THE OLD TIME RESIDENTS

Rains Start Saturday Morning and has Continued Throughout Most of the Week.

LONG RAINS

The Panhandle country is wet and wet deep. After the large number of rains throughout the fall, another fine rain started in Saturday morning and has been pouring down most all week.

Exclamations of joy and happiness are heard on every hand in spite of the deep mud and slush. The farmers are confident of an old time bumper crop next year and the business man is looking for next year to break all records for business in his shop or store.

"It's the best we have had for six years" is the general comment on the rains. Several old timers say that when early winter rains fall as they have been doing there will always be abundance of snow in late winter and this will pave the way for spring rains.

One man who has had considerable experience raising wheat expressed his believe that with the excellent growth made moisture will be needed in the While here they were guests at spring to make a good crop. Cattle are living on the wheat

Canyon School Notes.

Some of the students of the high school entertained the high school Saturday afternoon Nov. 5 with a debate. The subject was, "Resolved; That the United States should intervene and put an end to the war in Mexico." In this debate the affirmateve won. The rest of the afternoon was given over to readings by some of Mrs. Shinn's expression pupils.

Another program will be rendered on the afternoon of Dec. 6. The subject for debate this time is, "Resolved: That the same restrictions should be thrown around the life of the boy that are thrown around the life of the girl." We hope to keep this up and give a program every two weeks for the remainder of the term.

A Texas Arizona Thanksgiving.

Some of our Canyon friends might wonder how we spent our Thanksgiving in Arizona, and if we really had a nice time. Well I reckon we did. There were 27 Texans met at Old Camelback Mountain 9 miles from Phoenix with all the good things to eat that Texas women can fix and 1 1-2 miles before we got to our camping place we stopped at a large orange orchard and got about 1-2 bushel of oranges and picked them ourselves. (Now don't say anything about the ones we put in our pockets.) The man we got them of was a Texan and orce lived in Amarillo (a Mr. Fugua) and after reaching camp and having a general hand shaking, some of us not having met for years, ninteen of us started the climb, only two of the number reaching the top.

This mountain from a distance looks just like a camel lying down in the middle of a desert and from nose to tail is 3 1.2 miles and from base to top of hump is 2500 feet and very rugged and covered with granite boulders and scattered promisuously all the way up the side were the post like or tree cactus and the Paloverde. These cactus grow from 6 to 18 inches in diameter and from 10 to 30 feet high. The Paloverde grows about like our Texas Mesquet. The bark from bottom to top of limbs is a slick shiny olive green.

When reaching the top of this mountain at an elevation of 4,000 feet one can stand with his face toward the head and look down to the right into the Paradise Valley and to the left into the Great Salt-river Valley looking down onto the the beautiful alfalfa fields, orange, date and olive orchards and can see Phoenix, Glendale, Oklahoma, Tempe, Mesa, Chandler and Scotsdale. Vice Pres. Marshall has a home at Scotsdale and has just recently been there.

The Juniors Entertain.

Monday evening November 24, the Junior class held a delightful entertainment at the Normal college. Disagreeable as the night proved to be, it did not prevent the majority of the members from attending. Also the faculty, which was invited, was well represented. When the guests arrived they were conducted to the auditorium. After all had gathered here they were asked to repair to the gymnasium. This hall was scarcely recognizable in its decorations of flowers, penants and streamers. Since many of the class were but "bowing acquaintances" the entertainment committee suggested "Progressive Conversation" which proved a very clever way of becoming acquainted. Contests, games and conundrums of varied and novelty sort in which 'all took an interest in order. About 10 o' clock the most delicious refreshments were served from the "college kitchen." Again the guests were engaged in games which however old are always new when new members participate. But as is ever the case the pleasure must be, interferred with by the more prosaic fact that on the morrow assigned lessons must be recited. And without some rest in the arms of Morphens this task would indeed be a strenuous one. Realizing this the guests expressed to the committee their appreciation for the effort exerted to entertain the members of the class and faculty, then with cheery 'goodnights' they took leave, firm in their belief that they had spent the most pleasant evening ever experienced in the college but with anticipations of many more equally delightful.

Dear Santa Claus:-

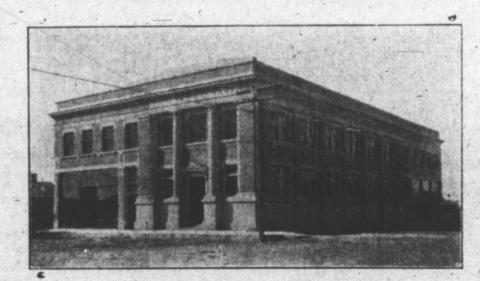

I am a little girl almost 8 years old; there is so many thing we would like to have you bring for us, but we know you can't bring them all I will write some of them so you will not bring us something we do not want.

Mama says she would like best of all for you to bring her a nice set of dishes, a coffee perculator, some nice silver knives and forks and spoons. Papa wants a new gun so he cen go duck hunting. Brother James wants a new saddle and pair spurs, so he can ride his new horse, Dan. Johnny wants a pair of skates and a pocket knife. Baby brother wants a new red wagon, one with rubber tires preferred. Willie wants a new tricycle. Aunt Molly wants some nice hand-painted china. Aunt Sally would like a nice hand-painted chocolate set and a butcher knife. Uncle John needs an alarm clock to wake him up. Mama says we really need a new cook stove and some cooking utensils.

Dear Santa Claus, there is so many nice things that we would like to have. If you will bring us some of all the nice useful articles you can get at Thompson Hardware Co's. store, east side of square, we will be perfectly satisfied.

THE OLD TIN CAN.

It is seldom that an editor becomes sentimental, but once he become that way he is the most sentimental person on earth. Editor Brown of the Hale-County Herald, Plainview, is a very bright and progressive young editor who publishes a most excellent newspaper. Last week he became sentimental and uttered one of the most beautiful little odes to the old tin can that we have read recently. Here it is: "The tin can has played-is playing - a conspic uous part in civilization. On the outposts of the pioneer you will find the tin can. It annihilates distance like the telephone. It rivals the refrigerator for equalizing distances. Is ties Maine and California, the Lakes and the Gulf - the millionaire and the peasant - winter and summer.

Underground New York. New York's underground population is sufficient to make a city of considerable proportions, for according to the best obtainable statistics about 20,000 persons in New York City spend their entire working hours beneath the surface of the earth. These figures include employes on systems of subways now in operation, and the large crew driving that wonderful aqueduct throughout the Island of Manhattan and over into Long Island to sarry the waters that are being brought down by siphon from the Catakill mountains. Thousands are also nployed at other work.

Home Efficiency Means Skilled Purchasing.

(By W. Holt Harris, Ft. Worth Chairman Mercantile Committee Texas Business Men's Ass'n.)

Home efficiency is as important as business efficiency and the problems of the average housewife require as much thought and study as those of the directing head of our largest industrial institution. The efficiency of the housewife, like that of the successful business man is measured by the distance she makes her dollar travel, and her success is dependent upon her ability to buy. She must exert every effort to make each penny do its full duty.

There is no shorter road to efficient buying than by consulting the ads of the newspaper. Fifteen minutes spent in this manner will go a long way towards lowering the high cost of living and is well worth the time it takes. Acquire the ad reading habit and be directed to the places where your dollar is above

GOETHE AND THE CHESTNUTS

Poet, With Righteous Indignation, Objected to Practice That Is Common in This Day.

Nothing is more annoying in autumn than to have near one's wirdows a chestnut tree, the natural target fo: the missiles of youth. Goethe, whose respect for the rights of property was only equaled by his love of law and order, suffered considerably from this annoyance. The Munich News has just lighted upon a complaint made by the past to the corporation of Weimar during his stay in that city. He

"At the edge of the fields is a row of Spanish chestnut trees, and as soon as the chestnuts begin to ripen the children bombard the trees with stones without any concern for the passers-by. Nor do they confine their attentions to the trees in the road. They throw cabbages and sticks at our fruit trees, so that the owners move about their own gardens in terror of their lives and begin to despair of ever garnering their crop of fruit. Worse still, this outrageous conduct goes on in the depths of winter, when there is not a single fruit on the branches nor even a bird's nest to excite the young rascals' cupidity. Policeman Lenger, to whom I have shown some of the stones that fell on my lawn, will bear me out."

Goethe never acted precipitately: In this case he refrained from sending in his complaint immediately, and to add weight to his representations kept the letter back till new outrages had been committed, when he sent it, with this postscript added:

"I may add that this is a matter of general interest, and I can prove it. As was leaving my garden yesterday by the field gate to remonstrate with some sacrilegious young rufflans several peasants who were on their way home from working in their cabbage fields joined their voices to mine and told me that it was impossible to pass along this road, which is the only way to the fields, without incurring real

NATIONAL LOVE OF BELLS

Traveler in England Long Ago Noted the Fondness of the People for "Great Noises."

To one sixteenth century visitor at least the English seemed to be a nation of bell lovers. This was Paul Hentener, a German, who wrote of his travels in this country during the reign of Queen Elizabeth. "The English," he said, "excel in dancing and music, for they are active and lively, though of a thicker make than the French. They are vastly fond of great noises that fill the air, such as the firing of cannon, drums and the ringing of bells; so that in London that have got a glass in their heads, to go into some belfry and ring the bells for hours together for the sake of exercise."

And though bell foundries are so few in this country, we can lay claim to the oldest association of bell ringers in Europe—the "Ancient Society of College Youths." The society was established in 1637, two of the founders being Lord Brereton and Sir Cliffe Clifton, and derived its title from the vanished city church of St. Martin Vintry, on College Hill, where the youths used to practice, relates the London Chronicle. To the college youths was dedicated Stedman's "Tintinalogia," the earliest book on change ringing, which was published in 1667.

Hadn't Disturbed Him.

The poet and his friend dropped into a little side street place to continue their argument. The bartender was the only other occupant. Now and then he was called to their table to serve them. Between times he peeled potatoes and onions and carrots for the next day's free lunch. The poet and his prose friend argued vehemently, beat upon the tables, quoted yards of the best sellers and insulted each other in the most friendly and impassioned fashion in the world. At two o'clock in the morning the pair paid their bill and started for the door. Half way the poet stopped. "I hope," said he patronizingly, "that we have not disturbed you by our talk of literature?" "You never bothered me none," said the bartender, reassuringly. "I was busy peelin' perta-

Ticklish Position.

"They are in a very ticklish position," said Simeon Ford, the New York humorist, apropos of the situation in the Balkans. "Their position reminds me of Brown's:

"A friend dropped in on Brown the other night, to find him engaged in a poker game with four bachelor friends. Bottles and glasses were everywhere and cigar stubs littered the pale and costly Persian rug. Mrs. Brown, of course, was at the seashore.

"'Brown,' said the visitor severely, what would you say if your wife saw you now?'

"Goodness gracious, my prayers!" Brown answered, in an awed voice."

HE Gilders, both father and son, endured much suffering throughout the night and day that followed the scene in Mary Turner's apartment, when she had made known the accomplishment of mind anyhow, I mean. She was innoher revenge on the older man by her ensnaring of the younger.

Dick had followed the others out of her presence at her command, emphasized by her leaving him alone when he would have pleaded further with her. Since then he had striven to obtain another interview with his bride, but she had refused him. He was denied admission to the apartment, Only the maid answered the ringing of the telephone, and his notes were seeming-

Distraught by this violent interjection of torment into a life that hitherto had known no important suffering, Dick Gilder showed what mettle of man lay beneath his debonair appearance. And that mettle was of a kind worth while. He did not for an instant believe that she was guilty of the crime with which she had been originally charged and for which she had served a sentence in prison. For the rest, he could understand in some degree how the venom of the wrong inflicted on her had poisoned her nature | truth. through the years, till she had worked out its evil through the scheme of which he was the innocent victim. "Don't talk to me about her innocence. There's only one course open to you, my boy. You must give this girl up. If you don't what are you going to do the day your wife is thrown into a patrol wagon and carried to police headquarters, for it's sure to happen? The cleverest of people make mistakes, and some day she'll make one."

Dick threw out his hands in a gesture of supreme denial. But the father went on remorselessly.

"Because it's good business," the inspector replied. "We know he's a spy and a traitor and that every time he comes near us we ought to use a disinfectant. But we deal with him just the same because we have to. Now, the stool pigeon in this trick is a swell English crook. He went to Garson yesterday with a scheme to rob your bouse. He tried out Mary Turner, too. but she told Garson to leave it alone. But he met Griggs afterward and agreed to pull it off. Griggs got word to me that it's coming off tonight, and so, you see, Mr. Gilder, that's how I know.

"I see," Gilder admitted without any enthusiasm. "But why do you have your men come down over the roof?"

the door closed behind the servant, "where could these men stay out of sight until they're needed?"

There followed a little discussion which ended in the selection of a storeroom at the end of the passage on the ground floor.

"And now. Mr. Gilder," the inspector said energetically, "I'm going to give you the same tip I gave your man. Go to bed and stay there."

"But the boy," Gilder protested. "What about him? He's the one thing of importance to me."

"If he says anything more about going to Chicago just you let him go, that's all! It's the best place for him for the next few days." "You're in charge here." Burke said

to Cassidy, "and I hold you responsible, I'm coming back to get this ; bunch myself, and I'll call you when you're wanted. You'll wait in the storeroom out there and don't make a move till you hear from me, unless by any chance things go wrong and you get a call from Griggs. He's got a whistle, and he'll use it if necessary. Got that straight?" Cassidy declared into the dark room. an entire understanding of the directions.

As the men left the room Burke turned again to Gilder.

"Just one thing more," he said. "After I've gone I want you to stay up for a half hour anyhow, with the lights burning. Do you see? I want to be sure to give the Turner woman time to get here while that gang is at work."

Gilder scrupulously followed the directions of the police inspector. Uneasily he had remained in the library until the allotted time was elapsed. He fidgeted from place to place, his mind heavy with distress under the shadow that threatened to blight the life of his cherished son. Finally, with a sense of relief he put out the lights and went to his chamber.

A little disk of light touched here and there about the room, traveling very swiftly and in methodical circles. Satisfied by the survey, Garson crossed to the hall door, where he listened for any sound of life without and found none. The door into the passage that led to the storeroom where the detectives waited next engaged his businesslike attention. And here again there was naught to provoke his suspicion.

It seemed to him that everything was in readiness for the coming of his associates. There remained only to give them the signal in the room around the corner where they waited at a telephone. He seated himself in Gilder's chair at the desk and drew the telephone to him.

"Give me 999 Bryant," he said. There was a little wait. Then an an swer in a voice he knew came over the

"She don't answer!" he exclaimed. "On her way already." Griggs suggested. "I'll let her in." He drew a smail torch from the skirt pocket of his coat and crossed to the hall door as Garson nodded assent.

"God! Why did she have to come?" Garson muttered, filled with forebodings. "If anything should go wrong

He turned back toward the door just as it opened, and Mary darted into the room, with Griggs following closely at her heels. "What do you want here?" he de-

manded, with peremptory savegeness in his voice, which was a tone he had never hitherto used in addressing ber, There was only tender pleading in Mary's voice, though her words were an arraignment. "Joe, you fied to me!"

"That can be seftled later!" the man snapped. His jaw was thrust forward obstinately, and his clear eyes sparkled defiantly.

"You are fools, all of you!" Mary cried. "Yes, fools! This is burglary. I can't protect you if you are caught. How can I? Oh, come!" She held out her hands pleadingly toward Garson, phantly; and her voice dropped to beseeching. "Joe, Joe, you must get away from this house at once, all of you! Joe.

Chicago Red held up his huge hand, widery open.

"Not a chance," he declared proudly, "with that over his mug." "Now, let's get to work." Garson continued eagerly.

Mary spoke with the bitterness of defeat. "Listen. Joe! If you do this I'm

The next instant he had stepped within the room and Chicago Red had pounced on his victim, the huge hand clapped tight over the young man's mouth. There came a sound of scuffling feet, and that was all. Finally the big man's voice came trium-"I've got him!"

"It's Dick!" The cry came as a wail

Garson retired a step farther before he spoke his command, so that, though he held the torch still, he, like the others, was in shadow. "Get away, Red."

The fellow let go his grip. Freed of that strangling embrace, Dick stumbled blindly to his feet Then, mechanically, his hand went to the lamp on the table back of the couch. When the mellow light streamed forth he uttered an ejaculation of stark amazement, for his gaze was riveted on the face of the woman he loved.

"Good God!" It was a cry of torture wrung from his soul of souls. Mary swayed toward him a little, palpitant with fear-fear for berself. for all of them, most of all for him. "Hush, hush!" she panted warningly. 'Oh, Dick, you don't understand!"

all I ask. I want a few minutes to state my case. Give me that. Whether I win or lose, you men go free, and I'll forget everything that has happened here tonight." There came a muffled guffaw of laughter from the big chest of Chicago Red.

"Your safety depends on me." the young man warned. "Suppose I should call for help?"

"You would only call once," Garson said grimly. His hand went to the

noiseless weapon in his coat pocket. "Once would be quite enough." "You win," Garson said, with a half laugh. He turned to the other men

and spoke a command. "You get over by the hall door, Red, and keep your ears open every second. Give us the office if you hear anything. If we're rushed and have to make a quick getaway see that Mary has the first chance. Get that, all of you?"

Garson turned to Dick. "Make it quick, remember." Dick spoke at once, with a hesitancy that betrayed the depth of his emo-

tion. "Don't you care for me at all?" he asked wistfully.

The girl's answer was uttered with nervous eagerness, which revealed her own stress of fear.

"No, no, no!" she exclaimed. "I know you do, Mary," he asserted confidently; "a little anyway. Why. Mary, can't you see that you're throwing away everything that makes life worth while? Don't you see that?"

There was no word from the girl. Her breast was moving convulsively. "Mary, Mary" he cried. "You've got to change. Don't be so hard. Give the woman in you a chance."

The girl's form became rigid as she fought for self control. "I am what I am," she said sharply. "I can't change. Keep your promise.

now, and let's get out of this." "You can change." Dick went on impetuously. "Mary, haven't you ever wanted the things that other women have shelter and care and the big things of life, the things worth while? They're all ready for you now, Mary. And what about me? After all, you've married me. Now, it's up to you to give me my chance to make good. I've never amounted to much. I've never tried much. I shall, now, if you will have it so, Mary-if you'll help me.
