to prohibitive prices in older settled states!

The Panhandle Is Ready For The Farmer

Here is a deep, rich soil, ready for the plow. An ample rainfall and a most healthful and splendid climate. Adequate railroad facilities by which to reach the markets of the world.

A return to normal climatic conditions, a greatly increased acreage of winter wheat, spring wheat, oats and barley, an unqualifiedly successful demonstration that Kaffir corn and Milo maize cannot be excelled as material for ensilage, the "better farming" spirit and the results of studying and developing this land assures a prosperous year.

The successful outcome of flax culture, demonstrated last year under conditions much less favorable than can confidently be reckoned on in the future has added another to the list of our resources.

Farms can be bought here now cheaper than they can later on, at prices which are certain of a steady advance as the summer and fall emigration stimulates the demand.

My farms are all favorably located, as regards towns and railroads and give the buyer a wide range in selection. All the improved farms are rented to good farmers and will produce a substantial revenue this year.

I am in position to give terms to suit the purchaser.

ANSWERS THE CALL.

Canyon People Have Found That This Is True.

A cold, a strain, a sudden wrench.

A little cause may hurt the kidneys.

Spells of backache often follow.

Or some irregularity of the urine.

A splendid remedy for such attacks.

A medicine that has cured thousands

Is Doan's Kidney Pills.

Thousands of people rely upon it.

Here is one case:

S. F. Adams, railroad man, 700 Lincoln St., Amarillo, Texas, says: "Ever since I have been railroading, I have had kidney trouble of a serious nature. My back pained me constantly as well as pains in my side. My bladder was weak and I had to get up often at night. Frequently there was a burning sensation when passing the kidney secretions. As I knew many railroad men who had used Doan's Kidney Pills with good results, I got some and took them as directed. They quickly cured me. It gives me pleasure to recommend Doan's Kidney Pills as they are just as advertised."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, Sole Agents for the United States.

Remember the name—Doan's—and take no other. 11-2t

Happy Items.

A nice rain fell here Saturday afternoon.

The Fourth was a quiet day in town. Most every one went to the canyons for a picnic.

Miss Grace Webster of Amarillo is visiting at the H. Currie home.

C. E. Long left for Oklahoma Tuesday to visit with his folks.

Miss Smith and her friend left Wednesday for Hereford.

E. A. Logan left Wednesday for Belva, Okla., where he has a position as agent for the Santa Fe Ry.

Dail Mann went to Amarillo Sunday.

C. B. Miller of Los Angeles, Calif., was here the first of the week looking after his land interest.

H. L. Holland left Friday for New Mexico to look up some cattle.

Guy Smith has bought the dray line from Mr. Dillon who is going to move out onto his farm east of town.

Mr. Thacker of Ft. Smith, Ark. arrived here last week to visit with his parents.

R. E. Prewitt brought the first load of new wheat to market Monday and it tested 59 pounds

and was of a good quality. It was raised by W. W. Kuehn.

T. F. Bohanon has sold out his restaurant to Loyal Windle.

Mr. Jolly is the new station agent here. Mr. Barnett has resigned.

R. T. Allen is building an addition to his shop so that he will have room enough to put in a photograph gallery.

Mr. Gano of Canyon is here overhauling his threshing rig, and will be ready in a few days to start up. He is going to thresh for Mr. McNaughton first. Happy.

Chiggers and Mosquitoes.

Are now in their glory—their business is good and they are happy. There is no earthly use of letting them chew on you, however, if you do not like their ways. A little Hunt's Lightning Oil applied to exposed parts will keep them off and immediately relieve the irritation caused by their bites. Rub a little on and see for yourself.

The Silo and the Dairy man.

Can the Texas dairyman afford to try getting along without a silo? J. C. Frey, a Kansas dairyman, offers this testimony in the "Dry Farming Bulletin."

The work of our Shorthorn head of fifteen cows in 1911 was the most successful in years.

The most economical feed for the dairy cow is the feed that is grown on the farm, and must be in the best condition. This is my method of feeding: Forty pounds of corn silage; one-half in the morning and one-half in the evening, with all the alfalfa hay they will clean up, fed in the barn. They run to corn fodder unhusked and kafir fodder in the yard. This is not a properly balanced ration, but is as near as can be obtained with the feeds that can be produced on the farm.

I find that it does not pay to buy the commercial feeds only in the absence of alfalfa hay, when it does pay to supplement silage with a mixture of cottonseed and bran to supply the proteid element. Cows fed on the above ration just can't help filling the milk pail—those that do not must get fat and go to the shambles.

I find in feeding silage the cost of feed is reduced from 40 to 50 per cent and the flow of milk is increased and kept up. This is our second year with this silage, and it is surely satisfactory dairy feed.

As to feeding and raising the skim milk calf, that is another and difficult proposition. With us the calf stays with the mother until the milk is good to use; then it is given whole milk for three weeks; then it is gradually changed to skimmed milk. The calf will soon learn to eat alfalfa hay. By putting a little corn

chop in the bucket when the calf is through drinking it will soon learn to eat it. Corn will supply the fat that is taken out of the milk. The calf must have exercise and is allowed the freedom of yard and farm. We have the best success with the fall and winter calves. Hay is better for the calf than grass. The spring calf is more or less neglected.—Texas Farm Co-Operator.

This Is So.

We wish to state in as plain and vigorous way as words can express it that Hunt's Cure will positively, quickly and permanently cure any form of Itching Skin disease known. One box is guaranteed to cure. One application affords relief.

Ten Reasons for Keeping Cows.

1. I need fresh milk, cream and butter on my table.
2. It means a steady income every month.
3. It means more equal division of labor throughout the year.
4. To insure profitable crops I must practice clover or alfalfa rotation and must find a profitable market for these crops.
5. Dairy cows furnish the most profitable market for these crops, returning about two dollars of products for every dollar's worth of feed fed at average prices.
6. Dairy builds up rather than depletes soil fertility.
7. Dairy products remove less plant food from the farm than any other crop.
8. The dairy cow is the most economical producer of human food.
9. There is an increasing demand for high-grade dairy products.
10. Because the time spent morning and evening by the boy and girls on the farm caring for the cows will not deprive them of their schooling and will pay more in cash returns than all their time spent in the fields.—Texas Farm Co-Operator.

Insect Bite Costs Leg.

A Boston man lost his leg from the bite of an insect two years before. To avert such calamities from stings and bites of insects use Bucklen's Arnica Salve promptly to kill the poison and prevent inflammation, swelling and pain. Heals burns, boils, ulcers, piles, eczema, cuts, bruises. Only 25c at Cassies Drug Co.

A Homemade Fly Poison.

Beat together the yolk of one egg, one-third cupful sweet milk one level tablespoonful of sugar and a level teaspoonful of black pepper. Put on plates and set where flies abound. Swat the fly.

KEITH OF THE BORDER

A TALE OF THE PLAINS

By RANDALL PARRISH

Author of "MY LADY OF THE SOUTH," "WHEN WILDERNESS WAS KING," etc.

"Anybody know him?" There was no response...

They glanced down, one after the other, over Bill's shoulder, shading their eyes from the rain...

"Here, Jack," he said, gravely, "you better try—you might know him."

Keith bent over and looked down. As he did his heart seemed to rise choking into his throat...

CHAPTER XXV.

A Reappearance of the General. Keith did not inform Hope of her brother's death until the following morning...

Heavy-eyed from lack of sleep, heavy-hearted with his message, yet fully decided as to what advice he should offer...

"How tired you look! Something has occurred to keep you out all night—and I know you have brought me bad news..."

"No, Hope," and he took her hand, and led her to a chair. Bending above her he gave her the whole story of the night...

"What shall I do, Captain Keith? I am all alone with this, except for you."

"I have considered that, Hope," he answered, gravely, "and it seems to me your present duty is more to the living than the dead..."

the squalid town of tents and shacks. There were not many to stand beside the open grave...

At the hotel Neb was waiting, the whites of his eyes shining with excitement, his patomime indicating important news...

"It sho' am de strangest ting, Massa Jack, ebber I prognosticated. I was jest comin' roun' de corner ob Sheepy Joe's shebang..."

"Yas, sah; he's whiskers was blowin' roun', an' I could eben yeah him cussin' he boss, when he done shy at a man what got up sudden like from a cart-wheel..."

"Did they speak to one another?" Keith asked, anxiously. "Did you hear what was said?"

"Sho' dey talked, Massa Jack. I sorter reckon dey was dar for dat special purpose. Sutt'nly, sah, dey went right at talkin' like dey had som'ting on dey minds..."

"What was that, Neb?"

"Som'ting 'bout a gal, Massa Jack—an' a law suit—an' how de ol' man better settle up widout no fightin'..."

CHAPTER XXVI.

A Chance Conversation. The opportunity thus so unexpectedly afforded was not one to be wasted...

"I am, indeed, most fortunate to discover you alone, Miss Maclaire," he said, avoiding her eyes by a swift glance over the table...

"Then, possibly, you may rather welcome a new diversion. I can assure you our criminals out here are the most interesting portion of our population. I wish I might have your permission..."

tion to all this mystery. Waite believed Hawley possessed them, but did not suspect that Bartlett and Hawley were the same person.

"Any train running east?" "Well, they generally start one out every day," with a glance toward the clock...

"The other girl!" in complete surprise at this swift return. "Yes, sir," conscious of having attained the upper hand...

"To what do you refer?" apparently forgetful as to where their conversation had been broken.

"No, doctor; I am Miss Maclaire." "Ought to have known it—if I knew as much about faces as I do about anatomy never would make such mistakes..."

"No, doctor; I am Miss Maclaire." "Ought to have known it—if I knew as much about faces as I do about anatomy never would make such mistakes..."

"Who? Hawley?" Keith questioned, hardly trusting his own ears. "Yes; indeed he is a very different man from what you have been led to believe..."

"I presume this is a public table, and I consequently have little choice in the matter, if you insist," she replied, her voice more civil than her words...

"When was all this, Neb?" "Bout de time yo' all went up on de hill, I reck'n. I done come right yere, and waited."

Keith walked across the room, selected a cigar, and came back, his mind busy with the problem. Hawley had in some manner, then, got into communication with Waite...

your theory," she said pleasantly. "I shall have to say yes, but really, I did not suppose you would enjoy being ranked among that class."

"He drew out a chair, and sat down facing her, leaning slightly forward upon the intervening table."

"Oh, indeed," rather resenting the words, and already regretful of her complacence. "Surely I have as much reason to trust my informant as I have you..."

"The other girl!" in complete surprise at this swift return. "Yes, sir," conscious of having attained the upper hand...

"Some more of Mr. Hawley's fancies," he retorted, perplexed that so much should be suspected. "Have you seen her?"

"Why, of course. I am a woman, Mr. Keith, with all the natural curiosity of my sex. In this case I had special reason to be interested."

"The resemblance between you is certainly most striking." "Sufficiently so," she said slowly, her eyes on his face...

"To what do you refer?" apparently forgetful as to where their conversation had been broken.

"No doubt," her lips smiling, "but you have come to the wrong market, Mr. Jack Keith."

"Yes; indeed he is a very different man from what you have been led to believe. I know he is a gambler, and all that, but really it is not altogether his fault..."

"Who? Hawley?" Keith questioned, hardly trusting his own ears. "Yes; indeed he is a very different man from what you have been led to believe..."

"I presume this is a public table, and I consequently have little choice in the matter, if you insist," she replied, her voice more civil than her words...

do so if the cost includes talk in Hawley. Do you know that is not even his name—that he lives under an alias?"

"Is there anything strange in that out here?" she asked stoutly. "I told you how deeply he regretted his life; that alone would be sufficient cause for him to drop his family name..."

"Bartlett!—Bartlett!" her hands clasping, and unclasping nervously. "Why, what a strange coincidence!"

"Oh, nothing—nothing," biting her lips in vexation. "The name merely recalled something. But really, I must go, Mr. Keith, or I shall be late at the theater..."

"Your resemblance almost makes me forget." "But not quite?" "No, not quite," he confessed, smiling back into her quizzing eyes...

"Always getting you two mixed," he blurted forth. "Never saw such resemblance—positively uncanny—same hotel too means trouble—this Miss Waite?"

"No, Doctor; I am Miss Maclaire." "Ought to have known it—if I knew as much about faces as I do about anatomy never would make such mistakes..."

"I Like Many People Whom Perhaps I Ought Not, Including You, Mr. Jack Keith."

take—very sorry—that fooled me was seeing you with Keith—thought he was after the other one—gay dog though—never satisfied—was hunting after you."

"After me?" evidently amused. "Certainly—you went to the room—then to the clerk—said you were in at supper—just occurred to me streets here had at night—thought I'd ask you to let me escort you to theater and back—a bit of lunch later—" he glanced suspiciously at Keith—"probably got here too late."

"Well, really, you have, Doctor," she replied sweetly, veiling her eyes to hide their laughter. "But I can assure you it is not Mr. Keith," courtesying slightly to the latter, "for he has not honored me; we merely met by chance at the table. I am sure I should enjoy your company exceedingly, but to-night I must plead a previous engagement."

"Ah—ah, some other night?" "With pleasure, yes."

The doctor faded away into the office, not wholly satisfied because Keith still lingered. Miss Christie extended her hand.
