## **NEW OFFICERS IN** RANDALL COUNT

The commissioners court approved the bonds of the county officials at their meeting last county this week. week and all of the changes to be made in the court house transpired during the last few days. The bonds of the following officers were approved:

T. V. Reeves, county and district clerk.

J. C. Black, assessor. Rector Lester, attorney.

W. C. Baird, commissioner precinct number one.

C. H. Stratton, constable precinct number one. All of the other county offi-

cials hold their offices for another term. The following salaries were

fixed by the commissioners: County judge, \$62.50

County judges as exofficio school superintendent, \$85 per month.

Clerk for indexing records and exofficio services as clerk of the commissioners court, \$40 per month.

Clerk for keeping financial ledger, \$50 per quarter.

Sheriff ex-officio, \$50 per month.

The ex-officio salary which has been given the county attorney for a number of years was cut Ritchie. off by the commissioners. Hereafter the office will pay only commissions.

#### Umbarger News.

Miss Maggie Simms came over from Joel Thursday and Mrs. Lawrence Simms and children accompanied her home.

Mr. Dunlap is taking horses and machinery to Panhandle to put in fall wheat.

Nick Hollenstein will move to the L. Bader farm north of Can-

you next month. Mr. and Mrs. Rose are hauling the lumber for an addition to

their house. Mrs. Walter Hancock left for Virginia on a visit.

Mrs. Hugh Wansley of Okla. formerly of this place, is reported to be very low with paralysis. Miss Mary Pickens spent Sun-

day at the L. Williams home. There will be quarterly meeting at the Umbarger M. E. Church Nov. 28 and 26. Revs. Hicks and Travis will conduct the meeting.

## Basketball Monday.

The Canyon second basketball team will play Tulia next Monday night at the old opera house at 7:30 o'clock. The following is the line up of the team: Starr center, Hicks, Prichard forwards, Shotwell, Gamble guards.

Tulia has badly beaten the high school and the Rip Rams teams from Canyon and the seconds will now take them on.

### Shot Big Eagle.

Charles Weber shot a Mexican eagle Saturday on the Costley place north of the city which feterita going on at a lively rate. measured 8 feet from tip to tip Not much wheat sown on account and weighed 14 pounds. ## The Ambition of Mark Truitt

HENRY RUSSELL MILLER

THE MAN HIGHER UP," "HIS RISE

(Copyright, 1913, by The Bobbs-Merrill Company)

SYNOPSIS.

Mark Truitt, encouraged by his sweetheart, Unity Martin, leaves Bethel; his native town, to seek his fortune. Simon Truitt tells Mark that it long has been his dream to see a steel plant at Bethel and asks the son to return and build one if he ever gets rich. Mark applies to Thomas Henley, head of the Quinby Iron works, for a job and is sent to the construction gang. His success in that work wins him a place as helper to Roman Andarejaski, open-hearth furnacemian. He becomes a boarder in Roman's home and assists Piotr, Roman's son, in his studies. Kasia, an adopted daughter, shows her gratitude in such a manner as to arouse Mark's interest in her. Heavy work in the linense heat of the furnace causes Mark to collapse and Kasia cares for him. Later Roman also succumbs and Mark gets his job. Roman resents this and tells Mark to find another boarding place. Five years elapse during which Mark has advanced to the foremanship, while his labor-saving devices have made him invaluable to the company. In the meantime Kazia has married one Jim Whiting. Mark meets with an accident which dooms him to be a cripple for life. He returns to Bethel intending to stay there. He finds Unity about to marry another man and wins her back. Unity urges him to return to his work in the city. Mark rises rapidly to wealth and power in the steel business, but the social ambitions of his wife make their married life unhappy. The big steel interests are secretly anxious to get hold of stock in the Iroquois Iron company, supposed to be worthless. Timothy Woodhouse seeks financial assistance from Mark and the latter buys Woodhouse's Iroquois stock at a small figure. Henley forces Quinby to let Mark have stock in the Quinby company, through a threat that if he does not he will lose both of them.

CHAPTER XV-Continued.

It was the less satisfying because he foresaw the end of a chapter. He had spent himself: in body-he was no longer capable of long intense application, he had fallen back upon the invalid's last resort, drugs; in mindthe creative faculty seemed dead, that very morning a young man in the mills had announced an important invention that was to have been Truitt's mag- you s'pose we'd let you help us?" num opus and upon which his sterile brain had labored in vain; in soulhe could no longer dream. And for reward he had-the dry fact of a triumph he could not sense and the pros- a laugh, as though he pondered some pect of an empty, useless, discontented future.

He was a critic, you see; but not of himself. The world was out of away. Mark watched him until he

Passers-by were diverted from their own cares by the sight of a well- pityingly. "He's mad." dressed man stamping his cane on It was not Mark's habit to waste do as I do, desire as I desire and find content. Why can't I be contentedand happy?"

A thousand faces streamed past him, unrecognized and unrecognizing. Then, at a corner where two currents dammed each other, appeared one pale, morose, matching well the general shabbiness of its owner. At first beard, did not recognize him.

The man had no doubts. At sight the sullen eyes. "You!"

By the hate that had lived through fifteen years Mark placed him. "Piotr Andzrejzski!"

"Peter Anderson," the man corrected him.

"That's a good American name. I'd forgotten you had a preference." Mark smiled and held out a friendly hand.

"How are you Peter Anderson?" The hand was ignored. When Peter Anderson sneered, his homeliness became almost grotesque. "Since you're so interested, I man-

age to keep alive."

"How do you manage it?" "I'm a compositor on the Outcrywhen there's any money for an issue."

"The Outery?" "You'll hear of it yet. It's the paper of our Cause."

Mark knew of but one cause that employed the capital. "Socialism, I suppose." He smiled indulgently. "I

hope it's in funds sufficiently often." "I look it, don't I?" The answer was so obvious that

Mark avoided it, "How," he asked hastily, "is Roman?" "He breathes and sleeps and eats. But he's dead."

"Is that a Socialist parable? I'm not a Socialist, so you'll have to ex

"His mind's gone. It began to go soon after you stole his job. But probably you've forgotten that, too."

have no recollection," said Mark coldly, "of any such occurrence." With

a curt nod, he passed on. He had gone but a few steps when he halted and looked back. Peter, undful of elbowing pedestrians, was

etfil at the corner, glazing at him.
Impulsively be turned and retraced

"See here, Plotr," he said. "Let us not use hard names. There are a good my things we'd never agree on, But we can agree on this-you're hard up. I've been luckier than you. What can do to help you?"

Plotr's lips formed a surly, "Nothok of transparent craft displaced

o you mean that?" he asked sue-

m not in the habit.-" n't care about your habits," interrupted ungraciously. "If

you want to do something, you can

lend me a hundred dollars."

business. Of course, I will. I wish you'd asked me something harder. Come along to the bank." The bank was a few blocks away.

Mark improved the time by asking the details of Roman's circumstances. Piotr, sullenness not lifted by the prospect of money, answered shortly. It was a pitiable story of descent-of the gradual dissipation of the savings of Roman's active years and the swift failure, through idleness and too much alcohol, of his mental powers, leaving him and Hanka dependent upon Piotr's scanty and uncertain earnings.

"Where," Mark asked, as they entered the bank, "do you live now?" "Rose Alley."

"Rose Alley!" Mark stopped short. My God!" "What does your sort know of it?"

"Quite enough. Come along." A few minutes later they were in the street again, Piotr the richer by the sum he had asked.

They stood facing each other-the strong man who had conquered and the inefficient, one of life's guerrillas, who had just taken of the strong man's largess. But the inefficient was not grateful; a hundred doilars could not conquer his hatred.

"I s'pose," he sneered, "you want me to thank you?"

"No. If you need more, come to me. And, see here, Piotr, I want you to get Roman and your mother away from Rose Alley."

"You want-!" The money in his pocket, Piotr threw craft to the winds. What have you to do with us? Do "But you took-"

Piotr chuckled-a chuckle of triumphant malice. "Did you think it was for us?" The chuckle grew into mammoth jest. "You-you-have just paid for the next issue of the Outcry!" He wheeled and went haltingly

turned a corner. "Poor devil!" Mark shook his head

the pavement and muttering aloud: precious hours wandering the crowded for a brief meaningless clasp. city streets in introspective meditation. He now went to the appointment with his lawyer to keep which he had left Henley.

It was a long and tedious consultation, having to do with a big real estate deal in which Truitt had shown his customary shrewdness. He disthat seemed oddly familiar. It was of played little interest. More than once an undistinguished homeliness, pasty | Shirley, the lawyer, had to recall his straying attention. Shirley was astonished at this; his client was notable Mark, confused by the dirty brown for his concentration on the matter in hand. He would have been even more deeply astonished, could he have of Mark an evil glitter sprang into looked upon the picture that lured away Mark's thoughts. But then, for

She Looked at Him Steadily, Showing No Surprise.

Shirley, the name of Rose Alley would have raised to life no dead memories. Shirley's astonishment, however, reached its climax at the close of the consultation.

"It's a good deal," he remarked, "for

Mark answered with a nod and opened another subject. "I don't suppose Timothy Woodhouse left much."

"Practically nothing." "How does our case stand?"

"We'll win it." "You're sure of that?"

"Absolutely. His estate will never push it to trial." "Then settle it."

Shirley whistled his surprise. "Has the philanthropic bee stung the whole by concern?" he grinned. "I wouldn't do that, though. It would As a lawyer, I made their resolve, take its consumbe an admission. couldn't advise-"

"I don't ask advice. Settle it." Shirley waved a concessive hand. "It's your case, of course. For how much? They'll take any figure." "For whatever you think fair. No

as a lawyer, however. Think of it," Mark smiled wryly, "as a gentle: if the word means anything to you." "It's your case," Shirley repeated "But my notion is, people will think you don't want the publicity—for so-cial reasons. That sort of talk—"

Mark rose abruptly, "I can't help," he replied, with an impatient frown,

as soon as you can." But the day's adventures were not ended. The ghost of Timothy Woodhouse could not oust Rose Alley from Mark's mind.

The blacks, ordered by telephone, waited him. Swiftly, Mark holding the reins, they were guided across a bridge, along rough-paved, tumbledown streets, into a quarter such as their aristocratic feet had never trod.

Grime and decay were everywhere.

It was 15 years since he had seen Rose alley, but he found the way as though he had taken it but yesterday. He drew up at the mouth of a narrow shallow court, and giving the reins to his man, got down from the

trap. A few children-dirty, sallow, under sized-had been playing in the court. With difficulty, for they had not his tongue and were afraid of the stranger, he learned from them in which tenement Peter Anderson lived.

ingly under his tread. He found a door and knocked. It opened. . . For a full minute, speechless, he stared at the woman who stood on the threshold

He groped and stumbled up two

flights of stairs that groaned protest-

CHAPTER XVI.

Glowing Embers. The figure silhouetted in the door way was one to make men dream, full curved, strong with the strength of women whose forbears have always toiled, yet without heaviness; it was the strength that lies in quality, not in bulk.

She looked at him steadily, showing no surprise. And by that he read that she had learned to take life, its coincidences and its climaxes as they came, calmly, without loss of poise.

She spoke first, in a low even voice that hinted even less than her manner at inner excitement. "I thought it was Piotr. Your step sounds like his." They might have been daily famil-

iars. "Yes," he flushed, "I am somewhat

in his case." He almost missed the swift glance she cast toward his cane. But he was trateful that she had no comment for his injury. In the presence of her splendid perfections his own physical shortcoming seemed almost cause for

"How do you do, Kazia?" he said gravely. "I didn't expect to find you

He held out an uncertain hand. She took it, neither hastily nor reluctantly,

come in?"

She stood aside and he entered, trying to overcome his limp. It was the kitchen, which in Rose alley-as he remembered-had to serve as living room as well. It was clean, but bare; pitifully bare. By the stove stood a little faded

woman, much stooped, her hair white and thin, her pale lack-luster eyes for the moment brightened by a startled question. He went over to her and took her hand. She shrank away from

"It is Mark Truitt, Matka," said Kazia in Polish. "Don't you remember?"

Hanka said something, in the same "She says," Kazia interpreted, "they

have never forgotten." Their eyes met again. . . . turned away quickly and went to the other occupant of the room. He sat in the only armchair, a huge mass of inert flesh, head slouched forward and fingers playing aimlessly with the longunkempt beard that reached half-way to the bulging waist. Mark laid a hand

on his shoulder. Roman looked up. But Roman saw as the new-born babe The grasp on his shoulder tightened.

'Roman, don't you know me? I'm Mark-Mark Truitt, you remember." The shoulder stirred a little under

the tight grasp. Roman's head slouched gan suggestively. "Do youforward again and he began once more his aimless twisting of the long beard.

"How long," Mark's voice had become sharp, "has he been this way?" "Almost three years."

"And here?" "A year longer." Kazia's eyes said: "What is that to you?"

"Why," he demanded, "didn't you let me know about it?" She smiled-contemptuously, as

seemed to him. "We must get them out of here,"

went on hastily. "We can't. Plotr won't let us."

"He must," Mark declared curtly. "He will not," she repeated. "I saw him today. He's crazy."

"He is, He's a good compositor and could make enough to keep them at least decently. But he prefers to work for the Outcry-for little or nothing. Generally it's nothing. He says remember saying something of the it's for the cause." "But that's no reason why he

shouldn't let me help them," She shrugged her shoulders Piotr it is, I know, because I've tried." "Then," he said, "we'll take them away and settle with Piotr afterward." He said it crisply, with the assured air of fortune's darlings who, having

mation for granted. Her faint smile "It isn't so simple as that.

"They won't go!" He stared, "Why

"For one thing," she returned quietly, "the Matka loves her son, I'll ask her."

She turned to Hanka and for several minutes the two women talked earnestly in their native tongue. Hanka shook her head continuously.

"She says," Kasia returned to Mark, "'My Piotr wouldn't like it.' " "what people think, can I? Fix it up Hanks interrupted, laying a hand on Kazia's arm and looking anxiously to-

ward the door. Kazia nedded. "She says also,", she interpreted again, "that we'd better go. It's most time for Piotr to come home. She's

right." "I think," Mark answered, "I'll stay, since I'm here, and have this out with Piotr."

"You'd better not." Her swift glance seemed to measure his physical frailty. "Piotr's temper is uncertain. He found me here once and drove me out. It-" The gloom could not quite hide the color that surged into her cheeks. "It wasn't nice."

"I'm sorry for them, but just the same, since I've started, I'll see this through and wait for Piotr."

"No, you'd better not," she repeated with cold emphasis. "You can prove your inflexibility in some other way. Piotr is apt to have been drinking and if his temper is stirred up, he'll make them suffer." She nodded toward Hanka and Roman. "Really, you're quite helpless in the matter."

"I seem to be." He laughed shortly, to conceal a disappointment as undefined as the emotion set stirring by the sight of his old friends. "But, at least, I can leave some money."

But she shut him off from this, too. "No. What money they can use without Piotr's knowing of it, I can furnish.'

He limped stiffly toward the door, more hurt than he was willing to admit to himself by the rebuff and the failure of his impulsive mission.

He went quickly out into the dark passage, that he might not have to look longer, and there awaited her. When she came, he led the way down the rickety stairs and out into the foul smelling court, lighted up now by a swaying arc lamp. "One would think," he blurted out,

"you wanted to stay there." "Do you find that so wonderful?" "I'm glad you can't. It's no place

for such as you." "Many people have lived here." "But not from choice. I know. 1 lived here once myself, before-" He hesitated a moment. "I left it to live

with Roman." She made no reply. He stopped, facing her and blocking her egress. "You're thinking my going there was to the advantage of no one but

myself?" "Why else should you have gone

"That's almost cynical, isn't it? might have had several other reasons | pulses. Of course," with obvious irony, -but didn't. At least I did you no harm."

"Neither harm nor good."

self as reduced to even a harmless change, become questioning. And the nonentity. Still, most of the virtues are negative. I believe. Though I'm had seen and known to the full the vain enough to wish I could have been | cruelties whereof he spoke. Her lips a positive influence in the making of parted. But no words fell. "Ah!" He Turned Quickly to Her Again. "Then I Did You No Harm." hip, in fact, had received an excruciating wrench. "I'm a little awkward. This is one of the things I can't get quite used to."

"I supposed it was only temporary." He shook his head briefly, as though the topic were distasteful.

"Another-you probably won't be lieve this-is an existence that continually requires little cruelties of one. Big ones, too, sometimes."

"You say-requires?" "At least, encourages. But I," he smiled unpleasantly, "am subject to regrets. And equally unprofitable im-"this is very interesting to you."

She was standing between two balustrade lamps. In their bright glow dark shadow again—as though she you?" turned and slowly mounted the stairs.

At the top she paused for an instant. "Good night," she repeated. "And thank you again." He dined alone at his club that night. The events of the day had left him depressed and strangly restless and with a strong distaste for com-

CHAPTER XVII.

Fanned Into Flame. "I'd better quit thinking of her,"

Mark told himself. A virtuous and a wise resolution. forsooth! And one strangely hard to keep. The thought-of a woman of the people, dwelling in a fine strong body whose splendid perfection the toil of the people could not diminish, whose flame it could not quenchnever withdrew entirely, at most retired into ambush whence to spring out upon him at unguarded moments, with ever increasing potency to stir

Attainment of the partnership had indeed proved to be the climax of his career with the Quinby company. Followed quickly the long imminent collapse. There was no specific ailment, save a heavy stubborn cough and the constant ache in his injured hip, which were really symptoms. It was rather a general failure of his powers. He was no longer able to whip flagging energies to the day's tasks. The cool, clear, incisive brain that could grasp a multitude of details and yet not lose "That is, you're not interested in sight of result and purpose had become cloudy, vacillating and wandering, a poor tool for the direction of a huge, intricately organized plant opmelancholy. He could not sleep without the aid of drugs. Worst of all. weakness, had broken.

"What's the matter with me?" he demanded of his physician.

"Burnt out," was the succinct reply, "What can I do?" "Nothing. And quit taking drugs." "But," habit protested, "I can't do

nothing." "It's your life," interrupted the doctor. "But you've consulted me and I propose to earn the stiff fee I'll charge you. Drop everything, go to the counsonally, I'd advise the end of the earth, because it's farthest away and

Mark asked and received from the

hours by driving through the pa They were long tedious hours, drearily empty as he had forecasted The nights, when he lay sleepless, fighting an incipient craving, were longer and drearier. Thus it was that he had leisure to think of Kazia Whiting, though at some loss to explain why the reappearance of one whom in his receded youth he had treated badly should command so much of his interest.

Nor did he admit a design when his drives took him almost daily past the Todd hospital. Nevertheless the sight of that institution was enough to evoke a faint thrill of excitement not to be laid to its barrack-like architecture, followed by a more emphatic disappointment as the neighborhood was left behind. One afternoon Kazia, in company with another young woman, emerged from the grounds as he was passing and gave him a cool impersonal nod. He guessed that it was her recreation hour and marked the time. The quick leaping interest should have been a warning to him. Perhaps it he pulled himself up to the seat. His was, for:

"I'm making a fool of myself," he growled. "What do I know of this woman?"

On the third day thereafter, at the same hour, he passed the hospital. This time Kazia appeared alone. She gave him again the cool impersonal nod and would have passed on. But he drew the horses up sharply and called: "Kazia!" She paused, hesitated a moment,

then went over to the curb. "Will you drive with me for a while?" "I ought to walk," she answered,

"Please, Kazia." It did not seem absurd to him that he pleaded. She hesitated again, then-"Yes," she said. He would have alighted to help her

"Don't get out." And she was beside him. He touched the horses with his whip and they sprang forward.

to the seat, but she forestalled him.

"You aren't well," she said abruptly. And he, ascribing to that fact her unexpected compliance, was at the moment almost glad of his disability.

"Is it obvious? I believe I'm not In fact, my doctor has ordered me to get out and play-I find it very hard work. That's why-that's one reason why-I asked you. I needed company. The circumstance," he smiled, "ought to appeal to you professionally." "Nurses are notoriously hard-

hearted." "Yes? Then I can't work on your sympathies. On the whole, I'd rather have it so. You'll have to admit it took courage to ask you to play with me, because-you'll admit again-you weren't exactly cordial the last time."

"What did you expect?" "But I expected nothing." he retorted. "I didn't know you would be at Roman's. Why, I hadn't even heard of you for-I've been counting it up-14 years. That isn't gross flattery, is it? But, of course, you of woman that likes flattery. Are

"Then you're not so sure, after all?

But I do like it." "I must remember that." He chuckled, "Playing becomes distinctly easier. Isn't it lucky I happened along by the hospital just when I did?" "But I thought-" She almost

smiled. "I thought it was a habit." "So you've seen me? Now you mention it, I may as well confess that this isn't luck, but the result of a very clever plot. I've been driving past the hospital almost every day in the sneaking hope that just this would

occur." "You say, a sneaking hope-?" "You see," he confided, "I'm easily frightened. How could I know that I'd find you so-so beautifully human?-Are you preparing to snub me for that?"

"I am considering it." The smile

was unmistakable now, "But I won't, because today is one of the days when I can't help being beautifully human. I'm so healthy that sometimes I just have to take a vacation from myself." "And I'm so unhealthy that, though I'd like to, I can't give Truitt the slip for even an hour. He's a persistent

beggar—as you may have noticed the

last few weeks." They laughed. It was a clear afternoon, beautiful with the mellow radiance of autumn sunshine. But the wind that swept sky and air clean was crisp and penetrating. To her, superbly healthy, it gave only a rare tinge of color that enhanced her charm, gave the last needed softening touch. His wasted body, despite the heavy overcoat he wore, could not resist the chill breath. But, though he knew he would probably pay later for the exposure, he would not by so much as a minute curtail the hour.

"I haven't had so pleasant-it's a puny word, but let that go-so pleasant a time in years," he declared. "I see," she laughed, "you have

taken me at my word." "But I mean it," he protested. "I'd like you to believe that I mean it." He became grave,

"Since that day at Roman's I've been thinking a good deal of what we said—about my having harmed you. If regrets-but there's nothing so useless. That sort of thing isn't easily forgiven, is it?"

"Oh, very easily." "You are thinking that I give too much significance to our little affair. do not-"

"No, I mean I have never blamed you. Of course, we were too young for it to have any lasting signific And, if I remember aright, I invited t-and so put you in what must be semed a very tragic quanda time." The most critical,

## Dress in Ancient and Modern Times By B. W. HUGHEY, Indianapolis, Ind.

Much has been said on the subject of dress since the days of the ancients and one cannot help but compare the fashions of today with the dress of 2,000

They of the era before Christ wore chitons reaching down to the feet and only a little pulled up at the girdle. It was a very large, oblong piece of woven cloth equal to about one and one-half lengths of the body. The overhanging part of the cloth was folded around the chest and back from the neck downward, the upper edge being arranged around the neck and the two open corners clasped together on one shoulder. On the open side, therefore, the naked body was visible. Often the dresses were transparent. These diaphanous dresses clinging close to the body and allowing the color of the skin and veins to be seen, have been frequently imitated with astonishing skill by Greek sculptors and painters. This all belonged to antiquity.

Many persons are agreed that there is nothing more beautiful than a woman's figure, but civilization has demanded a covering for this beauty.

If we admit such a thing as lasciviousness of dress, then the transparent bodices and diaphanous skirts of today must be wrong, and, being wrong, their effect must be bad.

If the women could hear the ugly remarks to which their attire gives rise they might eliminate the aforementioned detriments to good morals. Their plea would no doubt be that the evil remarks emanate only from

evil minds and that the higher male looks on with approval. But does he? Can that which debases the morals of the one elevate those of the

I do not wish to see women back in wider skirts, for I lay claim to an artistic temperament, and the style of the skirt today is, in my opinion, as pretty as it ever was.

My only concern is for the youth of today, and I plead that dress suggestiveness be rigidly tabooed by those women who have allowed themselves to become the slaves of fashion.

The word "religion" may mean anything which is conducted as a religious ceremony, but the word "Christianity," according to the teachings of Christ himself, includes only a life of love

to God and love to man. He himself said: "The first and greatest commandment is, Thou shalt love the Lord thy God with all thy heart" and "The second is like unto it, Thou shalt love thy neighbor as thyself," and he added, "On these two commandments hang all the law and the prophets."

This is equivalent to saying that if we love God as we should and love our neighbor as ourselves we will fulfill the law of the prophets, and this is absolutely true, for the first four commandments of Moses include duty to God and the others duty to our fellows. If we do love God as we should we will observe the first four naturally, as we will obey the others if we do love our neighbors as we love ourselves.

The golden rule was Christ's interpretation of the law, for when he said, "Whatsoever ye would that men should do to you, do ye so unto them," he added, "For this is the law and the prophets," and he illustrated this by his own life and death of love.

As the Apostle Paul put it: "Love is the fulfilling of the law, for love worketh no ill to his neighbor." So we can sum true Christianity up in one short, sweet, simple word, easily understood by any and by all-love.

Love is the law of life. The life of love is the life of heaven.

The loveless life is the life of the lost.

The life of hate is the life of hell, here and hereafter.

## Servant Problem in Japan and China By ALFRED THOMSON, Sea Francisco

The servant problem is going to be one of the most difficult facing the people of this country in a few years. The Chinese and Japanese make the best kind of servants. In every foreign

household in China and in those of the Chinese upper class the servants are men of the so-called "coolie" class. Persons in circumstances that could not be called affluent keep half a dozen servants, and the housewives and girls of the family never think of doing any of the household work.

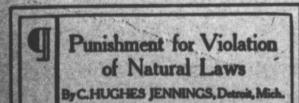

Chinese women act as nurses for the younger children and it is remarkable how faithful they are to their charges.

I have seen a Chinese woman nurse defend her little one against the punishment of its mother and take the lashes that were intended for

Notwithstanding the conditions which have made it difficult for the lower Chinese to rise, there are notable instances of servants who have become famous and influential in China.

The greatest difficulty in this country, I have observed, is to get servants who are satisfied to remain servants for any length of time. In a free country, where all the people are entitled to the same liberties, it doesn't take the servant long to beome imbued with the idea that she is out of place and she seizes the first chance to quit.

I believe we should import all of our servants from either China or Japan, and for a long time to come, if this could be brought about, the American household would not have to struggle with the question of getting servants.

Slowly but steadily the world is progressing. Ignorance, superstition and fear are giving way to knowl- ing. edge, hope and faith.

More people today than ever before realize that violation of natural laws is always punished and that the punishment is

exactly commensurate with the transgression. This truth is as universal as are the laws themselves. It applies to every side of the nature of man-mental, moral, spiritual and physical.

All the laws of nature serve one great law—the law of compensation. Man, to gain his highest estate, must apprehend this law, and, apprehending it, he must govern himself accordingly.

He must keep the law inviolate or suffer the penalty of its violation. Today medical science is seeking a cure for cancer in the emanations of radic-active substances. The experiments with radium, it is claimed, have been more or less successful. But more time and energy should be

devoted to determining the cause of cancer. Like every other abnormal condition, cancer is the result of infraction of natural law. When it is determined when, where and how the law was violated the cause of cancer will be known and its prevention and ure more readily understood and accomplished.

**Fundamental** Principles of Health

By ALBERT S. GRAY, M. D.

(Copyright, 1914, by A. S. Gray) FOOD AND DELINQUENTS.

Under a recent date an Associated Press dispatch credits Charles C. D. Hilles, formerly private secretary to President Taft, now president of the New York Juvenile asylum in Dobbs Ferry, with the discovery that bad teeth make bad boys.

What is the cause of bad teeth in children under fifteen years of age? the first line of the above and then It is universally admitted that the gives particular point to the truth of fundamental cause of the early decay the quotation by grossly misinterpretof children's teeth is anemia, a lack ing a clean cut, scientific demonstraof sufficient building material during tion of a disease resulting from the use the growing period. Obviously a lack of sophisticated food matter. of brick and mortar will result in an fect body.

ous efforts to overcome.

In the parliamentary debate on free meals, March 27, 1905, Sir William industrial schools, where the children | the rice the disease was lessened in inhad three meals a day, he found them | tensity. "bright and intelligent and being desatisfactory way." Although the chil- substances which had been removed wholesome supply of food was so pothoroughly satisfactory."

Wilson Bruce, following other witnesses before the Scottish commission in pointing out the startling superiority of industrial school children, added that if we fed and clothed the elementary school children as suitably we should "make a new race of them."

The commissioners noted this contrast between the ill-nourished elementary school children of respectable parents and well-developed industrial school children of those who have "altogether failed in their duty."

The countess of Warwick, writing has proved." in "A Nation's Youth," says: "What a fine moral have we here. Be a bad the matter in the body of the article parent, or confess yourself unable to control your own children, and they closing paragraph quoted. The whole will be attached to an industrial school, given three meals a day, largely at the expense of the ratepayers, and they will become bright and intelligent boys, developed physically and mentally in a satisfactory way."

This touches upon and brings sharply to the front the whole subject of hours cure a disease known as polycommercial battle royal is at present knowledge is there so general a lack Yeast and Certain Foodstuffs of the experience as in the fundamental one of food. It is generally admitted, and there are hundreds of proofs of the results of centuries of civilization, has gradually lost the instinct of nourish- doses of 0.02 gram (0.3 grain) rapidly ing himself until he has become the most helpless and dependent of all animals. Left to themselves under normal conditions, the beasts, guided by an innate instinct, select natural foods that enable them to live without disease. Man, on the other hand, has not only lost this instinct that the beast still possesses, but as the result of the misuse of his intelligence and his freedom to select food for himself and for such of the beasts as he has turned to domestic uses, deliberately imposes preventable diseases upon both himself and them.

Eating has become an art which has to be learned by man, and unfortunately the subject is considered so unimportant that quite generally our foods are selected on the statement of persons whose only interest is in the of note states that the vitality of the facture and sale of the commodity, and then after the purchase in this slipshod manner it is too frequently turned over to some incompetent deleterious result from a diet comkitchen drudge to be prepared for eat-

That and factors is not only woefully inade-quate in the light of modern science, of breaking your neck are equal, bebut constitutes a grave menace to the cause the principles are identical. health, to the morals, to the sanity The too free use of white flour, or and to the life of any people."

The chief reason for the improve-ment in inmates of well-governed being processed or by stupid cooking asylams and industrial schools over methods, is detrimental to health.

the rate of development shown by doubtedly lies in the fact that food matter is bought in bulk and largely on the horse-food basis, that is to say, the whole grains are bought, cooked and served, rather than the more expensive refined processed matter. Of course we are assured by "experts" that the food is "improved" and made "more digestible" by the elaborate process through which it is passed, but any successful raiser of cattle, hogs, chickens, pigeons, dogs or cats can tell of disastrous results following the feeding of any of these animals for any material period of time on "refined" food matter. And humanity still waits the coming of some Moses to free it from the bondage o' the observance of universal law to which all living things are subject.

WHITE FLOUR FOOD.

"A little learning is a dangerous thing:
Drink deep, or taste not the Pierian
spring:
There shallow drafts intoxicate the brain.
And drinking largely sobers us again."

A recent magazine article written by an "expert" on food matters misquotes

The article in question reads as folimperfect building, and the same lack lows: "We are told about biochemical of material must result in an imper- properties of wheat offals and as proof we are referred to the ravages of beri-Mr. Hilles is not the discoverer of beri from eating hulled rice. This is this truth, but none the less he is en- 'jugglery,' something on the order of titled to great credit for recognizing the magician Kellar. To be specific, and taking practical steps to combat a beri-beri is a disease that has no condangerous condition that many for nection with the whole wheat and eign governments are making strenu- white flour question. It is as remote as it can be. Beri-beri is a form of nervous disease that has affected the natives of Asia, who live mainly on Anson, then British parliamentary sec. rice, and of late years the introduction retary to the board of education, re- of hulled rice has increased the displying to Messrs. Kier Hardie and Wil- ease. It has been found that when rice liam Crooks, admitted that in the day polish was used as food along with

"From this it has been argued that veloped physically and mentally in a the rice hulls contained nourishing dren lived at home the regular and from the rice in polishing. This looked very plausible. From these facts it was tent a factor that "their condition was argued that wheat bran must also contain nourishing substances and they should not be removed from the wheat in the manufacture of flour. Fortunately, however, the subject of beriberi has been worked out scientifically. and Funk, of the Lister institute, has shown that the disease is caused by

some toxic action of rice protein. "This should show the danger of being influenced by the exaggerated accounts of white bread and hulled rice starvation, statements which have no foundation in proved facts. White bread is safe food. Polished rice is te food as scientific investigation

The discerning reader will note that controverts the finding stated in the truth is as follows:

Casimir Funk of the biochemical department, Lister Institute of Preventive Medicine, discovered that a substance could be recovered from the matter ground from the surface of rice in polishing it which would in a few sophisticated foods around which a neuritis, or beri-beri. In the Journal of Physiology, August, 1912, page 75, raging in this country. In no field of under the title, "The Preparation from of personal information founded on Substance the Deficiency of Which in Diet Occasions Polyneuritis in Birds," will be found his last report known to the present writer. In this article proposition, that man, through the Funk shows that he obtained a substance from rice polishings which in cured polyneuritis in a large number of pigeons

Underlying every happening in this universe is a law or principle, and the same principle will be found producing many widely separated results. The statement that beri-beri has no connection with whole wheat and white flour is not strictly true, because the same principle applies. Beri-beri is caused by a mineral starvation, and we know many diseases are caused by the mineral starvation resulting from the too free use of demineralized foods, including flour. The writer personally knows of large flocks of chickens being killed by feeding them on demineralized grain, and of dogs killed by feeding them on demineralized meat and white bread. Every physiologist profit to be derived from the manu- individual cell depends on a free supply of mineral matter consisting of at least three elements. It would be reasonable then to expect some definite posed largely of mineral-free matter, and the fact that all white bread eat-In order that an intelligent choice ing peoples are greatly troubled with whole wheat products is dependent not

It would be as logical to state that

> (Written for the News by two members of the Merry Maids and Matrons club.)

The most delightful social event of the season was given Thursday night when the He Merry Maids and Matrons entertained the Merry Maids and Matrons. The six rooms above the First National Bank were beautifully decorated in club colors, green and white, and white chrysanthemums were artistically arranged throughout

head of the stairs by Messrs. Keiser, Chamberlain, Luke, King and Griffin. The receiving line led to the ladies dressing room where we were confronted by a man's version of a club member's home on club day. A dejected looking rag doll sat in a chair on the back of which was a card bearing this inscription, My mother is a M. M." In a corner was a pile of trash, dust pan and broom, representing the condition of things on club day. A house dress and apron were thrown carelessly across the back of a chair. In another chair sat a He Merry Matron (in effigy) seeking vainly for comfort and consolation in the 23rd Psalm while he waited patiently for "wify" to come and them I was sick for two years with inget supper. In another corner stood an incubator eminating from which were the plaintive notes of a wee lonesome chicken, while over the door was a card bearing the familiar words, "What is home without a mo ther?" The dressing table was arranged with all the necessary toilet articles and some thoughtful man had remembered to place there two boxes of chocolate bonbons.

On leaving the dressing room fine time on the trip, the ladies were handed score cards and when each He M. M. had found his partner all were seated at tables where instead of dominoes, there were plates filled with turkey, dressing, white salad, cranberry sauce, nut salad, creamed potatoes and celery. Each gentlemen attend ed to the serving of his partner and in this way it was done quickly and with no confusion. Everything up to this time had been done so formally and with so much dignity that when Joe Gamble came in with the origi nal mixing bowl of salad followed by C. R. Burrow with the turkey roaster and insisted upon serving each one again,

were greeted with screams of

The second course consisted with pinched faces and poor blood; they of green and white cake and do not complain but appetite lags, they green and white cream. This have no ambition and do not progress. course was followed with cheese, wafers and chocolate or coffee.

> In an alcove on the way back to the reception room the guests were served with punch, George Ingham and Ben Winkelman in the punch bowl.

When the ladies were again seated in the reception room, the He M. M. members arranged themselves in a body at one end and sang a very clever and original song to the air of "Auld Lang Syne." Pres. Warwick then called the meeting to Mrs. Parker Hanna entertain- orderand Secretary Morelock ed Friday afternoon at Mrs. read the minutes of the Shaw's. ## German Spy Spends Three Artillery Is the Chief Factor in Weeks in Camp at Paris.

Poses as Joubert, French Military Air Pitot and Seeks Aviation Work, But Is Finally Exposed and Arrested.

Paris.-A German aviator has been arrested in the Boulevard des Italiens after having remained three weeks in Paris, posing as Joubert, a French military pilot, and successfully defyauthorities. His success was due in the moral effect of their detonation is spoke French perfectly and closely re- not a little affected by the dull, un- way. arrest it developed that he had come howitzers is a complete success. They

On his arrival in Paris he told a acceptable story of his escape through explode. the German lines and showed his papers, which included a French pilot's | certificate of identification belonging and wounded the effect of our shells, about with lanterns. There were beds to the real Joubert. He also wore and it was very great. At the begin-Joubert's uniform. Because Joubert ning of the war the percussion point seen beds for six weeks, and they was not intimately known by any of of our projectiles is said to have lain the airmen in Paris, the impostor was not exposed until he met an engineer of the Gnome motor works, where he had been sent to look over the motors of the machines that had been allotted to him.

The engineer had doubts of the man's identity and became confident that he was merely masquerading as Joubert while the two were riding in the Boulevard des Italiens. He induced the German to step into a cafe with him and there he called a police official and caused his companion's

The adventurous German was whisked away from a crowd which, learning who the prisoner was, began to threaten his life. When questioned by the police he admitted that he was not the real Joubert, but claimed to be Joubert's brother. He insisted that he had used the imposture merely because he was ambitious to become a military pilot and wished to be accepted speedily for active service. When informed that Joubert had no brother he was nonplused for a time. Then he sought to create the impression that he was an insane Frenchman. However, the authorities have no doubt that he is a

At latest accounts the prisoner had not been shot, as the French are anxious to learn first just how much information he has succeeded in furnishing the Germans during his three weeks' stay in Paris and how he managed to transmit it to them.

### After the Empire's Fall.

German Officer Describes the Fearful Effect of the Big Howitzers-Admits That French Cannoneers Are Skillful.

Berlin.-"Artillery is trump in this war," says a wounded German officer interviewed by the Tageblatt. He

"Our German shells are wonders. ing detection by the French aviation In addition to their destructive effect, sembled the real Joubert. After his canny noise. The showing of our field from antwerp with papers that were are actually equal to the heaviest field regular in all respects from the mili- pieces of the French, the Rimailho tary authorities. He had driven into (15.5 centimeter) howitzers. The Paris in a motorcycle side car. French shells are an effective projec-

> "In our advances we have had opportunity to observe on the French dead too high, and it is interesting to note but did not. that we first learned this from letters captured from the French

"It must be said that the French cannoneers shoot well. They keep a sharp watch, open fire as soon as they see dust rising, even at great distances, where they can reckon only on moral effect. They must also have excellent information at their disposal. Their ammunition supply is well looked after. A cessation of fire because of lack of ammunition almost never occurs. This is the more remarkable because of their system of firing, in which they seek out an area in which they assume the enemy to be present and deluge it with their fire.

"Our heavy artillery has become the terror of the enemy, and the appearance of the 'growler' (the 16 4-5 inch mortar) is always joyfully welcomed by our troops. Its effect is fearful. I have seen two massive walls of a house penetrated by it. The detonation breaks all the windows in the vicinity. Where it strikes the enemy are thrown to the ground by the air pressure. The bodies are terribly mangled and covered with a grayish-blue dust. Although our heavy artillery has no protective shield, it has repeatedly taken part in battles with direct fire and played a decisive

"When our fire is effective, the French simply abandon their guns. If it is less effective, one notices that the guns are pulled out of the line of fire. while the ammunition wagons-are left standing. They often succeed in limbering up with extraordinary quickness and getting into another position farther back. The French field piece, both as regards effectiveness and the readiness with which it can be han

Aeroplane Equals a Division. Paris.—The activity of German aeroplanes over Paris has brought up a general discussion of the value of French corps commander is quoted as "God punished us for allowing our single aeroplane was as valuable as a service in preventing surprises, and poleon after Jena scorned promptly reported by aerial scouts belabed. BERTHS IN TRENCHES

Loadon.-The English regiment that | boys that do damage. If they break annot sleep—the men with nerves so racked by the terrific struggle in the trenches on the Alsne that they cannot bring themselves to go to bedis the grimmest spectacle I have met in this war. I spent a night and a than fifty asleep. They talked about day with these men, and left them | the big sleep they were going to have rather hysterical myself only a few

We parted company and still it seems to me like a bad dream from which it is hard to wake. This regiment is made up almost entirely of Welshmen and has one of the finest secords. It was visited and congratulated by Field Marshal French. It has been mentioned in official dispatches for bravery, and now it is paying the price.

Cool Under Fire. The men did not begin to break until after the tenseness had passed. So long as they were under fire they were cool and in command of themselves. But the position they held was so exposed to fire that they had never a moment's rest, and after a month, when they were ordered back,

they went to pieces. I had spent the night before within mile of them. When I turned south from the Aisne after a night in the trenches I took refuge at a farm on a rich plateau that borders the river. It is a big establishment, employing dozens of men at ordinary times, and the house itself is built on a quadrangle 200 by 300 feet. It was almost big enough to shelter a regiment.

English Captain Appears. The owner and his son are in the army and the only persons there are two old women, an old man, and a They took me in, gave me a dinner, and we were sitting around an open fire when a bell on the great door to the courtyard rang. We went out to find a tall English captain and six sergeants.

The captain explained that he had been sent ahead to find billets for his regiment, which had been relieved by French troops. He spoke in a rapfd, nervous way, and the six sergeants seemed strangely fidgety. I acted as interpreter and assured them that the farm could shelter three companies and that a farm two kilometers farther on could take care of the rest.

Leaving three sergeants, the captain and the other three and I went on to the other farm and arranged for billets. There two sergeants remained. One returned with us and took the road back into the lines to large measure to the fact that he plainly to be observed. The enemy is show the approaching regiment the

Places for Six Hundred.

All this time I kept noticing how nervous all these men were; but it was not until I went into the comfortable hall of the farm again that I noticed how bad it was. I had ar- along the river bank. ranged for them to go to bed, but I could not induce them to do so. sergeants prepared places for men, but all night they kept knocking for all; they admitted they had not professed a desire to get into them,

The captain was the worst example I saw of a strong man going so completely to pieces. He stood 6 feet 3 inches and weighed about two hundred pounds in bones and sinew-one of the best types of Englishmen. I knew by his type that he by habit and training was reserved, but his tongue was loosened and he talked for hours. I was learning astonishing things, but tried many times to get him to go to bed. But he would not even take off his shoes. He said he could sleep better in an armchair before the fire, thing inflammable has been burned, as and in the end he never closed his

Story of Leader.

had not slept the night before, and about two o'clock in the morning fell into a heavy sleep, waking at nearly four o'clock. He was sitting, wide eyed, staring at the fire, and smoking. A few minutes later others came in. The captain said:

"Steep? How could we sleep, sitting tense all night in the trenches, knowing that the Germans were less than one hundred yards away and were watching every moment for an opportunity to overrun us? Even in the day we had to lie just behind our trenches, always alert, sleeping half an hour at a time, waked by rifles on either side, and knowing that the country was filled with spies, telling then have been set on fire with a everything we did.

AN has acquired a hunger for land which he Can call his own. The supply is limited the demand unlimited! Land values have risen to prohibitive prices in older settled states!

## The Panhandle is Ready for the Farmer

Here is a deep, rich soil, ready for the plow. An ample rainfall and a most healthful and splendid climate. Adequate railroad facilities by which to reach the markets of the world.

A return to normal climatic conditions, a greatly increased acreage of winter wheat, spring wheat, oats and barley, an unqualifiedly successful demonstration that Kaffir corn and Milo maize cannot be excelled as material for ensilage, the "better farming" spirit and the results of studying and developing this land assures a prosperous year.

Farms can be bought here now cheaper than they can later on, at prices which are certain of a steady advance as the summer and fall emigration stimulates the demand.

My farms are all favorably located, as regards towns and railroads and give the buyer a wide range in selection. All the improved farms are rented to good farmers and will produce a substantial revenue this year.

I am in a position to give terms to suit the purchaser.

Sick Headache.

Sick headache is nearly always caused by disorders of the stomach. Correct them and the periodic attacks of sick headache will disappear. Mrs. John Bishop of Roseville, Ohio, writes: "About a year ago I was troubled with indigestion and had sick headache that lasted for two or three days at a time. I doctored and tried a number of remedies but nothing helped me until during one of those sick spells a friend advised me to take Chamberlain's Tablets. This medicine relieved me in a short time." For sale by all dealers.—Advertisement

since City shops are brought conveniently close to the country customer, and city people may obtain from the country the various products of the farm.

Cures 0 d Soros, Other Remedies Wan't Care The worst cases, no matter of how long standing, are cured by the wonderful, old reliable Dr. Porter's Antiseptic Healing Oil. It relieves Pain and Heals at the same time. 25c. 50c, \$1.00.

A. K. Scott will preach in Canyon on the fifth Sunday at the Christian church. He is brother of I. W. Scott.

Mrs. R. A. Campbell visited in Hereford this week.

## STOMACH TROUBLES

Ragiand Writes Interesting and balance due on or before Letter on This Subject

Madison Heights, Va.-Mr. Chas. A. Ragland, of this place, writes: "I have been taking Thedford's Black-Draught for indigestion, and other stomach troubles, also colds, and find it to be the very best medicine I have ever used.

After taking Black-Draught for a few days, I always feel like a new man." Nervousness, nausea, heartburn, pain in pit of stomach, and a feeling of full-

ness after eating, are sure symptoms of stomach trouble, and should be given the proper treatment, as your strength and health depend very largely upon your food and its digestion.

To get quick and permanent relief from these ailments, you should take a medicine of known curative merit.

Its 75 years of splendid success, in the treatment of just such troubles, proves the real merit of Thedford's Black-Draught. Safe, pleasant, gentle in action, and without bad after-effects, it is sure to benefit both young and old. For sale everywhere. Price 25e. N. C. 128.
