surer. RESOLUTIONS PASSED.

The following were the resolu tions passed by the association:

Resolved, that we express our thanks to the people of Canyon for all the courtesies shown us while in their splendid city, and to the faculty of the West Texas State Normal building, for the courtesies of the visiting teachers and for valuable contributions to the program.

Resolved, That we urge all teachers of the Panhandle to attend the future meetings of this association to the end that the educational interest of this section may keep pace with the Clovis. work in the other parts of our state.

Resolved, That we favor the close of the 33rd legislature extending professional supervision to all counties having 2000 scholastics, and grouping sparsely settled counties into supervision districts, and that in our judgment the principle is so important and the need is so great as to justify the Governor in submitting this question to the called session of the legislature to meet in July next.

Resolved, That we commend Governor Colquitt's action in extended visit in Missouri. vetoing the bill granting Junior denominational colleges the were in Canyon Saturday and ols. right to issue teachers' certifi- also visited in this vicinity. cates to persons preparing to do something else.

Married Sunday.

W. Guy Ivey, of Plainview, and Miss Jessie Bates, of Hubbard City, were married Sunday evening at the W. P. Moss home, Rev. Holmes Nichols officiating. Miss Ba'es has been attending the Normal this year and Mr. Ivey was until recently a tailor at the Leader. He recently recently returned to his former home at Plainview. They have many friends in the city who wish them success and happiness in their wedded life. They left Monday for Plainview where they will make their future home.

out 10, gave 10 hits, walked 1. For Canyon: Black struck out 14, gave 8 hits, walked 1.

School Notes.

The girls basketball team o the Plainview high school came up Friday and after a series of misunderstandings as to where the game was to be played it took place Friday night at the Normal gymnasium. A very good crowd was present considering the circumstances and we wish to thank all for their pres ence at so late an hour. The game resulted in a score of 13 to 18 in favor of the Canyon H. S.

Saturday the girls and boys basketball teams of the high school entertained the Plainview girls and boys with a picnic at the six-mile-crossing. A very pleasant day was spent.

On account of the holiday Fri day the Presentation exercise was postponed until Monday at the chapel period. A beautiful cast "The Landing of the Pilgrams" was presented and we wish to thank the Senior class for so suitable a rememberance.

The Plainview girls were defeated in a very hard fought game Saturday night. score was 22 to 14.

New Telephone Directory.

At last Canyon has a new telephone directory. The last one was printed May 15, 1911, just about two years ago and it was certainly out of date. Had not the Southwestern Telegraph and Telephone Combany bought out the old company it is very doubtful if there would have ever been a new directory. The directory was published in the News office and shows a nice increase in patronage over the old directory.

Clarendon College Prosperous.

John A. Wallace returned Friday from Clarendon where he attended the meeting of the board of trustees of the Clarendon college. Mr. Wallace says that the board found the school in most excellent condition. The school work is going nicely and the finanical condition is very fine. Pres. Slover was reelected as president.

DANGEROUS CALOMEL

Safer, More Reliable Remedy Has Taken Its Place in the Drug Store and in the Home.

A few years ago, men, women and children took calomel for a sluggish liver and for constipation. They took risks when they did so, for calomel is a dangerous drug. Your family doctor will be the first to tell you this if he discovers you dosing yourself with calomel.

But the drug trade has found a safer, more pleasant remedy than calomel in Dodson's Liver

The City Pharmacy tells us that their drug store sells Dodson's Liver Tone in practically every case of biliousness and liver trouble where calomel used to be taken.

Dodson's Liver Tone is a vege table liver tonic that is absolutely harmless for children and grown people. It sells for 50c a bottle and is guaranteed to be entirely satisfactory by The City Pharmacy who will refund your money with a smile if it does not give quick, gentle relief without any of calomel's unpleasant after-effects.

Monthly Weather Report.

The monthly meteorological summary for the Amarillo station for the month of March has just been completed and issued by Local Observer T. J. Considine.

The report contains data of interest, which is worthy of general preservation. It is shown that during March there were 52 clear days, 9 partly cloudy and

The highest temperature, 80 degrees, was recorded on March 30, the lowest, 10 degrees on March 24. The greatest daily range was shown on March 30, 44 degrees, the least on March 26, 17 degrees.

The absolute maximum temperature for March for the past 21 years is shown to be 96 degrees, the absolute minimum minus 2.

Total precipitation for the was .59, with snow fall of 5.4 inches.

The total movement of the wind for the month was 10,963 miles, prevailing direction southwest. The average hourly velocity was 14.5 miles maximum velocity 48 miles per hour being reached on March 23.

Of the miscellaneous phenomena recorded, light fog is shown.

V-AVA is guaranteed not to Of course Canyon is the best injure the finest varnish you but are you telling your may have on your furniture.

Maybe We Don't See Ourselves As Others See Us.

We are aware of the fact that there are lots of families in Canyon and near Canyon who are sending to Amarillo and other towns for Dry Goods that would not do so if they knew they could get the same merchandise here in Canyon for the same money or less. The people have never thought of the several different points in this matter, and with your permission, I am going to give you a few of them. Every cent you send to Amarillo goes to build up Amarillo and her merchants, and not one cent ever comes back to Canyon.

The chances are you have ordered goods from other places and never tried your home merchant to see if he had in stock what you wanted or if he would not order some for you and in most instances better merchandise for less money than you get from catalog houses.

Is it not a fact that that the merchants of Amarillo and other towns where you send your money do not care what becomes of you or your family, whether you are sick or well, whether you have churches or schools, or what becomes of you so long as they get your money and when that plays out maybe you have had sickness in your family and it becomes necessary to have credit for a short time, do you expect Sears & Roebuck or Montgomery Ward, the people you have been buying from, to furnish you supplies for 30 or 60 days?

After you have thought this over? I want to tell you something else. We started in business two years ago on a very small scale and by constant efforts and fair dealing we have built up the best Dry Goods and Grocery business that has ever been in Canyon and we know we have many items in our store that people have sent away for simply because they thought the merchants of Canyon were too slow. Let us give you the names of a few of our leading lines of merchandise and see how they compare in quality with what you get from other towns.

Hart Schaffner & Marx clothing, Steadfast and Florsheim shoes for men; Freidman, Shelby and Lady Jefferson for ladies; Widow Jones and Hercules, all wool suits for boys; Stetson and Starr hats; the celebrated Fitz line of overalls for men and boys; also Fitz work shirts and pants. The Midland brand of dress shirts in all styles. The Knothe line of belts and suspenders. The Cadet hose for the entire family and too many other high class lines such as Seward trunks, suit cases and hand bags of all grades; and if after looking through our stock and can't be suited, tell us what it is you want and we will get it for you if it is in our power and try to save you some money in the long run.

This is not meant to tell you how to run YOUR business or I, am wiser or BETTER than the average merchant. Simply we have lots of first class goods that we will guarantee in quality and price that we must sell and we can't get the citizens of Amarillo and Kansas City or Chicago and Dallas to patronize us so we must depend on Canyon and her people in order to stay in business.

Come in and see us, we want to meet you, and when you go out of our store you will be satisfied with your purchase and we will feel better and so will our creditors.

Sheriff's Sale

Notice is hereby given that on the first Tuesday in May, A. D. 1913, being the sixth day of said month, within lawful hours, at the Court-house door of Randall County, Texas, in Canyon, Texas, as Sheriff of said County, I will sell to the highest bidder for cash: that certain tract or parcel of land situated in said Randall County, known as Survey No. Sixty-three (63), in Block No. Six (6), located by virtue of Certificate No. 1522 issued to the International and Great Northern Railroad Company and patented to said Company by Patent No. 634, Vol. 61, and containing six hundred, sixty-two and 79-100 (662.79) acres of land more or less, lying and being situated about sixteen miles N., 79 E. from the city or town of Canyon in said Randal County, Texas.

The said sale will be made by virtue of an order of sale issued out of the District Court of Travis County Texas, upon a judgment in favor of Thom s R. White, Jr., John J. Phelps and Charles W. Cox against E. Van Metre, S. S. Wright and J. W Wright on the 15th, day of February, A. D., 1913, for the sum of Fifty-nine hundred and one and 74-100 Dollars (85,901.74) with ten per cent interest thereon from said date, and costs of suit, and foreclosing the plaintiffs' vendor's lien on the land hereinabove described as the same existed on the 31st, day of December, A. D., 1908, and as it has at all times since existed against the defendants, E. Van Metre, S. S. Wright and J. W. Wright and against all other defendants in said suit, viz: Mrs. Della Bradley Gerkin, Ethel May Gerkin and Mabel Agnes Gerkin, which said order of sale bears date March 11. 1913, and the same was levied by me upon the aforesaid land on the 13. day of March, A. D., 1913. WITNESSED my hand, this the 13

day of March, A. D., 1913. Worth A. Jennings. Sheriff Randall County, Texas.

Sheriff's Sale.

Notice is here by given that on the first Tuesday in May, A. D. 1913, being the sixth day of said month, within lawful hours, at the Courthouse door of Randall County, Texas, in Canyon, Texas, as sheriff of said County, I will sell to the highest bidder for cash: that certain tract or parcel of land situated in said Randall County, Texas, known as Survey No. Twenty-nine (29), in Block No. Six (6), lodated by virtue of Certificate No. 1488 issued to the International and Great Northern Railroad Company and patented to said Company by Patent No. 20, Vol. 66, and containing six hundred, sixty three (663) acres of land more or less, lying and being situated about fifteen miles N., 70 E. from the city or town of Canyon in said Randall County,

The said sale will be made by virtue of an order of sale issued out of the District Court of Travis County, Texas, upon a judgment in favor of Thomas R. White, Jr., John J. Phelps and Charles W. Cox. against E. Van Metre, S. S. Wright and J. W. Wright on the 15th, day of February, A. D., 1913, for the sum of Six thousand, one hundred and three and 53-100 Dollars (\$6,103.53) with ten per cent interest thereon from said date, and costs of suit, and foreclosing plaintiffs' verdor's lien on the land herein above described as the same existed on the 31st, day of December, A. D., 1908, and as it has at all times since existed against the defendants, E. Van Metre, S. S. Wright and J. W. Wright, and against all other defendants in said suit, viz: Joseph Desjarlais, Mrs. Sue Herald Bentner and her husband William Bentner, which said order of sale bears date March 11, 1913, and the same was levied by me upon the aforesaid land of the 13, day of March, A. D., 1913. Worth A. Jennings.

Sheriff Randall County, Texas.

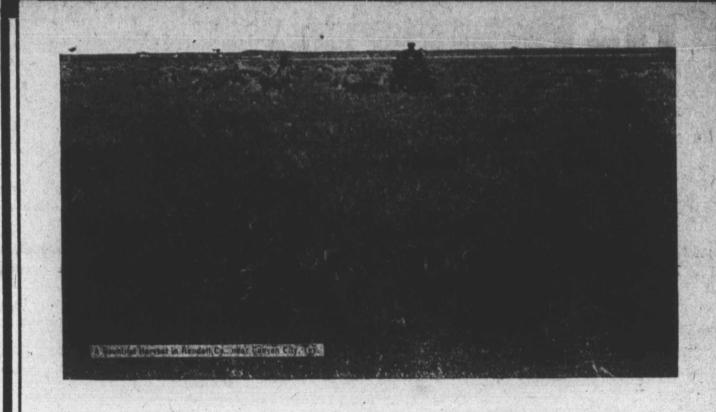

Straight at It.

There is no use of our "beating around the bush." We might as well out with it first as last. We want you to try Chamberlain's Cough Remedy the next time you have a cough or cold. ersack were secure, he reached back into the darkness, grasping the form of the unconscious girl. He stood erect with her held securely in his arms, strands of hair blowing against his cheek, listening intently, striving Ask for Catalogue and Price List with keen eyes to penetrate the black curtain. The wind was fortunate, blowing steadily across the flat from the river, and they were surely invisible against the background of the overhanging bluff. He did not even feel it necessary to grouch low to finding the unconscious girl lying exactly as he had left her. As he clasped her form in his arms, her lips uttered some incoherent words, but otherwise she gave no sign of life. "Yes, yes," he whispered close to her ear, hoping thus to hold her stlent.

"It is all right now; only keep still." He could feel her breathing, and realized the danger of her return to consciousness. If she should be frightened and cry out, their fate would be sealed. Yet he must accept the chance, now that he knew the way to be clear. He held her tightly in both arms, his revolver thrust back into its holster. Bending as low as he could with his burden, feeling carefully through the darkness before advancing a foot, he moved steadily forward. Where the gully deepened their heads were at the edge of the bank, but much of the way was exposed, except for the dark shadows of the slope. Fortunately there were clouds to the west, already he clasped a child. Bearing obscuring that half of the sky, but to was going to be easier the east nothing was visible against ance. It seemed an interminable than he had supposed; the excitement the faint luminousness of the sky-line. time before his finger pressed the yielded him a new measure of Once, far over there to the left, a gun trigger. Then came the report, a flash strength, yet he went forward very was fired, the flame splitting the night of flame, and the powder smoke blown slowly, feeling along, inch by inch, asunder, and against the distant reflection a black figure rose up bedischarge, she yet saw that black The earth was hard-packed and would tween, only to be instantly snuffed out smudge leap upright; again the Henry leave little trail; there were no leaves, again. There is no hotel over in those sandhills. Now hold on tight." He swung her easily to his broad

shoulder, clasping her slender figure closely with one arm.

"That's it! Now get a firm grip. I'll carry you all right."

To the girl, that passage was never more than a dim memory. Still partially dazed from the severe blow on her head, she closed her eyes as Hamlin stepped cautiously down into the stream and clung to him desperately, expecting each moment to be flung forward into the water. But the Sergeant's mind was upon his work, and every detail of the struggle left its impress on his memory. He saw the dark sweep of the water, barely visthle in the gleam of those few stars unobscured by cloud, and felt the sluggish flow against his legs as he moved. The bottom was soft, yet his feet did not sink deeply, although it was rather difficult wading. However, the clay gave him more confidence than sand underfoot, and there was less depth of

"Tell Me, Are You Hurt?"

water even than he had anticipated. He was wet only to the thighs when he toiled up on to the low spit of sand, and put the girl down a moment to catch a fresh breath and examine the broader stretch of water ahead. They could see both shores now, that which they had just left, a black, lumping, dim outline. Except for the lapping of the water at their feet, all was deathly still. Even the Indian fire had died out, and it was hard to conceive that savages were hidden behind that black veil, and that they two were actually fleeing for their lives. To the girl it was like some dreadful delirium of sleep, but the man felt the full struggle. There was a star well down in the south he chose to guide by, but beyond that he must trust to good fortune. Without a word he lifte mer again to his should a, and pushed on.

The water and deeper, shelving off rapidly, until it rose well above his waist, and with sufficient current so that he was compelled to lean against it to maintain balance, scarcely venturing forward a foot at a time. Once he stumbled over some obstruction, barely averting a fall; he felt the swift clutch of her fingers at his throat, the quick adjustment of her body, but her lips gave no utterance of alarm. His groping feet touched the edge of a hole, and he turned, facing the current, tracing his way carefully until he found a passage on solid bottom. A bit of driftwood swirled down out of the night; a water-soaked limb, striking against him before it was even seen, bruised one arm, and then dodged past like a wild thing, leaving a glitter of foam behind. The sand-dunes grew darker, more distinct, the water began to grow shallow, the bottom changing from mud to sand. He slipped and staggered in the uncertain footing, his breath coming in quicker gamps, yet with no cessation of effort. Once he felt the dreaded suck about his ankles, and broke into a reckless run, splashing straight forward, falling at the water's edge, yet not before the girl was resting safely on the soft sand.

Strong as Hamlin was, his muscles trained by strenuous out-door life, he lay there for a moment utterly helpless, more exhausted from the pervous strain indeed, than the physical exertion. He had realized fully the desperate nature of that passage, expecting every step to be engulfed, and the reaction, the knowledge that they had actually attained the shore safely, left him weak as a child, hardly able to comprehend the fact. The girl was apon her feet first, alarmed and socitous, bending down to touch him with her hand.

"Sergeant, you are not hurt?" she

"Oh, no," dragging himself up the bank, yet panting as he endeavored to speak cheerfully. "Only that was am short of breath. I shall be all right in a moment."

There was a sand-dune just beyond, and he seated himself and leaned against it.

"I am beginning to breathe easier already," he explained. "Sit down here, Miss McDonald. We are safe enough now in this darkness."

"You are all wet, soaking wet." "That is nothing; the sand is warm ret from yesterday's sun, and my clothes will dry fast enough. It is be ginning to grow light in the east."

The faces of both turned in that diection where appeared the first twiight approach of dawn. Already were visible the dark lines of the oposite shore, across the gleam of waer, and beyond appeared the dim outine of the higher bluffs. The slope beween river and hill, however, renained in impenetrable darkness. The ninds of both fugitives reverted to

the same scene—the wrecked stage with its dead passengers within, its savage watchers without. She lifted her head, and the soft light reflected on her face.

"I-I thank God we are not over there now," she said falteringly.

"Yes," he admitted. "They will be creeping in closer; they will not wait much longer. Hard as I have worked. can't realize yet that we are out of those toils."

"You did not expect to succeed?" "No; frankly I did not; all I could do was hope—take the one chance left. The slightest accident meant betrayal. I am ashamed of being so weak just now, but it was the strain. You see," he explained carefully, "I've been scouting through hostile Indian country mostly day and night for nearly a week, and then this thing happened. No matter how iron a man is his nerve goes back on him after a while."

"I know. "It wasn't myself," he went on doggedly, "but it was the knowledge of having to take care of you. That was what made me worry; that, and knowing a single misstep, the slightest noise, would bring those devils on us, where I couldn't fight, where there

was just one thing I could do." There was silence, her hands pressed to her face, her eyes fixed on him. Then she questioned him soberly:

"You mean, kill me?" "Sure," he answered simply, without looking around; "I would have had to do it-just as though you were a sister of mine."

Her hands reached out and clasped his, and he glanced aside at her face,

seeing it clearly. "I-I thought you would," she said, her voice trembling. "I-I was going to ask you once before I was hurt, but-but I couldn't, and somehow I trusted you from the first, when you got in." She hesitated, and then "How did you know I was Molly McDonald? You never asked." The Sergeant's eyes smiled, turning away from her face to stare out across

"Because I had seen your picture." "My picture? But you told us you

were from Fort Union?" "Yes; that is my station, only I had been sent to the cantonment on the Cimarron with dispatches. Your faher was in command there, and worried half to death about you. He could not leave the post, and the only officer remaining there with him was a disabled cavalry captain. Every man he could trust was out on scouting servce: He took a chance on was Maybe he liked my looks. I don't know; more probably, he judged I wouldn't be a sergeant and entrusted with those distches I'd just brought in, if I wasn't considered trustworthy. Anyhow I had barely fallen asleep when the orderly called me, and that was what was wanted-that I ride north and head

"But you were not obliged to go?" "No; I was not under your father's orders. I doubt if I would have consented if I hadn't been shown your picture. I couldn't very well refuse

She sat with hands clasped together, her eyes shadowed by long lashes. "I should have thought there would have been some soldiers there-his own men."

"There were," dryly, "but the army ust now is recruited out of pretty tough material. To be in the ranks is almost a confession of good-for-nothingness. You are an officer's daugher and understand this to be true."

"Yes," she answered doubtfully. "I have been brought up thinking so; only, of course, there are exceptions." "No doubt, and I hope I am already counted one.'

"You know you are. My father

rusted you, and so do I." "I have wondered sometimes," he said musingly, watching her face barely visible in the dawn, "whether those of your class actually considered us as being really human, as anything more valuable than mere food for powder. I came into the regular army at he close of the war from the voluneer service. I was accustomed to discipline and all that, and knew my place. But I never suspected then hat a private soldier was considered a dog. Yet that was the first lesson was compelled to learn. It has been pretty hard sometimes to hold in, for here was a time when I had some social standing and could resent an in-

sult." She was looking straight at him. surprised at the bitterness in his

"They carry it altogether too far," he said. "I have often thought that

mostly the young officers, the West Pointers—and yet you know that the majority of enlisted men are-well, iragged from the slums. My father says it has been impossible to recruit a rather hard pull, the last of it, and I a good class since the war closed, that the right kind had all the army they wanted."

"Which is true enough; but there tre good men nevertheless, and every commander knows it. A little considsrate treatment would make them bet-

er still." She shook her head questioningly. "I do not know," she admitted. "I suppose there are two viewpoints. You were in the volunteers, you said. Why

lid you enlist in the regulars?" "Largely because I liked soldiering, or thought I did. I knew there would se plenty of fighting out here, and, I elieved, advancement."

"You mean to a commission?" "Yes. You see, I did not understand hen - the impossibility, the great gulf ixed. I dreamed that good fortune night give me something to do worth while.

"And fate has been unkind?" "In a way, yes," and he laughed ather grimly. "I had my chance wice; honorable mention, and all

that, but that ended it. There is no bridge across the chasm. An enlisted man is not held fit for any higher position; if that was not sufficient to bar me, the fact that I had fought for the South would."

"You were in the Confederate army? You must have been very young."

"Oh, no: little more than a boy, of course, but so were the majority of my comrades. I was in my senior college year when the war broke out. But, Miss McDonald, this will never See how light it is growing. There, they have begun firing already. We must get back out of sight behind the sand-dunes"

CHAPTER X.

The Ripening of Acquaintance. They needed to retire but a few steps to be entirely concealed, yet so situated as to command a view across the muddy stream. The sun had not risen above the horizon, but the gray dawn gave misty revealment of the sluggish-flowing river, the brown slope opposite, and the darker shadow of bluffs beyond. The popping of those distant guns had ceased by the time they attained their new position, and they could distinguish the Indiansmere black dots against the brown slope-advancing in a semicircle toward the silent stage. Evidently they were puzzled, fearful of some trickery, for occasionally a gun would crack viciously, the brown smoke plainly visible, the advancing savages halting to observe the effect. Then a bright colored blanket was waved aloft as though in signal, and the entire body, converging toward the deserted coach, leaped forward with a wild yell, which echoed faintly across the water.

The girl hid her face in the sand, with a half-stifled sob, but the Sergeant watched grimly, his eyes barely above the ridge. What would they do when they discovered the dead bodies? -when they realized that others had eluded their vigilance during the night? Would they be able to trace them, or would his ruse succeed? Of course their savage cunning would track them as far as the river-there was no way in which he could have successfully concealed the trail made down the gully, or the marks left on the sandy bank. But would they imagine he had dared to cross the broad stream, burdened with the girl, confronting almost certain death in the quicksand? Would they not believe rather that he had waded along the water's edge headed west, hoping thus to escape to the bluffs, where some hiding-place might be found? Even if they suspected a crossing, would any warriors among them be reckless enough to follow? Would they not be more apt to believe that both fugitives had been sucked down into the treacherous stream? Almost breathless Hamlin watched, these thoughts coursing through his mind, realizing the deadtrap in which they were caught, if the Indians suspected the truth and essayed the passage. Behind them was sand, ridge after ridge, as far as the eye could discern, and every step they took in flight would leave its plain trail. And now the test was at
